**M-22(b) ALBEMARLE SOUND, N. C., AND ATLANTIC
OCEAN. (Communication between.)¹ (Croatan Sound.)**

(See p. 440.)

APPROPRIATIONS.

1843, \$15,000, act Mar. 1.
1852, 50,000, act Aug. 30.
Total, 65,000

ENGINEERS.

Chief of Engineers. **R.**, 66, 7.

SURVEYS.

R., Feb. 12, 1829 (est., \$327,734.10).
Au. Mar. 1, 1843, the expenses to be paid from an
app. of \$15,000 for sur. relating to the military de-
fenses of the frontier, inland, and Atlantic; est.²
\$2,083,037.77.¹

M-28(a)

PAMLICO SOUND, N. C.

Swash near Ocracoke Inlet; Sur.—**R.** Dec. 20,
1827; est. \$15,958 and \$43,257. (**H. D.** 482, 55th, 2d.)

M-28(b) PAMLICO SOUND (Old-House Channel), N. C.

ENGINEERS.

Chief of Engineers. **R.**, 73, 79; 74, 89.
In charge. Maj. W. P. Craighill, 1873. **R.**,
74, ii, 84.
Assistant. G. H. Elliott. **R.**, 74, ii, 85.

PHYSICAL CHARACTERISTICS.

Obstructed by a shifting sand bulkhead, and

connected with the ocean by Oregon Inlet, which
is constantly shifting its location, 74, ii, 84.

SURVEY.

Under direction of Maj. Craighill, ex. by G. H.
Elliott, 1873. **R.** (unfav.), 74, ii, 84, 85.

**M-37 SWAN QUARTER BAY AND DEEP BAY, N. C.
(Waterway connecting.)**

APPROPRIATIONS.

1910, \$14,575, 10, 1403.

COMMERCE.

In 1911, 3,752 t., 12, 425.
Imp. renders navigation safer, 12, 425.

CONTRACTS.

1910. Miner Engineering Co., dr. 53,000 c. y.,
19½ c. y., 11, 1518.

ENGINEERS.

Chief of Engineers. **R.**, 08, 306; 10, 332; 11,
353; 12, 425.

In charge:

Capt. E. I. Brown, 1910-11. **R.**, 10, 1403; 11,
1517.
Maj. H. W. Stickle, 1912-. **R.**, 12, 1738.

OPERATIONS.

1910-11. 29,377.4 c. y. removed from pre-
scribed cross sections, and 5,769.3 c. y. from 1' out-
side, completing proj. and securing chan. 5,500' x
50' x 6', 11, 1518.

PHYSICAL CHARACTERISTICS.

Imp. has shortened distance to points on Pamlico
and Pungo Rs. about 5 m., 12, 425.

PROJECT.

By Capt. Brown, 1907, dr. chan. 6' x 50' x 5,500';
est., \$14,575, and \$900 an. for mainten.,¹ 08, 306;
au. act June 25, 1910, 10, 332.

SURVEY.

Au. act Mar. 2, 1907; made, 1907, by Capt. Brown,²
08, 306.

¹ **H. D.** 482, 55th, 2d.

² **H. D.** 445, 60th, 1st.

M-43(a) PUNGO RIVER TO SLADESVILLE, N. C. (Waterway.)**ENGINEERS.**

Chief of Engineers. **R.**, 91, 170, 1418.
 In charge. Capt. W. H. Bixby, 1890. **R.**, 91, 1418.
 Assistant. Lt. M. M. Patrick. **R.**, 91, 1420.

PHYSICAL CHARACTERISTICS.

Description of, 91, 1418.

SURVEY.

Ex. au. act Sept. 19, 1890; made, 1890, by Capt. Bixby (**R.** unfav.), 91, 1418.

M-45 SLADES CREEK, N. C.**ENGINEERS.**

Chief of Engineers. **R.**, 12, 463.

In charge:

Capt. E. I. Brown, 12, 421.
 Maj. H. W. Stickle, 12, 421.

SURVEY.

Pre. ex. and sur. au. act Feb. 27, 1911 (**R.** to come) 12, 463.

M-58(a) BELHAVEN, N. C.**ENGINEERS.**

Chief of Engineers. **R.**, 12, 463.

In charge:

Capt. E. I. Brown, 1912. 12, 421.
 Capt. L. H. Rand, 1912. 12, 421.
 Maj. H. W. Stickle, 1912. 12, 421.

SURVEY.

Ex. and sur. au. act June 25, 1910, of H. and entrance thereto, 12, 463.

M-66 PAMLICO RIVER,¹ N. C.

Part.	Title.	Period.	Appropriations.
a	Pamlico R., N. C.....	1836-1879	\$82,000
b	Tar R., N. C.....	1878-1879	3,000
c	Pamlico and Tar R.....	1880-1912	267,063
d	Washington, N. C.....	1852-1873	5,000
e	Tar R.—Tarboro to Rocky Mount, N. C.....	1889-1889	
	Total.....		303,063

Total in 12, 1740, gives in addition \$297.75 received from sales, etc.

Part(a), M-66 Pamlico River, N. C.**APPROPRIATIONS.**

1836, \$5,000, act July 4.
 1838, 5,000, act July 7.
 1876, 15,000, 77, 66.
 1879, 3,000, 79, 93.

Total, 28,000

COMMERCE.

Obstr. placed in chan. by rebels, 73, 856; 76, 362.
 Important, 79, 652.

CONTRACTS.

1877. G. H. Ferris, dr., 15¢ c. y. Swindell & Sparrow, removing piles, 77, 366.

ENGINEERS.

Chief of Engineers. **R.**, 66, 7; 72, 74; 73, 78; 76, 69; 77, 66; 78, 75; 79, 92.

In charge:

Maj. W. P. Craighill, 1872-73. **R.**, 73, 854.
 S. J. Abert, U. S. C. E., 1876-79. **R.**, 76, 361; 77, 366; 78, 540; 79, 649.

Assistant. G. H. Elliott. **R.**, 73, 855.

ESTIMATES. (See Projects.)

By G. H. Elliott, removing obstr., building dikes, and dr., \$35,000, 73, 855, 856; 76, 362.

OPERATIONS.

1877-78. 895 piles and 312 tree stumps removed; also dr. in the chan., 78, 540; 79, 651.

PHYSICAL CHARACTERISTICS.

Description of site, 73, 855; 76, 362.
 Formation of shoals, etc., 73, 856; 76, 362.
 Tides, 76, 362.

¹ Called Tar R. above Washington.

PROJECTS. (See Estimates.)

By S. T. Abert, U. S. C. E., dr., and removal of piles and obstr.; est., \$28,050, **76**, 363.

SURVEYS.

By G. H. Elliott, 1872. **R.**, **73**, 855.
Under direction of S. T. Abert, U. S. C. E., 1875, **76**, 361; 1878, **78**, 75, 540.

Part (b), M-66**Tar River, N. C.****APPROPRIATION.**

1879, \$3,000, **79**, 92, 700.

COMMERCE.

Requirements, **79**, 701.

ENGINEERS.

Chief of Engineers. **R.**, **78**, 76; **79**, 92, 95.
In charge. Capt. C. B. Phillips, 1878; **78**, **76**, **79**, 700.
Assistant. W. G. Williamson. **R.**, **79**, 701.

ESTIMATES. (See Projects.)

By W. G. Williamson, 1878, removing obstr. that impede navigation, without dr. or constr. of js. or

other works, \$7,500, **79**, 703. Increased by Capt. Phillips, 1879, to \$10,000, **79**, 92, 700.

By Capt. Phillips, 1879, completion of existing proj., \$7,000, **79**, 700.

PHYSICAL CHARACTERISTICS.

General description, **79**, 700, 702.

PROJECTS.

By W. G. Williamson, 1879, removing snags, trees, piles, wrecks, etc., without dr. or building js. or dikes, **79**, 700, 702.

SURVEY.

By W. G. Williamson, 1878, under direction of Capt. Phillips. **R.**, **79**, 700, 701.

Part (c), M-66**Pamlico and Tar Rivers, N. C.¹****APPROPRIATIONS.**

1880, \$9,000, **80**, 838.
1881, 8,000, **81**, 1002.
1882, 10,000, **82**, 1084.
1884, 5,000, **84**, 1036.
1886, 5,000, **86**, 967.
1888, 10,000, **88**, 856.
1890, 10,000, **90**, 1114.
1892, 10,000, **92**, 1120.
1894, 10,000, **94**, 1313.
1896, 5,000, **96**, 1102.
1899, 15,000, **99**, 1491.
1902, 35,500, **02**, 1132.
1905, 8,000, **05**, 1205.
1907, 11,563, **07**, 1225.
1909, 5,000, **09**, 1276.
1910, 5,000, **10**, 1404.
1911, 5,000, **11**, 1520.
1912, 100,000, **12**, 1740.

Total, 267,063

COMMERCE.

Increase in shipments, **83**, 850.

Development of, under imp., **88**, 857; **89**, 1045.

Lowering of rates consequent upon imp., **91**, 1348.

List of SS. and statistics of freight transported, 1892, **92**, 1123.

Of the 4 SS. that used to ply between Washington and Tarboro only 2 were in service, 1892-93, **93**, 1383. Mainten. of a chan. permitting draft of 4' at ordinary l. w. up to Greenville would facilitate the transportation of freight in that part of the R., and the mainten. of a clear chan. up to Tarboro would serve in keeping down rates by rail, **93**, 1383.

Description of, **94**, 1020; **95**, 1313; **00**, 1799.

About 80% of C. comes through the Albemarle & Chesapeake Canal, which limits draft of vessels to 7', **97**, 1426.

Probable decrease, 1909, **10**, 333.

1911, 339,522 t., **12**, 428.

ENGINEERS.

Chief of Engineers. **R.**, **80**, 123; **81**, 162; **82**, 158; **83**, 164; **84**, 168; **85**, 161; **86**, 156; **87**, 123; **88**, 117; **89**, 136; **90**, 122; **91**, 157; **92**, 158; **93**, 171; **94**, 156; **95**, 179,191; **96**, 161; **97**, 201, 212; **98**, 203; **99**, 234; **00**, 267; **01**, 301; **02**, 228; **03**, 231; **04**,

231; **05**, 237; **06**, 254; **07**, 265, 288; **08**, 283; **09**, 291; **10**, 332, 361; **11**, 354, 383; **12**, 426.

In charge:

Capt. C. B. Phillips, 1880-81. **R.**, **80**, 836, 838.

Capt. J. Mercur, 1881-84. **R.**, **81**, 1001; **82**, 1083; **83**, 848.

Capt. F. A. Hinman, 1884-86. **R.**, **84**, 1036; **85**, 1041; **86**, 966.

Capt. W. H. Bixby, 1886-92. **R.**, **87**, 1010; **88**, 854; **89**, 1044, 2796; **90**, 1112; **91**, 1347.

Maj. W. S. Stanton, 1892-95. **R.**, **92**, 1118; **93**, 1380; **94**, 1019; **95**, 1312, 1365.

J. D. Whitford. **R.**, **88**, 856.

R. Ransom. **R.**, **89**, 1046; **90**, 1114; **91**, 1349.

W. H. Chadbourn, jr. **R.**, **92**, 1121; **96**, 1102.

S. F. Burbank. **R.**, **97**, 1426.

OBSTRUCTIONS.

Bridges obstr. Upper Pamlico R., **89**, 2796.

OPERATIONS.

1879-80. Chan. 9' x 70' formed through Stumpy Shoal by removing snags and logs, **80**, 836.

1880-81. 1,197 stumps and 2,235 c. y. of material removed from the dr. chan. in the Pamlico; 22 pile and brush js. aggregating 3,233 l. f. built in Tar R.; also 3,088 stumps and snags removed from same locality, **81**, 1001.

1881-82. 6,503 c. y. dr. and 1,215 stumps removed from the Pamlico; 12 js. aggregating 1,436 l. f. built in the Tar R., **82**, 1084.

*Allotment.

¹ The Pamlico and Tar Rs. are different portions of a single stream, the upper portion being called the Tar.

1882-83. Logs and stumps removed from Tar R.; 160 l. f. of j. built at Red Bank on the Pamlico; working plant repaired, **83**, 848, 849.

1883-84. 1,855 l. f. of j. built on Tar R.; 1,224 logs, stumps, trees, and snags removed, **84**, 1037.

1884-85. 1,373 logs, stumps, and snags, 5 pile brs., and 149 trees removed from Tar R., **85**, 1041.

1885-86. 681 logs, trees, snags, and similar obstrs. removed from Tar R., **86**, 966.

1886-87. 2,923 logs, snags, stumps, and j. piles removed from the R. chan., 700 trees cut, and 2 flatboat wrecks removed, and 145 cords brush cut from banks, **87**, 1011.

1887-88. 355 logs, snags, and stumps, 122 j. piles, and 45 cords of brush and small snags removed, clearing a chan. 2 1/2' x 60' x 5 m., **88**, 855.

1888-89. 2,480 trees, logs, and stumps and 16 cords of snags removed from the R., and 1,270 trees and logs and 202 cords brush removed from the banks, **89**, 1045.

1890-91. Repairs to plant, **91**, 1349.

1891-92. 4,548 snags and logs and 40 cords of small snags cleared from the chan., and 4,202 trees and 623 cords brush cut on the banks, **92**, 1121.

1892-93. 146 logs, 82 trees, 836 stumps, 127 snags removed from the chan., and 12 logs and 157 overhanging trees removed from the banks, **93**, 1381.

1893-94. 167 stumps, 9 logs, and 2 snags removed from the chan., **94**, 1019. Dike 653' l. built at Red Bank shoal of piles, 5 and 8' apart, **94**, 1020.

1895-96. 306 logs, 1,077 snags, 367 trees, and 382 stumps removed from the chan., and 323 trees removed, 6 trees trimmed, 26 logs, 85 snags, 22 stumps, and 10 trees rolled back on the banks; minor repairs made to the j. at Red Bank, **96**, 1101.

1896-97. 653 snags, 20 logs, 90 stumps, and 188 trees removed from the chan., and 109 trees hauled back and 1 cord of brush cut on the banks, **97**, 1388.

1897-98. 1,575 snags, 86 logs, 328 stumps, 539 trees, 32 cords small snags removed from the chan., and 201 trees hauled back, 52 trees trimmed, and 14 cords brush cut on the banks, **98**, 1240.

1898-99. 348 snags, 46 logs, 68 stumps, 93 trees removed from the chan., and 99 trees hauled back, 10 trees trimmed, and 4 cords of brush cut, **99**, 1490.

1899-00. 167 snags, 115 logs, 134 stumps, 35 trees, and 16,339 c. y. of material removed from chan. and abandoned pier partly removed, **00**, 1798, 1799.

1900-01. 3,023 c. y. dr., 124 snags, etc., removed from chan., and 52 trees from banks, **01**, 1487.

1902-03. 2,168 c. y. dr., 520 snags and other obstr. and 6 1/2 cords small snags removed from chan., and 149 trees and 4 1/2 cords brush cut, and 2 trees trimmed, on banks, **03**, 1095.

1903-04. 597 snags, logs, stumps, etc., removed from chan., 10 trees from bank, and 62,048 c. y. dr., **04**, 1479.

1904-05. 84,502 c. y. dr., 649 snags, etc., removed from chan., and 54 trees and 3 1/2 cords brush from banks, **05**, 1204.

1905-06. 349 snags and other obstr. removed from chan. and 78 trees and 1 1/2 cords brush from banks; 1,919 c. y. dr., **06**, 1146.

1906-07. 129,307 c. y. dr., and 309 logs and stumps removed, **07**, 1224.

1907-08. 58,019 c. y. dr., and 184 logs and stumps removed, **08**, 1280.

1908-09. 139 snags and other obstr. and 3 cords small snags and brush removed from chan. and 34 trees and 2 1/2 cords brush from banks, **09**, 1275.

1909-10. 593 snags and other obstr., 1 1/2 cords small snags and 1 wreck removed from chan. and 1 cord brush and 52 trees from bank, **10**, 1403.

1910-11. 515 snags, stumps, logs, etc., removed from chan.; 5 1/2 cords brush, etc., and 2 old scows hauled out; 137 trees hauled back; 3 cords brush cut, **11**, 1519.

1911-12. 4,078 c. y. dr. by snag boat *Trent*; 702 snags and other obstr. removed from chan., and 337 trees, 5 1/2 cords brush removed from banks, and 8 trees trimmed, **12**, 1739.

PHYSICAL CHARACTERISTICS.

Orig. condition of the Rs., **88**, 854.

Water gauge record for 1892, **93**, 1384; for 1893, and mean of water-gauge readings, **95**, 1312.

List of shoals between Washington and Tarboro, **93**, 1382.

By clearing the chan. of snags from Tarboro to Rocky Mount the water is lost for feeding the chan. at the shoals below Tarboro during the receding and lower stages, so that the mainten. of 40 m. of clear chan. above Tarboro, used to a limited degree for only 3 m., is detrimental to navigation up to that town, **93**, 1383.

Wind effects, **95**, 1312.

Nontidal w. l. in lower portion effected only by winds, and in upper portion by freshets, **05**, 238.

Stream in good condition, **12**, 1740.

PROJECTS.

Previous to 1880 the Pamlico and Tar Rs. were under separate app.; aggregate, \$31,000, **80**, 838.

Proj. for imp. proposes removal of obstr. in both Rs. and w. d., and straightening of the Pamlico to Washington to obtain 9' l.-w. chan., thence a 3' chan. to Greenville, and thence 20' to Tarboro; est., \$75,000, **76**, 363; **79**, 700, 702; **87**, 1010.

These 2 Rs. have been considered by Congress separately prior to 1880, but jointly ever since then. The orig. proj. of 1876 (for the Pamlico) and of 1879 and 1889 (for the Tar), as since slightly modified and continued to date, proposed to secure a clear and safe chan. 9' d. l. w. up to Washington; thence a chan. 3' x 60' l. w. for 23 m. farther to Greenville; thence chan. 20' x 60' l. w. for 26 m. farther to Tarboro and Rocky Mount Little Falls. Total final cost of this work est., 1889, \$92,200, **90**, 1112.

In 1897 Lt. Col. Heap est. cost of chan. 10' x 200' m. l. w. would be \$156,040.28, **97**, 1425; but recom. chan. 9' x 100' m. l. w.; est., \$39,202, **97**, 1426.

By Maj. Kuhn, 1906, increasing proj. d. between Washington and Greenville from 3' to 4'; est., \$3,800, and \$1,000 an. mainten., **07**, 266, 288; **08**, 283.

Act July 25, 1912, modified proj. to secure available chan. of 10' x 200' up to Washington, and 6' x 75', thence to Greenville; est., \$94,050, and \$3,500 an. mainten., **12**, 427.

SURVEYS.

Sur. of all the shoals between Washington and Tarboro made by Maj. Stanton, 1892-93, **93**, 1382.

Ex. of Tar R. with a view to 3' an. act Aug. 17, 1894 report, showing that that d. already existed made by Maj. Stanton, 1894, **95**, 1365.

Ex. of chan. below Washington made, 1896, by Lt. Col. Heap, **96**, 1101.

Sur. of the Pamlico R. with a view to 10' up to Washington, and necessary imp. in H. of Washington au. act June 3, 1896; made, 1897, by Lt. Col. Heap (see Projects), **97**, 1425.

Ex. and sur. au. act Mar. 3, 1905. R. by Capt. Johnston and Maj. Kuhn, resp., **07**, 288.

Of shoals below Greenville, **09**, 1275.

Au. act Mar. 3, 1909, with view to obtaining greater d. and w. up to Tarboro, **10**, 361; **11**, 383. R. by Capt. Brown, 1909 and 1910; est., \$94,050, and \$3,500 an. mainten., **12**, 462.

Ex. and sur. au. act Feb. 27, 1911, of Pamlico R., with view to imp. inner chan., **12**, 463.

Cong. docs., etc., relating to ex., surs., plans, etc., **12**, 427.

APPROPRIATION.

1852, \$5,000, act Aug. 30.

ENGINEERS.

Chief of Engineers. R., 72, 74; 73, 78, 79, 91, 170.

In charge:

Maj. W. P. Craighill, 1872. R., 73, 854.
Capt. W. H. Bixby, 1890. R., 91, 1429, 1433.

Assistants:

G. H. Elliott. R., 73, 855.
Lt. M. M. Patrick. R., 91, 1431.

ESTIMATES. (See Plans.)

By G. H. Elliott, 1872, 9' chan. by dr., dikes, removal of piles and other obstr., \$35,000, 73, 79, 855, 856.

PHYSICAL CHARACTERISTICS.

General description, 73, 855, 856, 91, 1429.

PLANS.

By Capt. Bixby, 1890, excavating chan. 9' x 200' into Washington H.; est., \$45,000, 91, 1434.

SURVEYS.

By G. H. Elliott, 1872, under direction of Maj. Craighill. R., 73, 854, 855, 859. Resur. au. act Mar. 3, 1873, 73, 127.

Ex. au. act Sept. 19, 1890; made, 1890, by Capt. Bixby (see Projects), 91, 1429.

Part (e), M-66 Tar River (from Tarboro to Rocky Mount), N. C.

COMMERCE.

Reduction in freight charges due to imp., 89, 1131.

ENGINEERS.

Chief of Engineers. R., 89, 148.

In charge. Capt. W. H. Bixby, 1888. R., 89, 1130.

PHYSICAL CHARACTERISTICS.

Description of, 89, 1130.

PLANS.

By Capt. Bixby, 1889, removing snags and similar obstr. from Tarboro up to Rocky Mount Little Falls; est., \$16,200, 89, 1131.

SURVEY.

Ex. au. act Aug. 11, 1888; made, 1889, by Capt. Bixby, 89, 1130.

Maj. H. W. Stickle, 1912-. R., 12, 1737.

OBSTRUCTIONS.

Brs. obstr. navigation, 91, 1346.

1895-96, all (8) brs. below Wilmington & Weldon R.R. br. were unreasonable obstr. to navigation; alterations completed, 1896, 96, 1100; 97, 1387.

OPERATIONS.

1890-91. Postponed pending alteration of brs., 91, 1345; 92, 1117.

1896-97. 4,085 large snags, 456 stumps, 256 logs, 1,044 trees, and 50 cords of small snags removed, 634 trees hauled back, 178 trees trimmed, and 117 cords of brush cut from the banks, 97, 1387.

1897-98. 6,653 large snags, 346 stumps, 560 trees, and 45 cords of small snags removed; and 623 trees hauled back, 91 trees trimmed, and 134 cords of brush cut on the banks, **98**, 1239.

1898-99. 2,096 large snags, 198 stumps, 330 trees, 55 logs, and 10 cords small snags removed; 260 trees and 8 stumps hauled back, 44 trees trimmed, and 64 cords of brush cut from bank, **99**, 1489.

1899-00. 31 logs, 3,386 snags, 275 stumps, and 948 trees removed; 81 cords brush and 456 trees from the banks, and 65 trees trimmed, **00**, 1797.

1900-01. 1,397 obstr. removed; 32 trees from banks, **01**, 1485.

1902-03. 313 snags and other obstr. removed; 212 from banks, **03**, 1093.

1904-05. 87 snags, etc., removed; 9 trees and 1 cord brush from banks, **05**, 1203.

1905-06. 62 snags and other obstr. removed; 2 trees from banks, **06**, 1145.

1908-09. 57 snags and other obstr. and $\frac{1}{2}$ cord brush removed; 15 trees and $1\frac{1}{2}$ cords brush from banks, **09**, 1274.

1910-11. U. S. snag boat *Trent* removed 427 snags and other obstr.; 140 trees hauled back from bank, 6 trees trimmed, and 15 cords brush cut, **11**, 1516.

1911-12. 352 snags and other obstr. removed; 6 trees trimmed by U. S. hoister *Contentnia*, **12**, 1737.

M-99 DURHAMS (Creek) ESTUARY, N. C.

COMMERCE.

Small and not of sufficient importance to warrant imp. of stream, **93**, 1455, 1456.

ENGINEERS.

Chief of Engineers. **R.**, **93**, 183.

In charge. Maj. W. S. Stanton, 1892-93. **R.**, **93**, 1455.

M-102 SOUTH RIVER (Creek), N. C.

APPROPRIATIONS.

1910, \$16,000, **10**, 1406.

COMMERCE.

In 1895 C. est. at about \$400,000 an. On account of the inconsiderable traffic and the difficulty of keeping the stream free from obstr., and existing conditions, the district engineer did not believe the stream worthy of imp. **95**, 1369.

Description of, **95**, 1370, 1371.

1911, 44,350 t., **12**, 430.

Imp. has had beneficial effect on rates, **12**, 430.

CONTRACTS.

1910. Miner Engineering Co., dr. 75,000 c. y., 14¢ c. y., **11**, 1524.

ENGINEERS.

Chief of Engineers. **R.**, **95**, 191; **08**, 306; **10**, 335; **11**, 357; **12**, 429, 463.

In charge:

Maj. W. S. Stanton, 1892-95. **R.**, **95**, 1366.

Capt. E. I. Brown, 1910-11. **R.**, **10**, 1406; **11**, 1523.

Maj. H. W. Stickle, 1912-. **R.**, **12**, 1743.

Assistant. Lt. E. W. Van C. Lucas. **R.**, **95**, 1369.

PHYSICAL CHARACTERISTICS.

Description of, **90**, 1180; **93**, 1377; **12**, 424.

Navigation restricted to section below Beach Swamp; work above hindered by l. w., **01**, 1485.

Stream reported to be in very bad condition, 1907, from trees, logs, snags, etc.; 2' less available d. than when first cleared, **08**, 282.

Empties into Tar R., 8± m. above Tarboro. Length, 120± m. Proj. part, mouth to RR. br., 40 m. l., **12**, 423.

PROJECTS.

By Capt. Bixby, 1889, mouth up to Bellamy's mill, removal of logs, snags, and similar obstr.; est., \$25,000, **90**, 1181; **91**, 1345.

In 1896, by Lt. Col. Heap, proj., 1889, modified to provide for clearing out the natural obstr. to the Wilmington & Weldon R.R. br.; est., \$22,750; and mainten. est., \$2,000 an., **96**, 1100.

Capt. Lucas recom., 1901, further work be confined to section below Beach Swamp, **01**, 1485.

SURVEYS.

Au. act Aug. 11, 1888; made, 1889, by Capt. Bixby, **90**, 1179.

 W. H. Chadbourne, jr. R., 92, 1131; 96, 1110; 97, 1394, 1428.

ESTIMATES. (See Plans and Projects.)

By Capt. Phillips, 1879, to complete existing proj., \$68,000, 79, 705.

OPERATIONS.

1878-79. Removal of wrecks, snags, logs, "Yankee catchers," etc. Dr., and building js. between Goldsboro and mouth of R., by hired labor, 79, 93, 704-706.

1879-80. 31 m. of R. above Kinston cleared of logs, snags, and obstr.; blockade of Linkfield Chan. above Newberne removed; R. cleared for 22 m. below Kinston; 2 steam hoisters constr. and 9 sheet-pile js. averaging 100' in l. built below Kinston, 80, 841, 842.

1880-81. Snags, logs, and obstr. removed from R. for 12 m. above Goldsboro; 5,000 l. f. brush and log js. built between Pitch Kettle and Deer Neck; 2 pile and log dams built of 600' l., 81, 1004.

1881-82. 20 m. of upper R. between Goldsboro and Smithfield cleaned of snags and obstr.; bank protection and 14,550 l. f. plank j. built on Lower Neuse; chan. connecting Neuse and Trent dr. to 9' x 100' x 660', 82, 1086.

1882-83. Work of clearing the R. completed to Smithfield; 4,550 trees and stumps removed from chan.; 13,731 trees cut from banks; 3,812 l. f. of js. built between Kinston and "Becton's Old Field," 83, 850, 851.

1883-84. 246 logs and stumps removed; 4,450 l. f. j. constr., 84, 1038.

1884-85. 121 js. (12,402 l. f.) built, and 214 logs and snags removed, 85, 1065.

1885-86. 41 js. (3,896 l. f.) built; 1,125' of old j. work and 167 logs and snags removed, 86, 981.

1886-87. 1,767 l. f. of pile and plank j. completed; 6,725 logs, trees, stumps, and similar obstr. removed, 87, 1022, 1024.

1887-88. 1,450 logs, trees, stumps, and snags removed from the R. chan.; 1,082 l. f. of pile and plank j. built, 88, 867.

1888-89. 3,121 l. f. of j. built and 31 brush mats laid; 438 l. f. old j. and 1,155 logs, stumps, and trees, with 14 cords of small snags, removed from the chan., 89, 1058.

1889-90. 1,660 trees, logs, and snags, 295 l. f. of old j., and 15 cords of small snags removed from the R.; 2,673 trees and stumps cut and pulled back on the banks, and 336 c. y. material excavated, 90, 1124.

1890-91. 1,361 l. f. of sheet-pile j. built, and 325 l. f. of old j. removed; 2,367 snags and trees and 27 cords of small snags cleared from the chan., 91, 1360.

1891-92. 1,882 snags and logs and 23 cords of small snags cleared from the chan., and 3,194 trees and logs and 96 cords of brush removed from the banks, 92, 1132.

1893-94. About 1,000 stumps, trees, etc., and 215 l. f. old js. removed from the R. and banks, 94, 1027.

1894-95. 3 decayed js. and 4 new js. under constr., 95, 1319.

1895-96. Js. under constr. in previous year completed, a line of levels run from Newbern to Kinston and gauges established every 3 m., and about 3,500 snags, trees, logs, etc., and 48 cords small snags removed from the R., and 348 trees, etc., from the banks, 96, 1110.

1896-97. 4 js. constr. and 2 commenced; 2 bank protectors built and repairs made to old works where needed, and about 600 snags, logs, trees, etc., and 5,500 c. y. of material removed from the R., 97, 1393, 1394.

1897-98. About 200 logs, snags, trees, etc., removed from the R.; 2 js. commenced in previous year were completed, 2 were built, and repairs made to several others, 98, 1245.

1899-00. 9 logs, 15 stumps, 15 snags, and 87 trees removed from the chan., and 29 trees and 4 stumps from the banks, 00, 1804.

1900-01. 9,000 c. y. dr., and 238 snags and other obstr. removed, 01, 1492.

1902-03. 6,570 c. y. dr., and 118 snags and other obstr. removed, 03, 1098.

1903-04. 36,059 c. y. dr., and 1,531 logs, stumps and other obstr. removed, 04, 1482.

1904-05. 19,359 c. y. dr.; chan. cleared of snags, logs and stumps; obstr. trees and brush on banks either cut or trimmed, 05, 1207.

1905-06. 63,119 c. y. dr., and 293 logs, stumps and other obstr. removed, 06, 1149.

1906-07. 44,397 c. y. dr., and 239 logs and stumps removed, 07, 1228.

1907-08. 1,225 snags, stumps, logs, and trees removed, banks cleared of obstr. brush and trees, and cut-off near 64th m. post cleared out, 08, 1283.

1908-09. 70,288 c. y. dr., 378 snags and other obstr. removed, and 67 trees cut on banks, 09, 1278.

1909-10. 39,750 c. y. dr., 219 snags and other obstr. removed, and 38 trees on bank hauled back, 10, 1408.

1910-11. 40,387 c. y. dr. from Hampton Shoal and 1,030 c. y. from coal dock; logs, snags, and other obstr. removed, 11, 1529.

1911-12. 59,062 c. y. dr., aggregating 1,093,310; 461 snags and other obstr. removed from chan.; 290

¹ History of operations, 79, 93, 704.

trees and 15 cords brush removed from banks and 4 trees trimmed, 12, 1748.

PHYSICAL CHARACTERISTICS.

Description, below Goldsboro, 72, 735, 736; 76, 364; 79, 706; above Goldsboro, 79, 708, 710.

A good navigable chan. for boats of 8' draft up to Newbern, 1892-93, 93, 1390. Water gauge record for 1892, 93, 1392; for 1893 and 1894, and mean of water-gaugereadings, 95, 1320. Tidal observations, 97, 1428.

Description of, 95, 1319; 96, 1109.

PLANS. (See Estimates and Projects.)

By W. Popp, 1871, removing obstr. to make a 4' chan. below Goldsboro; also 2 cut-offs; est., \$153,191, 72, 734, 740, or without the cut-offs, \$50,841 less, 72, 734, 740.

By S. T. Abert, 1875, adopted est. of Maj. Craighill for removal of obstr. from Goldsboro to the mouth, \$51,000, 76, 366, 367.

By Mr. Wolbrecht, 1879, removing snags and solid rock between Smithfield and Goldsboro, and constr. of dikes; est., \$20,761.44, 79, 709, 710.

PRIVATE (STATE) WORK.

Snags removed and wing dams constr. by N. C. before the war, 72, 734, 735.

PROJECTS. (See Estimates and Plans.)

Maj. Craighill, 1871, adopted plan proposed by W. Popp, for removal of obstr., 72, 734.

S. T. Abert, 1875, also adopted the above proj., 76, 365.

By Capt. Phillips, 1879, removing obstr., making cut-offs, and building j., by hired labor, mouth as far up the R. as the funds would allow, 79, 93, 704, 705.

Projs., 1871 to 1883, proposed removal of obstr. placed in the R. during the Civil War, and the removal of logs and snags; also the contraction of the chan. to secure during the entire year unobstr. 8' for 40 m. to Newbern, 4' 50 m. farther to Kinston, and during 9 months of the year 3' 108 m. farther to Smithfield, 79, 93, 704, 705; 85, 166; 86, 973, 983; 87, 1020.

Total amount app. 1878 to 1886, incl., \$237,500, when \$142,000 was est. for completion of proj., 86, 981, 982; 87, 1023; 91, 1359.

M-157

SMITHS CREEK, N. C.

APPROPRIATIONS.

1910, \$16,250, 10, 1408.

COMMERCE.

In 1911, 17,168 t., 12, 432.

Decrease in C. due to shipment of much lumber by rail, formerly shipped by water, 12, 432.

CONTRACTS.

1911. Mitchell & Co., dr. 130,000 c. y., 10½¢ c. y., 11, 1528. Annulled Nov. 18, 1911, 12, 1746. D. C. Mackey, dr., 10½¢ c. y., 12, 1747.

ENGINEERS.

Chief of Engineers. R., 10, 336; 11, 359; 12, 431.

In charge:

Capt. E. I. Brown, 1910-11. R., 10, 1408; 11, 1527.

SWIFT CREEK, N. C.

APPROPRIATIONS.

1910, \$1,600, 10, 1413.

1912, 500, 12, 1754.

Total, 2,100

In 1897 Lt. Col. Heap est. 8' chan. at and below Newbern would cost \$59,081.25, 97, 1428.

Proj. extended, 1902, to include dr. chan. 8' x 200' at, and 300' w. below, Newbern; est., \$24,000, 02, 230.

Plan by Capt. Johnston, 1903; securing 3' Newbern to Goldsboro, by snagging, dr., and canalization; est., concrete locks, \$1,285,000; timber locks, \$757,000, 04, 1535.

Recom. by B.E., 1904, that proj. for Neuse R. be modified to provide only for 8' chan. below Newbern, and imp. above as C. might demand, with initial app. of \$20,000 and \$6,000 an. mainten., 04, 1529, 1531, 1533.

Est. by Capt. Johnston, 1904, for completing imp. below Newbern, \$14,100, and \$1,500 an.; between Newbern and Kinston, \$125,000, and \$6,500 an., 04, 1530.

SURVEYS.

By A. D. Bache, 1862, below Newbern, 76, 363.

By Prof. Pierce, 1872, below Newbern, 76, 363.

By W. Popp, 1871, under direction of Maj. Craighill, from Goldsboro to the mouth. R., 72, 734, 735.

By S. T. Abert, 1875. R., 76, 363.

By J. M. Wolbrecht, 1878, under direction of Capt. Phillips, from Smithfield to Goldsboro. R., 79, 708, 709.

Eight of the worst shoals between Newbern and the mouth of the Contentnia sur. 1892-93 for js. by Maj. Stanton, 93, 1390. Four shoals sur. 1895-96 by Lt. Col. Heap, 96, 1110.

Sur. at and below Newbern for 8' at dead l. w. au. act June 3, 1896; made, 1897, by Lt. Col. Heap (R. fav.), (see Projects), 97, 1427.

Sur. of the Newbern water front made, 1900, by Capt. Lucas, 00, 1804.

From Goldsboro to Newbern, with view to 3', au. act June 13, 1902; made, 1902 and 1903, by Capt. Lucas and Capt. Johnston, 04, 1527, 1533.

Pre. ex. and sur. au. act Mar. 3, 1909, Pamlico Sound to Newbern. R. by Capt. Brown, 1909 and 1910¹ (unlav.), 10, 361; 11, 382.

Ref. to pre. ex. and sur. reports, etc., 12, 433.

W. H. Chadbourn, jr. **R.**, 96, 1104; 97, 1390.

OPERATIONS.

1881-82. Lower 25 m. of R. cleared of obstr.; 750' of diking built, 82, 1072; 86, 976.

1882-83. Obstr. cleared to a point 45 m. above the mouth, 83, 854; 86, 976.

1883-84. 250 stumps removed, 84, 1042.

1884-85. Removal of obstr. continued, 85, 1060; 86, 976.

1885-86. Removal of obstr. from lower half of R.; constr. of 420 l. f. of pile dike and 400 l. f. brush and log dam; repair of old dikes, and 230 l. f. old dikes removed, 86, 974, 976.

1886-87. Removal of obstr. from lower half of R. continued; dike and dam constr. near the mouth, 87, 1014, 1015.

1887-88. 3,455 logs, snags, and stumps, 2,513 leaning trees, and 740 cords of brush and small snags removed from the chan., 88, 859.

1888-89. 1,176 logs, stumps, and snags, removed from the chan., and 905 trees removed along shore, 89, 1049.

1890-91. 728 trees, 490 logs, and 245 cords of brush cleared from the banks, and 1,224 snags and logs and 132 c. y. of mud removed from the chan., 91, 1352.

1892-93. 556 large snags, 11 cords small snags, 328 stumps, 401 trees, 304 logs removed from the chan., and 186 stumps, 57 cords small brush, and 861 trees and logs were cut and hauled back on the banks, 93, 1386.

1893-94. 14 snags, 6 stumps, 36 trees, and 11 logs removed from the chan., and 6 trees removed on the banks. A plank dike 176' l. built at Spring Slough, and connected through the swamp with the left bank by an earth dike 440' l. Old earth dike 370' l. repaired by raising it 18" and then capping it with logs, 94, 1023.

1894-95. 411 snags, 369 logs, 107 stumps, and 218 trees removed from the chan., and 263 trees cut and hauled back on the banks, 95, 1315.

1895-96. 175 trees, 118 logs, 248 snags, 142 stumps, and 2 piles removed from the chan., and 52 logs hauled back, 80 trees cut and hauled back, 2 trees trimmed, and 62 stumps pulled on the banks; 44 cords of brush placed to repair a break in the bank above Hookerton. A line of levels run from the 3d to the 32d m. post and gauges estab. every 3 m., 96, 1104.

1896-97. 4,051 c. y. dr., including 76 stumps and 15 logs, snags, and trees; 2 flats, 68 trees, 26 logs, 118 snags, and 98 stumps removed from chan., and 96 trees cut and hauled back; 6 logs, 33 snags, and 46 stumps hauled back on the banks, 97, 1390, 1391.

1897-98. 162 large snags, 78 logs, 95 stumps, and 48 trees and 29 cords small brush removed from the chan., and 10 stumps hauled back, 16 trees trimmed and 13 cords brush cut on the banks, 98, 1242.

¹ H. D. 360, 61st, 2d.

H. D. 279, 62d, 2d.

* Allotment.

1898-99. 41 snags, 2 stumps, 14 trees removed from chan. and 4 trees from the banks, **99**, 1492.

1899-00. 5 logs, 25 snags, 10 stumps, and 69 trees removed from chan. and 85 trees from the banks, **00**, 1801.

1900-01. 179 logs, snags and other obstr. removed, **01**, 1488.

1901-02. Mainten. and care of plant, **02**, 1132.

1902-03. 127 snags and other obstr. removed, **03**, 1096.

1903-04. 43 snags and other obstr. removed, **04**, 1480.

1904-05. 35 snags and other obstr. removed, **05**, 1205.

1905-06. 167 snags and other obstr. removed, **06**, 1147.

1906-07. 234 snags and other obstr. and 6 cords snags and brush removed, **07**, 1226.

1908-09. 638 snags and other obstr. and 25 cords snags and brush removed, work being carried above Snow Hill to Fools Br., **09**, 1277.

1909-10. 390 snags and other obstr. removed by U. S. snag boat *Trent*; summaries of quantities and cost given; small hoister constr., **11**, 1525, 1526.

1911-12. Snagging operations continued, **12**, 1744.

PHYSICAL CHARACTERISTICS.

Water-gauge record, 1889, **91**, 1352; for 1892, **93**, 1386. Mean of water-gauge readings, **95**, 1314.

Total, 133,750 (incl. misc., \$134,585, **12**, 1752).

COMMERCE.

Important, **79**, 712, 714.

Navigability of the Trent, **79**, 712.

Decrease in transportation and insurance rates consequent upon imp., **89**, 1055, 1141.

If the R. were imp. above Trenton there would probably be little or no navigation, **93**, 1388.

The Wilmington, Newbern & Norfolk R.R. parallels the R. to Newbern and much diminishes the traffic, **95**, 1317.

Description of, **00**, 1802.

R. affords only means of transportation to Trenton, except by wagons, **09**, 297.

1911, 164,808.5 t., **12**, 436.

Subject to freshets, rising to 15' above l. w., **12**, 431.

Flows into Neuse R. 32 m. above Newbern; 144 m. l. Proj. section, mouth to Stantonsburg, 63 m., **12**, 430.

PROJECTS.

By Capt. Phillips, 1881, clearing creek of obstr., and by dr. and diking to secure 3' during 9 months of each year, from mouth to Stantonsburg, 70 m.; est., \$40,000, **81**, 1010, 1012. Est. increased to \$78,000, **85**, 1060, 1062; **87**, 1013; **91**, 1351; **92**, 1123.

By Maj. Stanton, 1892-93, dike at head of Spring Slough across the main chan. to increase the d. in the former, **93**, 1385.

Proj. of 1881 amended in 1894 to include mainten. below Snow Hill, **96**, 1103; and in 1899, to include mainten. to Stantonsburg, **00**, 268.

SURVEYS.

Au. act June 14, 1880; made by Capt. Phillips, 1880, **81**, 1010.

Minor. sur.—**87**, 1013; **96**, 1103; **01**, 301.

Sur. Griffin to mouth of the creek, made, 1897-98, by Capt. Craighill, **98**, 1242.

Of shoal, mouth of Woods Slough, **05**, 1206.

Ex. au. act Mar. 3, 1909; made by Capt. E. I. Brown; stream unworthy of suppl. imp., **10**, 359. Cong. docs., etc., relating to exs., sur., plans, etc., **12**, 430.

Maps. **87**, 1014; **90**, 1118; **92**, Atlas, 23.

SURVEY.

Ex. au. act Mar. 3, 1909. **R.**, Capt. Brown, unfav. except as to snagging operations in connections with similar work on Contentnia Creek, **10**, 359.

CONTRACTS.

1911. J. A. Wilkinson, lease of dr. No. 1, \$900 per mo., **12**, 1751.

ENGINEERS.

 E. D. Thompson. **R.**, 87, 1019; **S9**, 1054.
 W. H. Chadbourn, jr. **R.**, 96, 1107.

OBSTRUCTIONS.

The br. of the Atlantic and North Carolina R.R. Co. considered an obstr. to navigation, and orders issued by the War Dept. for its alteration in 1894-95, **95**, 1317; made, 1896, **96**, 1107.

OPERATIONS.

1879-80. 2 cut-offs opened and w. and snags, logs, and similar obstr. removed from Quaker Br. to Trenton, **80**, 840.

1880-81. Logs, snags, stumps, and similar obstr. removed between Quaker Br. and Pollokville, and 25,000 c. y. of material dr. from chan., **81**, 1007, 1008.

1881-82. 18,000 c. y. dr. from chan., **82**, 1089.

1882-83. 1,800 trees removed from the banks, and 73 logs from chan., **83**, 853.

1883-84. 25,000 c. y. dr. from basin and chan. 460 logs, snags, and stumps and 278 trees removed, and 44 piles for revet. driven, **84**, 1041.

1884-85. Turning-basin at Trenton completed by solid revet. wall, and by redr. of basin to 6' l. w.; 617 logs and stumps and 11,825 c. y. of material removed from **R.**, **85**, 1062.

1886-87. Minor obstr. removed, **87**, 1017.

1887-88. 270 logs, trees, and snags removed from **R.** chan., and 107 trees trimmed on the banks, **88**, 864.

1888-89. 1,008 trees, snags, and stumps, 49 cords small snags, and 14,677 c. y. removed from the chan., **89**, 1053.

1890-91. 1,273 snags and stumps removed from the chan., and 796 trees and 187 cords of brush cleared from the banks, **91**, 1356.

1893-94. Chan. 2,085' l. dr. below Trenton, and 400 c. y. dr. from the turning-basin at Trenton. Repairs made to the revet. of the banks. 529 logs, 353 snags, 77 trees, 39 stumps removed from the chan., and 80 overhanging trees from the banks, **94**, 1025.

1894-95. Cut 10' x 18', and 3'-4' d. dr. through the shoals below Trenton, **95**, 1317.

1895-96. 4,837 c. y. dr., 306 snags, and 187 logs removed from the chan., and 58 overhanging trees and 3 logs removed from the banks, **96**, 1107.

1897-98. 40 large snags, 27 logs, 4 stumps, and 12 trees removed from the chan., and 18 trees hauled back and 3 stumps pulled and hauled back on the banks, **98**, 1243.

1899-00. 28 logs, 36 trees, 25 snags, 11 stumps, and 121 piles removed from chan., and 32 trees from banks, **00**, 1802.

1900-01. Chan. d. to Trenton restored by dr.; 44 snags and other obstr. removed, **01**, 1490.

1902-03. 189 snags and other obstr. removed, **03**, 1099.

1903-04. 574 obstr. removed, brush cut and other work of mainten. done, **04**, 1483. 2,486 c. y. dr., **04**, 1484.

1904-05. 939 c. y. dr.; 48 snags and other obstr. removed, **05**, 1209.

1905-06. 90,031 c. y. dr. and 168 stumps and logs removed, **06**, 1150. Walls of turning-basin at Trenton repaired with 36 piles and 89 l. f. sheet piling, **06**, 1151.

1906-07. Proj. completed excepting that portion inserted in compliance with public resol. No. 22, approved Mar. 4, 1907, au. chan. 6' d. over Foy's Flats, above Newbern; 39,436 c. y. dr., 333 logs, snags and other obstr. removed, and obstr. trees and brush removed from banks, **07**, 1229, 1230.

1907-08. 1,343 c. y. dr., 78 snags, stumps, logs and trees removed, and banks cleared of obstr. brush and trees, **08**, 1284.

1908-09. 23,456 c. y. dr., 135 snags and other obstr. removed, 209 trees on banks cut or trimmed.

and 40 cords brush removed, **09**, 1281. 6' chan. over Foy's Flats completed, **09**, 1279.

1909-10. 963 c. y. dr., 165 snags and other obstr. removed, and 62 trees and 3½ cords brush cut from banks, **10**, 1410.

1910-11. U. S. dr. *Scuppernon* removed 20,264 c. y. of material and 107 logs, securing chan. 4' x 40' for 10 m. Proj. about 80% completed, **11**, 1531-32.

1911-12. Dr. No. 1 removed 15,108 c. y. r., 10 stumps, and 119 logs, completing 83% of chan. Snag boat *Trent* removed 1,274 c. y. mud, 7 logs, 13 stumps, and 2 saw logs, restoring chan. to 9.3' m. l. w., **12**, 1751.

PHYSICAL CHARACTERISTICS.

General description, **79**, 713; **S9**, 1140. Obstr., snags, sand bars, fallen and overhanging trees, etc., **79**, 712, 713.

Water-gauge record for 1892, **93**, 1388. If the chan. above Trenton were cleared out, as much benefit would be obtained from the increased drainage as by navigation. **93**, 1388. In 1895 the l. of the shoals over which there was not a practicable w. 3' deep had increased to 3,400', **95**, 1317.

Description of, above Trenton, **95**, 1317. Available d. 1898 in the next m. below Trenton, 18' at l. w., **98**, 1243.

PROJECTS.

By Capt. Phillips, 1879, imp. below Trenton, to secure 3' at the extreme low summer stage of the R., by removal of snags, fallen and leaning trees, by dr., and by dike and dam constr.; est., \$22,000, **79**, 711, 714. Est. increased in 1885 and 1887 to \$59,000, **87**, 1017.

By Capt. Bixby, 1889, imp. of the R. from Trenton to Upper Quaker Br. by clearing out natural obstr. from Trenton upward; for small SS. over the first 30 m., and for pole boats over the remaining 13 m. up to Upper Quaker Br.; est., \$13,000. This, together with the amount required for completion of the prior proj., made a total for completion in 1890, of \$16,500. **S9**, 1140; **90**, 1120; **92**, 1126.

Proj., 1892, amended by Maj. Stanton to include main ten. below Trenton, **96**, 1106.

Proj. of 1879 amended by Lt. Col. Heap in 1896 to provide only for mainten. of a chan. 8' x 30' below Trenton, **96**, 1106.

In 1896 Lt. Col. Heap est. an. mainten. would cost \$2,500, **96**, 1107.

Extended, 1902, to provide for dr. below the Atlantic & North Carolina R.R. br. to 8'; est. \$24,000 **01**, 1551; **02**, 230.

Letter of Mr. C. E. Foy in favor of imp., **01**, 1549.

Act June 25, 1910, au. dr. chan. 4' Newbern to Trenton, and removing obstr. stumps, snags, etc.; est., \$15,000, and \$2,000 an. mainten., **10**, 339.

SURVEYS.

By J. M. Wolbrecht, 1878, an ex. **R.**, 79, 713. Ex. au. act Aug. 11, 1888; made, 1889, by Capt. Bixby, **89**, 1140.

Minor ex., etc. (Shoals below Trenton; Trenton to Upper Quaker Br., **93**, 1388), **97**, 1391. (Vicinity of wagon br. at Trenton, **00**, 1802.)

Mouth to Trenton, with view to 8', m. l. w. to wharves at Newbern; chan. 8' x 50', Newbern through Foy's Flats to Pollokville, and chan. 30' x 4' m. l. w. from Pollokville to Trenton; considered worthy of imp. at Newbern only, **01**, 1545, 1546, 1550, 1551.

Pre. ex. and sur. au. act Mar. 2, 1907, with view to 8', Newbern to Trenton. **R.** by Capt. Newbern, 1907 and 1908; est., \$15,000 for 4' up to Trenton, **09**, 315.

Pre. ex. au. act Mar. 3, 1909. **R.** by Capt. Brown (not considered advisable to extend scope of existing proj.), **11**, 382.

Cong. docs., etc., relating to exs., sur., plans, etc., **12**, 435.

¹ H. D. 84, 59th, 2d. ² Sur.—R. Jan. 6, 1837; est. \$55,000. (H. D. 482, 55th, 2d.) ³ H. D. 546, 62d, 2d.

PLANS AND PROJECTS.

Protected chan., Core Sound to Beaufort and vicinity for small vessels, 5' x 40'.¹

M-230(a) CARROT ISLAND SLOUGH, AND LEWIS THOROUGHFARE, N. C.**ENGINEERS.**

Chief of Engineers. **R.**, 04, 244, 1505.

Boards. **BERH.** **R.**, 04, 1508, 1509.

In charge:

Capt. E. W. Van C. Lucas. **R.**, 04, 1505.

Capt. E. E. Winslow. **R.**, 04, 1509.

PHYSICAL CHARACTERISTICS.

Details: Waterway part of proposed inland waterway to Beaufort, etc. The 1st part of the route, Carrot Isld. Slough, is a shallow passage between Bird

SURVEY.

Pre. ex. chan. via Taylors Creek or Carrot Isld Slough, au. act June 25 1910; **Rs.** by Capt. Brown, 1910 and 1911; est., \$30,000, with \$2,000 an. maintain., local cooperation to pay one-third,¹ 12, 462.

Map.¹

Isld. and Carrot Isld.; the 2d part of the route begins at the waterfront of Beaufort and extends to Bulkhead chan.; the 3d part of the route from Bulkhead chan. through Lewis' Thoroughfare runs between a number of nearby islds., 04, 1509.

SURVEY.

Ex. and sur., Middle Marshes to Newport R., au. act June 13, 1902; made, 1902-03, by Capt. Lucas and Capt. Winslow, resp.; est., \$45,000. (**R.** unfav. to immediate imp.)² 04, 244, 1505).

M-231(a) THOROUGHFARE BAY, AND THOROUGHFARE LEADING FROM CORE SOUND INTO CEDAR ISLAND BAY, THENCE TO NEUSE RIVER AND PAMLICO SOUND, N. C.**ENGINEERS.**

Chief of Engineers. **R.**, 10, 360.

In charge. Capt. Earl I. Brown. 10, 329.

SURVEY.

Pre. ex. au. act Mar. 3, 1909, with view to securing chan. 6' x 60', **R.** by Capt. Brown (unfav.)³ 10, 360.

W. H. Chadbourn, jr. **R.**, **91**, 1370; **92**, 1139.

OPERATIONS.

1881-82. 2 scows built by hired labor; 30 l. f. of j. built, **82**, 1093, 1094; **86**, 989.
1882-83. J. at Macon Pt. extended to 535'. 2 scows and temporary wharf and tramway built. Work done by hired labor, **83**, 855, 856. Cost of j., and satisfactory action of, **83**, 857; **86**, 989.
1883-84. Repairs by hired labor to j., sand fences, and wharf, **84**, 1039.
1884-85. J. 400' l., built on n. side of Shackleford Pt., 2,300' e. of main j. Main j. covered with concrete; superstr. 3' x 6' x 44'. Repairs to sea end of main j.; 72 l. y. of shore revet. laid between main and e. j. At Macon Pt. a breach was closed by 420 l. f. of cribwork, small receiving wharf constr. and a j. started n.e. of the fort. Work done by hired labor and purchase in open market. **85**, 1076, 1077; **86**, 990.
1885-86. Strengthening js. at Shackleford Pt. and placing 100 l. f. of shore protection between the js. Extension of J. No. 1 at Fort Macon Pt. 120'; commencement of J. No. 2, and rebuilding landing wharf, **86**, 165, 987, 990.
1886-87. 1,119 t. st. placed in works at Fort Macon Pt., Cove Sound, and Shackleford Pt., **87**, 1032, 1034.
1887-88. 271 t. st. placed along 40' of surface of main j.; 8 blocks of concrete and 2,400 bus. oyster shells added to same; 10 t. st. placed on middle j.; 595 t. st. added to e. j.; repairs to landing wharf, field quarters, tramroad brestles, and derricks; 31 t. st. and 7 cords brush built into 138 l. f. of shore revet.; 44 t. st. and 22 cords brush built into 488 l. f. of shore revet.; 25 t. st. placed at main js.; **88**, 877.
1888-89. 1,443 t. st. placed in js.; 10,480 c. y. dr., **89**, 1071.
1889-90. 1,800 c. y. dr.; 5,190 t. rubblest. placed in js.; 5,724 l. f. sand fences built; 2,924 l. f. shore revet. raised, **90**, 1134, 1135.
1890-91. 280 l. f. of brush and st. revet. built at Shackleford Pt., **91**, 1369.
1891-92. 9,989 c. y. sand dr. from bar; repairs to sand fences at Fort Macon and Shackleford Pts., **92**, 1140.
1892-93. 20,585 c. y. dr., and minor repairs to sand fences in progress, **93**, 1395.
1893-94. 7 js. of brush and st. aggregating 688' built, 2,384 l. f. sand fences built, 1,328 l. f. repaired, 4,378 l. f. raised, 21,648 l. f. filled under, and refilled under with sand; and 150' of oyster-shell dike built, **94**, 1032.
1894-95. 5,038 c. y. dr.; 2 js. of brush aggregating 110' built; 16 low groins of board palings aggregating 537' constr.; 9,210 l. f. sand fences built, 15,714 l. f. filled in, and 8,032 l. f. repaired, **95**, 1324.
1895-96. 1,056 l. f. sand fences built, 23,332 l. f. raised, and 46,814 l. f. filled in, and 24 l. f. brush j. constr. in extension of brush js. and minor repairs made to the latter, **96**, 1116.
1896-97. 2,036 l. f. sand fences built, 8,390 l. f. raised, 56,676 l. f. filled in, 3,267 l. f. repaired, and minor repairs made to brush js., **97**, 1396.
1897-98. 3,041 l. f. sand fences built, 6,865 l. f. raised, 42,984 l. f. filled in, and 5,300 l. f. repaired, **98**, 1247.
1898-99. 3,069 l. f. sand fences built, 8,025 l. f. raised, 41,675 l. f. filled under, and 5,680 l. f. repaired, **99**, 1498.

1899-00. 12,376 l. f. sand fences built, 16,626 l. f. raised, 22,916 l. f. filled under and 5,768 l. f. repaired, and 32 l. f. brush j. repaired, **00**, 1808.
1900-01. 766 l. f. sand fences built, 19,276 l. f. raised, 15,955 l. f. filled under, and 937 l. f. repaired, **01**, 1495.
1902-03. 772 l. f. sand fences built, 18,892 l. f. built higher, 2,023 l. f. repaired, 18,086 l. f. filled under, and Bermuda grass planted, **03**, 1102.
1903-04. 532 l. f. sand fences built, 15,252 l. f. raised, 2,334 l. f. repaired, 28,821 l. f. filled under, 1,712 l. f. banked with sand, 132 l. f. low groins built, and Bermuda grass planted to prevent sand drifting away, **04**, 1486.
1904-05. 12,227 c. y. dr., grass and trees planted at Fort Macon, 2,832 l. f. sand fences constr., 4,152 l. f. raised, 2,768 l. f. repaired, 11,586 l. f. filled under, and 452 l. f. plank groins constr., **05**, 1212.
1905-06. 1,356 l. f. sand fence built, 6,448 l. f. raised, 3,686 l. f. repaired, 13,492 l. f. filled under, and 290 l. f. groins built, **06**, 1153.
1906-07. 383.83 t. st. removed from old j. and 303.83 t. used in constr. 2 new js.; 65.6 cords brush cut for use in js., **07**, 1234.
1907-08. 1,890 t. st. removed from old j., 1,970 t. placed in 2 new js., 50 cords of brush cut and bundled, 1,088 l. f. sand bag groins built and 842 l. f. repaired, **08**, 1288.
1908-09. 2,080 l. f. sand bag js. and 4,800 l. f. sand fences built, 7,038 l. f. sand bag fences raised, 6,665 l. f. sand fences filled under, and 27,976 c. y. dr., **09**, 1285.
1909-10. 594 l. f. sand fences built, 1,694 l. f. filled under, 684 l. f. raised, 362 l. f. repaired, and 424 sand bags filled and placed, **10**, 1417.
1910-11. Sand fence at Fort Macon and Shackleford Pt. built and repaired, **11**, 1540, 1541. Dr. of Bulkhead Shoal abandoned, and st. and oyster shell training wall au., quantities of material placed in training wall given, **11**, 1541.
1911-12. 810' sand fence built, 214.59 t. st. placed in j. at Shackleford Pt.; 152,927 c. y. dr. by contract, and 4,094 c. y. dr. by U.S., **12**, 1759.

PHYSICAL CHARACTERISTICS.

Recession of Shackleford Pt., **81**, 1016; **82**, 1094, 1097; **84**, 170; **85**, 168; **86**, 987.
Direction of tidal currents, **82**, 1097.
Change effected by j. built in 1883, **83**, 856.
Orig. condition of the H., **88**, 875.
Description of, **94**, 1032, 1033; **95**, 1323; **96**, 1115.
Chan. 1' less over Bulkhead Shoal, 1901, **01**, 304.
Js. have prevented inlet winding and shifting, but d. deterioration in main chan. quite rapid from lack of scour—inlet too w., **11**, 367.

PROJECTS.

By Capt. Phillips, 1880, 3 js. of random st. to prevent further abrasion of Shackleford Pt., and dr. of 2 chans. and a turning-basin near Beaufort; est., \$82,103.38, **81**, 1013, 1017.
In 1881 Capt. Mercur recom. system of js. for protection of Shackleford Pt., of random st., about 300' l., and spaced about 300' apart, **82**, 1095. Plan approv. by B.E., with recom. that js. should be founded upon mattresses, **82**, 1098. Concurred in by the Chief of Engineers, and approv. by Sec. War, **82**, 1096.
In 1884 Capt. Bixby recom. expansion of the proj. to cover the protection of Fort Macon Pt. from erosion, by shore protection and js., **85**, 168, 1081. After an. expend. of \$75,000 on previous proj., est., 1886, \$84,000 would be required for the complete protection of Shackleford and Fort Macon Pts., and the formation of a dr. chan. 5' x 100' m. l. w. from Bulkhead Chan. to Beaufort, **86**, 989; **87**, 1030; **91**, 1368; **97**, 205.
Immediate proj., 1896, held to be mainten. of js. and sand fences at Fort Macon and Shackleford Pts., **96**, 1115.
R. and H. act, Mar. 2, 1907, au. j. repaired and new js. and shore protection, **09**, 361.
R. and H. act, June 25, 1910, au. expend. of \$27,676 for chan. to Beaufort from Norfolk-Beaufort waterway, by way of Gallants Chan.; and \$1,500 an. for mainten., **10**, 344.
Proj. of 1910, 66% done, **12**, 443.

SURVEYS.

Au. act June 14, 1880, **80**, 125; made by Capt. Phillips, 1880, **81**, 1013.
 Sur. of Shackleford Banks, 1881, **82**, 1094.
 List of sur., **81**, 1015; **82**, 1096; **86**, 989.

(Part of proposed continuous inland waterway from Boston, Mass., to the Rio Grande, Tex.)

COMMERCE.

(See Engineers. Contents of **Rs.** of board dated Oct. 4, 1911.)
 Diagram showing traffic of leading coastwise canals, 1880-1910.

DEFENSE.

General remarks on military value of the proposed waterways.

ENGINEERS.

Chief of Engineers. **R.**, forwards report of special board, Jan. 2, 1912. Concurs with views expressed by BERH. (see Projects), H. D. 391, 62d, 2d.

Boards:

S. O. No. 10, Mar. 8, 1909, O. C. E., as amended by S. O. No. 34, July 13, 1909; No. 5 of Feb. 12, 1910, and No. 24 of May 31, 1910, appointed BE. to make a sur. for a continuous inland waterway from Boston, Mass., to Beaufort, N. C., and to submit a **R.** thereon in compliance with act Mar. 3, 1909.

Members: Col. W. M. Black, Col. F. V. Abbot, Lt. Col. J. C. Sanford, Lt. Col. M. M. Patrick, Maj. R. R. Raymond, Corps of Engineers.

R. dated Oct. 4, 1911.

BERH. **R.**, Dec. 12, 1911.

Contents of foregoing reports:

I. Acts of Congress and special orders.

II. Conclusions concerning the different sections of the route, Boston to Beaufort.

¹ H. D. 1454, 60th, 2d.

² H. D. 511, 61st, 2d.

³ H. D. 391, 62d, 2d.

III. General remarks on freight transportation.

IV. Military value of the proposed waterways.

V. General remarks. RR. and highway crossings—w. of cross sections at curves—reasons for B.'s recommendations to be found in detail R. for each section—conditions which lead the B. to recommend the immediate constr. of the southern sections.

VI to X. Report on the various sections or links in detail.

XI. Report of the commission on inland waterways on a free ship canal connecting Boston and Narragansett B. (Appendix A1.)

XII Report of transportation committee of the Providence board of trade on the commercial value of the proposed intracoastal waterway to Rhode Island. (Appendix B1.)

Letter of the Gov. of Rhode Island, relating thereto.

XIII. Formula deduced from experiments for increased w. necessary on curves in canal constr. (Appendix C1.)

Table of commercial statistics on the navigable waterways and the population and manufacturing statistics of the principal cities tributary to the New York B.-Delaware R. section of the proposed intracoastal waterway. (Appendix C2.)

Report of the committee on traffic of the proposed intracoastal waterway connecting New York and Delaware B's. (Appendix C3.)

Resolutions of the State of N. J. (Appendix C4.)
Statement from commercial bodies interested in the constr. of the proposed intracoastal waterway. (Appendix C5.)

Special report, board of trade, Camden, N. J. (Appendix C6.)

Special report, New York produce exchange (Appendix C7.)

Special report, Trenton chamber of commerce (Appendix C8.)

Special report, board of trade, city of Newark, N. J. (Appendix C9.)

XIV. Letters from Chesapeake & Delaware Canal Co. (Appendix D1-2.)

Letters from Baltimore & Philadelphia Steam boat Co.; River & Harbor Improvement Co.; J. B. Blades Lumber Co.

XV. Stenographic report of public hearing held at Norfolk, Va.

PHYSICAL CHARACTERISTICS.

See Engineers. Contents of Rs. of board dated Oct. 4, 1911.

Plates showing New Jersey during the Pensauken geological period.

PROJECTS.

Chief of Engineers, 1912, concurred in general with the views of the BERH., and deemed advisable "at the present time" the adoption of projects as follows:

1st. Constr. of 12' waterway, Norfolk, Va., to Beaufort Inlet, N. C., costing \$5,400,000, embracing the following items:

Norfolk to Albemarle Sound: Albemarle and Chesapeake Canal route.....	\$2,735,000
Albemarle Sound to Pamlico Sound: Rose B. route.....	2,215,000
Brant Shoal Cut.....	55,000
Pamlico Sound to Beaufort Inlet, via Adams Creek Canal.....	395,000
Total for 12' plan.....	5,400,000

2nd. Purchase of the existing Chesapeake & Delaware Canal, connecting Chesapeake B. with Delaware R., est., \$2,514,290. Then its progressive

change to tide level canal of 25' m. l. w.; est., \$9,910,210. Total initial cost, \$12,424,500, \$3,000,000 to be available immediately.

The special BE. recommended constr. of sea level canal 25' d. across N. J. bet. Delaware R. and Baritan B.; est., \$45,000,000. Understood that State of N. J. would provide not to exceed \$500,000 for purchase of right of way. BE. recom. deferring work on this part of the proposed continuous waterway until the two immediate southern sections had been constr., "and until the necessary plant now at work on the Panama Canal shall be made available." Much less d. than 25' might do to meet the demands of C. Orders given for est. for a 12' d., upon completion of which further recoms. may be made. Believed that local benefit to N. J. such that that State might defray more than the cost of the right of way.

With respect to the section bet. Fishers Isld. and New York B., this waterway section already of ample capacity save for some obstr. at western end being removed under other projs. (local).

For the section bet. Narragansett B. and Long Isld. Sound, BE. recom. constr. of a canal 18' d. bet. Fishers Isld. Sound and Bissels Cove, Narragansett B., with an add. entrance 18' d. just n. of Narragansett Pier; est., \$12,322,000. Initiation of this work, on this section, should follow that on the N. J. section. State of R. I., it is understood, will provide free right of way so far as it can with \$500,000. BE. doubted whether this inside section would be used sufficiently to warrant the large expend. required for its constr. and mainten.; Chief of Engineers concurred that "it is not advisable for the U. S. to undertake the constr. of this link of the proposed waterway at the present time."

For the section bet. Boston and Narragansett B. the BE. prepared approx. est. for canals starting at Narragansett B.—one for a canal 18' d. via Taunton and Plymouth to cost about \$17,500,000, and another for a canal 25' d. via Taunton and Hingham to cost about \$40,000,000. There was considered also the advisability of the U. S. buying the canal works under way connecting Buzzards B. with Cape Cod B. Mass. appointed a commission, "to consider in what manner the commonwealth may best cooperate with the Federal Government and certain other States in the development of inland waterways;" reported as follows: "The conditions of transportation may so change in the future as to make such a canal desirable and necessary, but the facts as they now appear do not warrant this commission in advocating the present constr. of the proposed canal." The Chief of Engineers concurred with the BE. and the BERH. that "at the present time there is no commercial necessity sufficient to justify the constr. of a canal over either of the inland routes above mentioned, and that it is not considered by me advisable for the U. S. to undertake at this time the constr. of such a canal or to enter into negotiation for acquisition of the Cape Cod Canal now in course of constr. by private parties."

The Chief of Engineers, in forwarding the R. of the BE., invited attention to its remarks concerning the desirability of such legislative or municipal action as would insure the preservation of suitable sites for terminal facilities free from the adverse effects of monopolies or transportation companies. " * * * in many cases railways have been so operated as to throw obstacles in the way of dividing a long-distance carriage bet. rail and water, and to make an all-rail carriage most advantageous * * * it is certain that a policy of this kind * * * must eventually be changed. * * * Until action has been taken by the Nation and States which will insure cooperation between transportation companies operating by rail and by water * * * the full benefits to be obtained from the imp. of waterways can not be had, and the benefits received must be measured mainly by the lowering of rail freight rates to favored communities located on water routes."

H. D. 391, 62d, 2d.

SURVEYS.

Act March 3, 1909, au. sur. of a continuous waterway, inland where practicable, from Boston, Mass., to Long Isld. Sound, including a waterway from the protected waters of Narragansett B. through the ponds and lagoons lying along the southern coast of Rhode Island to Watch Hill and Fishers Isld.; thence to New York B.; thence across the State of N. J. to a suitable point on Delaware R. or B.; thence to Chesapeake B.; thence from Norfolk, Va., to the sounds of N. C. and Beaufort Inlet, N. C., to ascertain cost of chan. 25' d., or much lesser d. along any section or sections, for commercial, naval, or military purposes—the sur. to include ex. of all practicable routes, the preparation of plans and est. along the most available route, and a report

on the desirability of utilizing as a part of such waterway any existing public or private canal, or any part thereof, and the probable cost of acquiring the same. **R.**, special board of Engineer officers. H. D. 391, 62d, 2d.

1888-89. 35,896 c. y. dr., **89**, 1074.
1891-92. 23,785 c. y. dr., **92**, 1144.
1895-96. 14,650 c. y., p. m., dr., **96**, 1118.
1896-97. 11,041 c. y., p. m., dr., **97**, 1398.

* Allotment.

† \$3,500 of this amount trans. to New River-Swansboro portion of waterway, **09**, 1289.

1902-03. Constr. of dr. plant, and collection of C. statistics, **03**, 1103.

1903-04. 6,899.6 c. y. dr., at cost of 49¢ c. y.; proj. 75% completed, **04**, 1488.

1904-05. 12,873 c. y. dr., at 23.728¢ c. y.; work suspended, **05**, 1214.

1905-06. Proj. 85% completed, **06**, 1156.

1906-07. Plant repaired, and C. statistics collected, at cost of \$293.02, **07**, 1239.

1907-08. Plant purchased for mainten. work; cost, \$850, **08**, 1294.

1909-10. 5,444 c. y. removed by U. S. dr. *Suppernon* from Stakes Slough, at 30.6¢+ per c. y.; work stopped Feb. 28, 1910; at close of year proj. d. prevailed between Beaufort H. and Swansboro, **10**, 350, 1423.

1911-12. 101,823 c. y. dr., the proj. d. and w. having been obtained through 15,315 l. f. of shoals in the first 16½ m. of the waterway, **12**, 1768.

PHYSICAL CHARACTERISTICS.

Description of route, **84**, 1055; **85**, 1133, 1136; **94**, 1034; **96**, 1117.

Orig. condition of the waterway, **88**, 882.

Dr. cuts deteriorated, **01**, 305; **02**, 237.

Considerable shoaling, **10**, 350; **11**, 373.

Proj. d. of 3' prevails, Beaufort to New R., **11**, 373.

PLANS. (See Projects.)

By Capt. Bixby, 1885, dr. chans. from 3' to 9' d. from White Oak to New Rs. Est., \$78,000 to \$540,000. Cost considered incommensurate with benefit to be derived, **85**, 1137.

PROJECTS. (See Plans.)

By Capt. Bixby, 1885, imp. chan. by dr., 3' d. l. w., and extending from Beaufort to Swansboro on the White Oak R.; est., \$50,000, **85**, 1138; **87**, 1037.

Aggregate cost of completed proj. est., 1892, at \$71,040, **92**, 1142.

By Maj. Stanton, 1892, withholding \$10,000 app. 1892 until experience should show whether it would be needed, **93**, 1398. In 1893-94, this money applied to dr. chan. 60' x 2,000' near Sanders Creek Cut and Turtle Slough, **94**, 1035.

Immediate proj., 1901, to get chan. 3' x 60' from Beaufort to Swansboro, **01**, 304.

Act 1890 au. spending \$5,000 on waterway "between New R. and Swansboro." Sur. only made pending repeal of N. C. legislative act granting private parties exclusive navigation privileges. Latter charter seemed void, 1904, **91**, 1376; **04**, 237; relinquished, **05**, 246.

Whole proj. about 80% done, **12**, 450.

SURVEYS.

Au. act Aug. 2, 1882, made by Capt. Mercur, 1882, **84**, 1055.

Also by act July 5, 1884, made by Capt. Bixby, **85**, 1133, 1135.

Minor sur., **94**, 1035.

Ex., 1900, by Capt. Lucas, **00**, 1810.

Cong. Docs., etc., relating to ex., sur., etc., **12**, 450.

Maps.

Bogue Sound and vicinity, **80**, 896; **89**, 1074.

Part (f), M-257 Newbern to Beaufort, N. C. (Inland line of navigation between, via Clubfoot, Harlowe, and Newport Rivers.)

APPROPRIATIONS.

1882, \$10,000, **84**, 1040.

1886, 10,000, **86**, 985.

1888, 15,000, **88**, 873.

1907, 2,000, **07**, 1232.

Total, 37,000

COMMERCE.

Important, **87**, 1027, 1028, 1030.

Value of the imp., **88**, 873.

Description of, **94**, 1030; **95**, 1322; **00**, 1807.

In 1894 freight valued at about \$80,000 passed through the waterway, **95**, 1322.

Decreased since 1903, **05**, 243.

Decreased below that of 1908, **10**, 343.

1910, 37,000 t., **11**, 1540.

1911, 15,000 t.; C. now using waterway from Pamlico Sound to Beaufort Inlet, **12**, 1759.

CONTRACTS.

1834. T. P. Morgan, dr., \$4.98 per hour, **85**, 1070. Annulment of contract, **85**, 1071, 1073; **86**, 986.

1886. R. Moore, dr., 33¢ c. y., **87**, 1029.

1889. Alabama Dredging & Jetty Co., dr., 33¢ c. y., **89**, 1064.

W. H. Chadbourn, jr. **R.**, **91**, 1366.

OBSTRUCTIONS.

The failure of the canal company not only to maintain a greater d., but also to keep the existing chan. clear, a serious hindrance to navigation, **94**, 1030; **95**, 1322; **96**, 1113.

Imp. handicapped by private canal between Clubfoot and Harlowe Creeks, **05**, 1211.

OPERATIONS.

1834-85. 1,500 c. y. dr. from Harlowe Creek, **85**, 1070, 1073.

¹ Derived from apps. from Neuse R. and Beaufort H., N. C., **84**, 1040.

1886-87. Removal of logs and stumps from upper end of Harlowe Creek, **87**, 1027, 1029.

1887-88. 4,924 c. y. dr., **88**, 873.

1888-89. 81,932 c. y. dr., and 90 logs and stumps removed from chan., **89**, 1062.

1889-90. 8,654 c. y. dr., **90**, 1130.

1890-91. 60 l. f. of j. built, and 3,390 l. f. of j. ripped with oyster shells, **91**, 1365.

1892-93. 141 logs, etc., removed from the stream, **93**, 1394.

1895-96. About 30 logs, snags, etc., removed, **96**, 1113.

1897-98. About 43 snags, logs, etc., removed **98**, 1246.

1904-05. 26,357 c. y. dr.; 42 logs and other obstr. removed, **05**, 1211.

1905-06. 1,617 c. y. dr. by U. S. snag boat *Trent* at cost of 37½ c. y., and 44 logs and other obstr. removed, **06**, 1152.

1906-07. 2,758 c. y. dr. and 1 log removed at cost of \$403.53, **07**, 1232.

1907-08. 120 snags, stumps, and other obstr. removed, **08**, 1287.

1908-09. 149 snags, logs, and other obstr., and 4½ cords small snags removed; 54 trees hauled back and 1½ cords brush cut on banks, **09**, 1284.

1909-10. Waterway not worthy of further imp., will not be required after inland waterway from Pamlico Sound to Beaufort Inlet is completed, **10**, 1416.

PHYSICAL CHARACTERISTICS.

Route described, **84**, 1065, 1068.

Dr. cut deteriorated; controlling d. 2' to 2½' m. l. w., **10**, 343.

PLANS.

By Capt. Phillips, 1880, as part of a water routes. from Norfolk, Va., **80**, 857-897; **84**, 1066.

By Capt. Mercur, 1883, chan. 9' x 80', Newbern to Beaufort, via the Clubfoot R., Clubfoot and Harlowe Canal, Harlowe and Newport R.s.; est., \$480,000 to \$883,580, **84**, 1067-1071.

PRIVATE (CORPORATE) WORK.

Work done by the New Berne & Beaufort Canal Co., **87**, 1028.

PROJECTS.

Proj. of 1885 proposed dr. chan. 5' x 30', Newbern to Beaufort, via Clubfoot, Harlowe, and Newport R.s., 42 m.; est., \$92,000, **85**, 1074; **86**, 984; **87**, 1027.

Route not deemed worthy of further imp. since completion of inland waterway from Pamlico Sound to Beaufort Inlet; present route via Clubfoot and Harlowe Canal not required, **11**, 1539.

SURVEYS.

Earliest surs., **80**, 857-897; **84**, 1066.

Au. act Aug. 2, 1882; made by Capt. Mercur, 1883, **84**, 1065, 1067.

By Capt. Lucas, 1901, for est. cost of proj. d., **01**, 1493.

Ref. to ex. and sur. reports, etc., **12**, 440.

Maps. **80**, 896; **89**, 1062; **90**, 1130.

M-258 Beaufort Inlet, N. C., and waterways to or from.

NOTE.—The inlet is an opening in the barrier which separates the ocean from the waterways, such as Core Sound, Pamlico Sound, etc., behind the barrier. It is in front of Beaufort, N. C., and a few miles west of Cape Lookout.

Part.	Title.	Period.	Appropriation.

PLANS. (See Projects.)

By Capt. Bixby, 1889, imp. of the inlet to form a direct ocean outlet for the C. of Albemarle and Pamlico Sounds by dr. a chan. 10'-15' x 300' through the s. bar passage (called Portsmouth Straightway), and d. its s. inside chan.; also to dr. an inlet to a H. of refuge; est. dr. for a 10' d., \$100,000; for a 15' d., \$280,000. Also for constr. (if necessary) of training and protecting dikes, at a cost of \$320,000; total est. for dr. and diking, \$600,000, **89**, 1123, 1124; **91**, 1341.

PROJECTS.

By Maj. Stanton, 1894, dr. at Teachs Hole Swash Chan. through the inner shoals at est. of \$29,339.38, or, if that chan. shoaled so rapidly as to make its abandonment advisable, for imp. of Blairs Chan. at an est. of \$28,000, **94**, 997. This proj. superseded, 1894, by another for dr. Wallace Chan. to d. 9' for l. of 5,000' more or less on Royal Shoal, to obtain a chan. with a bottom w. of 300' and a d. of 9' for a l. of 700' at Beacon Isld. Slough; est., \$51,513.39, **95**, 1307.

In 1897, Lt. Col. Heap est. cost of obtaining 14' m. l. w. would be \$17,250, **97**, 1424.

Proj. completed. Sec. 7, R. & H. act Mar. 3, 1905, requires unexpended balance to be turned into Treas., **05**, 236.

SURVEYS.

Ex. au. act Aug. 11, 1888; made, 1889, by Capt. Bixby, **89**, 1118.
 Sur. made, 1891, by Capt. Bixby, **91**, 1342.
 Supple. sur. of the inner shoals made, 1892, by Maj. Stanton, **93**, 1369. Completed in the following year, **94**, 997.
 Sur. made, 1895-96, by Lt. Col. Heap, **96**, 1099.
 Sur. made, 1897, by Capt. Craighill of Royal Shoal cut and Beacon Isld. Slough cut, **97**, 1386.
 Sur. with a view to chan. 14' d. au. act June 3, 1896, made by Lt. Col. Heap, 1897 (**R.** unfav.) (see Projects), **97**, 1423.
 Sur. of Royal Shoal cut and Beacon Isld. Slough cut made, 1897-98, by Capt. Craighill, **98**, 1237.
 Ex., 1899, by Capt. Lucas, **99**, 1488.
 Sur. made, 1900, by Capt. Lucas, **00**, 1794.
 See sur. South Mills to Beaufort Inlet, **01**, 1511.

COMMERCE.

Prospective increase in, to result from imp., 89, 1125.

Description of, 93, 1399. A R.R. operating from New R. to Wilmington had diminished or totally destroyed regular navigation of the stream in 1893, 93, 1400; 95, 1327.

C. developed has not been commensurate with cost of imp., 10, 349.

1911, 16,598 t., mostly brick, hay, grain, fertilizer, lumber, machinery, cotton seed, cotton, shellfish, wood, eggs, etc., 12, 1767.

ENGINEERS.

Chief of Engineers. **R.**, 89, 148; 91, 162; 92, 163; 93, 176; 94, 161; 95, 184; 05, 246; 06, 265. 07, 277; 08, 295; 09, 304; 10, 348; 11, 371; 12, 447:

In charge:

Capt. H. W. Bixby, 1888-92. **R.**, 89, 1124; 91, 1376.

Maj. W. S. Stanton, 1892-95. **R.**, 92, 1146; 93, 1399; 94, 1037; 95, 1327.

Capt. R. P. Johnston, 1905-06. **R.**, 05, 1216; 06, 1157.

Capt. Earl I. Brown, 1907-11. **R.**, 07, 1238; 08, 1292; 09, 1288; 10, 1422; 11, 1547.

Maj. W. H. Stickle, 1912-. **R.**, 12, 1766.

Assistant. H. W. Chadbourn, jr. **R.**, 91, 1378.

OPERATIONS.

1894-95. No work done up to this time on account of a claim of a private corporation to control of the stream, 95, 1327.

1904-05. Franchise granted a corporation by act of N. C. in 1889, surrendered and abandoned, 05, 247.

1905-06. 920 c. y. dr., 06, 1157.

1906-07. 19,849 c. y. dr., 07, 1238.

1907-08. 80,411 c. y. dr., 08, 1293.

1908-09. 51,724 c. y. dr., 09, 1288.

1909-10. 31,488 c. y. dr., 10, 1422.

1910-11. U. S. dr. *Scuppernon* excavated 13,735 c. y. from New R. Inlet and Salliers B., from w. of Dudleys Ditch, completing proj., 11, 1547.

PHYSICAL CHARACTERISTICS.

Description of. The ocean is a few hundred yards distant on one side, and a R.R. runs on the other side, 89, 1125; 95, 1327.

PRIVATE WORK.

See Operations. 1904-05.

PROJECTS.

By Capt. Bixby, 1889, 3' or 4' navigable chan. from Swansboro to New R.; est., \$43,000, 89, 1127; 91, 1377.

SURVEYS.

Ex. au. act Aug. 11, 1888; made, 1889, by Capt. Bixby, 89, 1124.

Sur. made, 1891, by Capt. Bixby, 92, 1146.

By Capt. Johnston, 1905, to determine conditions, 05, 1216.

Cong. docs., etc., relating to ex., surs., plans, etc., 12, 448.

Maps. 91, 1378.

Assistants:

J. P. Darling. R., 82, 1118.
E. D. Thompson. R., 87, 1041; 88, 387; 89,
1079; 90, 1143.
W. H. Chadbourne, jr. R., 91, 1381.

OPERATIONS.

1885-86. 34,991 c. y. dr. from cut through
marsh at Cedar Bush Cove, 86, 992.

1887-88. 29,282 c. y. dr., 88, 886.

1890-91. 530 l. f. oyster-shell dike built, 91,
1380.

1894-95. 1,495 l. f. training dike built at Cedar
Brush Marsh, 95, 1328.

1895-96. Repairs made to dike at Cedar Brush
Marsh, 96, 1120.

1905-06. Dike, 1,800' l., around Cedar Brush
Marsh rebuilt of oyster shells, 06, 1158.

PHYSICAL CHARACTERISTICS.

Description of, 88, 885; 93, 1400.

Tidal observations, 94, 1038, 1039.

L. w. d. about 3', through a tortuous chan. around
Cedar Bush Marsh; timber dike destroyed by teredo;
chan. deteriorated to orig. conditions, 04, 1540.
Description of R., 04, 1540.

PROJECTS.

By Capt. Mercur, 1882, chan. 5'x150'x7,000' m. l. w.
through bar at New R. Inlet, connecting the upper
R. with the ocean. Est., \$40,000, 82, 117; 91,
1381.

In 1885 location of the proposed chan. slightly
changed, 85, 1082; 87, 1040.

By Maj. Stanton, 1892, modification of existing
proj. to provide for restriction of the w. of 2 cuts to
be made to w. of those existing, 40' through Cedar
Brush Marsh and 100' through Wrights Isld., 93,
1401.

In 1893 Maj. Stanton est. \$13,000 to dr. 10,000 c. y.
to restore d. of 4' through 4 shoals at the ends of 2
cuts above mentioned, and to constr. regulating
works, 3,750 l. f. ofrevet, along the upper part of
Cedar Bush Marsh to be included, 93, 1401.

In 1893 abandonment of dr. cut through Cedar
Brush Marsh au. by Chief of Engineers, it being
apparent that its mainten. would require continual
redr., 94, 1038.

By Maj. Stanton, 1894, training dikes of piles and
sheet piling at Cedar Bush Marsh for mainten. of 4'
by dr.; est., \$5,000, 94, 1038.

In 1897 Capt. Craighill, est. \$1,000 required an. for
mainten., 98, 1250.

By Capt. Winslow, 1903, restoring chan. by re-
building dike around Cedar Bush Marsh of oyster
shells; est., \$2,500, 04, 1541.

By Capt. Brown, 5' x 200', mouth to Jacksonville;
est., \$6,700, and \$800 an. mainten., 09, 315; au. act
June 25, 1910, being a modification of former proj.,
10, 347.

SURVEYS.

Ex. au. act Mar. 3, 1881; made, 1882, by Capt.
Mercur, 82, 1117.

Sur. from Cedar Bush Marsh to the Ocean Bar
made, 1890, by Capt. Bixby, 90, 1142.

Sur. of Cedar Bush Marsh and Wrights Isld.
chans. by Maj. Stanton, 1893, 93, 1401.

Ex. 1900, by Capt. Lucas, 00, 1812.

Au. act June 13, 1902; made, 1902 and 1903, by
Capt. Lucas and Capt. Winslow, resp., 04, 1538,
1540.

To ascertain effect of imp., 07, 1236.

Au. act Mar. 2, 1907; made, 1907-08, by Capt.
Brown, 08, est., \$6,700, 09, 315.

Ref. to ex. and sur. docs., etc., 12, 446.

Maps. 90, 1144; 91, 1381; 93, 1402; 95, 1328.

¹ Sur.—R., Jan. 6, 1837; est. \$25,000. (H. D. 482, 55th, 2d.)

² For opening a passage from Beaufort H. to Pamlico Sound and for imp. New R.

³ \$1,330.80 trans. to waterway between New R. and Swansboro, N. C., 10, 1421.

1879. Ross & Pennypacker, st., \$2.24 and \$2.29 t., 80, 697; completed, 80, 699.

1881. G. H. Ferris, dr., 14¢ c. y., 81, 921; completed, 83, 719.

1883. National Dredging Co., dr., 16¢ c. y.; annulled, 83, 719. New York Steam Dredging Co., dr., 14¢ c. y., 83, 718; completed, 83, 720. New York Steam Dredging Co., dr., 14¢ c. y., 84, 938.

Ross & Lara, brush and cane, \$3.60 and \$2.60 cord, resp., 84, 938; completed, 84, 942. J. C. Springer, ratline and spun yarn, 10¢ and 9¢ lb., resp., 84, 938; completed, 84, 942. C. M. Summerall, scows, \$1.150, \$600, \$550, \$566, and \$550, resp., 84, 938; completed, 84, 941. Ross & Lara, st., \$1.35 t., 84, 939; completed, 85, 1087.

1884. Ross & Lara, st., \$1.48 t., completed, 85, 1087. G. Z. French, st., \$1.55 and \$1.48 t.; extended 85, 1088; completed, 86, 1012. J. C. Froehlich & Co., steam boiler, \$1,240; completed, 85, 1088.

R. Moore, dr., 14¢ c. y., 85, 1089; extended, 86, 1012; completed, 85, 1093.

1886. W. A. Martin, j. st., \$1.52 t., 87, 1052.

1887. Atlas Dredging Co., dr., 9¢ c. y., 87, 1052. R. Moore, dr., 9¢ c. y., 87, 1052.

1888. T. Smith, steam boiler, \$3,045, 88, 900. G. Z. French, st., \$1.66 t.; R. Moore, dr., 13.7¢ c. y., 88, 900.

1889. Atlas Dredging Co., dr., 12¢ c. y., 89, 1092.

1890. P. S. Ross, dr., 13¢ c. y., 91, 1398.

1892. C. P. E. Burgwyn, dr., 12.49¢ and 12.44¢ c. y., s. m., \$125,000, 93, 1424. This contract curtailed by suppl. agreement 1894 to provide funds for purchase of a new U. S. dr., 94, 1048.

1894. Charles Hillman Ship & Engine Building Co., dr. steamer, \$53,000, 95, 1342.

1895. Fowler & Morrison, coal, \$2.60 l. t., 95, 1342.

1896. Cordes & Bochman, dr. plant, \$27,550, 97, 1407.

1898. J. A. Springer & Co., 750 t. coal, \$2.85 and \$2.95; Davis Coal & Coke Co., 500 t. coal, \$2.59 t., 98, 1256. Theo. Smith & Bro., i. gear-wheel friction for dr., \$3,830, 98, 1256.

1899. The Columbian Iron Works & Dry Dock Co., tugboat, \$26,500, 00, 1823.

1905. Linehan, Carroll & Co., st., \$1.60 t., 05, 1226.

1906. F. C. Blackmer, 2 dump scows, \$16,500, 06, 1166.

1907. Theo. Smith & Sons, clamshell dr., \$61,350; Winnsboro Granite Corporation, 20,000 t. st., 07, 1248.

1908. Sanford & Brooks Co., 2 dump scows, 08, 1304.

1909. Winnsboro Granite Corporation, st., 09, 1296.

1910. Bowers Southern Dredging Co., dr., \$0.0795 c. y. in section, and \$0.09375 c. y. 1 foot outside section, 11, 1560; 12, 1782.

DOCUMENTS. (Not printed in Rs.)

Numerous docs. referred to by Lt. Col. Foster, 73, 804-815.

R. of Capt. Hartman Bache, H. Doc. 127, 20th Cong., 1st sess.

Boards:

Commission convened Mar. 30, 1853, and reported in favor of the imp. at and below Wilmington by js., fences, revets, etc., 73, 807; 76, 323. E. H. Doc., 33d Cong., 1st sess. (Prof. A. D. Bache, U. S. C. S.; Maj. I. I. Stevens, U. S. E.; Capt. D. P. Woodbury, U. S. E. and Lt. C. H. Davis, U. S. N.)

BERH., to which was referred the R. of the above-said commission, R. Apr. 18, 1853, approv. part of the plan, but substituting a plan of imp. by dr., wing dams, js., etc., 73, 809. (Col. De Kussy and others.)

Commission convened Dec. 30, 1858, to ex. condition of entrances of Cape Fear R. Recom. imp. by constr. of st. js., 73, 899, 810. E. H. Doc. 2, 36th Cong., 1st sess. (Prof. A. D. Bache, U. S. C. S.; Hon. I. I. Stevens, M. C.; Lt. J. N. Maffit, U. S. N.; Capts. A. A. Humphreys and W. B. Franklin, and Lt. W. H. C. Whiting.)

Board convened at Wilmington, Dec. 12, 1871, and Jan. 12, 1872. Recom. continuation of the work, 73, 797-799. (Lt. Cols. Tower, Wright, and Foster, and Maj. Gilmore and Craighill.)

Reconvened at New York City, Dec. 6, 1872. Recom. dr. at Baldhead Chan., that the work of closing be continued to Zekes Isld., and closing New Inlet with pile work. E., 73, 799-815. (Lt. Cols. Tower, Wright, and Foster, and Maj. Gilmore and Craighill.)

Constituted by S. O., No. 129, C. of E., 1881, 82, 942. (See Projects.) (Lt. Cols. Gilmore, Craighill, and Comstock, and Capt. Turtle.)

In charge:

Lts. J. K. Mansfield and John H. Winder, in 1835. Inspection, 73, 814.

Lt. A. J. Swift, 1836-38, 73, 814.

Capt. McClellan, 1839, 73, 814.

Capt. D. P. Woodbury, 1853-55, 70, 422; 73, 804, 809, 810.

Lt. Whiting, 1856, **73**, 810.
 Col. Turnbull, 1857, **73**, 810.
 Col. J. H. Simpson, 1870, **70**, 421.
 Maj. W. P. Craighill, 1870, **71**, 74-77. **Rs.**, **71**, 609; **72**, 698; **73**, 789; **74**, ii, 68; **75**, ii, 98; **76**, 308; **77**, 332.
 Capt. C. B. Phillips, 1878, in temporary charge. **R.**, **78**, 475, 492.
 Lt. Col. W. P. Craighill, 1878-85. **R.**, **79**, 556; **80**, 695; **81**, 918, 919, 920; **82**, 934; **83**, 717; **84**, 937; **85**, 1087; **86**, 1000; **87**, 1047; **88**, 895; **89**, 1089, 1132; **90**, 1152; **91**, 1394.
 Maj. W. S. Stanton, 1892-95. **R.**, **92**, 1164; **93**, 1419; **94**, 1047; **95**, 1335.

 C. Humphreys. **R.**, **88**, 901; **94**, 1053; **95**, 1341; **96**, 1133; **97**, 1410; **98**, 1259; **99**, 1511.
 R. C. Merritt. **R.**, **04**, 1500; **05**, 1229.

ESTIMATES. (See Projects.)

By Col. Simpson, break'r connecting Zekes and Smiths Islds., \$256,415.53, **70**, 70.
 By Maj. Craighill, increased, **71**, 610.
 By Capt. Phillips, dr. 12' chan. to Wilmington, \$260,000, **74**, ii, 69, 70. Afterwards reduced to \$120,000, **75**, ii, 101.
 By Maj. Craighill, work at Smiths Isld. and extension of Federal Pt. j., etc., \$90,000, **74**, ii, 70.
 By Maj. Craighill and Capt. Phillips, completing the work of closing New Inlet, \$420,000, **75**, ii, 99.
 By Maj. Craighill, completing existing proj., \$50,000, **79**, 557; increased to \$75,500 on account of damage by storm, **79**, 81.
 By H. Bacon, to complete existing proj., \$199,375; and \$15,000 for an. dr., **79**, 561.

EXPENDITURES.

Total to Oct. 11, 1856, at Baldhead and Zekes Isld., \$138,750, **73**, 810.

OPERATIONS.

1829-38. Js. built by U. S., **73**, 813.
1863. Work begun at mouth of R., **73**, 809.
1870-71. Closing inlets by cribwork, **70**, 70, 422; 607' break'r and superstr. built, **71**, 75, 610.
1871-72. Break'r extended nearly 1,200', **72**, 70.
1872-73. Extension of break'r to 4,403' and protection to Smiths Isld. beach, **73**, 789, 790.
1873-74. The deflecting j. from Federal Pt. extended to 500'; dr. at Baldhead Bar, and at the "Logs," **74**, 88, 89, ii, 71, 72.
1874-75. Dr. at Baldhead Bar, removing stumps at the "Logs," dr. at Horseshoe Shoals, and repairs to Federal Pt. j., and the works between Smiths and Zekes Islds., **75**, 90, ii, 99.
1875-76. An apron of timber, brush, and st., from Federal Pt. j. to Zekes Isld. (initial closing New Inlet), distance of 4,352'; dr. at Horseshoe Shoals continued, cut increased from 100' to 200' w., and from 9' to 12' d.; dr. at Baldhead Chan., re-

moval of obstr. placed by Confederates in the R. chan., **76**, 65, 308, 309, 314, 315.

1876-77. 20,304 c. y. st. placed by contract between Zekes Isld. and Federal Pt. to continue work of closing the inlet, **77**, 62, 333, 335. Repairs to the works between Smiths and Zekes Islds., **77**, 336.

1877-78. 40,440 c. y. st. deposited on the dike closing New Inlet, **78**, 68, 475, 477, 492.

1878-79. Placing st. on New Inlet Dike and dr. on Baldhead Bar, **79**, 80, 556, 558, 560.

1879-80. 28,398 c. y. riprap placed in dam and 70,245 c. y. sand removed by suction dr. from Baldhead Chan., **80**, 696; 2 lighters and scows constr., **80**, 698; repairs to pumping apparatus, **80**, 701.

1880-81. 5,427 t. contract st. for coping, 2,367 t. rough, heavy st., and 12,890 c. y. riprap delivered in dam, **81**, 923; 218 t. st. ballast placed in dam, **81**, 922; 62,044 c. y. dr. in Baldhead Chan., **81**, 924; small trees transplanted at Federal Pt., Zekes and Smiths Islds., **81**, 925.

1881-82. 303,535 c. y. dr. from Snows Marsh Chan., **82**, 937; 21,967 c. y. dr. from Baldhead Chan., **82**, 939; flanks of dam strengthened with 238 c. y. and 486 t. st. riprap, **82**, 938. Unsuccessful attempt to close n. swash by pile work, **82**, 938.

1882-83. 896,661 c. y. dr. from Snows Marsh Chan., **83**, 719; repair of steam tug, **83**, 721.

1883-84. 333,129 c. y. dr. from Snows Marsh Chan. and Midnight Shoal, **84**, 940; 4,605 cords brush, 191 cords cane, and 11,861 t. st. delivered on dam, **84**, 941; 1,338 t. st. ballast purchased and 417 cords brush, **84**, 941; wharf built, **84**, 941; 53,350 s. y. mattress laid, at an average cost of 66.2¢ s. y., **84**, 942; repairs to suction dr. *Woodbury*, **84**, 943.

1884-85. 39,235 t. st. delivered, **85**, 1091; 2 scows built by hired labor, **85**, 1088; 321,925 c. y. dr., **85**, 1089.

1885-86. 325,449 c. y. dr., and 644 t. heavy st. placed in new dam, **86**, 1012; removal of stumps by dynamite, **86**, 1012.

1886-87. 332,112 c. y. dr. from the shoals; 11,630 t. st. placed in dike; 10,125 c. y. dr. from bar; sur. of R. shoals, **87**, 1049, 1053.

1887-88. 282,068 c. y. dr.; 14,551 t. st. placed upon the dike, **88**, 898.

1888-89. 243,826 c. y. dr.; top and slopes of new dam for 2,468' faced with st., **89**, 1093.

1889-90. 1,347,206 c. y. dr. from chan. and shoals, **90**, 1155.

1890-91. 356,224 c. y. dr., **91**, 1397.

1891-92. 105,503 c. y. dr., **92**, 1171.

1892-93. 148,398 c. y. s. m., dr. under contract, and 101,991 c. y. dr. by U. S. plant. A small number of obstr. removed, **93**, 1425, 1426.

1893-94. 537,681 c. y. s. m., dr. by contract, and 47,608 c. y. dr. by U. S. dr., **94**, 1048. Design and specification for dr. steamer prepared, **94**, 1051. Gauges on the R. connected by a line of levels, Wilmington to Burbank Pt., **94**, 1051.

1894-95. 475,829 c. y. s. m., dr. under contract, and 32,839 c. y. dr. by U. S. dr. Training dike, 5,692 l. f. l. built. Wharf 45' x 125' built at old Fort Johnson. Repairs made to banks, **95**, 1339. Suction dr. steamer built, **95**, 1337.

1895-96. 473,886 c. y. dr. by U. S. dr. Snows Marsh Dike extended 2,992' upstream and 556' down; 1,788 piles driven and 1,533 cords brush fascines being used; 1,419 cords brush fascines used in repairs to dike. Minor repairs made to Swash Defense Dam and New Inlet Dam; about 200 t. st. and 1,822 bags sand, etc., being used, **96**, 1132.

1896-97. Repairs to New Inlet Dam completed. Training dike, Snows Marsh, extended 228' at upper end and 496' at lower, and 2,470 l. f. of this dike repaired; 550,524 c. y. dr. by U. S. dr., 25stumps and 1 log removed, **97**, 1406.

1897-98. 851,181 c. y. dr. by U. S. dr., 100 stumps and 4 logs removed, **98**, 1255.

1898-99. 936,765 c. y. dr., **99**, 1512.

1899-00. 1,085,528 c. y. dr., 329 logs and 256 stumps removed, **00**, 1818, 1819.

1900-01. 571,849 c. y. dr., and 234 snags and 42 logs removed by U. S. dr., **01**, 1504, 1505.

1901-02. 15,624 c. y. dr. from ocean bar and 22,121 c. y. from Snows Marsh Chan. by dr. *Cape Fear*, **02**, 1144.

¹ History of operations 1761 to 1886, **86**, 1004; past operations, **86**, 943, 1006, 1008; 1872, by Lt. Col. Foster, **73**, 805-815; by Capt. Phillips, to 1876, **76**, 321-331.

1902-03. 329,679 c. y. dr. by *Cape Fear*; 428,226 c. y., 50 stumps and logs, and 1,607 t. large st. from old Woodbury J. removed by dr. *Ajax*; repairs made to New Inlet Dam and Swash Defense Dam; obstr. removed at mouth of Brunswick R., **03**, 1109.

1903-04. 192,230 c. y. dr. by dr. *Cape Fear* and 496,820 c. y. by dr. *Ajax*; New Inlet and Swash Defense Dams repaired, **04**, 1495, 1496.

1904-05. 481,180 c. y. dr. by dr. *Cape Fear*, and 486,927 c. y., 71 stumps and 44 logs by dr. *Ajax*; repairs made to New Inlet and Swash Defense Dams, **05**, 1225.

1905-06. 110,638 c. y. dr. by dr. *Cape Fear*, 328,675 c. y. by dr. *Delaware*, and 752,395 c. y., 92 stumps and 22 logs by dr. *Ajax*; New Inlet and Swash Defense Dams repaired, **06**, 1165.

1906-07. Repairs to New Inlet and Swash Defense Dams continued until Sept. 17, 1906, when a violent storm greatly injured and wholly destroyed dams in several places; 8,600 l. f. fill at Swash Defense Dam replaced after storm; 172,638 c. y. dr. by dr. *Cape Fear* and 428,740 c. y. by dr. *Ajax*, **07**, 1246.

1907-08. 301,808 c. y. dr. by dr. *Cape Fear*, 352,665 c. y. by dr. *Jacksonville*, 660,255 c. y. by dr. *Hercules*, 589,128 c. y., 95 stumps and 42 logs by dr. *Ajax*; 19,677 t. riprap st. placed on Swash Defense Dam and 100 t. at New Inlet Dam, **08**, 1301.

1908-09. 473,078 c. y. dr. by dr. *Cape Fear*, 834,067 c. y. by dr. *Jacksonville*, 675,451 c. y. by dr. *Hercules*, and 794,207 c. y. by dr. *Ajax*; 10,813 t. st. placed on Swash Defense Dam, **09**, 1294.

1909-10. 268,626 c. y. dr. by dr. *Cape Fear*, 1,014,003 c. y. by dr. *Jacksonville*, 899,504 c. y. by dr. *Hercules*, 587,411 c. y. by dr. *Ajax*, and 49,172 c. y. by dr. *Gen. C. B. Comstock*; repairs made to dams, **10**, 1433.

1910-11. 3,679,130 c. y. dr. by U. S. plant (5 dr.); 1,050,070 c. y. dr. under contract; repairs made to New Inlet and Swash Defense Dams; bulkhead at Wilmington completed and fill made; U. S. dr. *Jacksonville* rehandled 431,121 c. y. from 2 other dr., **11**, 1561, 1562. Results obtained from year's work, **11**, 1563.

1911-12. 1,811,666 c. y. dr. by U. S. plant (5 dr.); 2,098,009 c. y. dr. under contract; repairs made to dams, **12**, 1778-80.

See also historical sketch, **76**, 321-331.

Table of prevailing direction of wind at Smithville and Federal Pt., **80**, 703.

Table showing greatest differences of the water level between the R. and sea sides of the dam at the New Inlet during flood and ebb tides, **80**, 710.

Effect of storms, **82**, 944.

Advance of shore lines of Federal Pt. and Zekes Isld.; extension of beach, **83**, 720; **84**, 940.

Condition of shore line 1886, **86**, 1014.

Geographical description of R., **86**, 1000.

Changes, 1852 to 1885, **85**, 1090.

Description of, Wilmington to mouth, **89**, 1132.

Description of vicinity of outer bar, **94**, 1049; **95**, 1339.

Current observations, **94**, 1051, **95**, 1337.

Deterioration occurring at various points by shoaling, storm damage, and decay; est. for repairs, \$128,000, **01**, 308.

Violent storm. (See Operations, 1906-7.)

PRIVATE (STATE) WORK.

Imp. Campbells Isld. to Wilmington, by embankments, j., and dr., commenced by the State in 1823; continued to 1829, under the direction of State Engineer Hamilton Fulton, **73**, 813; **76**, 323, 326.

App. by State, 1822 to 1829, **86**, 1007.

Works carried on under State, **82**, 943; **86**, 1008.

PROJECTS. (See Estimates.)

History and description of, commencement to 1872, by Lt. Col. Foster, **73**, 805, 815. By Capt. Phillips, commencement to 1876, **76**, 321-331. (For the orig. proj., see Private Work.)

By Capt. Hartman Bache, 1827. Modifies plans of Mr. Fulton and proposes sheet-pile j. at Eagle Isld., the NW. Branch, and 6 other places below Wilmington, **73**, 813, 814.

By Commission and BRH imp., 1853, for protection of Baldhead Pt. by js., closing of openings through the beach at Smiths Isld., and a j. at n. end of Zekes Isld., **76**, 323.

By Board of Commissioners, 1858, restoration of the old works and js. at Zekes Isld., protection of Smiths Isld. Beach by js., and provisional closing of New Inlet, **76**, 324.

By B.E., 1871-72, dr. in Baldhead Chan., continuation of work at Zekes Isld. on present plan, continuing it across the isld. and into the R., and closing New Inlet by pile work filled with brush and loaded with st.; suspension of work on j. and beach protection at Baldhead Pt., **73**, 802.

History of past proj. and operations, **82**, 943; **86**, 168, 1006; **87**, 1047.

The B.E., 1881, in pre. R., recom. existing works between Zekes and Smiths Islds. be strengthened and that upon a threatened break in the low beach s. of Smiths Isld. a mattress and riprap sill be placed to prevent such break, **82**, 947. (Lt. Cols. Gillmore, Craighill, and Comstock, and Capt. Turtle.)

Projs. of 1872 to 1882 proposed extension of New Inlet Dam 2 m. downstream to prevent further erosion of Smiths Isld. Proj., 1875, proposed occasional dr. in the outer bar; and the proj., 1874 to 1881, for the imp. of the 20 m. above New Inlet, proposed dr. wherever necessary to secure a chan. eventually 16' x 270' m. l. w. App., 1829 to 1886, \$2,223,228.92. Est. to complete proj., 1886, \$245,000, **82**, 947; **86**, 168, 1006. Increased, 1887, to \$265,000, **87**, 1048, 1051, 1058.

Projs., 1874 to 1881, for the 20 m. above New Inlet, as outlined to 1888, proposed dr., with occasional diking when necessary, across the shoals, to secure, 1st, a 12' x 200', and afterwards 16' x 270' l. w., over entire l. Total final cost of this work under proj., 1870 to 1885, est., 1886, at \$2,110,000. On account of inadequate yearly app. these est. raised, 1888, to \$2,125,000.

By Capt. Bixby, 1889, obtaining a 20' x 270' l. w., Wilmington to mouth, 18' to 20' on bar, by dr. and if necessary a st. j. to prevent swinging and shoaling of the chan.; est., \$1,800,000 with an. mainten. of from \$18,000 to \$25,000, **89**, 1134; **93**, 1419.

By Maj. Stanton, 1894, training dike of piles, brush, and st. to be built in connection with dr. at Snows Marsh Shoal, **94**, 1051.

Lt. Col. Heap, 1894, est. \$25,000 an. for mainten., **96**, 1132.

Of Oct. 6, 1890, for 20' x 270' l. w., Wilmington to ocean; modified, June 13, 1902, to include mooring dolphins at Wilmington, at cost \$30,000, and the removal of obstr. at mouth of Brunswick R., at cost of \$1,000, **03**, 240.

Of 1890, modified, 1902, again modified act Mar. 2, 1907, completion of the 20' proj. to the proj. w., and the excavation of a mooring basin in lieu of mooring dolphins at Wilmington, reducing the est. to \$1,392,750; including obstr. removal at mouth of Brunswick R.; act also au. imp. to such d. in excess of 20' as app. will permit, and repairs to New Inlet and Swash Defense Dams, **07**, 285.

Act June 25, 1910, au. expend. of addl. \$400,000 in securing such d. in excess of 20' as app. would permit, and provide that if prices received under advertisement for bids for dr. are not satisfactory, that suitable dr. plant be constr. for use on the R., **10**, 357.

Act Feb. 27, 1911, au. clearing to d. of 10', chan. between main chan. of R. and Carolina Beach Pier; dr. during 1911, **11**, 381.

Act July 25, 1912, modified proj. to secure an available d. of 26' x 300' m. l. w., w. to 400' across the bar, **12**, 459, 460.

SURVEYS.

Summary and history of, 1733 to 1872, by Lt. Col. Foster, 73, 804-815, and by Capt. Phillips to 1876, 76, 321-331.

Under direction of Maj. Craighill by Henry Bacon, at various places, 77, 337; 79, 475, 479. Snows Marsh to Wilmington, 82, 937.

Prices Creek to Wilmington, 82, 939; 83, 721. Baldhead Chan., 84, 943; 85, 1095.

Beaches in vicinity, 85, 1096.

Entrance to Reeve's Pt., 86, 1013.

Ex. 20' chan., Wilmington to ocean, au. act Aug.

11, 1888; made, 1889, by Capt. Bixby, 89, 1132.

Ex. and sur. of all dr. places made, 1892-93, by Maj. Stanton, 93, 1426, 1427.

Sur. of the bar and shore lines at the R. mouth made, 1893-94, by Maj. Stanton, 94, 1051.

Sur. in progress, 1894-95, by Maj. Stanton, 95, 1336, 1340.

Sur. estab. of H. lines for Wilmington, hydrographic sur. of the ocean bar and Snows Marsh Chan., made by Lt. Col. Heap, 1895-96, 96, 1132.

Sur. by Capt. Craighill, 1898, and by Capt. Lucas, 1899, 99, 1507.

Sur. 1900, Capt. Lucas, 00, 1821.

Ex. and sur., Wilmington H., N. C., for w. and d. to permit vessels to turn and swing around therein, au. act June 6, 1900; made, 1900, by D. O.; est. \$291,500; alternate, \$30,000, 01, 310, 1552-69.

Ex. at and below Wilmington to determine if any modification of the imp. were desirable, au. act Mar. 3, 1905; made, 1906, by Capt. Johnston; plan presented to complete proj. without js.; cost \$100,000, in add. to funds on hand; and for 24' chan. with mooring basin; cost \$1,050,000 addl., with \$85,000 an. mainten., 06, 275.

Pre. ex. and sur. for suitable d. and w. au. act Mar. 3, 1909; Rs., Capt. Brown, 1909 and 1911; est., \$572,940 1st constr., and \$80,000 an. mainten., subject to condition that local au. expend \$200,000 for terminal imp., 12, 462.

Cong. docs. (see Documents), etc., relating to exs., sur., plans, etc., 12, 460.

Maj. H. W. Stickley, 1912-. R., 12, 1774.

Assistants:

W. H. James. R., 82, 1099; 83, 859; 84, 1043.

C. Humphreys. R., 85, 1084; 86, 999; 89, 1086; 90, 1151; 91, 1393.

E. D. Thompson. R., 92, 1161; 93, 1414.

C. Schuster. R., 96, 1128; 97, 1405.

LEGISLATION.

\$10,000 paid to Cape Fear Navigation Co. for deed extinguishing right to collect tolls for navigation, Wilmington to Fayetteville, 81, 1017.

OPERATIONS.

1881-82. 811 trees, logs, snags, and stumps removed, clearing 23 m. of R., 82, 1100.

1882-83. 14,287 trees, stumps, logs, and snags removed, 83, 859.

1883-84. 6,712 trees, stumps, logs, and snags removed, 84, 1043.

1884-85. 12,590 c. y. dr. from chan. at Fayetteville, McCarters Cross, and Old Jetties; 1,442 l. f. timber j. and 300 l. f. of r. j. built; 301 l. f. old log j. sheeted; 8,644 trees, stumps, and snags removed, 85, 1085.

1885-86. 874 trees, logs, and snags removed; 680 c. y. hard mud and 1,438 c. y. r. and hardpan dr., 86, 999.

1886-87. Small amount of work by hired labor, 87, 1046.

1887-88. 127 logs, stumps, and piles removed from R. bed; 900 stumps and trees removed from R. bank; 2,385 c. y. r. quarried, 88, 894.

1888-89. 2,570 c. y. st. quarried; 80 logs and trees and 50 l. f. of old pile j. removed from the chan., and trees and brush from the banks, 89, 1085.

1889-90. 1,277 c. y. st. quarried; 184 logs and snags removed from the chan.; 222 trees cut and 106 cords brush removed from banks; 620 l. f. j. (st. and brush) built, 90, 1149.

*Allotment.

1 H. D. 180, 56th, 2d.

2 H. D. 545, 59th, 1st.

3 H. D. 287, 62d, 2d.

1890-91. 1,791 c. y. of st. quarried and 1,060 c. y. placed in dikes at McCarriers, McRaes, and Thames Shoals; 119 trees and 105 cords brush cleared from the banks, and 126 snags and stumps and 126 cords small snags from the chan., **91**, 1391.

1891-92. 793 l. f. of brush and st. j. built at McRaes Shoal; 228 snags and trees cleared from the chan., **92**, 1160.

1892-93. 33 new js. of brush and st., aggregating 3,619 l. f., constr., 740 l. f. js. raised, 100 l. f. repaired, and 13 m. of chan. cleared of snags, **93**, 1412.

1893-94. 11 js. of brush and st., aggregating 1,277 l. f., constr., **94**, 1044.

1894-95. About 700 logs and other obstr. removed from the chan. and banks, 570 l. f. js. built, and 2 js. commenced, **95**, 1334.

1895-96. About 700 logs and other obstr. removed from chan. and banks, repairs made to js., and constr. of js. commenced in previous year continued, **96**, 1129, 1130.

1896-97. 8 js. constr. and obstr. removed from the chan. and banks, **97**, 1406.

1897-98. About 900 logs and other obstr. removed from chan. and banks, **98**, 1254.

1898-99. 190 snags and other obstr. removed from chan., **99**, 1505.

1899-00. Obstr. removed, Kellys Cove to Fayetteville, **00**, 1816.

1900-01. 1,174 logs, 91 trees, 1,436 snags, 345 stumps, and 1 wreck removed, **01**, 1502.

1902-03. 1,313 snags, 7 stumps, and 3 logs removed, **03**, 1105.

1903-04. 1,345 snags, 248 stumps, and 26 logs removed, **04**, 1493.

1904-05. 834 snags and 2 trees removed, **05**, 1222.

1905-06. Mainten. work continued by removal of obstr.; j. repaired at Walkers Bluff, **06**, 1163.

1906-07. Mainten. work continued; site purchased for lower dam, **07**, 1244.

1907-08. Title to land needed for lower lock site approv. and land purchased; purchase of other land delayed on account of possible modification of proj., **08**, 301.

1908-09. Mainten. work continued, **09**, 1292.

1909-10. J. repaired at Walkers Bluff and sunken scow removed, **10**, 1430.

1910-11. 2,905 snags and other obstr. removed from chan., and 5,726 trees, stumps, etc., removed from banks, **11**, 1556.

1911-12. 793 stumps, snags, etc., removed from chan., and 614 trees hauled back from banks, **12**, 1774.

PHYSICAL CHARACTERISTICS.

Description of, **88**, 893; **11**, 377.

Tidal observations, **93**, 1412, 1415; **94**, 1045; **95**, 1334.

List of shoals, **93**, 1416.

Water-gauge record for 1892, **93**, 1418; for 1893 and 1894, and m. of water-gauge readings, **95**, 1334.

PROJECTS.

By Capt. Phillips, 1881, clearing snags, trees, etc., 75 m.; dr. chan. at Thames Shoal, 5' x 60' x 1,900; l. w., and constr. of 5,000 l. f. of experimental dike, est., \$55,775, **81**, 1018. Modified, 1885, by Capt. Bixby, to secure a 4' chan., Wilmington to Elizabethtown; thence a similar 3' chan. to Fayetteville, at an increased cost of \$200,000, **85**, 1084. Modified, 1886, by Capt. Bixby, removal of snags, logs, and stumps, and constr. of 84,000 l. f. r. j., cost, \$480,000, inclusive of \$65,000 previously app., **86**, 996; **87**, 1045; **91**, 1392.

Lt. Col. Heap in 1896 est. mainten. would cost \$3,000 an., **96**, 1128.

Of 1902, to obtain by canalization a l. w. d. of 8', Wilmington to Fayetteville; est., \$1,350,000; mainten. of existing chan. to be continued pending constr. of locks and dams, **02**, 234.

Proj. Jan. 26, 1881, abandoned except for mainten. of natural chan., pending constr. of locks and dams as an. act June 25, 1910, **10**, 354. (See Cape Fear R., part 3.)

SURVEYS.

Haywood, N. C., to 20 m. bel. Wilmington, **72**, 742.

An. act June 14, 1880; made, 1880, by Capt. Phillips, **81**, 1018.

Above Fayetteville, **84**, 1064; **96**, 1144.

Sur. of 16 shoals, **85**, 1083.

All the shoals were sur., 1893, by Maj. Stanton, **93**, 1412.

Pre. ex. for navigable chan., Wilmington to Fayetteville, of 4', 6', and 8' m. l. w., an. act June 6, 1900; made, 1900, by DO.; est., \$1,320,000 for 4' chan. and \$1,350,000 for 8' chan., **01**, 310, 1552-69.

R. by BERH. req. by R. and H. C. BERH. believes \$1,320,000 est. not justifiable, but recom. stream worthy of careful consideration and further sur.²

For determining lock and dam sites under the canalization proj. of 1902, **04**, 1493; **05**, 1222.

Of lock sites; borings, **06**, 1163.

Ex. for modification of existing proj., an. act Mar. 2, 1907; made, 1908, by Capt. Brown; plan, at cost of \$615,000, presented,³ **08**, 306.

⁴ \$35,317.77 of this amount withdrawn and turned into the surplus fund.

1910-11. Plans for locks and fixed timber and st. dams, and for lock tender's dwellings at Kings Bluff prepared, and drilling operations at Browns Landing under way, **11**, 1559.

1911-12. The site at Kings Bluff cleared and grubbed; camp buildings constr. and preparations made for starting work on Lock and Dam No. 1 **12**, 1777.

PHYSICAL CHARACTERISTICS.

During 7 months freshets occurred raising water levels from 15' to 50', **12**, 456.

PROJECTS.

By Capt. E. W. Van C. Lucas, 1902, slack water navigation above Wilmington, and constr. of 3

locks and dams; est., \$1,350,000.¹ Act June 13, 1902, app. \$50,000 for purchase of sites for locks and dams, **10**, 355.

Act June 25, 1910, au. new proj. for navigable d. of 8' up to Fayetteville, by 2 locks and dams; est. \$615,000, with \$8,000 an. mainten.,² **10**, 355.

SURVEYS.³ (See Part(b), M-305.)

Land at King Bluff resur., corners monumented, gauge estab., borings made, check levels run, bench marks estab., readings made, and stream measurements taken, **11**, 1558, 1559.

Cong. docs., etc., relating to exs., sur., plans, etc., **12**, 457.

Sur. of shoals at Kings Bluff made to determine amount of dr. necessary, **12**, 1777.

Part (d), M-305 Cape Fear and Deep Rivers, N. C. (Reeves Point to La Grange.)

ENGINEERS.

Chief of Engineers. **R.**, **71**, 76; **72**, 73, 74.

In charge. Maj. W. P. Craighill, 1871-72. **R.**, **71**, 621; **72**, 741.

Assistant. G. H. Elliott. **R.**, **72**, 742.

PLANS.

First division, La Grange to Fayetteville, 85 m. Imp. of falls that occur at intervals throughout its extent by the constr. of 19 R. dams and 2 slough dams, varying from 7½' to 17' in height, of rubble masonry, and 23 locks of masonry, with gravel banks when needed; 5' d. of water on miter sills, lock chambers 20' x 120'.

Second division, Fayetteville to Hungry Neck, 66 m. 60 m. of longitudinal dikes, and 15,000 c. y. dr.

Third division, Hungry Neck to Wilmington, 46 m., no imp.

Fourth division, Wilmington to Reeves Pt., 19 m. Removing wreck, *North Heath*; removing timber obstr.; removing shoal called "The Logs;" dr. 112,000 c. y.

Est. cost, \$2,316,711, **72**, 742-749.

PRIVATE (CORPORATE) WORK.

Companies organized for imp. Cape Fear, Deep, and Haw Rs. in 1796 and 1849, received liberal aid from the State, and spent much money (the latter company \$350,000) to constr. dams, canals, and locks. Work practically an utter failure. **72**, 744.

SURVEY.

Under direction of Maj. Craighill, by G. H. Elliott, 1871; **R.**, **71**, 621 (**R.** unfav.—"too expensive") **72**, 741-749.

Part (e), M-305 Cape Fear River, N. C. (Above Fayetteville.)

COMMERCE.

Description of, **96**, 1146.

ENGINEERS.

Chief of Engineers. **R.**, **84**, 177; **96**, 171; **00**, 277.

In charge:

Maj. W. P. Craighill. **R.**, **72**, 741, 749.

Capt. J. Mercur. **R.**, **84**, 1064.

Maj. W. S. Stanton, 1894-96. **R.**, **96**, 1144.

Lt. Col. D. P. Heap, 1896. **R.**, **96**, 1144.

PHYSICAL CHARACTERISTICS.

Description of, **72**, 742; **96**, 1145.

The R. is formed by the confluence of the Deep and Haw Rs. at Haywood, N. C., **96**, 1145.

PROJECTS.

Maj. Stanton in 1895 est. imp. of the R. by means of locks and dams would cost from \$2,555,000 to \$3,000,000, **96**, 1146.

SURVEYS.

Au. act Mar. 3, 1871; made by Maj. Craighill, **72**, 742.

Ex. au. act Aug. 2, 1882; made by Capt. Mercur, **84**, 1064. (**R.** unfav.)

Sur. au. act Aug. 17, 1894; made by Maj. Stanton in 1895 (see Projects), **96**, 1144.

M-305(f) CAPE FEAR RIVER TO WACCAMAW RIVER, N. C. (Waterway.)

ENGINEERS.

Chief of Engineers. **R.**, **81**, 168.

In charge. Capt. J. Mercur. **R.**, **82**, 1119.

Assistant. J. P. Darling. **R.**, **82**, 1120.

PHYSICAL CHARACTERISTICS.

Route described, **82**, 1121.

PLANS.

Capt. Mercur est. \$1,500,000 to \$8,250,000, **82**, 1120.

SURVEY.

Au. act Mar. 3, 1881; made by Capt. Mercur (**R.** unfav.—"cost, virtually prohibitive"), **82**, 1119.

E. D. Thompson. **R.**, **93**, 1405.

C. Schuster. **R.**, **96**, 1123; **97**, 1401.

OBSTRUCTIONS.

From brs. without draws, **85**, 1129, 1130.

OPERATIONS.

1890-91. 528 snags and stumps and 90 cords of small snags removed from the chan., and 216 trees and 145 cords of brush cleared from the banks, **91**, 1386.

1891-92. 33 snags and 1 SS. wreck removed from the chan., **92**, 1153.

1892-93. About 150 snags and other obstr. removed, **93**, 1405.

1893-94. Over 3,000 snags and other obstr. removed, **94**, 1041.

1895-96. About 800 snags and other obstr. removed, **96**, 1123.

1896-97. About 2,000 snags and other obstr. removed, **97**, 1462.

1899-00. R. cleared of obstr. and made navigable 88 m. to Hallsville, **00**, 1815.

1900-01. 1,631 snags, 528 stumps, and 704 trees removed, **01**, 1500.

1902-03. 230 snags, 81 stumps, and 1,084 trees removed, **03**, 1105.

1903-04. 356 snags, 8 stumps, 1 log, and 1 wreck removed, **04**, 1490.

1904-05. 836 snags and 822 trees removed, **05**, 1218.

1905-06. 97 snags and 463 trees removed, **06**, 1159.

1906-07. 33 snags, 10 stumps, 51 logs, and 64 trees removed, **07**, 1241.

1908-09. 3 log rafts, 136 snags, 9 stumps, 91 logs, and 89 trees removed, **09**, 1290.

1909-10. Mainten. continued in the removal of obstr.; new hull for snag boat *Gen. H. G. Wright* completed, house built, and machinery installed at cost to this R. of \$2,323.52; **10**, 1425.

1910-11. 2,951 snags and other obstr. removed from chan.; 2,298 trees hauled back, 27 trees trimmed, and 10 cords brush cut on banks, **11**, 1551.

1910-11. 344 snags and other obstr. removed from chan., and 260 trees hauled back from banks and 1 tree trimmed, **12**, 1770.

PHYSICAL CHARACTERISTICS.

Description of, **90**, 1182.

Tidal observations, **93**, 1405.

Water-gauge record for 1892, **93**, 1406.

Mean of water-gauge readings, **95**, 1330.

Description of, between old county ferry and Juniper Swamp, **95**, 1389.

Stage of water very low, **11**, 1551.

Bad obstr. of chan. by snags, **12**, 451.

PLANS.

By Capt. Bixby, 1885, removing old br. ps.; est., \$700, **85**, 1130, 1131.

PRIVATE WORK.

Upper part of the R. from Kornegays br. to Deep Bottom is kept clear of obstr. by the county commissioners of Duplin Co., **96**, 1123.

PROJECTS.

By Capt. Bixby, 1889, imp. from Wilmington up to Hallsville for light draft SS. and to Kornegays br. for pole boats, by removal of snags, logs, and similar obstr.; est., \$30,000, **91**, 1384.

In 1895 Maj. Stanton est. \$10,000 to dr. chan. for boats of 17' draft from the old county ferry to Juniper Swamp, **95**, 1389.

In 1896 Lt. Col. Heap est. \$2,000 an. for mainten., **96**, 1123.

SURVEYS.

Ex. au. act July 5, 1884, made by Capt. Bixby, **85**, 1128, 1130.

Au. act Aug. 11, 1888; made, 1888, by Capt. Bixby, **90**, 1181.

List of brs. obstr. the stream, 93, 1409. County br. at Pt. Caswell rebuilt in 1896 with a clear w. of draw of 27½', 96, 1125.

OPERATIONS.

1887-88. 438 logs and stumps removed from R. chan., and 472 trees and 98 cords of brush removed from the banks, 88, 890.

1889-90. 30 piles and snags removed from the chan., and 155 trees and 573 cords of brush removed from the banks, 90, 1146.

1892-93. Over 3,000 logs and other obstr. removed from chan. and banks, 93, 1409.

1893-94. About 1,200 logs and other obstr. removed from the chan. and banks, 94, 1043.

1894-95. About 800 logs and other obstr. removed from the chan. and banks, 95, 1332.

1895-96. About 1,800 logs and other obstr. removed from the chan. and banks, 96, 1125.

1896-97. About 600 logs and other obstr. removed from the chan. and banks, 97, 1403.

1898-99. 48 snags and other obstr. removed from chan., 99, 1502.

1899-00. 577 snags, 35 trees, 206 stumps removed from chan., and 409 trees from the banks, 00, 1813.

1900-01. 268 stumps, 353 snags, and 561 trees removed, 01, 1499.

1902-03. 1,190 snags, 18 logs removed, and 995 trees cut, 03, 1105.

1903-04. 249 snags and 12 logs removed; mile boards placed between Clear Run and the mouth, 04, 1492.

1904-05. 568 snags removed and 698 trees cut; repairs to snag boat, 05, 1220.

1905-06. 92 snags, 13 stumps, 21 logs, and 9 trees removed, 06, 1161.

1906-07. 15 snags, 3 stumps, 5 logs, and 33 trees removed, 07, 1242.

1908-09. 158 snags, 5 stumps, 61 logs, 107 trees, and 3 cords brush removed, 09, 1291.

1909-10. 62 snags, 3 stumps, 16 logs, and 47 trees removed; 176 trees hauled back, 4 trimmed

¹ Increased by \$800 trans. from Northeast Cape Fear, R., 12, 1773

*Allotment.

and 3 cords brush cut; snag hoister and snag boat building, 10, 1427-28.

1910-11. 2,271 snags and other obstr. removed; 1,900 c. y. dr. from cut 25' w., 54' d., and 225' l.; several sharp points cut off and mouths of small sloughs filled up, 11, 1554.

1911-12. 5,674 snags and other obstr. removed, 12, 1772.

PHYSICAL CHARACTERISTICS.

Description of, 84, 1061; 85, 1146, 1149, 1151; 11, 376.

Orig. condition of the R., 88, 889.

Water-gauge record for 1891, 91, 1388.

Present l.-w. d., 5' to Pt. Caswell, 2½' to Hawes Narrows, and 1½' to Clear Run; R. navigable to Clear Run during high stages, averaging about 8 months in the year, 01, 1499.

Chan. badly obstr. by snags, 1903-4, 04, 240.

PRIVATE (CORPORATE) WORK. (See Projects, second par.)

PROJECTS.

By Capt. Bixby, 1884, thoroughly cleared natural chan. over the 70 m. of R. between its mouth and

Lisbon, to dr. or dike the so-called Narrows, and afterwards a 4' l.-w. chan. below Pt. Caswell; est., \$33,500, 85, 1148; 87, 1043.

Part of the R. controlled by a corporate company, whose rights should be ceded to the U. S. before expend. are made, 85, 1149; 87, 1043.

By Maj. Stanton, 1895, modification of proj. of 1885 to exclude the 7 m. of R. above Clear Run br. from imp., and to clear obstr. from the R. mouth to Clear Run br. at a cost not to exceed a total of \$13,000, any balance remaining to be used for keeping the R. clear of obstr., 93, 1407.

In 1896 Lt. Col. Heap est. an. mainten. \$2,000, 96, 1125.

Proj., 1894, to maintain natural chan. to Clear Run; est., \$2,000 yearly; Capt. Lucas recom. yearly app. of \$3,000, 02, 234, 141.

SURVEYS.

Ex. au. act Aug. 2, 1882; made by Capt. Mercur (R. unfav.), 84, 1061.

Sur., 1884, by Capt. Bixby, 85, 1148.

Cong. docs., etc., relating to exs., sur., plans, etc., 12, 453.

M-320

LIVINGSTON CREEK, N. C.

COMMERCE.

1902, 14,000±t. an., expected to increase through estab. of fiber plant, 04, 1517.

Description of, 04, 1517, 1520.

ENGINEERS.

Chief of Engineers. R., 04, 244, 1516.

Boards. BERH. R. (favors snagging), 04, 1518, 1519.

In charge:

Capt. E. W. Van C. Lucas. R., 04, 1517.

COMMERCE.

Present and prospective, 85, 1154; 87, 1080.
C. of the B., 88, 933.
Necessity of further imp., 89, 1110.
Description of, 93, 1443-1445; 94, 1062; 95, 1352;
96, 1169; 98, 1272; 02, 1158.
Aggregate value of the C., 1896, \$6,288,350, 96, 1169.

Water rate on lumber decreased from \$5.50 per M f. in 1892 to \$4.12½ in 1905, 06, 282.

Water rates on lumber advanced to \$6, 08, 314.

"The amount of the commerce for the calendar year 1911 was 314,503 tons, valued at \$5,322,569. It consisted mainly of lumber, timber products, cotton, provisions, and general merchandise. There has been little change in the nature of the commerce during the past year.

"This improvement and the operation of ocean-going steamers and sailing vessels appear to secure to Georgetown the usual port differentials which are designed to meet water competition, this particularly on through freight from and to New York and Baltimore. The precise percentage of reduction of rates does not appear to be susceptible of determination." 12, 470.

CONTRACTS.

1889. J. S. Howell, diking, etc., \$96,555, 90, 1172.

1890. W. T. Gaynor, sheet piling, st., mattress, etc., \$192,640, 91, 1414.

1892. C. G. Bochman, extension of n. j.; mattresses, \$1.05 s. y., p. m.; large st., \$2.70 short t.; small st., \$2.45 short t. (\$60,000 to \$70,000), 93, 1446. Rittenhouse Moore Dredging Co., earth dike constr., 24¢ c. y. (\$105,000), 93, 1446. (Annulled, 1893, 94, 1060.)

1893. C. G. Bochman, earth dike constr., 27¢ c. y., 94, 1060.

1894. W. E. and E. L. Friday, j. constr.; mattresses, 74¢ s. y., p. m.; small and large st., \$2.13½ t. (\$77,285), 95, 1356.

1897. The Bucyrus Co., steam pump dr., \$73,800, 97, 1456. R. G. Ross, j. constr.; large and small st. and ballast, \$1.57 t.; mattresses, 57¢ s. y. (\$1,241,499.43), 97, 1455. J. A. Bryan, muck ditch, 25¢ l. f.; sodding, 19½¢ s. y.; dike filling, 24¢ c. y.; dam, \$375 (\$21,000), 97, 1455.

1899. J. I. Hazard, coal, \$2.64½ t., 99, 1529.

1901. J. I. Hazard, coal, 02, 1156.

1902. J. I. Hazard, coal; Riverside Iron Works, drag, curved pipe and patterns, 02, 1156. Consumers Coal Co., coal, 03, 1124.

1903. Thos. W. Brown, bottom-dump lighter, \$700. C. B. Colbert, repairs to drs., \$3,698.75, 04, 1551.

1904. Simons-Mayrant Co., constr. cofferdam dike, unit prices given, 04, 1550. W. C. Reeves, bottom-dump lighter, \$2,245; Standard Fuel Supply Co., coal, \$3.53 t., 04, 1551. C. B. Colbert, installing machinery in new drs., \$3,513.30, 05, 1242.

1906. R. G. Ross, constr. mound on s. j.; st., \$3.94 t., 07, 1259.

1909. S. J. Pregall, an. repairs to dr., \$7,139.15, 10, 1447.

1911. Merrill-Stevens Co., repairing dr. Win-
yah Bay; Atlantic, Gulf & Pacific Co., dr., 9.9¢ c. y., 11, 1575.

ENGINEERS.

Chief of Engineers. R., 81, 168; 82, 164; 85, 177; 87, 136; 88, 130; 89, 147, 1111, 1112; 90, 132; 91, 169; 92, 169; 93, 182; 94, 167; 95, 190; 96, 173; 97, 217; 98, 214; 99, 247; 00, 281; 01, 314; 02, 241; 03, 246; 04, 249; 05, 258; 06, 280; 07, 294; 08, 312; 09, 321; 10, 365; 11, 387; 12, 468, 484.

Boards. Convened, New York, Dec. 24, 1888, by S. O. No. 51, to ex. and R. upon Capt. Bixby's plan for the imp. Winyah B. R., 89, 1114. (Col. Comstock and Lt. Cols. Houston and Robert.)

In charge:

Capt. J. Mercur, 1881-85. R., 82, 1122.
Capt. W. H. Bixby, 1885-92. R., 85, 1154; 87, 1078; 88, 929; 89, 1106; 90, 1169; 91, 1411.
Maj. W. S. Stanton, 1892-95. R., 92, 1187; 93, 1441; 94, 1059; 95, 1349.
Capt. F. V. Abbot, 1896-97. R., 96, 1165; 97, 1452.

Maj. E. H. Ruffner, 1898-99. **R.**, 98, 1272; 99, 1527.
 Capt. J. C. Sanford, 1900-02. **R.**, 00, 1851; 01, 1582; 02, 1154.
 Capt. G. P. Howell, 1903-07. **R.**, 03, 1122; 04, 1549; 05, 1241; 06, 1174; 07, 1258.
 Capt. E. R. Stuart, 1908. **R.**, 08, 1314.
 Capt. E. I. Brown, 1909. **R.**, 1305.
 Capt. E. M. Adams, 1910. **R.**, 10, 1446.
 Col. D. C. Kingman, 1911. **R.**, 11, 1574.
 Maj. G. P. Howell, 1912-. **R.**, 12, 1793.

Assistants:

C. M. Yeates. **R.**, 82, 1124.
 R. Whitford. **R.**, 85, 1155, 1165; 87, 1080; 88, 931; 89, 1109; 90, 1173; 91, 1414; 96, 1168; 97, 1457; 99, 1555; 01, 1586; 02, 1159; 03, 1126.
 C. Humphreys. **R.**, 91, 1415; 92, 1191; 93, 1446.

OPERATIONS.

1889-90. 1,017 t. riprap placed in j. 90, 1170.
 1890-91. 1,013 s. y. of mattress, 460 c. y. of shell, 2,325 t. small st., and 685 t. of large st. used in j. constr. 91, 1413.

1891-92. 46,276 t. of st., 141 c. y. of oyster shells, 21,147 s. y. of mattress, and 194,976' b. m., of sheet piling used in j. constr., 92, 1188.

1892-93. 15,641 s. y. mattresses and 23,755 t. of st. placed in the n. j., and 553' of trestle built, 93, 1441. Mud dike 255' l. built at South Isld. by hired labor, and work of constr. begun under contract, 93, 1447.

1893-94. 1,255 s. y. mattresses and 2,089 t. of small st. placed in the n. j., 94, 1059. 1,800 l. f. earth dike constr. at South Isld., 94, 1060.

1894-95. 21,344 s. y. mattresses, 12,956 t. of small st. and 9,092 t. of large st. placed in the n. j.; 92,755 c. y. earth placed in South Isld. dike, building 8,100' to full dimensions, 95, 1351. 18 spur js., aggregating 1,386 l. f., and 1,225 l. f. of connecting post-and-brush sand catchers built to prevent erosion of South Isld. Beach, 95, 1352.

1895-96. 5,000 t. of large st. and 3,000 t. of small st. placed in the n. j.; the South Isld. j. completed by the addition of 21,169 c. y. mud, and the dike sodded, 96, 1166.

1896-97. Sodding of South Isld. Dike in progress and repairs made, 97, 1453, 1457.

1897-98. 40,313 c. y. mud filling and 48,776 s. y. sod were placed on mud dike; 2,575 l. f. of muck ditch was completed; 10,464 s. y. mattresses, 8,234 t. ballast, and 1,899 t. large st. were placed in j. at South Isld., 98, 1272.

1898-99. 61,435 s. y. mattress, 45,691 t. small st., and 54,079 t. large st. placed in s. j.; 172,977 c. y. dr. from Bottle Chan. and wharf for use of dr. built at North Isld., 99, 1527.

1899-00. 94,413 s. y. mattress, 86,526 t. large st., and 47,243 t. small st. placed in s. j.; 5,560 s. y. mattress, 2,444 t. large st., and 1,850 t. small st. placed in n. j.; 337,218 c. y. dr. from Bottle Chan., and dr., wharves, launches, and living quarters repaired, 00, 1855.

1900-01. Mattress foundation for s. j. completed, superstr. extended 4,635', mattress placed along j. to prevent undermining, superstr. of n. j. extended 1,289' and mattress 500' beyond this, 237,390 c. y. dr. between js. and 23,702 c. y. dr. within B., 01, 1582, 1586.

1901-02. S. j. extended to outer limit up to h. w. level, 1,240 l. f. raised to 10' above l. w., mattress placed to prevent further undermining; mattress foundation for n. j. completed, superstr. extended 2,747 l. f. 6' above l. w. and 2,725 l. f. inner portion raised to same height; 165,376 c. y. dr., 02, 1154.

1902-03. Jetty constr. completed, and 78,919 c. y. dr., 03, 1122.

1903-04. 205,981 c. y. dr., 23,894 c. y. material placed in mud dike on South Isld., and 10,236 s. y. sodded; dam built across Sand Creek, 04, 1549.

1904-05. 98,303 c. y. dr. from e. chan. and 27,593 c. y. from opposite Georgetown; s. j. extended 2,600' to mud dike by sheet piling and mud structure, and mud dike extended and partly sodded, 05, 1241.

1905-06. 594,448 c. y. dr., 5,360 c. y. mud placed in repairing mud dike and 6,377 s. y. sodded;

13,438 s. y. sod laid on extension to s. j., 06, 1174, 1175.

1906-07. 503,752 c. y. dr., 3,960 stumps and logs removed, and mound at end of s. j. rebuilt, 07, 1258. 1,054 c. y. mud placed in repairs to mud dike and 7,390 s. y. sodded, 07, 1259.

1907-08. 312,191 c. y. dr., and 809 obstr. removed, 08, 1314.

1908-09. 311,317 c. y. dr. and 575 stumps removed, completing proj., 09, 1305.

1909-10. 90,165 c. y. dr., 10, 1446.

1911-12. 2,014,191 c. y. dr., 12, 1793. Dr. *Winyah Bay* removed 236,725 c. y., bin meas.; 230 logs, etc., removed; 928 c. y. earth, mud, and poles, and 998 s. y. grass placed in South Isld. Dike, 12, 1794.

PHYSICAL CHARACTERISTICS.

Description of, 93, 1443, 1444; 95, 1349; 01, 314. Mean of water gauge readings, 95, 1354. Various d.; shoaling, 11, 1574.

PLANS. (See Projects.)

In 1881 Capt. Mercur considered that by a concentration of the tidal currents upon the bar by means of 2 submerged js. a chan. from 12' to 15' d. and 1,800' w. could be obtained over the bar; est., \$1,500,000, 82, 1123; 85, 1159.

PROJECTS. (See Plans.)

By Capt. Bixby, 1885, approv. by BE., 1888, to secure a permanent chan. of entrance over the bar from 15'-20' m. l. w. by constr. of 2 converging js., extending from South Isld. and the s. end of North Isld., resp., and running to the 18' curve of d. These js. to be built of riprap on brush-matress foundation, with a top w. of from 10'-20' and a h. of 6' above m. l. w.; est., \$2,500,000, 89, 1114, 1115; 92, 1188.

By Maj. Stanton, 1892, constr. of an earth dike about 11,000' l. on South Isld. to prevent hurtful changes to the tidal regimen of the B. that would be caused by the overflow along about 2 m. of shore line at the immediate entrance to the B. on an extensive marsh on its s. side whose surface is about 1' below m. h. w., 93, 1442.

By Chief of Engineers, 1896, constr. of 2 js., the completion of the mud dike, and for constr. of seagoing steam-pump dr., 97, 1453; modifications of this proj. made by Chief of Engineers, 1897, 97, 1453-1454.

Extended by act 1902 to permit dr. shoal places between entrance and city of Georgetown, 02, 1155.

Au. act June 25, 1910, provides for continuing imp. to secure 18' d.; est., \$650,000, 10, 367.

SURVEYS.

Ex. au. act Mar. 3, 1881; made, 1881, by Capt. J. Mercur, 82, 1122.

Of entrance au. act July 5, 1884; made, 1885, by Capt. Bixby, 85, 1157.

Surs. made, 1892-93 and 1895-96, by Maj. Stanton and Capt. Abbot, 93, 1446; 96, 1167-1168.

Sur. of the bar and shore lines at North and South Islds. as far as Santee Pt., made by Capt. Abbot, 1897, 97, 1454.

Sur. of Bottle Chan. made, 1898, by Maj. Ruffner, 98, 1272.

Sur. made, 1899, by Maj. Ruffner (maps), 99, 1527.

Sur. made, 1900, by Capt. Sanford (maps), 00, 1851.

Of B. and entrances, 01, 1582; 02, 1155; 03, 1123; 04, 1549; 08, 1314.

Of the B., 11, 1574.

Of e. chan. of inner B., 11, 1575.

Cong. docs., etc., relating to ex., surs., plans, etc., 12, 469.

Pre. ex. au. act Feb. 27, 1911, with view to providing uniform d. of 18' m. l. w., and giving increased H. facilities at Georgetown. **R.** by Col. Kingman, May 29, 1911² (unfav.), 12, 484.

Maps.

Capt. E. R. Stuart, 1908. R., 08, 1309.

Capt. E. I. Brown, 1909. R., 09, 1301.

Capt. E. M. Adams, 1910. R., 10, 1441.

Col. D. C. Kingman, 1911. R., 11, 1569.

Maj. G. P. Howell, 1912-. R., 12, 1787.

Assistants:

C. W. Forster. R., 80, 850.
H. Heth. R., 81, 1031; 82, 1109; 83, 869; 84, 1048.

R. Whitford. R., 85, 1106; 86, 1024; 87, 1068; 88, 914; 89, 1200; 90, 1231; 91, 1443; 92, 1197; 93, 1465; 94, 1069; 95, 1393; 96, 1153; 97, 1441; 00, 1844; 04, 1619, 1626.

OPERATIONS.

1880-81. Brush and pile js. for contracting the chan. built at Needles Eye Shoal and Oat Bed Shoal, 81, 1031, 1032.

1881-82. Removal of snags, logs, and similar obstr. continued and driving of piles completed on both shoals, securing 12' throughout, 82, 1108, 1109.

1882-83. Banks trimmed of overhanging trees between Conwayboro and Georgetown, 83, 869.

1883-84. Trees, logs, and snags removed from R. between Conwayboro and Needles Eye Shoal, 84, 1048.

1884-85. 932 snags, stumps, and trees, 1 flatboat and 1 schooner removed from bed of R.; 1,752 trees and stumps and 14,550 l. f. of brush removed from banks, clearing 66 m. of R., 85, 1105.

1886-87. Obstr. removed from 34 m. of R. extending the imp. to about 96 m. above Georgetown, 87, 1067, 1068.

1887-88. 462 trees, logs, and snags removed from R.; 710 trees removed from banks; repairs to js. at Big Needles Eye Shoal and Oat Bed Shoal, 88, 913.

1888-89. 2,411 trees and snags and 6 cords small snags removed from the chan., 5,374 trees cut and trimmed, and 234 cords of brush removed from the banks, 89, 1200.

1889-90. 991 trees, stumps, and snags and 6 cords small snags removed from the chan., and 1,775 trees cut and trimmed upon the banks, 90, 1231.

1890-91. 2,739 snags and logs and 10 cords of small snags removed from the chan. and 5,900 trees and 106 cords of brush cleared from the banks, 91, 1443.

1891-92. 576 snags removed from the chan., and 1,074 trees and 7 cords of brush cleared from the banks, 92, 1197.

1892-93. Over 4,000 snags and other obstr. removed from the banks and chan., 93, 1465.

1893-94. Over 2,000 snags and other obstr. removed, 94, 1069.

1894-95. Over 1,800 snags and other obstr. removed, 95, 1393.

1895-96. Over 400 snags and other obstr. removed, 96, 1153.

1896-97. About 2,000 snags and other obstr. removed, 97, 1441.

1897-98. About 2,000 snags and other obstr. removed, 98, 1265.

1898-99. Over 838 snags and other obstr. removed, 99, 1518.

1899-00. About 2,000 snags and other obstr. removed, 00, 1844.

1900-01. 1,083 logs, stumps, and snags removed and 624 trees and 2 cords brush cut, 01, 1574.

1903-04. 5,129 obstr. removed and 15,732 c. y. dr., 04, 1544.

1904-05. 851 obstr. removed, 05, 1236.

1905-06. 37,633 c. y. dr., 06, 1172.

1906-07. 41,306 c. y. dr., and 2,984 obstr. removed for imp.; 1,068 obstr. removed from chan.

and 892 trees and 102 cords brush from banks for maintain., 07, 1254.

1907-08. 11,826 logs, trees, stumps, and snags and 620 cords brush removed; 62,284 c. y. dr., 08, 1309.

1908-09. 23,731 c. y. dr., and 51 stumps removed, 09, 1301.

1909-10. 46,091 c. y. dr., and 236 stumps removed, 10, 1441.

1910-11. Dr. Cheraw repaired and 2 bank derricks constr.; 98,122 c. y. removed from Thoroughfare cut; work at this cut practically completed, 11, 1569-70. Derrick crew removed 1,412 obstr., and hoister Socastee removed 667 snags and other obstr.; proj. about 25% completed, 11, 1570.

1911-12. Dr. to provide chan. 8' x 80', and making cuts under the 12' proj. to Conway continued, 112,512 c. y. material and 250 stumps removed, 12, 1787. The 2 derricks removed total of 13,953 c. y. from Loggy Creek and Burrows Cuts and force

employed in addition to derrick crews removed 287 trees and other obstr. All cut-offs below Conway made. Work to form 12' chan. can be done better by pipe line dr.; not intended to operate dr. *Cheraw* any longer on this stream, 12, 1788.

PHYSICAL CHARACTERISTICS.

Description of, 80, 849; 81, 1032; 87, 1066; 04, 1616, 1620, 1629.

R. has its outlet into Winyah B. at Georgetown, forming a part of the Winyah B. system of Rs., 84, 1048; 99, 1518.

PROJECTS.

By Capt. Phillips, 1880, imp. of Waccamaw R. by formation of chan. 12' d. at all stages of water, with 80' bottom w., from mouth of the R. 66 m. upward to Conwayboro; also a chan. 178 m. farther to Lake Waccamaw; est., \$29,370, 80, 848. Est. revised, 1885, to \$138,400, 85, 1105; 86, 1022; 92, 1196.

Maj. Ruffner est., 1899, \$6,000 per year would be needed to maintain chan. in serviceable condition, 99, 1518.

By Capt. Howell, 1904, est. for chan. to Conway, 6', \$40,000; 9', \$70,000; 12', \$120,000; 12' to Bucks-ville and 6' to Conway, \$50,000; last one recom. if proj. be modified,¹ 04, 1625.

Capt. Adams, 1910, recom. adoption of modified proj. and limited snagging above Conway,¹ 10, 1442.

SURVEYS.

An. act Mar. 3, 1879, 79, 95; made, 1880, by Capt. Phillips, 80, 848.

Between Conwayboro and Waccamaw Lake au. act Aug. 2, 1882. R. by Capt. Marcur as unworthy of imp., 84, 1056.

Ex. and sur. au. act June 13, 1902; made, 1903, by Capt. Sanford and Capt. Howell, resp.,¹ 04, 1614.

EXPENDITURES.

For ex., \$103.40, 73, 753.

OBSTRUCTIONS.

Wooden br. near Society Hill declared an obstr. to navigation; fault corrected by owners, 08, 1312.

OPERATIONS.

1880-81. 286 logs and trees removed from chan. at Pocket Landing, 81, 1029.

1881-82. Removal of snags, trees, and obstr. continued, 82, 1107.

1882-83. Removal of sunken trees, logs, and obstr. continued, opening R. for an add. distance of 50 m., 83, 866.

1884-85. 604 logs, snags, and stumps cleared from the chan., imp. navigation over 209 m., 85, 1100.

1886-87. 1,560 snags, logs, and stumps, and 2,023 trees removed from R. and banks, 87, 1071.

1887-88. 634 logs, trees, and stumps removed; also 1,690 trees from the banks, 88, 922.

1888-89. 217 trees and stumps and 14 cords small snags removed from the chan.; 49 trees and 6 cords of brush removed from the banks, 89, 1181.

1889-90. 1,517 logs, trees, and snags removed from the chan., 3,551 trees and 100 cords of brush cut from the banks, 90, 1217.

1890-91. 1,080 snags removed from the chan., and 1,034 trees cleared from the banks, 91, 1452.

1891-92. 1,648 snags and 10 cords of small snags removed from the chan., and 1,680 trees and 51 cords brush from banks, 92, 1205.

1892-93. About 3,500 snags and other obstr. removed from R. and banks, 93, 1475.

1893-94. About 1,200 snags and other obstr. removed, 94, 1078.

1894-95. About 900 snags and other obstr. removed, 95, 1402.

1895-96. About 100 snags and other obstr. removed, 96, 1162.

1896-97. About 2,500 snags and other obstr. removed, 97, 1449.

1897-98. About 4,000 snags and other obstr. removed, 98, 1269.

1898-99. Over 400 snags and other obstr. removed, 99, 1523.

1899-00. About 2,500 snags and other obstr. removed, 00, 1849.

1900-01. 32 snags, logs, and stumps removed, 01, 1578.

1902-03. Obstr. removed, 03, 1120.

1903-04. 4,400 obstr. removed, 04, 1547.

1904-05. 2,307 obstr. removed, and 965 c. y. dr., 05, 1238.

1905-06. 1,183 c. y. dr., 06, 1173.

1906-07. 105,978 c. y. dr., 07, 1256.

1907-08. 191,239 c. y. dr. and 3,815 obstr. removed, 08, 1312.

1908-09. 142,445 c. y. dr. and 3,733 obstr. removed, 09, 1304.

1909-10. 16,940 c. y. dr. and 2,972 obstr. removed, 10, 1445.

1910-11. 1,046 snags and other obstr. removed; repairs to steam hoister *Socastee* completed, 11, 1572.

1911-12. 997 obstr. removed by hoister *Socastee* derrick No. 2, erected on 75-t. lighter, removed 1,605 obstr. from bank; combination dr. and snag boat under constr., 12, 1791.

PHYSICAL CHARACTERISTICS.

Description, 73, 754; H. Doc. 68, 45th Cong., 3d sess., 17, 18; 80, 846; 99, 1523.

List of obstr., 73, 755; H. Doc. 68, 45th Cong., 3d sess., 18, 80, 846.

Discharge, H. Doc. 68, 45th Cong., 3d sess., 19.

Original condition of the R., 88, 920.

Description of, 01, 1608, 1616.

Materials (r., pebbles, and hard, sticky clay) difficult to dr., 07, 1256.

Work delayed by long-continued h. w., 08, 1312.

R. continuation of Yadkin R. which rises in mtns. of n.w. N. C.; flows se. across State. It changes its name to Pedee (or Great Pedee) at mouth of Uwharrie R. in N. C., 67 m. above Cheraw, S. C. From latter point to mouth in Winyah B. at Georgetown, S. C., 1. is 234 m., of which, portion below Cheraw, 167 m. is proj. section, 12, 466.

PLANS. (See Projects.)

By W. B. Page, removal of r. and shoals, and constr. 15 locks and dams; est., \$1,124,301. Not recom. by Capt. Phillips. H. Doc. 68, 45th Cong., 3d sess., 17, 19, 20.

PROJECTS. (See Plans.)

By Capt. Phillips, 1879, 79, 723, removal of obstr. natural and artificial, to secure 9' as high as Smiths Mills, 46 m. above the confluence of the Pedee and Waccamaw Rs., thence a d. of 3½' as high as the town of Cheraw, 149 m. above the confluence of the 2 Rs., 80, 124, 845; 91, 1450.

From 1880 to 1886, incl., \$47,000 was app. when it was est. that \$70,000 would be required to complete the proj., \$5,000 an. mainten., 86, 170; 87, 1071.

By Capt. Sanford, 1900, for chan. 3½' d. from Cheraw to the W. C. & A. R. R. br., by dr. and removing obstr.; est., \$118,300, and \$4,000 an. for mainten., 01, 1615; au. act June 13, 1902, 02, 240.

By Capt. Stuart, 1908, plan for imp. between Georgetown and Pedee Station; est., \$53,000, 09, 333.

Capt. Adams, 1910, recom. that existing proj. be modified to snagging below Birches Ferry, 10, 1445.

SURVEYS.

By G. Daubeney, from Pine Bluff to Cheraw, S. C., 73, 70, 753.

Ex., by Capt. Phillips and W. B. Page, 1878, Cheraw, S. C., to the mouth of the Uwharrie, N. C., H. Doc. 68, 45th Cong., 3d sess., 16, 17; 79, 723.

Au. act Mar. 3, 1879; made, 1880, by Capt. Phillips, 80, 845.

Of R., 1886, 86, 1018.

Between Cheraw and Wilmington, Columbia & Augusta R.R. br., au. act June 6, 1900; made, 1900, by Capt. Sandford, 01, 1607.

Ex. and sur. from Georgetown to Pedee Station, au. act Mar. 2, 1907; made, 1907-08, by Capt. Howell and Capt. Stuart, resp., 08, 323; 09, 333.

Ex. from Cheraw, S. C., to Blewetts Falls, N. C., au. act Mar. 3, 1909; made, 1909, by Capt. Brown (R. unfav.), 10, 378.

Ex. up to Cheraw for increased d., au. act Mar. 3, 1909; made, 1909, by Capt. Adams (R. unfav.), 10, 378.

Ex. au. act. June 25, 1910. R., Capt. Adams, Aug. 31, 1910, for aiding navigation at Gibson Dam, S. C. (R. unfav.), 11, 398, 399.

Cong. docs., etc., relating to exs., surs., plans, etc., 12, 467.

Capt. E. I. Brown, 1909. R., 09, 1302.

Capt. E. M. Adams, 1910. R., 10, 1443.

Col. Dan. C. Kingman, 1911. R., 11, 1571.

Maj. G. P. Howell, 1912-. R., 12, 1789.

Assistant. R. Whitford. R., 89, 1176; 90, 1213; 91, 1449; 92, 1203; 93, 1472; 94, 1075; 95, 1399; 96, 1159; 97, 1446.

OPERATIONS.

1888-89. 883 trees, logs, and snags removed from chan., and 1,771 trees cut and trimmed on the banks, 89, 1176.

1889-90. 1,476 stumps and snags removed from the chan., and 1,022 trees and 221 cords of brush cut from the banks, 90, 1214.

1890-91. 1,698 snags and logs and 44 cords of small snags removed from the chan., and 1,896 trees

and 110 cords of brush cleared from the banks, 91, 1449.

1891-92. 1,072 snags and logs and 47 cords of small snags removed from the chan., and 1,252 trees and 91 cords of brush cleared from the banks, 92, 1203.

1892-93. About 3,400 snags and other obstr. removed from R. and banks, 93, 1472.

1894-95. About 500 snags and other obstr. removed, 95, 1399.

1895-96. About 500 snags and other obstr. removed, 96, 1159.

1896-97. About 4,500 snags and other obstr. removed, 97, 1446.

1903-04. 4,842 logs, stumps, and snags removed from chan., and 1,326 trees and 152½ cords brush from banks, 04, 1545.

1904-05. 1,180 obstr. removed from chan., and 336 trees and 59½ cords brush from banks, 05, 1237.

1905-06. 1,066 obstr. removed from chan., and 353 trees and 60 cords brush from banks, 06, 1172.

1906-07. 1,180 obstr. removed from chan., and 241 trees and 57 cords brush from banks, 07, 1255.

1909-10. 529 obstr. removed, 10, 1443.

1910-11. Chan. cleared of obstr.; plant repaired, 11, 1572.

1911-12. 1,774 snags, trees, and other obstr. removed, 12, 1790.

PHYSICAL CHARACTERISTICS.

Description, 87, 1111.

R. not subject to severe floods, but was high during working season 1912, 12, 1790.

Rises in N. C., flows s., and empties into Great Pedee, 34 m. above latter's mouth, in Winyah B., S. C. Is 220± m. l., but only lower 113 m. proj. section, 12, 465. Head of navigation, 47 m. above mouth. Snagging will always be required, 12, 466.

PROJECTS.

By Capt. Bixby, 1887, imp. R. by removing snags, trees, and similar obstr., clearing it for a 4' draft steam navigation from its mouth to the Lumber R., and thence for a 4' draft pole-boat navigation to Little Rock, S. C.; est., \$50,000, 87, 1114; 91, 1448.

Capt. Adams, 1910, did not consider R. worthy of imp. further than covered by existing proj., 10, 379.

Capt. Adams, 1910, recom. tht further imp. be confined to maintain. up to Gallivants Ferry, 10, 1443.

SURVEYS.

Au. act Aug. 5, 1886; made, 1887, by Capt. Bixby, 87, 1113.

See also reference under Great Pedee to sur. au. act Mar. 3, 1879, which applies also to Little Pedee.

ESTIMATES. (See Plans and Projects.)

By S. T. Abert, (1) S.S. navigation, \$444,653.25, 79, 627, 640-643; (2) bateau navigation, \$102,393.60, 79, 644-647.

OPERATIONS.

1880-81. 616 c. y. solid r., 150 c. y. bowlders, and 55 trees, logs, and snags removed from R., 81, 1026.

1881-82. 4,468 c. y. r. blasted and removed; 1,907 l. f. of wing dams and training walls built; 125 c. y. timber and brush put in dams at Clinton and Swicegood Shoals, 82, 1105.

1882-83. 60 c. y. sand and gravel dr.; 1,163 c. y. r. blasted and removed; 226 l. f. wing walls and js. built, 83, 865.

1883-84. 1,136 c. y. r. blasted and removed; 368 l. f. wing dams built, 84, 1045.

1884-85. 2,138 l. f. wing dams and training walls built, 85, 1043.

1885-86. 476 l. f. of wing dam and 125 l. f. of training wall built; also 150 l. f. of training wall and 498 l. f. of wing dam previously built raised and strengthened, 86, 967.

1886-87. 358 l. f. of wing dams built and 227 c. y. r. removed from chan., 87, 1062.
 1887-88. 510 c. y. r. removed from chan., and 1,321 c. y. r. built into 2,489 l. f. of training wall, 88, 918.

1888-89. 978 c. y. st. quarried and 1,735 l. f. of wing dam and training wall built, 89, 1100.

1889-90. 120 c. y. st. removed from the chan. and 607 l. f. of wing dam and training wall built, 90, 1102.

1890-91. 197 l. f. of dam work and 73 l. f. of training wall built, 91, 1407.

1891-92. 392 l. f. of dams built and 216 c. y. of r. removed from the chan., 92, 1182.

PHYSICAL CHARACTERISTICS.

General, 79, 628. Floods, 79, 628.

Description of agricultural characteristics, 79, 628.

Obstr., etc., 79, 630-639.

Description, South Carolina to the Narrows, N. C., 88, 953, 955.

PLANS. (See Estimates and Projects.)

By S. T. Abert, 3' navigation, Wilkesborough to R.R. br. near Salisbury: (1) S.S. navigation, by dr. r. excavation, and constr. of locks and dams, and a short canal around Bean Shoal; (2) bateau navigation, by r. excavation, and by constr. of wing dams, 79, 647.

Capt. Bixby, 1888, did not consider the R., from S. C. to the Narrows, N. C., as worthy of imp., 88, 952.

PRIVATE AND CORPORATE WORK.

1830-35. Imp. at Bean Shoals, on the part of the Yadkin Navigation Co., 79, 633.

PROJECTS.

By S. T. Abert, 1879, imp., Salisbury to foot of Bean Shoals, 647 m., by dr. and r. excavation, to permit of S.S. navigation of 2½'-3' l. w. draft. Est., \$81,671, 79, 87, 647, 648; 83, 864. 1879 to 1886, incl., \$87,000 app.

In 1887, considered that final cost of imp. would be \$400,000, 87, 133, 1063.

In 1889, after an aggregate app. of \$97,000, proj. modified to secure only a cleared chan. way of 60' available w. and 1.5'-3' clear d. for 8 months, Salisbury R.R. br., 35 m., up to Baileys Ferry, at a further cost of \$10,000, 89, 1101; 92, 1182.

In 1892-93 the imp. stopped by order of the Sec. of War on account of there being no boats on the R. or any expectation of there being any if the imp. were completed, 93, 1435.

SURVEYS.

By S. W. Evans, 1878-79. R., 79, 629.

Ex. State line to the Narrows, au. act Aug. 5, 1886, 87, 139.

Ex., S. C. to the Narrows, N. C., au. act Aug. 5, 1886; made, 1888, by Capt. Bixby, 88, 952.

Capt. C. B. Phillips. R., 81, 1038.

Capt. F. V. Abbot, 1883. R., 93, 1532.

Maj. E. H. Ruffner, 1900. R., 00, 1877, 1879.

Assistants:

J. P. Darling. R., 81, 1039.

R. Whitford. R., 00, 1878, 1880.

OBSTRUCTIONS.

Three wooden brs. which could easily be provided with draw spans, 93, 1533.

In 1900 there were 5 county brs., without draws, 00, 1881.

PHYSICAL CHARACTERISTICS.

Description of, 81, 1039; 93, 1533; 00, 1879.

PLANS.

By Capt. Phillips, 1881, imp. between the Wilmington, Columbia & Augusta R.R. br. and mouth by removal of snags, logs, and fallen trees; est., \$45,515.80, 81, 1039, 1040.

PROJECTS.

Maj. Ruffner est., 1899, it would cost \$68,750 to make an imp., 00, 1879.

SURVEYS.

Au. act June 14, 1880; made, 1880, by Capt. Phillips, 81, 1038.

Ex. au. act July 13, 1892; made by Capt. Abbot, 1892 (R. fav.), 93, 1533.

Ex. and sur. R.R. br. at Effingham to mouth at junction of Great Pedee R., for 3' m. l. w., au. act Mar. 3, 1899; made, 1899, by Maj. Ruffner (R. fav.; see Projects), 00, 1877, 1879.

N-61(a) LYNCH RIVER AND CLARK CREEK, S. C.

APPROPRIATIONS.

1907, \$2,000, 07, 1256.

COMMERCE.

No navigation, except by rafts, 07, 292; 12, 364.

ENGINEERS.

Chief of Engineers. R., 07, 292; 08, 309; 09, 319; 10, 363, 378.

In charge:

Capt. G. P. Howell, 1907. R., 07, 1256.

Capt. E. R. Stuart, 1908. R., 08, 1311.

Capt. E. I. Brown, 1909. R., 09, 1303.

Capt. E. M. Adams, 1910. R., 10, 1444.

OPERATIONS.

1907-08. 8 m. of chan. of Clark Creek via Lawrence Cut was cleared, 2,790 obstr. being removed, 08, 1311.

1909-10. 446 logs and other obstr. removed from Clark Creek and Lawrence Cut, 10, 1444.

PHYSICAL CHARACTERISTICS.

Description of, **08**, 309.

Lynch R. trib. to Great Pedee R. into which it flows a few miles above Smiths Mills, 65 m. above mouth of Great Pedee R. Shortly above the point a branch of Lynch R., called Clark Creek, leaves it, and, flowing 7± m., empties into Great Pedee, 10½ m. bel. mouth of Lynch R. Orig. the mouth of Lynch R. was filled with drift coming in from Great Pedee, forcing traffic to come down Clark Creek, **10**, 363.

PROJECTS.

Au. act Mar. 2, 1907, for imp. by removal of obstr., to permit passage of rafts through lower end

of Clark Creek, through a small connecting stream between Clark Creek and Lynch R., known as Lawrence Cut, and through Lynch R., to extent of \$2,000, **08**, 310; **10**, 364.

Capt. Adams recom., 1910, that imp. be abandoned, **10**, 1444.

SURVEY.

Ex. from Effingham to Great Pedee R. au. act Mar. 3, 1909; made, 1909-10, by Capt. Adams (**R. unfav.**),¹ **10**, 378.

Cong. docs., etc., relating to exs., surs., plans, etc., **12**, 364.

¹ Sur.—R. June 10, 1854; est. indefinite. (H. D. 482, 55th, 2d.)

² H. D. 398, 58th, 2d.

³ Between confluence of the Wateree and Congaree Rs. this waterway is known as Wateree R., and above Wateree Creek, as the Catawba.

*Allotment.

COMMERCE.

Importance of, 88, 938.
 Effect of imp. upon timber trade, 89, 1188.
 Description of, 93, 1486; 94, 1087; 95, 1413; 96, 1175; 00, 1896.
 1892-93, freight, 124,182 t., 93, 1485; 1893-94, 115,428 t., 94, 1086; 1894-95, 117,690 t., 95, 1411; 1895-96, 134,135 t., 96, 1172.
 2 new transportation lines estab., 1897-98, 98, 1275.
 Imp. enables S.S. to give lower rates than R.R.s.; is also link in waterway between Georgetown and Columbia (for effect of which see Congaree R.), 10, 369.
 1911, 62,293 t., mainly logs and lumber, 12, 473.

CONTRACTS.

1886. R. Moore, dr., 37¢ c. y., 87, 1085.
 1888. C. C. Ely, dr., 35 to 40¢ c. y., 89, 1187.
 1890. L. S. Ehlich, dr., 37½¢ c. y., 91, 1459.
 1906. Cooperative Building & Mfg. Co., 2 boat hulls, \$7,000, 06, 1177. (See Great Pedee River-Santee portion, \$3,416.67, 09, 1308.)

ENGINEERS.

Chief of Engineers. R., 80, 125, 132; 81, 167, 179; 82, 162; 83, 170; 84, 175; 85, 175; 86, 173, 1040; 87, 136; 88, 131; 89, 154; 90, 138; 91, 173; 92, 172; 93, 186; 94, 170; 95, 195; 96, 174; 97, 219; 98, 216; 99, 249, 255; 00, 283, 291; 01, 316; 02, 242; 03, 248; 04, 251; 05, 260; 06, 282; 07, 297; 08, 314; 09, 323; 10, 368, 378; 11, 290; 12, 472.

In charge:

Capt. C. B. Phillips, 1879-81. R., 80, 916.
 Lt. Col. Q. A. Gillmore, 1881. R., 81, 1148.
 Capt. J. Mercur, 1881-84. R., 81, 1033; 82, 1110; 83, 870.
 Capt. F. A. Hinman, 1884-85. R., 84, 1049.
 Capt. W. H. Bixby, 1885-89. R., 85, 1119; 86, 1030, 1041; 87, 1081; 88, 933.
 Capt. F. V. Abbot, 1889-97. R., 89, 1182; 90, 1218; 91, 1458; 92, 1211; 93, 1483; 94, 1084; 95, 1408; 96, 1171; 97, 1458.
 Maj. E. H. Ruffner, 1898-1900. R., 98, 1275; 99, 1532; 00, 1894, 1897.
 Capt. J. C. Sanford, 1900-02. R., 00, 1856; 01, 1587; 02, 1160.
 Capt. G. P. Howell, 1903-07. R., 03, 1127; 04, 1552; 05, 1245; 06, 1177; 07, 1260.
 Capt. E. R. Stuart, 1908. R., 08, 1317.
 Capt. E. I. Brown, 1909. R., 09, 1307.
 Capt. E. M. Adams, 1910. R., 10, 1449.
 Col. Dan C. Kingman, 1911. R., 11, 1578.
 Maj. G. P. Howell, 1912-. R., 12, 1797.

Assistants:

J. M. Wolbrecht. R., 80, 918.
 Capt. J. C. Post. R., 81, 1156.
 R. Whitford. R., 84, 1050; 85, 1120; 86, 1036, 1043, 1052; 87, 1088, 936; 89, 1187; 90, 1220; 91, 1460; 92, 1212; 93, 1486; 94, 1087; 95, 1411; 96, 1173; 97, 1463; 00, 1859, 1896, 1900.

LEGAL PROCEEDINGS.

Suit of Lowndes estate against U. S. for alleged damage to rice-land drainage, discontinued at request of plaintiff, 01, 1587.

OPERATIONS.

1883-84. 58,317 c. y. dr. and 502 stumps and logs removed from Mosquito Creek, making out 7,860 l. f., 84, 1051.
 1884-85. 47,625 c. y. dr. from Mosquito Creek, 85, 1119.
 1885-86. Drawbr. built across Mosquito Creek; 13,354 c. y. dr. from canal; also 12 stumps removed, 86, 1032.
 1886-87. 9,923 c. y. dr. from canal, diking and draining ground, 87, 1082, 1083, 1087.
 1887-88. 142 l. f. of U. S. canal banks raised, 88, 935.
 1888-89. 1,356 c. y. dr., 89, 1184.
 1889-90. 47,792 c. y. dr., 90, 1220.
 1890-91. 140 snags and 6,477 c. y. removed from the chan., and 141 trees cleared from the banks, 91, 1460.

1891-92. 7,468 c. y. dr., 92, 1212.
 1892-93. Constr. of steam dr. in progress, 93, 1484. 26,694 c. y. dr. and 388 l. f. rice-land drainage restored, 93, 1486. Preparations made to saw lumber from timber land purchased by the U. S., offering a more satisfactory right of way than the Hopewell plantation, 93, 1486.
 1893-94. 91,230 c. y. dr. and about 800 stumps and other obstr. removed; 4,258 c. y. material placed in embankments, 94, 1087.
 1894-95. 122,179 c. y. material dr. and 1,930 stumps and other obstr. removed, 95, 1411. 102,065' b. m., lumber sawed on U. S. land and incidental work done to prevent injury to adjacent rice fields, 95, 1412.
 1895-96. 121,845 c. y. dr. and 1,102 stumps and other obstr. removed; dump scows and a steam wood flat constr. and the Daisy Bank Causeway raised; 289,994' b. m., lumber were sawed, 96, 1173.
 1896-97. 187,631 c. y. dr. and 700 stumps and other obstr. removed; 216,309' b. m., lumber sawed, 97, 1463.
 1897-98. 167,305 c. y. dr., and 648 stumps and other obstr. removed; 118,598' b. m., lumber cut, 98, 1275.
 1898-99. 169,660 c. y. dr., and 527 snags and other obstr. removed, 99, 1532.
 1899-00. 114,765 c. y. dr., and over 1,300 snags and other obstr. removed, 00, 1859.
 1900-01. 79,443 c. y. dr., 264 stumps and logs removed, and sawmill operated, 01, 1587.
 1903-04. 63,195 c. y. dr. and 1,031 obstr. removed, 04, 1553.
 1904-05. 10,978 c. y. dr. and 281 obstr. removed, 05, 1245.
 1905-06. 85,228 c. y. dr., 06, 1177.
 1906-07. 37,500 c. y. dr., 4,650' line canal dug, and snag boat repaired, 07, 1260.
 1907-08. 73,312 c. y. dr. and 211 stumps and logs removed, 08, 1317.
 1908-09. 34,024 c. y. dr. and 63 obstr. removed, 09, 1307.
 1909-10. 68 obstr. removed and 40,963 c. y. dr., 10, 1450.
 1910-11. 103 logs and 11 stumps removed, 11, 1578.
 1911-12. 28,859 c. y. dr. by contractor, and 38,205 c. y. by U. S. derrick boat; snags, logs, trees, etc., removed, 12, 1798.

PHYSICAL CHARACTERISTICS.

General features, 86, 1036; 00, 1896.

PROJECTS.

Orig. proj. of 1880, by Capt. Phillips, for this R. proposed to provide a good outlet through Mosquito Creek to Winyah B., by d. and straightening this creek to 7' x 50', and to secure a safe and unobstr. 7' navigation in the R. itself from its mouth 154 m. up, and to Wrights Bluff, and thence a similar 5' navigation 30 m. farther to its head in the Congaree and Wateree R.s.; est., \$104,427, 80, 918, 919; 86, 1034; 87, 1081. Modified proj. of 1881 proposed that the first expend. should be to secure a straightened outlet through Mosquito Creek 6' x 30' x 7 m.; l. w. In 1885 Congress prescribed a reserve of \$5,000 for the constr. of a flood gate, if found necessary, to keep out salt water at the upper end of the canal. Total final cost of this work est., 1886, at \$271,300 for the outlet through Mosquito Creek, and \$75,000 for the Santee R. proper, making \$346,500 in all. Aggregate app. to June 30, 1889, \$99,750, 89, 1183.

Revised proj. of 1889 au. leaving the Mosquito Creek Canal, which had been completed, 3' x 30', for a timber route; cutting a new canal between Estherville and Minim Creek large enough for R. S.S., and snagging entire R.; est., \$350,000, 89, 1185; 92, 1211.

Maj. Ruffner est., 1899, \$59,208.07 or \$84,257.35 to make the imp. (see Survey of 1899); preference given to the route calling for the greater first cost, 00, 1902.

SURVEYS.

Ex. au. act Mar. 3, 1879; made, 1880, by Capt. Phillips, 80, 916.

For reopening Santee Canal, au. act June 14, 1880; made, 1881, by Lt. Col. Gillmore, 81, 1148.

Ex. and sur. of the waterways and low-lying marsh lands or rice lands between the North and South Santee Rs., with view to extending the Estherville-Minim Creek Canal s. to Alligator R., au. act Mar. 3, 1899; made, 1899, by Maj. Ruffner (R. fav.; see Projects), 00, 1894, 1897.

Ex., in connection with Wateree and Congaree Rs. and including Estherville-Minim Creek Canal, au. act Mar. 3, 1909; R. by Capt. Adams,¹ 10, 378. Maps. 84, 1050; 85, 1120; 86, 1039; 89, 1186; 90, 1220; 96, 1174; 97, 1464.

N-101(b) WEE TEE LAKE, WILLIAMSBURG COUNTY, S. C.

COMMERCE.

Description of, 00, 1905.

ENGINEERS.

Chief of Engineers. R., 99, 255; 00, 291.

In charge. Maj. E. H. Ruffner, 1900. R., 00, 1903, 1905.

Assistant. R. Whitford. R., 00, 1905, 1906.

PHYSICAL CHARACTERISTICS.

Description of. Part of the delta of Santee R. 00, 1905.

PROJECTS.

Maj. Ruffner est., 1899, \$12,000 to make imp., 00, 1906.

SURVEYS.

Ex. and sur. of the lake from its junction with the Santee R. to a point called the Bluff with view to making it navigable for SS., au. act Mar. 3, 1899; made, 1899, by Maj. Ruffner (R. of local engineer fav., that of DE., unfav.; see Projects), 00, 1903, 1905.

N-113

WATEREE RIVER, S. C.²

APPROPRIATIONS.

1881,	\$8,000	81, 1034.
1882,	15,000	82, 1112.
1884,	5,000	84, 1052.

Col. D. C. Kingman, 1911. R., 11, 1579.

Maj. G. P. Howell, 1912-13. R., 12, 1799.

Assistants:

J. M. Wolbrect. R., 80, 915.

J. P. Darling. R., 81, 1035.

H. Heth. R., 82, 1112.

R. Whitford. R., 85, 1124; 87, 1091; 88, 941;

89, 1191; 90, 1223; 91, 1463; 92, 1216; 93, 1490; 94, 1090; 95, 1417; 96, 1178; 97, 1467; 00, 1862.

OBSTRUCTIONS.

Obstr. of the R. by brs. without drawspans, 82; 111; 85, 1124; 88, 940; 89, 1190; 90, 1222.

OPERATIONS.

1881-82. Removal of snags and trees from the chan. and banks commenced, 82, 1112.

1882-83. Removal of snags and obstr. continued, 83, 871.

1883-84. 1,383 logs and snags taken from bed of R. and 2,725 trees removed from the banks, 84, 1051.

¹ H. D. 608, 61st, 2d.

² Above Wateree Creek, S. C., this stream becomes the Catawba; at the confluence of the Wateree and Congaree it becomes the Santee.

³ \$1,016.17 trans. to app. for Congaree R.

*Allotment.

1884-85. 360 logs and snags taken from bed of R. and 385 trees cut from the banks, **85**, 1123.

1886-87. 205 logs and snags removed from R., 5 piles removed from old br. at Camden, and banks cleared of leaning trees, **87**, 1090, 1091.

1888-89. Operations postponed awaiting introduction of drawspans in brs. over the R., **89**, 1190.

1889-90. 268 logs and stumps and 5 cords of snags removed from the R., and 338 trees removed from the banks, **90**, 1223.

1890-91. 2,413 logs and snags and 56 cords of small snags removed from the chan. and 2,108 trees and 80 cords of brush cleared from the banks, **91**, 1463.

1891-92. 1,740 snags and 40 cords of small snags removed from the chan., and 1,806 trees and 29 cords of brush cleared from the banks, **92**, 1216.

1892-93. About 3,000 stumps and other obstr. removed from the chan. and banks, **93**, 1490.

1893-94. About 100 stumps and other obstr. removed, **94**, 1091.

1895-96. About 700 stumps and other obstr. removed, **96**, 1178.

1896-97. About 700 stumps and other obstr. removed, **97**, 1467.

1897-98. About 3,600 stumps and other obstr. removed, **98**, 1278.

1898-99. Over 500 snags and other obstr. removed, **99**, 1536.

1899-00. Over 900 snags and other obstr. removed, **00**, 1862.

1905-06. New snag boat being built, **06**, 1178.

1906-07. 279 stumps and logs and 1 cord small snags removed from chan., and 249 trees and 10 cords brush from banks, **07**, 1262.

1907-08. 722 trees and $\frac{9}{4}$ cords brush removed from banks, and 1,688 logs, stumps, and snags and 6 cords small snags from chan., **08**, 1318.

1908-09. 217 trees removed from banks and 1,654 logs, stumps, and snags from chan., **09**, 1308.

1909-10. 5,981 obstr. removed, **10**, 1451.

1910-11. Plans prepared for new snag boat, **11**, 1579.

1911-12. Combination dr. and snag boat under constr.; 80% completed; boiler, swinging engine and hoisting engine delivered, **12**, 1799.

PHYSICAL CHARACTERISTICS.

New obstr. continually forming in the stream, **97**, 1467.

Description of, **04**, 1555, 1634.

PLANS. (See Projects.)

After ex. in 1891 to determine advisability of making a cut-off across the neck of a bend in the Wateree R., about 4 m. below Camden, Capt. Abbot reported that the interests of navigation did not demand such an imp., **91**, 1488.

PROJECTS. (See Plans.)

By Capt. Phillips, 1880, 3' navigation between the mouth and Camden, 68 m., by removal of snags, stumps, and similar obstr., and removal of fallen, and leaning trees from the banks; est., \$29,552, **80**, 915, 916. Increased in 1881, 1885, and 1887, on account of inadequate app., to \$60,000, **81**, 1034; **85**, 1124; **87**, 1089. 1886, amount est. to complete proj., \$24,500, **87**, 1091; **92**, 1214.

Imp. suspended until further action by Congress, by act 1902, **02**, 1162.

Capt. Sanford recom., 1903, chan. be cleared only where there should be an immediate prospect of its being needed for navigation, **04**, 1633.

Capt. Adams recom., 1910, continuing imp. under existing proj., **2** **10**, 370.

SURVEYS.

Sur. au. act Mar. 3, 1879, **79**, 95; made, 1879, **80**, 915.

An. act June 14, 1880; made, 1880, by Capt. Phillips, **80**, 914; **81**, 1034.

OPERATIONS.

1886-87. Partial removal of obstr. bet. mouth and Granby to give 3' d. at l. w., 87, 1094, 1095.

1887-88. 73 logs and stumps and 5 cords of small snags removed from the chan., 88, 944.

1888-89. 13 logs and stumps removed from the chan., 89, 1193.

1889-90. 1,110 trees, logs, and snags removed from the chan., 450 trees and 8 cords brush cut from the banks, 90, 1226.

1890-91. 1,475 snags and stumps cleared from the chan., and 913 trees and 58 cords of brush removed from the banks, 91, 1466.

1891-92. 203 snags and logs and 11 cords of small snags cleared from the chan., and 5 trees from banks, 92, 1218.

1893-94. About 700 stumps and other obstr. removed from the chan. and banks, 94, 1093.

1895-96. About 1,300 snags and other obstr. removed, 96, 1181.

1896-97. About 150 snags and other obstr. removed, 97, 1470.

1897-98. Over 1,200 snags and other obstr. removed, 98, 1280.

1902-03. Snagging and obstr. removal continued, 03, 1129.

1903-04. 1,564 obstr. removed, 04, 1556.

1904-05. 162 obstr. under RR. br. at Fort Motte removed, 05, 1247.

1905-06. 1,257 obstr. removed over 44 m. of R., 06, 1179.

1906-07. Snagboat *Pelee* removed 2,378 obstr.; U. S. dr. No. 3 removed 10,859 c. y. sand from Barbours Cut, 07, 1263.

1907-08. 1,587 snags and other obstr. and 9 cords small snags removed, new orange peel dipper dr. completed, and 4,039 t. r. removed in providing a chan. 4' d. above the lock, 08, 1319, 1320.

1908-09. Derrick "A." removed 25 obstr. from chan.; new dr. *Congaree* removed 146,284 c. y. sand; snagboat *Waterlee* removed 682 snags and other obstr.; 730 t. st. removed, 09, 1310. Under special allotments for restoring chan. d. shoaled during extraordinary flood of Aug., 1908, derrick "A." removed snags and drifts, and 393 t. st.; and dr. *Congaree* removed 134,462 c. y. sand; a 6" pump was operated for 7 days, 09, 1310.

1909-10. 2,241 snags and other obstr., 82,588 c. y. sand removed, and 13 pontoons constr. for dr. *Congaree*, 10, 1451, 1452.

1910-11. 3,396 obstr. removed from chan. and banks; 303,761 c. y. sand removed by hydraulic dr. *Congaree* from Granby Shoal, Congaree Creek, Gill

¹ \$25,000 omitted from 1912 report, 12, 1801. Item of 1905, \$25,000, apparently a transfer from 1899 appropriation of Gervais Street Bridge under authority of act of Mar. 3, 1905; 07, 1265. It was carried in the A. Rs. for a number of years as an allotment, act Mar. 3, 1905.

* Allotment.

Creek, and Congaree Br. Shoal, and about 3,000 c. y. from the bar at Congaree Br.; 180 c. y. st. removed from edge of chan. below Granby, 11, 1580, 1581.

1911-12. 101,264 c. y. sand and gravel removed from Gill Creek, Congaree Creek, White House, and Granby; framing of wickets and other woodwork was completed; all cribs for first cofferdam placed and filled with st.; 3 cribs washed away by an unusual flood; 737 obstr. removed, 12, 1801.

PHYSICAL CHARACTERISTICS.

Description of, 85, 1140, 1144; 94, 1096.

Unusually high flood, gauge at lock reading 32', 12, 1801.

Sinking of derrick boat; overturning of cribs, 12, 1801.

Usual variation in water surface 2 m. above mouth, 24'; at Columbia, 33', 12, 477.

R. formed by junction of Broad and Saluda Rs., 1 m. above Columbia, S. C. It flows se. about 52 m., where it unites with Wateree R. and forms Santee R. Stretch, Columbia to mouth, 51 m., embraced in proj., 12, 475.

PROJECTS.

By Capt. Bixby, 1884, 4' navigation, mouth to Granby Landing, 47 m., by the removal of snags, logs, rocks, and slight shoals, and properly protecting caving banks; est., \$30,000, 85, 1144.

In 1887 the proj. modified by providing for the clearing of obstr. to the natural d. of the R. above Granby; est., \$54,500, 87, 1093; 91, 1465; 92, 1217.

In response to resol. by Congress, 1893, Capt. Abbot, 1894, est. cost of lock and dam just below Columbia, S. C., would be \$250,000, 94, 1095; 96, 1186.

Part (b) N-141 Congaree River, S. C., Gervais Street Bridge, Columbia, to Granby.

APPROPRIATIONS.

1899, \$50,000.00, 99, 1542.
1900, 100,000.00, 00, 1865.
1901, 50,000.00, 01, 1595.
1902, 50,000.00, 02, 1164.

250,000.00

COMMERCE.

SS. line estab. between Columbia and Georgetown, S. C., with connection with New York SS.; reduction of from 22 to 30% in rates, Columbia to New York (difference between rail and water transportation) effected by imp., 06, 287.

CONTRACTS.

1900. G. W. Waring, constr. lock-keeper's house and other necessary buildings, \$3,935, 00, 1866.

1900. Evansville Contract Co., constr. lock and abutment, \$77,621, 01, 1594, 1595.

1901. New Jersey Foundry & Machine Co., steel and cast iron members for lock gates, 02, 1164.

1902. Evansville Contract Co., Chanoine dam, \$65,875, 03, 1131.

1904. New Jersey Foundry & Machine Co., chain, 04, 1558.

ENGINEERS.

Chief of Engineers. R., 99, 252; 00, 286; 01, 319; 02, 245; 03, 251; 04, 254; 05, 263; 06, 287; 07, 301.

In charge:

Maj. E. H. Ruffner, 1899. R., 99, 1542.

Capt. J. C. Sanford, 1900-02. R., 00, 1864; 01, 1594; 02, 1163.

Assistant. W. A. Leland. R., 00, 1866; 01, 1595; 02, 1165; 03, 1131.

Maj. Ruffner, 1897-98, est. \$6,000 would be required an. for mainten., 98, 1280.

Act Mar. 2, 1907, au. the limits of imp. to be extended to include that part of the R. included in the proj. from Gervais St. br., Columbia, to Granby, S. C., 07, 299.

Act June 25, 1910, au. expend. of \$56,000 in raising dam at Granby 2', in accordance with plan, 10, 371.

Col. Kingman recom., 1911, resur. of R. for modification of proj., for necessary bank protection, constr. of regulating works to make chan. more permanent, and diminish cost of an. mainten., 11, 1582.

SURVEYS.

Au. act July 5, 1884; made by Capt. Bixby, 1885, 85, 1140, 1143.

Sur. Granby to the foot of Gervais St., made, 1892-93, by Capt. Abbot, 93, 1492.

From lock and dam, to mouth of R., to determine work required to form a 4' chan. made, 1905, by Capt. Howell; est., \$20,000 to obtain and maintain for 4 years and \$10,000 an. thereafter, 06, 285, 1179.

Ex. au. act Mar. 2, 1907, of Congaree R. and Broad R. from mouth to Ninety-nine Isld. shoals; made, 1907, by D.O. (R. unfav.), 08, 323.

Ex. au. act Mar. 3, 1909, of Wateree, Congaree, and Santee Rs.; proposed modification of movable dam at Granby, Congaree R., made, 1909-10, by D.O.; est., \$55,982, 10, 378.

Personal ex. made by D.O.; recom. Congress au. resur., 11, 394.

Cong. docs., etc., relating to exs., sur., plans, etc., 12, 476.

Maps. 87, 1094; 89, 1194.

LEGAL PROCEEDINGS.

Condemnation proceedings instituted, 1899, for most of the land required, 99, 1542. Necessary land obtained, 00, 1865.

OPERATIONS.

1900-01. Lock-keeper's house and other buildings completed; cofferdam constr., grading begun, and plant assembled, 01, 1594.

1901-02. Cofferdam and abutments completed, and lock gates and valves erected, 02, 1165.

1902-03. Work of lock and abutment constr. completed except for paving and crib extension; plant prepared for erection of movable dam, 03, 1131.

1903-04. Lock and abutment completed; cost, \$12,239.36. Chanoine movable dam completed; cost, \$38,851.43, 04, 1557.

1904-05. Lock gates hung and maneuvered, and chan. above lock cleared of bowlders and other obstr., 05, 1248.

1905-06. Bowlders and ledge r. removed from chan. between lock and Columbia, 06, 1179.

1906-07. Work of clearing chan. between lock and Columbia in progress until funds were exhausted, 2,362 t. st. being removed, 07, 1264.

NOTE.—For subsequent reports of operations covering this section of R., see Congaree R., S. C., general imp.

PROJECTS.

By Capt. Abbot, 1894, securing d. in the 2 m. of the R. just below Columbia, S. C., equal to that already provided for the rest of the stream, with movable lock and dam; est., \$250,000, 94, 1095; 96, 1186; 99, 1542.

Act Mar. 3, 1905, au. unexpended funds be used in clearing chan. of obstr., 05, 263, 1248.

SURVEYS.

Sur. made, 1900, by Capt. J. C. Sanford, 00, 1865. Both banks of R., lock site to Gervais St. br.; made, 1900, by Capt. Sanford, 01, 1594, 1597.

E. O. Patterson. R., 93, 1508.

ESTIMATES. (See Private work.)

Capt. Ludlow, 1871, removing wrecks, 125' of j., and dr. Beach Chan., \$100,750, 71, 584. Maj. Gillmore, \$75,700, 71, 69, 70, 579.

Maj. Gillmore, 1873, removing wrecks in Beach Chan. and dr., \$13,000, 73, 731; removing 75' of j. in Beach Chan., \$5,000, 73, 731.

Lt. Col. Gillmore, 1874, removing 50' more of j. in Beach Chan., \$10,000, 74, ii, 5.

Lt. Col. Gillmore, 1875, add'l dr. in H., \$25,000, 75, ii, 31.

Lt. Col. Gillmore, 1876, add'l for removing new shoals, \$10,000, 76, 431.

Lt. Col. Gillmore, 1877, add'l for removing j., \$5,000, 77, 370.

Lt. Col. Gillmore, 1878, permanent works, low js., \$1,800,000; permanent works, js. full height, \$4,278,000, 78, 545, 570.

Orig. est. for removing 9 wrecks and 125' of j. stated at \$74,000 to \$76,000, 73, 68, 727; 74, ii, 3; 77, 370. Exceeded in 1875 by \$9,700, 75, ii, 30; in 1878 by \$17,000, 79, 95.

By Capt. Adams, 1909, submitted in response to Senate resolution, 1909, ordering R. upon proposed further imp. of H.; est., \$350,000, and \$50,000 an. mainten., 10, 379.

EXPENDITURES.

By S. C., \$200,000. By city, \$25,000, 78, 552. By U. S., 1871-78, \$93,000, 79, 95; \$93,700, 79, 731. List of expend. by contractor in removing wreck of monitor *Patapasco*, 73, 730.

LEGISLATION.

Resolution of U.S. Senate, 1878, calling for information regarding permanent works, 78, 553.

OBSTRUCTIONS.

Br. across the cove in rear of Sullivans Isld. partly finished and then abandoned; steps taken by War Dept. to have the obstr. removed, in 1894, 94, 1106.

OPERATIONS.

Suspended from 1854 to 1870, 66, 3; 70, 31, 63.

1869-71. Ex. and sur. made, 70, 31, 63.

1871-72. 5 wrecks removed, 72, 651.

1872-73. 4 wrecks, 613 c. y. st. from j., and 150 l. f. j. removed, 73, 728.

1873-74. 4 wrecks removed; 738 c. y. st. from j. removed, 74, ii, 4.

1874-75. 1 wreck removed; 3,376 c. y. st. from j. removed, 1,016 c. y. of which were piled on j.; pier head built, 75, ii, 28, 29.

1875-76. 2,667 c. y. st. from j. removed, 9,632 c. y. dr., 76, 430.

1876-77. 4,800 c. y. st. from j., and 185 l. f. j. removed; 680 c. y. dr., 76, 69, 77, 369.

1877-78. 200 c. y. st. from j., and 30 l. f. j. removed; a few c. y. dr., 78, 543.

1878-79. N. j. laid for 4,096 l. f., h. 4' to 5', under a new proj. for imp. entrance, 79, 96, 731.

1879-80. N. and s. js. in progress, 80, 927.

1880-81. 35,789 c. y. st. deposited in n. and s. js.; dr. on bar, 81, 1044, 1046, 1047. 324 l. f. of log j. built and covered with 495 c. y. of riprap st., 81, 1060.

1881-82. N. j. extended 2,319 l. f., s. j. extended 3,209 l. f.; spur j. built, 82, 1137; 28,387 c. y. riprap st. deposited upon n. j., 82, 1131; 23,030 c. y. riprap st. deposited upon s. j., 82, 1132.

1882-83. Extension of bottom course of granite j. 2,657 l. f., and enlarging foundation course of work, 35,753 c. y. of riprap st. placed, 83, 876.

1883-84. Bottom course of s. j. extended 816 l. f. seaward and 513 l. f. landward; 33,159 s. y. log and brush placed; 17,299 c. y. riprap st. laid over mattresses, 84, 178; 183 c. y. of riprap st. distributed over portions of second spur j., Sullivans Isld., 84, 1081.

1884-85. Bottom course of s. j. extended 2,288 l. f.; 69,398 s. y. log and brush mattress overlaid with 25,183 c. y. of riprap st.; 8,929 c. y. dr. between js.; 952 l. f. of spur dike built, 85, 1175.

1885-86. Work continued on n. j.; foundation of s. j. extended seaward 43'; ridge of riprap deposited upon existing work; 18,289 s. y. of log and brush mattress and 15,341 c. y. of riprap st. put in the 2 js.; 76,620 c. y. dr. between js., 86, 176, 177; the outer end of n. j., 14,327' from Sullivans Isld. and within 1,200' of the outer 18' curve; the outer end of s. j., 16,440' from Morris Isld. and 2,500' from outer 18' curve, 80, 176.

1886-87. 19,077 s. y. of mattress and 13,227 c. y. of st. added to n. j.; 18,621 s. y. mattress and 9,508 c. y. of st. added to s. j.; no add'l extension seaward made. Total material used in the constr. of the js., 480,514 s. y. of mattress, 250,959 c. y. of st., 87, 1128.

1887-88. 7,177 c. y. st. and 926 s. y. log mattress placed in s. j.; 7,613 c. y. st. used on s. j., 88, 972.

1888-89. 1,291 t. riprap deposited at outer end of s. j., 89, 1145.

1889-90. 21,353 t. riprap deposited at outer end of n. j., and 34,012 t. upon s. j.; 56,626 c. y. dr., 90, 1190.

1890-91. 43,264 t. st. deposited on s. j. and in the main ship chan.; 47,626 c. y. dr. from main ship chan., 91, 1468.

1891-92. 21,720 t. st. deposited in s. j. under contract, and 52,439 t. by hired labor; 32,966 t. st. deposited in n. j. under contract, and 1,202 t. by hired labor, 92, 1224.

1892-93. 105,278 t. of st. placed in n. j., 54,278 t. in the s. j., and 325,222 c. y. dr., 93, 1505.

1893-94. 49,403 t. of st. placed in n. j. and also 4,479 s. y. mattresses; 164,829 t. of st. placed in s. j. and also 23,285 s. y. mattresses; 503,055 c. y. dr., 94, 1107, 1108.

1894-95. 53,073 t. of st. and 6,142 s. y. mattresses placed in n. j. and 93,251 t. of st. in s. j.; 592,502 c. y. dr., 95, 1427, 1428.

1895-96. 465 t. of st. placed in n. j. and 4,975 t. in s. j.; 493,735 c. y. dr., 96, 1200.

1896-97. 2,316 t. of large st. placed in n. j., dredger repaired, and 385,882 c. y. dr., 97, 1478.

1897-98. 9,348 t. of st. placed in n. j., dredger repaired, and 390,270 c. y. dr., 98, 1283.

1898-99. 271,000 c. y. dr., 99, 1542.

1899-00. 253,400 c. y. dr., 00, 1867.

1900-01. Dr. Charleston removed 287,206 c. y., 01, 1598.

1901-02. Drs. Charleston, Winyah Bay, and Cape Fear removed 256,896 c. y., 02, 1166.

1902-03. Drs. Charleston and Cape Fear removed 288,965 c. y., 03, 1134.

1903-04. New dr. Gen. Abbot completed; dr. Charleston removed 415,807 c. y., and dr. Gen. Abbot removed 101,622 c. y., 04, 1559.

1904-05. Dr. Charleston removed 325,710 c. y., and dr. Gen. Abbot 594,258 c. y., 05, 1250, 1251.

1905-06. Dr. Gen. Abbot removed 678,155 c. y., 06, 1181.

1906-07. Dr. Gen. Abbot removed 143,411 c. y., 07, 1267.

1907-08. Dr. Winyah Bay removed 148,280 c. y.; 28' proj. done, 08, 1324.

1908-09. Dr. Winyah Bay removed 85,591 c. y. in maintain. of 28' proj.; dr. Sumter (formerly Gen. Abbot) laid up, 09, 1314.

1909-10. Dr. Winyah Bay removed 22,194 c. y.; tide gauge house built and tide gauge installed, 10, 1455.

1910-11. Wharf leased, coal crane purchased, coal bins, chutes, and track constr.; handling coal for drs. begun Nov., 1910; drs. Sumter, Charleston, and Winyah Bay removed 1,212,722 c. y., at cost of 10.2, 10.5, and 10.2 c. y., resp.; average cost, incl. all expenses, 10.89¢ c. y.; handling coal cost 64¢ t., 11, 1586.

1911-12. 813,878 c. y. dred. by dr. Sumter, 304,724 c. y. by dr. Charleston, and 213,636 c. y. by dr. Winyah Bay; drs. Sumter and Charleston repaired, the former having been injured by hurricane of Aug. 27 and 28; 128,966 c. y. dred. by the 3 drs. from shoals opposite s. part of city; repairs made to damaged wharf, U. S. tracks and coal bins, injured by hurricane; proj. 75% done, 12, 1805, 1806.

PHYSICAL CHARACTERISTICS.

Of H. described, with list of wrecks forming obstr. to navigation, 71, 581.

Current observations, Beach Chan., 76, 431; North Chan., 78, 544; 79, 731.

Borings, Charleston Bar, 78, 543, 546; 79, 96, 731. Of Beach Chan., 74, ii, 4; 76, 431; 78, 546, 550. Chan. and bar, 78, 544; described and discussed by Lt. Col. Gillmore, 78, 555.

Table of mean l.-w. d. in chan., 1821 to 1877, 78, 557.

Capacity of tidal basin, 78, 557.

Changes in, notes, 82, 1134.

Reference made to R. of commission, headed by Prof. Bache, U. S. C. S., rendered in 1852, 71, 583; 78, 554.

Marls from borings, 79, 737; analysis of same, 79, 739.

Description of, 93, 1502; 94, 1105, 1109; 95, 1423, 1429; 96, 1200; 97, 1478; 98, 1823; 99, 1552; 00, 1871; 01, 397.

Current measurements, 93, 1506.

Barometer readings and wind velocities, 94, 1103.

Tidal observations, 94, 1103, 1104, 1109; 95, 1425, 1429; 96, 1200; 97, 1478.

Description of Charleston H. to Alligator Creek, 00, 1910.

Chan. secured at 1912, 28' x 250' m. l. w., gain in d. along the central line in past year of about 10', 12, 428.

Mean range of tide, 5.2', 12, 482.

Deterioration of 28' chan. from scour, 12, 1806.

Hurricane of Aug. 27-28, 1912, caused considerable damage, 12, 1806.

PRIVATE (CITY AND STATE) WORK. (See Estimates.)

City authorities contracted with B. Maillefort to dr. main ship (Pumpkin Hill) chan. to 20' m. h. w., or 15' at m. l. w., 74, ii, 5; 75, ii, 29. R. on this chan., comparing it with Beach Chan., 75, ii, 30. No perceptible imp. after a year's work, 76, 431.

By State and city, 78, 552.

PROJECTS.

By Capt. Ludlow and Maj. Gillmore, in 1870, removing wrecks, 125 l. f. of Bowman's j., and dr. Beach Chan., 72, 652. Modifications of this proj., 74, 76, ii, 3, 4, 5; 75, 82, ii, 29; 77, 67.

By Lt. Col. Gillmore, 1873, estab. and permanently maintaining a practicable chan. across the bar of not less than 21' at m. l. w., with 2 converging js. of random st. on brush and log mattresses, an opening between the ends of the js. of about 2,900'; est., \$3,000,000, 78, 558, 572; 86, 176; 87, 1135.

Lt. Col. Gillmore, 1880, protection of s. shore of Sullivan's Isld. with 3 log and riprap spur js., 150' to 180' l., at right angles to the shore line; est., \$6,000, 80, 931.

In 1889, est. that to bring the js. to l. w. level throughout would require \$2,548,000 in addition to prior app., making total est., if js. left at m. l. w. level throughout, \$4,380,500, 89, 1144; 90, 1190; 91, 1467; 1470; 92, 1220.

U. S. dr. discontinued and the work ordered to be done by continuing contract, act July 13, 1892, 93, 1495.

In response to Cong. resol., 1898, Maj. Ruffner est. cost of chan. 26' m. l. w., Charleston H. to ocean, \$2,408,552, 99, 1555.

Act Mar. 3, 1899, au. dr. 26' x 600' chan., entrance to Charleston H., embracing use of seagoing suction drs., to be built, 12, 480.

Maj. Ruffner est., 1899, \$281,600 for a 6' x 75' chan., Charleston H. to Alligator Creek, 00, 1909.

By Capt. Adams, au. act June 25, 1910, entrance chan. 28' x 1,000' (beyond js.) and 500' w. between them m. l. w.; est., \$371,616, and \$40,000 an. mainten., 10, 375.

Act July 25, 1912, au. completing 20' x 240' chan., Ashley R., S. C., up to Standard Wharf; est., \$51,150, 12, 481.

Act July 25, 1912, au. imp. Shipyard Creek, dr. chan. 15' x 100' through upper mouth of creek; est., \$5,000, 12, 481.

SURVEYS.

Ex. or sur. commenced, 70, 63; \$3,000 all'd, 71, 580.

Sur., Beach Chan., 78, 543, 547.

Field work and sur. of outer and inner Hs. and the bar, 82, 1130.

General sur. of outer H., incl. the bar and its exterior slope, commenced, 83, 875; completed, 84, 1085.

Ex. into condition of n. and s. js., 84, 1081, 1088.

Resur. of area between sea and portions of js., 85, 1177; 86, 1076; 87, 1132.

Sur. made from 1893 to 1898, 93, 1502; 94, 1109; 95, 1425, 1428; 96, 1200; 97, 1487; 98, 1283; 99, 1543.

Ex. and sur. of waterway, Charleston H. to Alligator Creek, S. C., to ascertain cost of imp., au. act Mar. 3, 1899; ex. only considered necessary; made, 1899, by Maj. Ruffner (R. fav.; see Projects), 00, 1908.

Au. act June 13, 1902, ex. for H. of refuge; made by Capt. Sanford; est., \$371,616, and \$40,000 an. for mainten., 10, 261, 1575.

Made by Capt. Howell, 07, 1267.

Description of, 89, 1211.

SURVEY.

Ex. to determine whether the breaking of Bull R. into Combahee R., near the head of Bull R., would injure the navigation of Combahee R. au. act Aug. 11, 1888; made, 1888, by Capt. Abbot, 89, 1211.

N-255

SALKEHATCHIE RIVER, S. C.

APPROPRIATIONS.

1882,	\$5,000,	83, 891.
1884,	3,000,	84, 1096.
1886,	2,000,	86, 1086.
1888,	3,000,	88, 989.
1890,	5,000,	90, 1210.

Total, 18,000

In 1896 the balance on hand, \$2,159.27, was returned to the Treasury, as there was no apparent use for further expend., 96, 1208.

COMMERCE.

Value of timber shipment, 84, 1096.
Freight rates on lumber reduced, 86, 1086.
C. of the R., 88, 989.
In 1892-93 the amount of freight moved on the R. was 16,000 t., 93, 1522.

ENGINEERS.

Chief of Engineers. R., 80, 132; 81, 179; 83, 174; 84, 181; 85, 182; 86, 180; 87, 144; 88, 137; 89, 152; 90, 137; 91, 178; 92, 175; 93, 189; 94, 173; 95, 197; 96, 176; 12, 483.

In charge:

Col. Q. A. Gillmore, 1880-87. **R.**, 81, 1143; 83, 890; 84, 1094; 85, 1192; 86, 1084; 87, 1146.
 Capt. F. V. Abbot, 1888-96. **R.**, 88, 987; 89, 1171; 90, 1209; 91, 1482; 92, 1235; 93, 1522; 94, 1121; 95, 1440; 96, 1208.
 Capt. E. M. Adams, **R.**, 12, 483.

Assistants:

Capt. J. C. Post. **R.**, 81, 1146.
 Capt. T. N. Bailey. **R.**, 83, 891; 84, 1097.
 Lt. F. V. Abbot. **R.**, 85, 1195; 87, 1148.
 J. P. Allen. **R.**, 89, 1173; 90, 1210; 91, 1484; 93, 1523; 94, 1122; 95, 1441.

OPERATIONS.

1883-84. 1,810 snags, roots, trees, and similar obstr. removed from chan., 83, 891; 84, 1095.

1884-85. 9,490 snags, stumps, and overhanging trees removed, 100 outlets closed, and 2 shoals removed, 85, 1194.

1886-87. 600 overhanging trees removed, one dam built to remove local shoal, and 29 outlets closed, 87, 1147, 1149.

1888-89. 201 snags and logs removed from R. chan., and 249 trees and 14 cords of brush removed from the banks, 89, 1172.

1889-90. 277 trees and logs removed from chan., and 37 trees and 4 cords brush cut from the banks, 90, 1211.

1890-91. 83 logs and snags removed from chan., and 66 trees and 10 cords of brush cleared from the banks, 91, 1484.

1891-92. Imp. reported as meeting the requirements of existing C., 92, 1236.

1892-93. About 300 snags and other obstr. removed from R. and banks, 93, 1523.

1893-94. About 700 snags and other obstr. removed, 94, 1123.

1894-95. About 200 snags and other obstr. removed, 95, 1442.

PHYSICAL CHARACTERISTICS.

Description; 2 rivers named Salkiehatchie—the Big S. and the Little S. They unite at a point 80 m. from seacoast; 24 m. below their junction the name of the stream changes to Combahee. R. discharges into St. Helena Sound bet. Charleston and Savannah, 81, 1143.

PROJECTS.

By Col. Gillmore, 1880, imp. of the R. by removal of pile obstr. at Hickory Hill, and removal of logs and shoals for a distance of 65 m. to render the R. navigable for rafts and flatboats; est., \$18,000, 81, 1144; 87, 1146; 92, 1235.

SURVEYS.

Ex. au. act June 14, 1880; made, 1880, by Lt. Col. Gillmore, 81, 1143.

Ex. made by Capt. Abbot, 1893, 93, 1522.

Pre. ex. to Morris Crossing, S. C., au. act June 25, 1910. **R.** by Capt. Adams, Jan. 12, 1911¹ (unfav.), 12, 483.

N-258**PORT ROYAL BAR, S. C.****COMMERCE.**

1901, 148,547 t.; less in "next few years" due to decline of phosphate industry; Charleston H. in neighborhood, with ample facilities and d. for the demands of the Navy, 04, 1613.

ENGINEERS.

Chief of Engineers. **R.**, 04, 262.

Boards. BERH. concurs in views of local officer as to undesirability of any imp., 04, 1613.

In charge. Capt. G. P. Howell, 1904. **R.**, 04, 1609.

SURVEY.

Pre. ex. au. act June 13, 1902, view to chan. 25' x 500'. **R.**, Capt. J. C. Sanford, Apr. 7, 1903² (unfav.), 04, 1609.

N-259**BEAUFORT (Port Royal R.) RIVER, S. C.****APPROPRIATIONS.**

1890,	\$12,500,	91, 1486.
1892,	12,500,	92, 1239.
1894,	5,000,	95, 1444.
1896,	1,000,	96, 1209.
1902,	2,000,	02, 1172.

Total, 33,000

COMMERCE.

In 1892-93, 250,000 t. 93, 1525; 1893-94, 215,000 t., 94, 1125; 1894-95, 193,985 t., 95, 1444; 1895-96, 174,300 t. 96, 1209; 1904, 8,000 t., 05, 1257.

Value, 1891, \$303,000, 02, 251.

Principally phosphate rock; decreased greatly since 1896, 04, 1567.

CONTRACTS.

1890. T. Young, dr., 25¢, and r. excavation, 33 c. y., 91, 1486.

1892. P. S. Ross, dr., 25 to 34¢ c. y.; r. removal. \$2.95 or \$3.70 c. y. (\$23,600), 93, 1526.

1904. P. Sanford Ross, dr., 22¢ c. y., 05, 1257.

ENGINEERS.

Chief of Engineers. **R.**, 80, 132; 89, 158; 90, 141; 91, 178; 92, 175; 93, 189; 94, 174; 95, 195; 96, 170; 97, 224; 98, 220; 99, 254; 00, 289; 01, 323; 02, 250; 03, 256; 04, 260, 1565; 05, 269.

Boards. **R.** on pre. ex. of R. from mouth to Beaufort, 04, 1568.

In charge:

Lt. Col. Q. A. Gillmore, 1880. **R.**, 80, 1032.
 Capt. F. V. Abbot, 1889-97. **R.**, 90, 1234; 91, 1485; 92, 1238; 93, 1524; 94, 1125; 95, 1443; 96, 1208; 97, 1482.

Maj. E. H. Ruffner, 1898-99. **R.**, 98, 1288; 99, 1548.

Capt. J. C. Sanford, 1900-02. **R.**, 00, 1873; 01, 1604; 02, 1172.

Capt. G. P. Howell, 1903-05. **R.**, 03, 1139; 04, 1563; 05, 1256.

Assistants:

G. Daubeney. **R.**, 80, 1034.
 J. P. Allen. **R.**, 91, 1486; 92, 1239; 93, 1526; 97, 1487.

W. D. Niles. **R.**, 94, 1127; 95, 1446; 96, 1210.

OPERATIONS.

1890-91. 3,754 c. y. dr., 91, 1486.

1891-92. 28,512 c. y. dr., 92, 1238.

1892-93. 30,362 c. y. dr., and 1,339 c. y. r. removed, 93, 1526-7.

1896-97. 3,732 c. y. dr., 97, 1487.

1904-05. 7,625 c. y. dr.; proj. completed, 05, 1256.

¹ H. D. 457, 62d, 2d.

² H. D. 221, 58th 2d.

PHYSICAL CHARACTERISTICS.

Description of, **92**, 1234; **01**, 323.
Considerable deterioration, 1902, of work already
done, **02**, 250.

PLANS. (See Projects.)

By Lt. Col. Gillmore, 1880: 1. For dr., Beau-
fort and at Fort Charlotte, so that a draft of 14'
could be carried from Port Royal Sound to Beau-
fort, \$9,900. 2. For imp. only chan. at Fort Char-
lotte to 14' x 200', \$5,100. 3. For imp. chan. at
Fort Charlotte to 13' x 200', \$1,800, **80**, 1033, 1034.

By Capt. Abbot, 1889, to secure 15' chan. 300' w.
from Beaufort to the ocean, by excavation at Beau-
fort Shoal, and at shoal near Sea Isld. Chemical
Works; est., \$116,000, **90**, 1236.

PRIVATE WORK.

Dr. material which had been illegally dumped
by contractor, 1899, removed by him, **00**, 1873; **01**,
1604.

PROJECTS.

By Capt. Abbot, imp. of R. at the "Brickyard"
near Coosaw mouth, by excavation of a 7' l.-w.
chan. 200' w.; est., \$25,000, **90**, 1236, 1237.

Au. obtained by Capt. Abbot, 1892-93, to increase
est. for completion of the proj. by \$15,000; due to
the discovery of a large amount of r., **93**, 1525, 1529.

Capt. Sanford, 1903, did not consider advisable
any further imp., except marking chan. at Cane
Shoal,¹ **04**, 1567.

Proj. regarded as completed, **05**, 1256.

SURVEYS.

Au. act Mar. 3, 1879, **79**, 100; made, 1880, by Lt.
Col. Gillmore, **80**, 1032.

Au. act Aug. 11, 1883; made, 1889, by Capt.
Abbot, **90**, 1235.

Ex. and sur. made, 1900, by Capt. Sanford, **00**,
1873.

Ex., mouth to Beaufort, au. act June 13, 1902;
made, 1903, by Capt. Sanford,¹ **04**, 1566.

Of Brickyard Creek, **04**, 1563.

Cong. docs., etc., relating to exs., surs., etc., **02**,
250; **03**, 256; **04**, 260.

N-260

ARCHERS CREEK, S. C.

APPROPRIATIONS.

1912, \$25,000, **12**, 1809.

ENGINEERS.

Chief of Engineers. **R.**, **12**, 482, 483.

In charge. Maj. G. P. Howell. **R.**, **12**, 1809.

PHYSICAL CHARACTERISTICS.

Narrow tidal passage bet. Port Royal Isld. and
Paris Isld., S. C., connecting Beaufort R. with
Broad R., 3 m. long, all covered by proj.; depth,
1.6', **12**, 482.

PROJECTS.

Act July 25, 1912, au. chan. 6' x 75' m. l. w.; est.,
\$25,000,² **12**, 483.

SURVEYS.

Ex. au. act June 25, 1910; made by Capt. E. M.
Adams. **Rs.**, 1910 and 1911; Maj. Howell sub-
mitted suppl. **R.** Jan. 5, 1912; plan for imp. sub-
mitted; est., \$25,000,² **12**, 483.

1879,	100,000.00, 79, 97, 743.

Total, 1,004,563.58

COMMERCE.

Demands of, 78, 572; 79, 746.
Large increase of, 73, 746.
Benefits of imp. to, 78, 573, 574.

CONTRACTS.

1855. H. S. Wells, removal of obstr., 73, 734; 76, 441.
1872. D. Symons, removal of obstr., 73, 734, 749.
1873. B. Maillefert, removal of obstr.; city of Savannah, dr., 35 and 75¢ c. y., 73, 734, 735, 749.
1875. American Dredging Co., dr., 25¢ c. y., 75, ii, 32.
1876. D. Symons, driving piles, 77, 374. American Dredging Co., dr., 24¢ c. y., 76, 433.
1877. City of Savannah, dr., 24¢ c. y.; American Dredging Co., dr., 77, 373; 78, 574.
1878. American Dredging Co., dr., 40¢ c. y., 78, 574. American Dredging Co., dr., 14½¢ c. y., 78, 744.
1879. D. V. Howell, constr. of dam; contract extended, 79, 741.

ENGINEERS.

Chief of Engineers. R., 66, 3; 71, 71; 72, 65, 66; 73, 69; 74, 77; 75, 83; 76, 69; 77, 67; 78, 77; 79, 96, 99.

¹ For sur. of Savannah, Ocmulgee, Flint, and Chattahoochee Rs.

² \$193,132.96 was app. for relief of Henry S. Wells, for work done by him under contract with the Sec. of the Treas., 1866, act Feb. 27, 1874.

Boards:

Convened, Feb. 3, 1853, to consider a proj. for removal of obstr. in the Savannah R. at a place called "The Wrecks" and the imp. of said R. Recom.: (1) To d., w., and straighten the chan. over "The Wrecks;" (2) to close the chan. between Fig and Hutchinsons Islds.; (3) to build j. at the lower end of Fig Isld.; (4) to build deflecting work above King Isld.; (5) to dr. at Tybee Knoll and such other points as might be necessary, 73, 737. (Prof. Bach, Capt. Bowman, and Lt. Gilmer.)

Convened, New York, June 8, 1875, to take into consideration and report upon the general subject of the imp. of Savannah R. and H. The board coincided with the views expressed by the engineer in charge in his R. of Aug. 28, 1873. Board reported that crib dam at the Cross Tides would be preferable to a deflecting j., but the app. being small the j. was recom. as a temporary device. R., 76, 437. (Col. Tower and Lt. Cols. Wright, Newton, and Gillmore.)

In charge:

Lt. Mansfield, 1835-37; 73, 737.
Maj. Q. A. Gillmore, 1872-88. R., 72, 653; 73, 734, 751; 74, ii, 6; 75, ii, 32; 76, 432; 77, 373; 78, 572; 79, 740.

Assistants:

Capt. W. Ludlow. R., 72, 655.
Capt. D. P. Heap. R., 73, 749.
E. S. Gould, 75, ii, 34.
Capt. J. C. Post. R., 77, 373, 374; 78, 572.
G. Daubeney, 78, 572.
S. L. Fremont, 79, 97. R., 79, 746.
J. P. Carson. R., 79, 750.
E. A. Gieseler. R., 91, 1507, 1513.

ESTIMATES. (See Plans and Projects.)

By Maj. Gillmore, removal of obstr. and dr., \$128,700, 72, 655.

By Capt. Ludlow, removal of obstr., the wreck of the *Georgia*, and dr., \$149,800, 72, 659.

By Maj. Gillmore, dr., \$60,000, 73, 740; j. at Cross-Tides, \$36,000, 73, 741; crib dam, dr., and bulkhead, \$481,320, 73, 747; 76, 434; 78, 573.

By Capt. Heap, dr., \$9,100, 73, 749.
By J. P. Carson, imp. of Savannah above Augusta, \$188,875 and \$285,090, 79, 749, 762.

By Lt. Col. Gillmore, imp. of Savannah from Augusta to Trotters Shoals, \$45,000 and \$124,000, 79, 749.

OPERATIONS.

1804-09. Piles driven in chan. between Hutchinson and Argyle Islds., 73, 737.

1835-37. D. chan. over "The Wrecks," 73, 737.

1853-54. Fig Isld. chan. closed, 73, 737, 738.

1855-56. Obstr. at "The Wrecks" removed, 73, 737, 738.

1856-57. Deflecting work built from end of King Isld., 73, 738.

1865-66. Removal of wrecks, cribs, and other obstr., 73, 734.

1872-73. Removal of obstr. and dr., 73, 734, 735.

1873-74.¹ 55,369 c. y. dr. at Ft. Pulaski, 57,688 c. y. dr. at Elba Isld., 2,436 c. y. dr. at "The Wrecks," and 2 wrecks and 1 loaded lighter removed, 74, 77, 622.

1874-75. 99,992 c. y. dr. at Ft. Pulaski, 19,634 c. y. dr. at Elba Isld., 27,103 c. y. dr. at "The Wrecks," 61,054 c. y. dr. at Garden Bank, 75, 83; 75, ii, 32, 33.

1875-76. 18,349 c. y. dr. at Ft. Pulaski, 9,850 c. y. dr. at Kings and Hutchinsons Islds., 189,348 c. y. dr. at "The Wrecks," 7,995 c. y. dr. at Garden Bank, 76, 69, 70, 432.

1876-77. 6,395 c. y. dr. at Ft. Pulaski, 25,047 c. y. dr. at Kings and Hutchinsons Islds., 115,198

c. y. dr. at "The Wrecks," 12,012 c. y. dr. at Oyster Beil, 183 l. f. of temporary dam destroyed, and crib removed, 77, 67, 68, 373, 374.

1877-78. 17,471 c. y. dr. at Ft. Pulaski, 10,948 c. y. dr. at Oyster Bed, 78, 574.

1878-79. 27,131 c. y. dr. at "The Wrecks," and 553 l. f. of dam built, 79, 96, 97, 741, 746.

PHYSICAL CHARACTERISTICS.

General description, 73, 738, 739; 75, ii, 36; 79, 748, 750, 756.

Rise and fall of R., 73, 736; 79, 748.

Distance to which salt water ascends the stream, 75, ii, 34, 35.

Method of gauging described, 78, 574; 79, 97, 742.

Freshets, 79, 748.

PLANS. (See Estimates and Projects.)

By Lt. Mansfield, 1835-37, dam across the Cross-Tides between Hutchinsons and Argyle Islds., 73, 737.

By Capt. Mackay, 1849, system of piers to be placed to diminish the breadth of the inlet and outlet of Back R., 73, 737.

By Lt. Smith, 1849, closing the chan. between Fig and Hutchinsons Islds. and constr. of 2 js., 73, 737.

By Capt. Ludlow, removal of the wreck of the *Georgia* and other obstr. from the chan., and dr., 72, 659.

By Maj. Gillmore, dr. at Cross-Tides, and the constr. of a j. from the end of Argyle Isld., 73, 740.

By Capt. Heap, chan. 12' x 125', 73, 749.

By J. P. Carson, imp. of the Savannah from Augusta to Andersonville, and from Andersonville up the Tugaloo R. to Browns, a distance above Augusta of 150 m., 79, 749.

By Lt. Col. Gillmore, imp. from Augusta to Tutter's Shoals, 64 m., 79, 749.

PRIVATE AND CORPORATE WORK.

City of Savannah expend. \$200,000 in dr. and removal of obstr. (See Operations.) 72, 656; 73, 734.

PROJECTS. (See Estimates and Plans.)

By BE., 1853: (1) to w., d., and st. chan. over "The Wrecks;" (2) to close chan. between Fig and Hutchinsons Islds.; (3) to build a j. at lower end of Fig Isld.; (4) to build deflecting work above Kings Isld.; (5) dr., 73, 737, 738.

By Maj. Gillmore, removing obstr. from chan. below Ft. Jackson and opposite upper end of Elba Isld., and dr., 72, 653.

By Maj. Gillmore, closing Cross-Tides by a crib dam, enlarging waterway at city front and Fig Isld., new bulkhead above Kinsey's Mills, and dr.; est., \$481,320, 73, 741-747. For (1) a temporary j. from lower end of Argyle Islds. 450' l.; (2) d. waterway between Kings and Hutchinson Islds.; (3) dr. along city front; (4) opening a new chan. near s. bank of R., below Fig Isld.; (5) increasing d. of chan. abreast of Elba Isld.; (6) w. of chan. ne. of Ft. Pulaski; est., \$70,000, 75, ii, 34; 76, 432, 441. Approv. by BE., 76, 444.

By Lt. Col. Gillmore, submerged dam, composed of riprap resting on a mattress of fascines or a brush and timber foundation, 78, 77, 573.

SURVEYS.

Included in Coast Sur., 1855, 73, 740.

By Capt. Ludlow, 1872. R., 72, 655.

Resur., 1873, 73, 748.

Ex. above Augusta by J. P. Carson, 1878. R., 79, 747, 750.

Map. Sketch showing cross-section of dam, 79, 742.

¹ Total amount dr. 1873-74 stated as 166,500 c. y., 79, 97, 740.

Part (b), 0-2 Savannah Harbor, Ga. (Savannah River, at and below Savannah.)

COMMERCE.

Present and prospective, 81, 1075, 1087.
Increase consequent upon imp., 88, 1011.
Effect of past imp. upon C. and navigation, 89, 1225; 90, 1251, 1252.

Description of, 93, 1542; 94, 1135; 95, 1462 (Beaufort H., 95, 1523); 96, 1220; 97, 1497; 99, 1562; 00, 1916.

Increase in the amount of the exports since 1873 proportional to the cube of increased chan. d. during the same period, and the an. saving in rates alone due to the increased d. amounts to more than the total sum spent by the U.S. in imp., 93, 1543; 94, 1136; 95, 1456; 96, 1221.

Large and increasing, 01, 1720.

Description of, 01, 1629, 1720; 09, 1327.

Rates reduced from 30 to 50% since 1896, 06, 294.

Description of effects of imp., 09, 1329.

1911, 2,954,814 t., 12, 1816.

"The regular line of steamships established between this port and New York, Boston, Baltimore, Philadelphia, and Jacksonville comprise a total of 16 steamers. During the calendar year 1911, 8 of these ran to the two first-named ports and 8 to the last-named three. During the year they carried 1,033,498 short tons of freight, valued at \$146,756,716. They also handled in and out of Savannah 53,225 passengers.

"A regular steamboat service is maintained on the Savannah River between Savannah and Augusta, Ga., a distance of 202 miles; a regular freight service is maintained between Savannah and the principal ports of the United Kingdom and Continent of Europe, and in addition there is a fleet of American coastwise sailing vessels which operate between Savannah and northern ports.

"On the inland waters there are a number of small steamers plying between Savannah and adjacent ports, besides numerous schooners and small sailboats. It is estimated that for the year 1911 this portion of the commerce amounted to 100,000 tons, valued at \$1,000,000.

"The chief articles of export are cotton, lumber, and naval stores, of which shipments for the year 1911 were as follows: Of cotton, 1,436,101 bales; of

lumber, 135,487,693 feet; and of naval stores, 194,032 barrels of turpentine and 682,306 barrels of rosin.

"The total amount of freight received and shipped at the port during 1911 was 2,954,814 short tons, valued at \$246,678,077.

"In collecting commercial statistics for this report, information has invariably been obtained from primary sources, and collections and tabulations made by committees or boards have not been adopted. This method prevents duplication, and, while it may give a result that is too small, it can not give inflated figures. For this reason the comparison of the present statistics with those collected in former years would give results that would be wholly misleading." 12, 1816.

CONTRACTS.

1879. R. C. McKay, dam constr., 80, 942.

1880. American Dredging Co., dr., 14¢ c. y., 81, 1083.

1881. M. Bangs, material, 82, 1148.

1882. Dickerson & Paulson, dr., 15¢ c. y., 82, 1150. E. T. Bangs, wing-dam and training-wall constr., 83, 900. Dickerson & Paulson, dr., 16½¢ c. y., 83, 900.

1884. J. F. Gaynor, training-wall and wing-dam constr., 85, 1203. P. S. Ross, dr., 17½¢ c. y., 85, 1204.

1886. J. F. Gaynor, wing-dam constr., 38¢ s. y.; mattress, 33¢ s. y. for st.; dr., 19¢ c. y., 87, 1159.

1888. P. S. Ross, dr., 18½¢ c. y., 89, 1228.

1889. W. T. Gaynor, training-wall constr., \$3.19 c. y. for st., \$1.29 c. y. for oyster shells, and 63¢ s. y. for mattress work, 89, 1228.

1892. P. S. Ross, dr., 16¢ c. y.; revetment, \$40 (\$1,220,000). Atlantic Contracting Co., j. work; mattresses, 95¢ s. y.; fascines, \$1.60 c. y.; pile work, \$1.60; cluster piles, \$50 cluster; tie piles, \$20 group; sawn timber, \$30 1,000' b. m.; iron bolts, 5¢ lb.; riprap st., \$2.95 c. y.; large st., \$2.60 t. (\$1,686,500). 93, 1545.

1896. Atlantic Contracting Co., j. work; mattresses, 95¢ s. y.; 1st-class st., \$3.90 t.; 2d-class st., \$3.90 t.; 3d-class st., \$3.50 c. y.; and 4th-class st., \$2.75 c. y. (\$835,000), 97, 1500 (contract annulled Oct. 3, 1899), 00, 1915. R. R. Moore, dr., 13¢ c. y. (\$162,500), 97, 1500.

1900. G. T. Warner, dr. inside route, Savannah, Ga., to Beaufort, S. C., 9¢ c. y. (\$49,500), 00, 1919.

1900. George T. Warner, dr., 01, 1631.

1901. P. S. Ross, dr., 14.9¢ c. y., 02, 1180.

1902. George T. Warner, dr., 16¢ c. y., 02, 1180. P. S. Ross, dr., 17½¢ c. y.; Atlantic, Gulf & Pacific Co., dr., 16.9¢ c. y., 03, 1144. D. Power & Co., repairs to training wall, unit prices given; Egan Smith & Co., constr. mooring dolphin, unit prices given, 03, 1145.

1904. Simons-Mayrant Co., repairs to training walls; st., \$2.68 c. y., 04, 1643. Riverside Iron Works, constr. new hull for Angler, and installing machinery, \$10,575, 05, 1266.

1905. D. Power & Co., constr. coaling wharf, \$3,241, 05, 1266. Geo. W. Catt, dr., 17.4¢ c. y., p. m., 06, 1192.

1907. D. Power & Co., repairing, raising, and extending dikes and dams, unit prices given, 08, 1334.

1908. Simons-Mayrant Co., dr., 20¢ c. y., p. m., 08, 1334. Simons-Mayrant Co., dr., 15¢ c. y., p. m., 08, 1334. Merrill-Stevens Co., repairing dr. *Cum berland*, \$21,529.70, 08, 1335.

1909. Merrill-Stevens Co., repairing dr. *Savannah*, \$10,767.79; R. G. Ross, raising training walls; st., \$2.07 t., 09, 1331.

1910. Merrill-Stevens Co., repairing dr. *Savannah*, \$13,361.96, 10, 1465. P. Sanford Ross, dr., 1,940,400 c. y., 10½¢ for material removed to 26', and half price between 26' and 28', m. l. w., 11, 1597.

1911. Home Dredging Co., dr., 1,600,000 c. y., 11.6¢ for material removed to 26', and half price between 26' and 28', 12, 1819.

ENGINEERS.

Chief of Engineers. R., 80, 127; 81, 171, 180; 82, 167, 175; 83, 175; 84, 183; 85, 182; 86, 182; 87, 145, 154; 88, 138, 143; 89, 158, 164, 367, 1286, 1287, 1291; 90, 142, 1258; 93, 190; 94, 174; 95, 198, 207; 96, 177; 97, 224; 98, 221; 99, 255; 00, 292, 306; 01, 324, 334, 1719; 02, 251; 03, 257; 04, 262; 05, 270; 06, 292, 311; 07, 305; 08, 324; 09, 333; 10, 379; 11, 399; 12, 484, 524.

Boards:

Convened, New York, July 25, 1879, by S. O. No. 36, C. of E., to report upon further imp. of Savannah R. and H. R., 80, 946. (Cols. Tower and Newton and Lt. Col. Gillmore.)

Convened, Washington, Nov. 10, 1888, by S. O. No. 50, to ex. and report upon proj. by Lt. Carter for imp. of the Savannah R. from dam at Cross Tides to the sea. R., 89, 1236. (Lt. Cols. Gillespie and King and Maj. Post.)

Convened, Savannah, Apr. 1, 1889, by S. O. No. 13, to estab. H. lines of Savannah H. R., 89, 1289. (Col. Craighill, Capt. Bixby, and Lt. Carter.)

Convened, Savannah, Ga., Sept. 22, 1898, by S. O. No. 21, to critically ex. and report upon the proj. for the imp. of Savannah H. and the SS. chan. between Beaufort, S. C., and Savannah, Ga., and to suggest such changes as, in its opinion, might be necessary to accomplish the imp. desired. R., 90, 1922. (Majs. C. B. Sears, W. H. Bixby, and T. W. Symons.)

Constituted, S. O. 46 (Col. P. C. Hains, Capt. J. C. Sanford, and Capt. C. E. Gillette) to revise proj., 01, 1723.

In charge:

Col. Q. A. Gillmore, 1872-88. R., 80, 933, 948; 81, 1074; 82, 1142, 1167; 83, 893; 84, 1098; 85, 1195; 86, 1086; 87, 1150; 88, 1057, 1059.

Capt. O. M. Carter, 1888-97. R., 88, 1005, 1012; 89, 1220, 1234, 1282, 1285; 90, 1245, 1259; 91, 1491, 1506; 92, 1243; 93, 1536; 94, 1129; 95, 1449, 1521; 96, 1211; 97, 1493.

Capt. C. E. Gillette, 1898-02. R., 98, 1291; 99, 1559; 00, 1913; 01, 1628, 1720; 02, 1177.

Lt. Col. J. B. Quinn, 1903-05. R., 03, 1141; 04, 1639; 05, 1259.

Lt. Col. D. C. Kingman, 1906-. R., 06, 1187; 07, 1271; (Col.) 08, 1327; 09, 1319; 10, 1459; 11, 1591; 12, 1811.

Assistants:

S. L. Fremont. R., 80, 944; 81, 1083; 82, 1169.

Capt. B. D. Green. R., 82, 1150-1167.

Lt. T. N. Bailey. R., 83, 900; 84, 1104.

Capt. J. C. Post. R., 83, 904.

Lt. O. M. Carter. R., 85, 1204; 86, 1094; 87, 1160; 88, 1058, 1063.

A. S. Cooper. R., 89, 1228; 90, 1253; 03, 1146; 04, 1644.

E. A. Giesler. R., 89, 1231; 90, 1265, 1298; 94, 1138; 96, 1227.

LEGAL PROCEEDINGS.

\$1,000 collected from owners of SS. *Boliviana* by Dept. of Justice for damage done to mooring dolphin, 10, 1463.

MISCELLANEOUS.

Successful trial of seagoing dr. on R. work, with rehandling dr., 07, 1272.

Excellence of plan of imp. and faults of methods and materials of constr. (discussed), 07, 1273; 08, 1328.

Methods of dr., 08, 1320.

Complete description of work done under tentative proj. and its results, 09, 1320.

OPERATIONS.

1879-80. 170,359 c. y. dr. at Front R., Garden Bank, Elba Isld., cut in Old King's Isld. Jetty, and new chan. at "The Wrecks;" 185 l. f. of apron foundation laid and 1,108 c. y. st. placed on Cross Tides Dam superstr.; 425 l. f. of s. chan. apron dam completed, 80, 936, 939.

1880-81. Cross Tides Dam completed; gap through Old Kings Isld. Jetty w. to 70'; work con-

tinued on s. chan. submerged dam; 268,220 c. y. dr. at various localities from Cross Tides to Tybee Roads, 81, 1081.

1881-82. 2,638 c. y. st. added to Cross Tides Dam; 2 brush and st. wing dams, aggregating 650 l. f., built between city front and Fig Isld.; 113,701 c. y. dr.; 5,000 l. f. of deflecting j. built at Fig Isld.; 3 closing dams built between Elba and Long Islds., aggregating 3,249 l. f., 82, 1146, 1148.

1882-83. 8,935 l. f. of brush and st. dam built; 73,669 s. y. log and brush mattress and 21,095 c. y. riprap st. used in repairs to old work; 135,456 c. y. dr., 83, 898.

1883-84. 79,616 c. y. dr. from crossings between Spirit Isld. and Venus Pt., also from chan. at "The Wrecks;" Dam No. 23 strengthened; wing dam No. 25 completed; wing dams No. 14 and 29 commenced; 2,000 l. f. of wing dam No. 13 completed, 84, 1101.

1884-85. 98,114 c. y. dr. at "The Wrecks" and the Upper Flats; log mattress apron placed upon Cross Tides Dam; Fig Isld. Jetty raised to 5' above l. w.; 6 wing dams built at Upper and Lower Flats and Long Isld. crossing; 2,700 l. f. of dam built between Quarantine Station and Oyster Bed Beacon, 85, 1200.

1885-86. 38,474 c. y. dr. from reaches between Savannah and Long Isld.; 1,600' of Dam No. 31 raised to m. l. w. level; Cross Tides Dam repaired; closure dams at Philricks Cut and Big Gap brought up to m. h. w. level, 86, 1091.

1886-87. 121,093 c. y. dr. from chans. between Savannah and Tybee Knoll; 40,980 s. y. of mattress, 39,053 c. y. brush, and 17,241 c. y. of st. placed in js. and dams in their extension and repair, 87, 1152-1154.

1887-88. 818 c. y. brush fascines and 429 c. y. st. placed in the training walls, 88, 1009.

1888-89. 8,108 c. y. st. and 92,922 s. y. mattress placed in training wall; 187,671 c. y. dr., 89, 1230.

1889-90. 3,924 c. y. riprap st., 310 c. y. of shells, 495 c. y. of brush fascines, and 17,666 s. y. log and brush mattress placed in Fig Isld. and Oyster Bed training wall; 31,551 c. y. dr., 90, 1249, 1250.

1890-91. 72,178 s. y. of log and brush mattress and 26,160 c. y. of riprap st. used in constr. of 1,984 l. f. of training wall; 1,245 l. f. of brush and pile spur dam built at Elba and Jones Islds.; 532 l. f. of pile, brush, and st. closing dam built at Duck Puddle; 933 piles and 7,492 c. y. of st. used in s. Elba Isld. training wall; 396,144 c. y. dr. from the chans. at Ocean SS. wharves, Garden Bank, Wrecks Chan., Upper Flats, and Tybee Knoll, 91, 1495.

1891-92. 683 c. y. of st. placed upon crest of Oyster Bed training wall; 6,818 c. y. of brush and 680 c. y. of st. used in completion of Elba and Jones Islds. spur dams; 35,506 c. y. dr. from the chan. at Tybee Knoll, 92, 1247.

1892-93. Put into the various works during the year, 63,688 c. y. fascines, 240,708 s. y. mattresses, 8,059 c. y. st., 302,027' b. m., 6' x 10' timber, 33,399 lbs. iron bolts, and 3,128 piles; 488,518 c. y. dr., 93, 1540.

1893-94. Put into the works during the year, 699,536 s. y. mattresses, 99,192 c. y. fascines, 57,633 c. y. st., 325,299' b. m., 6' x 10' timber, and 33,153 lbs. iron bolts; 26,964 l. f. of pile work, or 7,703 piles, constr.; 5 barges were sunk to close openings in Big Gap and Philricks Dams; 978,096 c. y. dr., 2,400' b. m. of sawed timber, 276 c. y. of riprap st., 3,401 logs and 35 piles removed from dams, wharf at Fort Oglethorpe, and from crib obstr.—all by hired labor. Steam hoister also constr. by hired labor, 94, 1134.

1894-95. 413,350 s. y. mattresses, 40,289 c. y. fascines, 48,950 c. y. riprap st., 74,356' b. m., 6' x 10' timber, and 9,621 lbs. of iron bolts placed in the works during the year; 644 piles driven, 1,866,723 c. y. dr., 31 day marks, to mark the R. chan., placed, 95, 1455.

1895-96. 9,976 c. y. mattresses, 4,953 c. y. fascines, 13,125 c. y. riprap st., 3,290' b. m., 6' x 10' timber, and 383 lbs. iron bolts placed in the various works; 38 piles driven, 2,128,067 c. y. dr., old wrecks and crib obstr. removed from the chan., 96, 1217-1218.

1896-97. 218,320 s. y. mattresses, 17,710 c. y. 4th-class st., 11,850' b. m. sawed timber, 1,632 lbs.

iron bolts, 7361 f. pile work, and 16 clusters of fender piles constr. and placed in the various works; 143,641 c. y. dr. from the H., and 133,698 c. y. dr. from Ramshorn Creek and Wrights R., 97, 1495-1496.

1897-98. 46,637 s. y. mattresses and 8,211 c. y. 4th-class st. placed in the detached extension of the Oyster Bed training wall; 306,413 c. y. dr. from Wrights R. and Marsh Isld. chan., 98, 1293.

1898-99. 427,749 c. y. dr., 99, 1561.

1899-00. 971,289 c. y. dr. from inside route between Savannah, Ga., and Beaufort, S. C., 00, 1915.

1900-01. 1,051,793 c. y. dr. and 106 logs removed, 01, 1528.

1901-02. 198,380 c. y. dr., 02, 1177.

1902-03. 1,297,229 c. y. dr., mooring dolphin built, and training wall repaired and extended, 03, 1141. Table showing amount and location of dr. by years from 1873 to 1902, 03, 1147.

1903-04. 2,658,377 c. y. dr., and 182 logs removed, 04, 1644. Mooring dolphins completed, 04, 1646. 10,399 c. y. st. placed in repairs to js., 04, 1647.

1904-05. 1,730,208 c. y. dr., and new dr. Savannah received, 05, 1260. Coaling wharf built, 1,651 c. y. st. placed in repair to js., and gap in Dam No. 31 closed, 05, 1261. New hull built for Angler, 05, 1262.

1905-06. 817,533 c. y. dr., 06, 1187.

1906-07. 980,134 c. y. dr., 07, 1272.

1907-08. 1,143,811 c. y. dr., 08, 1329. 31,154 c. y. dr. from chan. between Savannah and Beaufort, 08, 1330. 16,816 c. y. dr. from chan. into Back R. and new dr. Morgan received, 08, 1331.

1908-09. 1,740,049 c. y. dr., 09, 1325. 25,091 t. st. and 912 c. y. brush placed in training walls and spur dams, 09, 1326.

1909-10. 1,916,913 c. y. dr., 10, 1460. 41,145 t. st. placed in raising and strengthening training walls, 10, 1462.

1910-11. U. S. dr. 1,642,885 c. y. from ocean bar, Tybee Roads, Tybee Knoll, near quarantine station, and 275,801 c. y. from H. above quarantine station; 934,986 c. y. dr. under contract above Ft. Pulaski; condition of chan. and results from dr., 11, 401, 1592.

1911-12. U. S. dr. 2,294,017 c. y., and 1,145,557 c. y. dr. under contract; portion of an old submerged wreck removed by U. S. plant; proj. 68% completed, 12, 1813.

PHYSICAL CHARACTERISTICS.

Description of the R., 88, 1063.

Table of wind directions and velocities from 1871 to 1886, 88, 1067.

Physical elements of Front R. and North Chan., 1890, 91, 1509.

Description of, 93, 1540; 95, 1456-1460 (chan. to Beaufort, 95, 1522); 96, 1222; 97, 1497-1498; 98, 1292-1294; 99, 1561.

Current observations, 94, 1141; 96, 1228-1229.

Tidal observations, 88, 1067; 94, 1134-1141; 96, 1222-1228; 11, 1594; 12, 1813.

Ebb and flood volumes gauged, 94, 1142-1144; 96, 1229-1236.

Chan. depths, velocities, and sectional areas, 96, 1237-1242.

Scour due to js., and danger of forming bar outside, 01, 1724.

Effect of js. on tidal range; chan. across bar moving s. and d., 01, 1725.

Tables showing controlling d. in H., 1797 to 1903, and movement of material before and after constr. of js., 03, 1150, 1151.

Tide gauge records, 04, 1647.

H. and l. w. planes changed by extensive dr., 05, 1293.

Diagram showing changes in h. and l. w. planes, 05, 1294.

Scour and fill as shown by sur., 06, 1189; 07, 1272; 08, 1328; 10, 1460; 11, 1594; 12, 1813.

Settlement of training wall, 12, 1815.

PROJECTS.

From 1826 to 1873, incl., \$449,473.68 app., incl. relief claims, and applied to closing chan. between Hutchinsons and Argyle Islds. and Fig Isld., d.

chan. over the wrecks, removing obstr., and in dr., 73, 734, 737.

By Col. Gillmore, 1873, chan., Tybee Roads to Savannah City, with a l.-w. d. of 22', to be accomplished by crib dam closing the Cross Tides and a short bulkhead on Hutchinsons Isld.; w. waterway at the city front and Fig Isld., and d., w., and strengthening the chan., by dr., at various points between the city and Tybee Roads; est., \$481,320, 73, 741, 747; 80, 933; 82, 1142.

Proj. modified, 1879, by a suppl. plan for imp. of the n. chan. of the R. from head of Elba Isld. to the head of Long Isld. by a low dam across the upper end of the s. chan., and by dams closing lateral chan. and providing shore protection where necessary, 80, 948, 957.

BE., 1879, recom. approv. of proj., 80, 947.

Est. cost of suppl. proj. covered by est. for proj. of 1879, 80, 947; 82, 1143.

From 1874 to 1881, incl., \$714,132.96 app. on the proj. of 1873 and 1879, 82, 1145.

Proj. of 1882 comprised those of 1873-79 and provided for add'l works with view to rendering the imp. permanent by raising the dam at Cross Tides to ordinary h. w.; for dr. in reach of Front R. from Cross Tides to city; increasing w. of chan. opposite city to 600 and 650'; constr. of training wall at Fig Isld.; elevation of s. chan. dam; imp. of shallow reaches between Jones and Elba Islds. by spur js. and wing dams; closing, by dams, the cross chans. between Elba and Cockspur Isld.; j. from Jones Isld., Red Light Beacon, and protection of St. Michaels Chan. by similar work; also shore protection and dr., est., \$730,000, 82, 1143, 1144, 1145, 1152; 84, 1099; 86, 1087; 87, 1150.

Proj. under which operations conducted, 1887 to 1889, submitted by Col. Gillmore, 1887, and provided for 28' from the city of Savannah to the sea. Principal features of the proj. were: (1) to enlarge Drakes Cut to 200'; (2) to enlarge chan. s. of Kings Isld. to 400', and to close the Cross Tides; (3) to build a training wall from the lower end of Marsh Isld. to Kinzeys Pt., to enlarge the R. at the city to 600' by cutting off a part of Hutchinson Isld., and to connect the ends of the Garden Bank wing dams by a training wall extending from the old dry dock to a point above Fig Isld. Light; (4) to close the South Chan. below the mouth of St. Augustine Creek; (5) to connect the ends of the wing dams between the head of Elba Isld. and the Oyster Beds by training walls, extending about 3 m. eastward from the Oyster Beds, for the imp. of the chan. across Tybee Knoll; (6) to constr. detached break'r, rising to 2' above m. h. w. and extending from shoal water between the mouths of Calibogue Sound and New R. in a s. direction to d. w. across the bar; to constr. s. j., extending from the n. end of Tybee Isld. in a n. direction to d. w. across the bar, this j. to be at h. w. at its inner end, sloping down to half tide at 500' out and retaining that height to the inner 18' curve of the bar; beyond that point to be an apron course only, w. between the js. at outer 21' curve to be about 2,500', at the inner 18' curve about 5,500'; (7) to dr. a chan. at least 28' x 300' m. h. w. from the city to the sea, the dr. material to be deposited on banks or behind training walls; (8) to constr. st. protection at various points; est., \$6,660,000, 88, 1006, 1007.

History of imp., 88, 1013.

In 1890 operations continued under a revised proj. by Lt. Carter, providing for chan. d. of 28' m. h. w., city to the sea, to be secured by—Enlargement of Drakes Cut as indicated in the orig. proj.; entire or partial removal of Kings Isld. with a view to turning add'l volumes into Front R. and thereby somewhat increasing the velocities; constr. of a deflecting j. from Argyle Isld.; partial removal of Marsh Isld., and closing up the chan. n. of it, with a view to throwing the entire flow into the enlarged s. chan. and thus doing away with the disadvantages incident upon 2 chans.; training wall from the lower end of Marsh Isld. to Kinzeys Pt., and w. of the unduly contracted region below Kinzeys Pt.; training wall in vicinity of Garden Bank in order to properly contract the R. there; spur js. or bank protection in the lower portion of Wrecks Chan. for the same purpose; dr. chan. 28' d. at m. h. w. from city waterworks to the sea;

deflecting j. running out toward South Chan. from Mackeys Pt. in order to divert a greater ebb volume into North Chan.; removal of portion of Dam 15; closing of Duck Puddle in order to render permanent the imp. of North Chan. near the lower mouth of Duck Puddle; constr. of training walls and shore protection in concave bend near Spirit Isld., between wing dams in North Chan., and between Lower Flats and Oyster Beds, with view of obtaining strong ebb flow of uniform mean velocity throughout; dr. s. of Oyster Beds with view to cross-sectional areas of about 45,000 s. f. for mean ebb outflow, in order to induce a stronger flow through the s. opening and thence over Tybee Knoll; est., \$3,500,000, 90, 1261, 1263; 91, 1492; 92, 1244.

By Capt. Carter, 1894, extension of the Oyster Bed training wall, and constr. of a detached part parallel to the currents along the axis of the shoal between Tybee Roads and Calibogue Sound; est., \$992,250, if amount available at once, 95, 1459; not made available, 96, 1213.

1896, proj. for imp. of a SS. chan. between Savannah H. and Beaufort, S. C. (dr. 7' chan., m. l. w., by way of Rams Horn Creek and Wrights R., and constr. of a dam in the latter stream; est., \$106,700), included in the proj. for the imp. of the former place, 96, 1213.

BE. submitted report, 1898, of its ex., with suggestion that action be taken—

To remove Cross Tides Dam; to maintain all other existing training walls, dams, and dikes; to do necessary dr. to obtain and maintain chan., Savannah to the sea, suitable for vessels of 24' draft m. h. w., depositing all dr. material outside the limits of R.; to establish and maintain 3 mooring stations between Savannah and the sea; to open and maintain a SS. chan. of sufficient w. and 7' draft l. w. from Beaufort, S. C., to Savannah, Ga., by way of Mud R.; and to open and maintain a small-boat passage of 3' x 20' l. w. through the dikes and training walls near the foot of Elba Isld., 00, 1927.

By BE. (q. v.), 1900, securing chan. 22' x 350'-500' by dr. and repairs to j.; also for mooring basins at the Bight and Venus Pt., 1,500' and 3,000' l., resp., with mooring dolphins; total est., \$1,567,791, 01, 1726; also est. for removal of Cross Tides Dam, and replacing with new one, above d. w., and for j. work and dr. necessary for substitution of n. chan. for s. chan., \$2,880,000, 01, 1727.

By BERH., 1905, progressively increasing d. to 21' and upward, by au. of \$1,000,000, incl. \$250,000 for dr. and \$150,000 for permanent works above Tybee Knoll, work to be undertaken in tentative manner with the object of first securing max. d. across bar that could be maintained by dr. alone, 06, 311; 07, 306; 10, 381.

Act July 25, 1912, au. extending imp. to foot of Kings Isld., by chan. 21' x 300'; est., \$140,000; upon condition that city accepts parcel of land near

upper end of proposed imp., and gives assurance to Sec. of War that it would provide suitable terminal facilities, 12, 1816.

SURVEYS.

R. gauging, 1879, 80, 939.

Tidal observations, 1880, 80, 940.

Au. act Mar. 3, 1881; made, 1882, by Lt. Col. Gillmore, 82, 1152.

COMMERCE.

Increase in C., and saving in rates due to imp.
88, 1028.

Rail and mill rates on cotton, 1885 to 1890, 91,
1523.

C. and navigation, 92, 1255.

Rates reduced about 20% by imp. C., 1892-93,
had increased up to that time at the rate of \$10 for
every dollar spent in imp. by the U. S., 93, 1550.

The 5 SS. engaged on the R. in 1897-98 carried
freight valued at \$1,730,000, 98, 1300.

Value of freight carried, 1898-99, by 4 SS., \$2-
862,015; and 3,000,000', b. m., of timber, value
\$210,000, rafted down the R., 99, 1569.

Freight valued at \$3,500,000 carried, 1899-00, by 3
SS.; and 5,000,000', b. m., of timber, value \$150-
000, rafted down the R., 00, 1929.

Unimportant prior to imp.; increased since, 01,
326.

Rates reduced 30 to 50% since 1896, 06, 296.
1911, 40,168 t., 12, 493.

CONTRACTS.

1883. J. E. Walter, wing-dam constr., 83, 908.

1884. E. H. Gaynor, wing-dam constr., 85,
1211.

1886. J. F. Gaynor, wing-dam constr., 87,
1170.

1888. M. A. Sweeny & Bro., repairing snag
boat, \$10,400, 89, 1241.

1889. W. T. Gaynor, riprap st., \$2 c. y.; fas-
cines, 70¢ c. y., 90, 1327.

1891. J. F. Gaynor, constr. and repair of wing
dams and shore protection, \$1.29 c. y. for mattress
and \$2.69 c. y. for st., 92, 1256.

1893. A. J. Twiggs, constr. of wing dams and
shore protection; mattresses, 74¢ c. y.; st., \$1.74
c. y. (\$12,510), 93, 1551. Part of this work under
this contract was done by the U. S. at the contrac-
tor's expense, 94, 1159.

1900. A. J. Twiggs, training dikes, unit prices,
01, 1636.

1901. Hunter & Frey, training dikes, unit
prices, 02, 1184.

1903. A. J. Twiggs, dike work, unit prices, 03,
1155.

1905. A. J. Twiggs, constr. dikes; piling, \$2.50
each; brush, 60¢ c. y.; st., \$2.25 c. y., 06, 1195.

1906. A. J. Twiggs, dike work; st., \$4 c. y.;
brush, \$1 c. y.; piles, \$5 each, driven, 07, 1281.

1907. A. J. Twiggs, dike work, unit prices, 07,
1282.

1911. Merrill-Stevens Co., constr. two 10''
pump boats, \$17,875; Simons-Mayrant Co., constr.
and repair shore protection and training dikes
(unit prices given), 11, 1601.

ENGINEERS.

Chief of Engineers. R., 80, 132; 81, 173; 82,
168; 83, 177; 84, 184; 85, 184; 86, 183; 87, 176;
88, 139; 89, 159; 90, 142; 91, 180; 92, 176; 93,

Capt. C. E. Gillette, 1898-02. R., 98, 1209; 99,
1507; 00, 1928; 01, 1634; 02, 1183.

Lt. Col. J. B. Quinn, 1903-05. R., 03, 1152; 04,
1648; 05, 1267.

Lt. Col. D. C. Kingman, 1906-. R., 06, 1193; 07,
1279; (Col.) 08, 1336; 09, 1333; 10, 1467; 11, 1598;
12, 1819.

Assistants:

S. L. Fremont. R., 81, 1094.

Capt. B. D. Greene. R., 82, 1173.

Capt. T. N. Bailey. R., 83, 909; 84, 1109.

Capt. J. C. Post. R., 83, 910.

Lt. O. M. Carter. R., 85, 1212; 87, 1172.

Lt. F. V. Abbot. R., 86, 1211; 87, 1171.

W. R. Curtis. R., 88, 1029.

G. W. Brown. R., 90, 1332.

F. C. Armstrong. R., 90, 1363; 91, 1525; 92,
1257.

R. S. Burnett. R., 93, 1551; 94, 1161; 95, 1468;
96, 1248.

OPERATIONS.

1881-82. Snag boat built; 144 snags and logs
and 141 trees removed from R. bed, 82, 1172.

1882-83. 5 wing dams built, averaging 275' in
l.; snags, piles, and flatboat wrecks removed, 83,
906, 907.

1883-84. 117 snags and piles, and 45 trees re-
moved from the R., 84, 1108.

1884-85. 2 wing dams built and 2 completed
at Courses Bar; 5 wing dams built at Sand Bar,
Ferry Bar, and 4 at Blue House Bar; 358 snags, 11
stumps, and 385 trees removed, 85, 1210.

1886-87. Wing dams built at Blue House
Bar and Courses Bar; 259 logs and snags and 596
leaning trees removed from R. between Savannah
and Masons Ferry, 87, 1167, 1171, 1172.

1889-90. 244 snags and stumps removed from
the chan., and 120 trees from the bank; 4,572 c. y.
fascines and 1,158 c. y. st. placed in spur dams, 90,
1326.

1890-91. 353 snags removed from the chan.,
and 3,443 overhanging trees cleared from banks,
91, 1521.

1891-92. 2,179 c. y. brush fascines and 1,382
c. y. st. used in constr. of spur dams, and 2,682 c. y.
brush fascines and 1,969 c. y. st. used in repairs to
old work, 92, 1254.

1892-93. 9,536 logs and other obstr. removed
from R. and banks, 93, 1549.

1893-94. 5,682 c. y. fascines, 5,152 c. y. st. put
into the works by contract, and 1,549 c. y. fascines
and 1,589 c. y. st. by U. S. About 700 snags and
other obstr. removed from R. and banks, 94, 1160.

1894-95. About 2,800 snags and other obstr.
removed; 9,594 c. y. dr.; 956 piles driven; 2,344 l. f.
pile work wattled; 3,880 s. y. mattresses and 1,430
c. y. fascines used in the constr. of spur dams, 95,
1466.

1895-96. About 30 logs and other obstr. re-
moved; 2,825 c. y. dr.; 86 piles driven; 436 l. f. pile
work wattled; 332 s. y. mattresses and 56 c. y. st.
used in the constr. of spur dams, 96, 1246.

1896-97. About 2,500 snags and other obstr.
removed from the R. and banks; 5 wrecks and 100
c. y. r. removed, 97, 1504.

1897-98. About 200 logs and other obstr. re-
moved, 98, 1300.

1898-99. 108 c. y. r. and over 700 snags and
other obstr. removed from R. and banks; 260 piling
placed in training dike for imp. of Brighams Bar,
99, 1569.

1899-00. Over 3,700 snags and other obstr.
removed; training dikes at Brighams Bar, Flowery
Gap Bar, and Half Guinea Bar constr., 00, 1929.

1900-01. One training dike, 700' finished, 3
aggregating 2,765' built and 2 partly built, 2 shore-
protection dikes aggregating 3,876' partly built, 47
snags and stumps removed, 467 trees cut, and old
dam blown out, 01, 1634.

1901-02. 11,721' training dikes, 1,825' shore-
protection dike and 845' spur dikes completed,
9,864' dikes partly built, and house boat and snag
boat built, 02, 1182. 392 obstr. removed from
chan. and 3,154 from banks, 02, 1183.

1902-03. 7,280' dike repaired and refilled, and
4,260' dike and 5,560' shore protection built; 1,241
obstr. removed from chan. and 4,544 from banks,
03, 1153, 1154.

1903-04. 9,137 c. y. brush bundles, 3,715 c. y.
st., 11,360' timber, 568 lbs. iron spikes, and 600 l. f.
piling used in repairing and refilling dikes; 1,574
obstr. removed from chan. and 1,554 from banks,
04, 1648.

1904-05. 3,840 snags and stumps and 4 small
barges removed from chan., 1,476 trees and logs cut
or girdled, and one clay bank removed, 05,
1267.

1905-06. 1,900' dike built, 06, 1193. 506 obstr. removed from chan. and 1,065 from banks, 06, 1194.

1906-07. 600' dike built and 60' removed, 07, 1280.

1907-08. 1,935 obstr. removed from chan. and 3,877 from banks, 40' dam and 100' dike removed, training wall repaired, several sand bars imp., and point of bank removed, 08, 1336.

1908-09. 2,318 obstr. removed from chan. and 3,293 from banks, Tweedys Bar impd., machinery removed from sunken SS. *Two States*, and sunken lighter removed, 09, 1333.

1909-10. 2,884 obstr. removed from chan. and 1,757 from banks, assisted in raising sunken SS. *Katie*, 1,512' shore-protection dike and 3,619' training wall built, 10, 1467.

1910-11. Snag boat *Tugaloo* removed 4,727 snags, 380 stumps, cut 1,342 trees and 198 logs on banks; boat repaired; under contract constr. and repairing shore-protection and training dikes near Augusta; new pump boat completed and delivered, 11, 1599.

1911-12. 2,199 snags, 204 stumps and sunken lighter removed from chan., and 1,539 overhanging trees and logs cut on banks; protection dike 3,264' long at Canoe Cut Bar and 150' spur dam constr.; shore-protection dike at Masons Landing about 85% completed; snag boat *Tugaloo* made minor repairs to regulating works; 93,825 c. y. dr. from four sand shoals, 12, 1819.

PHYSICAL CHARACTERISTICS.

Description of, 88, 1026; 89, 1237; 90, 1328.

Mainten. of chan. would be easy if erosion of banks could be stopped, 03, 1153.

Unusual number, and prolonged duration of freshets, 12, 1820.

PRIVATE WORK.

Snag boat made unsuccessful attempt to raise sunken SS. *Swan* at expense of owners, 06, 1194.

U. S. snag boat removed some interlocking steel piling forming cofferdam at new lift bridge of Seaboard Ait Line Ry. Co., and work paid for by Ry. Co., 11, 1598; 12, 1820.

PROJECTS.

By Col. Gillmore, 1880, securing a 5' l.-w. chan. Savannah to Augusta by dr., contraction of R., bank protection, and the removal of logs, snags, and similar obstr.; est., \$91,000, 80, 1094; 86, 1098; 87, 1166.

By Lt. Carter, 1890, estab. of navigable 5' SS. chan. at ordinary summer l. w. between Augusta and Savannah by removal of sand bars, regulating portions of the R., revetting caving banks, closing incipient cut-offs, and removing snags and logs from the chan. and overhanging trees from the banks of the stream; est., \$332,000, 90, 1324, 1329, 1330; 92, 1253.

In 1895-96 Capt. Carter est. \$3,000 to \$5,000 an. for mainten., 96, 1245.

Lt. Col. Quinn, 1904, est. \$75,000 to complete proj.; also recom. sur. with view to imp. by locks and dams just below Augusta, 04, 1648.

By Col. Kingman, 1908, plan for imp. of entire R.; est., \$360,000, 08, 346; 10, 384.

SURVEYS.

An. act June 14, 1880; made, 1880, by Col. Gillmore, 81, 1090.

Of the R. between Savannah and Augusta; made, 1870, 90, 1328, 1332.

For 30 m. below Augusta, an. act Mar. 2, 1907; made, 1907-08, by Col. Kingman, 08, 346.

Maps. 83, 908; 84, 1106; 85, 1210; 86, 1094; 90, 1362; 94, 1160; 02, 1184.

Part (d), O-2 Savannah River, above Augusta, Ga.

APPROPRIATIONS.

In charge:

Col. Gillmore, 1872-87. R., 80, 958; 81, 1103; 82, 1174; 83, 911; 84, 1110; 85, 1213; 86, 1100; 87, 1172.

Lt. O. M. Carter, 1888-97. R., 88, 1031; 89, 1241; 90, 1365, 1484; (Capt.) 93, 1554; 94, 1164; 95, 1470; 96, 1250; 97, 1506.

Capt. C. E. Gillette, 1898-02. R., 98, 1301; 99, 1571; 00, 1930; 01, 1636; 02, 1184.

Lt. Col. J. B. Quinn, 1903-05. R., 03, 1155; 04, 1650; 05, 1269.

Lt. Col. Dan C. Kingman, 1906-. R., 06, 1195; 07, 1282; (Col.) 08, 1338; 09, 1335; 10, 1470; 11, 1603; 12, 1824.

Assistants:

Capt. B. D. Greene. R., 81, 1104; 82, 1175.

Lt. T. N. Bailey. R., 83, 913.

Capt. J. C. Post. R., 83, 914.

Lt. F. V. Abbot. R., 85, 1214.

W. R. Curtis. R., 88, 1032.

G. W. Brown. R., 90, 1498, 1526.

R. S. Burnett. R., 95, 1472; 96, 1252.

OPERATIONS.

1880-81. 722 c. y. r. and gravel removed, 81, 1103.

1881-82. 3,365 c. y. r. and 35 c. y. gravel removed, and 1,800 c. y. riprap dams built, 82, 1174.

1882-83. 439 c. y. r. excavated and 6,669 s. y. of mattress and 1,726 c. y. of st. employed in wing-dam constr., 83, 912.

1883-84. 302 c. y. ledge r. removed, 84, 1110.

1892-93. 2,018 c. y. fascines, 1,186 c. y. riprap st. used in the repair and constr. of dams, 341 c. y. r. excavated, and 48 m. of R. bank cleared, 93, 1555.

1894-95. 85 c. y. r. excavated; 2,860 s. y. mattresses laid with 1,310 c. y. riprap st. on works of direction; about 150 obstr. removed from R. and banks, **95**, 1471.

1895-96. 390 s. y. mattresses, 325 c. y. fascines, 462 c. y. riprap st. used in the constr. and repair of dams; 378 c. y. r. removed, **96**, 1251.

1896-97. 6 c. y. r. removed and 30 c. y. st. used in the repair of dams, **97**, 1507.

1899-00. 2,030 c. y. r. and over 4,000 overhanging trees, snags, and other obstr. removed, training dike built at Bush Rock Landing, and repairs made to dikes at Little Rapid Gap, Stephens Falls, Marquarts Hay Landing, Little R., Scotts Shoals, and just above Bush Rock Landing, **00**, 1931.

1900-01. Dams repaired, 41 trees cut and 3 grided, **01**, 1636.

1905-06. 17 boulders, 23 c. y. r., and 51 logs removed and 1,281 trees cut; dam at Marquarts repaired, **06**, 1195.

1907-08. 3 boulders and r. ledge removed, and dam 40' long built, **08**, 1338.

1908-09. 163 obstr. and 52 c. y. boulders removed from chan. and 294 obstr. from banks; dams repaired, **09**, 1335.

1909-10. 34 obstr. removed from chan. and 299 from banks; 258 c. y. r. quarried and 276 c. y. placed in repairing dams, **10**, 1470.

1910-11. 73 snags, 18 logs, and 211 c. y. loose r. removed; 257 trees cut; 536 c. y. r. placed in repairing dams, **11**, 1603.

1911-12. 311 c. y. r. used in repairing existing regulating works, cut opened through sand bar, large snag removed from chan., and st. washed from dams replaced, **12**, 1824. Proj. about 64% completed, **12**, 496.

PHYSICAL CHARACTERISTICS.

Heavy freshets fill chan. and block navigation, **12**, 1824.

PRIVATE WORK.

Au. granted to 2 private companies to constr. dams, one 8 m. and the other 27 m. above city, **10**, 387.

PROJECTS.

By Col. Gillmore, 1879, imp. of Savannah R. from Augusta to head of pole-boat navigation on the Tugaloo, 154 m., by formation of a 3' chan. 30' w. from Augusta to Trotters Shoal, 64 m., and removal of rs., snags, and similar obstr. for the remaining distance; est., \$45,000, **80**, 958, 959; **87**, 1172.

Further app. not recom., because the cost of the permanent imp. of the R. would be disproportionate to the requirements of C., **87**, 1173.

By Lt. Carter, 1890, estab., between Petersburg and The Locks, a downstream chan. 12'-25' w. and navigable during ordinary summer l. w. for pole boats drawing 2', and for an upstream chan., navigable under the same conditions, for pole boats drawing 1.3' of water; this to be obtained by removal of logs and overhanging trees, excavation of r., sand, and gravel, and constr. of training walls to increase the flow of water through the sluices est., \$33,000, **90**, 1366.

SURVEYS.

Ex. made above Augusta, 1878, by Col. Gillmore, **79**, 447-450.

Au. act Aug. 11, 1888; made, 1890, by Lt. Carter **90**, 1525.

Ex., 1893-94, by Capt. Carter, **94**, 1165.

Part (e), O-2 Savannah River, Ga., Spirit Island to the Crossing of the Charleston and Savannah Rwy. Co.

COMMERCE.

In 1892 no change had taken place since last R., 1890, **93**, 1610.

ENGINEERS.

Chief of Engineers. R., **93**, 198; **95**, 207.

In charge. Capt. O. M. Carter, 1888-95. R., **93**, 1609; **95**, 1520.

PHYSICAL CHARACTERISTICS.

Description of Spirit Isld., 6 m. below Savannah;

the Charleston & Savannah Ry. br., 14 m. above, **93**, 1609.

SURVEYS.

Ex. au. act July 13, 1892; made by Capt. Carter, 1892 (R. fav.), **93**, 1609.

Sur. au. act Aug. 17, 1894; R. by Capt. Carter, 1894, **95**, 1520.

Part (f), O-2 Savannah River, at Augusta, Ga.

APPROPRIATIONS.

1910, \$125,000, **10**, 1469.

CONTRACTS.

1911. Bryan & Co., protection of R. bank along city front at Augusta (prices given), **11**, 1603.

ENGINEERS.

Chief of Engineers. R., **10**, 386, 407; **11**, 407; **12**, 494.

In charge. Col. D. C. Kingman, 1910-. R., **10**, 1469; **11**, 1601; **12**, 1822.

OPERATIONS.

1910-11. 1,466 c. y. dr. toward providing a trench at toe of slope, and 3,567 t. st. placed; contractor did considerable clearing of R. bank, **11**, 1602.

1911-12. 23,112 c. y. excavated toward providing a trench, and in this trench 33,916.12 t. riprap st. placed; for subpavement 7,491 t. st. placed on R. bank and for top pavement 21,937 t. large st.; excavation and filling ahead of paving

done; 9,708 c. y. excavated and 9,019 t. st. placed therein, not paid for, **12**, 1823. Proj. 66% completed, **12**, 495.

PHYSICAL CHARACTERISTICS.

Unusual number, and prolonged duration, of freshets, **12**, 1823.

Work already done has withstood severe freshets of 1911-12, **12**, 495.

PRIVATE WORK.

City of Augusta deposited \$125,000 as its half of cost of imp. with U. S. Asst. Treas., New York, N. Y., **11**, 407.

PROJECT.

By Col. Kingman, 1909, riprapping 7,900' bank along city front; est., \$230,000, $\frac{1}{2}$ to be paid by city, **10**, 386, 407. Au. act June 25, 1910.

SURVEY.

Au. act Mar. 3, 1909; made, 1909, by Col. Kingman, **10**, 407.

Total, 242,500 (incl. \$664.40 collected from surety, \$243,164.40, 12, 1842).

COMMERCE.

C. interests to be affected by the imp., 92, 1323. Description of, 93, 1605; 95, 1517; 99, 1591; 00, 1954, 1955.

Route of great value to the coasting trade, 93, 1605.

1891, 156,000 t.; valued at \$2,787,000, and 41,000 passengers, 93, 1606. 1894, value \$2,230,000; 36,000 passengers carried, 95, 1517. 1896, value of C. \$2,000,000, 96, 1301.

Little through C., but large local; description of, 01, 1653.

Practically all freight carried over this route is upon detached sections, 12, 1841.

1911, 167,730 t., 12, 517.

CONTRACTS.

1893. Atlantic Contracting Co., j. constr.; mattresses, 99¢ s. y.; riprap st., \$3.59 c. y. (\$19,680), 93, 1607.

1895. W. T. Gaynor, j. constr.; mattresses, \$1 s. y.; fascines, \$1.65 c. y.; pile work, \$1.50 l. f.; fender piles, \$50 cluster; tie piles, \$20 group; sawed timber, \$25 1,000' b. m.; iron bolts, 5¢ lb.; riprap st., \$3.05 c. y. (\$48,000), 95, 1518.

1896. R. R. Moore, dr., 10¢ c. y. (\$7,500), 97, 1538.

1903. George T. Warner, dr., 16½¢ c. y., 03, 1168.

1909. Simons-Mayrant Co., dr., 17.9¢ c. y., p. m., 09, 1350. Blackstaff Engineering Co., raising j.; st., \$2.60 t., 10, 1485. Annulled Oct. 1, 1910, 11, 1621.

1910. R. G. Ross, j. work, \$2.94 t. for st. in place, and \$7.20 t. for st. placed to mark outer end of training wall, 11, 1618. P. Sanford Ross (Inc.), dr. 55,000 c. y., 17½¢ c. y., 11, 1621.

ENGINEERS.

Chief of Engineers. R., 91, 185; 92, 181; 93, 198; 94, 182; 95, 206; 96, 185; 97, 1236; 98, 230; 99, 265; 00, 303; 01, 332; 02, 262; 03, 269; 04, 276; 05, 285; 06, 307; 07, 322; 08, 341; 09, 353; 58, 401; 11, 425; 12, 515.

In charge:

Capt. O. M. Carter, 1891-97. R., 92, 1309, 1311; 93, 1604; 94, 1206; 95, 1515; 96, 1299; 97, 1535.

Capt. C. E. Gillette, 1898-02. R., 98, 1318; 99, 1590; 00, 1953; 01, 1653; 02, 1196.

Lt. Col. J. B. Quinn, 1903-05. R., 03, 1166; 04, 1662; 05, 1283.

Lt. Col. D. C. Kingman, 1906-. R., 06, 1207; 07, 1295; (Col.) 08, 1352; 09, 1348; 10, 1483; 11, 1618; 12, 1840.

OPERATIONS.

1892-93. 17,170 s. y. mattresses and 1,252 c. y. riprap st. placed in training wall, 93, 1605.

1894-95. 29,844 c. y. dr. from Jekyl Creek, 10,616 s. y. mattresses, and 1,873 c. y. riprap st. placed in position at the mouth of Jekyl Creek. A cluster of piles driven at the outer end of the training wall, and ranges marking dr. cuts set up, 95, 1516, 1517.

1897-98. 112,453 c. y. dr., 98, 1319.

1903-04. 56,629 c. y. dr.; contractor's dr. seized by U. S. marshal, 04, 1662.

1904-05. 11,830 c. y. dr., 05, 1283.

1905-06. 85,231 c. y. dr., j. at mouth of Jekyl Creek raised, and old discharge pipe and large log removed from chan., 06, 1207.

1906-07. 88,730 c. y. dr., and training wall 2,000' long built in Jekyl Creek, 07, 1295.

1907-08. Work of raising training wall at Jekyl Creek commenced; chans. marked by Light-house Dept., 08, 1352.

1908-09. 88,401 c. y. dr., raising of training wall at Jekyl Creek completed and extension begun, 09, 1348.

1909-10. 5,667 c. y. dr.; training wall in Jekyl Creek extended 1,000' and 800' j. built at entrance; dam built in Mud Creek, 10, 1483.

1910-11. Work of raising j. at entrance to Jekyl Creek completed, total of 3,730 t. st. placed; 25,053 c. y. dr. from Jekyl Creek, 11, 1619.

1911-12. Training wall in Jekyl Creek raised, 1,024.6 t. small st. being placed; 27,744 c. y. material removed. Burning of contractor's dr. delayed work, 12, 1840.

PHYSICAL CHARACTERISTICS.

Description of, 92, 1311; 96, 1299.

Proj. d. of 7' m. l. w. obtained throughout the route, with the exception of the link known as Skidaway Narrows, which was orig. imp. under a separate proj. calling for 6'. This link is now an integral part of the inside water route, 12, 516.

PLAN.

By Capt. Carter, 1891, continuous chan. not less than 7' d. m. l. w. between Savannah, Ga., and Fernandina, Fla., by dr., bank revet., and spur-dam constr. at Romerly Marsh, Mud R., Little Mud R., and Jekyl Creek; est., incl. an. cost of mainten. after completion of the Romerly Marsh and Mud R. imp., \$195,000, 92, 1323.

PROJECTS.

By Capt. Carter, 7' chan. m. l. w., by the imp. of Romerly Marsh, Mud R., Little Mud R., and Jekyl Creek by dr. and closure dams and training walls of brush mattresses loaded with riprap st.; est., \$105,000, provided funds should be available at once, 93, 1605.

Lt. Col. Quinn, 1905, increased est. to complete proj. \$50,000, and \$10,000 an. mainten., 05, 1284.

Lt. Col. Kingman recom., 1906, chan. 10' x 150'-200', 06, 1208.

By Col. Kingman, 1909, plan for imp.; est., \$237,700, 09, 358.

Act July 25, 1912, an. continuation of imp. to d. of 7', with w. of chan. from minimum w. of 50' to uniform w. of 150'; also for departure from main route (1) from Romerly Marsh to Skidaway Narrows, and (2) from Mud R. to Front R.; also for imp. of auxiliary chans. as follows: Three m. cut, near Darien, on the branch route between Darien and Brunswick, 7' d.; route around St. Simons and St. Andrews Sounds, affording a l. w. d. of 3', and a branch route to reach wharves along s. end of Cumberland Isld., affording a l. w. d. of 8'; also includes route by way of Club and Plantation Creeks, 12, 516.

SURVEYS.

Part (a), O-229

Darien Harbor, Ga.

APPROPRIATIONS.

1878, \$3,000, 78, 78.
 1890, 25,000, 91, 1529.
 1892, 25,000, 92, 1259.
 1894, 25,000, 95, 1474.
 1896, 20,000, 96, 1255.
 1899, 10,000, 99, 1575.

Total, 113,000

COMMERCE.

Important, 85, 1238-1242.
 In 1892-93, value \$1,500,000, 93, 1558; 1897, \$1,090,000, 98, 1304; 1898-99, \$2,500,000, 99, 1575; 1899-1900, \$920,382, 00, 1936.

CONTRACTS.

1878. American Dredging Co., dr., 14½ c. y., 79, 764.

1891. P. S. Ross, dr., 23¢ c. y., 91, 1530.

1892. Atlantic Contracting Co., spur-dam work; fascines, 89¢ c. y.; pile work, \$1.40 l. f.; fender piles, \$50 cluster; sawed timber, \$25 l,000' b. m.; iron bolts, 9¢ lb.; riprap st., \$1.30 c. y. (\$15,185), 93, 1559.

1895. W. T. Gaynor, mattresses, \$1 s. y.; fascines, \$1.65 c. y.; pile work, \$1.50 l. f.; fender piles, \$50 cluster; tie piles, \$20 group; sawed timber, \$25 M f. b. m.; iron bolts, 5¢ lb.; riprap st., \$3.05 c. y. (\$48,000), 95, 1475.

1896. R. R. Moore, dr., 12¢ c. y. (\$9,000), 97, 1511.

1900. P. S. Ross, dr., 13.7¢ c. y. (\$7,535), 00, 1937.

ENGINEERS.

Chief of Engineers. R., 78, 78; 79, 97; 85, 191; 91, 180; 92, 177; 93, 193; 94, 177; 95, 202; 96, 180; 97, 229; 99, 260; 00, 297; 01, 328; 02, 256.

In charge:

Lt. Col. Q. A. Gillmore. R., 78, 579; 79, 763; 85, 1234, 1237.

Capt. O. M. Carter, 1890-97. R., 91, 1528; 92, 1257; 93, 1556; 94, 1166; 95, 1473; 96, 1253; 97, 1538.

Capt. C. E. Gillette, 1898-1902. R., 98, 1303; 99, 1574; 00, 1935; 01, 1639; 02, 1185.

Assistants:

S. L. Fremont, 79, 764.

Capt. T. N. Bailey. R., 85, 1236, 1239.

OPERATIONS.

1878-79. Chan. 10' x 50' m. l. w., with an aggregate l. of 500 y., dr. through shoals in Darien R. n. of Generals Isld.; chan. 14' x 75' x 500 y. in North R. below Union Isld. sawmills; and at the confluence of Darien and North Rs. chan. d. 8'-12' and w. to 75'. Removal of 51,041 c. y., securing an average increase in d. of from 2' to 4', 79, 97, 764.

1890-91. 13,194 c. y. dr., 91, 1528.

1891-92. 73,445 c. y. dr., 92, 1258.

1892-93. 1,200 piles driven; 15,068 c. y. fascines, 59,290' b. m. sawed timber, and 6,064 lbs. iron bolts used in the constr. of 24 spur dams, 93, 1557.

1894-95. 400 piles driven; 10,208 c. y. fascines, 683 c. y. riprap st., 18,651' b. m. sawed timber, and 1,556 lbs. iron bolts used in spur dams, 95, 1474.

1896-97. 117,143 c. y. dr., 97, 1509.

1897-98. A wreck and a raft of logs removed from the chan., 98, 1304. 11,358 c. y. dr., 98, 1314.

1899-00. 69,790 c. y. dr., 00, 1936.

PHYSICAL CHARACTERISTICS.

Description, 78, 579; 85, 1235, 1237, 1241.

PROJECTS.

By Lt. Col. Gillmore, 1878, removing shoal in Back R. between Commodore and Wolf Islds., 78, 78, 579.

By Col. Gillmore, 1885, formation of a chan. about 10 m., between Darien and Doboy, through the shoals below Darien, 12' d. at l. w., the chan. to be obtained by dr. and maintained by the constr. of wing dams at 5 of the shoals; est., \$170,000, 85, 1238, 1242; 91, 1528.

SURVEYS.

Au. act July 5, 1884; made by Col. Gillmore, 85, 1237.

Ex. made, 1894, 94, 1167; and a detailed sur., 1896-97, by Capt. Carter, 97, 1509.

Maps. 93, 1560; 95, 1476; 99, 1576.

Part (b), O-229

Doboy Bar, Ga.

APPROPRIATIONS.

1886-87, \$5,795.40
 1899, 70,000.00, 99, 1574.

Total, 75,795.40

COMMERCE.

Statistics of Darien port, 87, 1182.

During 1898 about 143,000,000' of timber carried on the R., 99, 1573.

Bulk of the timber passing through Darien from the Altamaha R. would probably cross Doboy Bar

¹ From Altamaha R. app., 87, 1179.

when the imp. completed. When the timber is gone, which is a matter of comparatively few years, the C. will probably greatly decrease, **00**, 1934; **01**, 1638.

CONTRACTS.

1900. R. Moore, dr., **00**, 1934; annulled July, 1901, **02**, 1187.

ENGINEERS.

Chief of Engineers. **R.**, **87**, 150, 154; **88**, 141; **97**, 257; **99**, 260; **00**, 297; **01**, 327; **02**, 256.

In charge:

Col. Q. A. Gillmore, 1886-87. **R.**, **87**, 1179, 1199.
Lt. O. M. Carter, 1888-97. **R.**, **88**, 1041; (Capt.) **97**, 1538.
Capt. C. E. Gillette, 1899-1902. **R.**, **99**, 1573; **00**, 1933; **01**, 1638; **02**, 1186.

Assistants:

Lt. Carter. **R.**, **87**, 1181-1200.
G. W. Brown. **R.**, **97**, 1542.

OPERATIONS.

1887-88. Removal of Doboy Bar continued by harrowing and hydraulic excavation, **88**, 1042.

1899-00. 47,229 c. y. dr., **00**, 1934.

1900-01. 72,666 c. y. dr., **01**, 1638.

PHYSICAL CHARACTERISTICS.

Description of, **87**, 1181-1200; **97**, 1542.

Material composing bar easy to move by hydraulic dr., **97**, 1539.

Tidal observations, **97**, 1542, 1544.

PLANS.

Lt. Carter, 1888, did not consider the present or prospective demands of C. sufficient to warrant further expend., **88**, 1044.

PROJECTS.

By Col. Gillmore, 1887, chan. over the bar by hydraulic excavation and propeller sluicing, **87**, 1181; **88**, 1041.

By Capt. Carter, 1887, dr. 24' x 300' m. h. w. across the bar; est., \$70,000, **97**, 1541; **00**, 1933.

SURVEYS.

Ex. au. act Aug. 5, 1886; made, 1886, by Col. Gillmore, **87**, 1199.

Sur. for 24' d. m. h. w., and to ascertain whether obstr. could be removed by dr., au. act June 3, 1896; made by Capt. Carter, 1897; **R.** fav., **97**, 1539 (see Projects).

Ex. made, 1899, by Capt. Gillette, **99**, 1574.

Minor, **02**, 1187.

Maps. **87**, 1180; **88**, 1042; **99**, 1573.

Part (c), O-229 Darien Harbor and Doboy Bar, Ga.

APPROPRIATIONS.

1902. \$26,000.00, **03**, 1157; **04**, 1653.

1904 { ¹ 26,865.96 **05**, 1273.
 ² 28,000.00

³ 1,500.00, **04**, 1653.

1910. 10,000.00, **10**, 1472.

Total, 92,365.96

COMMERCE.

Shipping of lumber from Darien made possible by imp.; rates reduced 15%, **07**, 312.

In 1911, amounted to 55,142,000' b. m. lumber, **12**, 498.

CONTRACTS.

1903. George T. Warner, dr., 16½¢ c. y., **03**, 1157.

1905. P. Sanford Ross, dr., 11.85¢ c. y., **05**, 1273.

1910. P. S. Ross, dr. 45,000 c. y., 17½¢ c. y., p. m., **11**, 1606.

ENGINEERS.

Chief of Engineers. **R.**, **03**, 262; **04**, 268; **05**, 276; **06**, 288; **07**, 311; **08**, 330; **09**, 341; **10**, 388; **11**, 409; **12**, 497.

In charge:

Lt. Col. J. B. Quinn, 1903-05. **R.**, **03**, 1156; **04**, 1651; **05**, 1270.

Lt. Col. Dan C. Kingman, 1906-. **R.**, **06**, 1196; **07**, 1283; (Col.) **08**, 1339; **09**, 1336; **10**, 1471; **11**, 1604; **12**, 484, 1825.

OBSTRUCTIONS.

Contractor's dr. burnt and sank July 15, 1911; operations suspended until removal of wreck, Nov. 15, 1911, **12**, 1826.

OPERATIONS.

1903-04. 83,357 c. y. dr. and 143 logs removed from Darien H.; 4,000 c. y. brush bundles made for dam repairs, **04**, 1651.

1904-05. 2,340 l. f. dam refilled with brush and st. and 260 l. f. dam built; 96,482 c. y. dr. and 85 logs removed from Darien H., **05**, 1271.

1905-06. 5,120 c. y. dr. and 7 logs removed from Darien H.; proj. completed; 130,953 c. y. removed from Doboy Bar, **06**, 1197.

1910-11. 8,700 c. y. dr., Darien H., **11**, 1604.

1911-12. 45,625 c. y. dr.; contract completed; 178 logs and other obstr. removed, **12**, 1826.

PHYSICAL CHARACTERISTICS.

Difficulty of dr. chan. through bar on account of great littoral drift, **06**, 299; **12**, 499.

D., 1911, 11' m. l. w., **12**, 497.

D. H. embraces lower 12 m. of Darien R., from Darien to where R. enters Doboy Sound. D. H. is 56 m. n. of Brunswick, Ga., and 99 m. s. of Savannah, **12**, 497.

PROJECTS.

Darien H., adopted, 1885, navigable chan. 12' d. m. l. w., Darien to Doboy; est., \$170,000, **03**, 262.

Doboy Bar, adopted 1899, chan. 24' d. m. h. w. (17' m. l. w.), and 300' w.; est., \$70,000, **03**, 263.

Chief of Engineers recom. 1906, that funds be used to maintain 12' chan. instead of dr. for 17' chan., **06**, 299.

SURVEYS.

Of Darien H., **05**, 1271.

Of bar, **06**, 1197.

Pre. ex. au. act June 25, 1910, of Darien H. for 18' across bar; **R.**, Col. Kingman, Sept. 9, 1910 (unfav.), ⁴ **12**, 523.

Cong. docs., etc., relating to exs., surs., plans, etc., **12**, 498.

¹ For Darien H.

² For Doboy Bar.

³ Received from app. for Cumberland Sound, Ga. and Fla.

⁴ H. D. 277, 62d, 2d.

Total, 202,000 (\$212,151.35 incl. sales and \$10,000 for Doboy Bar, not charged above, 1886, 12, 1831).

COMMERCE.

Importance of imp. to C., 86, 1107, 1109; 87, 1177. Increase in R. trade and reduction in rates consequent upon imp., 88, 1037; 90, 1382.

Value of lumber interests, 91, 1533.

In 1892-93 freight carried valued at \$1,614,860, 93, 1563; 1898, \$540,000, not incl. lumber, 98, 1307. C., 1898, valued at \$1,170,000, 99, 1579; 1899, at \$2,525,000, 00, 1941.

Principal items, timber and naval stores to supply camps; 2 SS. ply the R., making 1 and 2 round trips per week, resp., 01, 1643.

Imp. caused reduction of 25 to 40% in rates, 06, 301; 09, 344; 10, 392; 12, 502.

Details of, 10, 1474; 11, 414, 1607; 12, 1829.

Traffic less than 10,000, 1911, but nearly 34,000,000 b. m. lumber rafted, 12, 1830.

CONTRACTS.

1883. R. S. Burnett, removing r., \$4.70 c. y., and constr. of wing dams, 83, 929.

1884. E. H. Gaynor, constr. of wing dams, 85, 1221.

1888. M. A. Sweeney & Bro., repairing snag boat, \$10,000, 89, 1248.

1895. W. T. Gaynor, mattresses, \$1 s. y.; fascines, \$1.65 c. y.; pile work, \$1.50 l. f.; fender piles, \$50 cluster; the piles, \$20 group; sawn timber, \$25 M. f. b. m.; iron bolts, 5¢ lb.; riprap st., \$3.05 c. y. (\$48,000), 95, 1480.

F. C. Armstrong. R., 90, 1386; 91, 1535; 92, 1264.

R. S. Burnett. R., 93, 1565; 94, 1172; 95, 1480; 96, 1260.

OPERATIONS.

1881-82. Constr. of snag boat, 82, 1176.

1882-83. Ex. of R. preparatory to active operations, 83, 927.

1883-84. Removal of 1,800 c. y. r. at Town and Piney Bluffs, 323 snags and 185 leaning trees, 84, 1115.

1884-85. Constr. of training wall for imp. of Beards Bluff Bar, removal of snags, and protecting caving banks, 85, 1218.

1885-86. Constr. of 4 spur js. at Beards Bluff Bar, 86, 1106.

1886-87. Removal of snags and trees by snag boat *Toccoa*, 87, 1177.

1888-89. 157 snags and logs removed from chan. and 221 overhanging trees from banks, 89, 1247.

1889-90. 170 snags and logs removed from R. and 309 overhanging trees cut from banks, 90, 1370.

1890-91. 150 snags and 466 trees removed from chan. and banks, 91, 1532.

1891-92. 521 snags removed from chan. and 1,100 overhanging trees cleared from banks; constr. of wattled pile spur dams begun at Beards Bluff, and repairs made to old training wall at that point, 92, 1262.

1892-93. 799 piles driven; 4,389 c. y. fascines, 371 c. y. riprap st., 12,502¹ b. m. timber, 1,285 lbs. bolts, 1,630 s. y. mattresses used in constr. of spur dams, training wall, etc.; 1,252 l. f. pile work wattled; 79 l. f. shore protection constr.; about 1,400 snags and other obstr. removed, 93, 1562.

1893-94. About 5,000 logs and other obstr. removed from banks and chan.; 66 fender piles driven; 45 c. y. r. removed, 94, 1171.

1894-95. 143 piles driven; 3,004 s. y. mattresses sunk with 100 c. y. riprap st.; 4,985² b. m. timber fastened to pile work by 631 lbs. bolts, 95, 1478.

1896-97. Over 300 obstr. removed from banks and chan.; 2½ c. y. r. excavated and removed, 97, 1514.

1898-99. 174 snags and other obstr. removed from banks and chan., 99, 1579.

1899-00. 160 c. y. r. removed from chan. through Town Bluff Shoals, over 1,000 overhanging trees, snags, and other obstr. removed at Beards Bluff, and constr. of a training dike at Griners Bar in progress, 00, 1940.

1900-01. Spur dams and training dike at Coupers Bar repaired with brush and st.; 195 c. y. r. quarried for completing dike at Griners Bar; 891 snags and other obstr. removed; small pile driver and 2 barges constr., 01, 1643.

1901-02. Training dike at Griners Bar completed with piling, brush, and st.; r. removed from Hell Shoal, 02, 1188.

1902-03. Dike at Griners Bar extended 300'; r. removed from chan. at Town Bluff Shoal; cut-off at Beards Bluff opened and dike repaired; cut-off opened at Jack Williams Suck; piling driven for dike at Oglethorpe Bluff, and brush and st. placed in work; 2,593 snags and other obstr. removed, 03, 1158, 1159.

1903-04. About 45% of approved proj. completed, 04, 1654.

1904-05. 113 snags and other obstr. removed; steam hoister and pile driver overhauled, 05, 1274.

* Allotment.

¹ Part of \$20,000, of which amount \$10,000 was to be applied to Doboy Bar, 87, 1178.

² Allotment from emergency appropriation.

³ Altamaha, Oconee, and Ocmulgee R's.

1905-06. 616 snags and other obstr. removed; 1,049 c. y. r. and clay (r. about 80%) removed from shoal at Town Bluff, resulting in chan. 50' x 3' l. w., **06, 1199.**

1906-07. Between Doctortown and the Forks, 334 snags and other obstr. removed; cut-off at Beards Bluff enlarged; training dike at Oglethorpe Bluff, 635' l., of piling, brush fascines and st., begun by hired labor with use of U. S. plant, **07, 1285, 1286.**

1907-08. 933 snags and other obstr. and 7 c. y. r. removed; 1,570 c. y. dr. in Beards Bluff cut-off, and 525 c. y. dr. from shoal at Piney Bluff, **08, 1341, 1342.** Quarterboat, hull of snag boat, and 2 barges constr., and pile driver repaired and imp., **08, 1342.**

1908-09. 512 snags and other obstr., and a false point from Buggs Suck by blasting, removed; training wall at Oglethorpe Bluff completed, and drift from the upper side removed, **09, 1338.** Approved proj. about 80% completed, **09, 1343.**

1909-10. 1,109 snags and 95 stumps removed from chan.; 505 trees cut from banks, and 10 trees girdled; 895 c. y. st. removed from Town Bluff and 728 c. y. from Hell Shoals; log float removed from chan. at Doctortown, and SS. *Wilmington* raised, **10, 1473, 1474.**

1910-11. 1,947 snags and other obstr. removed, **11, 1607.**

1911-12. Snags and other obstr. removed; the 10" pump boat *Macon* removed total of 68,320 c. y. from localities stated, securing 90' x 5' l. w.; training wall at Oglethorpe Bluff repaired and one constr. at Beards Bluff; spur j. at mouth of Ochopee R. 20% completed, **12, 1829.**

PHYSICAL CHARACTERISTICS.

Description of **90, 1372, 1374, 1378; 12, 501.**

Permanent imp. not to be obtained because of the obstr. brought into the R. at every freshet, **93, 1564.**

Coupers Bar only 1' d. at l. w., increased by the tide to 4'-5'; d. above tidal range, 2' at l. w.; freshets in upper section, at times 20' above low summer stage; in lower section freshets rise 5'-10' over banks, **03, 1158.**

Sur., 1909-11, showed orig. datum plane 1' too high, so that orig. plans not enough to afford l.-w. depth desired, **12, 502.**

PROJECTS.

Orig. proj. submitted 1875, contemplated chan. 4' x 80', Macon to Darien, by removing bars, snags, etc.; est., \$162,000, **12, 501.**

By Col. Gilmore, 1880, for l.-w. chan. 3' x 80' confluence of the Oconee and Ocmulgee to Darien, 155 m., by removal of r., bars, and snags; est., \$60,000, **81, 1106; 87, 1170.**

By Lt. Carter, 1890, navigable SS. chan. 3' d. at ordinary summer l. w. bet. junctions of the Oconee and Ocmulgee Rs. and Darien, by removal of r. shoals, sand bars, snags, and logs from the chan. and overhanging trees from banks, constr. of deflecting dikes, closing incipient cut-offs, and re-vetting caving banks; est., \$128,627.50, **90, 1370, 1380; 92, 1261.**

In 1893-94 Capt. Carter est. \$3,000 to \$5,000 each year for mainten., **94, 1172.**

Act 1912 adopt. recom. (H. D. 443, 62d Cong., 2d) of further gradual imp., following methods carried on under existing proj., by expend. of \$40,000 an. on Altamaha, Oconee, and Ocmulgee Rs., the money to be applied to mainten. of 3' during ordinary summer l. w. to Milledgeville and Macon, and to gradual increase of chan. d. without sacrificing mainten. work, **12, 501.**

SURVEYS.

Ex., 1880, by W. G. Williamson, **81, 1107.**

By Lt. Carter, 1890, **90, 1372.**

Ex. and sur. prior to 1890, **90, 1377.**

At Oglethorpe and Beards Bluffs, **07, 1286.**

Fre. ex. and sur., Oconee, Ocmulgee, and Altamaha Rs., Ga., au. act Mar. 3, 1909; made, 1909-11, by Col. Kingman (see Projects), **12, 523.**

R. S. Burnett. R., 93, 1570; 94, 1178; 95, 1484; 96, 1264.

OPERATIONS.

1877-78. 209 snags and logs removed; steam-derrick boat built, 79, 142, 1274.

1879-80. 813 snags, stumps, and trees removed from R. between Dublin and mouth, 80, 1703.

1880-81. 236 logs, snags, and trees, and quantities of drift removed, 81, 1377.

1881-82. 30 c. y. of r. excavated and 489 logs, snags, and trees removed, 82, 1860.

1882-83. 199 snags, 410 overhanging removed, and 245 c. y. log and brush j. put in, 83, 1505.

1883-84. 352 c. y. loose r. removed from chan.; 340 c. y. r. placed in dams and slope walls; 95 snags and trees removed, 84, 1658.

1884-85. Chan. cut through r. reefs at Chaney's Shoal; snags and obstr. removed, 85, 1297.

1886-87. 129 logs, snags, and trees removed, 87, 1275.

1887-88. 256 snags and 105 c. y. loose r. removed from the chan., and 691 overhanging trees from banks, 88, 1172.

1888-89. 920 logs, snags, and stumps removed from the chan., and 952 trees cut from the banks, 89, 1251.

1889-90. 948 snags, 358 stumps, and 15,220 trees removed from the chan. and banks, 90, 1392.

1890-91. 893 snags, 200 stumps, 146 overhanging trees, and 42 logs cleared from the chan.; 600 c. y. of st. quarried and placed in closing dam, 91, 1537, 1538.

1891-92. 571 snags and 366 cords of drift removed from the chan., and 16,910 trees and logs cleared from the banks; constr. of brush and pile dams in progress, 92, 1267.

1892-93. About 1,700 logs and other obstr. removed from the chan. and banks, 93, 1568.

1893-94. Jetties were repaired; over 12,000 obstr. removed; 266 c. y. gravel, etc., removed, 94, 1176.

1894-95. About 2,700 obstr. removed, 95, 1482.

1895-96. Over 4,500 obstr. removed, and 103 c. y. r. removed, 96, 1322.

1896-97. About 300 obstr. removed; 100 c. y. r. removed, 97, 1517.

1897-98. About 1,200 obstr. removed, 98, 1309.

1898-99. Over 1,100 snags and other obstr. removed from the banks and chan., and a training dike 450' l. built at Latimers Reach, 99, 1581.

1899-00. 170 c. y. r. removed at Dublin Upper and Lower Shoals; over 7,000 overhanging trees, snags, and other obstr. removed from chan., and training dike at Latimers Reach repaired and raised, 00, 1943.

1900-01. Training dike partly built, 529 snags and stumps removed from chan., and 2,623 trees and logs cut from bank, 01, 1645.

1901-02. Training dike completed, 6 snags and 4 trees removed, and cut through Fish Trap Dam w., 02, 1189.

1902-03. 4,032 obstr. removed from chan, and 3,514 from banks, 03, 1160.

1903-04. 3,043 obstr. removed from chan. and 3,439 from banks; dike 350' l. built, 04, 1655, 1656.

1904-05. Snag boat repaired, 05, 1276.

1905-06. Below Milledgeville.—986 obstr. removed from chan. and 175 from banks; 241 c. y. r. and 6,127 c. y., mostly r., removed; 92' dike built, 06, 1200. Above Milledgeville.—114 obstr. removed from chan. and 611 from banks, 06, 1201.

1906-07. Below Milledgeville.—720 obstr. and 4 c. y. r. removed from chan. and 636 obstr. from banks; dike raised and extended 130', 07, 1287. Above Milledgeville.—17 c. y. r. and 136 obstr. removed from chan. and 127 from banks; 5 spur dams, 50' each, built, 07, 1288.

1907-08. Below Milledgeville.—4,605 obstr. removed from chan. and 8,141 from banks; 196 l. f. spur dams and 663' training wall built; 6,115 c. y. dr. and 30 c. y. r. and 464 c. y. r. and clay removed; snag boat *Oconee* rebuilt, 08, 1543.

1908-09. 3,281 obstr., 100 c. y. st. and 450 c. y. earth removed from chan. and 8,089 obstr. from banks, 800' shore protection and 250' training dike built, and 350 c. y. st. quarried, 09, 1339.

1909-10. 2,130 obstr. removed from chan. and 3,335 from banks; 1,460 c. y. st., 1,530 c. y. earth, and 540 c. y. clay and st. removed; 2 training walls repaired, 10, 1475.

1910-11. 229 snags and stumps removed from chan., and 11 overhanging trees and logs cut from banks; r. shoals removed systematically, from point 7 m. above Dublin to 3.3 m. below; chan. imp. for 3,650'; 13,591 c. y. sand, clay, etc., removed from shoals; training wall at Bonnyclabber raised for 250', and bank revetted for 50' above head of this training wall, using 225 c. y. st. and 411 c. y. brush fascines, 11, 1609.

1911-12. 2,015 snags and stumps removed from chan., 3,367 overhanging trees and logs cut from bank, and 88 large trees girdled; old training wall at Fish Trap Shoals refilled, and extended 250'; closing dike having become partly flanked during a prolonged freshet, was protected at upper end by mattress of brush and st., 12, 1831.

PHYSICAL CHARACTERISTICS.

Description of, 75, ii, 42, 43, 44; 04, 1678.

Obstructions, 75, ii, 42, 43.

Description of the R., 89, 1253; 90, 1430, 1432, 1437, 1444.

Permanent imp. can not be effected until freshets stop bringing down large quantities of logs, etc., 93, 1570.

PLANS. (See Projects.)

By E. S. Gould, 1875, removing obstr., such as logs and points, and making cut-offs from Milledgeville to the Forks; est., \$10,150; not recom. by Maj. Gillmore, 75, ii, 44, 45.

By Capt. Hoxie, 1885, imp. of *Oconee R.* between Skull Shoals and the Georgia R.R. br., to give chan. 20'' d. and having a least w. of 40' or 50', by removal of r. obstr., overhanging trees, and snags; est., \$1,500, 85, 1332.

**PRIVATE (STATE AND CORPORATE)
WORK.**

State of Georgia app. \$10,000 for imp. from Milledgeville to the Ocmulgee R., 1835. A lock constr. at Milledgeville, 1832, **75**, li, 44.

App. for imp. of the R. made by State of Georgia and private companies, **89**, 1253, 1254.

PROJECTS. (See Plans.)

By Maj. King, 1878, prevention and formation of cut-offs, removing snags and logs, and cutting through r. reefs where necessary, to secure 3' l-w. navigation, mouth to Milledgeville, **78**, 105, 768.

1878 to 1886, incl., \$36,500 app.; est. that \$17,500 would be required to complete the proj., **86**, 1162.

By Capt. Carter, 1890, estab. of a navigable SS. chan. 3' d. at ordinary summer l. w. from Milledgeville to the R.'s mouth; this to be accomplished by (1) removing rafts, r. shoals, and sand bars; (2) enlarging portions of the R., revetting caving banks, and closing incipient cut-offs; (3) removing snags and logs from the chan., and overhanging trees from the banks of the stream; est., \$171,000, **90**, 1389; **91**, 1537.

In 1892-93 Capt. Carter est. \$1,000 to \$5,000 would be required an. for mainten., **93**, 1570.

Lt. Col. Quinn, 1903, did not consider imp. above Milledgeville justified by interests involved,¹ **04**, 1678.

Act Mar. 3, 1905, au. expend. of \$3,000 in clearing R. between Georgia RR. br. and n. boundary of Greene Co., Ga., **05**, 280.

By Lt. Col. Kingman, 1906, plan for imp. between Georgia RR. br. and n. boundary of Greene Co.; est., \$12,000, and \$1,000 an. mainten.,² **07**, 327.

Act July 25, 1912, adopts recom. that Oconee, Ocmulgee, and Altamaha Rs. are worthy of further imp. "as now carried on," and funds be applied to mainten. of 3' d., and to gradual increase of chan. d. as far as practicable without sacrificing mainten. work, **12**, 504.

SURVEYS.

Increase of traffic, **83**, 1504.

Reduction in f. rates consequent upon imp., **89**, 1257.

C., **90**, 1396, 1479; **92**, 1273.

In 1892-93, value \$1,356,915, **93**, 1574; 1898, \$1,382,500, **99**, 1584; 1899, \$1,675,000, **00**, 1946.

Description of, **01**, 1647.

None recently between Macon and Hawkinsville, except occasional trips of one small SS., **06**, 1203.

Company formed to operate line of SS. between Macon and Brunswick, **06**, 1203.

Rates reduced from 25 to 40%, **06**, 305.

Great increase expected, **08**, 1347.

1911, 12,251 t. In addition, 11,000,000' of timber and lumber rafted down the R., **12**, 508.

CONTRACTS.

1887. M. A. Sweeney & Bros., snag boat, **87**, 1277.

1911. Merrill-Stevens Co., constr. of two 10' pump boats, to be named *Augusta* and *Macon*, \$17,875 each, **11**, 1614.

ENGINEERS.

Chief of Engineers. **R.**, **76**, 87; **77**, 91; **78**, 105; **79**, 141; **80**, 189; **81**, 256; **82**, 250; **83**, 257; **84**, 287; **85**, 199; **86**, 198; **87**, 167; **88**, 155; **89**, 162; **90**, 145; **91**, 147; **91**, 182; **92**, 178; **93**, 195; **94**, 179; **95**, 204; **96**, 182; **97**, 232; **98**, 228; **99**, 263; **00**, 301; **01**, 330; **02**, 259; **03**, 266; **04**, 273; **05**, 281; **06**, 304; **311**, **07**, 317; **08**, 336; **09**, 346; **10**, 394; **407**; **11**, 417; **12**, 506, 523.

In charge:

Maj. W. McFarland, 1876-77. **R.**, **76**, 725.

Capt. W. R. King, 1877-85. **R.**, **77**, 600; **78**, 767; **79**, 1272; (Maj.) **80**, 1701; **81**, 1875; **82**, 1858; **83**, 1503; **84**, 1656.

Capt. R. L. Hoxie, 1885-89. **R.**, **85**, 1295; **86**, 1159; **87**, 1276; **88**, 1173.

OBSTRUCTIONS.

Bridges, 77, 600.

Central Georgia Power Co. in habit of drawing down pool below level of stream, thus disturbing regular discharge of R. and seriously interfering with navigation. Sec. of War directed observations to be made, **11**, 1612.

OPERATIONS.

1877-78. Removal of 420 snags and 360 trees; chan. of 7'-8' l. w., **78**, 105, 767.

1878-79. Removal of 1,370 snags and 44 trees, **79**, 142, 1273.

1879-80. 963 snags and 84 trees removed from bed; steam derrick boat built, **80**, 1701.

1880-81. 359 c. y. r., clay, and 540 snags removed from chan., **81**, 1876.

1881-82. 921 snags and 1,689 c. y. removed and excavated from the chan., **82**, 1859.

1882-83. 90 snags and trees removed; 3 log dams and 2 js. built, **83**, 1504.

1883-84. 216 snags and trees removed from 65 m. of chan., **84**, 1657.

1884-85. Work of cleaning chan. continued, **85**, 1296.

1885-86. 585 trees felled and removed; 70 logs and stumps cut; 611 logs and snags removed from bed, **86**, 1160.

1888-89. 886 logs and snags removed from chan. and 4,500 trees and logs cleared from banks, **89**, 1257.

1889-90. 1,956 snags and logs removed from chan., and 8,323 logs and trees cleared from banks, **90**, 1396.

1890-91. 186 snags removed from chan., and 9,409 trees cleared from banks; dam constr. and repair of Tillmans Bar, **91**, 1544.

1891-92. 2,932 snags removed from chan., and 6,733 trees cleared from banks, **92**, 1272.

1892-93. About 3,000 obstr. removed from stream and banks; 124 piles driven, 1,163 c. y. mattresses, 832 c. y. riprap st., and 2,085 poles used in wattling, in repairs to dams, and in constr. of new dams; 1,080 c. y. excavated for, and 94,332' b. m. timber, 280 c. y. st., and 2,500 lbs. iron spikes used in constr. of crib bank protection, **93**, 1573.

1893-94. About 7,000 obstr. removed and also the wrecks of 3 SS.; 285 c. y. solid r. and 287 bowlders removed, **94**, 1182.

1894-95. About 4,000 obstr. removed, **95**, 1486, 1490.

1895-96. About 5,000 obstr. removed, 643 c. y. r. excavated, and removed, and also 1 wreck, **96**, 1287.

1896-97. About 1,400 obstr. removed and also 548 c. y. r., **97**, 1520.

1897-98. Nearly 5,000 obstr. removed and also an old wreck, **98**, 1311.

1899-00. 190 c. y. r. and over 32,000 overhanging trees, snags, and other obstr. removed from chan.; training dikes built at Oaky Bluff and Tillmans Bars and in progress at Macon Bar, **00**, 1945, 1946.

1900-01. 15,608 obstr. removed from chan. and banks; 4 dikes, aggregating 3,140', completed; 2 aggregating 8,300' nearly completed, and 2 aggregating 2,200' partly built; 4,521 obstr. removed from cut-offs, **01**, 1646, 1647.

1901-02. 10 dikes, aggregating 11,950', completed; 1,416 obstr. and quantity of earth removed from cut-offs, and 735 trees cut on banks; 3,619 c. y. r. removed; 3,379 snags and stumps removed, and 22,226 trees and logs cut; house boat built, **02**, 1191.

1902-03. 1,100' dike, 2,320' shore protection, and 400' spur dike built, and 2,350' dikes rebuilt; 593 snags and stumps and 9,235 c. y. earth removed from cut-offs; 2,554 snags and stumps, 2 wrecks and 2 bridge piers removed from chan. and 7,124 trees and logs from banks; willows planted (but washed out by freshet); hoister and pile driver rebuilt, **03**, 1162.

1903-04. 30 obstr. removed from chan. and 74 from banks; 400' spur dikes built and dike repaired; 2,685 c. y. r. removed, **04**, 1657.

1904-05. 718 obstr. removed from chan. and 24 from banks; also portion of old j., **05**, 1277.

1905-06. 2,536 obstr. removed from chan. and 2,145 from banks, **06**, 1202.

1906-07. 587 obstr. removed from chan. and 1,631 from banks; 2 sand bars imp. by harrowing, and 90 c. y. earth removed by dynamite; training wall and spur dam raised and new spur dam 245' l. built, **07**, 1289.

1907-08. Above Hawkinsville.—134 obstr. removed from chans. and 30,302 from banks, training wall repaired, and material collected for further repairs. Below Hawkinsville.—123 obstr. removed from chan. and 151 from banks, and material collected for repairs to training wall; hull built for snag boat "Oconee," and latter repaired, **08**, 1846.

1908-09. Above Hawkinsville.—943 obstr., 933 c. y. st., and 499 c. y. earth removed from chan., and 515 obstr. from banks; 1,346' shore protection, 668' training wall and js. built, 1 training wall raised and another prolonged, by sinking old hull of snag boat, and material collected for constr., of new dike and shore protection, **09**, 1341. Below Hawkinsville.—453 obstr. removed from chan. and 518 from banks, training dike refilled and wall repaired, and end of training wall removed, **09**, 1342.

1909-10. Above Hawkinsville.—53 obstr. removed from chan. and 19 from banks, 1,508' shore protection and 757' training wall built, 4,299' dike raised, and 2,553 c. y. st. and 448 c. y. clay removed. Below Hawkinsville.—328 obstr. removed from chan. and 1,582 from banks, 1,000 c. y. st. and 253 c. y. clay removed, training wall raised, 190' dam and 275' dike built, and wreck removed, **10**, 1477.

1910-11. 4,863 snags and other obstr. removed from chans.; 965 l. f. new training wall and 3,985 l. f. bank revet. constr.; 730 l. f. old training wall and 1,650' of old bank revet. repaired and raised; constr. and repairs to plant, **11**, 1611.

1911-12. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1912-13. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1913-14. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1914-15. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1915-16. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1916-17. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1917-18. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1918-19. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1919-20. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1920-21. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1921-22. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1922-23. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1923-24. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1924-25. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1925-26. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1926-27. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1927-28. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1928-29. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1929-30. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1930-31. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1931-32. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1932-33. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1933-34. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1934-35. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1935-36. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1936-37. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1937-38. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1938-39. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1939-40. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1940-41. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1941-42. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1942-43. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1943-44. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

1944-45. 217 piles driven and 1,507 c. y. brush fascines and 121 c. y. st. placed in bank revet. below Macon; 773 snags removed and 6,396 trees and saplings cut; 71 large trees girdled; floating plant repaired, **12**, 1833.

PHYSICAL CHARACTERISTICS.

Description, **72**, 531; **76**, 725, 735; **89**, 1258, 1259; **90**, 1455.

List of obstr., **76**, 725-727, 728-734; **79**, 1273.

Permanent imp. can not be made because of the new obstr. brought into the stream at every freshet, **93**, 1575.

R. obstr. by r. shoals above Hawkinsville, and sand bar below Macon, **02**, 1191.

Banks damaged by flood, **02**, 1191.

PLANS.

By B. W. Frobel, 1876, slackwater navigation by means of locks and dams; chan. way 4' x 80' l. w., and locks 30' x 200'; est., \$1,000,000, **76**, 735.

By Maj. McFarland, about \$2,000,000. Cost should be determined by a sur., **76**, 736.

PRIVATE (STATE) WORK.

\$60,000 expend. by Georgia in imp. of Ocmulgee R., **88**, 1174; **89**, 1257.

PROJECTS.

Description of prior proj. and imp., **89**, 1258.
By Capt. King, 1877, chan. 80' w. with 1. w. d. of 4' from Macon to the mouth, by removal of sand and gravel bars, r. reefs, snags, trees, and similar obstr.; est., \$56,240, **77**, 91, 600; **82**, 1276.

Est. increased, 1882, 1885, and 1886, to \$112,480, **82**, 1858; **85**, 1296; **86**, 1160; **87**, 1276.

By Lt. Carter, 1890, navigable SS. chan. 3' d. at ordinary summer l. w., Macon to R.'s mouth, to be obtained by (1) removal of r. shoals and sand bars, (2) closing inclined cut-offs and revetting caving banks, (3) removal of snags and logs from chan. and overhanging trees from the banks; est., \$210,000, **90**, 1395; **91**, 1544.

1892-93, Capt. Carter est. \$1,000 to \$5,000 would be required an. for mainten., **93**, 1575.

Col. Kingman, 1909, did not consider advisable imp. between Macon and Hawkinsville, by locks and dams,¹ **10**, 407.

Act July 25, 1912, adopted recom. in H. D. 443, 62d, 2d, that these streams are worthy of further gradual imp. without sacrificing mainten. work, **12**, 507.

SURVEYS.

By T. C. Long, **72**, 509.

By R. C. McCalla, **72**, 531.

By W. B. Frobel, **76**, 725.

By Maj. McFarland, ex. Macon to Covington, 1876, **76**, 87, 725.

Au. act Aug. 11, 1888; made, 1890, by Lt. Carter, **90**, 1458.

Of 13 shoals, **04**, 1657.

Below Macon, **06**, 1203.

Ex. from br. at Fifth St., Macon, to Juliette, Monroe Co., Ga., au. act Mar. 3, 1905; made, 1905, by Lt. Col. Quinn (R. unfav.),² **06**, 311.

Of Okay Bluff Shoals and below Macon, **09**, 1342.

Assistant. J. H. Bacon. R., 04, 1672.

LEGAL PROCEEDINGS.

Quit-claim deed secured for part of land required, and permission to dr. through balance; referred to Dept. of Justice for opinion as to sufficiency, 08, 338; held to be insufficient; negotiations with owners continued, 09, 349; concluded, 10, 1479.

PROJECTS.

In 1892 Congress provided that C. P. Goodyear should be paid various sums if he should procure, in given periods, a practicable chan. over the outer bar at Brunswick, Ga., of various named d., by means of dynamite and auxiliary means for smoothing the bottom of the bar chan., 93, 1585; 96, 1278.

In 1900, Capt. Gillette presents 5 methods in detail for deepening chan. on outer bar, incl. use of dynamite, js., curved or reaction breaker. Dr. preferred; est., \$40,820.40 to \$64,650. Recom. \$150,000 for U. S. dr. and \$25,860 for operation, to d. chan. and to maintain it, 01, 1663. Div. Engr. approved dr. method, but est. \$200,000 for U. S. dr., incl. operation for 2 yrs., 01, 1666.

C. P. Goodyear, opinion on d. outer bar by explosions of dynamite, 01, 1704-1713.

E. L. Corthell, C. E., opinion on d. ocean bars, 01, 1714, 1716.

J. A. Bryan, contractor, opinion on methods used in d. Brunswick Bar, 01, 1716, 1718.

SURVEYS.

Ex. made 1892 and 1893 by Capt. Carter, 93, 1587; 94, 1197; by Board of Officers in 1894, 1895, 95, 1501, 1504; 96, 1282; all showing that the required w. and d. had not been obtained, as provided by the acts of 1892 and 1894.

Act Mar. 3, 1899, au. C. P. Goodyear receiving stipulated compensation for making chan. 24' x 200' and 25' x 100', and au. sur. of chan., calling for plan, and est. for 26' x 200' m. h. t. chan. R. (see Projects), 1900, by Capt. Gillette, 01, 1663.

OPERATIONS.

1907-10. Nothing done, pending acquisition of right of way necessary for part of imp., 07, 1291; 08, 338; 09, 349; 10, 397.

1910-11. 26,042 c. y. dr. from canal connecting Club and Plantation Creeks, and 118,867 c. y. from cut-off between Plantation and Lost Creeks; portion of Plantation Creek to be abandoned is being blocked by dam to prevent division of tidal flow, 11, 1614.

1911-12. 64,244 c. y. dr.; dam constr. across old chan. of Plantation Creek; imp. completed, 12, 510, 1836.

PHYSICAL CHARACTERISTICS.

Description of, 04, 1672, 1673.

Navigable chan. provided; details of d., etc.; waterway a connecting link between portion of Inside Water Route and Brunswick H., Ga., 4 m. l., 12, 1835.

PROJECT.

By Lt. Col. Quinn, 1903, au. act Mar. 2, 1907, dr. canal 7' x 50' between creeks, thus connecting Altamaha and its tributaries with Brunswick H.; also straightening Plantation Creek and dr. in both where necessary to secure 7'; est., \$40,700,⁴ 04, 1673; 07, 319.

SURVEY.

Au. act June 13, 1902; made, 1903, by Lt. Col. Quinn,⁴ 04, 279, 1669.

Complete sur. of localities to be imp. made before dr., 11, 1614.

Cong. docs., etc., relating to exs., surs., plans, etc., 12, 510.

¹ Act June 13, 1902, combines the imp. of Brunswick Bar with that of Brunswick H., Ga.

² Paid to C. P. Goodyear between 1894 and 1902, for work on this bar. (See H. D. 421, 57th, 2d.)

COMMERCE.

C. facilities of Brunswick, Ga., 76, 488.
Importance of imp., 81, 1115, 1118; 83, 926; 86, 1115; 87, 1186.
Increase in business, 1880 to 1890, 90, 1406.
Description of, 96, 1276; 97, 1523; 98, 1314; 11, 1616, 1617, 1618.
1892, value \$13,652,703, 93, 1581; 1893, \$8,978,485, 94, 1190.

C. important, and increasing, 00, 1962.
Rapidly increasing, 01, 1649.
Imp. has caused a reduction on ocean-going rates on lumber of 25%, and on naval stores of 30%, 06, 307; 12, 513.

The regular lines of SS. estab. between Brunswick and New York and Boston comprised 14 SS. in 1906, 116 round trips being made, carrying 207,225 t., 07, 1292; 10, 1481.

1911, 704,252 t., 12, 1838.
Imp. permits SS. entering and leaving regardless of tides, 12, 513.

"The chief articles of export are cotton, lumber, crossies, and naval stores, of which the shipments for the calendar year 1911 were as follows: Of cotton, 312,970 bales; of lumber and crossies, 148,445,000' b. m.; and of naval stores, 54,385 barrels of turpentine and 130,512 barrels of rosin.

"The Clyde Steamship Co. operated a line of steamers between New York and Brunswick and other points during the calendar year 1911, carrying 213,638 tons of freight, valued at \$19,300,000. In addition, there were 2,471 passengers carried by this line. Seventeen steamers were operated, making a total of 103 round trips and 13 single trips.

"On the inland waters there are a number of small steamers plying between Brunswick and adjacent ports, besides numerous schooners, small sailboats, tugs, and gasoline launches towing barges. During the calendar year 1911 this portion of the commerce amounted to 44,940 short tons, valued at \$1,650,593.

"The total amount of freight received and shipped at the port of Brunswick during the calendar year 1911 was 704,252 short tons, valued at \$44,506,731.

"Before improvement in 1880 the annual commerce of Brunswick H. amounted to about 100,000 short tons, valued at \$1,700,000.

"The effect of the improvement has been to cause a reduction of ocean-going freight rates on lumber of 25 per cent and on naval stores of 30 per cent. It has also permitted the regular line coastwise freight steamers to enter and leave the port regardless of the tides, thereby avoiding much loss of time." 12, 513, 1838.

1903-04. 243,289 c. y. removed from inner H., and 141,472 c. y. from outer bar by U. S. dr. *Cumberland*, **04**, 1660.

1904-05. 126,901 c. y. removed from inner H., completing contract; 393,482 c. y. removed by dr. *Cumberland*, **05**, 1280.

1905-06. 20,000 c. y. removed from shoals near mouth of Academy Creek; training wall in East R. raised to 4' above m. l. w., 1,040 c. y. st. being placed; dr. *Cumberland* removed 19,345 c. y. from outer bar, completing chan. 19.3' d. with a min. w. of 225' and an average w. of 325'; proj. completed except for mainten., **06**, 1204.

1906-07. Unserviceable boathouse and storehouse torn down and material purchased for the building of a more suitable one, **07**, 1292.

1907-08. 157,886 c. y. removed from Academy Creek, 26,505 c. y. from Turtle R., 10,153 c. y. from inner H., and 456,856 c. y. from outer bar, **08**, 1348.

1908-09. 303,941 c. y. removed from East R. and 45,219 c. y. from Turtle R., completing contract; 114,268 c. y. removed from inner H. and 713,211 c. y. from outer bar, **09**, 1344.

1909-10. 60,119 c. y. removed from shoal opposite Brunswick Pt. and 210,753 c. y. from outer bar, completing work at Brunswick Bar, Brunswick Pt. and Academy Creek, **10**, 1480.

1910-11. 13,727 c. y. removed, 8,800 c. y. of which was from upper shoal in Turtle R., 1,418.6 c. y. from lower shoal in Turtle R., and 3,509 c. y. from East R., securing proj. d. and w. in East R. and on upper shoal in Turtle R., **11**, 1615. 38,379 c. y. removed from Academy Creek and 52,925 c. y. from East R., **11**, 1616.

1911-12. 8,153.5 c. y. removed from shoal in lower Turtle R.; training wall in East R. raised, and 391,714 c. y. removed by U. S. from Brunswick Bar, **12**, 1837.

PHYSICAL CHARACTERISTICS.

Comparison with other Hs., **76**, 487.

Description of, **76**, 487; **95**, 1494; **00**, 1964, 1965; **11**, 423.

Tidal observations, **76**, 487; **95**, 1495-1498.

Gauging, **95**, 1496, 1497.

H. 111 m. by water s. of Savannah, and 46 m. n. of Fernandina, Fla.; 17' chan., 1879, across bar; few years later, 13', 12, 510. (See Projects, 1907.)

Shoaling proclivities; special works needful, **12**, 512.

PRIVATE WORK.

79,600 c. y. removed by private parties from vicinity of their wharves, **09**, 1345.

PROJECTS.

By Lt. Col. Gillmore, removal of shoal; (1) constr. of gabion js., 1,600' single tier, 1,500' double tier, 300' triple tier, 1,800' spur j., single tier; est., \$57,000; (2) dr. chan. 15'x100' m. l. w.; est., \$52,500, **76**, 489.

Proj. for imp. of Brunswick H., as proposed by Col. Gillmore, 1880, and modified by him, 1886, had as its object the estab. and mainten. of a 15' l.-w. chan. across the shoal in East R. The main features were (1) training wall projecting from the most e. point of Buzzards Isld. to the opposite shore of Blythe Isld.; (2) low dam across Turtle R.; (3) short spur dams in the lower part of East R.; (4) dr. in vicinity of Truth R. Dam, and on the shoal in the lower part of East R. Orig. est., \$73,187; as modified, \$190,000, **80**, 962; **86**, 1113, 1116; **87**, 1184; **90**, 1404; **91**, 1551; **92**, 1279.

Capt. Gillette est., 1899, \$125,700 to raise existing training wall and dr. through shoal in East R. to 21' m. l. w., **00**, 1965.

Proj. in force to June 13, 1902, was au. by Congress, 1894, and it provided for maintaining nav. chan. of 15' m. l. w. by keeping existing works in repair, and by dr.

Act June 3, 1896, au. imp. Academy Creek.

Cost of mainten. est. \$15,000 an., **12**, 511.

Act June 13, 1902, au. chan. 21' m. l. w. in Brunswick inner H.; est., \$120,000; and chan. across outer bar 19.3' d., m. l. w. (26' m. h. w.); est., \$40,000; also dr. Academy Creek, at not to exceed \$5,000, **02**, 1193; **03**, 268.

Act Mar. 3, 1905, au. expend. of \$5,000 of amount app. therein for maintaining Academy Creek.

Act Mar. 2, 1907, au. creating and maintaining throughout the inner H. (embracing Turtle R. from Southern Ry. docks to its junction with Brunswick R., Academy Creek from Aikens Wharf to its junction with East R.) and the outer H. (embracing the outer bar, the navigable chan. throughout the entrance to St. Simons Sound and up Brunswick R. to Brunswick Pt.) chans. of 30' m. h. w., varying from 150' in Academy Creek to 400' across the outer bar; to be obtained by dr. and dike constr.; est., \$496,650, and \$33,250 an. for mainten., **07**, 320, 321.

SURVEYS.

By U. S. Commission, 1836. (See Board of Engineers.)

1907,	75,000	07,	1300.
1909,	*20,000	09,	1353.

Total, 3,407,500 (incl. sales, and less \$6,987.19 carried to funds for imp. H. at Fernandina, Fla., \$3,400,527.21, 12, 1845).

COMMERCE. (See Fernandina H.)

Cumberland Sound as a H. of refuge, 76, 482; 79, 792.

C. superiority of location doubtful, 76, 483.

Benefit to be conferred by imp., 81, 1122; 87, 1194.

Amount of, dependent upon water transportation through Cumberland Sound, 90, 1424; 91, 1561.

Description of, 93, 1603; 96, 1291; 00, 1957, 1958.

In 1892, value \$8,982,393, 93, 1596; 1896, \$9,000,000, 97, 1529; 1899, \$3,861,992, 00, 305.

All the C. of St. Marys, Ga., and 90% of C. of Fernandina, Fla., dependent upon the sound for transportation, 96, 1288.

Imp. has caused reduction in ft. rates of from 25 to 40%, 07, 326.

"The total commerce of the harbor of Fernandina during the calendar year 1911 amounted to 511,133 short tons, with a value of \$10,113,836. The chief articles of export are lumber, phosphate rock, and naval stores, of which the shipments for the year 1911 were as follows: Lumber, 82,191,000 feet, board measure; phosphate rock, 221,650 tons; rosin, 406,540 barrels; and turpentine, 75,125 barrels. The details of this commerce are given in the tables appended hereto.

"As Cumberland Sound merely constitutes the ocean entrance to Fernandina Harbor, the commerce is given under that head.

"The effect of the improvement has been to cause a reduction in freight rates of from 25 to 40 percent." 12, 521, 1344.

CONTRACTS.

1880. Lara, Ross & Co., j. constr., 81, 1121.

1881. A. M. Newton, j. constr., 82, 1187.

1882. Lara & Ross, j. constr., 83, 935.

riprap system, \$3,086,620; drowned js. full length,
mixed system, \$1,817,311; riprap system, \$2,423,460;
drowned n. j. and full-height s. j., mixed system,
\$3,759,161; riprap system, \$4,513,860, **76**, 477-481.

By Lt. Col. Gillmore, 1879, low js., \$2,071,023, **79**,
793.

OPERATIONS.

1880-81. 276 l. f. of apron foundation laid and
covered with riprap st., **81**, 1121.

1881-82. Apron foundation of n. j. extended
2,010', bottom course extended 7,196', 10,824 c. y. st.
deposited on work, apron foundation of s. j.
extended, 1,316', 2,443 c. y. riprap st. deposited,
82, 1184, 1185.

1882-83. Second course mattress n. j. ex-
tended 73', foundation mats for spurs placed and
covered with riprap st., 4,475 c. y. st. used, founda-
tion course of s. j. extended 2,851', 7,350 c. y. riprap
placed, **83**, 933.

1884-85. Bottom course of Smith Jetty ad-
vanced 3,507', 13,487 c. y. riprap used, **85**, 1230.

1886-87. 33,303 s. y. of mattress foundation
and 10,336 c. y. of st. placed in js., **87**, 1193.

1887-88. 37,725 s. y. mattresses and 11,821
c. y. st. placed in j., **88**, 1052.

1888-89. 10,513 c. y. st. and 1,253 c. y. shell
placed in j., **89**, 1277.

1889-90. 18,060 c. y. st. and 818 c. y. shell
placed in j., **90**, 1426.

1890-91. 2,770 s. y. of brush mattress and 382
c. y. of st. used in extending the foundation course
of n. j. 267', **91**, 1561.

1891-92. 58,759 s. y. brush mattress and 11,429
c. y. st. used in extension of foundation course of
n. j. 6,177', **92**, 1288.

1892-93. 107,734 s. y. mattresses and 13,683
c. y. riprap st. placed on n. j., **93**, 1595.

1894-95. 213,334 s. y. mattresses loaded down
with 18,748 c. y. riprap st. on n. j. Portion of s. j.
300' l. removed where the sailing line crossed it, **95**,
1511.

1896-97. 92,345 s. y. mattresses and 4,794 c. y.
2-class st. and 842 c. y. riprap st. placed on n. j.;
253,924 s. y. mattresses, 4,036 c. y. 3-class st., 8,018
c. y. 4th-class st., and 607 c. y. riprap st. for repairs
placed on s. j., **97**, 1528.

1897-98. 111,868 s. y. mattresses, 375 c. y.
3d-class st., and 7,616 c. y. 4th-class st. placed on
n. j.; 1,361 c. y. 4th-class st. placed on mattresses
previously sunk, and some repairs made on s. j.,
98, 1324. 87,311 c. y. dr., 129 c. y. r. removed, and
a few logs and other obstr. removed, **98**, 1325.

1898-99. 19,316 c. y. dr., 1,237 c. y. r. and 366
logs removed from chan., **99**, 1594.

1900-01. Effective longitudinal j. section
constr., 62,087 s. l., **01**, 1657.

1901-02. 139,277.35 t. large st. and 123,386.24
t. small st. placed, making a total of 192,430.97 t.
large and 192,955.67 t. small st. placed, **02**, 1197.
U. S. dr. removed 114,083 c. y. from chan.; contract
for dr. completed by removal of 47,292.39 c. y.;
128,800 s. f. effective longitudinal j. section constr.;
d. on the bar, 20' m. l. w., 19' inside, **02**, 1197, 1198.
Dr. for this work 59.6% completed; amount in-
volved, \$144,750, **02**, 264.

1902-03. 131,852.92 t. first class, 30,263.65 t.
second class, and 15,131.83 t. third class st. placed
in n. j.; 50,485.93 t. first class, 36,960.48 t. second
class, and 18,480.24 t. third class st. placed in s. j.,
03, 1168. Dr. *Cumberland*, completed during the
year, removed 879,571 c. y., resulting in chan.
100' x 24', **03**, 1168. Condition of js. June 30, 1903,
03, 1169.

1903-04. U. S. dr. *Cumberland* removed 166,479
c. y. (8.14 c. y.); 1,499.91 t. first-class st. placed in
n. j. and 9,121.09 t. placed in s. j.; contract com-
pleted; total amount of st. placed in 2 js., 376,987.02
t. first class, 201,329.17 t. second class, and 100,664.57
t. third class, **04**, 1664. 1,197.9 t. st., 1,500 sand
bags, and 300 c. y. brush placed in n. j. by hired
labor, and work done in closing breach on *Cumber-
land* Isld., **04**, 1665. Condition of works of imp.,
1904, **04**, 1665, 1666.

1904-05. U. S. dr. *Cumberland* removed 59,412
c. y., at 7.7¢ c. y.; work on dike for closing breach
on *Cumberland* Isld. carried on, **05**, 1286, 1287.
Proj. completed as far as d. is concerned, **05**, 1287.

1905-06. 153,941 c. y. dr. from the j. chan. by
the U. S. dr. *Cumberland*, at 7.9¢ c. y.; 21,679.49 t.
st. placed in s. j. to raise and repair it, and 814.55 t.
placed on mound at end of n. j.; 139 t. st. placed in
gap, inner end of n. j.; *Cumberland* Isld. dike pro-
tected by placing sheet piling, brush, and st., and
course of Beach Creek changed by dr. 5,200 c. y.
to form a canal protected by sheet piling, **06**, 1211.
Condition of js., dike, ship chan., and *Fernandina*
H., **06**, 1212. Floating plant repaired, **06**, 1213.

1906-07. Canal to change course of Beach
Creek completed by dr. 1,300 c. y.; dike at *Cum-
berland* Isld. raised by placing brush and st., and a
small spur dam of brush and st. built across slough
near old breach, **07**, 1298, 1299.

1907-08. 186,981 c. y. removed by U. S. dr.
Cumberland in d. and straightening chan. along
n. j., at field cost of 3.8¢ c. y., **08**, 1355. Chan. d.,
08, 344.

1908-09. 29,697.56 t. st. placed in s. j.; outer
end aproned, **09**, 1351.

1909-10. 8,298.6 t. st. used in filling low places
in n. j. and a gap at inner end of s. j., **10**, 406, 1486.

1910-11. 121,214 c. y. excavated by U. S. dr.
Galveston, removing shoals on and adjacent to
center line of ship chan., **11**, 1621, 1622.

1911-12. 47,260 c. y. dr. by U. S. dr. *Galveston*
in removing shoals, practically completing work;
low places in n. and s. js. raised by contractor and
hired labor, **12**, 1843.

PHYSICAL CHARACTERISTICS.

Description of **76**, 446, 447, 482; **79**, 792; **93**,
1600, 1604; **96**, 1287, 1290; **97**, 1529, 1534; **99**, 1595;
01, 333, 1655; **03**, 1188; **07**, 1299; **08**, 1356; **10**,
1487.

Locations of chans. since 1843, **76**, 447, 448, 449.

Tidal observations, **76**, 450, 453, 457, 482; **91**,
1576.

Amount of rainfall, **76**, 457, 458.

Depths at entrance to *Cumberland* Sound, **76**,
462, 463, 465, 466, 469.

Direction and velocity of currents, **91**, 1581, 1582.
Ebb and flood volumes, **91**, 1591.

Borings, **91**, 1596.

Details of chan. d., **12**, 1843.

Cumberland Sound is merely ocean entrance of
Fernandina H.

Middle ground between js., 1912, moving seaward
at usual rate of about 400' an.; 30' curve beyond
bar did not move seaward 1912. Depths, 1912,
23-24, **12**, 520.

PLANS. (See Estimates and Projects.)

By Lt. Col. Gillmore, 1876. Discussion of j plans: Full-height js. extending across the par, **76**, 459-462; full-height js. reaching the crest of the bar, **76**, 462-467; stump js., **76**, 467-471; full-length drowned js., **76**, 471-475; full-length drowned n. j. and full-height s. j., **76**, 475. Duration of the imp. chan., **76**, 475. Lt. Col. Gillmore preferred low js. to high, **76**, 477; recom. neither of these plans for execution, but simply a chan. 13' m. l. w. across the bar, **76**, 483.

PROJECTS. (See Estimates and Plans.)

By Lt. Col. Gillmore, 1879. 2 low js. of riprap st. resting upon a foundation mattress of logs and brush, starting from the shores on opposite sides of the entrance and extending seaward across the bar, with outer ends parallel to each other and from 3,000 to 3,500' apart, designed to give a l.-w. chan. 20'-21'; est., \$2,071,023, **79**, 793; **80**, 965; **86**, 189; **87**, 1191; **91**, 1566, 1573; **92**, 1286.

In 1891 BE fixed the w. between the outer ends of the js. at 3,900', and made the elevation of the s. j. to h. w. throughout its entire length provisional upon failure to secure sufficient d. with lower js., **91**, 1601.

By Capt. Carter, 1895, approved by BE, 1895. For 2 js. of riprap st., with mattress hearing wherever admissible, resting upon a foundation mattress of brush or of logs and brush, starting from the shores on opposite sides of the entrance and extending seaward upon lines so directed that the ends resting in 30' d. at m. l. w. would be parallel to each other and about 3,900' apart, to estab. a m. l. w. chan. across the bar of not less than 19' d. After incl. the above the est. would be increased to \$2,350,000, **96**, 1289.

After receiving a report from Capt. Carter, 1897, recom. commencement under the proj. of dr., sluicing, and the raising of the n. and s. js. under the existing contracts, Congress app. the amount recom. for this purpose, \$50,000, **97**, 1533; **98**, 1324.

SURVEYS. (See Plans.)

Of entrance to sound, au., **79**, 100.

Au. act June 14, 1880; made, 1880, by Lt. Col. Gillmore, **80**, 1036; **86**, 1120; **87**, 1188.

R. on entrance to Cumberland Sound—Sen. Doc. 19, 57th Cong., 2d; **88**, 1052; **89**, 1276; **92**, 1288; **93**, 1596; **02**, 1198.

Lower end of sound and Amelia R., **91**, 1560.

Ex. made, 1894-95, by Capt. Carter, **94**, 1202; **95**, 1511.

Sur. made of the entrance, 1897, by Capt. Carter, **97**, 1528; 1897, by Capt. Gillette, **98**, 1324; and by Lt. Col. Benyard, 1898, **98**, 1325.

Sur. made, 1899, by Capt. McKinstry, **99**, 1594.

Sur. made, 1900, by Capt. Gillette, **00**, 1957.

Complete sur. of entrance, and pre. ex. of Fernandina H., au. act Mar. 3, 1905; made by Lt. Col. Quinn, **05**, 1287.

Complete sur. of entrance and ex. of chan. between js. made; on n. side 24' m. l. w., on s. side 20' m. l. w., **07**, 1299.

Ex. of bar near s. j., Nov., 1907, and complete sur. of entrance May, 1908, **08**, 1355. Sur. of 1908 compared with that of 1857, **08**, 1356.

Of entrance, **09**, 1351.

Of entrance, completed and results platted, **10**, 1486.

Of n. j. to determine low places, **11**, 1622.

Special topographic and hydrographic sur. made, **12**, 1843.

Detailed sur., incl. location of h. and l. w. lines on Amelia Isld. and Cumberland Isld., **12**, 1844.

Cong. docs., etc., relating to exs., sur., plans, etc., **12**, 521.

Maps. Two plates with sketches of proposed js.; profiles and sketches of current directions, etc., **76**, 483; **83**, 934; **85**, 1232; **86**, 1120; **87**, 1188; **88**, 1052; **89**, 1276; **91**, 1561; **92**, Atlas, 60; **93**, 1596; **98**, 1326; **99**, 1596; **02**, 1198; **06**, 1214; **08**, 1356; **09**, 1352.

Part (c), O-501 Fernandina Harbor, Fla.**APPROPRIATIONS.**

1907,	\$115,000,	07 , 1301.
1910,	45,000,	10 , 1488.
1911,	25,000,	11 , 1623.
1912,	15,000,	12 , 1844.

Total, 200,000 (incl. \$6,987.19 carried from imp. Cumberland Sound, Ga., \$206,987.19, **12**, 1844).

COMMERCE.

Description of, **07**, 1301.

"Before the improvement of Cumberland Sound, in 1879, which constitutes the ocean entrance to Fernandina Harbor, the annual in and out bound tonnage at Fernandina was about 300,000 short tons, and the value of imports and exports estimated at about \$2,500,000. The commerce of the port during the calendar year 1911 amounted to 511,133 short tons, with a value of \$10,113,836. The chief articles of export are lumber, phosphate rock, and naval stores.

"The effect of the improvement of Cumberland Sound has been to cause a reduction in freight rates of from 25 to 40 per cent. It has not been practicable as yet to determine what further effect, if any, the improvement of Fernandina Harbor has had upon these rates." **12**, 1844.

CONTRACTS.

1907. North American Dredging Co., dr., 17½ c. y., **08**, 1359.

ENGINEERS.

Chief of Engineers. R., **06**, 312; **07**, 326; **08**, 345; **09**, 357; **10**, 404; **11**, 427; **12**, 518.

In charge:

Lt. Col. D. C. Kingman, 1907-. R., **07**, 1301; (Col.) **08**, 1358; **09**, 1353; **10**, 1486; **11**, 1621; **12**, 1842.

OPERATIONS.

1907-08. 484,761 c. y. dr., **08**, 1358.

1908-09. 46,341 c. y. dr., completing proj.; engineering building repaired, **09**, 1353.

1911-12. Ex. of chan. to ascertain condition, **12**, 1842.

PHYSICAL CHARACTERISTICS.

Description of, **07**, 326.

Lower end of Amelia R. forms deep basin opp. Fernandina; this part of R. known as F. H. L. end connects with Cumberland Sound, and is ¾ m. from bar. H. about 1,300' x 2 m. Sit. 58 m. n. of Jacksonville, and 128 m. s. of Savannah, **12**, 518.

PROJECTS.

By Lt. Col. Quinn, 1905, dr. chan., w. varying 400'-600' and d. from 20'-24' in front of, and to short distance above city; est., \$115,000, with \$15,000 for mainten. every 2 or 3 yrs., **06**, 312; **07**, 326; **12**, 518.

Col. Kingman recom., 1909, further work be combined with Cumberland Sound, **09**, 1353.

SURVEYS. (See Operations, 1911-12.)

Au. act Mar. 3, 1905; made, 1905, by Lt. Col. Quinn, **06**, 312.

Maps. **08**, 1358.

APPROPRIATIONS.

1912, \$19,450, 12, 523.

ENGINEERS.

Chief of Engineers. R., 10, 407; 11, 430; 12, 522, 523.

In charge. Col. D. C. Kingman, 1910- R., 12, 1846.

PROJECT.

Act July 25, 1912, adopted proj. for chan. 17' d

O-510(b) ATLANTIC OCEAN, CONNECTING WITH, VIA WATERWAY ACROSS FLORIDA.

COMMERCE.

Discussion of barge transportation, 77, 383.
C. advantages of barge routes compared with other routes, 77, 394-403.
Statements of freight tariffs, 77, 399, 400, 402.
Dangers of the Florida Pass, 77, 403.
Dimensions of wheat barges, 76, 512; 77, 383.

ENGINEERS.

Chief of Engineers. R., 76, 74, 512; 77, 69; 78, 78; 79, 99.

Boards. The board of internal imps., 1826, reporting upon the results of surs. for canal bet. Atlantic Ocean and Gulf of Mexico, and for canal to connect Mobile and Pensacola Bays, reported ship canal across peninsula (connecting Atlantic with Gulf of Mexico) not practicable; route bet. heads of Santa Fe R. and Black Creek presented best passage across summit of divide; but since the Suwanee R. was much obstr. at mouth, and had no H. at entrance, expedient to continue line of canal from Santa Fe R. to St. Mark, the whole route being 168 m. long, with an ascent and descent together of 224'. In view of inland coastwise navigation from Chesapeake Bay, necessary to open sloop canal from St. Marks to St. Johns. Respecting inland coastwise navigation, St. Marks to Mississippi, it should be rendered secure, safe, and commodious, by: (1) Canal along Crooked Creek, Ocklockony R. to convenient point in St. Georges Sound; (2) cleaning and d. of Santa Rosa Sound at meeting of tides; (3) canal, Bay of Pensacola to Mobile Bay, through the Great Lagoon and R. Bon Secour; (4) d. of Pass au Heron, bet. point of Dauphin Isld. and mainland; canal from Lake Pontchartrain to Mississippi at or near New Orleans, by Bayou Manchac, already proj., 76, 514. (Gen. Bernard, member of the board; Capt. Pousin, assistant to board.)

In charge:

Col. J. J. Abert, 1852; 76, 523, 525.
Capt. C. W. Howell, 1873. R., 76, 512.
Capt. A. N. Damrell, 1873. R., 76, 513.
Lt. Col. Q. A. Gillmore, 1877-79. R., 77, 382.

Assistant. Lt. M. L. Smith, 76, 511. R., 76, 523.

ESTIMATES. (See Plans.)

For route bet. Mobile and Apalachicola, 1833, \$7,000,000, 76, 509.

By Lt. Smith, 1853, canal across Peninsula of Florida, \$3,700,000, 76, 511, 539, 540, 541.

By Capt. Howell, 1873, completing the 7' canal bet. the Mississippi and Mobile Bay, \$250,000, 76, 512.

PHYSICAL CHARACTERISTICS.

Table of distances and heights, 76, 521.
Summit of water supply in Florida, 76, 518, 519, 520, 521, 525; 77, 390, 391.
Loss of water by evaporation, 76, 525, 526, 527; 77, 389.

m. l. w. and 200' w. from mouth to Crandall, a distance of 12 m.; est., \$14,450; and clearing chan. of snags and obstr. as may be practicable with sum of \$5,000, making a total of \$19,450,¹ 12, 522.

SURVEY.

Pre. ex. and sur. au. act Mar. 3, 1909, 10, 407; 11 430. R. by Col. Kingman, May 22, 1909, and Oct. 28, 1910; est., \$19,450,¹ 12, 523.

Loss from filtration, 76, 527, 528; 77, 386.
Leakage at lock gates, 76, 528; 77, 389.
Amount required for lockage, 76, 529; 77, 388, 389.
An. requirements, 76, 531, 536.
Source of water supply, 76, 53; 77, 384, 385, 386, 390, 391.
Rainfall, 76, 532, 533; 77, 390.
Supply of water from infiltration, 76, 534, 535; 77, 386, 389, 391.
Dangers of the Florida Pass, 77, 403.

PLANS. (See Estimates.)

By board of internal imps., 1826, canal connecting St. Marys and St. Marks Hs., thence by inland water communication to the Mississippi, 76, 514, 516, 517, 518, 522. (See Board of Engineers.) Practicability of route dependent on permeability of soil, 76, 520. Comparison of St. Johns and St. Marys routes, 76, 521. Board recom. St. Johns route, 76, 521. Ship canal to connect the Atlantic with the Gulf of Mexico through the peninsula not practicable, 76, 522. For a coast navigation from St. Marks to the Mississippi, 76, 522.

By Lt. Smith, 1852, canal across the peninsula of Florida, 76, 511. Discussion of routes, 76, 523, 524, 537, 541, 542, 543. Route recom. from St. Johns to Tampa Bay, 76, 538; 31 locks required, 110' w. and 16' d., with 8' lift, 76, 540, 541. Lt. Smith suggested St. Marys H. as most natural e. terminus. 76, 543.

By Capt. Howell, 1873, canal 7' d., Mississippi R. to Mobile Bay, 76, 512, 513.

By Capt. Damrell, 1873, canal 100' x 9', Mississippi to Apalachicola, \$7,000,000, 76, 513, 514.

By Brig. Gen. Humphreys, 1876, discussion of plans for a canal, Mississippi to the Atlantic, via peninsula of Florida, 76, 508-511.

By Lt. Col. Gillmore, discussion of plans for a canal, Mississippi, across Florida, to Atlantic, 77, 383, 387, 388, 389, 394. Canal with 9' d. and 80' w. at bottom, 77, 383, 388. Reclaiming land of Okefenokee Swamp, 77, 392, 393. Feasibility of ship canal more problematic than barge canal, 77, 393. Discussion of plan for a ship canal, 77, 394.

Lt. Col. Gillmore recom. detailed sur. to determine feasibility of proj., 77, 404.

SURVEYS.

In 1826, canal bet. Atlantic and Gulf of Mexico across Florida; one from St. Marys R. to Apalachicola R. or Bay; also one from St. Johns R. to Vassalousa Bay, 76, 509.

In 1833, ex. of water communication, Mobile to Pensacola Bay, 76, 508.

Ship canal across Florida from St. Johns R. to Tampa Bay, 1852, 76, 511, 523.

Ex., 1876, ship canal, mouth of St. Marys R., through Okefenokee Swamp, to Gulf of Mexico, 77, 382.

Ship canal St. Marys R. to Gulf of Mexico, 78, 78; 79, 99, 100.

¹ H. D. 697, 62d, 2d.

O-510(c) ST. MARYS RIVER TO GULF OF MEXICO, FLA. (Canal.)

COMMERCE.

C. importance of canal, 80, 976.
Probable resources of canal, 80, 981.

ENGINEERS.

Chief of Engineers. R., 80, 132.
In charge. Lt. Col. Q. A. Gillmore. R., 80, 973.
Assistant. S. L. Tremont. R., 80, 994.

PHYSICAL CHARACTERISTICS.

Elevations above sea level, 80, 975.
Results of borings, 80, 976.

PLAN.

By Lt. Col. Gillmore, 1880, ship canal (map, 80, 1006) 80' wide at bottom and 180' at water line, 25' deep, with double locks 500' long and 65' wide, 80, 986; est., \$50,278,746; 80, 994, 1009.

SURVEY.

Au. act June 18, 1878, 80, 132; made by Col. Gillmore, 1878 (see Plans), 80, 973.
Maps. 80, 1006.

Slattery, 1912-. **R.**, **12**, 1884.

Assistants:

J. W. Sackett, **99**, 1621.Lt. E. M. Markham, **01**, 335.Lt. E. M. Rhett, **01**, 335; **02**, 265.

OBSTRUCTIONS.

Lower br. trusses prevent a free flow of the masses of hyacinths, **99**, 1619.

OPERATIONS.

Experiments made, 1898, to discover the action of various chemicals on the life of the plant, **99**, 1620.1900-01. Experiments made with chemical process of destroying plants, **01**, 1746-47. Test of mechanical device, **01**, 1747-48.1902-03. SS. *Le Reve* purchased and fitted up with spraying apparatus; 2,910,000 s. y. of

* Allotment.

** Gulf of Mexico.

¹ Reports of sur. rendered Feb. 19, 1829; Mar. 6, 1832; May 1, 1855. **R.** (fav.) of ex. made Apr. 3, 1876. Sur. made 1880; **R.** Apr. 6; est. \$50,000 would be required. (H. R. D. 482, 55th, 2d.)² H. D. 421, 57th, 2d.³ Including \$5,000, 1897.

hyacinth growth destroyed in St. Johns R. and tributaries, **03**, 1185. Experiment made to determine injurious effect on cattle from eating the sprayed plants, **03**, 1185-86.

1903-04. 11,233,982 s. y. of hyacinths destroyed in St. Johns R. and tributaries, **04**, 1712.

1904-05. 6,977,000 s. y. of hyacinths destroyed in St. Johns R. and tributaries, **05**, 1318.

1905-06. Experiments made in attempt to find chemical process for destroying plants which would not be injurious to cattle; unsuccessful, mechanical process adopted; 8 m. of Withlacoochee R. and 10 m. of Kissimmee R. cleared by breaking up packs and allowing them to float away. Many inlets and sloughs closed with log booms, **06**, 1234.

1906-07. 3 m. of Withlacoochee R. and 5 m. of Kissimmee R. cleared of obstr. by mechanical means, **07**, 1333.

1907-08. About 433,660 s. y. of plants cleared from tributaries of St. Johns R., **08**, 1393.

1908-09. Hyacinths cleared from various streams; amount not stated, **09**, 1383.

1909-10. Portions of various streams cleared. A gasoline-driven hyacinth elevator was constr. and operated, removing 156 acres of plants in St. Johns R. and tributaries, **10**, 1529.

1910-11. 410 acres of plants removed from St. Johns R. and Black Creek by hyacinth elevator, **11**, 1668.

1911-12. Repairs to elevator, **12**, 1884.

PHYSICAL CHARACTERISTICS.

Description of plant and its effects, **99**, 1616.

R. on experiments made to find suitable chemical for spraying plants. Effect of this chemical on animal life, **03**, 2433.

R. of Maj. Shunk on experiments for destroying water hyacinths by chemical means which would not be injurious to cattle, **06**, 1235.

PROJECTS.

BE., 1897, est., 1898, \$36,000 to remove the water hyacinth from the navigable waters of Florida and Louisiana; add'l an. app. would be needed to keep the waters free from this plant, **99**, 1621.

By **BE.**, 1897, for removing plant; cost, boats, \$25,000; log booms, \$1,000; and operating expenses, \$10,000, **99**, 1621; **00**, 1885.

Proj. modified by act June 13, 1902, to permit use of funds therein and theretofore app. for exterminating or removing the plants by chemical or any other methods, **02**, 273.

Est. by Capt. Shunk that not less than \$150,000 per year would be needed for operating expenses, **03**, 1185.

Act Mar. 3, 1905, app. \$25,000, provides that no chemical process injurious to cattle which may feed upon the water hyacinth should be used. Recom. that Dept. of Agriculture undertake experiments to determine effect on cattle of solution in use (arsenic and soda), **05**, 1318.

Experiments, 1906: No suitable chemical process for destroying plants without injury to cattle having been found, plan recom. to close inlets, sloughs, etc., with booms, and to break up the packs of plants with a suitable boat and propel them with the current in order to insure their floating away, or be able to place them ashore, **06**, 1239; **12**, 566.

SURVEYS.

Investigation of the hyacinth question in the States of Fla. and La. au. act June 4, 1897 (see Board of Engineers; Projects), **99**, 1615.

Cong. docs., etc., relating to exs., surs., plans, etc., **12**, 566.

Part (c), P-1 Louisiana Waters. (Removing water hyacinths from.)

APPROPRIATION.

1899, \$36,000, **99**, 1855.

CONTRACTS.

1899. E. E. Wood, stern-wheel SS., \$8,000; Johnson Iron Works (Limited), furnishing and installing machinery on boat, \$4,750; F. B. Williams, log boom at mouth of Bayou Teche, \$950, **00**, 2271.

ENGINEERS.

Chief of Engineers. **R.**, **97**, 25; **98**, 35; **99**, 332; **00**, 377; **01**, 395; **02**, 327.

In charge:

Maj. J. B. Quinn, 1899. **R.**, **99**, 1855.
Maj. H. M. Adams, 1900. **R.**, **00**, 2270.
Lt. E. M. Adams, 1901. **R.**, **01**, 1906.
Lt. Col. H. M. Adams, 1902. **R.**, **02**, 1347.

Assistants:

Lt. E. M. Adams, 1901-02. **02**, 310.
Lt. P. S. Bond, 1902. **02**, 310.

OPERATIONS.

1900-01. 188,000 sq. yds. plants removed from Bayou Plaquemine by crushing apparatus, **01**, 1906.

PROJECTS.

By **BE.**, 1897, expending \$25,000 for boat and machinery suitable for raising the plants and crushing them; \$1,000 for log booms across the mouths of small streams to prevent the drift of the hyacinths into the larger Rs. and bayous, and \$10,000 for conducting operations, **00**, 2270.

Subproj., 1899, provided boom at the mouth of Bayou Teche, La. (one of the principal navigable streams affected by the hyacinths), with a gate arranged to allow the hyacinths to float out with outgoing tides and to prevent their return, **00**, 2270.

Act June 13, 1902, au. extension of operations for removal of water hyacinths to include navigable waters in State of Texas; also au. use of chemicals, **02**, 327, 3172.

Part (d), P-1 Louisiana and Texas Waters. (Removing the water hyacinth from.)

Assistants:

1st Lt. W. Willing, 08, 431; 09, 439.
 1st Lt. R. R. Ralston, 09, 439; (Capt.) 10, 489.
 1st Lt. R. P. Howell, jr., 11, 526; (Capt.) 12, 645.

OPERATIONS.

1902-03. SS. *Ramos* filled with spraying machinery destroyed 3,690,662 sq. yds. of plants in Bayou Plaquemine, Grand R., Bayou Natchez, Grosse Tete B., Grosse Tete Bayou, and Chocolate Bayou, using the Harveta chemical compound, 03, 1313. Repairs made to log boom at mouth of Bayou Teche, 03, 1314.

1903-04. 1,818,362 sq. yds. of hyacinths sprayed; repairs made to SS. *Ramos*, 04, 1913.

1904-05. SS. *Ramos* operated in Bayou Plaquemine and other waters and effectively cleared them of hyacinths, 192,442 gal. of chemicals being used, each gal. est. to destroy 12 sq. yds. of plants; use of Harveta-chemical discontinued and more economical mixture substituted during latter part of year; booms constructed at various points and watchmen maintained; extensive repairs and imp. to SS. *Ramos*; work of equipping a second boat commenced, 05, 1477.

1905-06. Spraying continued in Plaquemine-Morgan City water route until Oct., 227,292 gals. chemicals being used; SS. *Ramos* fitted with apparatus for burning oil fuel, and minor repairs made; second boat (*Hyacinth*) built and equipped by hired labor at a cost of \$3,900, for use in streams of sw. Louisiana and Texas; booms operated during part of year, 06, 1325.

1906-07. SS. *Ramos* and *Hyacinth* operated in Plaquemine-Morgan City water route, and other localities in Louisiana and Texas, 212,118 gals. of chemical compound being used; booms operated during portion of year; repairs made to SS. *Ramos*, 07, 1450-51.

1907-08. SS. *Ramos* and *Hyacinth* operated in various waters, effectively clearing them, 631,858

gals. compound being used, each gal. est. to destroy 10 sq. yds.; minor repairs to SS. *Hyacinth*; booms operated part of year at Bayou des Allemands and Bayou Plaquemine, 08, 1504-05.

1908-09. SS. *Hyacinth* operated in various waters, and 2,979,090 sq. yds. of hyacinths removed by spraying and use of boats and booms, 143,079 gals. chemical compound used; repairs and alterations to SS. *Hyacinth*; booms operated during a portion of year, 09, 1484-85.

1909-10. SS. *Hyacinth* operated in various waters spraying plants and placing additional booms, 148,149 gals. compound used; additional improvised outfit furnished by local interests used in Spanish Lake; system of patrols estab. on lower Vermilion; repairs and imp. to SS. *Hyacinth*; watchmen employed at certain booms, 10, 1625-26.

1910-11. SS. *Hyacinth* operated in various waters spraying plants and placing booms; 189,770 gals. compound used, destroying 1,897,700 sq. yds. plants; operation of improvised equipment in Spanish Lake continued, similar equipment used in Bayou Vermilion, 11, 1768.

1911-12. 1,550,000 sq. yds. plants destroyed, using 155,264 gals. solution, 12, 1986.

PHYSICAL CHARACTERISTICS.

Action of chemical compound found to be ineffective during cold weather, 03, 1313.

H. w. in spring of 1903 cleared nearly all of the hyacinth-infested streams of most of the plants, 03, 1313.

Bayous Plaquemine and Grosse Tete, where there is absence of R. current, are breeding places for hyacinths which later on obstr. lower streams, 03, 1313.

Unusual h. w. during 1905 in streams of sw. Louisiana and Texas made it unnecessary to destroy hyacinths which had been troublesome in 1904, 06, 1325.

Mississippi R. flood in 1912 carried most of hyacinths into Gulf of Mexico, 12, 1987.

PROJECTS.

Act June 13, 1902, au. extermination of plants by chemical or other means, 03, 1312-13.

Proj. approved Aug. 1, 1902, au. use of available funds for destruction of plants in Bayou Plaquemine, Grand R., Flat Lake, and Bayou Natchez, La., modified Sept. 26, to permit of necessary repairs to log boom at mouth of Bayou Teche and its operation for 2 years, 03, 1312-13.

Proj. approved Aug. 19, 1902, au. equipping SS. *Ramos* with spraying apparatus for destruction of plants by chemical means, 03, 1312-13.

Proj. of 1905 au. continuance of spraying operations in Plaquemine-Morgan City water route, and outfitting a second boat for operations in Calcasieu R., La.; Sabine and Neches Rs., Tex., 05, 1477.

Plants can not be eradicated within reasonable cost without cooperation of local au.; even then a long and difficult process, 12, 681.

Part (e), P-1 Texas Waters. (Removing the water hyacinth from.)

APPROPRIATIONS.

1907, \$3500, 08, 1521.

ENGINEERS.

Chief of Engineers. R., 08, 457; 09, 477.
 In charge. Capt. J. C. Oakes, 1907-09, R., 08, 1521; 09, 1500.

OPERATIONS.

1907-08. Supervision of work done by city of

Galveston in clearing Buffalo Bayou of hyacinths, 08, 1521.

PRIVATE WORK.

Buffalo Bayou, Tex., cleared of hyacinths by men with boats employed by city of Houston, Tex., working under supervision of U. S. Engr. Dept., 08, 1521.

City of Houston removed numerous scattered bunches of hyacinths from vicinity of Houston, 09, 1500.

Est. that imp. has maintained rates to n. points 100% less than otherwise would have been, 05, 290.

Were it not for imp. rates from Florida to n. points would be 50% greater than they are, 07, 329.

Decrease in lumber shipments, but great increase in cotton, tobacco, and other merchandise; also great increase in foreign trade, 09, 360.

Diagram showing C. and app., 12, 1851.

1911, 1,790,498 t., 12, 1851.

"The commerce for the fiscal year 1911 amounted to 1,790,498 short tons, valued at \$56,865,789, consisting of coal, cement, fertilizers, fertilizer materials, fruits, lumber, merchandise, phosphate, oils, steel rails, vegetables, etc. The increase in tonnage over the preceding year amounted to only 1.5 per cent. One steamer line was established during the year, an intracoastal line to Fort Pierce, and one line was abandoned, the Roome Line to Miami.

"The post-office receipts during 1911 were \$476,299.27 and the bank clearings \$146,740,819.23.

"Were it not for the improvement, freight rates from Florida to northern points would be 50 per cent greater than they are.

"The work on previous projects has resulted in establishing favorable rates for this port, which permit it to reach far into the Middle West. In its incomplete state the present project can not be

said to have had any effect on freight rates nor on the establishment of new business, though in anticipation of deeper water the farseeing men in the city are striving to have adequate terminals to handle the large business which is expected with the completion of the project." 12, 527.

CONTRACTS.

1870. C. H. Campbell, dr., \$1,200 month, 70, 63; 72, 665; annulled, 71, 70.

1875. American Dredging Co., dr., 24¢ c. y., 76, 445.

1880. Lara Ross & Co., j. constr., 81, 1132.

1881. J. H. Durkee, j. constr., 81, 1133.

1882. A. A. Howlett, j. constr., 83, 946.

1885. A. A. Howlett, j. constr., 85, 1250.

1886. J. A. Bryan, dike constr., \$7.22 l. f., 87, 1210. R. Moore, mattress and st., 45¢, \$2.45 s. y. and t., 87, 1215.

1889. R. G. Ross, st., \$2.14 to \$2.35 t.; oyster shell, \$1.25 c. y.; and brush mattress, 74¢ s. y., 89, 1305.

1890. M. Conant, j. constr., \$126,420, 91, 1617.

1891. J. Satterlee, st., \$4.17 t., 91, 1618.

1892. J. H. Hathaway & Co., mattresses, 75¢ s. y.; st., \$2.09, \$2.49, and \$4.30 t. (\$402,650), 93, 1618.

1896. R. G. Ross, st., \$2.24 and \$2.64 t., 97, 1549.

1899. R. G. Ross, st., \$2 and \$2.33 t. (\$207,760), 00, 1971.

1903. Coastwise Dredging Co., dr., 21.5¢ c. y. (contract annulled, 04, 1686); R. G. Ross, j. constr., st., \$2.22 and \$2.13 t., 03, 1177. R. G. Ross, training wall constr., unit prices; F. C. Blackmer and David Warrington, constr. of hull for dr., \$12,305, 04, 1689.

1904. North American Dredging Co., dr., 8.23¢ c. y., 05, 1294.

1906. North American Dredging Co., dr., 9.9¢ c. y., 06, 1217. R. G. Ross, removing r., \$4.33 c. y.; other material, 22½¢ c. y., 08, 1364.

1907. R. G. Ross, work on n. j., 07, 1308.

1909. Blackstaff Engineering Co., j. work, st., \$2.14 t., 10, 1495. R. G. Ross, dr.; sand and mud, 14¢; coquina, 40¢ c. y. R. G. Ross, hire of dr. plant, \$415 day, 10, 1496.

1910. R. G. Ross, for 24,100 sq. yds. mattress, 53,600 c. y. oyster shells, 19,050 t. first-class st., and 14,500 c. y. 2d-class st. (prices given); also for hire of dr. plant for about 12 mo., \$470 day, 11, 1632.

1911. Bowers Southern Dredging Co., dr. 5,486,200 c. y., 10.4¢ c. y., 11, 1632. P. Sanford Ross (Inc.), dr. 65,000 c. y., 74¢ c. y., and furn. 6,200 t. st. for capping, \$2.95 t., 12, 1850.

ENGINEERS.

Chief of Engineers. R., 69, 47, 270; 70, 63; 71, 70; 72, 65; 73, 70; 74, 78; 75, 83; 76, 70; 77, 68; 78, 78; 79, 98; 80, 131; 81, 178; 82, 173; 83, 183; 84, 190; 85, 191; 86, 190; 87, 154; 88, 143; 89, 165; 90, 147; 91, 185, 195, 1666; 92, 182; 93, 199; 94, 182; 95, 208, 222; 96, 186; 97, 238; 98, 234; 99, 269; 00, 307; 01, 335; 02, 265; 03, 271; 04, 280; 05, 288; 06, 312; 07, 328; 08, 347; 09, 359; 10, 407; 11, 430; 12, 524, 570, 571.

Boards. Convened, S. O. No. 44, dated Oct. 14, 1895, at St. Augustine, Fla., Dec. 19, 1895, to consider imp. of St. Johns R., Fla. R., 96, 1309. (Col. F. C. Hains, Maj. T. H. Handbury, Capt. W. M. Black, Capt. F. V. Abbot, Capt. O. M. Carter, and addl. 2d Lt. H. Burgess.)

In charge:

Lt. H. G. Wright. R., May 24, 1853, 78, 581.
Maj. Q. A. Gillmore, 1869-85. R., 69, 266, 271; 72, 662, 672, 674; 73, 749; 74, ii, 8-11; 75, ii, 37, 48,

60; 76, 445; 77, 378; 78, 580; 79, 765-767, 795; (Col.) 80, 970; 81, 1127; 82, 1189; 83, 940; 84, 1126.

Capt. W. T. Rossell, 1885-86. **R.**, 85, 1243.
Capt. W. M. Black, 1886-92. **R.**, 86, 1125; 87, 1207; 88, 1079; 89, 1298; 90, 1549; 91, 1612, 1667.
Maj. J. C. Mallory, 1892. **R.**, 92, 1349.
Lt. A. M. D'armit, 1893. **R.**, 93, 1613.
Maj. T. H. Handbury, 1894-95. **R.**, 94, 1211; 95, 1529, 1560, 1586.
Lt. Col. W. H. H. Benyaurd, 1896-98. **R.**, 96, 1305; 97, 1547; 98, 1327, 1343.
Capt. C. H. McKinstry, 1899. **R.**, 99, 1597.
Capt. T. H. Rees, 1900-01. **R.**, 00, 1967; 01, 1733.
Capt. H. Deakyn, 1902. **R.**, 02, 1201.
Capt. F. R. Shunk, 1903-07. **R.**, 03, 1173; 04, 1685; (Maj.) 05, 1291; 06, 1215; 07, 1305.
Lt. Col. L. H. Beach, 1908. **R.**, 08, 1361.
Capt. G. R. Spalding, 1909-11. **R.**, 09, 1355; 10, 1491; 11, 1627.
Capt. J. R. Slattery, 1912-. **R.**, 12, 1847.

Assistants:

Capt. J. C. Post, 77, 66. **R.**, 77, 66, 378; 82, 1195; (special **R.**) 83, 949.
G. Daubeney. **R.**, 79, 785, 796.
Lt. W. L. Fisk. **R.**, 81, 1133.
Lt. W. T. Rossell. **R.**, 83, 946; 84, 1132.
J. H. Bacon. **R.**, 89, 1306; 90, 1558; 91, 1618; 93, 1619; 94, 1215; 98, 1345.
E. A. Gieseler. **R.**, 92, 1357; 93, 1623.
Lt. D'armit. **R.**, 95, 1595.

ESTIMATES. (See Plans and Projects.)

By Lt. Col. Gillmore, 1875: (1) inside passage, St. Johns R. to Ferdinandina; chan. 13' x 125' h. w., \$370,000; (2) if 11' x 125', \$265,000; (3) if 13' x 80', \$225,000; (4) if 11' x 80', \$160,000. No. 4 recom. by Lt. Col. Gillmore, 75, ii, 59.
By Lt. Col. Gillmore, 1879: (1) js. at mouth of R., \$1,306,409; (2) dr. in connection with js., \$120,000; (3) n. j., if completed in 3 years, \$800,000, 79, 784, 785.

OPERATIONS.

1870-71. Dr. of chan. 10' x 80', 71, 70.
1871-72. Removal of 40,764 c. y.; chan. 10' x 150' x 2,400' y., 72, 66, 671.
1872-73. Removal of 23,888 c. y. by dr., 73, 70, 750.
1873-74. Removal of 14,649 c. y. by dr., 74, 74, ii, 9, 12.
1875-76. Removal of 28,973 c. y. from inside passage, 76, 70, 446.
1876-77-78-79. Operations practically suspended; ex. of chan., 1876, 77, 69, 378; and occasional dr. on the bar by the *H. Burden* in 1878-79, 78, 78, 580; 79, 88, 766. Description of operations by the dr. SS. *H. Burden*, 72, 666-669; 73, 750; 74, ii, 11; 75, ii, 37.
1880-81. Work commenced by partial constr. of 2,786' of s. j., 81, 1128.
1881-82. Apron foundation of s. j. extended 2,027' and portions of 2d, 3d, 4th, and 5th courses laid; 8 spur js. built from s. j., averaging 60' in l.; 1,115' of n. j. foundation course laid, 82, 1191, 1192.
1882-83. Orig. foundation course of s. j. enlarged by 2,113 l. f. of mattress revet.; j. raised by add'l st. and mattress courses, aggregating 2,119'; 13,100 c. y. riprap deposited on j., 83, 942, 944.
1883-84. 1,950 l. f. of apron mattress laid on n. side of s. j. and s. side revet. extended 400', 84, 1128.
1884-85. 16,312 c. y. of st. and 52,037 s. y. of mattress placed in s. j.; 3,699 c. y. of st. and 16,712 s. y. of mattress placed in n. j., 85, 1247.
1885-86. 1,339 l. f. of mattress work placed in line of j. and ballasted with 3,911 c. y. of st., 86, 1127.
1886-87. 11,265 t. of st. and 16,470 s. y. of brush mattress used in dike and j. constr., 87, 1209-1212.
1887-88. 7,204 c. y. st. and shell used in the s. j.; 12,000 s. y. of mattress, 21,951 c. y. st., and 2,309 c. y. shell placed in the n. j.; also 286 c. y. concrete, 88, 1081.

1888-89. 19,361 t. of st., 1,522 c. y. oyster shells, and 20,000 s. y. of brush mattress placed in the n. j., 89, 1299.

1889-90. 13,000 s. y. brush mattress, 21,151 t. st., and 3,482 c. y. oyster shells placed in n. and s. js., 90, 1551.

1890-91. 4,240 c. y. dr., 3,731 c. y. st. placed in s. j., and 14,783 s. y. of brush mattress and 7,857 c. y. st. placed in n. j., 91, 1613.

1891-92. 14,586 s. y. mattress, 13,344 c. y. of st., and 849 c. y. shell placed in s. j., and 10,773 s. y. of mattress, 10,663 c. y. st., and 494 c. y. shell placed in n. j.; also 227 c. y. concrete coping laid, 92, 1351. In 1892 the s. j. had been completed to 8,293', and the n. j. to 10,991', 92, 1352.

1892-93. 22,894 s. y. mattresses, and 12,182 c. y. st. placed, 93, 1616.

1893-94. 69,119 t. st., and 15,673 s. y. mattresses placed in the js., 94, 1213.

1894-95. 61,223 t. st. placed in the js., 95, 1531.

1896-97. 22,130 t. st. placed in s. j., 97, 1548.

1897-98. 30,700 t. st. placed in js., 98, 1327.

1899-00. 17,311 t. st. placed in n. j., and 94,220 c. y. dr., 00, 1968.

1900-01. 56,756 t. st. placed in n. j., 01, 1734. 16,425 c. y. dr. from mouth and 149,146 c. y. above mouth, 01, 1735.

1901-02. 84,428 t. st. placed in n. j. and 83,719 c. y. dr., 02, 1202.

1902-03. 231,478 c. y. dr. and 2,791 t. st. placed in n. j., 03, 1174.

1903-04. 245,287 c. y. dr.; 145,027 t. st. placed in js.; 37,165 s. y. mattress, 32,034 c. y. st., and 293 c. y. shells placed in training walls, and 2,741 c. y. material removed from old work and placed in new, 04, 1686, 1687.

1904-05. 153 s. y. mattress, 33,248 c. y. st., and 28,612 c. y. shells placed in training walls and walls completed; 1,539,763 c. y. dr.; new machinery placed in dr. Jacksonville and new dr. St. Johns received, 05, 1292, 1293.

1905-06. 1,658,694 c. y. dr., and 2,037 c. y. coquina reef, 4,476 c. y. r., 117,155 c. y. sand and clay and 1,100 c. y. r. and clay removed, 06, 1215, 1216.

1906-07. 1,888,975 c. y. dr., 7,420 c. y. r. and 69,688 c. y. other material removed, and 2,410 c. y. st. placed in n. j., 07, 1305, 1306.

1907-08. 8,137 c. y. r. and 6,935 c. y. other material removed, 08, 1361; 337,213 c. y. dr., 08, 1362.

1908-09. 153,067 c. y. dr., 09, 1355. Bowlders removed from Trout Creek, 09, 1356.

1909-10. 16,898 c. y. st. placed in js.; 694,943 c. y. dr.; 4,788 s. y. mattress and 3,981 t. st. placed in revet.; 15,101 c. y. mattress, 19,911 c. y. shells, 6,620 c. y. r. placed in Mile Pt. training wall; 24,156 c. y., mostly r., removed from Trout Creek, and 3,215 c. y. from opposite Jacksonville placed in training wall; 8,300 l. f. mattress foundation for training wall laid and ballasted, 2,600 l. f. wall completed to m. l. w., and 1,000 l. f. more built up 5' above bottom; 133,475 c. y. dr. by U. S. dr., 10, 1491, 1492, 1493.

1910-11. 878,115 c. y. dr. under contracts, and 821,321 c. y. by U. S. dr. *St. John*; 25,000 c. y., mostly r., dr.; 24,200 s. y. mattress, 41,021 t. st., and 45,981 c. y. shells placed in training walls; 886 s. y. mattress and 1,928 t. st. placed in js.; training walls and dams nearly completed under contracts. Portions of chan. completed to proj. w. and d., other portions to full d. for about one-half the proj. w., 11, 432, 1628-30.

1911-12. 28,956 c. y. dr. from Mayport cut under contract with R. G. Ross. 827,147 c. y. removed, under contract, to 30', and 86,156 c. y. between 30' and 32'; submerged wreck of a lighter found in Browns Creek cut and removed by contractor for dr.; 68,267 c. y. oyster shells dr. and placed in protection wall, and 2,997 t. st. placed in capping, 12, 1848. 7,328 c. y. r. and soft material removed and 2,860 c. y. of this material was placed in protecting wall from Isle of Content toward New Berlin; U. S. dr. *St. John* removed 926,746 c. y. from 4 cuts; U. S. dr. *Key West* removed 208,401 c. y. from 2 cuts, 12, 1849. 5,545' core wall built and capped with heavy st. for 3,000', 12, 526.

PHYSICAL CHARACTERISTICS.

Described, 69, 266, 269; 72, 662, 673; 75, ii, 48-51, 55, 58; 78, 581, 582, 585; 94, 1213; 95, 1532, 1561, 1588, 1593; 96, 1311; 97, 1548; 98, 1328, 1344; 99, 1597.

List of obstructions, 75, ii, 51.

Inside passage, 77, 378; 78, 78.

Current observations, soundings, discharge of stream, etc., 79, 768-781, 785-792.

Tables of velocities, 79, 775, 778, 779, 788.

Tables of discharges, 79, 776-779, 788, 790.

Description of upper St. Johns, 79, 796.

Tidal observations, 88, 1085; 89, 1301; 90, 1561; 93, 1623; 95, 1592.

Density of water and sediment, 89, 1302.

Velocity of current, 89, 1306; 90, 1558.

Low-water cross-sectional areas and mean d. at the mouth of the St. Johns R. from 1883 to 1892, 92, 1358; 93, 1644.

Tidal data, 92, 1360, 1362.

Surface areas of St. Johns R., 92, 1361.

Rainfall observations, 79, 780; 93, 1628, 1641-2.

St. Johns, the principal R. in Florida, 95, 1561.

Changes in chan. and bar, 01, 1734, 1735.

Shoaling beyond end of js., 09, 1356.

Increased size and speed of Ss. causing banks to wash down; chan. over outer bar increasing in cross section, especially in d., 09, 360.

Storm of Oct. 17, 1910, damaged White Shells spoil bank, 11, 1630.

Chan. increasing in d. and w. under natural influences, 11, 432.

Sand movement, 11, 432.

Max. draft, 22.5', 11, 432.

Mean rise in tide, 4', 11, 432.

Length of imp. section, 27.5 m., 11, 432.

Obstr. oyster bank in front of Pilot Town in Mayport anchorage basin, removed, 12, 1849.

PLANS. (See Estimates and Projects.)

By Lt. Wright, 1853, break'r on North Shoal, 78, 584.

For imp., 1854, by means of piers at the mouth; est., \$496,000.

Not recom., the expense being too great and not commensurate with the benefit derived, 69, 267, 268; 72, 664.

By Dr. A. S. Baldwin, a citizen of Jacksonville, for closing the mouth of Fort George Inlet; not approv., 69, 268; 72, 664; 78, 584.

By Maj. Gillmore, 1872, imp. by ship chan., Fernandina to St. Johns R., 29.5 m.; est., \$758,516; 72, 665, 675.

By Maj. Gillmore, 1872, ship chan., Nassau Sound to St. Johns R., 9.75 m.; est., \$602,624, 72 665. These last plans not recom. by Lt. Col. Gillmore, 72, 676.

PRIVATE (COUNTY) WORK.

See Proj. of 1892 below.

Under a proj. prepared by Maj. Mallory to procure by dr. a navigable ship chan. 18' l. w. from Jacksonville, Fla., to the bar of the St. Johns R., Duval County, Fla., provided \$300,000, by means of which 19,265 l. f. training dike built, and 736,291 c. y., p. m., dr., 94, 1216.

PROJECTS. (See Estimates and Plans.)

By Maj. Gillmore, 1869, chan. 10' x 80' m. l. w. at the mouth, by repeated dr. and raking; est., \$10,000 an., 69, 47, 269; 70, 63.

By Maj. Gillmore, 1871, d. chan. by dr. with a steamer with a centrifugal pump, 71, 70; 72, 66, 666.

By Lt. Col. Gillmore, 1874, dr. inside passage between Nassau Inlet and St. Johns R., 74, ii, 11; 75, 84.

By Lt. Col. Gillmore, 1875, imp. of the inside passage, St. Johns R. to Fernandina by chan. 11' x 80' h. w.; est., \$160,000, 75, ii, 59; 79, 98.

By G. Daubeney, 1878, d. Volusia Bar by means of 2 js. to extend to 5.5' to 6' of water, with outer ends 200' to 250' apart, their crests at the level of l. w.; est., \$12,520; for straightening R. above

Volusia Bar by cut-offs, 1,160 y. aggregate l.; est., \$29,000, 79, 797, 798. Lt. Col. Gillmore recom. that j. on w. side be tried first before incurring the expense of 2, and amended est. for js. and cut-offs to \$15,000 and \$35,000, 79, 795, 796.

By Lt. Col. Gillmore, 1879, js. at the mouth of St. Johns R.; n. j. to be 9,400' l., with its inner end on Fort George Isld.; s. j. to be 6,800' l., with inner end on the mainland below Generals Mound; w. between js., 1,600'; both js. to be submerged from shore to a point 2,000' from the sea ends, the rest at the level of half tide; js. to extend to the 16' curve, and to produce a midchan. d. of from 15'-16' m. l. w.; est., \$1,306,409, 79, 784, 785. Increased in 1888 to \$1,426,409, 89, 1298.

In 1891 an increased l. of j. being required to meet the growth of the bar seaward, est. increased to \$1,622,000, 91, 1616.

In 1892 proposed to d. ship chan. in the defective reach, Dames Pt. to Beacon No. 1, by dr., and protection by dikes and shore protection; est., \$324,000. This work is "now" being carried out by means of an app. of \$300,000 made by Duval County. Est. cost of entire imp. increased to \$1,741,000, 92, 1350.

By Maj. Handbury, 1895, chan. 24' x 300' over all shoals, by dr. and training dikes; est., \$600,000; and by the extension of the n. and s. js.; est., \$1,509,750, 96, 1307.

In 1895 the B.E. est. \$500,000 to raise the s. j. so that a practicable 15' d. could be secured, 96, 1311.

Lt. Col. Benysaurd, 1898, est. \$120,000 to constr. chan. 200' x 13' m. l. w. between Jacksonville and Palatka, 98, 1345.

Act June 13, 1902, au. \$150,000 for dr., 02, 1202.

Enlarged to provide for 25' x 400' at Dames Pt., 04, 1686.

Lt. Col. Beach, 1908, increased est. for completing work \$67,000; also est. \$300,000 to restore both js. and maintain dr. chan., 08, 1362, 1363.

By Capt. Spalding, 1909, au. act June 25, 1910, chan. 30' x 300' from Jacksonville to the ocean, following generally the line of the 24' chan., increasing to as much as 600' at bends and through js.; est., \$2,852,000, which includes w. chan. opposite Mayport to 800' in excess of chan. w. to d. of 27' to provide anchorage basin for vessels awaiting favorable weather, 110, 409, 435; 11, 431.

1912, 15,000, **12**, 1853.

Total, 179,040

COMMERCE.

Materially increased, **02**, 267.

13' chan. permits light-draft vessels to load at Palatka with lumber; diminution of d. would probably cause rates to rise; navigation difficulties

on account of insufficient w. at angles and lack of chan. marks, **09**, 363.

1911, 198,293 t., **12**, 1853.

"The existence of the St. Johns waterway has probably had an important effect in keeping down freight rates, but the increase of the channel to 13 feet has not, as far as known, caused any changes in rates.

"This channel, however, permits light-draft schooners to load at Palatka with cypress lumber from the large mills at that place, and a diminution in depth in the channel, requiring lightering of this material to Jacksonville, would, it is thought, raise the freight rates.

"The commerce for the year amounted to 198,293 short tons, valued at \$7,636,633, consisting principally of crate material, fertilizers, fruit, grain,

Total, 87,400

COMMERCE.

In 1911, 203,353 t., 12, 1856.

"The commerce for the year 1911 amounted to 203,353 short tons, an increase of 77.8 per cent over the tonnage for 1910, valued at \$4,548,657, and consisted principally of crate material, fertilizers, fruit, grain, groceries, logs, naval stores, and merchandise. About 75 per cent of the commerce consists of logs. Of the commerce of the river 99,166 tons comes from the Oklawaha River and passes down the St. Johns, only from the mouth of the Oklawaha to Palatka, a distance of 25 miles.

"Towns along the river enjoy materially lower freight rates than points not located on the river, but equal distances from Jacksonville. The differences frequently amount to 50 per cent." 12, 532.

ENGINEERS.

Capt. W. T. Rossell. **R.**, 83, 953.

A. W. Barber. **R.**, 85, 1250.

OPERATIONS.

1880-81. 1,950 l. f. of brush and st. j. built, **81**, 1136.

1881-82. 1,836 l. f. of mattress; bottom course, laid on line of e. j., w. j. extended 256'; 100 piles driven, **82**, 1200.

1882-83. E. j. extended to the bar by addition of 1,623 l. f. of work; 43 guide piles driven, **83**, 952.

1884-85. Broken piling removed, guide piling driven, and 75 c. y. riprap st. placed in e. j., **85**, 1256.

1886-87. Js. raised to l. w. by brush fascines and st., and repairs to guide piling, **87**, 1217.

1888-89. Repairs to pile-fender system, **89**, 1309.

1889-90. 100 c. y. st. placed in w. j., **90**, 1565.

1890-91. 175 t. of r. used in repair of j., **91**, 1628.

1891-92. Repair of j. completed, **92**, 1369.

1892-93. Fender piles repaired, **93**, 1649.

1893-94. 257 c. y. dr., **94**, 1221.

1896-97. 4,242 c. y. dr., **97**, 1550.

1898-00. Two rows of fender piles repaired, **00**, 1978.

1900-01. Fender piles repaired, **01**, 1739.

1904-05. 16,961 c. y. dr. and 38 obstr. removed, **05**, 1296.

1906-07. 23,854 c. y. dr. and 8 obstr. removed, **07**, 1310.

1907-08. 20,354 c. y. dr., **08**, 1367.

PROJECTS.

By Col. Gillmore, narrowing the existing chan. by 2 converging brush and st. js., starting from the shore and extending to the 6' curve in the lake, and with such w. between the ends as would maintain d. of 6' l. w. chan. to be further defined and guarded by rows of fender piles and d. by dr. if necessary; est., \$15,000, **80**, 972. Revised, \$25,000, **86**, 1135; **87**, 1217.

In 1893-94 Maj. Handbury est. \$1,000 required an. for mainten., **94**, 1221.

In 1895-96, Lt. Col. Benyaure, dr. the shoal at the outer ends of the js., **96**, 1313.

Lt. Col. Benyaure, 1895-96, est. \$2,000 would be required an. for mainten., **96**, 1313.

For further reports, see "St. Johns River, Fla., Palatka to Lake Harney."

COMMERCE.

"Present" and prospective C. of R., **91**, 1626; **92**, 1368.

From Silver Spring Run to its mouth celebrated for its scenery, which attracts thousands of tourists every winter. If obstr. were cleared large quantity of produce would be shipped by water which goes at dear rates by rail, **95**, 1538.

Average of 17,000,000' of timber rafted yearly in 4 years, **99**, 1606.

Logging business preceding 1899, the principal industry, but conducted in such a way as to interfere with and obstr. other navigation, **99**, 1604.

Small, mostly excursion SS. during winter months, **05**, 292.

One SS. runs regularly the entire year, and forms only means of communication for adjacent country, **08**, 352.

Revival of interest in R. among business men; completion of proj. would probably have considerable effect on rates, **09**, 366.

2 SS. ply R. regularly, carrying freight, **10**, 415.
1911, 102,206 t., **12**, 1857.

CONTRACTS.

1907. Roland Woodward, hire of dr. plant, \$40 per day, **08**, 1370.

1910. Merrill-Stevens Co., hire of dr., \$60 per day, **10**, 1501.

Tides and tidal flow, 88, 1131, 1149.

Soundings, borings, chan. gauging, measurement of current velocities, and of direction and velocity of winds, 88, 1145, 1153.

Observations on wave action at St. Augustine H., 91, 1635.

Break in shore line by wave action, near groin No. 4, 02, 1209.

PLANS. (See Projects.)

In 1884 Capt. Russell considered that the H. was ample for the existing requirements of C., 85, 1282.

After ex., 1891, Capt. Black did not consider the H. worthy of imp. to the extent of joining a deep-sea chan. through the outer and inner H. bars, 91, 1672.

PROJECTS. (See Plans.)

By Capt. Black, 1887, chan. through the bar at the entrance to St. Augustine H., giving d. of 16' with 2 converging brush and riprap is., one extending from North Beach and the other from St. Anastasia Isld.; est., \$1,467,888, 88, 1142.

Approved by B.E., 1889, with the recom. that \$35,000 be applied to the constr. of st. protection on Anastasia Isld. and North Pt. (Col. Abbot, Lt. Col. Hains, and Capt. Bixby), 89, 1316.

Revised est. of cost submitted, 1893, by Lt. D'Armit, making the total est. cost of the imp. \$95,000, 93, 1654.

By Capt. Deakyn, 1902, timber dam to prevent further erosion near groin No. 4; est., \$6,000, 02, 1209.

SURVEYS.

unsuccessful attempt to open Jupiter Inlet, 10, 1503.

1911-12. 64,563 c. y. dr. from cut-off from Great Pocket to Pecks L., 12, 1857. 1,088 c. y. removed from shoal near Long Pt., 12, 1858.

PHYSICAL CHARACTERISTICS.

Description, 82, 1234; 84, 1146; 85, 1288; 91, 1674.

Description of, vicinity of Negro Cut, 94, 1229; 95, 1544, 1545; vicinity of Jupiter Inlet, 96, 1319; 97, 1568.

Borings, 94, 1229.

Jupiter Inlet closed, 01, 1743; 09, 1363; 10, 1503.

St. Lucie Inlet more than $\frac{1}{2}$ m. w., 11, 1640.

Shoaling, 12, 1857.

I. R. is a shallow sheet of water on e. coast of Fla., between mainland and the Keys, extending from a slight distance n. of Titusville to Jupiter Inlet, 140± m. Avr. w., $1\frac{1}{2}$ m. Not a R., but a tidal sound. Forms part of intracoastal canals along e. coast of Fla. D. before imp., $2\frac{1}{2}'$, 12, 535. St. Lucie Inlet artificial opening made into ocean 1892; cause filling of chan. in sound. Goat Creek, 77 m. from Jupiter Inlet, 12, 536.

PLANS. (See Projects.)

By Col. Gillmore, 1881, enlargement of the section of the existing canal from Mosquito Lagoon to Indian R. to 60' x $4\frac{1}{2}'$; est., \$66,000, 82, 1231, 1232, 1238, 1241; 84, 1143.

Modified in 1884 and est. increased to \$68,800, 84, 1146; 85, 1292.

By Capt. Rossell, 1884, imp. of the entrance to Mosquito Inlet, by js.; est., \$500,000 to \$750,000, 85, 1290.

In 1887 Capt. Black did not consider the imp. of chan. from Haulover on Indian R. to Gilberts Bar worthy of imp., 87, 1261.

In 1891 Capt. Black reported locality worthy of imp. on condition that the Florida Coast Line Canal & Transportation Co. surrender to the U. S. all rights held under State charter, 91, 1675.

PRIVATE (CORPORATE) WORK.

The Florida Coast Line Canal & Transportation Co. up to 1892-93 had dr. 23 cuts across shoals in the R., making a continuous navigable chan. 5' x 50' l. w., 93, 1656.

Description of the work done by the co., 96, 1322.

Citizens of locality in conjunction with U. S. opened Jupiter Inlet, 01, 1743; citizens of locality opened inlet without assistance of U. S., 09, 1363.

84,220 c. y. dr. by Florida Coast Line Canal & Transportation Co. from passage between Jupiter Inlet and Biscayne B., 02, 1211.

PROJECTS. (See Plans.)

By Capt. Black, 1891, continuous chan. 5' x 75' l. w., except in the bends where various w. might

be required, by w. the cuts of the canal co. and making new cuts wherever needed; and for the removal of mangroves in the narrows; est., \$44,000, no money to be expend. until the canal co. should surrender its charter rights along the route of the R., 93, 1656, 1657. A proj. was submitted in 1894 for the expend. of the app. of 1894 for the above work, the work to be done by the U. S. plant; proj. submitted by Maj. Handbury, 95, 1544.

In 1893 Maj. Handbury est. that it would cost \$32,795 to make a chan. 6' x 100' through Negro Cut, and for training wall for its protection; and submitted a proj. for the work, the U. S. plant to do the dr., 94, 1228; 95, 1545.

By Lt. Col. Benyard, 1896, opening at Jupiter Inlet 2' x 40' l. w.; est., \$500, 97, 1554.

Capt. Spalding recom. 1910, that further effort to keep Jupiter Inlet open be abandoned, 10, 1503.

Funds being barely sufficient to make the required w. of chan., Chief of Engineers, July 6, 1911, au. increase of \$20,000 in orig. est. for completion, 11, 1640.

Owing to w. of St. Lucie Inlet, the chan. filled with sand and became impossible to maintain; to obviate these conditions a chan. between Great Pocket and Pecks Lake was dug, 12, 536.

LEGAL PROCEEDINGS.

42.6 acres acquired by U. S. through condemnation proceedings in U. S. Circuit Court; consideration, \$12,780, 05, 1300.

OPERATIONS.

1903-04. 8,609.7 c. y. coral r. placed as heart for proposed break'r 1,080' l. with an average crest w. of 20' at height of m. l. w., 04, 1695.

1904-05. 9,784.1 c. y. coral r. and 4,760.53 t. granite r. placed; and 95,699.8 c. y. soft material and 10,092.4 c. y. r. removed, forming chan. 1,745' l., 6'-14' d., and 120'-200' w., 05, 1300.

1905-06. 2,513.6 c. y. sand, and 32,120.5 c. y. r. removed, and 3,010.3 c. y. coral r. used in closing breach in break'r, 06, 1221.

1906-07. Work under contract with P. S. Ross suspended Aug. 31, 1906, until conditions more fav.; 92.4 c. y. sand and 2,298.8 c. y. r. removed, 07, 1313.

1907-08. 20,726.3 c. y. hearting placed in s. j. and 13,718.5 c. y. in n. j., 08, 1372.

1908-09. 1,556.3 t. hearting and 7,323.28 t. granite capping placed in s. j. and 404.9 c. y. hearting and 3,220.8 t. granite capping in n. j.; 1,298.1 c. y. limest. used torevet s. shore inside of j., 2,403.3 c. y. placed along inner portion of n. j., 09, 1364.

1909-10. 42,170.74 c. y. r. and 9,870.39 c. y. soft material removed, completing chan. 18'-19' x 85' from shoreward to within a distance of 700' of the 20' contour at sea; 372.13 c. y. limest. placed in n. j. to prevent sand movement, and 129.59 c. y. stored for emergency use, 10, 1505.

1910-11. 12,982.2 c. y. soft material and 10,062.32 c. y. r. removed under contract of 1903, and contract completed; 10,148.3 c. y. sand and 22,059.24 c. y. r. removed under contract of 1910; 136 c. y. st. placed in revet. along shore inside n. j., 11, 1642.

1911-12. 2,992.3 c. y. r. and 6,924 c. y. sand removed; 749.1 c. y. st. placed in revet., 12, 1859, 1860.

PHYSICAL CHARACTERISTICS.

Description of, 95, 1567; 97, 1589, 1590, 1591; 00, 2002; 11, 441, 442.

B. located on the e. coast of Florida and near its s. extremity, 95, 1567.

Naturally scarcely practicable for boats drawing 3', 03, 277.

Sides of dr. cut being rapidly eroded by wave action, which is forming a 3' shoal at entrance, 05, 295.

Chan. filled, 1906-7, as rapidly as dr., 07, 1313; 11, 442.

PRIVATE WORK.

The Florida East Coast Ry. Co. to some extent imp. chan. of a tributary of the B., and out into the B. for about 2 m., 97, 1589.

By Florida East Coast Ry. Co., dr. pre. chan. 10.6'-13.4' x 60' for 11,276'; upon completion of work to be performed by ry. co., work will be commenced by U. S., 03, 278; completed chan 10' x 60' across B., 04, 287; dr. 224,603 c. y., completing chan. from wharves at Miami across B. 10'-16' x 90', connecting with work done by U. S., 05, 1300; removed 191,993 c. y. soft material; work to be done by corporate interests about 25% completed, 06, 1221.

F. E. C. R. Co. notified to complete their work, 10, 1505.

PROJECTS.

In 1897 Lt. Col. Benyard est. \$239,000 to \$845,000 to make an imp. according to plans submitted, 97, 1588.

BE. est., 1900, \$1,493,743 for an 18' chan., bottom w. 150', 200', and 300'; and having a basin 400' x 1,200', via Norris Cut, 00, 1987.

By BERR., au. act June 13, 1902, chan. 18', wharves at Miami to the sea, by way of a line entering the sea about 4,000' above Norris Cut; and a basin of same d. 500' x 1,600' adjacent to wharves at Miami; \$50,000 app., and continuing contracts to extent of \$250,000 au., provided Florida East Coast Ry. Co. perform certain work at its own expense, 02, 271, 1212.

N. break'r, 1905, should be extended, and the southern break'r needed, 05, 295.

Act Mar. 2, 1907, modified proj. of 1902, by prescribing a bottom chan. w. of 100' instead of 85', and au. a. j. on s. side of entrance, 07, 333.

Draft of 6' between js., 1909, and proj. of U. S. 90% done, 10, 417.

Act July 25, 1912, modified proj. to provide chan. through cut between B. and ocean 20' x 300'; for refuge basin to 18' d.; extending js., and constr. of dr. plant; est., \$400,000, no work to be done by U. S. unless Florida East Coast Ry. completes its contract, and suitable terminal facilities be provided by city of Miami, 09, 1364; 12, 537.

No practicable chan. at 1911-12, thro. cut, 12, 538.

SURVEYS.

Ex. of the entrance au. act Aug. 17, 1894; made by Maj. Handbury, 1895 (R. fav.), 95, 1567.

Sur. au. act June 3, 1896; made by Lt. Col. Benyard, 1897 (see Projects), 97, 1589.

Ex. and sur. with view to chan. 18' d. from Miami to the sea, by way of Norris Cut, Bears Cut, or Cape Florida Entrance, au. act Mar. 3, 1899; made, 1900, by BE. (R. unfav.; see Projects), 00, 1987.

Au. act June 25, 1910, with view to chan. 20' x 300' through entrance, and of same d. and 150' w. thence to mouth of the Miami R.; made by Cpts. Spalding and Slattery, and plan submitted; est., \$400,000, 10, 1506; 12, 570.

Sur. made having in view amplification of proj., 11, 1642.

Cong. docs., etc., relating to exs., sur., plans, etc., 06, 1221; 07, 333; 11, 443; 12, 538.

Maps.¹ 03, 1182; 05, 1300.

P-200 KEY WEST HARBOR, FLA. (Including entrance thereto.)

APPROPRIATIONS.

1882,	\$25,000,	83,	972.
1886,	2,500,	86,	1145.
1888,	25,000,	88,	1093.
1890,	40,000,	90,	1580.
1892,	75,000,	92,	1376.
1894,	80,000,	95,	1548.
1896,	80,000,	96,	1326.
1898,	25,000,	99,	1611.
1900,	45,000,	01,	1745.
1901,	45,000,	02,	1214.
1902,	100,000,	02,	1215.
1905,	50,000,	05,	1303.
1907,	200,000,	07,	1316.
1911,	25,000,	11,	1645.
1912,	63,000,	12,	1862.

Total, 800,500 (incl. misc., \$800,553.47, 12, 1892).

COMMERCE.

Benefit to C. of imp., 68, 518.
Advantages to follow d. of Northwest Bar, 89, 1336.
Not large and not increasing, but H. important as naval base, 04, 1740.
Existence of nw. chan. has important effect on rates between Key West and Tampa, 06, 319.
1911, 765,000 t., 12, 1863.
Effect of imp. on rates; has lowered water rates; C. increased 74.3% during 1911; total trade by water, 12, 541, 1863.
Through SS. competition Key West has better rates than points farther n. in Fla., which condition is not due to U. S. works, 12, 541.

CONTRACTS.

1883. S. N. Kimball, dr., \$1.30 c. y., 83, 972.

ESTIMATES. (See Plans and Projects.)

By Col. J. H. Simpson, dr. and operating same 4 years, \$165,941, 68, 56, 520. For 2 dr. and operating same 4 years, \$217,272, 68, 56, 520.

OPERATIONS.

1883-84. 15,692 c. y. dr. from the cut through the bar in formation of a cut 15' x 60', 84, 1167; 87, 1221.
1886-87. Sur. of entrance to H., 87, 1221.
1890-91. 1,160 c. y. st. deposited in j., 91, 1641.
1891-92. 26,822 c. y. st. deposited in j., 92, 1375.
1892-93. 2,969 c. y. st. deposited in j., 93, 1659.
1893-94. 20,864 c. y. st. deposited in j. and Pinnacle Rocks removed from the main ship chan., 94, 1231.
1894-95. 16,336 t. st. deposited in js., 95, 1547.
1895-96. 1,000 t. st. deposited, 96, 1326.
1897-98. 14,980 t. st. deposited in w. j., 98, 1372.
1898-99. 28,416 t. st. deposited, 99, 1610.
1899-00. 10,503 t. st. deposited, 00, 1983.
1900-01. Work prevented by bad weather 01, 1744.
1901-02. 97,683 c. y. dr., 02, 1214.
1902-03. Old wharf removed, 03, 1183.
1904-05. 210,509 c. y. dr., 05, 1302.
1905-06. 290,882 c. y. dr., 06, 1223.
1906-07. 48,004 c. y. dr., 07, 1315.
1908-09. 37,162 t. granite capping placed in e. j., 09, 1366. 4 coral reefs removed from chan., 09, 1367.
1909-10. 159,389 c. y. dr., 10, 1507.
1910-11. 161,140 c. y. dr. by U. S. dr. Key West; temp. range marks estab., 11, 1644.
1911-12. 240,441 c. y. dr. to outer shoal across bar, 12, 1861.

PHYSICAL CHARACTERISTICS.

Description of, 68, 518, 521; 87, 1222.
Tidal volumes and velocities, 87, 1223, 1229.
Description of Florida Keys, 88, 1092; 89, 1324.
Current observations, 89, 1333; 90, 1594.
Hurricane of Oct. 15, 1910, destroyed all chan. marks; upon portion of chan. shifted to the w.; available d., 163, 11, 1644.
Least d., 17' for least w. of 200', 12, 1861.
H. consists of pocket in reef protected on e. side by island of Key West and the submerged reef, and on n. and w. sides by the submerged reef. Approx. dimensions, 2 m. x $\frac{1}{2}$ m. 5 entrances. All chan. obstr. by coral heads. Large anchorage area nearby. Key West 516 m. from Jacksonville, 644 m. from New Orleans, and 246 m. from Tampa. See Oper. and Proj. items for phy. data of proj. portion, 12, 539.

PLANS. (See Estimates and Projects.)

By Col. J. H. Simpson, chan. 18' x 300' x 9,000', 68, 56, 519.
By Capt. Black, 1887, dike or break'r along the w. side of the bar; est., \$590,000, 87, 1224, 1226.

PROJECTS. (See Estimates and Plans.)

By Capt. Damrell, 1882, cut 17' x 300' m. l. w., nw. chan.; est., \$140,000, **82**, 1314. Chan. 15' x 60' formed in 1883-84, **84**, 1167; **87**, 1221.

By Capt. Black, 1887, formation and mainten. of chan. across the bar 17' m. l. w., with a dike along its w. side, r. removal and dr.; est., \$608,000, **88**, 1093.

By B.E., 1890, st. j. along the submerged reef on the na. side of the Northwest Passage near its n. end, the j. to be raised approx. to the level of m. l. w.; a w. j. to be constr. if found necessary; est., \$500,000, **90**, 1587; **92**, 1375.

By Lt. Col. Benyaard, 1897, location of a w. j., as provided in the orig. proj. of 1890, **97**, 1556.

By Capt. Shunk, 1904, proposed chan. 30' x 400' through entrance and 2,500' x 1 m. in H.; est., \$10,317,000; also est. on plans by Navy Dept., varying from \$7,151,500 to \$11,367,000,¹ **04**, 1739, 1744, 1746.

Modified by act of Mar. 2, 1907, by au. continuance of work on existing js. or the building of training walls, at discretion of Sec. of War; no est., **07**, 334.

By Lt. Col. Beach, 1908, expend. of \$125,000 of 1907 app. in raising e. j., balance to be reserved for dr., **08**, 1374.

Act May 28, 1908, au. expend. of \$5,000 in removing coral reefs from ship chan., **08**, 1374.

Lt. Col. Beach, 1908, did not consider H. worthy of imp. beyond that contemplated by existing proj.,² **08**, 369.

Capt. Spalding, 1909, of opinion that results of work warranted adoption of more comprehensive plan of imp., that of providing chan. which could be utilized by Gulf C., **09**, 1367.

Act July 25, 1912, au. d. and w. of main ship chan. at entrance and at Triangle Shoals, to give chan. 30' x 300', and au. removing shoals in anchorage;³ est., \$48,000, **12**, 540.

Jetties, in 1912, 60% done, **12**, 540.

SURVEYS.

OPERATIONS.

1883-84. 6,905 c. y. dr. from bar at mouth, 84, 1195.
 1885-86. 5,000 c. y. dr. from chan. near Fish Bayou, completing proj., 86, 1153.
 1886-87. Removal of snags and similar obstr. in progress, 87, 1236.
 1889-90. 1,391 snags and 200 c. y. sand removed from the chan., and 584 overhanging trees from the banks; 1,300 piles sunk, 1,157 l. f. of walling and 242 c. y. brush protection placed, 90, 1598.
 1890-91. 9,044 c. y. sand and 330 snags cleared from the chan., and 1,800 trees cut from the banks; 18 c. y. r. blasted and 615 l. f. of training wall built, 91, 1645.
 1893-94. About 70 obstr. removed from banks and stream, 94, 1235.
 1894-95. Over 500 obstr. removed, 95, 1550.
 1897-98. About 400 obstr. removed, 98, 1334.
 1900-01. About 950 obstr. removed, 01, 1752.
 1902-03. 213 snags and 151 overhanging trees removed, 03, 1195.
 1903-04. 15,097 c. y. of material and a sunken lighter removed from the chan.; proj. completed Sept. 23, 1903, 04, 1701.
 1905-06. 1,540 snags removed and 2,015 overhanging trees trimmed, 06, 1226.
 1906-07. 746 snags, 9 c. y. obstr. rs. removed, and 21 overhanging trees trimmed, 07, 1319.
 1907-08-09. 96 snags and 3 c. y. r. removed, and 161 trees trimmed, 08, 1379; 09, 1370.
 1909-10. 193 snags, 151 overhanging trees, 2,585 c. y. hmeest. and marl, and 1,778 c. y. sand removed, 10, 1513.
 1910-11. 527,342 c. y. dr.; U. S. dr. and snag boat *Kissimee* repaired; removed 1,345 snags, 1,977 overhanging trees, and 1,192 logs, 11, 1649.
 1911-12. 744 c. y. ledge r. removed; 318,266 c. y. dr.; proj. 95% completed, 12, 547, 1866.

PHYSICAL CHARACTERISTICS.

Description of, 79, 864, 865, 866, 869; 88, 1093; 91, 1643.
 Table of measurements and observations, 79, 868.
 Tide levels, 79, 870.
 Description of, Orange R., 97, 1570; 00, 2033.
 Storm of Oct. 17, 1910, caused accumulation of numerous snags and trees in R. about Fort Myers, 11, 1649.
 Drafts, tides, etc., 12, 547.
 C. R. rises in Lake Okechobee; flows w., empties into Gulf of Mexico at Puntarasa, Fla.; distance, lake to gulf, 81 m.; Puntarasa to Ft. Myers, 21½ m., 12, 545.

PLANS. (See Projects.)

By J. L. Meigs, 1879, w., d., and straightening chan., mouth to Fort Thompson, and cutting 6 m. of canals to reclaim lands subject to overflow; est., \$148,978, 79, 866.
 For dr. and removing snags for chan. 7' x 100' mouth to Fort Myers; est., \$19,094, 79, 864, 869.

PROJECTS. (See Plans.)

By Capt. Damrell, 1879, chan. 7' x 100', by dr. and removal of snags, R. mouth to Fort Myers, 14 m.; est., \$20,000, 79, 864, 869; 83, 1003; 85, 1273. Completed, 1886; cost, \$14,000, 87, 1236.
 By Capt. Black, 1887, imp. Forts Myers and Thompson, for vessels drawing 4', by clearing the

R. of obstr., and straightening and d. chan. at Beautiful Isld.; est., \$13,647, **87**, 1236; **89**, 1338.

Proj. for imp. completed in 1892. An. expend. required for mainten., \$1,000, **92**, 1378.

Lt. Col. Benyaured est., 1896, that an an. app. of \$1,000, or a biennial one of \$2,000, would be required for mainten., **96**, 1328.

Capt. Jervey est., 1900, \$2,500 for chan. in Orange R. 4' x 50' to the head of navigation, with \$500 an. for mainten., **00**, 2036.

Act June 13, 1902, au. imp. of Orange R., 4' x 50' m. l. w.; chan. between Punta Gorda, in Charlotte H., and Myers on the Caloosahatchee, 7' x 100' m. l. w.; also, as much as may be necessary may be expend., Puntarasa to Ft. Thompson; est. for Orange R., \$2,500, and \$500 an. mainten.; Punta Gorda to Myers, \$6,000, **02**, 274, 1218.

Au., 1905; mainten. by snag removal in upper R., Alva to Ft. Thompson; to be done by hired labor, using a U. S. dr., **05**, 1306.

Au. Apr. 26, 1907; snag removal and tree trimming, work to be done by chartered boat, **07**, 1319.

Au., 1910; chan., Puntarasa to Ft. Myers, 200' x 12' over bar at entrance; and 10' x 100' thence to Ft. Myers, with turning basin at that point; est., \$119,000, and \$2,000 an. mainten., **10**, 421.

SURVEYS.

Ex. au., **78**, 81; completed by J. L. Meigs, **79**, 106, 864.

Assistant. W. H. Caldwell. R., 02, 1231, 1242.

OPERATIONS.

1902-03. Plant secured, 2,960' bulkhead built, and 4,094 c. y. dr., 03, 1193.

1903-04. 21,521 c. y. dr. and 600' bulkhead built, 04, 1698.

1904-05. 3,796 c. y. dr., 129 c. y. r. removed, and 900' bulkhead built, 05, 1304.

1905-06. 16,342 c. y. dr., 1,644 c. y. bonnet roots and 20 c. y. r. removed, and 468' bulkhead built, 06, 1224.

1906-07. 600' bulkhead built, 07, 1317.

1907-08. Bulkheads repaired and 312' built; 237 c. y. r. blasted and removed, 18,500 c. y. dr.,

690 snags removed and 3,715 trees trimmed, 08, 1375. 84 snags removed, 104 trees trimmed, and 1,608 c. y. dr. from Istokpoga Creek, 08, 1376.

1908-09. 2,182 overhanging trees and 100 snags removed and 2 dams built; 1,086 overhanging trees, 285 snags and 100 c. y. sand removed from Istokpoga Creek, 09, 1368.

1909-10. 2,800 c. y. dr., 10, 1510.

1910-11. 751 piles driven by water jet to form dam across outlet to a subsidiary chan. from Lake Kissimmee Canal, and chan. was cleared of aquatic growth, 11, 1646.

1911-12. Repairs made to timber training walls damaged by storms, 12, 1863.

PHYSICAL CHARACTERISTICS.

Description of chan. and adjacent country, from source in Lake Tohopekaliga to outlet in Gulf of Mexico, 02, 1230, 1231, 1242.

Damages to training walls by hurricane of 1910, 12, 1863.

Rises in L. Tohopekaliga, central of Fla.; flows s. through L. Cypress, Hatcheeha, and Kissimmee, and empties into L. Okechobee. L., source to mouth, 137 m. (See Oper. and Proj. for general character of proj. section.) Distance between Kissimmee and Ft. Bassinger, proj. portion, 99½ m. R., together with L. Okechobee and Caloosahatchee R., affords a navigable waterway, from Gulf of Mexico to Kissimmee 309 m., 12, 541, 542.

PROJECT.

By Capt. Deakne, 1901, au. act June 13, 1902, for chan. 3' x 30'-60' from Kissimmee to Ft. Bassinger, by dr. and constr. of bulkheads; est., \$22,319.90; and chan. 3' x 25' in Istokpoga (Southport) Creek by dr. and removal of obstr.; est., \$1,901, 02, 1240; 04, 289.

SURVEYS.

Ex., incl. connecting lakes and canals flowing into L. Okechobee, thence down Caloosahatchee R. into Gulf of Mexico, and sur. from Kissimmee to L. Okechobee and of Istokpoga Creek, au. act Mar. 3, 1899; made, resp., in 1899, by Capt. Jervey, and in 1901, by Capt. Deakne, 02, 1225.

From Kissimmee to L. Okechobee, au. act Mar. 3, 1909, 10, 435 (R. to come), 12, 542.

Pre. ex. and sur. of Kissimmee and Caloosahatchee Rs., L. Okechobee and tributaries, au. act Feb. 27, 1911, plan of imp. which would harmonize with general scheme of State of Florida for drainage of Everglades, 12, 572.

1909-10. Imp. unworthy of continuance, **10**, 1512.

PHYSICAL CHARACTERISTICS.

Description of, **91**, 1646; **00**, 2053; **12**, 544.
 70 m. south of Tampa B.

PLANS. (See Project.)

In 1880 Capt. Damrell reported Charlotte H. did not require imp.; that to improve Peace Creek from its mouth to Fort Meade would cost \$17,000, **80**, 1100.

In 1884 Capt. Russell reported there was no "present" need for the imp. of Charlotte H., **85**, 1286.

In 1887 Lt. Black did not consider the H. worthy of imp., **87**, 1258.

PRIVATE WORK.

Local interests contributed \$20,000 toward imp. **12**, 1866.

PROJECTS. (See Plans.)

By Capt. Black, 1891, 12' chan., from 50'-60' w., across all the shoals between Boca Grande and Punta Gorda; est., \$35,000, **91**, 1684.

By Maj. Handbury, 1895, expend. of the app. of 1894, dr. on the shoals near Cape Haze, thence outward toward Boca Grande Pass, **95**, 1552.

By Lt. Col. Benyaard, 1896, expend. of the app. of 1896, in imp. chan. over Cape Haze Shoal, and w. the chan. leading to the wharves previously dr., **96**, 1330.

Capt. Jervey est., 1899, \$140,000 for a 24' chan. 300' w. across the bar at the entrance of the H., with \$1,000 an. mainten., **00**, 2054.

App. proj., act 1901, seemingly to gain 12' x 200' from wharves at Punta Gorda to Boca Grande; est., \$127,500; reduced, 1896, to \$100,000, **01**, 343.

Act June 13, 1902, au. chan. 7' x 100' m. l. w., Punta Gorda (in Charlotte H.) to Myers on the Calcoosahatchee; est., \$6,000, **02**, 274, 1218.

Maj. Shunk recom., 1905, no allotment, as work showed no sign of deterioration, **05**, 1305.

Act July 25, 1912, au. 24' x 300', Gulf of Mexico to Boca Grande; est., \$40,000, and \$4,000 an. mainten., **12**, 544.

SURVEYS. (See Plans.)

Au. act Mar. 3, 1879, **80**, 140; made by Capt. Damrell, **80**, 1100; by act July 5, 1884, by Capt. Russell, **85**, 1286; by act Aug. 5, 1886, by Lt. Black, **87**, 1258.

Sur. au. act Sept. 19, 1890; made, 1891, by Capt. Black, **91**, 1684.

Sur. of the shoal n. of Cape Haze to determine the best location on which to develop a 12' chan. made by Maj. Handbury, 1894, **94**, 1236.

Ex., plan, and est. for imp. of Boca Grande and Charlotte H. with view to 24' over the bar at the entrance of the H. and 18' thence up to Punta Gorda au. act Mar. 3, 1899; made, 1899, by Capt. Jervey (**R.** fav.; see Projects), **00**, 2049, 2053.

Pre. ex. au. act June 13, 1902, for Charlotte H., for extending 12' chan. to R.R. wharf at Punta Gorda and along dock line; **R.** by Capt. Deakayne, Sept 18, 1902 (unfav.), **04**, 301, 1714.

Com. on R. and H., H. of R., asked, 1907, consideration by BE. (**R.** and **H.**) of Charlotte H., etc. Brd. reported, 1907, against further imp.²

Pre. ex. and sur. au. act June 25, 1910, for chan. of increased d.; **Rs.** by Capt. Spalding, 1911, and Capt. Slatery, 1911, 1912; est., \$40,000, and \$4,000 an. mainten.; local interests to bear $\frac{1}{2}$ cost (\$20,000), **12**, 570.

Cong. docs., etc., relating to exs., surs., plans, etc., **12**, 545.

COMMERCE.

Description, 72, 64,587,647.

Up to 1894 phosphate shipments rapidly increasing; H. considered favorably located to allow of competition for the West India trade and Central American trade, 95, 1571; 97, 1597.

1898 warranted 24', but not 30' m. l. w., 99, 1643. Rates lowered 20% on phosphate shipments since beginning of imp., 05, 802.

1911, 2,864,997 t., 12, 552.

"The commerce for the year 1911 amounted to 2,864,997 tons, valued at \$49,343,589, consisting principally of cigars, coal, crude oil, fertilizers, fish, fuller's earth, lumber, naval stores, phosphate, tobacco leaf, fruit, and merchandise. Tampa Bay must be traversed by the water-borne commerce bound to and from Tampa, Port Tampa, St. Petersburg, points on Boca Ciega Bay, Clearwater Harbor, Manatee River, and Sarasota Bay. Its commerce in reality is the combined commerce of all these points. Tampa is the general collecting and distributing center. (See also Hillsboro Bay.)

"The improvement in connection with improved tributary waterways has lowered the freight rates for many points as much as 25 per cent. As tributary waterways are further improved, these benefits will be further extended." 12, 552.

1909-10. 165,149 c. y. dr., 10, 1519.
1910-11. Wharf and coal bin at Egmont repaired, 11, 1655.
1911-12. Proj. completed, launch *De Soto* purchased, and dr. *Key West* repaired, 12, 552, 1871-72.

PHYSICAL CHARACTERISTICS.

Description of, 72, 648, 651; 79, 871; 88, 1112; 89, 1342; 95, 1572; 99, 1632; 01, 345.
Tidal observations, 97, 1599.
Shoaling, 12, 552.

PLANS.

By G. Jaenicke, 1871: (1) straight chan. 12' x 200', \$502,121.90; (2) d. sailing chan. 12' x 200', \$549,-621.80; (3) d. sailing chan. 12' x 100', 72, 64, 587, 647, 650.

By Col. Simpson, 1872, R.R. instead of chan. from Tampa B. to Passage Pt., to be built by private parties, \$180,000, 72, 64, 587, 647.

By J. L. Meigs, 1879: (1) d. chan. to 9', \$97,000; (2) new, straight 9' chan., \$121,899, 79, 871.

PROJECTS.

By Lt. Col. Damrell, 1879, mp. of Tampa B. by d. present chan. from Ballast Pt. to Tampa, 5½ m., by dr. and r. removal to 9', with 200' w. in R. and 150' in B.; est., \$97,000, 79, 871; 80, 1077. Increased in 1886 and 1887 to \$133,000, 86, 1189; 87, 1245.

Proj. modified, 1888, by Capt. Black, to provide for formation and mainten. of chan. 8' d. in Hillsboro B. and Hillsboro R. to city of Tampa, and chan. 200' x 20' m. l. w. from the outer bar to Port Tampa; est., \$60,000, 90, 1605; 92, 1387.

Lt. Col. Benyaard, 1897, est. \$336,000 to obtain by dr. under a continuous contract chan. 500' w. on the bar and 300' w. in the B., with 24' d. m. l. w., 97, 1598.

Plan and est. submitted, 1898, by Lt. Col. Benyaard for a 30' chan., Gulf to Port Tampa; est., \$3,335,000, 99, 1642.

By Capt. Jervcy, 1899, 27' chan.; est., \$750,000, 99, 1633; 00, 2022.

Modified, act 1905, to provide for chan. 26' d. and of sufficient w. Port Tampa to Gulf of Mexico; also provided that no further expend. be made until Atlantic Land & Imp. Co. agree to submit schedule of wharfage charges to Sec. of War for approval, 05, 301. Schedule of charges approv., Oct., 1906, 07, 1324.

SURVEYS.

COMMERCE.

Description of present, and prospective, **04**, 1728, 1733, 1737.

Growth of city of Tampa since beginning of imp., **04**, 1728.

Rates by water lowered 25% since imp. was undertaken, **05**, 303; lowered 10%, 1908, **09**, 378; 30 to 40%, **12**, 557.

Diagram showing tonnage values and app., **12**, 1875.

Tonnage in 1911, 1,637,676 t., **12**, 557.

"The commerce for the year 1911 amounted to 1,637,676 short tons, valued at \$29,904,179, an increase of 49.7 per cent over 1910. The commerce consists principally of cigars, coal, crude oil, fertilizers, fish, lumber, naval stores, oranges, phosphates, tobacco leaf, vegetables, and general merchandise. Three lines of steamers give regular service to New Orleans, Habana, Key West, and New York. Two of these lines each added a steamer to the Tampa run during the year. Local commerce between Tampa and other points on Tampa Bay, Sarasota Bay, Manatee River, and Boca Ceiga Bay is carried on by four lines of steamers. In addition to this there are many small gasoline boats making more or less regular runs.

"Freight rates have been reduced from 30 to 40 per cent." **12**, 557.

CONTRACTS.

 1905-06. 21,568 c. y. dr., 167 c. y. r. removed,
 and 840 l. f. bulkhead built, 06, 1227.
 1906-07. 24,977 c. y. dr. and 163 c. y. r. re-
 moved, 07, 1321.
 1907-08. 61,131 c. y. dr. and 449 c. y. r. re-
 moved, 08, 1380.
 1908-09. 12,812 c. y. dr. and 74 c. y. r. removed,
 09, 1371.
 1909-10. 44,698 c. y. dr., 10, 1516.
 1910-11. 114,560 c. y. dr., 11, 1651.
 1911-12. 39,005 c. y. dr. by which a chan.
 50' w., and not less than 3' d., m. l. w., obtained
 from Sarasota s. through Little Sarasota B. for 11
 m., 12, 1868.

PHYSICAL CHARACTERISTICS.

Description of, 90, 1617; 91, 1651; 00, 2055.
 Chans. in vicinity of Gulf of Mexico difficult to
 maintain on account of strong tidal currents and
 shifting nature of bottom, 11, 1651.

PLANS. (See Projects.)

By Capt. Black, 1889, excavating chan. 5' x 100'
 through Sarasota B. from Tampa B. to Sarasota,
 and 3' x 75' from Sarasota to Caseys Pass; est.,
 \$37,500, 90, 1618.

PROJECTS. (See Plans.)

By Capt. Black, 1891, chan. 5' x 100', Tampa B.
 to Sarasota; est., \$10,000, 91, 1651.

In 1893, after close ex. of the shoal near Long
 Bar, a revised est. submitted by Lt. D'Armit
 making total est. \$17,500, 93, 1667.

Lt. Col. Benyaurd, 1896, proposed to expend
 app. of 1896, intended for imp. of the B. from Tampa
 B. to Caseys Pass, in work above Sarasota in
 furtherance of the proj., 96, 1332; proj. modified
 to provide for imp. of the B. from Tampa B. to
 Caseys Pass, increasing total est. to \$55,000, 98,
 1337.

Capt. Jervey est., 1899, \$27,000 or \$41,000 for the
 betterment of the chan. connecting Sarasota B.
 with Lemon B., with \$1,000 an. mainten., 00, 2061,
 2062.

Act 1907 au. extending imp. Tampa B. to Venice;
 est. increased \$15,000, 07, 338.

Capt. Spalding, 1910, did not consider stretch
 between Venice and Gasparilla Sound worthy of
 imp.; est., \$25,000 to complete existing proj. to
 Venice, 10, 423, 435.

Owing to difficulty to maintain chan. in vicinity
 of Gulf of Mexico, change in route made, increasing
 dr. required. Chief of Engineers au. increase of
 \$25,000 in the est. cost of completing work, 11, 1651.

SURVEYS.

Au. act Aug. 11, 1888; made, 1889, by Capt.
 Black, 90, 1617.

Ex. and sur. of inside passage through Sarasota
 B. to Lemon B., Fla., au. act Mar. 3, 1899. Ex.
 made, 1899, by Capt. Jervey; no existing inside
 passage connecting the 2 Bs.; to build an artificial
 passage would not be justifiable. Sec. of War
 approv., Oct. 19, 1899, recom. of Chief of Engineers
 that the district office be au. to make a sur. and
 report upon such portion of the route covered by
 his pre. report as connected the navigable waters
 of Sarasota and Lemon Bs. (R. unlav.; see Proj-
 ects), 00, 2055, 2060.

From Tampa B. to Venice, thence through
 Caseys Pass to Lemon B., thence to Gasparilla
 Sound, au. act Mar. 3, 1909; made, 1909-10, by
 Capt. Spalding, 10, 435.

Cong. docs., etc., relating to ex., surs., plans,
 etc., 12, 548.

1905-06. 47,849 c. y. dr., 160 snags removed, and 48 trees trimmed, 06, 1234.

1907-08. 122 snags removed, 129 trees trimmed, and 7,664 c. y. dr., 08, 1382.

1908-09. 204,320 c. y. dr., 09, 1373.

1909-10. 235,087 c. y. dr. and 21 chan. marks estab., 10, 1517.

PHYSICAL CHARACTERISTICS.

Description of, 88, 1108; 04, 1752.

Rises in w. part of the central portion of Fla., and empties into s. part of Tampa B.; 50 m. l.; for 13 m. above mouth the R. is a tidal estuary $\frac{1}{2}$ m. w.; proj. section, 22 m., 12, 549.

PROJECTS.

By Maj. Damrell, 1882, chan. 13' x 100' m. l. w., Tampa B. to Shaws and McNeills Pts., 4 m.; est., \$70,000, 82, 1319; 83, 1028; 86, 1151.

This proj. subsequently modified, increasing the est. to \$73,000, to provide for opening up the entire lower R. to light-draft boats, by chan. 8' x 100' m. l. w., Tampa B. to Manatee, 90, 1602; 91, 1653. Lt. D'Armit, 1892, dr. with U.S. dr. a cut 12' x 100' m. l. w. through the bulkhead at Sneed Pt., 93, 1669.

In 1897 Lt. Col. Benyard est. \$20,000 to form a chan. 6' x 10' m. l. w., connecting the 6' contours of Manatee R. and Terracea B., 97, 1562; a proj. on this basis approv. in 1897, 98, 1338.

Proj., 1912, embraced foregoing and that by Capt. Deakyne, 1902, for a chan. 9' x 100' from McNeills Pt. to Rocky Bluff, and 4' x 75', Rocky Bluff to Rye; total est., \$130,520, 04, 1754; au. act Mar. 3, 1905, 05, 307, 12, 550.

SURVEYS.

Ex. au. act Mar. 3, 1881; made, 1882, by Capt. Damrell, 82, 1319.

Made, 1888, by Capt. Black, 88, 1108, 1109.

Sur. au. to find character and extent of the imp. required at the cut-off for which Congress app. \$3,000 in 1896. Sur. made by Lt. Col. Benyard, 1897 (R. fav.; see Projects), 97, 1562.

From mouth to Ellenton, thence to Rye, au. act June 13, 1902; made, 1902, by Capt. Deakyne, 04, 1749.

Pre. ex. and sur. au. act Mar. 3, 1909, for 13' mouth to Palmetto and Bradentown; and thence such d. to Ellenton and Rye as commerce might need. R., Capt. Spalding, 1909 and 1910² (supple. imp. unnecessary), 10, 435; 11, 464; 12, 569.

Description of, **95**, 1575; **98**, 1361.
Anclote Anchorage, at mouth of R., great rendezvous for small vessels in sponge business in nearby waters, **95**, 1574.

Increased 274% during 1906; rates lowered 20%, **06**, 1231; **12**, 1881; tonnage, 1912, 14,000 t., **12**, 1881

CONTRACTS.

1910. Hillsboro Dredging Co., dr., 13.75¢ c. y.; hire of dr. plant, \$175.50 per day of 10 hrs., **11**, 1664.

ENGINEERS.

Chief of Engineers. **R.**, **85**, 199; **95**, 222; **98**, 247; **99**, 285; **00**, 324; **01**, 348; **02**, 279; **03**, 287; **04**, 297; **05**, 305; **06**, 326; **07**, 343; **08**, 364; **09**, 379; **10**, 430; **11**, 457; **12**, 562.

In charge:

Capt. W. T. Rossell, 1885. **R.**, **85**, 1280.
Maj. T. H. Handbury, 1895. **R.**, **95**, 1573.
Lt. Col. W. H. H. Benyaud, 1898. **R.**, **98**, 1361.
Capt. H. Jervey, 1899. **R.**, **99**, 1638.
Capt. T. H. Rees, 1900-01. **R.**, **00**, 2028; **01**, 1760.
Lt. E. M. Rhett, 1902. **02**, 274.
Capt. H. Deakyne, 1902. **R.**, **02**, 1223.
Capt. F. R. Shunk, 1903-07. **R.**, **03**, 1203; **04**, 1709; (Maj.) **05**, 1312; **06**, 1231; **07**, 1330.
Col. J. B. Quinn, 1905. **06**, 312.
Lt. Col. L. H. Beach, 1907-08. **R.**, **08**, 1389.
Capt. G. R. Spalding, 1909-11. **R.**, **09**, 1380; **10**, 1525; **11**, 1663.
Capt. J. R. Slattery, 1912-. **R.**, **12**, 1880.

Assistants:

A. W. Barber. **R.**, **85**, 1280.
J. W. Sackett. **R.**, **95**, 1575.
O. N. Bie. **R.**, **98**, 1362.
Lt. E. M. Rhett, **02**, 274.

OPERATIONS.

1899-00. 11,987 c. y. drd., **00**, 2028.
1900-01. 11,376 c. y. drd., **01**, 1760.
1903-04. 43,698 c. y. soft material and 203 c. y. removed, **04**, 1709.
1904-05. 8,221 c. y. drd., **05**, 1313.
1905-06. 43,025 c. y. drd., **06**, 1231.
1907-08. Repairs, dre. *Florida*, **08**, 1389.
1908-09. 101,751 c. y. drd., **09**, 1380.
1909-10. 24,192 c. y. drd., **10**, 1525.
1910-11. 83,168 c. y. drd., **11**, 1663.

PHYSICAL CHARACTERISTICS.

Description of, **95**, 1574; **98**, 1361.
R. flows into the Gulf of Mexico on w. coast of Florida; about 20 m. l., **95**, 1574.

PROJECTS.

By Lt. Col. Benyaud, 1897, 6' chan., m. l. w., 100' w., Anclote Anchorage to Sponge H.; thence 4' chan., m. l. w., to county br. at Tarpon Springs; est., \$51,500, **98**, 1362; **99**, 286.

Modified May 31, 1904, to provide for dr. between Sponge H. and county br. at Tarpon Springs, **04**, 1709.

Approved, 1905, for chan. 4' x 50' from existing chan. to Tarpon Springs; and extension of existing chan. between Anclote Anchorage and Sponge H. to such w. as funds would permit, **05**, 1313.

SURVEYS.

Ex. au. act July 5, 1884; made by Capt. Rossell; **R.**, 1884, unfav., **85**, 1280.
Ex. au. act Aug. 17, 1894; made by Maj. Handbury; **R.** fav., **95**, 1575.
Sur. au. act June 3, 1896; made by Lt. Col. Benyaud; **R.**, 1897, fav., **98**, 1361. (See Projects.)
Cong. docs., etc., relating to exs., surs., etc., **12**, 562.

P-329 PITHLOCHASCOOTIE RIVER, FLA.

ENGINEERS.

Chief of Engineers. **R.**, **12**, 571.
In charge. Capt. J. R. Slattery, **12**, 524.

SURVEY.

Pre. ex. au. act Feb. 27, 1911. **R.** by Capt. Slattery, Aug. 11, 1911¹ (unfav.), **12**, 571.

P-330 HUDSON BAY, PASCO COUNTY, FLA.

COMMERCE.

Description of, **00**, 2074.
C., 1897-99, incl., est. at \$36,985, \$78,781, and \$131,525, resp., **00**, 2067.

ENGINEERS.

Chief of Engineers. **R.**, **99**, 288; **00**, 327.
In charge. Capt. H. Jervey, 1900. **R.**, **00**, 2066, 2069.

Assistants:

W. H. Caldwell. **R.**, **00**, 2068, 2071.
P. B. Bird, jr. **R.**, **00**, 2073.

PHYSICAL CHARACTERISTICS.

Description of. Town of Hudson on shoal w. coast of Florida, about 60 m. from Tampa B. en-

trance, and 15 m. n. of Anclote Keys. The indentation of the coast (bay) is hardly noticeable, **00**, 2066.

PROJECTS.

Capt. Jervey est., 1899, not less than \$200,000 for a navigable chan. 6' x 60' m. l. w., **00**, 2070.

SURVEYS.

Ex. and sur. au. act Mar. 3, 1899; made, 1899, by Capt. Jervey (**R.** unfav.; see Projects), **00**, 2066, 2069.

W. H. Caldwell. **R.**, 00, 2077, 2080.

P. B. Bird, jr. **R.**, 00, 2082.

OPERATIONS.

1903-04. 41,659 c. y. soft material and 244 c. y. r. dr., 04, 1708.

1906-07. 47,254 c. y. dr. and 3,435 c. y. r. removed, 07, 1329.

1909-10. 22,288 c. y. dr., 10, 1524.

1910-11. 2,012.5 c. y. dr., 11, 1661-2.

1911-12. 465 c. y. dr., 12, 1879.

PHYSICAL CHARACTERISTICS.

Description of, 89, 1355; 95, 1576; 00, 2075; 02, 278.

A broad, clear stream on the w. coast of Florida, about 25 m. to the se. of Cedar Keys, having an ample d. of water except near the village of Crystal R., 95, 1576.

Max. dr., June 30, 1912, 6' m. l. w., 12, 561.

PLANS. (See Projects.)

For dr. and blasting chan. 6' d. through shoals at the mouth; est., \$115,000, 82, 1317.

In 1889 Capt. Black reported available chan. d. sufficient for existing C. requirements, 89, 1355.

PROJECTS. (See Plans.)

Capt. Rees submitted, 1900, plans for 3 routes, with est. of cost, viz, \$34,647.46, \$77,929.47 and \$54,190.75, giving preference to the first route, via a straight line from d. w. of the Gulf to the river's mouth, 00, 2079.

Act June 13, 1902, au. chan. 6' x 60', Gulf of Mexico to town of Crystal R.; est., \$34,647.46, 02, 278.

SURVEYS.

Ex. au. act Mar. 3, 1881; made by Capt. Damrell, 82, 1316.

Ex. au. act Aug. 11, 1888; made, 1889, by Capt. Black, 89, 1355.

Ex. au. act Aug. 17, 1894; made by Maj. Handbury, 1894 (**R.** unfav.), 95, 1577.

COMMERCE.

Does not justify the proposed imp., 75, ii, 46.
Statement of C. to be effected by imp., 85, 1279, 87, 1249.

Description of, 95, 1582.

Great interest and capital attracted by the phosphate products found in the vicinity; large quantities of fruits raised, 95, 1579.

Maj. Handbury, in 1894, believed that in view of the interests involved the place was worthy of imp. by U.S., 95, 1581.

Not greatly benefited by imp., because season of navigation does not correspond with horticultural season; great cost of transporting phosphate by R.R., the only means available, 01, 348.

Great increase, 03, 289.

Vessels plying regularly from anchorage basin off R. entrance to European ports with cargoes of phosphate, 04, 288.

Rates reduced 30%, 05, 306; 11, 460.

New line of S.S. estab., 06, 1233.

1911, 140,285 t.; increase of 12.6% over that of 1910, 12, 565.

CONTRACTS.

1887. C. S. Baker, removal of obstr., 87, 1250.

1904. A. G. Bigelow, dr., 16¢ c. y.; removing r., \$2.50 c. y., 05, 1815.

1905. A. G. Bigelow, dr., 16¢ c. y.; removing r., \$3.50 c. y., 06, 1232.

1908. Southern Dredging Co., dr., 19½¢ c. y.; removing r., \$3 c. y., 08, 1392.

1911. Hillsboro Dredging Co., hire of dr. plant, \$175 per day of 12 hours, 11, 1666.

E. Sherman Gould. R., 75, ii, 45.

J. L. Meigs. R., 80, 1111.

J. W. Sackett. R., 95, 1581.

O. N. Bie. R., 98, 1366.

OBSTRUCTIONS.

Br. obstr. R. at Dunellon, 89, 2797.

OPERATIONS.

1881-82. 648 snags, 99 trees, and 200 c. y. r. removed from 4 m., 82, 1275.

1882-83. Removal of snags, logs, and similar obstr. continued, 83, 1002.

1884-85. 497 c. y. r. and 35 logs removed, and 23 y. riprap dam built, 85, 1277.

1886-87. Removal of obstr. between Pemberton and Hays Ferries, 87, 1248.

1889-90. 47 snags and trees removed from bed, and 203 c. y. r. blasted; 891 trees cut and trimmed on the banks, 90, 1607.

1890-91. Removal of obstr., 91, 1659.

1891-92. 79 snags and 10 overhanging trees removed; 465 c. y. r. blasted; 296 c. y. r. removed and 128 l. f. of dam built, 92, 1390.

1892-93. 460 snags and other obstr. removed, 93, 1675.

1904-05. 8,279 c. y. dr. and 4,074 c. y. r. removed, 05, 1314.

1905-06. 2,560 c. y. dr. and 3,610 c. y. r. removed, 06, 1232.

1907-08. 32,837 c. y. dr., 08, 1391.

1908-09. 8,729 c. y. dr. and 15,912 c. y. r. removed, 09, 1382.

1909-10. 72,989 c. y. dr. and 32,611 c. y. r. removed, 10, 1527.

1910-11. 6,385.07 c. y. r. and 20,556.62 c. y. soft material removed, completing chan. to within three-fifths m. of Port Inglis, 11, 1666.

1911-12. 25,752 c. y. removed by leased plant, 12, 1882.

PHYSICAL CHARACTERISTICS.

Measurements of discharge, 80, 1112.

Description of the R., 75, ii, 45, 46; 89, 1345; 95, 1579-1585; 98, 1365.

R. has its source in the swamp lands of Polk County, Fla., and empties into the Gulf of Mexico about 20 m. to the se. of Cedar Key, 95, 1579.

Large deposits of phosphate discovered along banks of R., 01, 348.

Navigation made much easier by elimination of some short turns, and by increased d. and w. in completed portions, 12, 565.

PLAN. (See Projects.)

By E. S. Gould, removal of rs. and shoals; est., \$9,900, 75, ii, 46.

PRIVATE WORK.

The Dunnellon Phosphate Co., plans approv. by Sec. of War, Apr. 21, 1894, engaged, 1900, in d. the chan. so that the product of the mines might be lightered to vessels in the outer anchorage, 00, 2030.

161,770 c. y. r. and 328,064 c. y. sand removed by Dunnellon Phosphate Co., 02, 1224.

Work done on chan. by Port Inglis Terminal Co., 05, 306.

PROJECTS. (See Plan.)

By Maj. Damrell, 1880, imp. from mouth to Hays Ferry, 100 m., by removal of snags, overhanging trees, and loose rs., and cutting through shoals and a bar at the mouth; est., \$23,874, 80, 1111.

1888, proj. modified to permit the extension of the imp. chan. to Pemberton Ferry, 6 m. from Hays Ferry, **92**, 1390.

In 1897 Lt. Col. Benyaund est. \$120,000 to secure at the mouth chan. 6' x 100' m. l. w. **98**, 1364.

Act 1902 app. \$15,000 for d. to 8' the chan. from mouth to loading pool in Gulf, **02**, 278.

By Maj. Shunk, 1906, chan. 10', x 100' Port Inglis to anchorage in Gulf of Mexico; est., \$215,400, and \$5,000 an. mainten., **1** **07**, 345.

SURVEYS.

By E. S. Gould, 1874, an ex. **R.**, **75**, ii, 45.

In progress, under direction of Capt. A. N. Damrell, 1879, **79**, 106.

Au. act Mar. 3, 1879; made, 1880, by Capt. Damrell, **80**, 1110.

Lt. J. L. Lusk. **R.**, **84**, 1219, 1220.

H. Harding. **R.**, **84**, 1226.

Lt. J. J. Meyler. **R.**, **97**, 1584.

OPERATIONS.

1872-73. Sur. made, **73**, 67.

1874-75. 6,694 c. y. dr. (chan. cut 12' x 60' x 1,350'), **75**, 80, ii, 7.

1875-76. 24,045 c. y. dr. (chan. completed through outer bar), **76**, 72, 493.

1877-78. 14,221 c. y. dr. (chan. 11.5' x 80' between Depot Key and Way Key), **78**, 79, 589.

1878-79. 24,748 c. y. dr. (chan. 11.5' x 200' through Middle Ground), **79**, 101, 813.

1879-80. Wreck of SS. *Lewisburg* removed and 14,273 c. y. dr. on outer bar, **80**, 1069.

1880-81. 33,968 c. y. dr., **81**, 1180, 1181.

1885-86. 370 c. y. sand and 6,153 c. y. st. removed, **86**, 1149.

1887-88. 12,945 c. y. dr., **88**, 1117.

1889-90. 9,180 c. y. dr. **90**, 1610.

1890-91. 19,055 c. y. dr., **91**, 1662.

1891-92. 3,962 c. y. dr., **92**, 1392.

PHYSICAL CHARACTERISTICS.

Description of, **73**, 721, 722, 724, 725; **78**, 589; **89**, 1347.

Soundings and tide observations, **73**, 724.

PLANS. (See Projects.)

By G. Jaenicke, 1873: 1st, dr. chan. 12' x 150' from the 12' curve outside to the same inside; est., \$17,923, **73**, 722, 726. 2d, chan. same w. and d. as foregoing across the bend of the R. below and to the w. of Harbor Key; est., \$115,578, **73**, 722, 726.

PROJECTS. (See Plans.)

By Capt. Damrell, 1873, dr. chan. 10' x 100' across the bend at the proposed line; est., \$37,510, **73**, 721, 722; **75**, 80, ii, 7; modified to chan. 200' w. and imp. chan. inside of Sea Horse Key and at the bend between Depot Key and Harbor Key, **75**, ii, 7; **76**, 72, 493. For chan. through Middle Ground 10' x 80' x 200', **78**, 589; **79**, 813; **87**, 1251. For removal of the wreck of the SS. *Gettysburg*, **79**, 101, 813.

By Capt. Damrell, 1884, w. the chan. formed in 1872-81 through the Middle Ground to 10½' x 200', by dr. and r. removal; est., \$25,000, **85**, 196, 1270; revised in 1887 to \$66,000, on account of increased quantity of r. to be removed, **87**, 1252.

In 1891 Capt. Black reported further imp. undesirable; decreasing C. importance of the locality, **91**, 1662; **92**, 1392.

OBSTRUCTIONS.

Obstr. of the R. by sawmill refuse, 88, 1121.

OPERATIONS.

1881-82. 17,026 c. y. dr., 82, 1269.

1883-84. 8,205 c. y. dr., 84, 1179.

1884-85. 4,418 c. y. dr., 85, 1266.

1885-86. 4,582 c. y. dr., 86, 1143.

1886-87. 56 snags and logs, 370 c. y. r. removed from chan., and 77 trees cut, 87, 1254, 1255.

1887-88. 1,515 c. y. r. blasted and removed from chan., 17 trees cut and 42 logs removed, 88, 1119, 1120.

1888-89. 283 c. y. dr., 265 c. y. r. blasted, and 74 c. y. removed from chan.; 76 trees cut and trimmed on the banks, 89, 1351.

1889-90. 135 trees and 1,900 c. y. brush cut from the banks; 19 snags and logs, 611 c. y. r., and 150 c. y. sand removed from chan., and 331 c. y. r. blasted, 90, 1613.

1890-91. Logs, snags, and 526 c. y. r. removed; repairs to snag boat, 91, 1665.

1891-92. 261 c. y. r. blasted and 561 c. y. removed; 607 c. y. dr., 92, 1395.

1893-94. 2,873 c. y. dr. and some snags removed, 94, 1247.

1895-96. 5,846 c. y. dr. and 15 beacons estab.; 200 c. y. r. used in the constr. of 2 dams; 140 c. y. r. and sand excavated and removed, and about 15 obstr. removed, 96, 1336.

1897-98. 2,043 c. y. sand and r. excavated and dr., and about 18 obstr. removed, 98, 1342.

1900-01. 10,499 c. y. dr., 01, 1762.

1906-07. 57,888 c. y. dr., 07, 1330.

1910-11. 8,571 c. y. removed, w. chan. at Derrick Gap 35'. Clusters of piles placed to indicate dr. chan. Proj. about 95% completed, 11, 459, 1665.

PHYSICAL CHARACTERISTICS.

Discharge of R., 79, 863.

Description of, 79, 857, 858, 862, 863; 90, 1611; 01, 349.

PLAN. (See Projects.)

By Maj. Damrell, 1879, 5' chan. mouth to Rolands Bluff, thence 4' chan. to Ellaville; est., \$55,158, 79, 857, 862, 863.

PROJECTS. (See Plans.)

By Maj. Damrell, 1879, imp. of the Suwanee R. from its mouth to Rolands Bluff, 74 m., by a 5' chan. 150' w.; thence to Ellaville, 50 m., chan. 4' x 60', to be estab. by snag and r. removal, dam constr., and dr.; est., \$55,158, 79, 857, 862, 863; 86, 1143; 92, 1394.

By Capt. Jervey, 1899, removal of shoals formed in the dr. chan. at the mouth of the R. and at Derricks Gap; for reestab. chan. marks, and for work upon r. shoals above Branford, 99, 1639.

Capt. A. N. Damrell, 1870-84. **R.**, **80**, 1076; **81**, 1190; **82**, 1266; **83**, 980; **84**, 1175.
 Capt. W. T. Rossell, 1884-86. **R.**, **85**, 1258.
 Lt. W. M. Black, 1886-87. **R.**, **86**, 1140.
 Capt. R. L. Hoxie, 1887-89. **R.**, **87**, 1265; **88**, 1160.
 Capt. P. M. Price, 1889-93. **R.**, **89**, 1372; **90**, 1623; **91**, 1694; **92**, 1397; **93**, 1690.
 Maj. F. A. Mahan, 1894-98. **R.**, **94**, 1249; **95**, 1611; **96**, 1339; **97**, 1605, 1655; **98**, 1377.
 Capt. C. A. F. Flagler, 1899-1900. **R.**, **99**, 1649; **00**, 2091.
 Capt. W. V. Judson, 1901. **R.**, **01**, 1767.
 Lt. R. R. Raymond, 1902. **R.**, **02**, 1255.
 Capt. J. B. Cavanaugh, 1903-07. **R.**, **03**, 1209; **04**, 1764; **05**, 1323; **06**, 1243; **07**, 1337.
 Capt. H. B. Ferguson, 1908-10. **R.**, **08**, 1397; **09**, 1387; **10**, 1532.
 Lt. Col. G. D. Fitch, 1911-. **R.**, **11**, 1670; **12**, 1886.

Assistant. A. W. Barber. **R.**, **85**, 1260.

OPERATIONS.

1881-82. 51,943 c. y. dr., resulting in increasing the chan. d. from 2½' to 3', **82**, 1267.
1882-83. Dr. chan. 9½' x 75', **83**, 980.
1883-84. 2,290 c. y. dr., resulting in chan. from 60' to 75' w. and 9½' d., **84**, 1176.
1884-85. 27,000 c. y. removed in formation of dr. chan. 9½' x 60', **85**, 1259.
1886-87. 4,607 c. y. dr. at Carrabelle and 18,885 c. y. at Apalachicola Bar, **87**, 1265.

1887-88. 7,688 c. y. dr. from the bar, **88**, 1161.
1889-90. 65,547 c. y. mud and sand removed from the chan., **90**, 1624.
1891-92. 54,458 c. y. dr., **92**, 1398.
1892-93. 55,126 c. y. dr., **93**, 1691.
1895-96. 54,253 c. y. dr., **96**, 1341-1346.
1896-97. 45,000 c. y. dr., **97**, 1606.
1899-00. 75,653 c. y. dr., **00**, 2093.
1902-03. 74,256 c. y. dr., **03**, 1210.
1904-05. 60,020 c. y. dr. from outer bar, 68,000 from mouth of R., **05**, 1324.
1905-06. 40,058 c. y., s. m., dr. from mouth of R.; 78,997 c. y., s. m., from Link Chan.; wharf built near e. end of St. Vincents Isld.; U. S. dr. Charleston removed 139,265 c. y., **06**, 1243.
1907-08. 295,365 c. y. dr.; 6,000 l. f. bulkhead built at e. side of chan., **08**, 1397.
1908-09. Bulkhead at e. side of chan. completed; 7,697 c. y. oyster shells placed along dike, **09**, 1387.
1909-10. 1,655' bulkhead rebuilt and strengthened; 11,000 c. y. dr., **10**, 1532.
1910-11. Bulkhead repaired by renewing sheet piling and placing oyster shells in the e. and w. ends, **11**, 1670.
1911-12. 133,650 c. y. removed at mouth of R.; bulkhead repaired by hired labor, **12**, 1886.

PHYSICAL CHARACTERISTICS.

Description of, **97**, 1657; **98**, 1377; **99**, 1649; **10**, 437; **11**, 467, 1670.

Nearest Hs., at Pensacola and Tampa, 150 and 230 m. distant, resp., **01**, 1768.

Shoaling due to wave action, and strong w. cross currents; hurricane seriously damaged chan. across outer bar of West Pass, **07**, 350.

PROJECTS.

By Capt. Damrell, 1879, dr. chan. 11' x 100' through the bar in the B. at the mouth of the R.; est., \$100,000, **79**, 823; **85**, 1258; **87**, 1265.

Auxiliary works needed to make imp. permanent, **80**, 1077; **86**, 193; **87**, 1265.

In 1890, after the app. of \$107,000, est. \$40,000 would be required for completion, **90**, 1624. Dr. chan. 9' d. and not less than 100' w. au., 1890, across Bulkhead Shoals, **12**, 574.

Maj. Mahan, 1896, est. \$350,000 to imp. chan. and \$20,000 to \$30,000 would be required an. for mainten., **97**, 1656-1659. Au., 1899, **12**, 575.

\$15,000 required to maintain chan. at R. mouth, and \$15,000 for dr. chan. across the sea bar, **01**, 1767.

Importance of d.-w. H. urged by Capt. Judson; est., \$500,000 to complete imp., excl. of work on sea bar (see Pensacola H.), **01**, 1768.

Amended proj. to provide for d. of 10' instead of 18', and w. of 100' across bar at mouth of Apalachicola R., thence through Link Chan. and West Pass to the Gulf, to provide chan. 150' w. instead of 100', and 18' d.; est., \$85,000 addl. and \$17,500 an. mainten., **06**, 355; **12**, 575.

SURVEYS.

Minor ex., **94**, 1251; **95**, 1613.

H. lines estab., **96**, 1341-1346.

Sur. with view to chan. 18' x 100' m. l. w. au. act June 3, 1896; **R.** (fav.; see Projects), by Maj. Mahan, 1896, **97**, 1655.

Of St. Georges Sound, incl. Apalachicola and Carrabelle Hs., au. act Mar. 3, 1905; made, 1905; **R.** by Capt. Cavanaugh, **06**, 355.

Of bar at mouth of R., **07**, 1337.

Minor, local, **10**, 1532.

Maps, **86**, 1142; **90**, 1624; **12**, 1886.

Cong. docs., etc., relating to exs., surs., plans, etc., **12**, 575.

COMMERCE.

Country bordering R. dependent upon R. for transportation, 96, 1350; 03, 293. In 1898 it was improbable that R. would be much used above Cut-off, even if cleared out, 98, 1424.

C. a part of Chattahoochee, Flint, and Chipola system; combined value, about \$16,000,000 at 1912, 12, 577.

ENGINEERS.

Chief of Engineers. M. J. Mack. R., 86, 1154.

T. Robinson. R., 89, 1418; 91, 1697.

ESTIMATES. (See Plans and Projects.)

By Col. Simpson and Capt. Damrell, 11' chan. at R. mouth, 200' w., \$185,000, 72, 584, 612. Various est. submitted by C. F. Trill, 72, 612, 623.

By Capt. Damrell and Mr. Mack, R. imp., \$80,333, 73, 698, 699.

By Capt. Damrell, 11' chan. at R. mouth, \$100,000, 79, 823.

By P. J. Quattlebaum, 11' chan. at R. mouth, \$85,000, 79, 824.

OBSTRUCTIONS.

Brs. without draws on the Chipola prevent boats reaching Marianna, 98, 1424.

OPERATIONS.

1838. Dr. through bar, 72, 619.

1874-75. Removal of rafts, snags, etc., and straightening the chan. at Moccasin Slough, 75, 81, ii, 9.

1875-76. Imp. chan. at Moccasin Slough and Styx R., 76, 72, 494.

1876-77. Removal of rafts and stumps at Moccasin Slough, 77, 71, 414.

1877-78. Snags, logs, etc., removed, a dam 130' l. built, and 486 c. y. of earth removed, 78, 80, 591.

1878-79. Snags, rafts, and overhanging timber removed at various points along the R. Chipola Cut-off opened, 79, 103, 821.

1879-80. Canal 5' x 70', cut between Apalachicola R. and Moccasin Slough; removal of raft from Styx R., 80, 1076.

1880-81. Removal of 676 snags and overhanging trees and 2,233 c. y. of dr. material, 81, 1189.

1881-82. 165 snags and overhanging trees, 2 rafts, and 3,000 c. y. of dr. material removed, 82, 1265.

¹ \$172,250, excluding Chipola R., 12, 1889.

* Allotment.

² Combined by act of 1905, with Apalachicola R. and other works.

1882-83. Removal of drift from Moccasin Slough, **83**, 879.

1883-84. Widening Moccasin Slough Canal by removal of 240 c. y. of clay and 3,679 snags and overhanging trees, **84**, 1176.

1885-86. Removal by hired labor of 110 snags and logs from chan. above Moccasin Slough, **86**, 1155; completion of imp. as orig. proj., **86**, 1154.

1886-87. 33 snags and 141 leaning trees removed, **87**, 1264.

1887-88. Imp. completed as proj., **88**, 1160.

1888-89. 304 logs and snags removed from the chan. and 2,328 overhanging trees and logs removed from the banks, **89**, 1372.

1889-90. 366 logs and snags removed from the chan. and 1,246 overhanging trees cut from the banks, **90**, 1622.

1890-91. 582 logs, snags, and stumps removed from the chan. and 2,142 overhanging trees cleared from the banks, **91**, 1697.

1891-92. 313 snags cleared from the chan. and 878 trees, logs, and stumps removed from the banks, **92**, 1401.

1892-93. About 15,000 obstr. removed from the banks and chans., **93**, 1694.

1894-95. About 10,000 obstr. removed, **95**, 1616.

1896-97. About 5,000 obstr. removed, and snag boat repaired, **97**, 1610.

1897-98. About 200 obstr. removed, **98**, 1382.

1899-00. 6,262 snags and overhanging trees, 633 cords brush, and 235 c. y. clay removed from the chan. and banks; 536 l. f. js. finished and 70 l. f. fascines laid, **00**, 2097.

1900-03. Overhanging trees cut from bank, and snags and logs removed, **01**, 1770; **03**, 1212.

1903-04. Overhanging trees cut from bank, and snags and logs removed; 24,453 c. y. dr., **04**, 1766.

PHYSICAL CHARACTERISTICS.

Description of, **72**, 618, 622; **73**, 699; **79**, 824; **97**, 1609; **98**, 1381, 1382; **01**, 352.

Description of the Cut-off and the Chipola R., **89**, 1416; **93**, 1694; **94**, 1253; **98**, 1423.

From junction of Chattahoochee and Flint Rs. to Gulf of Mexico (Apalachicola R.) the R. is 137 m. l. w.; 150-300 yds.; d., about 6' m. l. w., **12**, 576.

Part(b), Q-21 Chipola River (Upper), Fla.¹

APPROPRIATIONS.²

1835, \$5,000, act Feb. 24.
1836, 4,000, act July 2.
1899, 5,000, **99**, 1656.
1902, 2,000, **02**, 1259.

Total, 16,000

COMMERCE.

Little benefit above Look and Tremble Shoal; great benefit below, **04**, 307.

ENGINEERS.

Chief of Engineers. **R.**, **99**, 291; **00**, 331; **01**, 353; **02**, 285; **03**, 294; **04**, 307.

In charge:

Capt. C. A. F. Flagler, 1899-1900. **R.**, **99**, 1655; **00**, 2099.

Capt. W. V. Judson, 1901. **R.**, **01**, 1771.

Lt. R. R. Raymond, 1902. **R.**, **02**, 1258.

Capt. J. B. Cavanaugh, 1903-04. **R.**, **03**, 1213; **04**, 1768.

OBSTRUCTIONS.

Three brs. near Marianna, **99**, 1655.

PLANS. (See Estimates and Projects.)

By Capt. Damrell, 1881, imp. Chipola R., Marianna to Apalachicola R., by dr. and removal of obstr.; est., \$21,000, **82**, 1304.

PROJECTS. (See Estimates and Plans.)

By Col. Simpson and Capt. Damrell, dr. 11' chan., 100' w., through the bar at mouth of R., \$100,000, **72**, 63, 584, 612, 619.

By Capt. Damrell, 1874, for chan. of navigable w. and 6' d. by removal of snags and overhanging trees, and by utilizing Styx R. and Moccasin Slough, to avoid worst part of Apalachicola R.; est., \$80,333, **73**, 698. Proj. accomplished in 1880 by expend. of \$37,244, **80**, 1076. In addition to orig. proj., Chipola Cut-off opened to Whites Bluff, **82**, 1265. An. app. required for preservation of imp., \$2,000, **85**, 1276; **86**, 1154.

Ex. Chipola R., mouth to Wewachitka, and the Cut-off and Lee Slough running from the Apalachicola to the Chipola R., made in 1889, resulted in recom. that chan. 5' x 60' be cleared through Cut-off, Lees Slough, and the Lower Chipola R.; est., \$7,500, **89**, 1417; **91**, 1696; **12**, 576.

Capt. Price, 1893 est. that \$2,000 would be required an. for mainten. of an unobstr. chan., **93**, 1694.

Capt. Cavanaugh suggested, 1904, that the Cut-off, Lees Slough, and lower Chipola R. be imp. instead of old chan. of R., **04**, 1767.

SURVEYS.

Under direction of Col. Simpson, by Capt. Damrell and C. F. Trill, 1871, **71**, 577. **R.**, **72**, 584, 612, 613, 620.

Under direction of Lt. Col. Reynolds and Capt. Damrell, by M. J. Mack, 1872-73. **R.**, **73**, 698.

Under direction of Capt. Damrell, by C. J. Quattlebaum, 1879. **R.**, **79**, 823, 824.

Au. act June 14, 1880, **80**, 141; made by Capt. Damrell, **82**, 1304.

Ex. of Chipola R., mouth to Marianna, au. act Aug. 11, 1888; made, 1889, by Capt. Price, **89**, 1416. (See Projects, 3d par.)

Ex. Chipola R., Fla., Marianna to its connection with the Apalachicola R., au. act June 3, 1896; Maj. Mahan's **R.**, 1897, unlav., **98**, 1423.

Maps. **91**, 1697.
Cong. docs., etc., relating to exs., surs., plans, etc., **12**, 579.

OPERATIONS.

1899-00. Over 10,800 snags and other obstr. removed from banks and chan., and 235 c. y. dr., **00**, 2100.

1903-04. Trees, stumps, snags, and logs removed from the Dead Lakes, **04**, 1768.

PHYSICAL CHARACTERISTICS.

Description of; many districts, **99**, 1655.

PROJECTS.

By Capt. Price, 1889, clearing out l.-w. chan. 3' x 60', Marianna to foot of Dead Lakes; est., \$41,000, **89**, 1416. Modified, 1899, to permit work to begin at Marianna, and on that section down R. to Look-and-Tremble Shoals, **99**, 1655.

Capt. Cavanaugh recom., 1903, that further work of imp. be confined to removal of obstr. between Look-and-Tremble Shoals and foot of Dead Lakes, and dr. chan. at Sister Islds.; est., \$8,500, **03**, 1214.

Cong. docs., etc., relating to exs., surs., plans, etc., **12**, 579.

¹ Combined by act of 1905, with Apalachicola R. and other works.

² App. subsequent to 1836, up to 1899, were made with those for Apalachicola R., q. v.

Part(c), Q-21 Apalachicola River, including the Cut-off, Lees Slough, Lower Chipola and Upper Chipola Rivers, Fla.

APPROPRIATIONS.

1905, \$12,000, **05**, 1328.
 1906, *5,000, **07**, 1342.
 1907, 25,000, **07**, 1342.
 1909, *13,000, **09**, 1390.
 1910, 6,500, **10**, 1536.
 1911, 5,000, **11**, 1673.
 1912, 12,000, **12**, 1889.

Total, 78,500

COMMERCE.

Inseparably combined with that of Chattahoochee, Flint, and upper Chipola Rs.; increased from \$4,000,000 to over \$10,000,000 from 1899 to 1909, **10**, 440.

Details, **11**, 469, 470; **12**, 577, 579.

Letters from C. interests relative to imp.¹

ENGINEERS.

Chief of Engineers. **R.**, **05**, 313; **06**, 836; **07**, 351; **08**, 373; **09**, 390; **10**, 439; **11**, 468, 469; **12**, 576, 578.

In charge:

Capt. J. B. Cavanaugh, 1905-07. **R.**, **05**, 1326; **06**, 1246; **07**, 1339.

Capt. H. B. Ferguson, 1908-10. **R.**, **08**, 1399; **09**, 1388; **10**, 1534.

Lt. Col. G. D. Fitch, 1911-. **R.**, **11**, 1672; **12**, 1888, 1889.

OPERATIONS.

1904-05. Overhanging trees cut from bank, and snags and logs removed; 22,894 c. y. dr., **05**, 1326.

1905-06. Overhanging trees cut from bank, and snags and logs removed; 15,177 c. y. dr., **06**, 1246.

1906-07. Overhanging trees and stumps removed; 46,297 c. y. dr. from lower Chipola R., **07**, 1339.

1907-08. Trees, stumps, logs, and snags removed; 62,562 c. y. dr., **08**, 1399.

1908-09. Trees, stumps, and snags removed; 62,461 c. y. dr., **09**, 1389.

1909-10. 74 obstr. removed from Apalachicola R. and 4,514 from the Cut-off and lower Chipola R.; 47,497 c. y. dr., **10**, 1534.

1910-11. 3,582 snags and other obstr. removed from mouth of Dead Lake to Jones Lake, upper Chipola R., **11**, 1672. 7,800 c. y. dr. and 74 snags and other obstr. removed from Cut-off and lower Chipola, **11**, 1672.

1911-12. 244 snags and other obstr. removed from Apalachicola R., **12**, 1888. 43,415 c. y. dr., and 181 snags and other obstr. removed from Cut-off and lower Chipola R., **12**, 1888. 3,050 c. y. dr. and 845 snags and other obstr. removed from upper Chipola R., **12**, 1889.

PHYSICAL CHARACTERISTICS.

Details, **10**, 439, 440; **11**, 468, 469, 470; **12**, 577, 578, 579.

PROJECTS.

Act 1905 combined imp. of upper Chipola R., Marianna to its mouth with Apalachicola, lower Chipola R., the Cut-off, and Lees Slough, **05**, 314.

Lt. Col. Fitch recom. no further work be done save to keep the d. gained in Apalachicola, the Cut-off, Lees Slough, and lower Chipola R., **12**, 1889.

SURVEYS.

Pre. ex. Chipola R. au. act June 25, 1910. **R.** by Lt. Col. Fitch, May 18, 1911.

Imp. above Look-and-Tremble Shoal unworthy, but below that point recom. snagging and R. regulation.¹

Cong. docs., etc., relating to exs., surs., plans, etc., **12**, 579.

ESTIMATES. (For Chattahoochee, unless otherwise stated.)

By C. F. Trill, 1872, imp. of R. from Columbus to its mouth, at Apalachicola: 1st, \$464,000; 2d, \$327,000; 3d, \$85,185; **72**, 63, 585, 629-635.

By Capt. Damrell, W. Griswold, and M. J. Mack, 1873, Columbus, Ga., to Chattahoochee: 1st, \$63,333; 2d, \$81,914; 3d, \$982,945; **73**, 700, 704-707.

By Capt. Damrell, 1873, removal of snags, r., gravel, etc., and constr. of dams, \$145,247.66; **74**, 897. In 1879, to complete existing proj., \$105,000, and \$5,000 an. mainten., **79**, 816.

By Capt. Damrell and H. K. Hodges, 1873, 3' chan. in Flint R., Chattahoochee to Albany, \$184,862; **73**, 707, 721; **74**, 897. Completion of existing proj., \$105,000, and \$2,000 an. mainten., **79**, 818.

By Capt. Damrell and P. Robinson, 1879, Flint R., Albany to Montezuma, \$15,000 to \$15,100, **79**, 819, 820.

By Capt. Damrell, 1873, Chattahoochee and Flint Rs., \$330,109.66, **74**, 897.

OPERATIONS.³

Chattahoochee River:

1874-75. Confined chiefly to Wolfax (Wool-folks) Bar. A wreck, 500 c. y. sand, gravel, and r., a large number of snags, sunken logs, and overhanging trees removed from above and below the bar; 275' of j. built, **75**, 81, ii, 10.

1875-76. J. extended 235'; constr. of 200' of new j. below the bar and 380' of break'r; obstr. removed, **76**, 73, 495.

1876-77. Snags, etc., removed, js. repaired; extension of break'r 560', and several shoals imp. by blasting, **77**, 71, 415.

1877-78. Completion of 4' chan. over Wolfax Bar by constr. of shore-protection js. and wing dams; snags and logs removed; chan. 4' x 60' obtained by blasting r. on shoals, **78**, 80, 591.

1878-79. Snags and trees removed, js. repaired, and 640' of brush wing dams built at Upatoi Bar, **79**, 101, 814.

Flint River:

1875-76. Obstr. removed, **76**, 495.

1877-78. 4' x 60' chan. obtained between Bainbridge and Lamberts Isld. by blasting r. and the removal of sunken logs, etc., **78**, 80, 592.

1878-79. Completion of imp. at Lamberts Isld., Broad Axe, Bryants Rocks, Cross Chute, and Red Bluff, **79**, 102, 817.

PHYSICAL CHARACTERISTICS.

Of Chattahoochee, **72**, 627; **73**, 702.

Of Flint, **73**, 707, 713; **79**, 820.

PLANS. (See Estimates.)

By Capt. Damrell, W. Griswold, and M. J. Mack, 1873, between Chattahoochee, Fla., and Columbus, Ga., removal of obstr., and d. and w. chan., **73**, 700, 704-707.

PRIVATE (STATE) WORK.

Indifferent results obtained from apps. from the State prior to the war, **72**, 627.

PROJECTS. (See Estimates and Plans.)

By Capt. Damrell, 1873, 4' chan. in Chattahoochee, by removing obstr. and straightening and w. chan., **73**, 700; **74**, 897.

By Capt. Damrell, 1873, 3' chan. in Flint R., below Albany, by blasting, dr., wing dams, etc., **73**, 707; **74**, 897. In 1879, removal of obstr. from Albany to Montezuma, **79**, 819.

SURVEYS.

Chattahoochee River:

Early attempts at, **72**, 627.

By C. F. Trill, under direction of Col. Simpson, 1871-72, from Columbus to Eufaula. **R., 72**, 584, 623.

By W. Griswold and M. J. Mack, 1872, under direction of Col. Simpson and Capt. Damrell, Eufaula to mouth at the junction with the Flint, **73**, 699, 700.

By Capt. Wm. R. King, above Columbus, **78**, 105; **79**, 142.

Flint River:

By H. K. Hodges and H. A. Pattison, 1872-73, under direction of Col. Simpson and Capt. Damrell, from Chattahoochee, Fla., to Albany, Ga. **R., 73**, 707, 708.

By P. Robinson, 1878-79, under direction of Capt. Damrell, Albany to Montezuma. **R., 79**, 818, 820.

¹ Chattahoochee. For continuing imp., Cedar Bluff to the Big Spring, Fla., "according to the report of the assistant quartermaster charged with the superintendence of the removal of obstructions."—Treas. Doc. 373, 1882.

² Flint.

1911,	75,000.00,	11,	1678.
1912,	50,000.00,	12,	1895.

Total, ^a 972,650.00 (incl. \$87,000 app. between 1835 and 1879, incl., included under Part(a), and less \$20,000 used between West Pt. and Franklin and \$2,000 carried to surplus fund, and \$280.78 carried as a transfer from one % to another of the same app., \$1,037,930.78, 12, 1895.)

COMMERCE.

Navigation benefited by imp., 90, 1646.

Description of, 93, 1700; 96, 1363; 97, 1619.

Maintenance of a good navigable chan. of great importance to large section of country extending from Columbus, Ga., to Apalachicola, Fla., 93, 1700.

In 1897-98 apparently no C., West Pt. to Franklin, 98, 1393.

Few R.R.s., R. C. therefore large, 02, 1264.

Rates reduced, 08, 380; 10, 445.

In 1911, 117,115 t., 12, 584.

C. is combined "inseparably" with that of Flint, Apalachicola, and Chipola Rs.

Columbus, Ga., at head of navigation, having magnificent water power, rapidly becoming one of greatest mfg. centers of South. This fact, and completion of d. w. H. proj. at mouth of above system of Rs., has tendency to increase C. value of U. S. imps., 12, 1895.

Effect of U. S. imp. to give reduced rates over "all-rail" rates, 12, 584.

"The commerce of this stream consists of cotton, cotton seed, fertilizers, grain, naval stores, provisions, hardware, and general merchandise, and is so combined with that of the Flint and Apalachicola Rivers that a separation is impossible. It is given under the report of the Flint River as 117,115 short tons in 1911, valued at \$15,784,029.

"The effect of the improvement has been to give to Columbus and all other points on the river water rates, or a material reduction over rates to all-rail points, but the exact amount of reduction can not be stated." 12, 584.

CONTRACTS.

1888. M. A. Sweeney & Bro., drilling barge, \$3,400; dumping flat, \$600, 89, 1395.

1900. M. A. Sweeney Shipyard & Foundry Co., dipper dr., \$13,749, 00, 2109.

1903. M. A. Sweeney Shipyard & Foundry Co., constr. and equipping one stern-wheel tow-boat \$20,700; 2 r. barges, \$8,000; 1 suction dr., \$12,900; and 2 dump scows, \$7,600, 03, 1220.

1905. Hartley Boiler Works, steel boiler, \$681.50; Wm. Beach Hardware Co., 2,000 lbs. dynamite, 05, 1334.

Capt. H. B. Ferguson, 1908-10. R., 08, 1405; 09, 1393; 10, 1539.

Lt. Col. G. D. Fitch, 1911-. R., 11, 1676; 12, 1893.

Assistants:

B. W. Frobel. R., 80, 1708.

D. L. Sublett. R., 80, 1719.

T. Robinson. R., 89, 1395; 90, 1646; 91, 1758.

OPERATIONS.

1879-80. Barge, magazine boat, and scow built; 2,693 l. f. j. built; 51 snags and 580 c. y. r. removed, 80, 1071.

1880-81. 2 barges built, 1 steamer repaired, 1,769 c. y. r. removed, 81, 1183.

1881-82. 640 snags and trees removed, 1,682 l. f. j. built, and 77 l. f. repaired; 2,614 c. y. r. removed, 960 cords brush fascines constr., 82, 1259.

1882-83. 292 snags and trees and 1,968 c. y. r. removed; 2,060 l. f. j. built, 83, 973.

1883-84. 634 snags and trees and 2,531 c. y. r. removed; 2,377 l. f. of brush js. built; 2 barges, 2 skiffs, and 3 bateaux built, 84, 1168.

1884-85. 1,100 snags, logs, and trees, 3 wrecks from chan., and 3,764 c. y. r. removed, 85, 1304.

1885-86. 4,473 c. y. r. removed; steam snag boat completed and equipped, 86, 1168.

1886-87. 1,733 logs and trees removed by U. S. snag boat; 3,007 c. y. marl excavated at Uchee Shoals, 87, 1284.

1887-88. 3,818 c. y. marl and 1,354 snags, logs, and trees removed; repairs made to js. at Mound Bar, 88, 1182.

1888-89. 753 c. y. r. and 2,225 logs, snags, and overhanging trees removed, 89, 1395.

1889-90. 576 c. y. r. and 904 snags and logs removed, 90, 1647.

* Allotment.

¹ See Projects. \$5,000 used between West Point and Franklin.

² \$20,000 used between West Pt. and Franklin, Ga., and \$2,000, app. of 1835, carried to surplus fund, 10, 1540.

1890-91. 25 trees cleared from the banks, 10 snags and 166 c. y. marl removed from chan., and extensive repairs made to snag boat *Chattahoochee*, **91**, 1702.

1891-92. 366 snags and 1,500 c. y. gravel removed from chan.; 1,100 l. f. pile-and-brush bank protection and j. work built, **92**, 1406.

1892-93. 1,500 obstr. removed, 805 c. y. gravel and 567 c. y. r. removed; 1,700 l. f. dams and 400 s. y. protection mats constr., and the hull of an old boat sunk to form a j. 135 l. f. l., **93**, 1699, 1702.

1893-94. 66 obstr. removed from the banks and stream, and 270 c. y. r. excavated and removed, 2 spur dams built and repairs made to snag boat, and 178 l. f. training dams built, **94**, 1259, 1263.

1894-95. 450 obstr. removed, 257 c. y. r. removed, 11,282 c. y. gravel and sand removed, 600 s. y. bank protection built, and 1,953 l. f. dams repaired, **95**, 1621, 1625.

1895-96. 29 obstr. removed, 4,165 s. y. plowed, 695 c. y. gravel removed by scrapers, 230 l. f. longitudinal dikes and 30 l. f. shore protection built; repairs made to dikes, rebuilding of snag boat in progress, and 395 c. y. r. excavated and removed, **96**, 1361, 1362, 1364.

1896-97. About 1,600 obstr. and 102 c. y. r. removed, and rebuilding of snag boat in progress, **97**, 1617.

1897-98. About 2,000 obstr. removed, 25 c. y. r. and about 3,000 c. y. gravel also removed; 43 c. y. r. placed as ballast in an old hull, 297 s. y. land-slides plowed, 10 cords of brush used in making bank protection, 1,950 l. f. bank protection, 1,430 l. f. dams and js., and 230 l. f. old dams repaired **98**, 1380.

1898-99. Snag boat *Chattahoochee* repaired, and some obstr. in chan. between Columbus and Burdocks Landing removed, **99**, 1661.

1899-00. 4,574 snags and overhanging trees, 2,942 c. y. r. and clay, and a wreck removed from banks and chan.; js. repaired and willows planted for shore protection, **00**, 2107, 2108.

1900-01. Gravel, sand, and r. shoals removed, overhanging trees trimmed and removed, and 825 c. y. r. deposited in old and new js., **01**, 1776.

1901-02. 1,198 logs, trees, and other obstr., and 775 c. y. marl, gravel, and sand removed, **02**, 1263.

1902-03. 5,436 logs, snags, and other obstr. removed, and 1,346 l. f. j., etc., built at Jenny Isld., **03**, 1218.

1903-04. 2,341 logs, snags, and other obstr. removed, 35,928 c. y. sand and gravel dr., and 3,016 l. f. j. constr., **04**, 1774.

1904-05. 1,949 logs, snags, and other obstr. removed, 120,134 c. y. sand and gravel dr., 9,191 l. f. j. constr., and 790' repaired, **05**, 1333.

1905-06. 605 logs, snags, and other obstr. removed, 76,631 c. y. sand and gravel dr., and 7,679 l. f. js. constr., **06**, 1251.

1906-07. 2,821 logs, snags, and other obstr. removed, 20,225 c. y. marl and 35,065 c. y. sand and gravel dr., and 721 l. f. js. partially constr., **07**, 1346.

1907-08. 148 logs, snags, and other obstr. removed, 73,062 c. y. marl and gravel dr., and 13,700 l. f. js. constr., **08**, 1405.

1908-09. 9,118 snags and other obstr. removed, 83,925 c. y. dr., and 11,617 l. f. js. built, **09**, 1393.

1909-10. 8,331 snags and other obstr. removed, 53,448 c. y. dr., and 10,162 l. f. js. built and repaired, **10**, 1539.

1910-11. 214 snags and trees removed, 13,124 l. f. js. built and repaired, 99,655 c. y. dr., and repairs made to dr., **11**, 1677.

1911-12. Repairs made to plant; 322 snags, 156 trees and 128 stumps removed; 10,065 l. f. js. built and repaired; 95,499 c. y. dr.; proj. about 95% completed in upper section and 10% in lower section **12**, 594, 1894.

PHYSICAL CHARACTERISTICS.

Description of, **97**, 1618; **98**, 1387, 1390.

Description of, West Pt. to Franklin, **93**, 1701; **94**, 1261.

Unusual and prolonged drought stopped all navigation in summer of 1904, **04**, 310.

Chan. for 32 m. below Columbus regulated by js., and most serious bars in R. kept open by dr.; Columbus has become head of navigation; increased d. since adoption of proj., **2**, **12**, 584.

Columbus, Ga., 223 m. above junction of Chattahoochee with Flint R., and 360 m. above mouth of Apalachicola R., which is formed by confluence of the Chattahoochee and Flint. Chattahoochee rises in n. part of Ga., and its mouth at junction with Flint R. is at sw. cor. of Ga. Its l. is about 400 m. Proj. section is from mouth to Columbus, **12**, 583.

PLANS. (See Projects.)

By Maj. King, 1880, Chattahoochee R., excavation of chan. through ledges and bars, removal of isolated and projecting r., and the building of j. dams to contract the chan. to its normal w. Also by the constr. of locks and dams where the fall is too great to be overcome by open-chan. navigation; est., \$6,403,811, **80**, 1708, 1721.

By Maj. King, 1882, West Pt. to Bolton, 108 m., slackwater navigation by dr., wing and riprap dam constr., and the constr. of 8 locks; est., \$486,474, **82**, 1876.

Capt. Judson recom., 1901, that imp. of section between West Pt. and Franklin be discontinued, **01**, 1777.

PRIVATE (CORPORATE) WORK.

The Chattahoochee Navigation Co. caused a sur. to be made of the R. West Pt. to Franklin, 1890, **93**, 1702.

PROJECTS. (See Plans.)

By Capt. Damrell, 1873, Chattahoochee R., mouth to Columbus, 224 m., formation of chan. 4' x 100' at l. w., by blasting, dr., removal of snags and logs, and the constr. of wing dams, **73**, 700; **80**, 1070; **86**, 200. Orig. est., \$385,247.66, **86**, 1169; **87**, 1283.

Acts of 1892, 1894, 1896, 1899 each app. \$5,000 for between West Pt. and Franklin.

By Capt. Price, 1892, removal from the R. between West Pt. and Franklin of the lesser r. shoals, sand, and gravel bars by excavation and by works of contraction; removal of overhanging trees from the banks, and snags, logs, and other obstr. from the chan., and the constr. of locks and dams to overcome the more serious obstr. to give a min. d. of 3' at l. w.; est., \$364,340.43, **93**, 1702, 1703. This proj. was abandoned with the exception of clearing obstr., and in 1895 Maj. Mahan recom. whole work be abandoned on account of the poor results, **95**, 1625.

SURVEYS.

Sur. above Columbus au. act June 18, 1878; made by Maj. King, 1880, **80**, 1705.

Sur. between West Pt. and Bolton au. act Mar. 3, 1879; made, 1881, by Capt. Damrell, **81**, 189.

Ex. between West Pt. and Bolton au. act Mar. 3, 1881; made, 1882, by Maj. King, **82**, 1875.

Ex. between West Pt. and Franklin au. act Sept. 19, 1890; made, 1890, by Capt. Price (Col. Comstock's R. unfav.), **91**, 1757.

Sur. of Chattahoochee R., Ga., West Pt. to Franklin, au. act Mar. 3, 1899, **00**, 344; made, 1900, by Capt. Flagler; est., \$1,149,914, **01**, 363, 1793; **02**, 293.

Maps. **80**, 1708; **93**, 1700; **98**, 1392.

Lt. R. R. Raymond, 1902. R., 02, 1260.
Capt. J. B. Cavanaugh, 1903-07. R., 03, 1215; 04, 1770; 05, 1329; 06, 1248; 07, 1342.
Capt. H. B. Ferguson, 1908-10. R., 08, 1402; 09, 1391; 10, 1536.
Lt. Col. G. D. Fitch, 1911-. R., 11, 1674; 12, 1890.

Assistants:

P. M. Slaughter. R., 87, 1290.
T. Robinson. R., 89, 1387, 1422; 90, 1638; 91, 1699; 92, 1403.

OBSTRUCTIONS.

2 bns. without draw openings above Albany in 1895 prohibited SS. navigation at higher stages of the w., 95, 1617.

OPERATIONS.

1879-80. 1,280 c. y. r. and 103 snags removed; 2 barges built and 1 repaired, 80, 1074.

1880-81. 390 l. f. of dam built; 2,393 c. y. r. removed, 81, 1187.

1881-82. 2,627 c. y. r. removed; 350 l. f. st. dam built; 3,460 snags and trees cut and removed, 82, 1262.

1882-83. 4,821 trees and snags removed; 2,439 c. y. r. removed, 83, 976.

1883-84. 2,392 snags removed; 2,954 c. y. r. removed, 84, 1171.

1884-85. 12,961 snags and 2,202 c. y. r. removed, 85, 1299.

1885-86. 1,254 snags and 5,477 c. y. r. removed, 86, 1163.

1886-87. 3,232 trees, logs, and snags and 4,261 c. y. r. removed, 87, 1280.

1887-88. 585 snags and trees and 5,325 c. y. r. removed, 88, 1177.

1888-89. 450 snags, 1,815 c. y. solid r., and 817 c. y. bowlders and loose r. removed from chan., and 1,461 trees cut from the banks, 89, 1388.

1889-90. 980 snags, 1,412 c. y. r., ferryboat wreck, and steamer's boiler removed from chan., 90, 1638, 1639.

1890-91. 320 snags and 15 c. y. r. removed from chan., and 1,723 trees cleared from the banks, 91, 1699.

1891-92. 2,229 snags and 3,203 c. y. r. removed from chan.; 2,160 trees cleared from the banks, 92, 1403.

1892-93. About 2,800 obstr. removed from banks and chan., and 177 l. f. training dams constr., 93, 1697.

1893-94. About 1,300 obstr. removed, 94, 1256.

1894-95. 74 obstr. and 413 c. y. r. removed, and 247 c. y. r. deposited in dams, 95, 1618.

1895-96. About 130 obstr. and 1,667 c. y. r. removed, and 1,033 c. y. r. deposited in spur dams, 96, 1354.

1896-97. About 80 obstr. and 1,510 c. y. r. removed, and 842 c. y. deposited in spur dams, 97, 1613.

1898-99. Drilling barge repaired and a few isolated bowlders removed, 99, 1658.

1899-00. 901 snags and other obstr. removed from banks and chan.; 1,835 c. y. r. dr., 00, 2103.

1902-03. 300 c. y. r. excavated and 39 overhanging trees trimmed and removed, 03, 1215.

1903-04. 2,452 c. y. r. excavated in removal of r. shoals, 04, 1770.

1904-05. 2,325 c. y. r. excavated, 18 bowlders and 180 snags and logs removed, providing a clear chan. 3' x 60' between Albany and Newton, 05, 1329, 1330.

1905-06. 3,344 c. y. r. excavated, completing chan. 3' x 60' between Keaton Shoals and Flat Rock Shoals, 06, 1248.

1906-07. 3,349 c. y. r. excavated, and 807 logs, snags, and other obstr. removed, 07, 1343.

1907-08. 3,092 c. y. r. excavated, 08, 1402.

1908-09. 11,968 c. y. r. excavated by barge No. 16 and dr. No. 5, 09, 1391.

1909-10. 12,809 c. y. r. excavated and 69 bowlders, snags, and other obstr. removed, 10, 1536.

1910-11. 20,412 c. y. r. removed above Bainbridge, and 17,800 c. y. r. blasted below Bainbridge, 11, 1674.

1911-12. 10,838 c. y. removed above Bainbridge, and 27 snags and 28 trees below Bainbridge; proj. about 88% completed, 12, 1891.

PHYSICAL CHARACTERISTICS.

Description of, 97, 1612; 98, 1383.

F. R. rises in n. part of Ga., flows sw. Its mouth is at sw. cor. of Ga., where it unites with Chattahoochee to form Apalachicola R. L., 360 m. Proj. section, mouth to Montezuma, 182 m., 12, 581.

PLANS. (See Projects.)

By Capt. Hoxie, 1887, extension of the imp. from Montezuma to Old Agency by removal of obstr.; est., \$25,000, 87, 1290, 1291.

In 1889 Capt. Price reported it advisable to postpone removal of the r. reefs at Albany until the completion of the imp. above, 89, 1421.

PROJECTS. (See Plans.)

By Capt. Damrell, 1873, modified in 1880 after more detailed surs., l.-w. navigable chan. 3' x 100', mouth to Albany, Ga., 105 m., and a navigable chan. for light-draft SS., at moderate stages of w., Albany to Montezuma, 100 m., by removal of snags scouring bars, by works of contraction, and cutting through r. reefs; est., \$199,962, **73**, 707, 721; **80**, 1073; **86**, 1162; **87**, 1278; **91**, 1700.

SURVEYS.

Ex. Montezuma to Old Agency au. act Aug. 5, 1886; made by Capt. Hoxie, **87**, 1290.
Ex. au. act Aug. 11, 1888; made, 1889, by Capt. Price, **89**, 1420.
Cong. docs., etc., relating to exs., surs., plans, etc., **12**, 582.
Maps. **93**, 1696.

Q-25 GULF OF MEXICO, NORTH SHORE. (Waterway.)

APPROPRIATION.

July 4, 1832 (sur.), \$3,000.
(See O-510(b).)

SURVEY.

Sur., canal between the pass of St. Andrews and R. and B. of Chattahoochee, and between Pensacola B. and Bon Secour, along the n. coast of the Gulf of Mexico (Treas. Doc. 373, 1882.)

Q-26 APALACHICOLA RIVER AND ST. ANDREWS BAY, FLA. (Channel between.)

APPROPRIATIONS.

1910, \$100,000, **10**, 1541.
1911, 150,000, **11**, 1679.
1912, 70,000, **12**, 1896.

Total, 320,000, **12**, 1896.

COMMERCE.

Actual value of imp. to C. unknown until imp. completed, **12**, 585.

CONTRACTS.

1910. Southern Dredging Co., dr., 12.7¢ c. y.; Ellicott Machine Co., cutter machinery, etc., 15¹/₂ hydraulic dr., \$33,800, **11**, 1679.

ENGINEERS.

Chief of Engineers. **R.**, **10**, 445, 459; **11**, 474; **12**, 585.

In charge:

Capt. H. B. Ferguson, 1910. **R.**, **10**, 1541.
Lt. Col. G. D. Fitch, 1911-. **R.**, **11**, 1678; **12**, 1895.

OPERATIONS.

1910-11. 124,101 c. y. removed under contract from w. end of imp., completing 11,104 l. f. of

chan.; 63,120 c. y. removed by U. S. plant and hired labor from e. portion in Lake Wimico, **11**, 1679.

1911-12. 242,792 c. y. removed from w. end, and contract terminated, **12**, 1895. U. S. dr. *Blackwater* removed 194,816 c. y. from w. end, at 11.5¢ c. y.; U. S. dr. *Muscogee* removed 111,157 c. y. and dipper dr. *Upatoi* 38,291 c. y. from e. end, at 9.7¢ and 8¢ c. y., resp.; 726 stumps and 6,640 trees removed from e. end, **12**, 1896.

PHYSICAL CHARACTERISTICS.

Details of, **10**, 445; **12**, 585.
Proposed route about 32 m. l. Passes through various creeks, swamps, etc. Expected to provide outlet for Chattahoochee-Flint-Apalachicola-Chipola system, **12**, 585.

PROJECTS.

By Capt. Ferguson, 1910, chan. 5' x 65' by way of Lake Wimico, Searcy Creek, and s. prong of Wetappo Creek; est., \$450,000,¹ **10**, 446, 459.

SURVEYS.

Ex. and sur. for chan. between Apalachicola R., and St. Andrews B.; made, 1909-10, by Capt. Ferguson; est., \$450,000 (see Projects),¹ **10**, 459.

Lt. Col. G. D. Fitch, 1911-. **R.**, **11**, 1680; **12**, 1897.

OPERATIONS.

1910-11. 333,531 c. y. dr., completing contract. U. S. dr. *Caucus* removed 46,066 c. y., May 25 to June 30, 1911, **11**, 1680.

1911-12. 738,759 c. y. removed by U. S. dr. *Caucus*, **12**, 1897.

PHYSICAL CHARACTERISTICS.

Description of, **89**, 1414; **04**, 1798, 1800.

D. of the entrance sufficient, 1889, **89**, 1415.

PROJECTS.

Lt. Raymond, 1903, of opinion that 21' chan. could be secured at cost not to exceed \$150,000,¹ **04**, 1799.

By Capt. Ferguson, 1909, chan. 22' x 200' through East Pass; est., \$203,560, and \$20,000 an. mainten.,² **09**, 409; **10**, 446.

SURVEYS.

Ex. au. act Aug. 11, 1888; made, 1889, by Capt. Price, **89**, 1414.

Ex. of 2 entrances, and up to town of St. Andrew au. act June 13, 1902; made, 1903, by Lt. Raymond¹ (**R.** unfav.), **04**, 322, 1797.

Pre. ex. and sur. au. act Mar. 2, 1907. **R.** by Capt. Ferguson, Nov. 15, 1907, Oct. 10 and Nov. 5, 1908, and Mar. 1, 1909; est., \$203,560,² **09**, 409.

Of water fronts of towns of St. Andrew and Panama City, with view to estab. of H. lines, **11**, 1680.

Cong. docs., etc., relating to ex., surs., plans etc., **12**, 586.

Map.³

Q-30 ST. ANDREWS BAY, FLA., TO CHOCTAWHATCHEE RIVER AND BAY. (Canal.)³**Q-31 CHOCTAWHATCHEE BAY, INCLUDING SANTA ROSA SOUND CHANNEL, FLA.****APPROPRIATIONS.**

1910, \$24,000. **10**, 1544.

COMMERCE.

Description of; value estimated at \$800,000 per annum, **93**, 1741.

Details, **11**, 1683; C. combined with that of Choctawhatchee and Holmes Rs.

ENGINEERS.

Chief of Engineers. **R.**, **93**, 228; **10**, 449, 459; **11**, 478; **12**, 590, 606.

In charge:

Capt. P. M. Price, 1889-93. **R.**, **93**, 1741.

Capt. H. B. Ferguson, 1910. **R.**, **10**, 1544.

Lt. Col. G. D. Fitch, 1911-. **R.**, **11**, 1683; **12**, 1900.

Assistant. J. E. Turtle. **R.**, **93**, 1742.

OPERATIONS.

1910-11. Late in June, 1911, the plant was put in condition and assembled at entrance to Choctawhatchee Bar, **11**, 1683.

1911-12. U. S. dr. removed 215,118 c. y., completing proj., **12**, 1900.

PHYSICAL CHARACTERISTICS.

Description of; Santa Rosa Sound is a narrow body of water, about 14 m. l., between Santa Rosa Isld. and the mainland, connecting Pensacola B. with Choctawhatchee B., **93**, 1741.

Range of tide, 1.1', **11**, 479.

PROJECTS.

By Capt. Ferguson, 1909, for chan. 6' through narrows of Santa Rosa Sound; est., \$24,000,⁴ **10**, 449, 459; au. act June 25, 1910, **12**, 590.

SURVEY.

Ex. of bar at the junction of Choctawhatchee B. and Santa Rosa Sound, Fla., au. act July 13, 1892; made by Capt. Price, 1893 (**R.** fav.), **93**, 1741.

LEGISLATION.

Law passed by Alabama to prohibit the driving of loose logs in the Choctawhatchee R. within the State, 89, 1382.

OBSTRUCTIONS.

Draw to be placed in Hollis Br. before imp. of R. above it, 96, 1366.

OPERATIONS.

1874-75. Obstr. removed from R. for 48 m. from mouth, 75, 81, ii, 8.

1875-76. Removal of obstr.; 3' chan. obtained from mouth to Buzzards Bar; wagon road cut around the bar, 76, 72, 493.

1876-77. Chan. 3' in d. obtained for about 75 m. of the lower part of the R. by removal of obstr., 77, 70, 413.

1877-78. Obstr. removed; removal of gravel and drift at Millers Field, 78, 79, 590.

1879-80. 20 m. of R. between Geneva and mouth cleaned of snags and obstr.; cut-off opened; Buzzards Bar Cut-off cleaned out; portion of wreck of steamer *Boston* removed, 80, 1079.

1880-81. 14,256 snags, stumps, and trees removed; 252 c. y. sand excavated, 81, 1195.

1881-82. 10,169 snags, stumps, etc., removed; 330 y. of bank protected by brush, 82, 1272.

1882-83. 84 m. wholly and 161 m. partially imp. by removal of 15,074 snags and trees; protection of 4,940 l. y. of bank, and closure of 6 cut-offs, 83, 990.

1883-84. 29,819 snags, stumps, and trees removed; 990 l. f. bank protected, 84, 1181.

1884-85. Operations of snag boat, 85, 1311.

1885-86. 8,787 snags, logs, and trees removed, clearing 32 m. of R., 86, 1176. Imp. completed from mouth of R. to 27 m. above Geneva, 86, 1176.

1886-87. Operations of snag boat; removal of rs. and bowlders, 87, 1272.

1887-88. 5,772 logs and snags removed from the chan., 88, 1168.

1888-89. 3,183 trees, logs, and snags removed from chan., and 695 trees from the banks, 89, 1382.

1889-90. Removal of snags, stumps, and chan. obstr. continued, 90, 1633.

1890-91. Removal of snags and similar obstr. continued, 91, 1708.

1891-92. 2,142 snags removed from chan., and 386 trees cleared from the banks, 92, 1410.

1892-93. 1,248 obstr. removed from banks and stream, and 1,654 l. f. dams completed, 93, 1709.

1893-94. 1,781 obstr. removed, and 3,261 l. f. dams constr., 94, 1267.

1894-95. 1,281 obstr. removed, 95, 1627.

1895-96. 2,381 obstr. removed, 96, 1371.

1896-97. A few obstr. removed, 97, 1623.

1899-00. Over 4,400 obstr. removed, 00, 2113.

1900-01. 4,139 logs and other obstr. removed, 126 c. y. marl, dr., and 77 cords wood cut, 01, 1778.

1902-03. 6,636 c. y. dr. from cut through bar at Cypress Top, and 2,883 l. f. protection bulkhead placed on both sides of dr. cut, 03, 1221.

* Allotment.

¹ Ex.-R. (fav.) Jan. 28, 1845. (H. D. 482, 55th, 2d.)² Choctawhatchee and Holmes Rs.³ Part of \$20,000, \$2,000 of which was for Lagrange Bayou.

1903-04. 1,782 logs and other obstr. removed, 252 c. y. marl dr. and 34 cords wood cut between Newton and Geneva; 3,205 c. y. removed in redrg. chan. through bar at mouth of R. and 800 l. i. bulkhead constr.; 1,546 logs and other obstr. removed from lower 53 m. of R., **04, 1776.**

1904-05. 129 c. y. marl and 6 snags and other obstr. removed from R. between Newton and Geneva; 2,905 snags and other obstr. removed below Holmes, **05, 1335.**

1905-06. 1,438 c. y. marl dr. and 1,043 logs and other obstr. removed from R. between Newton and Geneva; 400 l. i. j. constr. at mouth of Cow Ford R.; wooden bulkhead repaired at Cypress Top outlet and chan. redr. to 6' x 75', **06, 1253.**

1907-08. 1,273 snags and other obstr. removed, **08, 1407;** proj. completed; addl. work is for main-ten., **08, 380.**

1908-09. 3,458 logs and other obstr. and 2,086 c. y. sand and gravel removed, **09, 1395.**

1909-10. 1,514 snags and other obstr. removed, 117' bulkhead constr., and 7,236 c. y. dr. at Cypress Top outlet, **10, 1542.**

1910-11. 1,179 snags and other obstr. removed, **11, 1681.**

1911-12. 260 snags and other obstr. removed in a distance of about 67 m. above the mouth, and excavated 4,441 c. y. at Cedar Creek Shoal and Strickland Lake Bar, **12, 1898.**

PHYSICAL CHARACTERISTICS.

Description, **72, 63, 588, 640-645; 79, 826; 96, 1365; 97, 1621; 98, 1394; 12, 587, 588.**

Description of R. obstr., **80, 1081.**

Comparison of cross sections at Buzzard Bar Shoals, Gumfields Shoals, Busby Shoals, **93, 1708; Haverstons Whirl, and Cut-off, 94, 1266.**

Source, se. Ala., thence flows s. and sw. to C. Bay, an arm of Gulf of Mexico. Length of proj. about 162 m., mouth to Newton, **12, 587.**

PLANS. (See Projects.)

By J. Burney, 1872, thorough imp. R.; est., \$98,716.80. To meet present and prospective re-

quirements of C., \$52,291.20. Removal of obstr. which seriously interfere with trade, \$34,332; the last recom. by Col. Simpson, **72, 64, 589, 640, 646.**

By Capt. Price, 1889, chan. 3' x 60', Geneva to Newton, by dr. shoals and removing snags and logs; est., \$57,125, **89, 1424.**

PROJECTS. (See Plans.)

By Col. Simpson, 1872, mouth to Geneva, 212 m. by removal of snags, sunken logs, etc.; est., \$34,332, **72, 63, 589, 641; 74, 896; 81, 1194.**

By Capt. Damrell, 1880, Geneva to Newton, 40 m., removal of obstr. and constr. of 3 locks and dams; est., \$78,500, **80, 1081;** making an aggregate of \$122,832 for the imp. of the R., mouth to Newton, **86, 1177; 87, 1272.**

Amended, 1896, to require a draw to be placed in Hollis Br. before any money could be spent above this br., **96, 1366.**

Amended, 1899, to extend the imp. to Newton, Ala., **99, 1064.**

Proj. amended, 1902, to include imp. of Cypress Top outlet, **12, 587.**

Capt. Cavanaugh, 1904, considered section of R. between Newton and Geneva unworthy of further imp., **04, 1777.**

SURVEYS.

By J. Burney and W. Simpson, 1871-72, under direction of Col. Simpson. **R., 72, 588, 641.**

Lt. L. H. Rand, **01**, 350.

Lt. G. R. Lukesh, **01**, 350.

OPERATIONS.

1883-84. 208 snags, logs, and trees, and 3,519 c. y. mud removed. **84**, 1192.

1884-85. Dr. and removal of obstr. continued, **85**, 1312.

1890-91. 2,671 overhanging trees cleared from the banks and 270 snags and logs removed from the banks, **91**, 1706.

1889-90. Over 8,000 snags and other obstr. removed, **00**, 2117.

1903-04. Snags, trees, and other obstr. removed, **04**, 1778.

PHYSICAL CHARACTERISTICS.

Description of, **89**, 1375; **90**, 1626; **99**, 1666.

As there is no logical connection of Lagrange B. and Holmes R., "designation should be Holmes R., etc.," **04**, 312.

PLANS.

By Capt. Price, 1889, 4½' navigation through Lagrange Bayou, and clearing snags and logs from Holmes R.; est., \$15,222, **89**, 1375.

PROJECTS.

By Capt. Damrell, 1881, imp. of the bayou, by d. the chan. through it to 4½' existing through the "Narrows" est., \$19,944; **82**, 1318; **87**, 1268.

In 1891, after the expend. of \$10,000, Capt. Price recom. no further app. be made until the necessities of C. requires it, **91**, 1705; **92**, 1408.

SURVEY.

Ex. au. act Mar. 3, 1881; made, 1881, by Capt. Damrell, **82**, 1318.

Ex., Lagrange Bayou and Holmes R., au. act Aug. 11, 1888; made, 1889, by Capt. Price, **89**, 1375.

Part(c), Q-33 Holmes River, Fla., from Vernon to its mouth.

APPROPRIATIONS.

1905, \$2,000, **05**, 1337.
1907, 2,000, **07**, 1350.
1909, 2,000, **09**, 1336.
1910, 2,000, **10**, 1543.
1911, 1,000, **11**, 1682.
1912, 2,000, **12**, 1900.

Total, 13,000

COMMERCE.

Importance of, **06**, 345.
Rapidly increasing; R. only means of transportation, **12**, 589.
In 1911, C. value, \$850,000, **12**, 589.

ENGINEERS.

Chief of Engineers. **R.**, **05**, 320; **06**, 344; **07**, 359; **08**, 381; **09**, 398; **10**, 448; **11**, 477; **12**, 589.

In charge:

Capt. J. B. Cavanaugh, 1905-08. **R.**, **05**, 1337; **06**, 1254; **07**, 1350.

Maj. W. E. Craighill, **06**, 347.

Maj. H. Jervoy, **06**, 347; **11**, 464.
Capt. H. B. Ferguson, 1908-10. **R.**, **08**, 1408; **09**, 1396; **10**, 1542.

Maj. J. B. Cavanaugh, **11**, 464.
Lt. Col. G. D. Fitch, 1911-. **R.**, **11**, 1682; **12**, 1899.

OPERATIONS.

1905-06. 6 spur js. built, **06**, 1254.
1905-11. Obstr., snags, trees, etc., removed. (For details, see an. Rs. for each year.)
1911-12. 252 obstr. removed; 5,439 c. y. dr., **12**, 1899.

PHYSICAL DATA.

R. empties into Choctawhatchee R. about 40 m. above mouth of latter; it is w. and d. to Vernon, 25 m. above mouth; l. of R., about 160 m. **12**, 589.

SURVEYS.

Cong. docs., etc., relating to exs., surs., plans, etc., **12**, 589.

* Allotment.

¹ Part of \$20,000, \$18,000 of which was for Choctawhatchee R.

² Including Holmes R. to Vernon.

³ Continuing work on Holmes R.

⁴ Act of 1899 reapp. \$4,839.20, which had been returned to the Treasury, **99**, 1667.

Q-34**PEA RIVER, ALA.****ENGINEERS.**

COMMERCE.

Restrictions of d. upon large vessels, 82, 1257.
Of Pensacola, 85, 1315; 91, 1729, 1734.
Description of, 93, 1711.

In 1893 there was demand for ships drawing 24', 93, 1714.

Very large, 03, 300.

Diagram of freight, value and apps., 11, 1685.

1911, exports, \$20,742,292, and imports, \$1,632,734, 12, 595.

"The commerce of this port is very large. For the fiscal year ended June 30, 1903, the foreign exports were reported at \$13,741,540, no record of the coastwise exports being available; in 1904, as \$15,893,456; in 1905, exports as \$15,295,067 and imports as \$985,840; in 1906, exports as \$13,432,931 and imports as \$386,377; in 1907, exports as \$20,229,414 and imports as \$618,363; in the fiscal year 1908, exports as \$20,322,649 and imports as \$675,503; in the calendar year 1908, exports as \$16,306,056 and imports as \$1,188,925; in the calendar year 1909, exports as \$20,960,154 and imports as \$1,500,801; in the calendar year 1910, exports as \$20,489,291 and

imports as \$2,123,678; and in the calendar year 1911, exports as \$20,742,292 and imports as \$1,632,734.

"The completion of the project will give greatly increased facilities to the large commerce of Pensacola, but will not materially affect freight rates." 12, 594.

CONTRACTS.

1878. G. W. Le Gallais, removal of 4 wrecks 79, 801.

1881. E. H. Farquhar, dr., 40¢ c. y., 82, 1255. Annulled, 83, 969. D. F. Sullivan, r. ballast \$1 t., 82, 1256.

J. F. Turtle. **R.**, **89**, 1378, 1408; **90**, 1629; **91**, 1715; **92**, 1415.

OPERATIONS.

1878-79. Removal of wrecks by contract, **79**, 101, 801, 802.

1879-80. Removal, under contract, of 4 wrecks completed, **80**, 1067.

1881-82. Quarters for overseer and workmen completed; mattress sheds and tramways, 4 extra cars, and 2 scows built; 60 l. f. of shore end of j. built, **82**, 1255.

1882-83. 8,406 c. y. dr. from the inner bar; Jetty A completed; shore protection n. of same partly completed; 400 l. f. of pier built with wharf at extremity; 1,836 t. r. ballast delivered at Fort McRae, **83**, 969.

1883-84. 24,966 c. y. dr. from the inner bar; st. protection completed to 220'; tramway built and approaches constr. for another shore protection, **84**, 1162.

1884-85. Close-piling shore protection replaced; mattress filling raised and whole extended 217'; trestle and tramway approach rebuilt, and 80' spur built on s. side of same; exposed face of work and outer and inner 115' of Jetty A revetted; 53,369 c. y. dr. from outer and inner bars, **85**, 1314.

1885-86. Extensive repairs to shore protection; 55,355 c. y. dr. from chan., **86**, 1180.

1886-87. 446 t. st. delivered for js.; repairs made to plant, **87**, 1270.

1887-88. 1,716 t. st. received, of which 1,187 t. were placed in the n. j., **88**, 1165.

1888-89. 839 t. st. placed in n. j.; 345 c. y. concrete blocks manufactured; piles driven and repairs made to plant, **89**, 1379.

1889-90. Operations upon n. and s. js. continued, **90**, 1629.

1891-92. 14,151 c. y. dr., **92**, 1415.

1892-93. 27,852 e. y. dr., **93**, 1714.

1893-94. 92,505 c. y. dr., **94**, 1272.

1894-95. Proj. prepared by Maj. Mahan for imp. of the H. by dr., and bids received for constr. of w. j. at entrance to the H., **95**, 1634, 1660.

1895-96. 391,646 c. y. dr., **96**, 1379; and an exhaustive study of the cost of dr. made, **96**, 1379-1389.

1896-97. Dr. continued by U. S. dr. and by contractor, and specifications drawn up for the constr. of a U. S. dr., **97**, 1628.

1897-98. In connection with previous year, 519,211 c. y. dr., **98**, 1400.

1898-99. 370,647 c. y. dr., **99**, 1670.

1899-00. 479,088 c. y. dr., **00**, 2120.

1900-01. 324,495 c. y. dr., **01**, 1781.

1901-02. 184,753 c. y. dr. by U. S., **02**, 1268.

1902-03. Boathouse moved, **03**, 1223.

1904-05. 200,108 c. y. dr., **05**, 1339.

1905-06. New dr. *Caucus* received; 592,018 c. y. dr., **06**, 1256. Chan. marked; storehouse built, and wharf repaired, **06**, 1257.

1906-07. 285,907 c. y. dr.; office and boathouse, destroyed by storm, rebuilt; dr. *Caucus* employed by Navy Dept. on salvage work, **07**, 1352.

1907-08. 854,305 c. y. dr.; repairs made to dr., **08**, 1410.

1908-09. 306,908 c. y. dr., restoring chan. to 30' x 300', **09**, 1397.

1909-10. 381,248 c. y. dr., **10**, 1545.

1910-11. 955,142 c. y. dr., **11**, 1684.

PHYSICAL CHARACTERISTICS.

Description of, **77**, 409, 410; **79**, 101, 802, 806, 807; **93**, 1714; **95**, 1634, 1647; **98**, 1397.

Current velocities, **91**, 1719.

H. considered one of the best on the coast, **94**, 1274.

Table of areas of sections of *Caucus*, East Bank, and Middle Ground Shoals, entrance to the H., **95**, 1655.

Shoaling, as shown by exs., **01**, 1781; **03**, 1223.

Shipping damaged and chan. shoaled by hurricane, **07**, 1352.

PLANS. (See Projects.)

By Capt. Price, 1889 chan. through the outer and inner bars of Pensacola H. by concrete j. on Calafaytas Shoals extending from the shore to the 23' curve and built to height m. h. w.; est., \$2,295,719, **89**, 1406.

PROJECTS. (See Plans.)

By Capt. Damrell, 1878, removal of 4 wrecks; est., \$20,000, **77**, 411; **78**, 79, 588.

By Capt. Damrell, 1879, as modified by B.E., 1881, reestab. of old shore line by 4,000 l. f. brush and st. js. in front of Fort McRae, and d. the chan. across the inner bar by dr. to 24' x 300'; est., \$150,000, **79**, 101, 803, 810; **81**, 1175; **84**, 1161; **86**, 1180. Failure of tides to maintain dr. chan. Total amount app., 1878 to 1886, incl., \$215,000; est. of completion, \$400,000, **87**, 1269.

In 1888 est. \$60,000 would be required for completion, making the total cost \$275,000, **88**, 1164. Est. increased by \$81,000 in 1890, **90**, 1630.

By B.E., 1891, chan. 24' d. m. l. w. over the inner and outer bars by raising the shore arm of the w. j. to h. w.; raising the crest of the j. from the shoulder to 5,000' out to the mean h. of the beginning of ebb outflow; for the next 4,300' the crest to be brought up to m. l. w.; shore arm of the e. j. to be raised to h. w., crest of the j. then to sink within 1,200' to the level of the foundation course; js. to be constr. with a foundation course of brush mattress 100' w. and a superstr. of rubblest. capped with concrete; total est., incl. removal of 500,000 c. y. of material from chan. between js., \$1,830,400, **91**, 1731, 1732.

By B.E., 1895, amending proj. of 1891 to provide for deferring constr. of j. for mainten. of chan. across *Caucas* Shoals until the chan. should be obtained by dr., **96**, 1374.

Act Mar. 3, 1899, extended proj. to secure 30' chan. m. l. w., from Gulf of Mexico to dock line at the e. end of Pensacola, **00**, 2119.

Capt. Judson, 1901, recom. chan. 500' w.; also securing dr. plant, **01**, 1781-82.

Act June 13, 1902, modified proj. to provide for chan. 30' x 500', Gulf of Mexico to dock line at e. end of Pensacola, **02**, 288.

\$150,000 of app. of 1902 being used for constr. of a sea-going suction dr., building under direction of Capt. J. C. Sanford, Phila. Dist., **03**, 300.

SURVEYS.

Ex. and partial sur. of bar by H. Haines, 1878, **79**, 101, 802, 806.

* Allotment.

¹ Escambia.

² Conecuh.

³ Conecuh R. (separate proj.).

OPERATIONS.

1881-82. Chan. $5\frac{1}{2}$ x 100' x 3,240' m. l. w. dr. through the bar (Escambia), 82, 1277.

1882-83. 1,216 trees, snags, and stumps removed (Conecuh), 83, 1007.

1883-84. Snags, trees, and obstr. removed throughout 85 m. of Escambia, 84, 1198. Obstr. removed from 33 m. of Conecuh, 84, 1199.

1884-85. 15,472 snags and trees removed from Conecuh, 85, 1310.

1885-86. 10,943 logs, snags, and trees, and 105 c. y. r. removed from Conecuh and Escambia Rs., 86, 1175.

1886-87. 2,569 trees, logs, and stumps, and 45 c. y. r. removed from chan., 87, 1274.

1887-88. 2,998 logs and snags removed from chan., 88, 1170.

1888-89. Removal of logs, snags, and similar obstr., 89, 1385.

1889-90. 530 snags and 153 c. y. r. and gravel removed from chan., 20 trees cut from the banks, and 2,353 c. y. sand dr., 90, 1636.

1890-91. Repairs to snagging plant, 91, 1736.

1891-92. 3,523 snags cleared from chan., 19 c. y. gravel, dr., and 1,015 logs on banks cut up, 92, 1417.

1892-93. 1,450 obstr. removed from banks and stream, 93, 1717.

1893-94. About 600 obstr. removed, 94, 1276.

1894-95. About 250 obstr. removed, 95, 1662.

1895-96. About 2,200 obstr. removed, 96, 1395.

1896-97. About 1,800 obstr. and 20 c. y. clay removed, 97, 1632.

1899-00. Snag boat built and 1,421 snags and other obstr. removed from chan., 00, 2130.

1900-01. 461 snags, piling, and other obstr. removed from chan., 01, 1784.

1902-03. 1,003 snags, logs, etc., removed, 03, 1226.

1904-05. 211 snags, etc., removed, 05, 1341.

1905-06. 545 snags, etc., removed, 06, 1258.

1906-07. 336 snags, etc., removed under general imp. For work on Conecuh R. a new quarter-boat and derrick boat completed, 07, 1355.

1907-08. 1,790 snags, logs, and trees removed under general imp. Conecuh R.—3,286 c. y. r. and gravel and 979 obstr. removed, 08, 1412.

1908-09. General imp.—2,311 snags and trees removed. Conecuh R.—1,666 obstr. removed, trees cut, etc., 09, 1400.

1909-10. General imp.—914 snags and trees removed. Conecuh R.—5,571 snags, overhanging trees, logs, etc., removed; 178 c. y. gravel and sand removed; proj. completed, 10, 1547.

1910-11. 3,400 snags, trees, and stumps removed, 11, 1686.

1911-12. 3,011 snags, trees, and stumps removed; proj. on general imp. completed, 12, 1903.

PHYSICAL CHARACTERISTICS.

Escambia, Fla., and Conecuh, Ala. The names apply to one and the same stream; change in name occurs at boundary line of 2 States; flows through a heavily timbered country. Length, 300± m.; proj. section, 195 m., 12, 595.

PROJECTS.

By Capt. Damrell, 1879, imp. Escambia R., mouth to State line, by dr. chan. $5\frac{1}{2}$ x 150' m. l. w. through bar at the mouth, removing snags and similar obstr., and by shore protection and wing-dam constr. to obtain a 5' l.-w. chan. throughout the length of the R.; est., \$25,000, 79, 853, 856; 80, 1082.

In 1882, \$12,000 app. for the Escambia and Conecuh Rs., when it was proposed to extend navigation to Indian Creek, 273 m. above the mouth of the R., by removal of obstr., closing cut-off, and r. removal, at addl. est. of \$62,430 over the est. of 1879, 83, 1007; 87, 1273. Total est., \$87,430; 88, 1169.

Act Mar. 2, 1907, au. proj. for Conecuh R., from mouth of Patsaliga Creek to Fla.-Ala. State line, by removing snags, bowlders, etc.; est., \$31,000,¹ 07, 364; 12, 596.

SURVEYS.

Ex. au. act Mar. 3, 1905, Conecuh R. R., Capt. Cavanaugh, Nov. 3, 1905; est., \$31,000,¹ 06, 354.

COMMERCE.

Restrictions to C., 76, 507; 79, 827.
Advantages arising from imp., 76, 498, 507; 79, 829; 80, 1085; 81, 1203; 83, 1010; 85, 1306; 86, 1171.

Present and prospective demands of C., 91, 1765.
1895, valued at \$4,813,000 per year, 95, 1669.
Almost entirely local, 05, 1368.
Imp. facilities would reduce rates, 10, 455.
Details of, 12, 599; tonnage, 110,231, 12, 1907.

"The commerce of this stream is important, consisting principally of cotton, cotton seed, fertilizers, grain, lumber, shingles, naval stores, staves, and a large quantity of miscellaneous freight of all description, the value of which for the year 1911 is reported at 110,231 short tons, valued at \$8,253,948. This, however, is but a part of the freight movement that is affected by the improvement, for the actual shipments by water have been relatively small, and, with a river improved for continuous navigation, it is estimated that at least 100,000 tons of the present all-rail freight movement would either go by river or at river rates, and the resulting saving would be very large. In addition, improved facilities would render possible an actual reduction in rates on freight now carried by river.

"During the fiscal year 1909 the municipality of Montgomery established a modern wharf at Montgomery, which permits loading and unloading at any stage of the river. There was one barge line established in 1910 for traffic between Mobile and Montgomery and points along the river. This barge line has since been abandoned." 12, 599.

CONTRACTS.

1900. M. A. Sweeney Shipyard & Foundry Co., dipper dr., \$13,440, 00, 2136.

1905. Robert Middleton, 2 quarterboats and 1 pile-driver barge; James M. Campbell, 4 barges, 03, 1261.

1907. Gulf City Boiler Works Co., 2 boilers and fixtures on snag boat *Wm. J. Twining*; est., \$3,810; Gulf Dry Dock Co., 4 wooden barges; est., \$11,900, 07, 1358.

D. M. Andrews. R., 05, 1371.

OPERATIONS.

1878-79. Snag boat purchased, by which 320 logs removed; dam built at "Cut-off," 79, 104, 827, 829.

1879-80. Completion of dam across "Cut-off," 3 chutes closed at Haynes Isld.; partial closure of chutes at Erwins Bar, Hobbs Bar, and Yellow Jacket Bar, and the removal of 490 snags, 80, 1084.

1880-81. Completion of imp. Gardners Isld., Cocks Bar, Hadnots Bar, Three Chutes, and bar below Cut-off, 81, 186, 1201.

1881-82. Repair of dam at Cut-off and Hobbs Isld.; completion of dam at Gardners Isld., 82, 1279.

1883-84. Removal of overhanging trees and snags, 84, 1201.

1884-85. Removal of snags and logs, 85, 1306.

1885-86. Removal of snags and logs and closing l.-w. chute by brush dam near Gardners Isld., 86, 1171.

1886-87. Removal of obstr. between mouths of the Alabama and Tallapoosa Rs., 87, 1288.

1887-88. 1,333 logs and snags removed from chan. and 533 overhanging trees cut from banks, 88, 1188.

1888-89. 2,200 logs and snags and 1 wreck removed from chan.; 4,730 trees and stumps removed from banks, 89, 1401.

1889-90. 1,706 logs and snags removed from chan.; 4,111 trees and stumps removed from banks; repairs to snagging plant, 90, 1656.

1890-91. Snagging continued, 91, 1739.

1891-92. 962 snags, 25 bowlders, 1,550 c. y. gravel removed from chan.; 2,710 trees cleared from banks, and 181 l. f. of r. and brush j. built, 92, 1420.

1892-93. About 3,000 obstr. removed, 4,281 l. f. dams built, and 75 l. f. rebuilt; 335 l. f. shore protection constrd., and 230 bowlders removed from banks and stream, 93, 1721.

1893-94. 80 l. f. old dams torn out, 6,666 l. f. dam constrn. in progress, 94 s. y. shore protection

* Allotment.

¹ In the discretion of the Sec. of War this sum may be expended to include Alabama and Coosa Rs., Montgomery to Wetumpka.

constrd., 1,444 l. f. bar protection constrd., and 1,881 obstr. removed, **94**, 1282.

1894-95. 4,530 l. f. dikes under repair and constrn., 4,085 s. y. shore protection under constrn. and repair, and about 800 obstr. removed, **95**, 1667.

1895-96. About 1,000 obstr. and part of a wreck removed; dike constrn. and repair in progress, **96**, 1400, 1401.

1896-97. 2,498 obstr. and wreck of flatboat removed, 2,205 l. f. dike built, and repairs made to U. S. craft, **97**, 1636, 1637.

1897-98. About 3,000 obstr. removed, **98**, 1408.

1898-99. About 670 snags and other obstr. removed, **99**, 1678.

1899-00. Over 3,000 snags and other obstr. removed, **00**, 2133.

1900-01. 916 snags and other obstr. removed; dr. boat with dipper capacity of $1\frac{1}{2}$ c. y. nearly completed, **01**, 1786.

1901-02. 892 snags and other obstr. removed; dr. boat completed and towed to Montgomery, Ala., **02**, 1272.

1902-03. 1,332 snags and other obstr. removed, **03**, 1225.

1903-04. 1,441 snags and other obstr. removed, **04**, 1783.

1904-05. 1,056 snags and other obstr. removed, **05**, 1343.

1905-06. 971 snags and other obstr. removed; 42,689 c. y. dr. from chan. through bars; 1 pile driver barge constrd. by hired labor; towboat *John Mills* (name changed to *Alabama*) reconstrd., **06**, 1260.

1906-07. 329 snags and other obstr. removed; 8,750 c. y. dr. from Upper Gausas Bar; j. 240' long constrd. at Upper Gausas Bar and j. partially constrd. at Lower Gausas Bar; floating plant repaired, **07**, 1357.

1907-08. 398 snags and other obstr. removed; 43,135 c. y. sand and gravel, 280 t. r. and sand, 8 piles and 18 sunken logs removed from chan., and 2,775 l. f. of js. built and 278 l. f. repaired at different points on the R., **08**, 1414.

Installation of boilers in snag boat completed; 4 creosoted barges delivered, and constr. of 15" hydraulic dr. 60% completed, **08**, 1415.

1908-09. 1,149 snags and other obstr., and 23,929 c. y. sand and gravel removed from chan.; Dam No. 2 at Silver Creek Shoals, consisting of 6,715 c. y. sand and gravel, 1,185 t. st., and 209 piles, removed; 4,471 l. f. of js. built and 1,257 l. f. repaired at different points on the R., **09**, 1401.

New 15" hydraulic dr. *Pettus* completed; other floating plant repaired, **09**, 1402.

1909-10. The snag boat *Wm. J. Twining* removed 7,421 snags and other obstr.; dipper dr. removed 38,395 c. y. st., sand, and gravel; 5,545 l. f. of js. built, and 305,173 c. y. of material removed by dr. *Pettus* over 170 m. below Montgomery, at average cost of 12.6¢ c. y. for dr., and \$6.51 l. f. for js.; pontons for pipe line for *Pettus*, and 2 creosoted barges built, and snag boat *Twining* repaired, **10**, 1548, 1549.

1910-11. 4,366 snags and other obstr. removed, **11**, 1687. Material removed from different localities by dipper and hydraulic drs. and js. built and repaired, given in tables; new boilers and stacks installed in towboat, and minor repairs made to other floating plant, **11**, 1688.

1911-12. Summary of work done by snag boat *Wm. J. Twining*, **12**, 1904. Work done by drs. *Autauga* and *Pettus*; cost of dr., 14.9¢ c. y.; js., \$4.52 l. f., **12**, 1905.

PHYSICAL CHARACTERISTICS.

General, **76**, 500, 501. List of bars, shoals, and reefs in Alabama R., **76**, 503. Tide statistics, **79**, 829.

General w. and d., **82**, 1279.

Character of the banks and R. bed, **79**, 827; **89**, 1400; **90**, 1654; **91**, 1761, 1762.

Condition of chan. at the various bars, islands, and shoals, from the mouth to the junction of the Coosa and Tallapoosa Rs., **91**, 1768.

Details, **96**, 1402-1405; **97**, 1633; **98**, 1408.

Variation of water level, 0.0 to 59' at Montgomery, Ala., **03**, 303.

Geology and resources of the Coosa Valley, by U. S. Geol. Survey, **05**, 1378, 1379.

Max. d. carried to Montgomery, 3' at l. w., **11**, 485.

PLANS.

Gavin B. Yuille, removal of snags, logs, etc., and constr. of dams and js., to make chan. 6' x 150' m. l. w., \$459,773.25, **76**, 498, 502, 507.

Capt. Damrell, for an. operations of snag boat, \$10,000 per year, **79**, 829.

PROJECTS.

By Capt. Damrell, 1876, imp. from mouth, 50 m. above Mobile, to Wetumpka, Ala., 323 m.; by removal of logs and snags, and constr. of wing dams and js., to give chan. 200' w. and 4' d. at m. l. w.; est., \$229,741, **76**, 498, 507; **85**, 203.

In 1891, the proj. of 1876 having been completed at cost of \$172,000, Capt. Price proposed increasing chan. d. to 6'; est., \$386,251, **91**, 1740, 1765; provided \$100,000 be app. an., and \$10,000 used for maintain., **12**, 597.

Proj. prepared under au. act June 13, 1902, imp. Coosa and Alabama Rs., 6' navigation; est., \$500,000 and \$40,000 an. maintain., **04**, 316, 317.

By Capt. Cavanaugh, 6' navigation, Coosa and Alabama Rs., throughout the year; est., \$10,024,706, Coosa R. between Gadsden and Wetumpka, Ala.; and \$1,000,000 between Wetumpka and mouth Alabama R., **05**, 1367. The B.E.R.H. believes 6' navigation, Coosa R., not immediately desirable, and that imp. Alabama R. should be limited to removal of snags and other obstr., and constr. of works of regulation, **05**, 1391. Reccom. that water-power rights should be reserved by U. S., **05**, 1367.

By Capt. Cavanaugh, 4' chan., Montgomery to mouth of R.; est., \$650,000, and \$50,000 an. maintain., **106**, 354; **12**, 598.

Plan; est., \$36,000, with \$5,000 an. for maintain.; for 4' chan. through Ala. and Coosa Rs. to Wetumpka, **09**, 409; **11**, 485; **12**, 598.

SURVEYS.

By Gavin B. Yuille, 1875, **76**, 74. **R.**, **76**, 499.

Ex. for 6' chan., mouth to Wetumpka, au. act Sept. 19, 1890; made, 1890, by Capt. Price, **91**, 1761. Minor sur., **94**, 1282; **95**, 1667; **96**, 1402; **97**, 1638.

Ex. Coosa and Alabama Rs., Wetumpka, Ala., to mouth of Alabama R., au. act June 13, 1902, **04**, 316, 318, 322.

Of Coosa and Alabama Rs., Ga. and Ala., with view to securing 6' navigation; **R.**, Capt. Cavanaugh, **05**, 329, 1354, 1384.

Ex. for 4' navigation, mouth to Montgomery and from Montgomery to Wetumpka (on Coosa R.), au. act Mar. 3, 1905; made, 1905; **R.**, Capt. Cavanaugh, **06**, 354.

Of Alabama and Coosa Rs., Montgomery to Wetumpka, Ala., au. act Mar. 2, 1907, **08**, 393.

Pre. ex. and sur., Alabama and Coosa Rs., between Montgomery and Wetumpka; **R.**, Capt. Ferguson, 1908; plan and est. presented, **09**, 409.

Ex. and sur. with view to constr. of lock and dam between Montgomery and Selma, au. act Feb. 27, 1911 (**R.** to come), **12**, 606.

Detailed sur. made from m. 277½ to m. 286 above mouth, **12**, 1905.

Maps, **84**, 1202; **94**, 1280; **95**, 1668.

COMMERCE.

In 1893 not believed that any C. benefit would be derived by continuing the imp., 93, 1724.

ENGINEERS.

Chief of Engineers. R., 80, 141; 81, 189; 83, 192; 84, 200; 85, 203; 86, 201; 87, 169; 88, 156; 89, 182; 90, 165; 91, 206; 92, 201; 93, 223; 10, 460; 11, 490; 12, 605.

In charge:

Maj. A. N. Damrell, 1880-85. R., 81, 1223; 83, 998; 84, 1189.

Capt. R. L. Hoxie, 1885-89. R., 85, 1307; 86, 1172; 87, 1285; 88, 1184.

Capt. P. M. Price, 1889-93. R., 89, 1396; 90, 1649; 91, 1741; 92, 1422; 93, 1723.

Capt. H. B. Ferguson, 10, 435.

Maj. H. Jervey, 11, 464.

Lt. Col. G. D. Fitch, 12, 572.

Assistants:

G. B. Yuille. R., 81, 1224.

C. B. Percy. R., 89, 1398; 90, 1650; 92, 1423.

OPERATIONS.

1883-84. 2,086 logs and snags and 34 overhanging trees removed, 84, 1190.

1884-85. New snag boat with steam capstan, etc., built and a limited amount of work done, 85, 1307.

1885-86. 2,423 snags, logs, and trees removed, clearing 12 m. of R., 86, 1172.

1886-87. 4,053 logs, snags, and trees, and 33 c. y. r. removed from chan.; 320 l. f. of temporary dam work built, 87, 1286.

1887-88. 2,510 logs and snags and 41 c. y. marl removed from chan. and 214 overhanging trees cut from banks, 88, 1185.

1888-89. 2,124 logs and snags removed from chan., and 4,293 overhanging trees from banks, 89, 1398.

1889-90. 1,184 logs and snags and 1 sunken ferryboat removed from chan. and 564 overhanging trees cut from banks, 90, 1650.

1891-92. 185 snags removed from chan. and 57 trees cleared from banks, 92, 1423.

PHYSICAL CHARACTERISTICS.

Description of the R., 81, 1224.

Character of the R. bottom and banks, 89, 1397; 90, 1649.

PROJECTS.

By Maj. Damrell, 1881, imp. from foot of Tallassee Reefs to mouth, 48 m., giving 3' x 60' in soft rock cuts, and 200' in open R., by removal of snags, logs, and similar obstr.; bank protection, dike and wing-dam constr.; and gravel and soft-rock excavation; est., \$40,125, 81, 1230; 87, 1285. Up to 1890 \$44,000 expend. on imp. over the orig. est., being due to insufficient app., 90, 1649.

SURVEY.

Au. act June 14, 1880; made, 1881, by Maj. Damrell, 81, 1223.

Fre. ex. and sur. au. act Mar. 3, 1909, of Tallapoosa R., in connection with Etowah and Coosa R., with view to imp. for navigation, etc., 10, 460; 11, 490 (R. to come), 12, 605.

Q-52 COOSA RIVER, ALA. AND GA.

(NOTE.—Coosa R. is formed at Rome, Ga., by junction of Oostenaula and Etowah Rs.; it flows sw. to its junction with the Tallapoosa and Alabama Rs., 325 m. Length under imp. about 211 m. Proj. covers section from Rome, Ga., to mouth. Coosa R. has always been navigable for light draft packets—Rome to Greensport (162 m.), but 1 low lift lock being needed. Greensport to Wetumpka (142 m.) locks and dams required, in conjunction with works of contraction and chan. excavation to permit navigation. Wetumpka to junct. of Tallapoosa R. navigable at all stages, 12, 600.)

ESTIMATES. (See Plans and Projects.)

By Col. Simpson, 1871, completion of sur., \$6,000
 71, 563.
 By H. C. Fillebrown, 1871, removing obstr. from
 R., 77 m., Greensport to Selma, Rome & Dalton
 R.R. crossing, \$278,484.50, 71, 570-572.
 By Maj. McFarland, 1872, chan. for vessels draw-
 ing 3', from Greensport to Wetumpka, 134 m.,
 \$2,340,746.75. 72, 505; from Wetumpka to Selma
 Rome & Dalton R.R. crossing, \$1,923,020, 72, 507.
 By Maj. McFarland, 1874, 4' chan., Rome to Wills
 Creek, \$180,000, 75, ii, 662.
 By B. W. Frobel, 1875, chan. 4' x 80', Rome, Ga.,
 to mouth of Great Wills Creek, 120 m., \$81,679, 75
 ii, 664-668.
 By J. C. Long, 1872, chan. from near Wilsonville
 to Greensport, 94 m., \$470,668, 72, 543.
 By Lt. Marshall, 1877, 3' chan., Selma, Rome &
 Dalton R.R. br. to Greensport, \$313,000, 77, 598.
 By Lt. Marshall, 1878, dams, locks, and riprapping
 at Whistnents and Ten Isld. Shoals, \$155,-
 616.23, 78, 766.
 By Capt. King, 1879, completion of existing proj.,
 \$402,347, 79, 1271.

LEGAL PROCEEDINGS.

Title to land at Lock No. 31 obtained by con-
 demnation proceedings, 1893, 93, 1730.

OBSTRUCTIONS.

Br. obstr. navigation, 89, 2797.

OPERATIONS.

1876-77. Begun at Horseleg Shoals, near
 Rome, 77, 597.
 1877-78. At various shoals between Rome and
 Greensport, 79, 140, 1269.
 1879-80. 1,039 c. y. r. excavated from chan.;
 6,124 c. y. r. quarried; 3,714 c. y. r. placed in dams;
 3,350 c. y. gravel, etc., excavated; 12,756 c. y. earth
 embankment raised, 80, 1689.
 1880-81. 4,219 c. y. masonry laid; 1,362 c. y. st.
 quarried; 1,945 c. y. solid and 12,645 c. y. loose r.
 excavated; 7,040 c. y. earth embankment raised,
 81, 1872.
 1881-82. 3,154 c. y. masonry laid; 610 c. y. di-
 mension st. cut; 9,191 c. y. st. quarried, and 14,312
 c. y. st. placed in dams and locks; 10,898 c. y. earth
 and gravel placed in dams and embankments; 740'
 cribbing built, 82, 1856.
 1882-83. 7,686 c. y. st. cut and quarried; 18,597
 c. y. st. and gravel placed in riprap dams; 359 c. y.

solid r. excavated; 1,140 c. y. loose r. and gravel ex-
 cavated; 2,106 c. y. earth excavated, 83, 1502.

1883-84. 634 c. y. st. and gravel placed in riprap
 dams; 1,169 c. y. solid r. excavated; 474 c. y. gravel
 etc., excavated; lock gates for Lock No. 1 com-
 pleted, 84, 1655.

1884-85. 6,363 c. y. st. cut; 4,406 c. y. st. built
 into locks; 1,922 c. y. st. built into rubble dams;
 3,093 c. y. solid r. excavated; 9,846 c. y. earth ex-
 cavated, 85, 1302.

1885-86. 1,055 c. y. st. quarried and dressed
 143 c. y. solid r. excavated from chan., 86, 1166.

1886-87. Progress on l. and d. constr. at Ten
 Isld. Shoals, and at Lock and Dam No. 4, 87, 1282.

1887-88. Constr. of Lock and Dam No. 4 con-
 tinued, 88, 1180.

1888-89. 8,583 c. y. drd.; 306 c. y. loose r. and 90
 c. y. solid r. removed; 1,828 c. y. masonry and con-
 crete laid; 3,305 c. y. st. quarried, and 268 logs and
 snags removed, 89, 1392.

1889-90. Lock No. 1 completed and opened to
 navigation; operations continued upon Locks Nos.
 2 and 3; obstrs. removed fr. between Locks 1 and 2,
 90, 1643, 1644.

1890-91. Lock No. 2 completed; operations
 continued upon Lock No. 3; work begun upon Lock
 No. 4; excavation of chan. through Lonnergan Reef
 in progress, 91, 1746.

1891-92. Upper section, between Rome and
 the East Tennessee, Virginia & Georgia R.R. br.: Re-
 pairs to dam at Lock No. 3, and guide crib above the
 lock filled with st.; 222 l. f. st. dam built at foot of
 Wood Isld.; 1,096 c. y. r. removed from the chan. at
 Lonnergan Reef, and timber guide cribs built; dam
 abutment, cofferdam, and lock house completed at
 Lock No. 4, 92, 1425, 1426. Lower section, between
 Wetumpka, Ala., and the East Tennessee, Virginia
 & Georgia R.R. br.: Erection and preparation of
 plant and commencement of r. excavation in
 constr. of lock at Wetumpka, 92, 1428.

1892-93. Constr. of Lock No. 4 in progress;
 3,208 c. y. r. excavated at Box Shoals; repair and
 constr. of Lock No. 31 in progress, and 6,266 c. y.
 r. excavated at the head of the lock, 93, 1728, 1732.

1893-94. Constr. of Lock No. 4 in progress and
 chan. at Box Shoals d., 94, 1287, 1288; constr. of
 Lock No. 31 continued, and 14,505 c. y. excavated in
 the vicinity of the lock. A R.R. also built to connect
 the site of the lock with the head of the rapids, 94,
 1294.

1894-95. Work continued on Lock No. 4, 95,
 1672; repairs made to wing and training dams at
 Horseleg Shoals, and obstr. removed; blasting and
 drg. done between Locks Nos. 3 and 4, 95, 1673;
 work on Lock No. 31 continued, and 8,199 c. y. r.
 excavated above the lock, 95, 1675, 1676.

1895-96. Work at Lock No. 31 continued, and
 11,131 c. y. r. excavated from chan. above, 96, 1420,
 1422.

1896-97. Repairs made to dam No. 4, and
 preparations for work at Lock No. 4 made; 6,542
 c. y. drd. from the chan., and some blasting done at
 Box Shoals, 97, 1645; works of constr. removed
 from Lock No. 31, 97, 1648.

1897-98. Dam constr. in progress at Horseleg
 Shoals; drg. was done at and obstrs. removed from
 the chan. at Shorters Isld. and Mayos Bar; sand and
 gravel for concrete were drd., and the chan. at the
 head of Box Shoals drd.; the constr. of Lock No. 4
 was continued, 98, 1415, 1416.

1898-99. 1,040 l. f. dam built at Horseleg
 Shoals; blasting, drg., and building dams between
 Locks Nos. 3 and 4, 99, 1685.

1899-00. 1,305 l. f. dam built at Lonnergan Reef;
 640 l. f. built at Whiteside Bar, and blasting, drg.,
 and building dams between Locks Nos. 3 and 4
 1900, 2140, 2141.

PHYSICAL CHARACTERISTICS.

Description of 71, 563, 570; 72, 502, 536, 540; 77,
 598; 78, 763; 90, 1659-1666, 1669; 91, 1744; 93,
 1413, 1418; 99, 1688.

Character of banks and slope of R. bed, 89, 1390.

Description of the locality surv. for Locks Nos. 9
 and 10 in 1898-1899, 98, 1420.

PLANS. (See Estimates and Projects.)

By Capt. Damrell, 1880, Selma, Rome & Dalton R.R. br. to city of Wetumpka, Ala., system of ls., ds., short stretches of canal, and removal of rs. from chan. at various points; est., \$2,649,949, 81, 1222.

PROJECTS. (See Estimates and Plans.)

For version of proj. up to 1912, see Q 42(b), Projects.

By Capt. King, 1877, imp. Greensport to Selma, Rome & Dalton R.R. br. by excavation of chan. 4' x 80' at extreme l. w., and by a system of ls. and ds. around Ten Isld. Shoals; est., \$560,663, 77, 598, 81, 1871; 87, 1281.

By Capt. King and Lt. Marshall, 1878, ds. and ls. at Whistanants Mill and Ten Isld. Shoals; est. \$155,616.23, 78, 766.

Est. of the cost of this work increased from time to time on account of inadequate app. and modifications of the original proj., consisting mainly of the adoption of a better quality of work for the locks, cut-st. masonry being substituted for wooden cribs. In 1889, est. for completion was \$225,000, making a total est. \$748,700. 89, 1390, 1391; 12, 602.

By Capt. Price, 1889, imp., rapids at Wetumpka to imps. already completed above the Ten Islds., giving a complete system of slack-water navigation, with a minimum chan. d. of 6'; by removal of r. and the constr. of 27 ls. and ds., the ls. to be 52' x 320' between miter sills; est., \$6,074,913, 90, 1670, 1672, 1677, 1686.

In 1890, est. for completion of the imp. between Rome and the East Tennessee, Virginia & Georgia R.R. br., exclusive of the app. of 1890, was \$971,840, 90, 1641, 1642, 1644.

For prior proj. see 90, 1667, 1668.

Act Sept. 19, 1890, making an aggregate app. of \$300,000 for imp. of the Coosa R., fixed the dimen-

sions of the ls. at 40' w., with 210' between miter sills; est. for completion of 31 ls. and ds., \$6,038,214, 91, 1744, 1747, 1752.

Congress, 1892, removed restrictions as to sizes of ls. imposed by act Sept. 19, 1890, 97, 1644.

By Capt. Price, 1893, abandonment of cut st. in lock walls of Lock No. 31, except for quoins, and for adoption instead of a facing of concrete, 93, 1731.

By B.E., 1896, for modification of constr. of concrete floor of Lock No. 4, 96, 1423.

SURVEYS.

By H. C. Fillebrown, 1870-71, under direction of Maj. Reese, Capt. Damrell, Col. Simpson, and Maj. McFarland. R., 71, 561, 562, 564; 72, 502.

By J. C. Long, under direction of Maj. McFarland. R., 72, 516, 536.

By B. W. Frobel, 1874, under direction of Maj. McFarland. R., 75, ii, 661, 662.

By R. C. McCalla, under direction of Capt. King, and Lt. Marshall. R., 78, 762, 763.

By Capt. Damrell, 79, 106.

Detailed sur. of 24 m. below Lock No. 3, 82, 1856. Au. act Mar. 3, 1879; made by Capt. Damrell, 1880, Selma, Rome & Dalton R.R. br. to Wetumpka, Ala., 81, 1221.

Of Coosa R., rapids at Wetumpka to Ten Islds., au. act Aug. 11, 1888; made, 1889, by Capt. Price, 90, 1658, 1665.

Sur. of the proposed sites for Locks Nos. 9 and 10 commenced, 1898, 98, 1419.

Maps:

Of Ten Isld. Shoals, 78, 764.

90, 1644; 91, 1752; 92, Atlas, 68, 69; 94, 1288.

Box Shoals, 93, 1726.

St. crushing plant at Lock No. 4, 95, 1678.

Part(c), Q-52 Coosa River between Rome, Ga., and East Tennessee, Virginia and Georgia Railroad Bridge.

APPROPRIATIONS. (See preceding Q-52(b).)**COMMERCE.**

Imp. has resulted in reduction in rates between points on R. of not less than 50%; t., 1907, 124,078 t., 07, 368; 1910, 88,228 t., 11, 488; 1911, 40,840 t., 12, 602.

"The approved project is about 4 per cent completed, resulting in the construction of the lowest lock of the series, known as No. 31, excepting the dam and gates, the excavation of the channel between this lock and the one next above, and the preparation of data and plans for additional locks and dams.

"As yet no benefit has been derived from this improvement, and its value is entirely dependent on the completion of the entire system.

"The ordinary variation of the water surface at Wetumpka is 0 to 50 feet.

"The river is not navigable, and there is no commerce between Wetumpka and the East Tennessee, Virginia & Georgia Railroad bridge." 12, 603.

CONTRACTS.

1911. Brewer & Jones, sand, 65¢ c. y., gravel 85¢ c. y.; Southern States Portland Cement Co., 35,000 bbls. Portland cement, 51¢ sack at Lock, Ala., 45¢ sack at Rome, Ga.; Brewer & Jones, 6,000 c. y. sand, 95¢ c. y., 11, 1693.

Assistants:

N. A. Yuille. R. on sur., 05, 1369.

D. M. Andrews. R., 05, 1371.

OPERATIONS.

1900-01. Care of plant and mainten. of existing structures, 01, 1788.

1901-02. Repairs made to Dam No. 4, and new hull built for dr. boat, 02, 1274.

1902-03. Repairs to Dam No. 4 completed; tow boat *Leota* rebuilt, 03, 1230.

1903-04. 25,000 c. y. dr., 53 snags removed and 48 trees cut; 900 l. f. cribwork training dam constr. at Horseleg Shoals and filled with 910 c. y. st., 04, 1786.

1904-05. 35,820 c. y. sand, gravel, and slate removed and 3,210 l. f. j. built and repaired, 05, 1346.

1905-06. 37,335 c. y. removed and 1,900 l. f. dike built and repaired, 06, 1262.

1906-07. 7,000 c. y. sand and gravel dr. at Double Isld., 100 l. f. dam built at Crofts Shoals, and 3,000 c. y. sand and gravel removed, 07, 1359.

1907-08. 59,345 c. y. dr. and 1,495 l. f. js. built, 08, 1416.

1908-09. 35,800 c. y. dr. and 1,960 l. f. js. built, 09, 1403.

1909-10. 17,500 c. y. dr. and 2,300 l. f. j. built, 10, 1551.

1910-11. 7,860 c. y. removed; 1,000 l. f. j. built, 2,233 c. y. filled in above Dam No. 4; 2 barges and 2 quarterboats built; preparations for constr. 1. and d. at Mayos Bar begun; work on lock in Dam No. 11 and site for Dam No. 5 in progress; details given, 11, 1690, 1691.

1911-12. 2,100 c. y. r. removed; 3,260 c. y. filled in above Dam No. 4; repairs to floating plant; work at Mayos Bar 1. and d. R. wall nearly completed, land wall 75% completed, lockhouse built; at Dam No. 4 and Dam No. 5, concrete floor finished and part of land wall built, 12, 1907, 1908. Open chan. work 25% completed; 1. and d. at Mayos Bar 50% completed, and lock in Dam No. 4, 50% completed, 12, 601.

PHYSICAL CHARACTERISTICS.

Max. draft between Rome and Lock No. 4, 3', except at Horseleg Shoals, $\frac{1}{2}$ miles below Rome, 2', 12, 602.

PRIVATE WORK. (See last paragraph of Projects.)

PROJECTS.

Au. act June 13, 1902, provides for expend. of \$10,000 on imp. of Ostenaula and Coosawattee Rs., 02, 291.

Lt. Raymond recom., 1902, completion of Lock No. 4, and that lift of lock and height of dam be increased 3'; also that dam without a lock be built at site proposed for Lock 5, 02, 1275.

Act Mar. 3, 1905, au. in accordance with recom. of BE., Jan. 4, 1905, imp. of chan. between Rome, Ga., and Lock No. 4, and completing of Lock and Dam No. 4, 05, 1347, 1391.

Act June 4, 1906, au. completion of dam and forebay of Lock No. 4 by private interests, with an allowance of 2 years for commencement of work, 06, 352.

Act June 25, 1910, au. extending orig. proj., and providing for constr. of lock at Mayos Bar, near Rome, Ga.; estimate, \$241,039,¹ 10, 457. Act June 25, 1910, also au. constr. of lock in Dam No. 4, in accordance with plan printed in H. Doc. No. 1421, 60th Cong., 2d sess.; est., \$282,000; and acquisition of site for Dam No. 5, recom. to be placed at Choccolocco Shoals, est. \$134,000, 10, 457.

Increase in est. for completion of proj.s., 12, 602.

As given in an. R., 1912, orig. proj. au. Aug. 14, 1876, covered section from Rome, Ga., to Willis Creek, Ala.; est., \$180,000; provided for crib and timber lock 32' x 200' with 3' lift, and for excavating 4' chan. Act June 14, 1880, app. funds, presumably based on est. of 1876, of \$155,616.23, for 3 locks, Greensport to Woods Isld., at foot of Ten Isld. Shoals, 40' x 210', with extreme l. w. d. of 4' on miter sills, together with 3' chan. between Locks 1 and 3. Act Sept. 19, 1890, au. 5 ls. and ds. from and including No. 4, to the East Tennessee, Virginia & Georgia R.R. br. Plan called for ls. 52' x 280', but the act au. 40' x 210'. The plan also recom. connecting chan. 4' x 100', extreme l. w., at total est. of \$1,160,491—for the entire imp., \$1,496,107.23. Act July 13, 1892, modified act Sept. 19, 1890, removing restrictions as to size of ls. Act Mar. 3, 1905, restricted imp. of upper Coosa for mainten. of chan. between Rome, Ga., and Lock 4, Ala. Act Mar. 2, 1907, au. both imp. and mainten. by open-chan. work between Rome and Lock 4. Act June 25, 1910, au. lock in Dam No. 4, at est. of \$282,000, and acquisition of site for Dam No. 5, Ala., recom. to be placed at Choccolocco Shoals (est., \$134,000). Same act au. lock 40' x 272', with 9' lift, at Mayos Bar, near Rome, Ga., est. of \$241,039. Act Feb. 27, 1911, app. for continuing constr. of lock in Dam No. 4, and for constr. of dam No. 5. Same act au. raising Dam No. 4, 3' more, to provide for development of waterpower (franchise granted to Ragland Water Power Co., work to be paid by them, to be done under supervision of U. S. coordinately with U. S. imp.s.), 12, 600, 601.

SURVEYS.

Au. act June 13, 1902; made by Capt. Cavanaugh for 6' navigation in Coosa and Alabama Rs. (imp. in manner indicated not deemed advisable),² 04, 322; 05, 329, 1351.

Pre. ex. and sur., au. act Mar. 2, 1907, of Horseleg Shoals, near Rome, Ga., for 1. and d.; Rs., Capt. Ferguson, 1907 and 1908; est., \$241,039,¹ 09, 409.

Ex. and sur. au. by act Mar. 2, 1907, for location and constr. of Dam No. 5; Rs., Capt. Ferguson, 1907 and 1908; est., \$134,000,³ 09, 409.

Ex. and sur. of Etowah, Coosa and Tallapoosa Rs., au. act Mar. 3, 1909 (R. to come), 11, 490; 12, 605.

Maps.¹ 11, 1690.

Part (d), Q-52 Coosa River, Ga., between Wetumpka and East Tennessee, Virginia and Georgia Railroad Bridge.

APPROPRIATIONS. (See preceding Q-52(a).)

COMMERCE.

Before any C. can be developed the entire section must be improved; R. not navigable; no C., and at 1912 proj. only 4% done, 01, 363; 12, 603.

ENGINEERS.

Chief of Engineers. R., 01, 363; 02, 292; 03, 305; 04, 319; 05, 327; 06, 352; 07, 368; 08, 391; 09, 408; 10, 457; 11, 488; 12, 602.

In charge:

Capt. W. V. Judson, 1901. R., 01, 1790.
Lt. R. R. Raymond, 1902. R., 02, 1276.
Capt. J. B. Cavanaugh, 1903-07. R., 03, 1233; 04, 1788; 05, 1349; 06, 1264; 07, 1361.
Capt. H. B. Ferguson, 1908-10. R., 08, 1418; 09, 1404; 10, 1552.
Lt. Col. G. D. Fitch, 1911-. R., 11, 1694; 12, 1911.

OPERATIONS.

1900-01. Care and mainten. of plant and property, 01, 1790.

PHYSICAL CHARACTERISTICS.

Navigation impossible on this part of R., 02, 292.

PRIVATE WORK. (See last paragraph of Projects.)

PROJECTS.

Owing to insufficiency of funds Lt. Raymond recom., 1902, no further work be done on this section, except care of buildings and property at Wetumpka, Ala., 02, 1277.

Existing proj. of 1890, modified by acts of 1907 and 1910, specifies 23 ls. and ds. and chan. of 4'; also same d. from Wetumpka to Junction of Alabama and Tallapoosa Rs.; to allow constr. of 1. and d. at site of Dam No. 12 by private parties, 12, 603.

As given in an. R., 1912, orig. proj. au. Sept. 19, 1890, as result of sur. 1889, and modified by act July 13, 1892, contemplates slackwater navigation and provides for constr. of 23 ls. and ds. of varying lifts, of an available l. of 280' and w. of 52', with 6' over miter sills, no lift of l. to exceed 15'. Also, chan. to be cleared of r. reefs and points; to give 4' d.; est., \$5,106,422. Act Mar. 4, 1907, gave franchise to Alabama Power Co., for 1. and d. for water

¹ H. D. 1115, 60th, 2d.

² H. D. 219, 58th, 3d.

³ H. D. 1421, 60th, 2d.

power, at location of Lock and Dam No. 12, as embraced in sur. au. act June 13, 1902. Act June 25, 1910, au. combination of Coosa R. (Wetumpka to its junction with the Alabama and Tallapoosa Rs., 11 m. below Wetumpka) with that of Alabama R. At 1912 proj. about 4% done, resulting in completion of lowest 1. of series, No. 31, and some misc. work, 12, 602, 603.

SURVEYS.

Pre. ex. au. act Mar. 3, 1905, of Alabama R., with est. to provide 4' navigation from mouth to Mont-

gomery, and on the Coosa R. from Montgomery to Wetumpka (imp. of Coosa R. from Montgomery to Wetumpka not advisable),¹ 06, 354.

Pre. ex. and sur. au. act Mar. 2, 1907, of Alabama and Coosa Rs., between Montgomery and Wetumpka; Rs., 1907 and 1908; est., \$36,000,² 09, 409.

Cong. docs., etc., relating to exs., sur., plans, etc., 12, 603.

OBSTRUCTIONS.

Further expend. not recom. till the R.R. br. near Rome be provided with a suitable draw, **87**, 1278. Br. obstr. navigation, **89**, 2797.

OPERATIONS.

1874-75. R. imp. at various places by small riprap ds., removal of snags, gravel, etc., **75**, 77, 792.

1875-76. Removal of obstr. and constr. of ds. by hired labor, **76**, 87, 714.

1878-79. Removal of ob. r. and repairing and imp. ds. at 11 different points, **79**, 141, 1272.

1879-80. 472 c. y. r. and bowlders and 313 c. y. gravel excavated and 441 snags and overhanging trees removed, 807 c. y. r. quarried, and 1,513 c. y. r. placed in ds., **80**, 1692.

1880-81. 3,042 c. y. gravel, loose r., and 111 c. y. solid r. excavated; 133 c. y. st. quarried; 287 c. y. st. placed in dams; 46 snags and trees removed, **81**, 1874.

1881-82. 131 c. y. solid r. and 366 c. y. loose r. and gravel excavated; 26 snags removed, **82**, 1857.

1903-04. Work was begun Sept. 24, 1903, and completed Jan. 2, 1904; chan. cleared of obstr. from Rome to Carters Mill, Ga., to 2', m. l. w., and min. w. of 30'; 2,867 snags and other obstr. were removed, **04**, 1790.

PHYSICAL CHARACTERISTICS.

Description, **72**, 507; **74**, 532.

The Oostenaula is formed by the junction of Coosawattee and Conasauga Rs., 60 m. n.w. of Rome, Ga. Both streams are navigable for light draft boats from Rome to Carters Landing, 105 m., **02**, 291.

PLANS.

By R. C. McCalla, 1872, 3' water from Resaca to Rome \$10,000 to \$12,000, **72**, 509.

By Capt. Overman, 1874, removing snags, bars, etc., to obtain 2'-3' from Resaca to Carters Mills for 7 months, \$5,290; for 8 months, \$10,335; for 9 months, \$16,208.50, **74**, 582.

By Capt. King, 1879, completing proj., \$6,208.50, **79**, 141, 1272.

PROJECTS.

By Maj. McFarland, 1874, building dams, removal of snags, r., etc., with hired labor, **75**, 77, 792.

By Capt. Overman, 1874, 3' d. of chan. in the Oostenaula, and on the Coosawattee good navigation for boats drawing 2' during 9 months of the year, the imp. to be accomplished by the removal of snags and trees, gravel and r. bars; est. cost for Oostenaula, \$12,000, and for the Coosawattee, \$16,208.50, **74**, 583; **75**, 794; **80**, 1693.

Capt. Hoxie, 1888, stated that the existing chans. sufficed necessities, **88**, 1175.

Act June 13, 1902, app. \$10,000 for these 2 Rs. This sum, or so much thereof as might be necessary, be expend. in renewing works of contraction, removing snags and other obstr. from chan., and cutting overhanging trees from the banks where they obstr. navigation, **03**, 306.

¹ Oostenaula formed by the junction, 4 m. above Resaca, of the Conasauga and Coosawattee.

² Oostenaula R.

³ Trans. from app. for Coosa, Oostenaula and Coosawattee Rs.

In the absence of any ex. or sur. impossible to submit exact est.; there should be provided for this and any future work a small, light draft snag boat and 2 light draft barges, **03**, 1234.

No further app. recom. until the fixed brs. obstr. the Rs. are modified, **07**, 1362.

SURVEYS.

Navigation completely blocked by 2 brs., **93**, 1737.

OPERATIONS.

1882-83. 5,832 overhanging trees, stumps, logs, and snags removed, **83**, 997.

1883-84. 19,750 overhanging trees, stumps, logs, and snags removed, 220 l. f. brush js. built, **84**, 1187.

1884-85. Snag boat constr., **85**, 1308.

1885-86. 1,516 snags, logs, and trees removed, clearing the R. for about 19 $\frac{1}{2}$ m., **86**, 1174.

1890-91. Act Sept. 19, 1890, having removed the restriction upon the expend. of available funds, constr. of light-draft log boat begun, **91**, 1755.

1891-92. 1,613 snags and logs removed from the chan.; 277 c. y. gravel excavated; 1,550 l. f. willow j. constr., **92**, 1433.

1892-93. 7,176 obstr. from banks and stream, 23 c. y. r., and 1 R.R. br. truss removed, **93**, 1736.

1893-94. 7,515 obstr. and wreck removed, **94**, 1300.

PHYSICAL CHARACTERISTICS.

Table of shoals and other obstr., **75**, ii, 14.

Description of, **75**, ii, 12; **81**, 1233.

Character and slope of R. bed, **88**, 1186.

PLANS. (See Projects.)

By M. J. Mack: (1) Safe flat-boat navigation, Centerville down, stage of 3' above l. w., by operations of a snag boat; est., \$40,000. (2) Navigation, enabling SS. drawing net over 3' to ascend as far as Centerville at all seasons by the operations of a snag boat, by dr., r. excavation, and constr. of dams; est. \$194,598.75. (3) Lock and dam imp. to reach Cahabacoalfields. Comparison of various plans. **75**, ii, 13, 14, 15, 16.

By Maj. Damrell, 1883, to Lower Cahaba R. navigable chan. from mouth to Centerville, 88 m., giving 3' l. w. and a w. in open R. of 100', and in soft r. and bar cuts 60'; by removal of snags, dr. through soft r. and gravel bars, and by contracting and regulating chan.; est., \$195,000, **83**, 996; **86**, 202; **87**, 1287, **92**, 1432.

In 1894 Maj. Mahan recom. discontinuing imp. on account of the inability to prevent several brs. from obstr. the stream, **94**, 1300.

SURVEYS.

By M. J. Mack, 1874. **R.**, 75, ii, 11.

From Centerville to Shades Creek, **81**, 1232.

Pre. ex. mouth to Centerville, au. act Mar. 3, 1909. **R.**, Capt. Ferguson, 1909 (unfav.),² **10**, 460.

¹ The act of 1886 provides that no part shall be expend. until brs. crossing the R. are provided with suitable draws, **87**, 1287.

² H. D. 697, 61st, 2d.

R-1(a) MISSISSIPPI COAST HARBORS. (Dredge for.)

APPROPRIATIONS.

1907, \$375,000, 07, 394.
1908, 125,000, 08, 1454.

Total, 200,000 (incl. sales, \$200,002.10, 11, 1730).

CONTRACTS.

1908. Ellicott Machine Co., 20" hydraulic dr., \$144,000 delivered, 09, 1437.

1909. Ellicott Machine Co., suppl. for changes in hydraulic dr., decreasing total cost \$400. Thos. M. Favre, 61 wooden pontoons, \$9,120.22, 09, 1437.

ENGINEERS.

Chief of Engineers. R., 07, 394; 08, 419; 09, 438; 10, 487; 11, 525.

In charge:

Capt. J. B. Cavanaugh, 07, 369.
Maj. W. E. Craighill, 07, 369.
Maj. H. Jervey, 1907-10. R., 08, 1454; 09, 1436;
10, 1588.
Maj. C. A. F. Flagler, 1911. R., 11, 1730.

OPERATIONS.

1907-08. Plans and specifications for dr. constr. prepared, 08, 1454.

1908-09. Dr. about 80% completed; work on pontoons for pipe line 70% completed, 09, 1436.

1909-10. Dr. and pontoons for pipe line completed. Dr. named *Pascagoula*. Proj. completed, 10, 1588.

PROJECTS.

Act Mar. 2, 1907, au. constr. of dr. for Hs. on coast of Miss., and adjacent chans.; cost \$200,000, 07, 394.

R-3

MOBILE BAR, ALA.

APPROPRIATIONS.

1902, \$50,000, 05, 1400.
1905, 50,000, 05, 1400.
1907, 50,000, 07, 1370.
1909, *23,000, 09, 1412.
1910, 9,000, 10, 1559
1911, 5,000, 11, 1702.
1912, 10,000, 12, 1920.

Total, 197,000 (incl. misc., \$197,004.55, 12, 1920).

COMMERCE.

Statistics allied with Mobile H.

CONTRACTS.

1903. Rittenhouse Moore, drng., 30¢ c. y., 04, 1807.

1905. Southern Dredging Co., drng., 30¢ c. y., s. m., 06, 1272.

ENGINEERS.

Chief of Engineers. R., 05, 332; 06, 357; 07, 372; 08, 396; 09, 413; 10, 463; 11, 494; 12, 611.

In charge:

Maj. W. E. Craighill, 1905. R., 05, 1399.
Capt. J. B. Cavanaugh, 1906. R., 06, 1271.
Maj. H. Jervey, 1907-10. R., 07, 1370; 08, 1427;
09, 1412; 10, 1559.
Maj. C. A. F. Flagler, 1911-. R., 11, 1701; 12, 1920.

OPERATIONS.

1904-05. 43,697 c. y. dr., 05, 1399.

1905-06. 144,412 c. y. dr., 06, 1271.

1907-08. 185,683 c. y. dr. by U. S. dr. *Charleston*, 08, 1427.

1908-09. U. S. dr. *Charleston* removed shoals from center of chan. and increased the available d.

* Allotment.

1 \$25,000 allotted from Gulfport H. and \$50,000 from Pascagoula R.

from 27½' to 30'; d. 30' to 35' throughout chan., 09, 1412.

1909-10. 121,640 c. y. dr. by U. S. dr. *Charleston*, 10, 1559.

1910-11. U. S. dr. *Charleston* removed shoals from previously dr. chan. and d. unfinished parts, removing 32,184 c. y., 11, 1701.

1911-12. 63,852 c. y. dr. by U. S. dr. from outer bar and lower end of H. chan., 12, 1920.

R-8

FISH RIVER, ALA.

COMMERCE.

Incoming, not over 3,000 t. an.; outgoing, 4,000,000± f. b. m., manufactured lumber, 04, 1861

ENGINEERS.

Chief of Engineers. R., 04, 343.

Boards. BERH. reviews Capt. Cosby's R. on ex.; concurs as to inadvisability of imp., 04, 1862.

PROJECTS.

D. and w. chan. through Mobile Bar made a separate proj., 05, 1399.

Original proj. au. act June 13, 1902, provided for chan. 30' x 300' across Mobile Bar; est., \$91,250. This formed part of Mobile H. proj. until act Mar. 3, 1905, made it a separate proj.; limit of cost increased to \$100,000, 05, 332.

In charge. Capt. Spencer Cosby, 1904. R., 04, 1859.

PHYSICAL CHARACTERISTICS.

Details, 04, 1859.

SURVEY.

Pre. ex. au. act June 13, 1902. R., Capt. Cosby Feb. 6, 1903 (unfav.)¹ 04, 343, 1859.

COMMERCE.

Obstr. to C., 66, 53.

Benefits of imp. to C., 66, 53; 72, 581, 592; 77, 408; 86, 1189.

C. necessities of Mobile demand further imp., 77, 70; 78, 587.

C. port of Mobile, 80, 1056.

Amount of, dependent upon imp., 80, 1057.

Proj. effected an average reduction of 20% on rail rates from Atlantic seaport cities, and direct water rates to foreign ports, 05, 332.

Diagram showing relation of freight, tonnage, value and app., 11, 1698. 1911, 1,412,350 t., 12, 1919.

"The combined commerce, foreign and domestic, using Mobile Harbor during the calendar year 1911 aggregated 2,203,712 short tons, valued at \$59,027,974. Cotton and cotton products, breadstuffs, lumber, and timber were the principal articles of export, and bananas and sisal grass the most important imports.

"The effect of the improvement has been to give Mobile quite a large reduction on rail freight rates from Atlantic seaport cities, and to afford direct water freight rates from Mobile to foreign ports." 12, 609.

² Mobile B. and H., Ala.: Sur.—R. Nov. 15, 1826; est., \$10,000. Mobile H., Ala.: Ex.—R. (fav.) Nov. 25, 1852. (H. D. 482, 55th, 2d.)

³ \$50,000 of this app. to be used in d. chan. over outer bar, 02, 1281.

* Allotment.

1890. Alabama Dredging Co., dr., 422,691 c. y., 15¢ c. y., s. m., **93**, 1745.
1892. National Dredging Co., dr., 2,433,180 c. y., 7½¢ c. y., s. m., **93**, 1745; Rittenhouse Moore Dredging Co., dr., 44,684 c. y., 16½¢ c. y., p. m., **94**, 1304.
- 1896-98. National Dredging Co., hire of dr. plant, \$230 per day, **97**, 1666; **98**, 1429; **99**, 1700.
1899. National Dredging Co., dr., 7¢ c. y., **99**, 1701.
1902. National Dredging Co., dr., 8.3¢ c. y., s. m., **03**, 1240.
1903. Rittenhouse Moore, dr., on outer bar, 30¢ c. y., s. m., **04**, 1807.
1904. Rittenhouse Moore, dr., **05**, 1394.
1905. Geo. G. Barker, dr., 8.3¢ c. y., s. m.; Bowers Southern Dredging Co., dr., 9¢ c. y., p. m., **06**, 1269.
1906. Geo. G. Barker, dr., 8¢ c. y., s. m., **07**, 1368.
1907. Geo. G. Barker, dr., 7½¢ and 10¢ c. y., s. m. and p. m., respectively, **08**, 1425.
1909. Bowers Southern Dredging Co., dr., 9.95¢ c. y., p. m., **09**, 1409.
1910. Thos. M. Favre, wooden barge, \$4,250; S. E. Krebs and T. C. Gatti, 61 wooden pontoons, \$8,575.07; Atlantic Gulf and Pacific Co., dr. about 2,071,000 c. y. from Mobile B., 5.90¢ c. y., p. m., and 981,000 c. y. from Mobile R., 8.40¢ c. y., p. m., **11**, 1699.
1911. Coastwise Dredging Co., dr. 2,600,000 c. y., 5.38¢ c. y.; Southern Dredging Co., dr. 1,650,000 c. y., 5.45¢ c. y.; Home Dredging Co., dr. 600,000 c. y., 11.99¢ c. y., **12**, 1917. J. W. Gilbert, constr. bulkhead in Pinto Pass; prices listed, **12**, 1917-18.
1912. Thos. M. Favre, sur. motor boat, \$16,900, **12**, 1918.

ENGINEERS.

Chief of Engineers. **R.**, **63**, 2, 3; **70**, 63, 381; **71**, 68; **72**, 62; **73**, 66; **74**, 75; **75**, 80; **76**, 71; **77**, 69; **78**, 79; **79**, 100; **80**, 133, 1059; **81**, 180; **82**, 176; **83**, 186; **84**, 194; **85**, 207, 214; **86**, 205; **87**, 171; **88**, 159; **89**, 186; **90**, 168; **91**, 211; **92**, 206; **93**, 228; **94**, 210; **95**, 235; **96**, 207, 214; **97**, 263; **98**, 259; **99**, 303; **00**, 344; **01**, 364, 378, 1854, 1856; **02**, 293; **03**, 307; **04**, 322; **05**, 330; **06**, 355, 380; **07**, 369; **08**, 393; **09**, 409; **10**, 460; **11**, 491; **12**, 607.

Boards:

Convened, Mobile, Feb. 3, 1872, to prepare plan for imp. of Mobile H. and B.; also to report their views as to probable effect of work proj. by State board of harbor commissioners. Board of opinion that chan. 13' d. over Choctawhatchee and Dog R. Bar, for 9 m. from the inner H. of Mobile, should be dr., **72**, 590. Projs. proposed by the State board for the imp. of R., H., and B. of Mobile would be detrimental to the work in progress by the U. S., **72**, 576, 593. **R.**, **72**, 589. (Col. J. H. Simpson and Lt. Col. Z. B. Tower and H. G. Wright.)

State board for imp. of R., H., and B. of Mobile organized, **72**, 574.

B. E. convened, New York, Dec. 10, 1873, to consider and report upon questions relating to the imp. of Mobile H., Ala.; board recom. removal of 200' of lower extremity of Pinto Pt. Jetty, to be followed by further removal if subsequently judged necessary. **R.**, **74**, 893. (Col. Simpson and Lt. Col. Tower and Wright.)

Convened, New York, Feb. 28, 1880, to report upon plans and est. by Capt. Damrell for 17' and 22' chan. from fleet anchorage through B. into Mobile R. **R.**, **80**, 1060. (Cols. Tower and Newton and Maj. Abbot.)

In charge:

Capt. W. E. Merrill, 1866. **R.**, **66**, 52.
Maj. C. B. Reese, 1870; **70**, 63; **71**, 559.
Capt. A. N. Damrell, 1870; **70**, 63; **71**, 559.
Col. J. H. Simpson, 1870-72. **R.**, **71**, 560; **72**, 574, 589; **73**, 66.
Lt. Col. W. F. Reynolds, 1872-73, **73**, 66.
Capt. A. N. Damrell, 1873-95. **R.**, **73**, 691; **74**, 889, 893; **75**, ii, 3; **76**, 490; **77**, 407; **78**, 587; **79**, 799; **80**, 1049; **81**, 1169; **82**, 1245; (Maj.) **83**, 957;

84, 1151; **85**, 1336, 1374, 1375; **86**, 1183; **87**, 1293; **88**, 1193; **89**, 1428; **90**, 1691; **91**, 1771; **92**, 1435; **93**, 1743; **94**, 1301; **95**, 1683.

Maj. W. T. Russell, 1896-1901. **R.**, **96**, 1425, 1463; **97**, 1662; **98**, 1425; **99**, 1695; **00**, 2161; **01**, 1809, 1854, 1856.

Capt. Spencer Cosby, 1902. **R.**, **02**, 1281.

Capt. W. E. Craighill, 1903-05. **R.**, **03**, 1237; (Maj.) **04**, 1803; **05**, 1393.

Capt. J. B. Cavanaugh, 1906. **R.**, **06**, 1267.

Maj. H. Jervey, 1907-10. **R.**, **07**, 1365; **08**, 1421; **09**, 1407; **10**, 1555.

Maj. C. A. F. Flagler, 1911-13. **R.**, **11**, 1697; **12**, 1915.

Assistants:

Capt. Damrell, **70**, 63.

R. Rauchenstein, **72**, 581.

P. C. Boudousquie. **R.**, **96**, 1466.

David G. Anderson. **R.**, **03**, 1242; **04**, 1810.

ESTIMATES. (See Plans and Projects.)

1837-38. For completion, \$150,000, **72**, 603.

By Capt. Merrill, 1866, Mobile H., \$91,208, **66**, 54.

By W. D. Mann, 1870, dr., \$500,000, **70**, 382.

By Maj. Reese, 1870, dr., \$656,800, **71**, 559; **77**, 408.

By Col. Simpson, 1871, dr. and removal of obstr., \$774,315.52, **71**, 561; **72**, 598; **77**, 408. Completion \$451,908.85, **72**, 576.

By B. E., 1872, Mobile H. and B., \$609,847.87, **74**, 891.

By Capt. Damrell, 1873, completion, \$589,237.69, **77**, 69, 408.

By Capt. Damrell, 1878, chan. 17' x 200', \$826,107.66, **79**, 800. Chan. 21' x 200', \$2,088,187.18, **79**, 800.

LEGISLATION.

Alabama, 1869, created a commission for imp. of H., **71**, 63, 561.

Bonds issued by Mobile Co. to amount of \$45,000 (under act of legislature) for removal of obstr. in the H., **71**, 561.

OPERATIONS.

1837-38. **70**, 382.

1870-71. 38,800 c. y. dr., **71**, 560; **77**, 408.

1871-72. 107,963 c. y. dr., **72**, 575; **77**, 408.

1872-73. 163,269 c. y. dr., **73**, 692, 693; **77**, 408.

1873-74. 700' of dike and j. removed; 373,389 c. y. dr., **74**, 890, 891; **77**, 408.

1874-75. Wrecks removed; 353,752 c. y. dr., **75**, ii, 4; **77**, 408.

1875-76. 220,575 c. y. dr., **76**, 491; **77**, 408.

1876-77. 46,133 c. y. dr., **77**, 407, 408.

1877-78. **78**, 587.

1878-79. Repairs to vessels and ex. and sur. of H., **79**, 100, 799.

1880-81. 143,149 c. y. dr., **81**, 1170.

1881-82. 1,315,604 c. y. dr., **82**, 1247, 1248.

1882-83. 1,138,447 c. y. dr., **83**, 961.

1883-84. 888,093 c. y. dr., **84**, 1153.

1884-85. 1,296,841 c. y. dr., **85**, 1337.

1885-86. 623,597 c. y. dr., **86**, 1185.

1886-87. 829,854 c. y. dr., **87**, 1295. Statement of total dr. done 1879 to 1886, **87**, 1295.

1888-89. 1,426,390 c. y. dr. and 26 pile clusters placed; repairs to U. S. steam propeller, **89**, 1429.

1889-90. 886,005 c. y. dr., **90**, 1693.

1890-91. 896,964 c. y. dr., **91**, 1773.

1891-92. 2,559,346 c. y. dr., **92**, 1437.

1892-93. Over 2,460,180 c. y. dr., **93**, 1745.

1893-94. 5,323,339 c. y. dr., **94**, 1304.

1894-95. 6,842,271 c. y. dr., **95**, 1686.

1895-96. 2,903,990 c. y. dr., **96**, 1428.

1896-97. 1,314,286 c. y. dr., **97**, 1662.

1897-98. 464,010 c. y. dr., **98**, 1426.

1898-99. 361,710 c. y. dr. and deadheads removed from chan., **99**, 1696, 1697.

1899-00. 4,226,671 c. y. dr. and deadheads removed from chan., **00**, 2162.

1900-01. 3,637,739 c. y. dr., **01**, 1810.

1901-02. Snags and other obstr. removed from chan., **02**, 1281.

1902-03. 2,409,939 c. y., s. m., dr., **03**, 1243. Snags and other obstr. removed from chan.; no bids received for work on outer bar, **03**, 1244.

1903-04. 2,081,897 c. y., s. m., dr. from chan. in Mobile R. and B., **04**, 1810. 100,433 c. y., s. m., dr. from outer bar; dr. *Jumbo* lost on outer bar, **04**, 1812. Snags and other obstr. removed from R., **04**, 1805.

1904-05. 498,739 c. y., s. m., dr., and snags and other obstr. removed from chan., **05**, 1394.

1905-06. 867,905 c. y. dr., and 1,470 snags and other obstr. removed from chan., **06**, 1268.

1906-07. 1,109,410 c. y. dr., and snags and other obstr. removed from R., **07**, 1366.

1907-08. 3,464,943 c. y. dr., and 1,833 snags and other obstr. removed from chan., **08**, 1422.

1908-09. 2,168,533 c. y. dr., and 355 snags and other obstr. removed from chan., **09**, 1408.

1909-10. 350,221 c. y. dr., **10**, 1555. 594 snags and other obstr. removed from chan., **10**, 1556.

1910-11. 1,005,935 c. y. dr. from cut-off chan. (U. S.) and 1,620 544 c. y. dr. by contract; 1,253 snags and other obstr. removed from cut-off chan. in B. and 368 snags, etc., from R., by U. S., **11**, 1698.

1911-12. Total of 5,434,090 c. y. dr. by contract; and 3,748,365 c. y. by U. S. drs., **12**, 1915. Bulkhead in Pinto Pass 150' x 500' w. completed; U. S. snag boat *Demopolis* removed 3,142 snags and other obstr., **12**, 1916.

PHYSICAL CHARACTERISTICS.

Light drifting sand, **72**, 602, 603.

Description of, **72**, 590, 591; **80**, 1060; **96**, 1428, 1465.

Tabular statement showing condition of the dr. chan., **93**, 1747; **94**, 1306; **95**, 1687; **96**, 1429; **97**, 1663; **98**, 1427; **99**, 1697.

Filling of the dr. chans. to be constantly expected. Filling ex. 1895-96 so soft as to be easily moved by the action of waves, **96**, 1428.

Rapid shoaling of chan. since 1906, **07**, 371.

PLANS. (See Estimates, Private Work, and Projects.)

By Capt. Merrill, removal of sunken ironclads and piles placed in the H. by the Confederates, **66**, 52, 53.

By Col. Simpson, dr. cut 280' w. through Choctaw Bar and 250' w. through Dog R. Bar, **71**, 560.

By State board of harbor commissioners, 5,400 l. f. of js.; also canal through Pinto Isld., with 3 auxiliary canals, **72**, 576, 593, 594, 597. Imp. of Mobile compared with various other works, **72**, 601, 603.

By Capt. Damrell, 1878, chan. 21' x 200'; est. \$2,088,187.18, **79**, 100, 800.

By Capt. Damrell, 1879, chans. 17' and 22' d., **79**, 800; **80**, 1059.

Consideration of, by BE. of 1880, **80**, 1060, 1066.

PRIVATE (CORPORATE, COUNTY, AND STATE) WORK.

\$45,000 expend. removing obstr. from H. by Mobile Co., **71**, 559, 561; **72**, 598.

Work under direction of the State board for imp. of the R., H., and B. of Mobile, **72**, 598. State board abolished, **73**, 693. Total expend. by State board, \$72,025.95, **74**, 891; **77**, 70, 408.

Mobile Bay Breakwater Co. chartered by legislature, **77**, 408. Commenced work, **77**, 408.

PROJECTS. (See Estimates and Plans.)

Earliest app. made 1826; continued at irregular intervals to 1857, at which time there had been app. \$228,830.60. Resulted in a dr. chan. 10' x 200 through Pass and Dog R. Bar, **82**, 1246.

By Maj. Reese, chan. 11' x 300' through Choctaw Pass and Dog R. Bar, and dr. below Dog R. Bar to lower B.; est., \$656,800, **71**, 559. Appr. by Chief of Engineers, **72**, 574.

By BE., 1872, chan. 13' x 200' through Choctaw and Dog R. bars, 9 m.; est., \$609,847.87, **72**, 592; **73**, 692; **74**, 891. Appr. by Chief of Engineers and Sec. of War, **73**, 692.

By BE., 1872, removal of 200' of j. built by State board, **74**, 894.

By Capt. Damrell, 1878, chan. 17' x 200'; est., \$826,107.66, **79**, 100, 800; **80**, 1062.

BE. of 1880 recom. that if such a d. should satisfy shipping interests it be attained by dr. existing chan., **80**, 1065; **82**, 1246. Subsequent modifications in w. and direction at 2 points, **82**, 1247.

In 1878 sur. was directed to be made to determine whether existing chan. could be improved to 22'. In Mar., 1880, decided to continue former imp. by dr. 17' with uniform w. of 200' from 17' curve in Mobile R. to same d. in lower B.; est., \$820,000, **88**, 1194. Between 1881 and 1888 a total of \$765,000 was app. for this proj., **88**, 1194, 1196.

In 1885 proj. submitted by Maj. Damrell for imp. of Mobile R. and H., securing 23' d. by dr. chan. which, since 1870, had been imp. first from 9' to 13', then from 13' to 17'; chan. w. to be 280'; est., \$1,980,000, **89**, 1429, 1430.

App. of \$250,000 in 1888 being made specifically for the furtherance of proj. of 1885, imp. of H. continued 1888 under that proj., **89**, 1429.

In 1891 the cost of completing 17' chan., dr. chan. 23' x 280', removing fill during the progress of work, and dr. chan. in Mobile R. up to Chickasabogue 23' x 280' est. at \$2,043,800, with \$60,000 an. mainten., **91**, 1773-1775; **92**, 1437.

In 1896 Maj. Russell est. \$1,640,000 to d. and w. chan. to give bottom w. of 100', and \$60,000 an. mainten., **96**, 1465, 1466.

By Maj. OsseRill, 1900, d. and w. chan. through outer bar to 30' x 300'; est., \$91,250, **01**, 1854, 1857; **02**, 1282.

Proj. modified in act Mar. 2, 1907, to include completion of existing proj. at est. of \$560,000, and prosecution of operations to provide increased d. with app. of \$100,000 an. for 5 years; act au. continuing contracts in sum of \$360,000, and application of \$10,000 for removal of obstr.; constr. of a dr. recom. at various times since 1903, was also au., **07**, 370.

Amount heretofore au. by Congress for constr. of dr., with exception of \$5,000 for plans; may be used in dr. said H.; design of dr. undertaken, **08**, 394, 1423.

By Maj. H. Jervcy, dr. to 27' x 200' in B. and 300' w. in R., straightening and otherwise imp. chan., au. act June 25, 1910; est., \$1,802,548,² and the purchase of a dr. at cost of \$450,000, **08**, 1423; **10**, 461.

SURVEYS.

Mobile H., 1860, **70**, 382; 1870, **71**, 559, 578, **80**, 1052.

Chan. resur., 1873, **73**, 693.

\$10,000 app., 1878, for tests, sur., and borings in Mobile B., **78**, 79.

Ex. and sur. by Capt. Damrell, 1878, **79**, 100, 799. Chan., 1885, **85**, 1338.

Ex., 1884, for 23' chan., **85**, 1374.

Sur. of H., au. act of Aug. 17, 1894; made by Capt. Russell, 1895 (see Projects), **96**, 1463.

Pre. ex. and sur. au. act June 6, 1900, made by Maj. Russell, **01**, 1854.

Sur. of H. completed Sept., 1902, results of tidal observations, **03**, 1243.

Surs. of chan. and water front; tidal observations, **04**, 1811.

H. line sur. completed, **05**, 1395.

Sur. for 27' chan., au. act Mar. 3, 1905; made, 1905, by Maj. Craighill, **06**, 380.

Pre. ex. and sur., au. act of 1909; made by Maj. Jervcy, **10**, 488.

Ref. to ex. and sur. R., **11**, 493; **12**, 608.

Maps,¹ **66**, i; **80**, 1066; **84**, 1158; **96**, 1432; **97**, 1666; **98**, 1426; **99**, 1698; **00**, 2166; **12**, 1916.

Part (a), R-23**General Data.****COMMERCE.**

The Black Warrior, Warrior, and Tombigbee Rs., together with the Mobile R., connect the Warrior coal fields with the Gulf of Mexico.

Traffic, 1911-12, 200,000 t., 12, 1928, 1930, 1931, 1936.

Tombigbee R.—Mouth to Demopolis:

"The work of lock and dam construction has thus far had a marked effect on traffic. What effect the all-year-round 6-foot navigation will have when obtained can not be definitely stated until the project is completed, but indications are that it will cause great reduction in freight rates and develop an extensive traffic between the coal fields of western Alabama and the Gulf of Mexico." 12, 618.

"Commerce on this section during the fiscal year ending June 30, 1912, amounted to 149,900 short tons, principally logs, lumber, cotton, fertilizer, and general merchandise, valued at \$3,930,516.31.

"This project has directly resulted in affording water and lower rail rates from Mobile to points on the river below Demopolis, Ala." 12, 619.

Tombigbee R. from Demopolis, Ala., to Columbus, Miss.:

"This entire section of Tombigbee River is open to steamboat navigation throughout the year, except during the period of extreme low water in the fall of the year. At present the regular packet steamers out of Mobile navigate this part of the river during the winter and spring seasons, and it is reported that one steamboat line intends to build a light draft steamer to operate the balance of the year.

"Commerce on this section during the calendar year 1911 amounted to 45,399 short tons, valued at \$503,086, being principally cotton, cotton seed, fertilizer, hardware, logs, staves, and miscellaneous.

"The project results in affording lower rail rates from Mobile to points on the Tombigbee River above Demopolis for several months each year." 12, 621.

Tombigbee R. from Columbus to Walkers Br., Miss.:

"The total amount expended on improvement of this section of river up to the close of the fiscal year ending June 30, 1912, was \$90,120.55, of which \$56,309.71 was for maintenance.

"Commerce on this section during the calendar year 1911 amounted to 1,080 short tons of logs and

1,346 short tons of general merchandise, valued at \$30,145.

"The project has had no effect on freight rates." 12, 623.

Ls. and ds. on Black Warrior and Tombigbee Rs., Ala.:

"The total amount of commerce using the locks during the fiscal year ending June 30, 1911, was 424,949 short tons, while that for the fiscal year ending June 30, 1912, was 414,114 short tons, principally coal, stone, corn, cotton, logs, staves, and general merchandise. In addition to this there was considerable traffic in logs in the pool between Locks 4 and 5, and considerable coal was handled on the pool between Locks 12 and 13." 12, 625.

LOCKAGE LOCATIONS OR STRETCHES LISTED FROM MOBILE B. TO SOURCES.

Mobile R., Ala.

Tombigbee R., Ala. and Miss., including Locks 1 to 4.

Warrior R., Ala., including Locks 5 to 9.

Black Warrior R., Ala., including Locks 10 to 17

Mulberry Fork, Ala., includes Lock 20.

Locust Fork, Ala.

PHYSICAL CHARACTERISTICS.

The Black Warrior is formed by the junction of Mulberry and Locust Forks.

At Tuscaloosa the name changes to Warrior. The Warrior flows into the Tombigbee about a m. above Demopolis.

The Tombigbee and Alabama Rs. form the Mobile R. about 45 m. above Mobile.

The total length from Mulberry and Locust Forks to terminus is 408 m., and the total fall 214'.

PROJECT.

To 1903 Congress au. total of about \$2,500,000 for slack-watering the system. Of the 20 locks required 10 were built—1 building. BE. at that date rendered opinion that to render effective the proj. for the system would require \$1,200,000 to complete ls., etc., Tombigbee R.; \$710,000 complete Locks 5 and 6, Black Warrior R.; \$94,466 complete Locks 1, 2, 3, Warrior R.; \$150,000 for dr., etc., \$1,500,000 (tentatively) for 5 addl. ls., 04, 1845.

Special review of history of system, 04, 1845.

ESTIMATES. (See Plans and Projects.)

By P. Robinson, 1873, removing obstr. from
Aberdeen to Columbus, chan. 2½' x 60', \$92,500, 73,
549. Slack-water navigation, \$300,000, 73, 550.
Slack-water navigation between Tombigbee and
Tennessee Rs., \$1,705,312, 75, 805, 808.

By H. Harding, 1875, imp. of lower Black War-
rior, \$36,450, \$151,103, 75, ii, 17, 20, 23. Imp. of
upper Black Warrior R., \$431,000, 75, ii, 24.

By Capt. Damrell, 1876, imp. of Tombigbee and
Black Warrior Rs., \$172,603, 76, 497. Foregoing
est. increased to, 1879, \$250,000, 79, 832.

OPERATIONS.¹

1872-73. Removal of 250 snags from Tombigbee
R., between mouth and Demopolis, 73, 67, 697.

1873-74. Removal of obstr. from Tombigbee
R., between Aberdeen and Cotton Gin Port, 74, 70,
580.

1874-75. Removal of obstr. continued to Barris
Ferry, 75, 76, 791.

1875-76. On Tombigbee, 417 snags removed,
361 c. y. of r. excavated, 4,708 c. y. dr., and 4,533 l. f.
of js. and 1,228 l. f. of ds. built; also 791' of shore pro-
tection constr.; 21 bars improved, 76, 73, 497.

1876-77. On Tombigbee, 798 snags removed,
400 c. y. dr., and 5,076 l. f. js. constr.; also 1 wreck
removed; 12 bars improved, 77, 72, 417.

1877-78. Warrior R. cleared of obstr. to Log
Shoals; chan. 2½' d. from mouth to Eastport, 78, 81,
593.

1878-79. On Warrior R., 713 snags removed,
2,190 l. f. of js. built, and 7 bars improved. On
Tombigbee R., 911 snags removed and 3,305 l. f. of
js. built, 79, 831, 833.

1879-80. Obstr. removed and wing ds. built
on Tombigbee between Columbus and Demopolis,
80, 1088; 82, 1288.

1880-81. 586 trees and logs removed and 851
l. f. wing ds. built on the Black Warrior R., 81, 1204.
On Tombigbee R., between Columbus and Vienna,
5,656 l. f. of wing ds. built, 1,541 l. f. shore protection
placed, and 2,482 trees and logs removed, 81, 1207.

1881-82. On Black Warrior, 10,111 l. f. of ds.
and js. built, 4,608 logs and trees removed, 82, 1284.
On Tombigbee, below Columbus, 9,336 l. f. of wing
ds. built, 6,406 logs and trees removed, 1,100 c. y. r.
blasted, 82, 1290.

1882-83. On Black Warrior, 7,969 l. f. js. built
and repaired, 3,200 l. f. bank protected, 2,607 trees
and logs removed, 83, 1014. On Tombigbee, below
Columbus, 1,020 l. f. wing ds. built, 5,281 trees and
logs, and 1,900 c. y. of r. removed, 83, 1018.

1883-84. On Black Warrior, 1,354 logs and trees
removed, 84, 1204. On Tombigbee, below Colum-
bus, 800 snags and trees removed and 1,685 l. f. of
wing ds. built, 84, 1208.

1884-85. On Black Warrior, 267 trees and snags
removed and 500 cords of brush cut and piled, 85,
1346. On Tombigbee, a barge was built, 6,027 trees
and logs removed, and one-half m. of bank pro-
tected, 85, 1350.

1885-86. On Black Warrior, 250 logs removed
and caving bank protected, 86, 1193. On Tombig-
bee, 1,333 logs and trees removed, 86, 1197.

1886-87. On Warrior R. sur. in progress, 87,
1324.

1887-88. 1,107 snags removed from chan., and
432 trees cut from the banks on Tombigbee below
Vienna, 88, 1,207. 871 snags and stumps removed
from chan. and 242 trees from banks, clearing 25 m.

¹ Above Columbus, from Aberdeen to Waverly, 63 m., high-water navigation obtained at 1870, 79, 105,
831, 833. History of operations, to 1879, 74, 579; 79, 830, 833.

of R. and completing the proj. imp. between Vienna and Fulton, 88, 1205; 2,137 snags removed from chan., and 682 trees cut from the banks on Black Warrior between Demopolis and Tuscaloosa, 88, 1202. Constr. of Lock and Dam No. 1 begun on Black Warrior between Tuscaloosa and Daniels Creek, 88, 1199.

1888-89. Snags and trees removed on Tombigbee between Fulton and Walkers Br., 89, 1438. 7,811 c. y. st. quarried, 2,864 c. y. st. cut, 1,434 c. y. st. laid, and 816 c. y. r. and 1,500 c. y. earth excavated in l. and d. constr. on Black Warrior between Tuscaloosa and Daniels Creek, 89, 1434.

1889-90. Removal of obstr. continued in Tombigbee between Walkers Br. and Fulton, 90, 1701. 7,510 c. y. masonry laid, 4,100 c. y. st. quarried, 950 c. y. st. cut, 1,541 c. y. r. and 3,780 c. y. earth excavated, and 2,341 c. y. r. and earth backing placed behind bank wall in l. and d. constr. on Black Warrior between Tuscaloosa and Daniels Creek, 90, 1697.

1890-91. Constr. and repair of plant for snagging on the Warrior R., 91, 1778. 454 trees pulled, 2,886 trees cut, and 1,725 logs and stumps removed on Tombigbee between Walkers Br. and Fulton, 91, 1779. Preparation of plant for work on Tombigbee between Fulton and Vienna, 91, 1781. Snags, logs, and trees removed from Tombigbee from its mouth up to Demopolis, 91, 1783. 3,446 c. y. of st. quarried, 1,038 c. y. cut, and 567 c. y. laid; 1,255 c. y. r. excavation in lock pit; 3,700 c. y. of earth and r. filling behind lock wall in constr. of lock and dam in Black Warrior R. between Tuscaloosa and Daniels Creek, 91, 1786.

1891-92. 960 c. y. r. and 440 s. y. of paving used in bank revet. and dam at Lock No. 1; 2,793 c. y. r. and earth excavated in foundation; 3,475 c. y. r. quarried, and 6,121 c. y. of masonry laid at Lock No. 2; 681 c. y. st. quarried, at Lock No. 3, Black Warrior, Tuscaloosa to Daniels Creek, 92, 1442. 766 snags and 384 overhanging trees removed on Warrior and Tombigbee Rs., 92, 1446. 3,277 snags removed from chan., and 4,101 trees cleared from banks on Tombigbee bet. Fulton and Vienna, 92, 1449. 600 snags, 511 overhanging trees, 2,944 c. y. of r., and 3 wrecks removed, and 1,585 l. f. of j. repaired on Tombigbee from its mouth up to Demopolis, 92, 1450. 2,627 snags and 7,406 overhanging trees removed from Tombigbee bet. Demopolis and Columbus, 92, 1451.

PHYSICAL CHARACTERISTICS.

Description of, 71, 573, 575; 73, 551.
Obstr. to navigation, 71, 576.
Description of, Black Warrior R., 75, ii, 16, 17, 18-23; 83, 1011.
Tables of distances, 73, 551; 85, 1347.
Table of water levels and distances on Tombigbee R., 75, 804, 807.
Lowest summit level, 75, 806.
Caving banks on Tombigbee R., 80, 1089.
Description of Tombigbee and Black Warrior Rs., 88, 1200, 1206; 90, 1716.

PLANS. (See Estimates and Projects.)

T. Pearsall, 1871, reported that from Columbus, Miss., to Demopolis (the confluence of the Tombigbee with the Mobile R.) no permanent imp. to navigation could be made, 71, 572.

H. C. Fillebrown, 1871, reported that the R. could be temporarily imp. by removal of snags and sawyers; est., \$21,500, 71, 573, 576, 577.

By Col. Simpson, 1871, removal of RR. br. at Jones Bluffs to a point 300 y. farther down the R., 71, 573.

P. Robinson, 1873, Fulton to Columbus, Miss., slack-water navigation or excavating chan. reported impracticable, 73, 549, 550. Slack-water navigation, 1875, bet. Tombigbee and Tennessee Rs.; est., \$1,705,312, 75, 803, 807; reported impracticable, 75, 805, 809.

By H. Harding, slack-water navigation on the upper Warrior R. by locks and dams and by canal;

est., \$431,000, 75, ii, 23, 24. Imp. of the lower Black Warrior, Demopolis to Tuscaloosa, to procure chan. 80' x 4' d. by removal of obstr. and constr. of js., est., \$151,103; or for chan. 3' x 50', est., \$36,450, 75, ii, 22, 23.

Imp., Demopolis to Tuscaloosa, on Black Warrior R., by constr. of dams and pneumatic gates, snagging, bank revet., and bar imp.; est., \$577,000, 91, 1778.

PRIVATE (STATE) WORK.

State of Alabama contracted with Mr. McCarty for removal of obstr. from Tombigbee R. for \$20,000, 71, 575.

PROJECTS. (See Estimates and Plans.)

P. Robinson, 1873, reported impracticability of permanent imp. above Columbus; proposed temporary imp. by removal of snags, logs, etc.; est., \$35,000; approv. by Maj. McFarland, 73, 548.

By Col. Simpson, removal of obstr., snags, sawyers, etc., from mouth to Columbus, approv. by Chief of Engineers, 73, 697.

Capt. Damrell, 1875, recom. H. Harding's plan for imp. of lower Black Warrior and the Tombigbee, by removal of obstr. and constr. of js. and parallels and by protection of the shore; est. for chan. 80' x 4' Black Warrior R., \$151,103; Tombigbee R., \$21,500 (see Plans), 75, ii, 17; 76, 496; approv. by Chief of Engineers, 75, ii, 17; 76, 496; 80, 1085.

Orig. proj. amended, 1879, to provide 3' chan. m. l. w. on Tombigbee R., bet. Demopolis and Columbus; est., \$250,000, 79, 832; 80, 1088.

By Maj. Damrell, 1889, slack-water navigation, mouth of Tombigbee R. to Demopolis, with 3 locks and dams, dr., bank revet., and snagging; est., \$508,808, 92, 1450.

By Capt. Damrell, 1873, imp. of Tombigbee R. bet. Fulton and Columbus, 144 m., by removing snags and overhanging trees, to secure h. w. navigation.

In 1879, Capt. Damrell proposed imp. of section bet. Columbus and Vienna, to give l. w. chan. with min. d. of 3' and w. of 40' by clearing R. bed and banks of obstr., and d. bars by dikes and js.; total required for completion of imp., mouth to Fulton, \$205,000, 88, 1204; 89, 1439; 90, 170.

By Maj. Damrell, 1888, to secure chan. for h. w. navigation, Fulton up to Walkers Br., by removing snags and overhanging trees; est., \$11,000, 89, 1438.

By Capt. Damrell, 1875, imp. of Black Warrior R., forming chan. 4' x 80' from junction with the Tombigbee at Demopolis to Tuscaloosa, 140 m., by removing obstr., dr., blasting, and wing-dam constr.; est., \$151,103, 75, 17; 80, 1085.

By BE., 1886, slack-water navigation, bet. Tuscaloosa and Daniels Creek, 15 m., with 5 locks and fixed dams; est., \$741,670, 88, 1198.

By Maj. Damrell, 1889, slack-water imp., Demopolis to Columbus on the Tombigbee, with dam with pneumatic gates, and bank revet., snagging, and bar imp.; est., \$779,400, 90, 1720, 1721; 92, 1451.

SURVEYS.

By H. C. Fillebrown, 1870, Tombigbee R., mouth to head of navigation. (See Appropriation, 1870.) 71, 573, 574. Ex. by T. Pearsall, 71, 31, 572.

Of Tombigbee, 1872, by P. Robinson, bet. Fulton and Columbus, 73, 62, 548.

By H. Harding, 1874, of Black Warrior R., 75, ii, 16, 17.

By P. Robinson, 1875, water communication from Tombigbee R. to the Tennessee R., by way of Big Bear Creek, 75, 77, 803, 806.

Of Warrior R., 1879, Tuscaloosa to Forks of the Sipsey R., 79, 106.

Ex. for continuous navigation Vienna, Ala., to Walkers Br., Miss., au. act Aug. 5, 1886; made, 1887, by Maj. Damrell, 88, 1226, 1227.

Sur. of Warrior R. from Tuscaloosa to Demopolis, and of the Tombigbee R. from mouth up to Cotton Gin, au. act Aug. 11, 1888; made, 1889, by Maj. Damrell, 90, 1719.

Part (d), R-23. Tombigbee River, below Demopolis, Ala. (Mainly maintenance and lock and dam construction.)

APPROPRIATIONS. (See p. 652.)

COMMERCE.

Description of; large C. in timber products, cotton and general merchandise, **96**, 1442.

Rates reduced between Mobile and lower Tombigbee R. points, **06**, 365.

Value, 1912, \$3,930,516.31; tons, 149,900, **12**, 619.

CONTRACTS.

1908. Ed. J. Howard, building and delivering 2 self-propelling, stern-wheel snag boats for \$38,000, \$12,000 of which is to be paid for from this app. and the balance from other app., **08**, 1435.

ENGINEERS.

Chief of Engineers. **R.**, **93**, 230; **94**, 212; **95**, 237; **96**, 209; **97**, 266; **98**, 262; **99**, 306; **00**, 347; **01**, 367; **02**, 297; **03**, 311; **04**, 327; **05**, 336; **06**, 364; **07**, 378; **08**, 402; **09**, 418; **10**, 467; **11**, 501; **12**, 618

In charge:

Maj. A. N. Damrell, 1893-95. **R.**, **93**, 1758; **94**, 1313; **95**, 1694.

Maj. W. T. Russell, 1896-01. **R.**, **96**, 1437; **97**, 1678, 1685; **98**, 1434, 1436; **99**, 1711; **00**, 2202; **01**, 1835.

Capt. Spencer Cosby, 1902. **R.**, **02**, 1296.

Capt. W. E. Craighill, 1903-05. **R.**, **03**, 1248; (Maj.) **04**, 1818; **05**, 1406.

Capt. J. B. Cavanaugh, 1906. **R.**, **06**, 1277.

Maj. H. Jervey, 1907-10. **R.**, **07**, 1376; **08**, 1434; **09**, 1417; **10**, 1567.

Maj. C. A. F. Flagler, 1911-. **R.**, **11**, 1706; **12**, 1927.

Assistants:

T. W. Nicol. **R.**, **96**, 1439.

Lt. M. L. Walker, **01**, 364.

First Lt. Wm. G. Caples, **08**, 393; **09**, 409.

Capt. C. O. Sherrill, **11**, 490.

OPERATIONS.

1892-93. Over 900 obstr. removed, 841 piles cut for js., and about 1,772 c. y. dr., **93**, 1758.

1893-94. About 1,100 obstr. removed, 631 l. f. old js. repaired, 257 l. f. shore protection constr., and 19,142 c. y. dr., **94**, 1314.

1894-95. Over 7,000 obstr. removed, 16,659 c. y. dr., and 1,294 l. f. old js. repaired, **95**, 1695.

1895-96. Work commenced on Lock and Dam No. 1, about 2,600 obstr. removed, 11,708 c. y. dr., and 585 trees trimmed, **96**, 1438.

1896-97. Work on Lock No. 1 continued, over 3,000 obstr. removed, and 8,178 c. y. dr., **97**, 1686.

1897-98. 1,368 obstr. removed, 2,218 c. y. excavated and removed, and work continued on Lock No. 1, **98**, 1437.

1898-99. 155 c. y. r., 127 snags, and other obstr. removed from chan., and borings made for locksites, **99**, 1711.

1899-00. Constr. of lock at McGrews Shoals in progress, **00**, 2203.

1900-01. Removed 335 snags, 190 sunken trees, 6 stumps, and 53 trees; care and preservation of public property; lock at McGrews Shoals practically completed, **01**, 1835.

1901-02. Care and preservation of public property, **02**, 1296.

1902-03. Warrior and Tombigbee Rs.; snagging operations continued, **03**, 1248.

1903-04. Mainten. operations by snagging continued, **04**, 1818.

1904-05. New shore connection for the Osage Bar Diike constr.; mainten. work continued; repairs made to snag boat, **05**, 1406.

1905-06. Mainten. work by snagging continued, **06**, 1277.

1906-07. 400 obstr. removed, **07**, 1376.

1907-08. Occasional snagging, and care and preservation of property; snag boat under constr. for use in this section of R., **08**, 1434.

1908-09. 1,028 obstr. removed; new snag boat *Tombigbee* completed and received, **09**, 1418.

1909-10. Mainten. work continued over 185 m. of R., removing 4,445 logs, snags and stumps; repairs made to snag boat, **10**, 1567.

1910-11. 54,104 obstr. removed from chan. and banks of R., **11**, 1707.

1911-12. 22,519 snags and other obstr. removed; work of dike constr. performed at mouth of West Bassetts Creek, **12**, 1927.

PHYSICAL CHARACTERISTICS.

Description of, **96**, 1439.

R. navigable for SS. drawing not more than 3' all year, except at periods of extreme l. w.; flood stages rise to 60' above l. w., **11**, 502.

PROJECTS.

Maj. Damrell, 1895, est., \$10,000 an. for mainten., **95**, 1695.

Act Mar. 2, 1902, modified proj. of this section so as to make work of lock and dam constr. a part of proj. for imp. of Black Warrior, Warrior and Tombigbee Rs., **03**, 1248.

Act June 13, 1902, au. proj. for mainten. chan. by removing obstr., etc., and repair of dikes, **03**, 312.

SURVEYS.

Ex. for sites of locks and dams, made in 1892 by Maj. Damrell, **93**, 1758; **11**, 1708.

Maps, **96**, 1442.

Part (e), R-23. Tombigbee River, Demopolis to Columbus, Ala. and Miss.

APPROPRIATIONS. (See p. 652.)

COMMERCE.

1911, 45,399 t.; value, \$503,086, imp. induces low rates on adjacent railways, **12**, 621.

CONTRACTS.

S. E. Krebs and T. C. Gatti, building snag boat, \$7,224.05, **11**, 1709.

ENGINEERS.

Chief of Engineers. **R.**, **93**, 231; **94**, 213; **95**, 238; **96**, 209; **97**, 267; **98**, 263; **99**, 307; **00**, 349; **01**,

In charge:

Maj. A. N. Damrell, 1893-95. **R.**, **93**, 1759; **94**, 1315; **95**, 1695.

Maj. W. T. Russell, 1896-1901. **R.**, **96**, 1443; **97**, 1678, 1687; **98**, 1434, 1438; **99**, 1712; **00**, 2205; **01**, 1836.

Capt. Spencer Cosby, 1902. **R.**, **02**, 1297.

Capt. W. E. Craighill, 1903-05. **R.**, **03**, 1249; (Maj.) **04**, 1820; **05**, 1408.

Capt. J. B. Cavanaugh, 1906. **R.**, **06**, 1278.

Maj. H. Jervey, 1907-10. **R.**, 07, 1377; 08, 1435; 09, 1419; 10, 1568.
 Maj. C. A. F. Flagler, 1911-. **R.**, 11, 1708; 12, 1928.

Assistants:

Lt. M. L. Walker, 01, 364.
 1st Lt. Wm. G. Caples, 08, 393; 09, 409.
 Capt. C. O. Sherrill, 11, 491.

OPERATIONS.

1892-93. About 19,000 obstr. removed, 93, 1760.

1893-94. About 6,000 obstr. removed and 520 l. f. js. repaired, 94, 1315.

1894-95. Continuation of work of previous year, 95, 1696.

1895-96. About 17,000 obstr. removed, 10 c. y. r. excavated and removed, and 300 l. f. js. repaired, 96, 1444.

1896-97. Over 8,000 obstr. removed, 418 l. f. js. repaired, and j. work in progress, 97, 1688.

1897-98. About 5,000 obstr. removed, 90 l. f. old js. repaired, 1,507 c. y. gravel, sand, and clay excavated, and j. work in progress, 98, 1438.

1898-99. 2,125 c. y. r., about 31,000 snags and other obstr. removed from chan., and js. repaired, 99, 1713.

1899-00. Over 1,000 c. y. gravel, clay, and sand, and about 19,000 snags and other obstr. removed from chan., 00, 2205.

1900-01. 2,107 logs, snags and stumps removed from chan., and 22,475 logs, trees and bushes cut and removed from banks, 01, 1837.

1901-02. Snag boat *Demopolis* repaired, 02, 1297.

1902-03. Mainten. by snagging, 03, 1249.
 1903-04. Chan. obstr. removed, 04, 1820.
 1904-05. Snagging work continued; snag boat repaired, 05, 1408.

1905-06. Snagging operations continued over 47 m. of R., 06, 1278.

1906-07. Mainten. continued by snag boat *Vienna*, working over about 110 m. of R.; snag boat repaired, 07, 1377.

1907-08. 3,409 obstr. removed, 995 piles driven and 1,905 sq. ft. mattresses laid, 08, 1436.

1908-09. 1,588 obstr. removed, 09, 1419.

1909-10. 1,469 obstr. removed, 10, 1568.

1910-11. 10,787 obstr. removed, mostly from banks, 11, 1708.

1911-12. 12,361 snags and other obstr. removed from chan. for 136 $\frac{1}{2}$ m., 12, 1928.

PHYSICAL CHARACTERISTICS.

M. l. w. draft 2'; flood stages rise to 60', 11, 503.

PROJECTS.

In 1893, Maj. Damrell, est., \$10,000 an. for mainten., 93, 1760.

As imp. of R. above Aberdeen is impracticable, app. should be made for "Tombigbee R., from Demopolis, Ala., to Aberdeen, Miss.," 11, 504.

SURVEYS.

Pre. ex., Demopolis to Columbus, with a view to obtaining continuous chan. 4' d., au. act Mar. 3, 1905; **R.** by Maj. Craighill, Dec. 9, 1905 (unfav.),¹ 07, 395.

Cong. docs., etc., relating to exs., surs., plans, etc., 12, 620.

Part (f), R-23. Tombigbee River, Fulton to Columbus, Miss.²

APPROPRIATIONS. (See p. 652.)

ENGINEERS.

Chief of Engineers. **R.**, 93, 231; 94, 213; 95, 238; 96, 210; 97, 268; 98, 264; 99, 308; 00, 349; 01, 369; 02, 299.

In charge:

Maj. A. N. Damrell, 1893-95. **R.**, 93, 1760; 94, 1816; 95, 1697.

Maj. W. T. Russell, 1896-1901. **R.**, 96, 1445; 97, 1673, 1689; 98, 1434, 1439; 99, 1714; 00, 2206; 01, 1837.

Capt. Spencer Cosby, 1902. **R.**, 02, 1298.

Assistant. Lt. M. L. Walker, 01, 364.

OPERATIONS.

1892-93. About 7,500 obstr. removed, 93, 1761.

1893-94. Over 3,000 obstr. removed, 94, 1316.

1895-96. A few obstr. removed, 1,080 c. y. gravel and clay, 291 fascines and 90 piles used in closing a slough, a small br. for constr. purposes was built, and 180 l. f. old js. repaired, 96, 1446.

1896-97. Over 1,100 obstr. removed, 97, 1689.

1897-98. Over 12,110 obstr. removed, 284 l. f. shore protected, and 36 c. y. r. excavated, 98, 1439.

1899-00. About 6,300 snags and other obstr. removed from the R., and banks protected, 00, 2206.

1900-01. 5,032 stumps, snags, logs, trees and bushes cut and removed, 01, 1838.

PROJECTS.

Maj. Damrell, 1893, est., \$5,000 an. for mainten., 93, 1761.

Act June 13, 1902, au. \$4,000 from app. for Tombigbee R., mouth to Demopolis, to maintain chan. between Fulton and Columbus, removing snags, etc., 02, 299.

Part (g), R-23. Tombigbee River, above Columbus, Miss.

APPROPRIATIONS. (See p. 652.)

ENGINEERS.

Chief of Engineers. **R.**, 80, 139; 81, 187; 82, 184; 83, 196; 84, 204.

Chief of Engineers. **R.**, **03**, 313; **04**, 330; **05**, 339; **06**, 366; **07**, 381; **08**, 405; **09**, 421; **10**, 470; **11**, 504; **12**, 621.

In charge:

Capt. W. E. Craighill, 1903-05. **R.**, **03**, 1250; (Maj.) **04**, 1821; **05**, 1409.

Capt. J. B. Cavanaugh, 1906. **R.**, **06**, 1279.

Maj. H. Jervey, 1907-10. **R.**, **07**, 1378; **08**, 1437; **09**, 1420; **10**, 1569.

Maj. C. A. F. Flagler, 1911-. **R.**, **11**, 1709; **12**, 1930.

Assistants:

D. G. Anderson. **R.**, **03**, 1252.

1st Lt. Wm. G. Caples, **08**, 393; **09**, 409.

Capt. C. O. Sherrill, **11**, 491.

OPERATIONS.

1902-03. Mainten. by obstrn. removal, **03**, 1251.

1903-04. Snagging operations continued, **04**, 1821.

1904-05. Snagging operations resumed June 16, 1905, and 2 m. of R. covered, **05**, 1409.

1905-06. Mainten. over about 50 m. of R., **06**, 1279.

1907-08. Snagging operations continued over 60 m. of R. and 28,335 obstr. removed, **08**, 1437.

1908-09. 102 obstr. removed, trees felled and cut up, **09**, 1420.

1909-10. 4,720 logs, snags, and stumps removed, **10**, 1570.

1911-12. Snag boat *Vienna* repaired and cared for, etc., **12**, 1930.

PHYSICAL CHARACTERISTICS.

R. above Aberdeen full of obstrs., **11**, 1710.

PROJECTS.

Act of June 13, 1902, consolidated impt. of the 2 upper sections of the Tombigbee R., viz, "Fulton to Columbus" and "Fulton to Walkers Bridge" under the head of "Columbus to Walkers Bridge"; act also provided for an allotment of \$4,000, not exceeding, for imp. of this section, to be drawn from app. for imp. Tombigbee R., mouth to Demopolis, **03**, 1250.

Maj. Craighill did not consider this section of the R. worthy of further imp. by the U. S.; small C. and few persons benefited, **05**, 1409.

Chief of Engineers, Apr. 14, 1911, directed work be restricted to imp. at and below Aberdeen, **12**, 622.

SURVEYS.

Ex. of R. by Maj. Flagler to determine whether further expend. be advisable; found unworthy of mainten. above Aberdeen, Miss., **11**, 1709.

Cong. docs., etc., relating to exs., surs., plans, etc., **12**, 622.

Part (i), R-23 Tombigbee River, Walkers Bridge to Fulton, Miss.²

APPROPRIATIONS. (See p. 652.)

ENGINEERS.

Chief of Engineers. **R.**, **93**, 232; **94**, 214; **95**, 239; **96**, 210; **97**, 268; **98**, 264; **99**, 308; **00**, 350; **01**, 370; **02**, 300.

In charge:

Maj. A. N. Damrell, 1875-95. **R.**, **93**, 1762; **94**, 1317; **95**, 1698.

Maj. W. T. Rossell, 1896-1901. **R.**, **96**, 1446; **97**, 1673, 1690; **98**, 1434, 1440; **99**, 1715; **00**, 2207; **01**, 1839.

Capt. Spencer Cosby, 1902. **R.**, **02**, 1299.

Assistant. Lt. M. L. Walker, **01**, 370.

OPERATIONS.

1892-93. 2,883 obstr. removed from banks and stream, **93**, 1762.

1893-94. About 2,000 obstr. removed, **94**, 1318.

1896-97. About 1,500 obstr. removed, **97**, 1690.

1898-99. About 1,800 snags and other obstr. removed from the chan. and banks of R., **99**, 1715.

1899-00. 152 snags and other obstr. removed from chan., **00**, 2207.

PROJECTS.

Maj. Damrell, 1893, est. \$2,500 an. for mainten., **93**, 1762.

Act June 13, 1902, au. \$4,000 from app. for Tombigbee R., mouth to Demopolis, for mainten. chan. between Walkers Br. and Fulton, removing snags, etc., **02**, 300.

¹ Continuation of Part f and Part i, combined.

² Act June 13, 1902, consolidated this section with the section "Fulton to Columbus, Miss.," under the head "Columbus to Walkers Bridge, Miss.," under which head it is carried after 1902.

Part (j), R-23**Warrior River, Ala.****APPROPRIATIONS.** (See p. 652.)**COMMERCE.**

Details of, **97**, 1682; **01**, 1830.
 Large traffic in coal growing, **97**, 1682.
 Large rafting business done, 1900, on the lower part of the R. for mills in Demopolis, **00**, 2182.

CONTRACTS.

1900. Christie, Lowe & Heyworth, constr. Locks and Dams Nos. 4, 5, and 6, \$417,230.20, **00**, 2185.

1901. Chattanooga Car & Foundry Co., castings, heel posts and sockets, 3.72¢ lb., **01**, 1831.

1902. Christie, Lowe & Heyworth, increase in materials to be furnished in constr. of Locks and Dams Nos. 4, 5, and 6, and for increase in price of excavation at Lock No. 5, **02**, 1293.

ENGINEERS.

Chief of Engineers. **R.**, **93**, 230; **94**, 212; **95**, 237; **96**, 208; **97**, 265; **98**, 261; **99**, 305; **00**, 346; **01**, 360, 378; **02**, 296.

LEGAL PROCEEDINGS.

Purchasing of sites for locations of proposed Locks 14 and 15; deeds delivered to Dept. of Justice for ex., 07, 1370.

OPERATIONS.

1893-95. Constr. of Locks Nos. 1, 2, and 3 in progress, 93, 1753; 94, 1310; 95, 1692.

1895-96. Locks Nos. 1, 2, and 3 completed, and preparations in progress for constr. of Lock No. 4, 96, 1434.

1896-97. Preparations continued for work on Lock No. 4, 97, 1668.

Detailed description of work done on other locks given, 97, 1668, 1669.

1897-98. U. S. Engineer office in Tuscaloosa connected with Locks Nos. 1, 2, and 3 by telephone, 98, 1430.

1898-99. Gauges read daily; plant cared for, and plan and specifications for Lock and Dam No. 4 prepared, 99, 1702.

1899-00. Constr. of Lock and Dam No. 4 in progress, 00, 2167.

1900-01. Work on Lock No. 4 in progress, 36.8% completed; lock tender's house completed, 01, 1816.

1901-02. Building of bank wall and R. wall of lock continued, masonry 84% completed; cofferdam constr. begun, dam 16% done, 02, 1286.

1902-03. Constr. of Lock No. 4 continued; dam about 80% completed, 03, 1245.

1903-04. Work on Lock No. 4 (to be known as No. 13 when completed) continued; summary given, 04, 1812.

1904-05. Work on Lock No. 13 (formerly No. 4) completed in May, 1905; lock gates erected and 296 c. y. st. placed as riprap, 05, 1401.

1905-06. Lock No. 13 was opened for traffic on July 4, 1906; bank below abutment graded and 2,062 c. y. st. placed as riprap, 06, 1272.

1907-08. Constr. of Locks Nos. 14 and 15 commenced; contractor's plant on ground; R.R. built for delivery of material, 08, 1428.

1908-09. Constr. of Locks Nos. 14 and 15 continued, 55% completed; Lock No. 16 begun; site purchased for Lock No. 17; survey for Locks Nos. 18 and 19 completed and plans prepared, 09, 1412, 1413.

1909-10. Locks Nos. 14 and 15 completed and opened for traffic; constr. of Lock No. 16 continued and about 30% completed; lock tender's house built, 10, 464, 1560.

1910-11. Constr. of Lock No. 16 continued; preliminary work of excavation, etc., commenced at Lock No. 17; repairs made to snagboat R. C. McCalla; carpenter shop built at boatways, Lock No. 12; proj. for R. 60% done, 11, 1702.

1911-12. Work on Lock No. 16 continued; building of cofferdam, excavating, and erection of concrete plant in progress at Lock No. 17, 12, 1921.

PHYSICAL CHARACTERISTICS.

Description of 96, 1433, 1462; 04, 1845.

Condition of works, 01, 1817.

Completion of 6 locks affords 6' navigation at l. w. for 25 m.; chan. w. 250', 11, 496.

PLANS.

By Capt. Damrell, 1880, slack-water navigation between Tuscaloosa and forks of Sipsey and Mulberry, with locks and dams. Est. cost, \$1,200,000. 81, 1218, 1220; 85, 1354; 86, 1199.

By Maj. Damrell, 1885, slack-water navigation between Tuscaloosa and Daniels Creek, with movable locks and dams. Est. cost, \$245,786. 85, 1354.

PRIVATE WORK.

Warrior Southern R. R. Co. built retaining wall along their tracks, 06, 1272.

PROJECTS.

By BE., 1886, slack-water navigation bet. Tuscaloosa and Daniels Creek, with locks¹ and fixed dam. Est. cost, \$566,104. 86, 1200; 87, 1300, 1301, 1303. Given as \$741,670, 03, 309.

In 1896, Capt. Rossell est. \$1,750,000 to constr. 8 locks and dams bet. Daniels Creek and the Mulberry and Locust Forks, 96, 1462.

Act Mar. 3, 1899, au. constr. of Lock No. 4, at cost not to exceed \$190,500, 01, 365. Found, later, that Lock No. 4 could not be completed for \$190,500, and act June 13, 1902, au. trans. of \$14,000 from unexpended balance of app. for Warrior R.; same act extended upper limit of imp. to junction of the Mulberry and Locust Forks of the R. 46½ m. above Tuscaloosa, and au. sur. for Locks 5 and 6, 02, 295. Capt. Cosby submits revised est. of total cost of completing Lock and Dam No. 4 (\$204,500), 02, 1288.

Act Mar. 2, 1907, au. constr. of Locks and Dams Nos. 14, 15, 16, and 17; est., \$1,409,000, to be provided under continuing contract au., 07, 374.

In 1907-8 it was decided to use 2 locks, 16 and 17, of 21' lift instead of 3 of 14' lift each, on Squaw Shoals, reducing the number needed to 19, 08, 938; 09, 414.

Act Aug. 22, 1911, changed lift of Lock No. 17 to 63', thus further reducing the number of locks below the Locust and Mulberry Forks to 18, extending slack water to Sanders Ferry, 36 m. above the forks, on the Mulberry, and to Nichols Shoals, 16 m. above the forks, on the Locust, and dispensing with 1 lock on each fork, 12, 612.

SURVEYS.

Au. act of Mar. 3, 1879; made by Capt. Damrell, 1879, 81, 1218.

Sur. of the R. from Tuscaloosa to the Mulberry and Locust Forks au. act Aug. 17, 1894; made in 1895 by Capt. Rossell (see Projects), 96, 1463.

Minor sur. made, 1899, 99, 1702.

Au. act June 13, 1902, for location of Locks Nos. 5 and 6 (now Nos. 14 and 15) on Black Warrior, and locks on Tombigbee R., made and **R.**, dated Nov. 13 and Dec. 28, 1903, submitted by Capt. Craighill, with revised est. for constr. of locks and dams, 04, 343, 1840-1842.

Location sur. and foundation borings for Locks Nos. 16, 17, 18, and 19, 08, 1428.

Ex. and sur. of Mulberry and Locust Forks, B. W. R.—up Mulberry to Sanders Ferry and up Locust to Five Mile Creek—made. **R.** made, 1909 and 1910, 11, 496.

Cong. docs., etc., relating to ex., sur., plan, etc., 02, 296; 11, 496; 12, 613.

Maps, 96, 1434; 00, 2170; 11, 1702;

¹ Numbering of locks changed, 1903, to be in series from Mobile to head of Black Warrior R., 04, 1840.

² H. D. 239, 57th, 1st.

³ H. D. 72, 62d, 1st.

Part (I), R-23 Black Warrior, Warrior, and Tombigbee Rivers, Ala. and Miss. (Locks and dams building.)

APPROPRIATIONS. (See p. 652.)

COMMERCE.

Lock and dam system has marked effect upon traffic, **10**, 466.

Indications are that imp. will cause great reduction in rates and develop extensive traffic between coal fields of western Alabama and the Gulf of Mexico, **12**, 616.

CONTRACTS.

1903. M. T. Lewman & Co., constr. of Locks and Dams Nos. 1, 2, and 3, at \$266,414, \$215,641, and \$235,436, resp., abandoned work, **03**, 1248.

1905. P. H. O'Brien, excavation work, hire of teams and outfits in connection with constr. of Locks and Dams Nos. 1, 2, and 3, prices listed; Southeastern Lime & Cement Co., 7,500 bbls. Portland cement, at \$1.45 bbl.; W. K. Saulsbury, furnishing and delivering 16,000 t. st., \$1.75 short t., **05**, 1406.

1906. W. K. Saulsbury, providing for the payment of \$1.25 t. for st. delivered at Demopolis, the balance of 50¢ to be paid upon completion of delivery at site of Lock No. 1; Southeastern Lime & Cement Co., 15,000 bbls. Portland cement, \$1.50 bbl., **06**, 1276. Fordyce Lumber Co., lumber delivered at Locks Nos. 1, 2, and 3, prices listed, **06**, 1277.

1907. George Vise, erecting telephone poles for line from Lock No. 1 to Lock No. 2, Tombigbee R., thence to Jackson, Ala., at \$1.75 per pole and 75¢ each for erection, **07**, 1376.

1908. P. H. O'Brien, building Locks and Dams Nos. 2 and 3, Tombigbee R., and lock tender's house at Lock No. 3; prices listed, **08**, 1433.

1909. Levi Frisbie, building lock tender's house at Lock No. 2, Tombigbee R., \$1,792, **09**, 1417.

1910. Levi Frisbie, building lock tender's house at Lock No. 3, Tombigbee R., \$2,132, **10**, 1567.

1911. P. H. O'Brien (suppl.), covering advance payments on material delivered under orig. contract; R. P. Prowell, building lock tender's house at Lock No. 4, Tombigbee R., **11**, 1706.

ENGINEERS.

Chief of Engineers. **R.**, **03**, 309; **04**, 325; **05**, 334; **06**, 360; **07**, 374; **08**, 398; **09**, 415; **10**, 464; **11**, 496; **12**, 614.

Boards. **BERH. R.** of Capt. Craighill's reviewed and est. concurred in, for cost of constr. necessary locks and dams on Warrior and Tombigbee Rs., **04**, 1846.

In charge:

Capt. W. E. Craighill, 1903-05. **R.**, **03**, 1245; (Maj.) **04**, 1813, 1842; **05**, 1401.

Capt. J. B. Cavanaugh, 1906. **R.**, **06**, 1273.

Maj. H. Jervey, 1907-10. **R.**, **07**, 1371; **08**, 1429; **09**, 1414; **10**, 1561.

Maj. C. A. F. Flagler, 1911-. **R.**, **11**, 1703; **12**, 1922.

Assistants:

1st Lt. Wm. G. Caples, **08**, 393; **09**, 409.

Capt. C. O. Sherrill, **11**, 490.

LEGAL PROCEEDINGS.

Condemnation proceedings instituted to acquire land for Lock No. 2, **06**, 362.

Land for Lock No. 2 purchased; condemnation proceedings for Locks Nos. 1 and 3 instituted, **07**, 1372.

OPERATIONS.

1902-03. Work on Locks Nos. 1, 2, and 3 begun; summary of work given; work on Lock No. 4, 95% completed; Locks 5 and 6 completed and trans. to U. S. Dec., 1902; snagging carried on by snag boat Demopolis below Lock No. 4, **03**, 1245, 1246.

1903-04. Cofferdams for Locks Nos. 1 and 3 completed, for Lock No. 2 about 75% completed; concrete work done on R. wall, Lock No. 1; snag

boat worked over R. from Lock No. 7 to Demopolis, removing snags, etc., **04**, 326, 1813.

1904-05. Constr. of Locks Nos. 1, 2, and 3 continued until Dec. 31, 1904, when contractors abandoned work, about 26% completed. In Feb., 1905, completion of these locks by hired labor au., **05**, 1401.

1905-06. Work on Locks Nos. 1, 2, and 3, Warrior R., continued; about 60% completed, **06**, 1273. Bids for constr. of Lock No. 1, Tombigbee R., rejected as too high; gates built and most of material assembled for commencing work by hired labor for constr. of Lock and Dam No. 1; lock tender's house built, **06**, 1274.

1906-07. Constr. of Locks Nos. 1, 2, and 3, Warrior R., continued; about 85% completed, **07**, 1371. Site for Lock No. 1, Tombigbee R., cleared and grubbed, guard cribs placed and cofferdam commenced; site for Lock No. 2 purchased, and site for Lock No. 3 being acquired through condemnation proceedings; lock tender's house built at Lock No. 2; dr. built and launched, **07**, 1372.

1907-08. Constr. of Locks Nos. 1, 2, and 3, Warrior R., continued, and gates installed at 2 of the locks; 2 open for traffic; work on dams in progress, **08**, 1429. Constr. work on Lock No. 1, Tombigbee R., continued; 260 l. f. of concrete dam built, filling and riprap placed; erection of all lock gates and valves completed Aug. 20, 1907, and first boat was locked through on Nov. 24, 1907; work on Lock No. 3 begun, **08**, 1430. Lock tender's house built at Lock No. 3, **08**, 1431.

1908-09. Constr. of Locks Nos. 1, 2, and 3 completed by hired labor, opened to traffic as Lock No. 4, Tombigbee R., and Locks Nos. 5 and 6, Black Warrior R., **09**, 415. Lock No. 1, Tombigbee R., completed but for a small amount of excavation; opened Sept. 6, 1908; work on cofferdams for Locks Nos. 2 and 3, Tombigbee R., and on excavation continued, and plant and materials assembled, **09**, 1414, 1415.

1909-10. Lock No. 1, Tombigbee R., completed Sept. 30, 1909; work continued at Locks Nos. 2 and 3; 28% and 33%, resp., completed; lock tender's house at Locks Nos. 2 and 3 completed, **10**, 1564.

1910-11. Warrior R.: Lock tender's house built at Lock No. 4, and an artesian well drilled, **11**, 1703. Tombigbee R.: At Lock No. 2, building cofferdams, excavating and placing concrete, and bank and wing walls completed; at Lock No. 3, concrete laid in R. wall, and cofferdam, 50% bank and upper wing walls completed, **11**, 1704.

1911-12. Warrior R.: Lock tender's houses at Locks Nos. 5 and 7 constr.; house at Lock No. 8 about 90% completed, **12**, 1922. Tombigbee R.: Work of excavating, placing concrete, and delivering material at Locks Nos. 2 and 3 in progress; 1,700 c. y. dr. from shoal at West Bassetts Creek by hired labor, **12**, 1922.

PROJECTS.

Act Mar. 3, 1905, provides for completion of Lock and Dam No. 1, Tombigbee R., and constr. of Lock and Dam No. 2, at cost not to exceed \$717,000, **05**, 335.

Changes in foundations, due to physical condition at sites of locks, greatly increased cost of work; amount au. would be insufficient. Act Mar. 3, 1905, au. completion of Locks Nos. 4, 5, and 6, Warrior R., and the constr. of Locks and Dams Nos. 1 and 2, Tombigbee R., at cost not to exceed \$881,466; also that not more than \$40,000 of this amount should be used for constr. of a dr., and not more than \$30,000 for constr. of lock houses, **06**, 360; **07**, 375. R. and H. act, Mar. 2, 1907, au. completion of 3 Warrior R. locks, **07**, 375.

Act of Mar. 2, 1907, au. constr. of Lock and Dam No. 3, Tombigbee R., at cost not exceeding \$483,000, **08**, 400.

Act of Aug. 22, 1911, au. Sec. of War to change height of Lock and Dam No. 17 to 63' above pool level of Lock No. 16, making unnecessary Locks Nos. 18 and 19, and providing for extension of slack water up to Sanders and Nichols Shoals, **11**, 499.

SURVEYS.

Au. act June 13, 1902, for location of Locks Nos. 2 and 3, and completion of Lock No. 1 in the Tombigbee R., made by Capt. Craighill, 1903; est. \$1,200,000, 04, 1842.

Part (m), R-23 Black Warrior, Warrior and Tombigbee Rivers, Ala. (Operating and care of locks and dams.)¹

Capt. C. O. Sherrill, 11, 490.

OPERATIONS.

1896-97. A lock master, 3 lock hands, and 3 assistant lock hands appointed July 1, 1896, 97, 1675. Pool above Lock No. 3, 7 m. l. lowered 5½ for few days, on petition of mine owners and others interested, to allow certain repairs to be made. Repairs made to house, etc., at Lock No. 1, and to Dams Nos. 1, 2, and 3, 97, 1675, 1676. 1,227 lockages made, 97, 1677.

1897-98. Filling above dams to reduce leakage and repairs made to Lock No. 1 and to shore protection, 98, 1432. Over 2,000 lockages made, 98, 1433.

1898-99. Fences inclosing U. S. land, built at Locks Nos. 1 and 3; at Lock No. 1, leak repaired, and 6 new steel balanced gate valves built, 99, 1704.

1899-00. Repairs made to Locks Nos. 1, 2, and 3, and a total of 408 c. y. flood deposit and 11 barge loads of logs removed from the 3 locks, 00, 2174.

1900-01. Flood deposit removed from Locks Nos. 1 and 2; repairs to structures; derrick boat completed, 01, 1820.

1901-02. Repairs to gate at Lock No. 1; guard cribs built at Locks Nos. 1, 2, and 3; materials ordered for constr. of 4 wooden deck barges, 24' x 90', to be built by hired labor, 02, 1300.

1902-03. Locks Nos. 1, 2, and 3, Black Warrior R., repaired and 1,718 c. y. flood deposit removed

For securing more economical location for Locks Nos. 2 and 3, 05, 335.

Maps. 11, 1702.

Cong. docs., etc., relating to exs., surs., plans, etc., 04, 326; 05, 335; 08, 400; 11, 497.

from lock chambers; 4 barges completed at cost of \$8,200, 03, 1253. Lock No. 5, Warrior R., not in operation owing to noncompletion of gates before flood season; Lock No. 6 in operation since Oct., 1902; 12,562 t. st. placed along R. walls and back of abutments; 1 wooden and 1 wood and steel barge built at cost of \$5,443, and misc. repairs made to plant, 03, 1256.

1903-04. Locks Nos. 10, 11, and 12 (formerly Nos. 1, 2, and 3): Steel work painted, valves repaired, and 4,570 c. y. of flood deposit dr. from approaches, 04, 1822. Locks Nos. 7, 8, and 9 (formerly Nos. 4, 5, and 6): Lock No. 7 completed and opened for traffic in Nov., 1903, Lock No. 8 in Oct., 1903, and Lock No. 9 in operation since Oct., 1902; large leak in Lock No. 8 repaired by using 25,000 sand bags; about 13,589 t. st. quarried and placed at the 6 locks in required places, 04, 1822.

1904-05. General repairs made to all locks; leak developed at Lock No. 8, necessitating closing of lock for 26 days Nov., 1904, 05, 1410.

1905-06. Locks Nos. 7, 8, 9, 10, 11, 12, and 13 (formerly No. 4) repaired by riprapping banks; guide clusters replaced; gate mechanism repaired; flood deposits removed; Lock No. 13 (formerly No. 4) opened July 4, 1905; 2 add. timber cribs filled with st. constr. at Lock No. 13, 06, 1280.

1906-07. Locks 7 to 13, incl., Black Warrior R., maintained, banks graded and riprapped, flood deposits dr. from approaches and chambers, guide cribs built, etc., 07, 1379.

1907-08. At Locks 7 to 13, incl., general repairs made, flood deposits removed, banks riprapped, fender clusters built, 7 m. of telephone line built connecting Locks Nos. 12 and 13, 40 m. of chan. bet. Locks Nos. 9 and 10 cleared of obstr., and 2,152 c. y. material dr. from Trussells Bar, 08, 1438.

1908-09. Locks 1 to 6, incl., became a charge under "Operating and care of locks and dams" in 1908; general repairs made to Locks Nos. 1 to 13, incl., banks riprapped, leaks stopped, and 31,058 c. y. material removed from bars in chan. and from locks and approaches; repairs made to plant, and new snag boat *R. C. McCalla* placed in commission, 09, 1422.

1909-10. Mainten. work continued at Locks Nos. 1 to 15, incl., Lock No. 14 opened Mar. 29, 1910, and Lock No. 15 May 2, 1910, when these locks became a charge under "Operating and care of locks and dams"; snag boat *R. C. McCalla* worked over R. from Lock No. 4 to Lock No. 15, removing the worst snags and obstr.; chan. through the worst bars dr. by dr. *Chas. Humphreys*; tug *Nugent* overhauled and general repairs made to plant, 10, 1570-72.

1910-11. General repairs to locks and lock machinery; flood deposits removed from lock chambers; 18,121 snags removed and 122,576 c. y. dr.; repairs made to floating plant and new boat ways built at Lock No. 12, 11, 1711.

1911-12. Flood deposit removed from lock chambers; banks protected by riprap; general repairs made to structures and machinery; 20,413 snags and other obstr. removed; 151,512 c. y. material dr., and extensive changes and repairs made to floating plant, 12, 1931-33.

PHYSICAL CHARACTERISTICS.

On Apr. 16-17, 1899, arose the highest and most violent flood ever known in this region, the rainfall being 8.40 inches at Tuscaloosa in a continuous rain lasting about 32 hours, 00, 2172.

Wreck of towboat *Daisy*, 01, 1821.

Accident to gate at Lock No. 1, 02, 1300.

¹ Numbering of locks changed, 1903, to be in series from Mobile to head of Black Warrior R., 04, 1840.
² Expend. under the permanent-indefinite app. provided by acts of July 5, 1884, and Mar. 3, 1909, for operating and keeping in repair canals and other public works.

R-23(n) BIRMINGHAM, ALA., CANAL FROM, TO THE WARRIOR RIVER.

ENGINEERS.

Chief of Engineers. R., 97, 275.
In charge. Maj. W. T. Russell, 1897. R., 97,
1704.

NOTE.—Abstract R-23 (n) probably refers to
the same proposed waterway covered by Abstract
R-23 (o) following. See R., 97, 1704.

R-23(o) BLACK WARRIOR RIVER AND FIVE-MILE CREEK, ALA. (Canal, via Valley Creek, to connect.)

COMMERCE.

Description of, 97, 1705; 99, 1749.
In 1896 it seemed safe to assume that there would
be heavy shipments by the proposed canal if it were
built and thrown open to traffic by the U. S., 97,
1705.

ENGINEERS.

Chief of Engineers. R., 97, 275; 98, 269; 99,
317.

In charge. Maj. W. T. Russell, 1897-99. R.,
97, 1704; 98, 1446; 99, 1730.

Assistants:

J. Ripley. R., 99, 1735.
O. W. Ferguson. R., 99, 1765.

PHYSICAL CHARACTERISTICS.

Description of, 97, 1705, 1706; 99, 1735.

PROJECTS.

Maj. Russell est., 1898, either \$4,000,000 or
\$4,500,000 for imp. desired, 99, 1731.

SURVEYS.

Ex. au. act June 3, 1896; made by Maj. Russell,
1896 (sur. recom. at probable cost of \$15,000), 97,
1705.

OBSTRUCTIONS.

Two br. crossed R., 1895, bet. Macon and Hashuqua Creek with no draw or other arrangement for passing of boats, 95, 1716.

OPERATIONS.

1880-81. 13,416 trees, stumps, and logs removed from chan., carrying the work of imp. over 38 m. of R.; 1 snag and 1 quarter boat built, 81, 1213.

1881-82. 27,991 snags, logs, trees, and other obstr. removed, 82, 1297.

1882-83. 12,827 logs, trees, and snags removed, 83, 1023.

1884-85. 12,317 trees, logs, snags, and stumps removed, 85, 1357.

1885-86. 5,189 trees, stumps, and snags removed, making 55.5 m. of R. wholly and 36 m. partly imp., 86, 1202.

1886-87. 750 snags, logs, and stumps removed, and 385 trees cut, 87, 1329.

1887-88. 4,108 logs, trees, and stumps removed from chan., and 4,256 trees cut from banks, clearing 65½ m. of R., 88, 1209.

1888-89. 4,280 snags and logs removed from chan.; 1,174 trees and logs cleared from banks, 89, 1442.

1889-90. 2,019 snags and logs removed from the chan.; 456 trees and logs removed from banks, 90, 1705.

1893-94. About 1,700 obstr. removed from banks and stream, 94, 1319.

1894-95. Continuation of work of preceding year, 95, 1699.

1898-99. Over 11,000 snags and other obstr. removed from banks and chan., 99, 1716.

1899-00. 33,495 snags and other obstr. removed from banks and chan., 00, 2209.

PHYSICAL CHARACTERISTICS.

Condition of R., and obstr. therein, 80, 1096.

Between Macon and mouth of Hashuqua Creek stream very small, having average w. of 30' and min. d. of 8' at l. w., 95, 1716.

Navigation possible on 6' stage, mouth to State line, Miss., thence to Macon during higher stages, although many obstr. lodged in R. since suspension of work in Nov., 1899, 02, 1304.

PROJECTS.

By Capt. Damrell, 1880, imp., Macon to mouth, 69 m., by removing snags, logs, trees, and similar obstr.; est., \$65,245, 80, 1093; 87, 1329, 1343.

Proj. completed, 1890; cost, \$53,000, 90, 1705. Est. an. cost of mainten., \$3,000, 91, 1788; 93, 1764.

ESTIMATES. (See Plans.)

By Lt. Quinn, js. and dr., \$42,374.10, 74, 757.

LEGISLATION.

Charter granted to A. A. Green, by the State of Mississippi, enabling him to constr. a canal across the bar at the mouth of the R., and also permitting him to exact tolls from vessels passing out through it, 74, 756, 758; \$25,000 app. by legislature of Mississippi for the imp. of the mouth, 74, 756, 760. State app. annulled, 79, 837.

OPERATIONS.

1880-81. 75,155 c. y. dr. from the chan., 81, 1215.
1881-82. 106,841 c. y. dr. from the chan., 82, 1298.

1882-83. 1,083 snags and 5,667 trees cut and removed, 83, 1026.

1883-84. 953 snags and 3,079 trees removed, and 854 deadened, 84, 1215.

1884-85. 1,115 snags removed from R., 85, 1359.

1887-88. Dr. under contract continued, 88, 1211.

1889-90. 52,685 c. y. dr., 90, 1707.

1890-91. 131,656 c. y. dr., 91, 1790.

1891-92. 28,561 c. y. dr., 205 snags and logs cleared from the chan., and 269 trees cleared from the banks, 92, 1455.

1892-93. 99,977 c. y. dr., and about 2,000 obstr. removed from banks and stream, 93, 1766, 1767.

1893-94. A few obstr. removed, 94, 1321.

1894-95. Removal of obstr. continued, 95, 1702.

1895-96. About 2,000 obstr. removed, 96, 1450.

1896-97. Over 4,000 obstr. removed, and 18,616 c. y. dr. from Horn Isld. Pass, 97, 1693, 1694.

PHYSICAL CHARACTERISTICS.

General, 74, 755; 79, 835, 837-839.

Obstr., 74, 757; 79, 835, 838.

Description of, 97, 1693, 1719; vicinity of Horn Isld. Pass, 97, 1717; vicinity of Dog R. and of a part of Dog R., 97, 1719.

PLANS. (See Estimates and Projects.)

By Lt. Quinn, js. of cement-covered gabions, 3,500 and 4,000' l.; also dr. chan. to w. of 7' x 100'; 74, 757.

By Capt. Damrell, imp. of H. by excavation of chan. 21' x 100' through "the Pass," est., \$326,816, 82, 1324.

PRIVATE, STATE, AND CORPORATE WORK. (See Legislation.)

Noyes Canal, built under a charter from Mississippi; cost, \$27,000, 74, 756, 759; \$25,000 app. by the State, and \$5,000 by the citizens of Pascagoula, for imp. of the mouth, 74, 756, 760. State app. annulled, 79, 837.

PROJECTS.

By Capt. Damrell, 1879, dr. chan. through bar at, the mouth 7' x 200', and removing snags and overhanging trees from the R. for its entire l.; est., \$53,800, 74, 757; (orig. est., \$57,292.40), 79, 834.

In 1886, proposed to form, by dr., chan. 12' d. from the mills at Moss Pt. to anchorage in the B., 11½ m.; est., \$78,100, 86, 1217.

Owing to increased cost of excavation est. raised \$141,000, with \$69,000 for completion in 1890, 90, 1708.

By Maj. Russell, 1897, dr. chan. 21' d. m. l. w. through Horn Isld. Pass; cost, not to exceed \$8,000, 97, 1694.

SURVEYS.

Total, 955,600

COMMERCE.

Increasing at Horn Isld. H., **97**, 1717.
 In 1896 it warranted no d. chan. than 12' in the **R.** and in part of Dog R., **97**, 1718.

1900, 111,912 t., **01**, 1843; 1904, 735,875 t., principally logs, lumber and naval stores, **05**, 343; 1911, 972,944 t., **12**, 1940.

Reduction in rail rates, **05**, 343.

"Commerce originating on Pascagoula River above the mouth of Dog River during the calendar year 1911 amounted to 301,538 short tons, principally logs, cross ties, charcoal, and general merchandise, valued at \$1,488,500.

"The project has effected a reduction in rail rates for carload shipments of lumber from Merrill, Miss., to the coast during the past year." **12**, 630.

"Commerce using the channel through Horn Island Pass during the calendar year 1911 amounted to about 266,654 short tons of lumber, timber, cross ties, and piling, valued at \$1,906,540.

"This improvement in conjunction with that of Pascagoula River, from which it is distant about 9 miles, results in effecting a reduction in rail freight rates between Pascagoula, Miss., and seaboard cities of the Atlantic coast, and in affording direct water freight rates on lumber from Moss Point and Pascagoula to foreign ports." **12**, 634.

CONTRACTS.

Assistant. D. G. Anderson. **R.**, **02**, 1306; **03**, 1260.

OPERATIONS.

1899-00. 50,064 c. y. dr. from anchorage in Horn Isld. H., and 306,260 c. y. dr. from Pascagoula R., **00**, 2211, 2212.

1900-01. 116,658 c. y. dr. from Horn Isld. anchorage; 536,784 c. y. dr. from Pascagoula R. chan., **01**, 1842.

1901-02. 322,209 c. y. dr. from chan. of Pascagoula R., and 66,665 c. y. from Horn Isld. H.; uninterrupted chan. of specified w. and d. throughout limits of proj. obtained, **02**, 1305.

1903-04. 376,249 c. y. dr. making chan. 15' x 95' x 22,275' in sec. 2; 364,391 c. y. dr. from sec. 1, forming, through various shoals, chans. 15' d., and w. varying from 100' in lower portion to 75' in upper portion; aggregate l. 27,344'; 40,618 c. y. also removed from head of sec. 2 where shoal had formed, **04**, 1829.

1905-06. 63,877 c. y. dr. from sec. 1, making d. of 17' x 125' x 4,397'; 293,918 c. y. dr. from sec. 2, making 17' x 125'-150', and l. of 7,150'; work done by hydraulic r., **06**, 1285.

1906-07. 740,899 c. y. dr. making 17' x 38,005' x 125'-150', completing contract for sec. 1, May, 1907; in sec. 2, 295,755 c. y. dr. and 73,713 c. y. redr. making 17' x 125'; chan. dr. 10,450', and redr. 5,000', **07**, 1385.

1907-08. 80,394 c. y. removed by U. S. dr. *Barnard*, **08**, 1443.

1908-09. 442,556 c. y. dr. from 22,579' of chan. under contract; 586,353 c. y. dr. by U. S. dr. *Barnard* from 12,647' of chan., making 17' d. m. l. w., **09**, 1426.

1909-10. New U. S. dr. *Pascagoula* dr. 1,233,653 c. y., **10**, 1577.

1910-11. 449,713 c. y. dr. by U. S. dr. *Pascagoula*; 500 l. f. bulkhead built in connection with slip 100' x 200', **11**, 1717.

1911-12. 1,097,272 c. y. dr. below R.R. br., 102,910 c. y. above R.R. br., and 15,697 c. y. from U. S. slip and approach, **12**, 1939. 85 % of approv. proj. finished, **12**, 628.

PHYSICAL CHARACTERISTICS.

Description of **97**, 1718.

Max. l. w. draft, 1902, bet. Mississippi Sound and the lumber mills at Moss Point, **12**, **02**, 303.

Tables illustrating physical characteristics of Pascagoula and Dog Rs.; remarks about shoaling, **02**, 1308-09.

Shoaling, **05**, 343; **11**, 1718.

Available draft, 1903, below R.R. br. at Scranton, Miss., 18', m. l. t., **10**, 1577.

PROJECTS.

By Maj. Rossell, 1896, 12' x 150' above and 300' w. below R.R. br., from 3 m. above mouth of Dog R. to 12' contour in Mississippi Sound, est., \$267,600, **97**, 1718; **99**, 1718.

By Maj. Rossell, 1898, 20' x 500' in the anchorage of Horn Isld. H., est., \$50,000, **99**, 1718, 1785.

Act June 13, 1902, modified and extended existing proj. to provide chan. 17', from 3 m. above mouth of Dog R. to 17' contour Mississippi Sound, 150' w. above R.R. br. and 300' w. below, **02**, 302.

Act June 25, 1910, further modified proj. by extending upper limit about 1 m. farther up Dog R.; cost of proj. increased by \$8,000,² **10**, 475.

SURVEYS.

Sur. of the R. commencing at d. exceeding 17' in Mississippi Sound, thence to mouth of, and up R. to intersection of Dog R., thence up Dog R. 3 m., with view to chan. 17' l. w., au. act June 3, 1896; made by Maj. Rossell, 1896 (**R.** unfav.), (see Projects), **97**, 1718.

Sur., plan, and est. of cost of imp. of the pass leading from Gulf of Mexico into Horn Isld. H., Miss.; and of said H. and of chan. leading to and from said pass, with a view of ascertaining the extent to which the same is worthy of imp., au. act May 7, 1898¹ made, 1898, by Maj. W. T. Rossell (**R.** fav.), (see Projects), **99**, 1785.

Minor, **02**, 1306-09.

Pre. ex. and sur. au. act Mar. 3, 1909, of Dog R., Miss., to point 1 m. above Pascagoula Northern R.R. br. **R.** by Maj. Jervy, 1909 and 1910; est., \$8,000,¹ **10**, 488.

Cong. docs., etc., relating to exs., surs., plans, etc., **12**, 628.

Pre. ex. and sur. au. act June 25, 1910, of mouth of Pascagoula R., Miss., with view to securing increased d. in a continuous chan. from the upper limits of the present proj. in Dog R., to d. w. in the Gulf of Mexico. **R.** by Maj. H. Jervy and Maj. Flagler, Sept. 30, 1910, and Dec. 27, 1911, resp. Est. \$383,030 for first constr., and \$50,000 an. for mainten.,² **12**, 644.

Part (d), R-63 Pascagoula River, Miss. (Above mouth of Dog River.)

APPROPRIATIONS.

1902, \$4,000, **02**, 1310.
1905, \$6,750, **05**, 1419.
1907, \$6,000, **07**, 1388.
1910, \$6,000, **10**, 1580.

Total, 22,750

COMMERCE.

See Pascagoula R. and Horn Isld. H., **02**, 304.

Above mouth of Dog R., 1904, 180,250 t., principally logs and naval stores, **05**, 344; 1906, 260,100 t., **07**, 386; 1911, 972,944 t., **12**, 1940.

³ H. D. 682, 62d, 2d.

Maj. H. Jervey, 1907-10. **R.**, 07, 1387; 08, 1445; 09, 1428; 10, 1579.

Maj. C. A. F. Flagler, 1911-. **R.**, 11, 1719; 12, 1940.

OPERATIONS.

1902-03. Snagging in progress from Oct., 1902, to June, 1903; R. placed in condition for rafting and light draft navigation, 03, 1261.

1904-05. Repairs made to plant; snagging begun at Moss Pt., Miss., June, 1905, and prosecuted upstream, 40 m. of R. being restored to navigable condition, 05, 1419.

1905-06. Snagging begun June 7, 1906, at Moss Pt., lower limit of imp., and on June 30, 1906, 27 m. of R. upstream had been cleared of obstr., 06, 1287.

1906-07. Some of the obstr. brought into the R. by storm of Sept., 1906, were removed in Nov. and Dec., 1906, 07, 1387.

1907-08. A few obstr. removed, 08, 1445.

1909-10. Dead Lake, 45 m. above mouth of Pascagoula R. snagged upstream 17½ m.; work suspended Dec. 21, on account of h. w.; snag boat *Demopolis* removed 692 snags, logs, and stumps from R., 10, 1579.

1910-11. Snag boat *Demopolis* began operations at Dead Lake, 32 m. above mouth of Dog R., working upstream for about 19 m.; work suspended Dec. 22, 1910, on account of h. w.; 28 trees felled, pulled up, cut and trimmed, and 1,630 snags and other obstr. removed, 11, 1719.

1911-12. U. S. snag boat *Escatawpa* began work at mouth of Leaf R. Nov. 15 and worked down-

stream until Dec. 14, 1912, and removed 1,193 snags, trees, and other obstr. from R., for 10 m., 12, 1940.

PHYSICAL CHARACTERISTICS.

Chan. through bar at mouth of R. before imp. had least d. of 3', while inside mouth for about 10 m. upstream, draft of 6½' existed, thence to junction of Chickasahay and Leaf Rs. navigation was impossible, except during h. w.; min. w. of this latter portion 60', and min. d. 1'; in addition chan. was obstr. by snags and overhanging trees, 02, 303.

Storm of Sept., 1906, brought many obstr. into R., 07, 1387.

Pascagoula a non-tidal stream, except in its lower reaches; navigable for boat of 5' draft as far up as Cedar Creek, 55 m., 08, 410.

PROJECTS.

To maintain a navigable chan. from the junction of the Leaf and Chickasahay Rs., forming the Pascagoula R., down to its junction with the Dog R., by removal of obstr. and overhanging trees, 01, 1841.

SURVEYS.

Pra. ex. and sur. au. act Mar. 3, 1909, of Dog R. from a point ½ m. above the Denney & Co. R.R. br. (now Pascagoula Northern R.R. br.). **R.** by Maj. Jervey, 1909 and 1910; plan for imp. presented at est. cost of \$3,000, 10, 488.

Pra. ex. and sur. au. act Mar. 3, 1909, of Leaf and Pascagoula Rs., from mouth of Bowie Creek to junction of Pascagoula and Dog Rs., 10, 489; 11, 526; 12, 644.

Maj. C. A. F. Flagler, 1911-. **R.**, 11, 1720; 12, 1940.

Assistant. P. Robinson. **R.**, 79, 842.

OPERATIONS.

1891-92. 6,000 overhanging trees felled upon the banks, and 6,000 logs cleared, 92, 1456.

1892-93. Over 36,000 obstr. removed from banks and stream, and a small amount of excavation done, 93, 1769.

1893-94. About 4,500 obstr. removed, 94, 1322.

1894-97. Removal of obstr. in progress in 1894-95, 95, 1703; about 10,000 obstr. removed in 1895-96, 96, 1452; over 34,000 obstr. removed in 1896-97, 97, 1696.

1898-99. About 8,000 snags and other obstr. removed from banks and chan. of R., 99, 1720.

1899-00. About 23,000 snags and other obstr. removed from banks and chan. of R., 00, 2214.

1903-04. Snagging of entire R. completed, 04, 1831.

1907-08. 7,372 snags and other obstr. removed, 08, 1445.

PHYSICAL CHARACTERISTICS.

Description of, 79, 841, 842, 843; source 205 m. above mouth; follows eastern boundary of Miss.; joins with Leaf R. to form Pascagoula R. at Merrill, Miss.; upper limit of imp. about 75 m. above mouth, 12, 632.

H. w. chan. provided for logs and rafts, 11, 512.

PLANS. (See Projects.)

By P. Robinson, 1879, removing obstr. to l. w. mark, Shubuta to Winchester, 38 m.; to 2' below

l. w., Winchester to Warrens Mill, 12 m.; and 3' below l. w., Warrens Mill to mouth of the Chickasahay, 80 m.; est., \$11,500, **79**, 842.

By Maj. Damrell, 1889, chan. 2' x 65' Shubuta up to Enterprise; cost, \$100,000, **89**, 1465.

PROJECTS. (See Plans.)

By Maj. Damrell, 1889, 3' navigable chan., mouth up to the R.R. br. near Shubuta, 130 m., by removal of logs, snags, and overhanging trees, est., \$30,000, **89**, 1465; **91**, 1791; **92**, 1456; act 1896 limited imp. to Bucatunna, Miss. (75 m.).

In 1893, Maj. Damrell est. it would cost \$2,000 an. for mainten., **93**, 1770.

By Maj. Craighill, 1904, au. act Mar. 3, 1905, mainten. of chan. by removal of logs, snags, trees, etc., bet. mouth and Bucatunna; est., \$2,500 an., **05**, 346.

SURVEYS.

Ex. ordered and in progress, **78**, 81.

Ex. completed by P. Robinson, **79**, 105, 841, 842.

Ex. au. act Aug. 11, 1888; made by Maj. Damrell, **89**, 1463.

Au. act June 13, 1902; made by Capt. Craighill, mouth to Bucatunna, Miss.; est., \$2,500 an. for mainten.¹ (see Projects), **04**, 343, 1854.

R-92 WOLF AND JORDAN RIVERS, MISS.

Part.	Title.	Period.	Appropriations.
a	Jordan R., Miss.....	1893	
b	Wolf R., Miss.....	1893	
c	Wolf and Jordan Rs., Miss.....	1906-1912	\$40,000.00
	Total.....		40,000.00

Part (a), R-92 Jordan River, Miss.**COMMERCE.**

In 1893 an. saving to C. by imp. of the R. would probably be \$5,000, **93**, 1789.

ENGINEERS.

Chief of Engineers. **R., 93**, 238.
In charge. Maj. A. N. Damrell, 1892-93. **R., 93**, 1789.

PHYSICAL CHARACTERISTICS.

Description of; the R. has about 16 navigable m. 10' d., and empties into the nw. extremity of Bay St. Louis; has number of tributaries navigable for short distances, **93**, 1789.

SURVEYS.

Ex. of bar at mouth au. act July 13, 1892; made by Maj. Damrell 1892 (**R. unfav.**), **93**, 1789.

Part (b), R-92 Wolf River, Miss.**COMMERCE.**

In 1893, growing less, **93**, 1788.

ENGINEERS.

Chief of Engineers. **R., 93**, 238.
In charge. Maj. A. N. Damrell, 1892-93. **R., 93**, 1787.
Assistant. Lt. E. E. Winslow. **R., 93**, 1788.

PHYSICAL CHARACTERISTICS.

Description of; R., navigable for about 20 m. above its mouth, is 10' x 150', flows into Bay St. Louis, **93**, 1788.

SURVEY.

Ex. of bar at mouth au. act July 13, 1892; made by Maj. Damrell, 1893 (**R. unfav.**), **93**, 1787.

Part (c), R-92 Wolf and Jordan Rivers, Miss.**APPROPRIATIONS.**

1907, \$30,000, **07**, 1394.
1910, 5,000, **10**, 1584.
1912, 5,000, **12**, 1946.

Total, 40,000

CONTRACTS.

1908. Southern Dredging Co., dr., 16¢ c. y., **08**, 1451.

ENGINEERS.

Chief of Engineers. **R., 06**, 381; **07**, 391; **08**, 416; **09**, 434; **10**, 483; **11**, 520; **12**, 640.

In charge:

Capt. J. B. Cavanaugh, **06**, 355.
Maj. W. E. Craighill, **06**, 355.
Maj. Henry Jervey, 1906-10. **R., 07**, 1394; **08**, 1451; **09**, 1433; **10**, 1585.

Maj. C. A. F. Flagler, 1911-. **R., 11**, 1726; **12**, 1946.

Assistant. 1st Lt. W. G. Caples, **08**, 393; **09**, 409.

OPERATIONS.

1907-08. 161,163.2 c. y. dr., **08**, 1451.
1910-11. 137,087 c. y. dr., **11**, 1726.

PROJECT.

Act Mar. 2, 1907, au. chan. 7' x 100'; est., \$30,000 and \$5,000 an. mainten., **07**, 391.

SURVEYS.

Pre. ex. and sur. au. act Mar. 3, 1905, with view to removal of bars at mouths of Rs. **R.** by Maj. Craighill and Capt. Cavanaugh, 1905 and 1906. Plan submitted to dr. chan. 7' x 100'; est., \$30,000, and \$5,000 an. mainten., **06**, 381.

R-98 PEARL RIVER, MISS. AND LA.

Part.	Stretches from mouth up.	Period.	Appropriations.
a	Chan. at mouth.....	1899-1912	\$38,199.80
b	Below Rockport.....	1902-1912	108,286.39
c	Below Jackson.....	1880-1899	165,125.00
d	Carthage to Jackson.....	1879-1902	38,550.00
e	Between Edinburg and Jackson.....	1902-1911	18,500.00
f	Edinburg to Carthage.....	1884-1902	17,250.00
g	Edinburg to Lake Burnside.....	1893, 1907	
	Total.....		385,911.19

Part (a), R-98 Pearl River, Miss. (Channel at mouth of.)**APPROPRIATIONS.**

1899, \$18,199.80, **99**, 1724.
1910, 20,000.00, **10**, 1585.

Total, 38,199.80 (incl. \$5,000 each of app. of Aug. 11, 1885, and Sept. 19, 1890, for Pearl R. below Jackson, and less \$345.88 returned to Treas., \$47,853.92, **12**, 1947).

COMMERCE.

Description of **97**, 1728, 1729.

In 1896 it was not believed that the interests involved would allow a greater imp. than chan. 300' x 9', **97**, 1729.

1911, 121,856 t. of logs and timber, **12**, 642.

CONTRACTS.

1899. National Dredging Co., dr. 96,700 c. y., 27¢ c. y., **99**, 1725; **00**, 2218.

ENGINEERS.

Chief of Engineers. **R.**, **97**, 277; **99**, 313; **00**, 356; **01**, 375; **08**, 420; **10**, 484; **11**, 521; **12**, 641.

In charge:

Maj. W. T. Rossell, 1897-01. **R.**, **97**, 1727; **99**, 1724; **00**, 2217; **01**, 1848.

Maj. H. Jervcy, 1908-10. **R.**, **10**, 1585.

Maj. C. A. F. Flagler, 1911-. **R.**, **11**, 1727; **12**, 1946.

OPERATIONS.

1899-00. 96,700 c. y. dr., **00**, 2218.

1910-11. U. S. dr. *Pascagoula* removed during year 178,044 c. y., dr. chan. 1.2 m. x 9'-10' x 200' 1.2 m. l. w., mouth of R. to 9' curve in Lake Borgne, **11**, 1727.

PHYSICAL CHARACTERISTICS.

Description of **97**, 1728.

PROJECTS.

By Maj. Rossell, 1896, 9' chan. m. l. w., 300' w. from 9' curve at the mouth of East Pearl R., Miss., across the bar to the 9' curve in Mississippi Sound; est., \$18,199.80, **97**, 1728; **99**, 1724.

Act June 25, 1910, au. restoring chan. at mouth to former d. of 9', m. l. w., for w. of 200'; est., \$34,000 and \$6,000 an. mainten.,¹ **10**, 484.

SURVEY.

Sur. with view to 17' chan. l. w. au. act June 3, 1896; made by Maj. Rossell, 1896, **97**, 1727. (See Projects.)

Minor, **01**, 1849.

Pre. ex. and sur. au. act Mar. 2, 1907, with view to removing bar and restoring chan. at its mouth. **R.** by Maj. Jervcy, June 19 and Nov. 19, 1907; est. \$34,000,¹ **08**, 420.

Part (b), R-98 Pearl River, Miss. (Below Rockport.)**APPROPRIATIONS.**

1902, \$7,000.00, **02**, 1315.
1902, *1,286.39, **04**, 1837; **05**, 1427.
1905, 7,000.00, **05**, 1427.
1907, 30,000.00, **07**, 1395.
1909, 15,000.00, **09**, 1435.
1910, 25,000.00, **10**, 1586.
1911, 8,000.00, **11**, 1729.
1912, 15,000.00, **12**, 1948.

Total, 108,286.39

COMMERCE.

SS. running regularly from New Orleans to Columbia carrying freight, **09**, 1434.

Material cuts in rates on R.R.; saving to Columbia alone est. to be \$25,000 an., **10**, 485.

ENGINEERS.

Chief of Engineers. **R.**, **01**, 375; **02**, 308; **03**, 322; **04**, 340; **05**, 350; **06**, 377, 381; **07**, 392, 395; **08**, 417; **09**, 434; **10**, 484; **11**, 522; **12**, 642.

In charge:

Maj. W. T. Rossell, 1901. **R.**, **01**, 1849.

Capt. Spencer Cosby, 1902. **R.**, **02**, 1314.

Capt. W. E. Craighill, 1903-05. **R.**, **03**, 1269; (Maj.) **04**, 1836; **05**, 1426.

Capt. J. B. Cavanaugh, 1906. **R.**, **06**, 1292.

Maj. H. Jervcy, 1907-10. **R.**, **07**, 1395; **08**, 1452; **09**, 1434; **10**, 1585.

Maj. C. A. F. Flagler, 1911-. **R.**, **11**, 1728; **12**, 1947.

Assistant. D. G. Anderson. **R.**, **03**, 1270.

* Allotment.

¹ H. D. 328, 60th, 1st.

OPERATIONS.

1902-03. Sur. boat built; 15½ m. of R. cleared of obstr., 03, 1269.
1903-04. 31 m. of R. cleared of obstr., 04, 1837.
1904-05. Revet. built across head of Moores Bayou; 17 m. of R. cleared of obstr., 05, 1426.
1905-06. 47 m. of R. cleared of obstr.; operations stopped by yellow fever quarantine, 06, 1292.
1906-07. 86 m. of R. worked over and obstr. removed, 07, 1395.
1907-08. 10,878 obstr. removed, 08, 1452.
1908-09. 188½ m. of R. cleared of obstr., 09, 1434.
1909-10. Two dams, aggregating 362', built, and 8,456 obstr. removed, 10, 1586.
1910-11. Snagging carried on from mouth of R. a distance of 116½ m. upstream, removing obstr.; several js. built, dam at East Pearl R. repaired, and 3,174 snags and other obstr. removed, 11, 1728.
1911-12. U. S. snag boats *Pearl* and *Black Warrior* worked at this section of the R. until Dec.

19, 1911, when work suspended on account of h. w.; chan. worked over from mouth up R. 145 m., 3,682 obstr. being removed, 12, 1947.

PHYSICAL CHARACTERISTICS.

R. navigable for light draft vessels, mouth to Monticello, 211½ m.; above this point it is only navigable at h. w., 01, 1849.
Description of, 02, 1914.

PROJECTS.

By Capt. Cavanaugh, 1906, revised est. for completing proj., \$100,000 within 5 years, and \$5,000 an. mainten., 07, 395.

SURVEYS.

Ex., mouth to Rockport, au. act Mar. 3, 1905, made, 1906, by Capt. Cavanaugh, 07, 395.

Part (c), R-98 Pearl River, Miss. (Below Jackson.)

APPROPRIATIONS.

1880,	\$30,000,	80,	1155.
1881,	25,000,	81,	1279.
1882,	15,000,	82,	1372.
1884,	10,000,	84,	1263.

1890,	20,000,	90,	1716.
1892,	15,000,	92,	1462.
1894,	5,000,	95,	1706.
1896,	10,000,	96,	1456.
1899,	7,000,	99,	1726.

Total, 165,125

COMMERCE.

Statistics, 83, 1102.
Benefit from imp., 86, 1209; 90, 1716.
Reduction in rates consequent upon imp., 88, 1224.
Imp. has reduced rates considerably, 93, 1776.
In 1893 the interests involved did not appear of sufficient importance to warrant the U. S. in diverting the course of the R. to make it flow through the Tanyard Branch, near Jackson, 93, 1792.

CONTRACTS.

1880. S. N. Kimball, removal of obstr., 81, 1278.
1881. G. A. Meyer, removal of obstr., 82, 1371.

ENGINEERS.

Chief of Engineers. R., 80, 142; 81, 192; 82, 188; 83, 206; 84, 209; 85, 212; 86, 210; 87, 177; 88, 165; 89, 192; 90, 174; 91, 219; 92, 212; 93, 235; 94, 217; 95, 241; 96, 212; 97, 272; 98, 266; 99, 314; 00, 356; 10, 488.

In charge:

Maj. C. W. Howell, 1878-82. R., 80, 1155; 81, 1277.
Maj. A. Stickney, 1882-84. R., 82, 1370; 83, 1101; 84, 1262.
Maj. A. N. Damrell, 1884-95. R., 85, 1363; 86, 1207; 87, 1339; 88, 1221; 89, 1455; 90, 1714; 91, 1795; 92, 1460; 93, 1774; 1792; 94, 1326; 95, 1706.
Maj. W. T. Rossell, 1896-1900. R., 96, 1454; 97, 1698; 98, 1443; 99, 1725; 00, 2218.
Maj. H. Jervey, 10, 460.

OPERATIONS.

1881-82. 104 m. below Jackson cleared of obstr., 82, 1370.
1882-83. 191 m. below Jackson cleared of snags, trees, logs, and similar obstr., 83, 1101.
1883-84. Removal of obstr. continued, 84, 1262.
1884-85. 7,568 snags, stumps, logs, etc., 1,865 standing and overhanging trees, and 7,360 c. y. sand and clay removed, 85, 1365.

1885-86. 5,776 stumps, roots, snags, logs, any trees, 8,382 overhanging trees, and 2,752 c. y. clad and sand removed, 86, 1209.

1887-88. 215 snags and logs removed from chan., 256 piles driven, and 406 cords of willow mattress placed, 88, 1223.

1888-89. 1,960 snags, logs, and trees removed from the chan., and 1,647 trees and logs sunk in Old River Bulkhead; 700 cords of willow mattress placed, 89, 1458.

1889-90. 3,048 snags, stumps, and trees removed from the chan., and 2,535 trees removed from the banks, 90, 1715.

1890-91. Log flat built, 91, 1796.

1891-92. 12,033 snags and 8 drift piles removed from the chan., and 13,384 trees cleared from the banks, 92, 1463.

1892-93. About 8,132 obstr. removed from banks and stream, 93, 1775.

1893-94. About 12,941 obstr. removed, 94, 1326.

1894-95. Removal of obstr. in progress, 95, 1707.

1895-96. Over 1,000 obstr. and about 200 c. y. dr., 96, 1456.

1896-97. 3,625 obstr. removed, 97, 1699.

1897-98. 8,410 obstr. removed, 98, 1443.

1898-99. About 3,100 snags and other obstr removed from banks and chan., 99, 1725.

1899-00. About 6,000 snags and other obstr removed from banks and chan., 00, 2218.

PHYSICAL CHARACTERISTICS.

Description of, 96, 1454.
In vicinity of Tanyard Branch, near Jackson, 93, 1792.

PROJECTS.

By Maj. Howell, 1879, imp., Jackson to the mouth, by removal of all trees, snags, logs, and similar obstr., to 5' below l. w. mark; also removal of overhanging trees from the banks; est., \$95,940; 80, 1155; 87, 1389.

Proj. modified, 1885, to provide for dr. chan. 12' d. m. l. w. over the bar at the mouth of East Pearl R., 85, 1367; 87, 1341.

Amount app., 1880 to 1886, incl., \$93,125; amount est. to complete proj., \$70,000, 87, 1339, 1342.

In 1892, est. that an. expend. of \$5,000 would be required to maintain imp., 92, 1462.

SURVEYS.

Ex. to determine whether it would be advantageous to divert the course of the R. to make it flow through Tanyard Branch, near Jackson, and to ascertain the cost, au. by the Chief of Engineers, 1892; R., 1893, by Maj. Damrell (unfav.), 93, 1792.
Pre. ex. au. act Mar. 3, 1909. R. by Maj. Jervey, Nov. 6, 1909 (unfav.), 10, 488.

Capt. Spencer Cosby, 1902. R., 02, 1815.

Assistant. H. C. Collins. R., 79, 880, 886; 84, 1260.

OPERATIONS.

1879-80. Removal of obstr., trees, etc., commenced, 80, 1154.
1880-81. Removal of obstr. continued, 81, 1276.
1881-82. Removal of obstr. continued, 82, 1369.
1883-84. Removal of obstr. completed to within 5 m. of Carthage, 84, 1260.
1884-85. 10, 8112 snags, roots, logs, and stumps removed from the R.; also 6,851 overhanging trees out and 700 c. y. bank protected with brush and willow, 85, 1370.

1886-87. 721 snags, logs, and stumps and 216 overhanging trees removed, 87, 1337.

1887-88. 27,000 snags, stumps, and sunken logs removed from the chan., and 746 overhanging trees removed from the banks, 88, 1220.

1888-89. 27,532 snags, stumps, and sunken logs removed from the chan., and 372 overhanging trees removed from the banks, 89, 1454.

1890-91. 10,347 snags cleared from the chan., and 16 trees cleared from the banks, 91, 1798.

1891-92. 10,330 snags removed from the chan., and 5,712 trees cleared from the banks, 92, 1463.

1892-93. Over 3,000 obstr. removed from banks and stream, 93, 1778.

1893-94. 91,709 obstr. removed, 94, 1328.

1894-95. Obstr. removal continued, and proj. completed, 95, 1709.

1895-96. About 7,500 obstr. removed, 96, 1458.

1896-97. Obstr. removal continued, 97, 1701.

1897-98. About 30,000 obstr. removed, 98, 1444.

1898-99. About 10,000 snags and other obstr. removed from banks and chan., 99, 1727.

1899-00. About 35,000 snags and other obstr. removed from banks and chan. of the R., 00, 2220.

PHYSICAL CHARACTERISTICS.

General, 79, 880, 881, 887.

Obstr.—overhanging and fallen trees and willows, logs, snags, etc., 79, 880, 881, 888. Location of obstr., 79, 882-898.

Rise of R., 79, 884.

Tendency to form cut-offs, 79, 884. Effect of the flood of 1874, 79, 887.

Navigation impossible except at h. w. Min. w. of R., 1901, 100', of chan. 40'; min. d. 1', 01, 376.

PLANS.

By Maj. Howell, for removal of snags, logs, overhanging trees, etc., from the R. (1) between Jackson and the mouth (\$91,740) and (2) between Carthage and the mouth of the West Pearl R. (\$116,940), 79, 898, 900.

PRIVATE (STATE AND CORPORATE) WORK.

Dam built across Farris Slough, by Capt. Poiterent, for State of Miss., 79, 896. Unsuccessful attempt on the part of La. to cut through the bayous and swamps to the R. above referred to, 79, 897.

PROJECTS.

By Maj. Howell, 1879, imp. bet. Carthage and Jackson, 105 m., providing for a clear chan. 5' d. at low stage of the R., by removal of snags, logs, etc.; est., \$21,000, 79, 878, 900; 87, 1336. Revised, 1887 to \$50,000, 87, 1336; 91, 1797.

In 1893 Maj. Damrell est. \$2,400 an. mainten., 93, 1778.

Act June 13, 1902, combines sections "Edinburg to Carthage" and "Carthage to Jackson" into one mp., "Edinburg to Jackson" (see latter title for further details), 02, 1315.

SURVEY.

By H. C. Collins, 1878-79. R. on sur. above Jackson, 79, 880; on sur. below Jackson, 79, 886.

Part (e), R-98 Pearl River, Miss. (Between Edinburg and Jackson.)**APPROPRIATIONS.**

1902,	\$3,000,	02, 1315.
1905,	4,000,	05, 1428.
1907,	3,500,	07, 1397.
1909,	3,000,	09, 1436.
1910,	5,000,	10, 1587.

Total, 18,500

COMMERCE.

If R. was kept open C. would probably increase, as water rates are much less than those by rail; R. only means of reaching markets from some parts, 06, 379.

1910, 199 t., 11, 1730.

ENGINEERS.

Chief of Engineers. R., 02, 309; 03, 323; 04, 341; 05, 352; 06, 378; 07, 393; 08, 418; 09, 436; 10, 486; 11, 524.

In charge:

Capt. Spencer Cosby, 1902. R., 02, 1315.
Capt. W. E. Craighill, 1903-05. R., 03, 1270;
(Maj.) 04, 1838; 05, 1427.
Capt. J. B. Cavanaugh, 1906. R., 06, 1293.
Maj. H. Jervey, 1907-10. R., 07, 1396; 08, 1453;
09, 1435; 10, 1587.
Maj. C. A. F. Flagler, 1911. R., 11, 1729.

Assistant. D. G. Anderson. R., 03, 1271.

OPERATIONS.

1902-03. 43 m. of R. cleared of obstr., 03, 1271.

1903-04. Lower half of section under imp. cleared of obstr., 04, 1838.

1905-06. Operations hindered by quarantine restrictions; 2 m. of R. cleared of obstr., 06, 1293.

1906-07. 70 m. of R. cleared of obstr., 07, 1396.

1907-08. 8,339 obstr. removed, 08, 1453.

1908-09. 7,973 obstr. removed, 09, 1435.

1909-10. 15,648 obstr. removed, 10, 1587.

PROJECTS.

Maj. Craighill, 1905, did not consider this section worthy of further imp., 05, 1427.

Owing to excessive cost of imp. and small amount of traffic involved, it was decided to discontinue further work, and balance of app. turned into Treas., 11, 524.

Part (f), R-98 Pearl River, Miss. (Edinburg to Carthage.)

APPROPRIATIONS.

1884, \$2,500, 85, 1372.
1886, 2,250, 86, 1215.
1888, 5,000, 88, 1218.
1890, 5,000, 90, 1712.
1892, 500, 92, 1466.
1894, 500, 95, 1710.
1896, 500, 96, 1459.
1899, 1,000, 99, 1728.

Total, 17,250

COMMERCE.

Reduction in freight and hauling rates due to imp., 85, 1217; 89, 1451.

In 1893 the reduction in freight and insurance rates considerable, due to the imp., 93, 1780.

In 1896 there did not appear to be any C. on the R., though freight rates by rail were kept low, due to the R. navigable condition, 96, 1459.

ENGINEERS.

Chief of Engineers. R., 84, 216; 85, 213; 86, 211; 87, 176; 88, 164; 89, 191; 90, 173; 91, 220; 92, 214; 93, 236; 94, 218; 95, 242; 96, 213; 97, 274; 98, 267; 99, 315; 00, 358; 01, 377; 02, 309.

In charge:

Maj. A. M. Stickney, 1882-85. R., 84, 1286.
Maj. A. N. Damrell, 1885-95. R., 85, 1371; 86, 1214; 87, 1334; 88, 1216; 89, 1450; 90, 1711; 91, 1799; 92, 1465; 93, 1779; 94, 1329; 95, 1710.
Maj. W. T. Russell, 1896-1901. R., 96, 1459; 97, 1702; 98, 1445; 99, 1728; 00, 2221; 01, 1851.
Capt. Spencer Cosby, 1902. R., 02, 1316.

Assistant. W. H. Hoffman. R., 84, 1287.

OPERATIONS.

1884-85. 400 snags, logs, and stumps removed, 1,048 trees cut, and 6,491 y. of bank cleared of brush, 85, 1371.

1885-86. 70 stumps blasted and removed, 100 sunken logs and trees cut, and 172 overhanging trees removed, 86, 1214.

1886-87. 1,143 snags, stumps, and logs, and 760 overhanging trees removed, 87, 1335.

1887-88. 4,010 snags, trees, and stumps removed from the chan., and 128 overhanging trees from the banks, 88, 1217.

1888-89. 7,970 logs, snags, and stumps removed from chan., and 826 overhanging trees from the banks, 89, 1451.

1889-90. 3,812 logs, snags, and stumps removed from chan., and 3,965 overhanging trees cut from the banks, 90, 1712.

1891-92. 22,884 snags and stumps and 31 piles of drift removed from chan., and 9,727 trees and logs cleared from the banks, 92, 1465.

1892-93. 46,549 obstr. removed from banks and stream, 93, 1780.

1893-94. Obstr. removal continued, 94, 1330.

1894-95. Obstr. removal continued, 95, 1710.

1895-96. About 8,000 obstr. removed, 96, 1459.

1896-97. Obstr. removal continued, and proj. completed, 97, 1702.

1898-99. About 11,000 snags and other obstr. removed from banks and chan., 99, 1728.

1899-00. About 1,400 snags and other obstr. removed from banks and chan., 00, 2221.

PHYSICAL CHARACTERISTICS.

Description of the R. and its obstr., 84, 1288.

PROJECTS.

By Maj. Stickney, 1884, imp. bet. Carthage and Edinburg, 25 m., giving a h. w. chan. for 6 months of the year, by removal of snags, logs, and similar obstr.; est., \$13,464, 84, 1289; 85, 1371; 87, 1334; 88, 1216. Proj. completed, 1890; cost, \$14,750, 90, 1712. An. expend. of \$500 required for mainten., 92, 1466.

Maj. Damrell, 1893, est. \$500 an. for mainten., 93, 1780.

Act June 13, 1902, combines this section with section "Carthage to Jackson" under head "Edinburg to Jackson" (see latter title for further details), 02, 377.

SURVEY.

Ex. au. act Aug. 2, 1882; made, 1882, by Maj. Stickney, 84, 1286.

Part (g), R-98 Pearl River, Miss. (Edinburg to Lake Burnside.)

COMMERCE.

Description of, 93, 1791.

In 1893, est. that an. saving to C. by imp. of this part of the R. would be \$25,000, and it was thought worthy of imp. up to Yates Br., 93, 1791.

ENGINEERS.

Chief of Engineers. R., 93, 238; 07, 395.

In charge:

Maj. A. N. Damrell, 1892-93. R., 93, 1791.

Capt. J. B. Cavanaugh, 07, 369.

PHYSICAL CHARACTERISTICS.

Description of, 93, 1791.

SURVEY.

Ex. from Edinburg to Lake Burnside au. act July

13, 1892; made, 1893, by Maj. Damrell (R. fav.), 93, 1791.

Pre. ex. au. act Mar. 2, 1905. R. by Capt. Cavanaugh, June 12, 1906¹ (unfav.), 07, 395.

R-100

BOGUE CHITTO, LA.

APPROPRIATIONS.

1890, \$5,000, 91, 1800.
1892, 5,000, 92, 1466.
1894, 5,000, 95, 1711.
1896, 5,000, 96, 1460.
1899, 5,000, 99, 1729.
1902, 3,000, 03, 1301.

Total, 28,000 (less \$157.46 trans. to Tickfaw R. and tributaries, \$27,842.54, 10, 1616).

COMMERCE.

The work proposed in 1893 would probably make an an. saving of \$30,000 in rates, 93, 1782.

Imp. of stream facilitates rafting of logs only; no boat traffic, 06, 395.

ENGINEERS.

Chief of Engineers. R., 80, 146; 81, 197; 83, 212; 89, 193; 91, 220; 92, 214; 93, 237; 94, 218; 95, 243; 96, 213; 97, 274; 98, 268; 99, 316; 00, 358; 01, 377; 02, 311; 03, 336; 04, 354; 05, 366; 06, 394; 07, 410; 08, 433; 09, 454; 10, 508.

Assistant. H. C. Collins. R., 83, 1131.

R-110 THE RIGOLETS, LAKE PONTCHARTRAIN, AND ST. JOHN BAYOU. (Connecting ship canal.)

ENGINEERS.

Chief of Engineers. R., 70, 31; 71, 66.

In charge. Capt. C. W. Howell, 1870. R., 71, 524.

PHYSICAL CHARACTERISTICS.

Description of, 71, 525.

OPERATIONS.

1891-92. Preparing plant, 92, 1466.

1892-93. Snag boat finished, 93, 1782.

1893-94. About 9,000 obstr. removed from banks and stream, 150 c. y. sand removed, and j. and shore protection work in progress, 94, 1331.

1894-95. About 11,000 obstr. removed, 156 c. y. sand excavated and removed, and j. and shore protection work continued, 95, 1711.

1895-96. About 6,000 obstr. removed, and 300 l. f. bank protection completed, 96, 1460.

1896-97. About 800 obstr. removed, and 58 c. y. sand, etc., excavated and removed, 97, 1703.

1897-98. About 7,000 obstr. removed, 98, 1446.

1898-99. About 17,000 snags and other obstr. removed from banks and chan. of the R., and 2,389 c. y. gravel and sand excavated and deposited in dams, 99, 1729.

1899-00. About 13,000 snags and other obstr. removed from banks and chan. of the R., 00, 2222.

1902-03. 7,231 snags and other obstr. removed, 03, 1301.

PROJECTS.

By Maj. Damrell, 1889, chan. 3' d., by removing snags, logs, overhanging trees, and fish traps, and closing the w. mouth from its junction up to Alford Br.; est., \$55,000, 89, 1466; 91, 220; 92, 1466; inadequacy of funds prevented imp. above Cross R., about 80 m. above mouth, 03, 336.

Proj. approv. July 31, 1902, provides for mainten., 03, 337.

SURVEY.

Au. act June 14, 1880, 80, 146; made by Maj. Stickney (R. unfav., cost too great), 83, 1133.

Ex. au. act Aug. 11, 1888; made, 1889, by Maj. Damrell, 89, 1465.

PHYSICAL CHARACTERISTICS.

Description, 83, 1131.

SURVEY.

Ex. au. act June 14, 1880; made, 1883, by Maj. Stickney (R. unfav.), 83, 1130.

PLANS.

By the New Orleans and Ship Island Canal Co., canal from the mouth of Bayou St. John, through Lake Pontchartrain and the Rigolets, to Ship Isl., 71, 524. Capt. Howell considers this route unfav. for a ship canal owing to the excavation required through an unstable material exposed to the action of the waves and currents, 71, 66.

S-2 LOUISIANA WATER COURSES. (Remarks on improvement.)

ENGINEERS.

In charge. Maj. C. W. Howell. R., 80, 1189.
 Assistant. H. C. Collins. R., 80, 1190.

SURVEY.

Au. act Mar. 3, 1879; made, 1880, by Maj. Howell, 80, 1189.

S-2(a) LOUISIANA WATERS. (Removing hyacinths.)

(See p. 572.)

S-8 LAKE PONTCHARTRAIN (Including vicinity of Pass Manchac), LA.^{2 3 4 5}

APPROPRIATIONS.

1852,	\$25,000, act Aug. 30.
1910,	9,000, 10, 1627.
Total,	34,000

COMMERCE.

Imported, 93, 1843.

ENGINEERS.

Chief of Engineers. R., 66, 67; 91, 221, 1839; 93, 251; 08, 449; 10, 527; 11, 564; 12, 684.

¹ Has no "present" connection.

² Sur.—For H. of refuge, R., Oct. 9, 1845; est., \$30,000. (H. D. 482, 55th, 2d.)

³ Sur. for breakw'r for H. of refuge, "New Orleans to Pontchartrain R. R. wharf, La.," au. act Mar. 3, 1879, 79, 112.

⁴ Waterway to Mobile, Ala. Sur.—May 11, 1829; est., \$37,500. (H. D. 482, 55th, 2d.)

⁵ Canal to Mississippi River. Sur.—R., Mar. 1, 1827; est., \$974,304. (H. D. 482, 55th, 2d.)

In charge:

Capt. W. L. Fisk, 1890. **R., 91, 1839.**
Maj. J. B. Quinn, 1892-3. **R., 93, 1842.**
Maj. J. F. McIndoe, 08, 431.
Lt. Col. L. H. Beach, 1910. **R., 10, 1627.**
Maj. H. Burgess, 1911. **R., 11, 1772.**
Lt. Col. L. H. Beach, 1912-. **R., 12, 1990.**

Assistants:

1st Lt. Wilbur Willing, 08, 431.
Capt. R. R. Ralston, 10, 489; 11, 526.
1st Lt. R. P. Howell, jr., 11, 526; (Capt.) 12, 645.

OBSTRUCTIONS.

Lake Pontchartrain obstr. by old U. S. breakw'r near Milneburg, on its s. shore, and by partly submerged logs scattered over lake; Pass Manchac obstr. by sunken logs on bars at outlet, 10, 527-28.

OPERATIONS.

1910-11. Snags, logs, stumps, and piling removed, 11, 1772.

1911-12. Remaining breakw'r piles removed, and about 25 snags and overhanging trees, 12, 1990.

PHYSICAL CHARACTERISTICS.

Description of locality of Harbor of Refuge: At entrance to canals running from the lake to New Orleans, the C. on which is affected at times by storms at the entrance, 93, 1842.

Description of, 10, 527.

L. in se. La., 23 x 40 m. and central depth of 16' decreases regularly to about 6' near shores. It is connected with L. Maurepas to w. by a chan. called Pass Manchac, 20-50' x 800' x 6½ m. (See Obstructions.)

PROJECTS.

Act June 25, 1910, au. removal of old U. S. breakw'r and dangerous deadheads from Lake Pontchartrain. and removal of sunken logs, etc., from bars at outlet of Pass Manchac; est., \$18,000 and \$750 an, mainten., 10, 528.

SURVEYS.

Ex. at or near the old and new basins locality of Harbor of Refuge au. act July 13, 1892; made, 1892, by Maj. Quinn (R. fav.), 93, 1842.

Ex. au. act Sept. 19, 1890, of shoals at Middle Ground; made by Capt. Fisk (R. unfav.), 91, 1839.

Pre. ex. au. act Mar. 2, 1907, from West End to mouth of Bayou St. John and to Milneburg. R., Maj. McIndoe, Dec. 19, 1907 (unfav.), 2 08, 449.

Pre. ex. au. act Mar. 2, 1907, from West End, Spanish Fort, Milneburg, to draw of N. O. & N. R.R.; also to Mandeville, Tangipahoa R. and Pass Manchac. R., Maj. McIndoe, Dec. 20, 1907, and Jan. 25, 1908; est., \$12,000, 1 08, 449.

Cong. docs., etc., relating to exs., surs., plans, etc., 12, 685.

S-10 BONFUCA BAYOU, ST. TAMMANY PARISH, LA.

COMMERCE.

Description of, 95, 1783.

ENGINEERS.

Chief of Engineers. R., 95, 260.

In charge. Maj. J. B. Quinn, 1894-95. **R., 95, 1783.**

PHYSICAL CHARACTERISTICS.

Description of: Bayou flows into Lake Pontchartrain with a d. of about 20' for a distance of nearly 15 m. from its mouth. 95, 1783.

SURVEY.

Ex. au. act Aug. 17, 1894; made, 1895; Maj. Quinn's R. fav., 95, 1783.

 Capt. J. F. McIndoe, 1905-08. **R.**, **05**, 1459; **06**, 1312; **07**, 1433; (Maj.) **08**, 1487.
 Lt. Col. Lansing H. Beach, 1909-10. **R.**, **09**, 1471; **10**, 1615.
 Maj. H. Burgess, 1911. **R.**, **11**, 1757.
 Lt. Col. L. H. Beach, 1912-. **R.**, **12**, 1975.

Assistants:

Lt. E. A. Woodruff. **R.**, **71**, 552.
 Mr. Ripley. **R.**, **73**, 633.
 W. H. Hoffman. **R.**, **80**, 1181.
 H. C. Collins. **R.**, **84**, 1269, 1284.
 Lt. O. T. Crosby. **R.**, **85**, 1395; **86**, 1243; **87**, 1359.

OPERATIONS.

1872-73. Wreck of the *Oregon* removed, **73**, 65, 634.
1881-82. 4 m. of R. cleaned of obstr., **82**, 1376.
1886-87. Chans. through Bogue Falia, bet. Old Landing and Covington, d. **87**, 180.
1891-92. 161 snags and 102 logs removed from the chan., and 143 trees cleared from the banks, **92**, 1482.
1894-95. About 3,600 c. y. dr., **95**, 1743.
1899-00. Bar at mouth of the Chefuncte R., and several shoals, a wreck, and a number of logs and snags from Bogue Falia removed, **00**, 2240.
1900-01. 38 snags and logs removed by W. G. Coyle, of New Orleans, under his proposition to clear the chan. of all obstr. bet. mouth of Chefuncte R. and Old Landing on Bogue Falia, 16 m., **01**, 1872.

1902-03. 10,357 c. y. of material dr. from bar at mouth of Chefuncte R., **03**, 1302.

1907-08. Preparing plans and specifications for snag boat, **08**, 1487.

1908-09. Constr. of combined dr. and snag boat, **09**, 1471.

1909-10. Dr. constr. continued; mainten. by removal of snags and other obstr., **10**, 509, 1615.

1910-11. Chan. 17,000' l. and 150' w. at bottom dr. through bar, 30,113.20 c. y. removed; chan. 8' l. w. dr. through shoal in Bogue Falia, for 4,400' near Covington, 24,783 c. y. removed, **11**, 1757.

PHYSICAL CHARACTERISTICS.

R., of which Bogue Falia is a tributary, flows into Lake Pontchartrain, La., and is navigable up to Covington, about 12 m., **71**, 552; **73**, 633; **95**, 1785.
 Chan. of 7', Lake Pontchartrain to Covington, **12**, 666.

PLANS. (See Projects.)

By Lt. Woodruff, 1871, removing wrecks, snags, etc.; est., \$16,800, **71**, 552.

By Capt. Howell, 1872, cut-off, Abita R. to Chefuncte R., \$6,574, **73**, 633.

Maj. Stickney, imp. of Bogue Falia above Covington could not be made at any reasonable cost; below Covington it might be improved by cut-off; est., \$1,856, **84**, 1283.

PROJECTS. (See Plans.)

The app. of \$6,000 in 1872 was applied to the removal of the wreck of the gunboat *Oregon*, **73**, 65, 634.

By Maj. Howell, 1880, imp. Chefuncte R. by removing snags and similar obstr. from the mouth to Covington, and dr. bar at entrance to Lake Pontchartrain; est., \$5,460, **80**, 1182.

By Maj. Stickney, 1884, chan. across the bar 7' x 100' by dr., and 2,500 l. f. of break'r; est., \$20,400, **84**, 270.

In 1889 Capt. Fisk reported the Chefuncte and Bogue Falia as unworthy of any imp. beyond the an. app. of \$1,000 for snagging, **89**, 1530.

By Maj. Quinn, 1894, dr. through the bars below Covington to a d. of 6' x 60', **95**, 1742.

In 1893 Maj. Quinn est. \$1,000 an. for mainten., **93**, 1808.

By Maj. Quinn, 1899, for a 6' x 60' chan. through bars at the mouth of the Chefuncte and in the Bogue Falia, **99**, 1834.

For mainten. by dr. a chan. 8' x 60' through bar at mouth of Chefuncte R., **02**, 1318.

Approv. May 10, 1905, provided for removal of snags, logs and overhanging trees which interfere with navigation bet. mouth of Chefuncte R. and Covington on the Bogue Falia, **05**, 1459.

By Maj. McIndoe, 1907, constr. of a combined dr. and snag boat; est., \$5,000; and mainten. of chan. with same, **08**, 1487.

Orig. proj. modified, 1910, to provide for a chan. 7' d. at extrem. l. w. over the bar at mouth of the Chefuncte R., **10**, 509.

SURVEYS.

By Lt. Woodruff, under direction of Capt. Howell. **R.**, **71**, 551, 552.

By Mr. Ripley, 1872, under direction of Capt. Howell. **R.**, **73**, 632.

By Capt. Howell, **79**, 112.

Au. act Mar. 3, 1879; made, 1880, by Maj. Howell, **80**, 1181.

Of Bogue Falia au. act June 14, 1880, **80**, 146.

By Maj. Stickney, 1884. **R.** unfav. in part (see Plans), **84**, 1268, 1283.

Of Bogue Falia from landings to Covington, La., au. act Aug. 5, 1886, **87**, 188; **89**, 1529.

Ex. au. act Aug. 17, 1894; made by Maj. Quinn (R. fav.), **95**, 1784.

Of a portion of Bogue Falia and bar at mouth of Chefuncte R., **10**, 510.

Cong. docs., etc., relating to exs., surs., plans, etc., **12**, 665.

By Lt. Woodruff, 1871, removing obstr. below Wells's Ferry, \$5,400, 71, 554.

By Capt. Howell and H. S. Douglas, 1879, removing obstr., Amite to mouth, \$10,700 to \$10,000, resp., 79, 946, 949.

OPERATIONS.

1872-73. Removing snags, overhanging trees, and other obstr., 73, 64, 631.

1880-81. 6½ m. cleared of obstr., 81, 1283.

1881-82. Imp. of R. under Seymer's contract completed, 84 m., 82, 1374.

1882-83. Cate's contract commenced, 83, 1108.

1883-84. Obstr. removed throughout 7½ m., 84, 1268.

1884-85. Cleaning R. continued with hired labor, 85, 1393.

PHYSICAL CHARACTERISTICS.

Described, 71, 553; 79, 948; 89, 1527.

Stream has w. of 75'-150', but navigation is hindered by a bar in Lake Pontchartrain, the cost of removal of which would be in excess of value of C., which is of logs only, 04, 1965.

PLANS. (See Estimates and Projects.)

By Lt. Woodruff, 1871, removing snags and other obstr. with snag boat and hired labor, 71, 554.

By H. S. Douglas, 1879, removing obstr. and closure of isld. chutes, 79, 947.

In 1888, imp. as purely local in its benefits, 88, 1245.

By Capt. Fisk, 1889, removing snags and similar obstr., giving permanent l. w. d. of 3'; est., \$5,000, 89, 1527.

PROJECTS. (See Estimates and Plans.)

By Capt. Howell, 1872, removing snags and other obstr. by contract, 73, 631.

By Maj. Howell, 1879, junction with Amite to mouth, 53 m.; removing snags, logs, trees, and similar obstr.; est., \$10,700, 79, 946, 949; 86, 1241; 88, 1245.

1892-93. About 300 snags and other obstr. removed, **93, 1810.**

1894-95. About 1,500 snags and other obstr. removed, **95, 1745.**

1896-97. Unavailing efforts made to clear the Rs. of hyacinths, **97, 1754.**

1899-00. Chan. cleared of obstr. for 13 m. from the mouth, and obstr. removed from mouth of the Natalbany, **00, 2242.**

1902-03. 74 obstr. removed; work retarded by water hyacinths, **03, 1303.**

1904-05. Obstr. removed, **05, 1461.**

1905-06. Dr. completed, **06, 1314.**

1908-09. Constr. of dr. underway, and three-quarters completed, **09, 1473.**

1910-11. 408 logs, snags and overhanging trees removed by U. S., **11, 1759.**

1911-12. U. S. snag boat completed operations in Natalbany and Tickfaw R s., **12, 1976.**

PHYSICAL CHARACTERISTICS.

Description of, **80, 1183; 95, 1787.**

R. flows into Lake Maurepas, La., and is navigable for 40 m. Principal tributary, the Natalbany, navigable for about 25 or 30 m., **95, 1787.**

Aquatic plants an obstr. to navigation, **97, 1753**

PLANS. (See Projects.)

After ex. in 1889 Capt. Fisk did not consider the stream worthy of imp. beyond that contemplated in existing proj., **89, 1531.**

PROJECTS. (See Plans.)

By Maj. Howell, 1880, imp. of Tickfaw R. from Van Buren Place to Natalbany and Ponchatoula R., 45 m., by removal of snags, logs, and similar obstr.; est., \$10,230, **80, 1184; 92, 1484.**

In 1893 Maj. Quinn est. \$1,000 an. for mainten., **93, 1811.**

By Maj. Quinn in 1896-97, removal of aquatic plants from the streams, **97, 1753.**

By Maj. Quinn, 1899, subproj. for removing obstr. in the streams as far as funds would permit, **99, 1835.**

SURVEYS.

Sur. au. act Mar. 3, 1879; made, 1880, by Maj. Howell, **79, 112; 80, 1182.**

Ex. au. act Aug. 17, 1894; made by Maj. Quinn in that year (**R. fav.**), **95, 1786.**

OPERATIONS.²

1881-82. Obstr. removed from 6½ m. of R., 82, 1372.

1882-83. Obstr. removed from 36 m. of R., 83, 1104.

1883-84. Operations by hired labor; 8 m. of R. cleared, 84, 1264; 85, 1392.

1888-89. 846 trees and stumps removed, 89, 1485.

1890-91. Snagging resumed, 91, 1821.

1891-92. 445 snags, logs, and trees cleared, 92, 1486.

1892-93. About 200 obstr. removed, 93, 1812.

1894-95. 4,080 c. y. dr. to form a turning basin, and about 5,000 obstr. removed, 95, 1748.

1899-00. Sand bars at the mouths of Amite R. and Bayou Manchac removed, shoal places in Bayou Manchac, near Hope Villa, La., dr., and obstr. in Amite R. for 6 m. above Bayou Manchac, and in Bayou Manchac removed, 00, 2244.

1902-03. 20,648 c. y. dr., bar at mouth of Amite R., 03, 1305.

1905-06. 14,500 c. y. dr., mouth of Manchac Bayou, and 3,278 c. y. from mouth of Amite R., 06, 1315.

1907-08. Constr. of combined dr. and snag boat, 08, 1490.

1909-10. New dr. and snag boat completed, 10, 1618. 408 logs, snags, and trees removed, 10, 1619.

1910-11. Snag boat *Pearl* removed 67 logs, snags, and overhanging trees from 5 m. of stream, 11, 1761.

1911-12. Snag boat *Pearl* removed 4,166 snags and other obstr., 12, 1978.

PHYSICAL CHARACTERISTICS.

Flood height near New Orleans, 68, 487, 489, 492; 80, 1186.

Details, 10, 513; 11, 550, 551; 12, 669, 670.

PLANS.

Maj. McAlester, 1868, continuous chan., 1 w. d. of 7' bet. Mississippi R. and Lake Pontchartrain, via Bayou Manchac, Amite R., Lake Maurepas and Pass Manchac; by canal from Mississippi to head of Crocodile Bayou, thence by R. and lake navigation for 75 m.; est., \$3,800,444; considered the least favorable bet. Mississippi R. and Lake Pontchartrain, 68, 492, 496. Alternative canal from Mississippi R. near Carrollton to a point near Metairie, thence via the "new canal" to Lake Pontchartrain, 7 m., est., \$785,939, 68, 492, 493, 496.

PRIVATE (STATE) WORK.

\$75,000 expend. by State of Louisiana in clearing R. of obstr., 80, 1187.

PROJECTS.

By Maj. Howell, 1879, imp. of R., Bayou Manchac to Lake Maurepas, giving 1 w. d. of 5' by removal

* Allotment.

¹ Amite R. and Bayou Manchac, La. Sur.—R., Dec. 17, 1842; est., \$6,000 and \$13,000. (H. D. 482, 55th, 2d.)

² Amite R.

³ Trans. from allotment for Chefuncte R. and Bogue Falia, La.

⁴ \$5,000 of this amount trans., 1910, to Chefuncte R. and Bogue Falia, La., 10, 1619.

⁵ Advantage of work done by hired labor, 85, 1392.

of snags and logs; est., \$23,760, **80**, 1157. Imp. not considered permanent, **83**, 1105; **84**, 210.

By Maj. Stickney, 1882, removal of obstr. from lower part of Bayou Manchac, from its junction with the Amite R. to Lake Maurepas, thence to Bobbins; est., \$3,450, **82**, 1415.

After ex., 1889, Capt. Fisk reported R. unworthy of imp. for more than 5 m. above mouth of Bayou Manchac; est. for snagging and dr., \$5,000, **89**, 1529. Permanent imp. not looked for, **91**, 1821.

Dr. turning basin, 10½ m. above Manchac mouth, au. 1892, **12**, 669.

An. expend. of \$2,500 required to maintain R. and bayou navigable, **92**, 1486.

In 1893 Maj. Quinn est. it would cost \$2,500 an. for mainten., **93**, 1813.

Engr. property pertaining to the work of imp. sold at auction, 1896, **96**, 1491.

By Maj. Quinn, 1899, subproj. for removing obstr. in Amite R. and Bayou Manchac gathering since 1895, **99**, 1837.

By Col. Adams, 1902, expend. balance, dr. chan. 8' x 50' through bar at mouth, **02**, 1321.

By Capt. McIndoe, for dr., mouth of Bayou Manchac, and bar at mouth of Amite R., **05**, 1462.

For constr. of combined dr. and snag boat, **07**, 414.

Proj. completed, 1912; mainten. only required; max. draft, 6½'.

SURVEYS.

"There is no evidence as yet of any effect on freight rates, but since the opening of the Plaquemine Lock a boat line has been established between Teche points and New Orleans, with rates considerably lower than corresponding railroad rates." **12**, 657.

* Allotment.

¹ H. D. 692, 60th, 1st..

² Included in Part (a).

³ Of which sum \$10,000 may be applied to imp. Pigeon Bayou and Grand River.

CONTRACTS.

1895. E. A. Burris, cofferdam, excavating and piling of foundation for lock, \$93,250, **95**, 1759. Suppl. contracts, in 1896, etc., **96**, 1471.

1896. H. P. Dillworth, hire of dr. plant, \$37.90 per day, **97**, 1761.

1898. Stewart & Co., lock and approaches, \$501,757.66, **98**, 1473; annulled, **03**, 1289.

1899. C. Clarke & Co., excavating for impr. Bayou Plaquemine, 13.98¢ c. y. (\$143,645.76), **99**, 1846. J. H. Gardner & Co., dr. and crew, \$46.49 per day of 8 hours. Otis Elevator Co., machinery and power house for lock, \$114,000, **00**, 2254, 2255.

1901. John Short, bank protection; mattress, 57¢ s. y.; and st., \$2.58 t., **01**, 1893.

1902. John Short, constr. earth protection levee, 27¢ c. y.; Chas. Clarke & Co., dr., 20¢ c. y., **02**, 1338.

1904. Penn Bridge Co., constr. lock gates; unit prices given; est. cost, \$142,028.34, **04**, 1899. C. Clarke & Co., redr., 13.98¢ c. y., **05**, 1449.

1905. C. Clarke & Co., modification of contract of 1899, **05**, 1449. McGee & Co., constr. levee, and filling behind lock walls, 56¢ c. y.; W. O. Burton & Co., excavating and constr. lock approaches, prices given, **05**, 1449.

1906. W. O. Burton & Co., excavation and constr. of R. approach and back fill, unit prices given; C. Clarke & Co., dr., 13.98¢ c. y., **07**, 1427.

1908. A. Baldwin & Co., steel, \$2.09 per 100 lbs.; turnbuckles, \$2.54 each; W. O. Burton & Co., earth back fill behind lock and wing walls, 95¢ c. y., **08**, 1497. W. O. Burton & Co., constr. 2 pile clusters, \$350; excavating for approach, \$1.05 c. y.; agreement to annul contract for R. approach, \$10,000, **09**, 1465. Variety Iron & Steel Works Co., furn. anchorages for lock gates, 6¢ per lb., **09**, 1465.

1911. Cumberland Telephone & Telegraph Co., rent of telephone, \$3.75 per mo., **12**, 1963.

ENGINEERS.

Chief of Engineers. **R.**, **80**, 146; **81**, 197; **82**, 194; **87**, 183, 1405; **88**, 169; **89**, 198, 203; **90**, 178, 182; **91**, 225, 231; **92**, 218, 223; **93**, 243; **94**, 224; **95**, 249; **96**, 218; **97**, 282; **98**, 272; **99**, 325; **00**, 369; **01**, 387; **02**, 319; **03**, 332; **04**, 350; **05**, 361; **06**, 388; **07**, 404; **08**, 437; **09**, 445; **10**, 496; **11**, 533; **12**, 651.

Boards:

Board convened, New Orleans, July 17, 1891, by S. O. No. 41, to ex. and **R.** upon Maj. Quinn's proj. for lock at the mouth of the bayou. **R.**, **92**, 1496, 1498. (Col. Craighill and Majs. Mackenzie and Quinn.)

Board constituted by S. O. No. 10, to consider certain questions relative to Plaquemine Lock. Recom. that work be resumed and completed according to orig. plans and contracts; also that sheathing plates be put on gates and 4 embankments built back of wing walls and filled between, under new or suppl. contract, **02**, 1334.

Board constituted by S. O. No. 20, to ex. and **R.** upon certain matters connected with imp., met at New Orleans, May 22, visited work on May 23, and submitted **R.** May 24, 1907, **07**, 407.

Board constituted by S. O. No. 20, reconvened by S. O. No. 51, recom. that back fill behind lock and wing walls be put in as quickly as possible, that during filling back walls should be tied at top with strong rods and turnbuckles, and that after completion of fill lower lock gates should be caulked, lock filled with water, allowed to stand at least a month, emptied and gates readjusted, **08**, 1492.

In charge:

Maj. A. Stickney, 1882-85. **R.**, **82**, 1416; **85**, 2973.

Capt. T. Turtle, 1885-86. **R.**, **85**, 1431.

Maj. W. H. Heuer, 1887. **R.**, **87**, 1406, 1407.

Capt. W. L. Fisk, 1888-91. **R.**, **89**, 1490; **90**, 1746.

Capt. D. C. Kingman, 1889-91. **R.**, **89**, 1533; **90**, 1761.

Lt. J. Millis, 1891-92. **R.**, **91**, 1867; **92**, 1517.

Maj. J. B. Quinn, 1891-99. **R.**, **91**, 1824; **92**, 1491, 1493; **93**, 1813; **94**, 1361; **95**, 1754; **96**, 1496; **97**, 1759; **98**, 1471; **99**, 1844.

Maj. H. M. Adams, 1900 and 1902-04. **R.**, **00**, 2251; (Lt. Col.) **02**, 1334; **03**, 1289; **04**, 1895.

Lt. E. M. Adams, 1901. **R.**, **01**, 1890.

Lt. Col. C. B. Sears, 1905-06. **R.**, **05**, 1446; **06**, 1304.

Col. E. H. Ruffner, 1907. **R.**, **07**, 1419.

Maj. J. F. McIndoe, 1908. **R.**, **08**, 1492.

Lt. Col. L. H. Beach, 1909-10, and 1912. **R.**, **09**, 1460; **10**, 1605; **12**, 1961.

Maj. H. Burgess, 1911. **R.**, **11**, 1746.

Assistants:

A. O. Wilson. **R.**, **85**, 2984.

Lt. O. T. Crosby. **R.**, **87**, 1407.

W. G. Price. **R.**, **90**, 1765.

J. I. Conklin. **R.**, **00**, 2256; **01**, 1894; **02**, 1338; **03**, 1283; **04**, 1900; **05**, 1450.

LEGAL PROCEEDINGS.

Condemnation proceedings for land for site and approaches of lock, **93**, 1819; **94**, 1363.

Land for approach to lock purchased, **02**, 1335.

OPERATIONS.

1888-89. 9,284 c. y. dr., **89**, 1490.

1889-90. 115,127 c. y. mud and 689 snags and logs removed; constr. of submerged spur dikes begun, **90**, 1747, 1764.

1890-91. Dr. continued in the bayou, **91**, 1825. 1891-92. 19,716 c. y. dr. and 170 logs and stumps cleared from the chan., **92**, 1492.

1892-93. Dr. boat raised from where it had sunk, and repaired; 13,826 c. y. dr. and over 6,000 obstr. removed, **93**, 1818, 1819.

1893-94. About 88,000 c. y. dr., about 4,000 obstr. and 4½ m. of raft removed, **94**, 1362.

1894-95. About 32,500 c. y. dr., about 600 obstr. removed, and preparations made for constr. of lock, **95**, 1756, 1757.

1895-96. 83,000 c. y. excavated in the constr. of lock cofferdam, **96**, 1498.

1896-97. 38,635 c. y. dr., and about 1,700 obstr. removed; extra work performed on lock cofferdam, etc., on account of h-w. damages, **97**, 1760.

1897-98. About 28,000 c. y. dr., and about 500 obstr. removed; constr. of lock begun, **98**, 1471, 1472.

1898-99. Constr. of Plaquemine Lock in progress, **99**, 1844.

1899-00. 233,600 c. y. dr. from Plaquemine Bayou; 2,165 obstr. removed from Grand R. and Pigeon Bayous; banks of the Mississippi R. above Dike No. 1 repaired, and constr. of Plaquemine Lock in progress, **00**, 2252, 2253.

1900-01. Walls of Plaquemine Lock completed, **01**, 1890. 98,530 c. y. dr. from Bayou Plaquemine; bars, drifts, snags, etc., removed from Bayous Pigeon and Postoe, **01**, 1891.

1901-02. 38,400 c. y. dr. from Bayou Plaquemine, **02**, 1335. Banks protected near Plaquemine Lock, **02**, 1336.

1902-03. 282,122 c. y. dr. from chan. through Flat Lake and Bay Natchez, and chan. marked with 82 piles, **03**, 1290. Protection levee at lock completed, **03**, 1290-95.

1903-04. Pumping plant installed at Plaquemine Lock; 8,600 c. y. dr. from Bayou Plaquemine; 87,076 c. y. dr. from chan. through Flat Lake and Bay Natchez, **04**, 1897.

1904-05. Lock walls completed and work commenced on constr. and erection of gates and constr. of power house and installation of machinery; 16,200 c. y. earth placed in protection of levee and fill; dike built in preparation for excavation of approaches, **05**, 1446, 1447. 111,900 c. y. dr. from Bayou Plaquemine; also temporary chan. dr. up to dike, **05**, 1447.

1905-06. Lock floor partly removed on account of settlement of wall; lock gates completed; power house and operating machinery nearly completed, **06**, 1305. 17,700 c. y. earth placed in levee and fill; 35,870 c. y. excavated and 1,672 piles driven in constr. of approaches, **06**, 1306. Work hindered by yellow-fever epidemic, **06**, 1305-06.

1906-07. Power house and operating machinery, and protection levee and fill completed, **07**, 1419, 1423. 49,850 c. y. excavated, 1,351 piles driven, and 7,910 c. y. concrete placed in constr. of approaches, **07**, 1420, 1423, 1424.

1907-08. 24,203 c. y. placed in back fill, gate fitted and lock filled with water for test, **08**, 1493. 28,077 c. y. excavated and placed behind lock walls, 1,941 piles driven, and 4,588 c. y. concrete placed in constr. of approaches, **08**, 1494.

1908-09. Final work done preparatory to opening lock, **09**, 1460. 24,411 c. y. excavated from R. approach, **09**, 1462. 13,830 c. y. dr. from Bayou Plaquemine, **09**, 1462.

1909-10. 30,055 c. y. dr., 2 pile clusters built, and old cofferdam and wrecked barge removed at lock approaches; 309,795 c. y. dr. from Bayou Plaquemine; 1,200 c. y. dr. and 439 obstr. removed from Grand R., **10**, 1605.

1910-11. 428,600 c. y. dr. from Bayou Plaquemine; 4 snags and 17,828 c. y. removed from Flat Lake; 72 snags, and fallen and overhanging trees removed from Bay Natchez, **11**, 1746.

1911-12. 64,163 c. y. dr. from Bayou Plaquemine by contract, and 1,300¹ of chan. dr. by U. S. plant; U. S. dr. operated between Plaquemine and Flat Lake, removing 4,250 trees, etc., and 25,721 c. y. dr., **12**, 1961.

PHYSICAL CHARACTERISTICS.

Description of bayou, **82**, 1417; **93**, 1818.

Character of bed of bayou, **87**, 1411.

H. w. a cause of damage to works for constr. of lock, **97**, 1760, and made necessary a complete revision of the plans for constr. the lock, **98**, 1472.

The peculiar character of the soil caused, in 1897, the sheet piling surmounting the foundation of the lock to overturn, **98**, 1472.

Record of settlement of lock walls, **07**, 1422; **08**, 1493.

PLANS.

In 1884 Capt. Turtle did not consider Plaquemine Bayou worthy of imp., **85**, 1431.

In 1885 Maj. Stickney considered the imp. of the Plaquemine route via Atchafalaya and Red Rs. feasible; est., \$1,708,250, **85**, 2973, 2984; **87**, 1406, 1412.

In 1887 Lt. Crosby est. cost of a lock to connect Plaquemine Bayou with the Mississippi R. at \$250,000, **87**, 1407, 1412.

PRIVATE WORK.

Description of work done before commencement of imp. by the U. S., and results, **93**, 1818.

Part (b), S-298 Plaquemine Bayou, La. (Securing against caving at the mouth of.)

APPROPRIATIONS.¹

1889-92,	\$134,000,	94 , 1386.
1893,	72,000,	94 , 1386.

Total,	206,000
--------	---------

ENGINEERS.

Chief of Engineers. **R.**, **93**, 252; **94**, 232.

In charge. Capt. J. Millis, 1891-94. **R.**, **93**, 1857; **94**, 1385.

Assistant. Wm. Garvin. **R.**, **94**, 1386.

OPERATIONS.

1893-94. Revetment laid which, with the spur dikes, formed a continuous protection 1,400' below the site of the lock, and 1,200' above, with an average w. of 400', **94**, 1386.

PROJECTS.

By Maj. Stickney, 1885, connecting Plaquemine Bayou with the Mississippi R., via the Atchafalaya and Red Rs., by removing snags, dr., and constr. of a lock at the mouth of the bayou; est., \$1,708,250, **85**, 2973, 2984; **87**, 1406, 1412.

By Capt. Kingman, 1889, to prevent further caving at the mouth of the bayou by the constr. of 4 timber and st. spur dikes; est. included in the cost of Maj. Stickney's proj., **90**, 1762.

Details of constr. of lock at the mouth of the bayou as proposed by Maj. Quinn and altered by the B.E., **92**, 1494, 1498.

Act July 13, 1892, au. Grand R. and Pigeon Bayous, forming a portion of Plaquemine Bayou, should be imp., **93**, 1819.

By Maj. Quinn, 1884, expend. the app. of that year and the remainder of the old app. for continuing dr., constr. a cofferdam and foundation for proposed lock, and for removing obstr. in Grand R. and Pigeon Bayous, **95**, 1755.

By Maj. Quinn, 1899, completing continuous contract for constr. lock and approaches, \$501,757.60; imp. Grand R., La., \$25,000; enlarging bed of Plaquemine Bayou, La., from R.R. br. to d. w. below Dardennes Bend, for a l.-w. chan. 125' w. and 10' d., \$222,012.40, and for purchasing a narrow strip of land at Dardennes Bend, in connection with imp. the bayou, \$1,230, **99**, 1844.

By Lt. Adams, 1900, chan. 10' x 60', Pigeon Bayou to Atchafalaya R. near Morgan City through Bay Natchez, Bayou Long and Flat Lake; est., \$52,000, **01**, 1391.

Lt. Col. Adams recom. 1903, further protection to banks at lock at est. cost of \$35,000, **03**, 1290.

Lt. Col. Adams, 1904, recom. protection of bank above lock at est. cost of \$80,000, **04**, 1898.

SURVEYS.

Au. act June 14, 1880; made by Maj. Stickney, **82**, 1416.

Of mouth of bayou, with a view to connecting with the Mississippi R. by locks.

Also of the bayou and other connecting streams to form the best route to Grand Lake. Au. act Aug. 5, 1886; made by Maj. Heuer (see Projects), **87**, 1405.

Ex. of Big and Little Pigeon Bayous made by Maj. Quinn, 1893, **93**, 1819.

Minor sur. made, 1900, **00**, 2253.

Of Bay Natchez and Flat Lake, from Palfrey Place to mouth of Bayou Godell, **01**, 1391.

Of Plaquemine Lock and R. approach, **10**, 1605.

Maps. **90**, 1766; **92**, atlas, **78**; **00**, 2258.

PHYSICAL CHARACTERISTICS.

Description of, **93**, 1857.

Extensive caving, **94**, 1386.

PROJECTS.

By Capt. Millis, 1893, deferring transfer of the work to Maj. Quinn until needed repairs and strengthening had been accomplished, using mattresses and rock paving for that purpose, **93**, 1858, 1859.

In 1893-94, for constr. continuous revetment between the dikes constr., instead of following the preceding constr. plan; est., \$72,000, in addition to the funds on hand, **94**, 1386.

SURVEYS.

Total, 270,000 (less app. of 1852, and incl. misc., \$265,585.17, 12, 1985).

COMMERCE.

C. importance of the bayou, 74, 766, 768; of country adjacent, 74, 768; 74, 769.

List of obstr., 74, 767.

Importance of imp., 80, 1161; 84, 1281.

Interests affected, 86, 1269, 1274; 87, 1366.

Increase in vessels following imp., 88, 1249.

Probable reduction of rates if slack-water navigation were adopted, 88, 1249.

Description of; in 1894-95 most of it was carried in flatboats, but when steamboats were able to run through the rates were much lower, 95, 1751.

C. greatly benefited by imp., 97, 1758.

1902, 133,000±t.; 1906, 60,000±t.; 1909, 70,000±t.; 1911, 116,000±t. Effect on rates not known, 12, 679.

C. can reach Miss. R. by 2 toll canals, 12, 679.

CONTRACTS.

1888. J. H. Gardner, dr., 43¢ c. y., 89, 1487.

1895. E. A. Burris, furnishing dr., \$64 per day, 95, 1752.

1896. H. Camors, furnishing dr., \$49 per day, 96, 1495.

1897. F. Beck, furnishing dr. to work 16 hours each day with 2 crews, \$64.50 per 8 hours, 98, 1470.

1899. J. K. Burris, hire of dr., \$78 per day (\$3,592), 00, 2250.

1900. J. J. Keegan, hire of dr., \$65 per day, 00, 2250; dr., prices given, 01, 1888.

1901. J. J. Keegan, dr. and removing obstr., \$65 per day of 16 hours, 01, 1889.

1903. J. J. Keegan, dr., \$68 per day, 03, 1288.

1912. Gustave Gashett, hire of launch, \$4.75 per day; J. D. Scarbrough, hire of house boat, \$2 per day, 12, 1985.

ENGINEERS.

Chief of Engineers. Lt. E. M. Adams, 01, 379.

Lt. P. S. Bond, 02, 310; 03, 324.

1st Lt. W. Willing, 09, 439.

1st Lt. R. R. Ralston, 09, 439; 10, 489; 11, 526.

1st Lt. R. P. Howell, jr., 11, 526 (Capt.) 12, 645.

ESTIMATES. (See Plans and Projects.)

By R. B. Talfor, dr. and removal of snags, stumps, and wrecks, \$100,100, 74, 767.

OBSTRUCTIONS.

Navigation complaints about obstr., 08, 1479; (see Sur., 1912).

OPERATIONS.

1878-79. Wrecking-flat built; 169 obstr. removed from the chan., 79, 901.

1879-80. 827 snags, stumps, and logs, and 10 wrecks removed by hired labor, 80, 1161.

1880-81. 771 snags, stumps, and logs removed by hired labor, 81, 1299.

1881-82. 1,283 obstr. removed by hired labor, 82, 1384.

1882-83. 487 obstr. removed by hired labor, 83, 1126.

1884-85. Removal of obstr. by hired labor, 85, 1408.

1885-86. Completion of sur. ordered in 1882, 86, 1266.

1888-89. Dr. and removal of obstr. resumed, 89, 1487.

1889-90. 37,944 c. y. dr.; snags, and flat and steamboat wrecks removed from the chan., 90, 1743.

1890-91. Dr. by hired labor, 91, 1822.

1891-92. 95,984 c. y. dr.; 78 stumps and 10 wrecks removed from the chan., 92, 1488.

1892-93. In connection with preceding year, about 117,000 c. y. dr., and about 600 obstr. and 29 wrecks removed, 93, 1815.

1893-94. About 86,000 c. y. dr., some obstr. and 6 wrecks removed, 94, 1357.

1894-95. About 117,000 c. y. dr., 500 obstr. removed, and 16 wrecks also removed, 95, 1751.

1895-96. 164,000 c. y. dr., about 800 obstr. and 4 wrecks removed, 96, 1494.

1896-97. About 135,000 c. y. dr. and some obstr. removed, 97, 1758.

1897-98. 106,000 c. y. dr. and some obstr. removed, most of the work being done by contract, but some by U. S. dr., 98, 1469.

1898-99. 126,005 c. y. dr. and 199 obstr., including the wrecks of several coal barges, removed, 99, 1842.

1899-00. Bars, wrecks, and other obstr. bet. Donaldsonville, La., and a point 8 m. below removed, 00, 2249.

1900-01. 93,319 c. y. dr. (mainten.); snags and wrecks removed, 01, 1888.

1901-02. 66,919 c. y. dr. under contract (mainten.); snags and wrecks removed, 02, 1332.

1902-03. 49,380 c. y. dr. (mainten.); snags and obstr. removed, 03, 1287.

1911-12. 9 abandoned barges, 1 old boiler, and 23 snags removed, 12, 1984.

¹ Ex.—R. (unfav.) Oct. 8, 1845. Sur.—R. Feb. 12, 1853; est., \$31,500. (H. D. 482, 55th, 2d.)

² \$500 to be applied to removal of p. at Donaldsonville, 81, 887.

PHYSICAL CHARACTERISTICS.

Causes of crevasses, **74**, 767.

Continued raising of levees necessary, **74**, 767, 769.

Action of floods in bayous, **86**, 1271.

High-water slopes, **86**, 1272.

Sediment, **86**, 1273.

Description of, **93**, 1814; **95**, 1751.

During 8 months in the year, when the Mississippi is high, the bayou is navigable by the largest S.S., but during extreme l. w. navigation is entirely suspended, even for flatboats drawing over 2', **93**, 1814.

Subject to shoaling, which makes dr. slow and unsatisfactory, **93**, 1814; **94**, 1357; **95**, 1751.

Prior to 1902, B. L. an outlet of Miss. R. head of Donaldsonville, 80 m. above New Orleans; in 1902 au. to close it granted. (See Private work.) From Miss. to mouth in Gulf of Mexico, 107 m.; w. 75'-150', **12**, 677.

PLANS. (See Estimates and Projects.)

By R. B. Talfor, dr. and removal of snags, stumps, and wrecks, to give a 3' chan. from Parris Canal to Donaldsonville, **74**, 767. For the constr. of a lock at the head of the bayou, and converting it into a tidewater canal, **74**, 768.

By Maj. Howell. 1. Constr. of lock and dam at head of bayou. 2. See Proj., **74**, 769. Comparison of different plans, **74**, 769, 770.

PRIVATE WORK.

Sec. of War grants permission, under au. act June 13, 1900, for constr. of dam by the Atchafalaya Basin and Lafourche Basin levee boards, of La. to close bayou head with a dam for 2 yrs. 6 mos pending construct. of a lock there by the levee boards, **12**, 678; at their expense, **03**, 641; **04**, 709; **07**, 830; **09**, 1483.

Time extended twice, to Jan. 1, 1910; lock plans approv., but because of cost, new lock plans made to come under resources of boards, **12**, 678.

PROJECTS. (See Estimates and Plans.)

By Maj. Howell, 1879, relief of flood gorge by removing stumps and snags Thibodaux to Parris Canal; est., \$10,000, **74**, 769, 770. For dr. Upper Bayou to 4', **79**, 901; **81**, 196.

By Capt. Turtle, 1884, continuation of the proj. of 1879 from the point where work was suspended, 1883.

In 1889 operations were continued under Maj. Heuer's proj. of 1886 for the imp. of Bayou Lafourche by lock at Donaldsonville to connect with the Mississippi R., converting the bayou into a salt-water canal, with dr. in the bayou to form a chan. 5' x 75'; est., \$450,000, with an. mainten. of \$8,000, **86**, 1267, 1274, 1275; **87**, 1366; **92**, 1488.

By Maj. Quinn, 1896, modifying proj. of 1886 for lock, etc., to provide for holding that proj. in suspension and for restricting operations to mainten. by dr.; est., \$25,000 an., **97**, 1758.

By Maj. Quinn, 1899, subproj. to expend the app. of 1899 to maintain l.-w. navigation, with dr., **99**, 1342.

Proj. further modified, 1900, to permit expend. remaining money on dr. to maintain flatboat navigation during l. w., **00**, 2249.

At 1912, proj. held to be mainten. of 5' x 75' chan. at l. w. and lock constr. of levee boards, **12**, 678.

See Private work.

SURVEYS.

By R. B. Talfor, 1873-74. **R.**, **74**, 766.

Au. act Aug. 2, 1882, **84**, 216; made by Capt. Stickney, 1883, **84**, 1291. Line of levels incomplete, **84**, 1292; completed, **86**, 1266, 1268.

Ex. au. act Aug. 11, 1888; made, 1889, by Capt. Fisk, **89**, 1531.

Sur. to locate drainage ditches and to place responsibility for obstrs., **12**, 679.

Ex. and sur. au. act Feb. 27, 1911, for 20' at mouth, **12**, 687.

OPERATIONS.

1880-81. 7½ m. of chan. below Houma d. by hired labor and use of hired dr., **81**, 1298.

1881-82. 8½ m. of chan. 38' to 40' w. and 4' d. obtained by hired labor and use of hired dr.; constr. of dr. hull by contract, **82**, 1382.

1882-83. 4 m. of chan. 6' x 83' obtained by hired labor and use of U. S. dr., **83**, 1125.

1886-87. 164,165 c. y. dr. by U. S. dr., **87**, 1367.

1909-10. 5 piling, 126 large trees, and a number of smaller obstr. removed, and attempt made to remove mass of obstr. grass, cane, etc., **10**, 1626.

1910-11. Removal of trees and restoration of chan. depths in progress, **11**, 1769.

PHYSICAL CHARACTERISTICS.

Bayou 11' w. at upper end of imp., **81**, 1298.

Description of, **93**, 1817.

Permanent imp. doubtful on account of the formation of shoals from the silt that finds its way into the bayou, **93**, 1817.

¹ Dr. hull built in 1881 from joint app. of Bayous Terrebonne and Black, **82**, 1382.

Description of. District examined, 1892, possessing value only as a part of, and as a connecting link in system of tidewater canals from Mississippi to Berwick B. and beyond, **93**, 1846.

Comparative distances, New Orleans to Berwick B., **93**, 1847.

Bayou greatly obstr. by trees, logs, etc., due to severe storm in 1909, **10**, 526.

PROJECTS.

By Maj. Howell, 1879, 1. w. chan. 4' d., Houma to a point about 20 m. below, by removal of overhanging trees from the right bank and the dr. of shoal areas; est., \$18,800, **80**, 1158, 1179, 1180. Increased for dr., \$15,000, **81**, 1298. Increased for dr., \$5,000, **82**, 1383; **87**, 1367. Work not considered permanent, **80**, 1158; **82**, 1383; **87**, 1368.

In 1887 the proj. for imp. of bayou completed; cost, \$35,000-\$3,000 within the est., **90**, 1745; **92**, 1490.

Act June 25, 1910, au. chan. 6' d. from Houma to d. w.; est., \$50,000¹ (see Surveys, 1907), **10**, 526.

SURVEYS.

Au. act Mar. 3, 1879, **79**, 112; **80**, 145. Ex. made by Maj. Howell 1879, **80**, 1179.

From Houma to Thibodeaux, au. act Aug. 5, 1886; made by Maj. Heuer (R. unfav.), **87**, 1396.

Assistants:

G. Dyes, **71**, 67. R., **71**, 555.

F. P. Leavenworth. R., **74**, 771.

Lt. O. T. Crosby. R., **85**, 1436.

J. L. Brownlee. R., **97**, 1780.

P. H. Thomson. R., **00**, 2286.

Capt. R. R. Ralston, **10**, 526.

1st Lt. R. P. Howell, jr., **10**, 526.

¹ H. D. 1163, 60th, 2d.

ESTIMATES.

By G. Dyes, chan. 12' x 100', \$104,800; 12' x 150' \$122,300; 12' x 200', \$140,300, **71**, 554.

By Capt. Howell, removing obstr. to Courtableau Bayou, \$14,000, **74**, 776.

OPERATIONS.

1910-11. 49,300 l. f. of chan. completed, 5,184-323 c. y. of material having been removed, incl. that previously dr. in the 14' chan., **11**, 1771.

1911-12. 34,850 l. f. chan. completed, 1,309,183 c. y. material having been removed, incl. that previously dr. in 14' chan., **12**, 1989.

PHYSICAL CHARACTERISTICS.

Description of, **74**, 771, 772, 773; **82**, 1395; **97**, 1780; **00**, 2286; **10**, 527.

Table of distances, etc., **74**, 771, 772.

Chan., beginning about 3 m. outside of the R. mouth and extending through the B. to d. w. in the Gulf, about 1½ m.; average w., 100'; ds., 7' and 10'; the latter, for one-fifth of the distance, created before 1896 by Morgan Steamship Co., **97**, 1780.

Winds and tides, **00**, 2286.

Max. dr. increased from 7' to 20' at l. w. to Morgan City.

PLANS.

1874. Of F. P. Leavenworth, to remove snags trees, etc., chan. to mouth of the Courtableau, 60 m., **74**, 775, 776.

PRIVATE (CORPORATE AND STATE) WORK.

R. formerly cleared of logs by La., **82**, 1396.

Morgan's Steamship Co. excavated, 1870-74, a 12' chan. from d. w. in Atchafalaya R. to the 12' contour in the Gulf of Mexico, **71**, 68, 554; **00**, 2286.

Two different chans., 12' and 14', dr. through A. Bay by private parties; first has deteriorated, **12**, 683.

PROJECTS.

In 1882 Maj. Stickney reported the imp. so intimately connected with the Mississippi that no

recom. could be made until the Mississippi R. Commission should act, **82**, 1410. Concurred in, 1885, by Maj. Heuer, **85**, 1435.

In 1884 Capt. Turtle submitted an est. of \$20,000 for provisional work, **85**, 1433.

Maj. Adams est., 1900, \$1,939,399.08 to make the desired imp., **00**, 2285.

By Lt. Col. Beach, 1910, chan. 200' x 20', mouth of R. to Gulf of Mexico; est., \$530,000, incl. mainten. for 3 yrs., and \$10,000 for inspection and superintendence by the U. S., **10**, 527, 528.

SURVEYS.

By G. Dyes, 1870, **71**, 67, 555.

Ordered from mouth of Red R. down the Atchafalaya to Brashear, 1873, **73**, 66; completed by F. P. Leavenworth, 1874, **74**, 74, 771.

Under direction of Maj. Howell, R. from Berwick B. to mouth of Red R., 1880, **82**, 1394.

By Capt. Turtle, 1885, R. from Berwicks B. to Red R. (R. fav.), **85**, 1432.

Ex. of R. au. act Aug. 11, 1888; made, 1888, by Capt. Fisk (R. unfav.), **89**, 1510.

Ex. to ascertain the nature and character of the chan. through the B. and its value to the U. S., au. act June 3, 1896; made, 1897, by Maj. Quinn (R. unfav.), **97**, 1779.

Ex. and sur. of Atchafalaya B. from the mouth of Atchafalaya R. to d. w. in the Gulf of Mexico with a view to chan. 12' d. m. l. w., 200' w., with an est. of cost, au. act Mar. 3, 1899; ex., 1899, by Maj. Quinn (R. fav.); sur., 1900, by Maj. Adams (R. unfav.; see Projects), **00**, 2283, 2284.

R. by BERRH., Sept. 8, 1908, requested by R. and H. Comm. to review sur. of 1900 (see pp. 2283, 2284, A. R. 1900) and report any change in physical conditions. Atchafalaya Bay Ship Channel Co. has constr. a chan. 14' x 125', and offers to enlarge to 20' x 200' if U. S. will reimburse their rig. expend. of \$150,000. New proposed chan. 20' x 200' will cost \$500,000, with mainten. at \$10,000 per an. for not to exceed 3 years.²

Ex., Morgan City to Gulf of Mexico, au. act Mar. 3, 1909; made, 1909; by Lt. Col. Beach's Rs. dated 1909 and 1910; est., \$530,000¹ (see Projects), **10**, 529. Maps. **12**, 1989.

P. H. Thomson. **R.** 91, 1853.

J. L. Brownlee. **R.** 97, 1785.

ESTIMATES. (See Plans and Projects.)

By Capt. Howell, removal of obstr., \$18,472, **70**, 350.

LEGAL PROCEEDINGS.

Citizen's League of St. Martinville, La., had land, required for lock and dam purposes and for canal feeder, sur., and made arrangements to have said land trans. to U. S., **07**, 1428. Abstract of title forwarded to Atty. Genl. for opinion as to validity, **08**, 1480. Land deeded to U. S.; deeds approved and recorded, **09**, 1466.

U. S. is to be secured against claims for damages due to overflow from lock and dam, and draining of Spanish Lake. Bonds presented by parish of St. Martin, town of St. Martinville, and village of Breaux Bridge, for \$10,000. Comptroller of Treas., Judge Advocate General and Engineer Dept. decide personal bonds fulfill sufficient guarantee of U. S. against damages, **09**, 1466; **10**, 1610.

OBSTRUCTIONS. (See Physical characteristics.)

OPERATIONS.

1869-70. Work deferred on account of unhealthfulness of the season, **70**, 61.

1870-71. All obstr. removed, mouth to New Iberia, **71**, 65, 516.

1871-72. Completion of work; navigation imp. from St. Martinville to the Atchafalaya R., 75 m. List of obstr. removed, **72**, 61, 556.

1880-81. Obstr. removed by contract between St. Martinville and Leons Br., **81**, 1286.

1882-83. Sur. of bayou from Charenton Canal to Port Barre, **83**, 209.

1883-84. Completion of maps and preparation of plans for imp., **84**, 1272.

1884-85. Wreck and 435 snags and logs removed, with hired labor, from bayou between New Iberia and St. Martinville, **85**, 1398.

1885-86. Removal of obstr., with hired labor, to 19 m. below head of bayou, **86**, 1247.

1886-87. Removal of obstr. to headwaters of bayou, **87**, 1370.

1891-92. 350 snags and stumps, 144 piles, and 66 fallen trees cleared from chan., **92**, 1503.

1894-95. About 98,000 c. y. dr., and 300 obstr. removed, **95**, 1763.

1896-97. About 64,500 c. y. dr., and 1,665 obstr. removed, **97**, 1764.

1899-00. 2,571 obstr. removed, **00**, 2260.

1902-03. Total of 56,513 c. y. dr., and 2 wrecks, 50 logs, and 434 snags removed from chan., **03**, 1296.

1906-07. No work done beyond location of site of lock near St. Martinville and site of dam across head of Bayou Vermilion, **07**, 1428.

1907-08. 34,425 c. y. dr. under contract, **08**, 1480.

1909-10. Borings for lock and dam made, and plans and specifications for concrete lock, timber crib dam, concrete abutment, and lockkeeper's dwelling prepared, **10**, 1610.

1910-11. Sheet-pile cofferdam built around site of lock; cableway erected; employees' quarters built, and 15,886 c. y. excavated from lock pit; 1,700 c. y. excavated from site of abutment by wheelbarrows; 44,402 c. y. dr. from shoal places in Bayou Teche (mainten.). All work done by hired labor, **11**, 1751.

1911-12. Work by hired labor on lock at Keystone continued; 5,700 c. y. removed from lock pit, 2,000 c. y. from lower approach, and 4,775 c. y. from site of dam; driving of piles for lock foundation completed; installation of mixing plant completed; lockkeeper's dwelling nearly completed; banks cleared of trees, **12**, 1966.

PHYSICAL CHARACTERISTICS.

Description of obstr., **70**, 348.

Description of bayou, **80**, 1167; **83**, 1114; **86**, 1249; **89**, 1516; **91**, 1853; **93**, 1824; **95**, 1789.

Current observations and discharge, **86**, 1251, 1254.

Chan. dimensions, **97**, 1764.

Shoals from the material emerging from drainage ditches, **93**, 1824; **97**, 1784.

Bayou flows out of Bayou Courtabaleau at Port Barre, flows into Atchafalaya R., is navigable from that R. to St. Martinville at all seasons from the latter place to Port Barre, about 55 m. navigable for only 6 months in year, **95**, 1789.

Shoaling, **01**, 1899; **06**, 1310.

Yellow fever, La., 1907, **07**, 1428.

Variation of w. l. bet. h. and l. w., 12', **08**, 429.

Max. draft, 3', **08**, 429.

Borings for lock and dam show foundations consist of mud and clay, **10**, 1610.

PLANS. (See Projects.)

By Maj. Stickney, 1883, carrying l.-w. d. of 5' to within 4 m. of Port Barre, by clearing bayou of obstr. and by dr., and constr. of 2 locks and dams; est., \$135,625, **83**, 1113, 1116; **86**, 1246.

Locks to be 50' x 300' and 8' lift; lower lock to be placed about 5 m. below St. Martinville; upper lock, 2 m. below Breaux Br., **84**, 1274; **85**, 1398.

In 1886 Lt. Crosby est. cost of single movable dam, with lock, 14 m. below St. Martinville, at about \$175,000, **86**, 1250, 1257; **87**, 1370.

Maj. Heuer recom. no app. be made for constr. of lock and dam until capacity of "present" imp. be tested, **85**, 1399; **86**, 1250; **87**, 1371.

In 1889 Capt. Fisk reported bayou unworthy of slack-water imp., **89**, 1515.

In 1891 Col. Comstock reported bayou, St. Martinville to Port Barre, unworthy of imp., **91**, 1852.

PRIVATE (STATE) WORK.

La. app. \$30,000 to remove overhanging trees and projecting logs; work in progress, **70**, 350.

See Legal proceedings.

PROJECTS. (See Plans.)

By Capt. Howell, 1870, removing wrecks, snags, trees, and other obstr. in Bayou Teche, **70**, 349; **72**, 566.

By Maj. Howell, 1880, imp. of Bayou Teche, New Iberia to Leonville, by removal of obstr., and constr. of 3 movable dams; est., \$56,690, **80**, 1159, 1166, 1169; **82**, 1378.

Maj. Heuer advised that no app. for lock and dam be made till the capacity of imp. had been tested, **85**, 1399; **86**, 1230; **87**, 1371.

In 1897 Maj. Quinn est. \$245,086 to imp. bayou bet. St. Martinville and Port Barre, **97**, 1785.

By Maj. Quinn, 1899, subproj., for removal of obstr. from bayou, under contract, **99**, 1848.

Act Mar. 2, 1907, modified "present" proj. so as to obtain 6' navigation to Arnaudville, by dr., removal of snags, etc., and constr. of lock; est., \$111,000,¹ **07**, 408.

Increase in est. for lock and dam constr., \$25,000; also recom. dike constr. on Bayou Fusilier, \$5,000; drainage canal to Spanish Lake, and regulating gates, \$18,000; raising lake level by constr. 2 small levees, \$12,000; dr. below lock at Keystone, \$30,000, and \$10,000 for contingent expenses; total increase of \$100,000 over former est., **10**, 501. Revised est. gives cost of lock and dam constr. at \$10,000 addl., reducing 1910 est. by \$15,000, **11**, 538.

SURVEYS.

By Capt. Howell, 1870, **70**, 61, 347, 351.

Au. act Mar. 3, 1879, **80**, 145; made by Maj. Howell, 1879, **80**, 1166.

Part (b), S-642 Teche Bayou, La. (Canal connecting with Grand Lake at Charenton, La.)

APPROPRIATION.

1881, \$25,000, **81**, 1288.

COMMERCE.

Amount to be benefited by imp., **80**, 1189.
Plantations on bayou not directly benefited, **85**, 1400; **86**, 1260.

ENGINEERS.

Chief of Engineers. **R.**, **80**, 145; **81**, 194; **82**, 190; **83**, 209; **84**, 212; **85**, 218; **86**, 216; **87**, 184.

In charge:

Maj. C. W. Howell, 1879-81. **R.**, **80**, 1187; **81**, 1287.

Maj. A. Stickney, 1881-84. **R.**, **82**, 1378; **83**, 1116; **84**, 1275.

Capt. T. Turtle, 1884-85. **R.**, **85**, 215.

Maj. W. H. Heuer, 1885-87. **R.**, **85**, 1399; **86**, 1259; **87**, 1374.

Capt. W. L. Fisk, 1888. **R.**, **88**, 1253.

Assistant. H. C. Collins. **R.**, **80**, 1188; **83**, 1118; **84**, 1275.

LEGISLATION.

State legislation ceding jurisdiction of land to U. S., **82**, 1379.

PLANS. (See Projects.)

By Maj. Stickney, 1882, open canal 100' w. at

Charenton Canal to Port Barre, by Maj. Stickney, 1882, **83**, 1113; **85**, 1397.

Charenton Canal to mouth, by Lt. Crosby, 1885, **85**, 1398.

Ex., with view of putting in locks and dams, au. act Aug. 11, 1888; made, 1889, by Capt. Fisk (**R.** unfav.; see Plans), **89**, 1515, 1518, 1532.

Ex. St. Martinville to Port Barre, au. act Aug. 17, 1894; made, 1895, by Maj. Quinn (**R.** fav. to partial imp.), **95**, 1788.

Sur. of the same division au. act June 3, 1896; made by Maj. Quinn, 1897 (**R.** fav.; see Projects), **97**, 1783.

Act Mar. 3, 1905, au. resur. of bayou, contemplating securing a l.-w. chan. of 6', St. Martinville to source of bayou, about 50 m., **05**, 1454. **R.** by Lt. Col. Sears, Dec. 26, 1905¹ (unfav.), **06**, 392.

Supple. **R.** by B.E.R.H., Feb. 7, 1905, requested by R. and H. Com., reviewing **R.** of Maj. Quinn et al., 1897, etc. In opinion of Board it is not advisable to undertake any further imp. than contemplated by present proj. (see Projects, 1907).²

Supple. **R.** by B.E.R.H., Dec. 27, 1906, requested by R. and H. Com. Board recom. expend. of \$110,000 by constr. of lock and dam, extending navigation to Arnaudville. All necessary lands and feeders to be ceded free to U. S.³

Pre. ex. and sur. au. act Mar. 3, 1909, with view to securing increased d. (**R.** to com.), **10**, 529; **11**, 566; **12**, 686.

Maps.¹ **89**, 1522.

bottom and without lock; est., by contract, \$130, 350; by hired labor, \$85,000.

For canal 50' at bottom, with lock. Est., by contract, \$138,600; by hired labor, \$123,125, **83**, 1117, 1119; **84**, 1275. Not deemed advisable by the Chief of Engineers to expend available funds for constr. of the plant required to perform the work by hired labor, **84**, 1275.

In 1888 Capt. Fisk stated that a slack-water navigation would only benefit that portion of the Teche country above the lock, **88**, 1253.

PRIVATE AND CORPORATE WORK.

Right of way given by the Charenton Canal Co., **82**, 1379; **83**, 1116.

PROJECTS. (See Plans.)

By Maj. Howell, 1880, canal connecting Bayou Teche at Charenton with Grand Lake, 50' x 6,594' at bottom, 5' to 6' d. at ordinary l. w., provided with a lock with double gates. Est. cost, \$75,000, **80**, 1189; **86**, 1260. Modified, 1885, for canal 100' w. at bottom and without locks, **84**, 1275; **85**, 1399. Recom. by Maj. Heuer that no work be done until \$75,000 be app., **86**, 1260; **87**, 1374.

SURVEYS.

Au. act June 28, 1879, **80**, 145; made by Maj. Howell, **80**, 1187.

Sur. for location of canal, 1882, **83**, 209.

Assistants:

W. H. Hoffman. **R., 80, 1165.**

Lt. O. T. Crosby. **R., 87, 1398.**

P. H. Thomson. **R., 91, 1856.**

OPERATIONS.

1881-82. 22 m. of R. below the R.R. br. cleared of obstr. by contract, **82, 1373.**

1882-83. 2 1/4 m. of R. cleared and a brush dike 650' long built by contract, **83, 1106.**

1892-93. Over 3,000 obstr. removed, **93, 1827.**

1893-94. 50 guide piles driven, **94, 1371.**

1894-95. About 450 obstr. removed, **95, 1766.**

1895-96. About 900 obstr. removed, **96, 1506.**

1899-00. Stream cleared of snags and overhanging trees from Abbeville, La., to the Southern Pacific R.R. br., **00, 2262.**

1902-03. About 20 m. of bayou cleared of obstr., **03, 1306.**

1903-04. Work completed by removal of 520 overhanging trees and 553 obstr., such as snags, logs, etc., **04, 1908.**

1906-07. 31 snags removed and 175 overhanging trees cut, **07, 1437.**

1907-08. 11 snags and fallen trees and 1 coal boat removed, **08, 1499.**

1909-10. From mouth to R.R. br. removed 4,695 snags and trees, 2 old ferry approaches, 1 sunken barge, 44 old bridge piles, and dr. 10,862 c. y.; 15,905 c. y. dr. from bar at mouth, **10, 1620.**

1910-11. 3 piles and 1 snag removed, **11, 1763.**

1911-12. 2,551 obstr. removed, **12, 1980.**

PLANS. (See Projects.)

Maj. Heuer, 1886, est. cost of imp. from Abbeville to Louisiana & Texas R.R. br., by removal of snags, etc., at \$5,000, but does not consider locality worthy of imp., **87, 1398.**

PROJECTS. (See Plans.)

By Maj. Howell, 1879, imp. of the R. to a l.-w. d. of 5' from R.R. br. above Vermilion to mouth in Vermilion B., by removal of trees, logs, and snags; est., \$9,900, **80, 1157, 1165, 1166.** Imp. not considered permanent, **80, 1165; 83, 1107; 87, 1398.**

By Capt. Fisk, 1891, removing snags, overhanging trees, and logs in the bayou, and driving guide piles in the B. to mark chans.; est., \$25,000, **91, 1856, 93, 1826.**

* Allotment.

1 Trans. from all't for imp. Mermentau R. and tributaries.

By Maj. Quinn, 1894-95, clearing the stream above Abbeville as far as available funds would permit, about 30 m., **95**, 1768.

By Maj. Quinn, 1899, clearing the stream of snags and overhanging trees, from Abbeville, La., to the Southern Pacific R.R. br., **99**, 1850.

Act July 12, 1902, au. mainten. by removal of obstr. (snags, logs, etc.), mouth to Southern Pacific R.R. br., **03**, 1306.

Act Apr. 11, 1907, au. \$5,000 for constr. of combined dr. and snag boat, **08**, 1499.

Part (b), S-696 Donaldsonville, La., to the Rio Grande River, Tex. (Canal.)

COMMERCE.

Important, **75**, 877, 880-883, 894.

ENGINEERS.

Chief of Engineers. R., **73**, 66; **75**, 79; **79**, 112.

In charge. Capt. C. W. Howell, 1873-75, **73**, 66; **75**, 79; **79**, 111. R., **75**, 875.

Assistants:

J. A. Hayward. R., **75**, 883.

H. C. Ripley, **75**, 889.

J. C. Polhemus. R., **75**, 895, 897.

Lt. H. M. Adams. R., **75**, 893.

ESTIMATES. (See Plans.)

By Capt. Howell, 1875, inland navigation, Donaldsonville to the Rio Grande: For sec. 1, chan. from Donaldsonville to Vermilion B., \$1,653,705; for sec. 2, Vermilion B. to Sabine Lake, \$1,587,889, and js. at mouth of Sabine R., \$90,828; Sabine Lake to Galveston B., \$1,018,250; sec. 3, Galveston B. to Brazos R., \$212,144; sec. 4, lock at Rio Grande, \$28,110; Indianola to Madre Lagoon, \$3,258,288; Madre Lagoon to Rio Grande, \$190,256, **75**, 880-883, 896-901; total, \$8,039,461, **75**, 882.

PHYSICAL CHARACTERISTICS.

General description, **75**, 876-900.

High and low water range, **75**, 883.

PLANS. (See Estimates.)

By Capt. Howell, 1875, inland navigation from Donaldsonville to the Rio Grande, as follows: Sec. 1, from Donaldsonville to Vermilion B. by slack water via Bayou Lafourche to Napoleonville; thence by a canal in a direct line to Lake Verret; thence to Flat Lake; from Flat Lake via the Little Atchafalaya R. and Bayou Teche to Franklin; thence to Cote Blanche B. and via the latter and Vermilion B. to Schooner Bayou; est., \$1,653,705, **75**, 879, 880, 883, 884. Sec. 2, from Vermilion B. to Galveston B. Canal; from Schooner Bayou to

White Lake; thence via canal to Turtle Lake, Alligator Lake, and Lake Collicon; thence via Bayou Collicon to Grand Lake, Bayou Lacassine to Lake Lacassine; Bayou Misère to Lake Misère; thence via canal to Willow Lake; via Bayou Bois Connie to Calcasieu Lake; Kelso Bayou to Black Lake (Sabine Lake); thence by small chain of lakes and Mud Bayou to East Bay Bayou (Galveston B.); est., \$2,696,967, **75**, 880-882, 889-896. Sec. 3, Galveston B. to Brazos R. by increasing the existing 3' navigation to 6' by cuts through reefs in West Galveston B. and in Oyster B.; thence through ridge separating Oyster B. and Brazos R., to Brazos R.; est., \$212,144, **75**, 881, 898. Sec. 4, Brazos R. to Rio Grande by canal from Brazos R. across marshy prairies and through small freshwater lakes to San Bernard R.; thence through Cedar Lake; thence direct to Cany Creek; thence via Cany Creek to Matagorda B., and via the latter to Indianola H. From Indianola to the Rio Grande a 6' tide-water canal, 80' w. at the top, following along the coast line, recom. as the only feasible plan; est., \$3,476,644, **75**, 882. General discussion of routes: Sec. 1, lock proj. in Bayou Lafourche impracticable, **75**, 878, 887. Dam and inclined plane impracticable, **75**, 879. Route via Bayou Teche with a cut to Bayou Cypremort, and dr. this bayou to Vermilion B.; est., \$1,258,538, not recom., **75**, 880. Sec. 4, cuts through lagoons from Indianola H. to Rio Grande not permanent; est., \$1,902,978, **75**, 882.

PRIVATE (STATE AND CORPORATE) WORK.

Canal excavated by the Brazos Canal Co., connecting West Galveston B. with the Brazos R., **75**, 898. Chan. excavated by the State from Espiritu Santo B. to San Antonio B., thence to Mesquite B., **75**, 898. Pass dr. between Aransas and Corpus Christi Bs., **75**, 899.

SURVEYS.

By Capt. Howell, 1872, **73**, 66; **75**, 79, 876, 883, 889, 890, 893, 895, 897.

By Capt. Howell, 1879, **79**, 112.

Part (c), S-696 Franklin to Mermentau, La. (Inland waterway.)

APPROPRIATIONS.

1907, \$89,292, 07, 1437.
1908, 100,000, 08, 1499.
1909, 100,000, 09, 1468.
1910, 12,500, 10, 1612.

Total, 301,792 (incl. misc., \$301,818.15, 12, 1971).

COMMERCE.

Canal system necessary for safety of C. of smaller streams, 10, 603.

Effect of imp. on C., 11, 541.

Description of; no R.R. adjacent; waterway has cheapened transportation by small boats and barges, 12, 659.

In 1911, 216 t., 12, 659.

CONTRACTS.

1908. John Anderson, dr., 7½ c. y., 09, 1468.

1912. Eskald & Alexander, lock gates, \$37,000; suppl. (same contractor), Mar. 2, 1912, crosscutting timber, \$1,644, 12, 1971. T. Cheney Lawless, hire of floating plant, \$70 per month; and launch, \$5 per day, 12, 1972.

ENGINEERS.

Chief of Engineers. R., 07, 415, 451; 08, 441; 09, 451; 10, 503; 11, 541; 12, 658.

In charge:

Capt. J. F. McIndoe, 1907-08. R., 07, 1437; (Maj.) 08, 1498.

Lt. Col. L. H. Beach, 1909-10. R., 09, 1467; 10, 1612.

Maj. H. Burgess, 1911. R., 11, 1753.

Lt. Col. L. H. Beach, 1912-. R., 12, 1971.

LEGAL PROCEEDINGS.

Deeds covering entire right of way submitted to Atty. Gen. for approval, 09, 1468; 12, 1973.

LEGISLATION.

In May, 1908, La. granted au. for donation of lands under control of school boards and Drainage Commission, 08, 1498.

OPERATIONS.

1908-09. 96,606.22 c. y. removed up to June 17, 1909, when dr. plant was destroyed by fire, 09, 1468; 10, 1612.

1909-10. 337,896.53 c. y. excavated, 10, 1612.

1910-11. Canal between Schooner Bayou and White Lake completed; navigable for boats drawing less than 3', White Lake to Mermentau R.; 26,198.48 c. y. removed, 11, 1753.

1911-12. Portion of waterway between Grand Lake and Vermilion B. completed Sept. 30, 1911; dr. through bars in lakes forming part of route between Grand Lake and Vermilion B. and partial constr. of tidal lock in Schooner Bayou, 12, 659.

PHYSICAL CHARACTERISTICS.

Country peculiarly adapted to estab. of canal system, due to existence of large number of lakes and streams and low elevation of land, 10, 503; 12, 658.

Details, 11, 541, 542; 12, 658, 659.

PROJECT.

For chan. 5' x 40', Bayou Teche, near Franklin, La., to Cote Blanche and Vermilion Bs., by dr. canal and existing waterways, thence up Schooner Bayou, thence by dr. canal to White Lake, across White Lake, by dr. canal to Grand Lake and across to Lake Misere, w. of Mermentau R.; est., \$289,292, and \$20,000 an. mainten., 107, 415; 08, 441. Acts 1909, 1911, au. Sec. of War to make such changes in location of chan. as might be desirable; rights of way to be free to U. S., 12, 659.

War Dept. decided that cost of br. for Southern Pacific Ry. at Bayou Yokely be borne by U. S., 08, 1498.

Act July 25, 1912, au. Sec. of War to purchase Hanson Canal; cost not to exceed \$65,000, 12, 659.

SURVEYS.

Ex. and sur. au. acts 1873 and 1905, 12, 658.

5 routes for chan. between Bayou Teche and Vermilion B. ex., 07, 1437.

Pre. ex., with plan and est., of inland waterway, Rio Grande R., Tex., to Miss. R. at Donaldsonville, La., au. Mar. 3, 1905. R., Maj. Jadwin, 1906; est., \$289,292, and \$20,000 an. mainten., for section from Mermentau R. to Miss. R. through Bayou Plaquemine, 107, 451.

Of part of route west of Vermilion B. completed, and sur. to Franklin on Bayou Teche continued to Nov., 1907; maps of route w. of Vermilion B. furnished property owners, 08, 1498.

For location of route n. of Cote Blanche and Vermilion Bs., 12, 659.

Between Calcasieu and Sabine Rs., 12, 1973.

Maps. 12, 658.

Part (d), S-696 Mermentau River to Sabine River, La. and Tex. (Waterway.)

APPROPRIATIONS.

1910, \$100,000, 10, 1612.
1912, 100,000, 12, 1973.

Total, 200,000 (\$200,000.40, 12, 1973).

ENGINEERS.

Chief of Engineers. R., 10, 505; 11, 542; 12, 660.

In charge. Lt. Col. L. H. Beach. R., 10, 1612, 11, 1754; 12, 1973.

LEGAL PROCEEDINGS.

Deeds conveying entire right of way, free of cost to U. S., sent to Atty. Gen. for approval, 12, 1973.

OPERATIONS.

1911-12. No work done pending approval of necessary deeds for right of way by Atty. Gen. Specifications for dr. prepared and approv., 12, 1973.

PRIVATE WORK.

Route selected involves expend. of \$27,000 more than for another route line, but difference provided voluntarily by local interests, 12, 660.

PROJECT.

Act June 25, 1910, au. waterway from Mermentau to Sabine Rs. (in continuation of waterway from Franklin to Mermentau R. under constr.), 5' x 40' m. l. w., with appropriate side slopes; est., \$390,000, and \$20,000 an. mainten. Right of way to be furnished free, 10, 505; app. can be used under au. of Chief of Engineers and Sec. of War for any modification of plan, 12, 660.

SURVEYS.

See 75, 879; 08, 1498; 09, 1467.

Two surveys, incidental to right of way for waterway between Calcasieu and Sabine Rs., made, 11, 1754.

Cong. docs., etc., relating to exs., surs., plans, etc., 12, 660.

OPERATIONS.

1892-93. Over 500 obstr. removed, 93, 1828.
1897-98. Nearly 27,000 c. y. dr.; upper dam, 5' x 2,500', and lower dam, 3,000' l., completed, 98, 1478.
1899-00. 39,484 c. y. dr., 00, 2264.
1902-03. Upper dam repaired, 03, 1308.
1906-07. 345 snags and other obstr. removed, 07, 1439.

PHYSICAL CHARACTERISTICS.

Description of, incl. its 5 tributaries (bayous), stream is 254 m. l., 91, 1859; 10, 518.
Ex. shows brush dams damaged by storms and settlement; do not effectively confine current to dr. chan., 01, 1902.
Increased consumption of water for rice irrigation permitted inflow of salt water, causing lower dam to be destroyed by teredo, 03, 1308.

* Allotment.

¹ H. D. 192, 58th, 2d.

² Trans. to all't for imp. chan., B., and passes, Bayou Vermilion, 1903 and 1910, \$10,200. Trans. to all't for imp. Bayou Plaquemine Brule, La., 1911, \$2,000.

In s. La.; formed by junction of Bayou Nezpique and Bayou des Cannes, 2 m. above town of Mementau; flows sw. for 70 m. to Gulf, after passing through Lake Arthur, Grand Lake, Upper Mud Lake, and Lower Mud Lake. Bayou Queue de Tortue joins it from e. 5 m. above head of Lake Arthur and Bayou Lacassine, and Bayou Lacassine flowing into Grand Lake from w. Bayou Plaquemine Brule is trib. to Bayou des Cannes, joining it from e. 3 m. above mouth Mementau 250'-1,000' w. and has l.-w. d. of 10'±. Trib., crooked and much obstructed, though formerly considerable C. on them, 12, 674.

PLANS. (See Projects.)

By Maj. Quinn, 1891, clearing obstr., Viterboville to the mouth, and building brush dam at Lower Mud Lake; est., \$23,615. One j. only considered necessary at the mouth to give 13' of water over the bar; est., \$781,210, 91, 1863.

PRIVATE WORK.

Act Cong. Jan. 10, 1903, au. Rice Irrigation & Imp. Assn., State of La., to construct at own expense locks and dams near mouth of R., plans and specifications to be approved by Sec. of War (plans, etc., au. Mar. 12, 1903), 03, 641.

T. L. Raymond. **R.**, **87**, 1403.

OPERATIONS.

1870-71. Sur., **71**, 557.
1872-73. Chan. 60' x 2,962' dr., **73**, 65, 634.
1873-74. Chan. completed to a w. of 6.5' x 60',
d. w. in Calcasieu Pass to Calcasieu Lake, **74**, **73**,
721.
1881-82. Dr., **82**, 1387.
1886-87. Partial constr. of pile revet. for chan.
over bar. Excavating of a chan. 6' x 100' begun
in 1887 through bar at mouth of R.; 13,408 l. f.
revet. wall built, **87**, 1379.
1887-88. 50,085 c. y. dr. by hired labor from
bar at mouth of Calcasieu R., **88**, 1257.
1888-89. 27,074 c. y. dr. by hired labor, **89**,
1493.
1892-93. 1,104 l. f. j. on e. side of chan. com-
pleted, and constr. of 10,000' of revet. on n. side of
chan. nearly completed, **93**, 1831.
1893-94. Revet. completed, 144,634 c. y. dr.,
and about 5,000 l. f. e. j. built, **94**, 1374, 1375.
1894-95. E. j. completed to 7,347 l. f., 196,509
c. y. dr., and 6,652 l. f. of e. j. capped, **95**, 1772.
1895-96. In connection with preceding year,
6,552 l. f. e. j. capped, and extension of e. j. in pro-
gress, **96**, 1510, 1511.
1896-97. In connection with preceding year,
e. j. extended 500 l. f., and 2,200 l. f. w. j. constr.,
97, 1769.
1897-98. 16,118 c. y. dr. and revet. repaired,
98, 1480.
1899-00. 7,777 s. y. mattress and 13,066 t. st.
placed in w. j. completing the extension, **00**, 2266.
1901-02. Shell reef in Calcasieu Lake chan.
partially removed, **02**, 1345.
1902-03. Redr. chan. extended 2,770', making
total distance redr. 8' x 60' x 5,770', **03**, 1310.
1904-05. E. j. repaired and extended 600';
work completed, **05**, 1466.
1905-06. 132,071 c. y. removed, **06**, 1318.
1906-07. Dr. completed; total of 352,779 c. y.
removed, producing chan. 7' x 100' x 34,000'; 54
pile clusters placed to mark chan.; 18,763 t. riprap
st. placed, completing rebuilding of old revet., **07**,
1440.
1910-11. 100,937 c. y. dr. by U. S. dr. *Delatour*,
restoring chan. to former d. of 8', **11**, 1755.
1911-12. Tender for U. S. dr. *Delatour* pur-
chased, **12**, 1974.

PHYSICAL CHARACTERISTICS.
Description of, **71**, 68, 557.
Refilling of the previously dr. chan., **85**, 1414;
86, 1277; **87**, 1380.
Storms damaging works, **94**, 1374.
Effects of e. j., **94**, 1375; **95**, 1772.
Depths, **97**, 1769.
Rises sw. La. and flows sw. to Gulf of Mexico.
About 22 m. from Gulf it debouches into Calcasieu
Lake. The connection between the lake and the
Gulf, 7 m. long, is known as Calcasieu Pass, **12**,
661.
D. over bar at mouth of pass, 7'; at head of pass,
8'; max. draft from Gulf of Mexico to Lake Charles,
6' at l. w., the variation being 2', **12**, 664.

PLANS. (See Projects.)
By Maj. Heuer, chan. 12' d. by dr. and protecting
js. across bar; est., \$600,000, **87**, 1403.
Est., \$307,681, to repair and complete js.; \$10,000
for chan. revets., and \$10,000 an. to maintain dr.
chan., **01**, 1903.

PROJECTS.
By Capt. Howell, 1871, imp. bar at head of pass
by dr. a chan. 5' x 80' x 1½ m.; est., \$15,000, and, if
extra dr. boat necessary, \$25,000 to be added to
est., **71**, 558; **72**, 61; **82**, 1387; **86**, 1277. This
work accomplished in 1873-74, **74**, **73**, 721.
In 1881 the previously dr. chan. having closed,
it was proposed to reopen it 8' x 70' at l. w.; est.,
\$15,000, **81**, 1304; **86**, 1277.
By Maj. Howell, 1881, for imp. of R. above the
town of Lake Charles to Philips Bluff by cleaning
chan. of snags, logs, etc., to a navigable w. and d.,

and dr. bar at foot of Calcasieu Lake; est., \$25,080, **81**, 196, 1302.

In 1886, the chan. having again partly refilled, it was proposed to redr. 6' x 100', protecting it by a pile-and-plank revet. on each side, **87**, 1379.

By Maj. Heuer, 1887, for 12' d. through the bar obstr. the passage from the pass to the d. w. of the Gulf, with 2 converging js. of brush mattress and riprap granite; est., \$600,000, **87**, 1403, 1404.

Act July 13, 1892, added the imp. of the bars at the head and foot of Calcasieu Lake, to gain 8'; revet. of chans.; est., \$150,000, **91**, 1829.

By Maj. Quinn, 1894-95, dr. chans. through bar at lake head, capping the e. j. with st., and for dr. chan. 12' d. and as wide as funds would permit, from the 12' contour inside to the same contour outside, **95**, 1772.

Proj. submitted, 1899-1900, for extending the w. j. 1,000', **00**, 2266.

By Col. H. M. Adams, 1902, expend. \$10,000 on redr. chan. through Lake Calcasieu to 8', and \$65,000 in repairing and extending e. j., **02**, 1345; approv. July 3, 1902, **03**, 342.

By Capt. McIndoe, 1906, redr. chans. s. of the old revet. at the inner pass, and at the mouth of the R., to 7'; for rebuilding old revet. at inner pass,

and for marking chan. through Calcasieu Lake with pile clusters; approv. Jan. 17, 1906, **06**, 1318.

SURVEYS.

Ex. by Capt. Howell, **71**, 557.

Au. act June 14, 1880, **80**, 146. Ex. made by Maj. Howell, 1880, **81**, 1301.

Ex. of lower reach of R., **83**, 1127.

Ex. of bars at mouth of R. and pass au. act Aug. 5, 1886; made by Maj. Heuer, **87**, 1402.

Ex. au. act Aug. 5, 1886; made, 1888, by Capt. Fisk, **89**, 1527.

Made by Lt. Adams, 1901, to ascertain condition of revetments and chan. d. in lake; d. of from 4½' to 6½'; shell reef had formed, **01**, 1903.

Ex. by Capt. McIndoe; 8' chan. of 1903 had shoaled to 4'; chan. revetments had almost entirely disappeared, **05**, 373.

Pre. ex. and sur. of Calcasieu Lake and R., mouth of Calcasieu Pass to head of navigation in Calcasieu R., au. act Mar. 3, 1905;¹ made by Maj. McIndoe (**R.** unfav.), **06**, 411.

	Total.....		781,500

Part (a), T-3 Sabine Lake including Channel from Port Arthur Canal to mouths of Sabine and Neches Rivers, Tex.**APPROPRIATIONS.**

1899, \$10,000, **99**, 1886.
 1902, 125,000, **02**, 1348.
 1906, 411,500, **06**, 1321.

Total, 546,500 (incl. misc., \$546,571.10, **12**,
2033).

COMMERCE.

Description of. Resources of the country tributary to the Sabine and Neches Rs. very great, **93**, 1852; **95**, 1791.

From Jan. 1. to Dec. 31, 1899, C. 141,122 t., **00**, 2272.

Importance of oil industry, **04**, 1936.

¹ The following list includes all the waterways, important and less important, tributary to the Sabine waters:

- T 2** (a) Sabine Pass, La. and Tex. (1)
 (b) Sabine Lake, La. and Tex. (a)
 (c) Johnsons Bayou, La. (b)
 (d) Three Bayou, La. (b)
 (e) Sabine R., La. and Tex. (b)
 (f) Black Bayou, La. (e)
 (g) Vinton Canal, La. (e)
 (h) Bayou Conway, La. (e)
 (i) Caney Cr., La. (e)
 (j) Brush Cr., La. (e)
 (k) Cypress Cr., La. (e)
 (l) Hoosier Cr., La. (k)
 (m) Ridge Cr., La. (e)
 (n) Trout Cr., La. (e)
 (o) Bayou L'Anacoco, La. (e)
 (p) Cypress Cr., La. (o)
 (q) Bayou Zourie, La. (o)
 (r) Bayou Castor, La. (o)
 (s) Bayou Liberty, La. (r)
 (t) Prairie Cr., La. (o)

- T 2** (u) Pocoson Cr., La. (o)
 (v) Mill Cr., La. (e)
 (w) Damrell Cr., La. (e)
 (x) Ten Mile Cr., La. (e)
 (y) Pearl Cr., La. (e)
 (z) Sandy Cr., La. (e)
 (aa) Bayou Torean, La. (e)
 (bb) Selfs Bayou, La. (aa)
 (cc) Walker Bayou, La. (aa)
 (dd) Bayou Sally, La. (aa)
 (ee) Black Haw Cr., La. (e)
 (ff) Franks Bayou, La. (e)
 (gg) Bayou Lonnau, La. (e)
 (hh) Bayou San Miguel, La. (e)
 (ii) Bayou San Patrice, La. (e)
 (jj) Bear Cr., La. (e)
 (kk) Cow Bayou, La. (e)
 (ll) Bayou Clement, La. (e)
 (mm) Bayou Grand Cane, La. (e)

Remarks on rice growing, and benefit of prospective imp., **04**, 1936.

CONTRACTS.

1899. C. Clarke & Co., dr. boat and crew, 77 days, at \$110.60 per day of 16 hours, **00**, 2273.

1906. Bowers Southern Dredging Co., dr., 8¢ c. y., and revet. work, \$9.20 l. f., **06**, 1321.

1908. Bowers Southern Dredging Co., dr., 12¢ c. y., **08**, 1547.

1911. The South Texas Telephone Co., leasing telephone with exchange service, \$3 per mo., **12**, 2033.

ENGINEERS.

Chief of Engineers. R., 93, 251; **95**, 260; **97**, 292; **99**, 333; **00**, 378, 384; **01**, 396; **02**, 328; **03**, 344; **04**, 361, 365; **05**, 375; **06**, 404; **07**, 421; **08**, 475; **09**, 498; **10**, 560; **11**, 600, 621; **12**, 726, 752.

Boards:

Convened, New Orleans, La., Apr. 20 and July 10, and at Sabine Lake, Apr. 21, 1899, by S. O. No. 14, dated Mar. 16, 1899, to make reex. of the proposed chan. through Sabine Lake, Tex. **R., 00**, 2304. (Maj. J. B. Quinn, Capt. C. S. Riché and C. A. F. Flagler.)

BERH. R., 04, 1939, 1949.

In charge:

Maj. J. B. Quinn, 1893-99. **R., 93**, 1850; **95**, 1790; **97**, 1789; **99**, 1856.

Maj. H. M. Adams, 1900, 1902, and 1904. **R., 00**, 2272, 2302; (Lt. Col.) **02**, 1347; **04**, 1914, 1930.

Lt. E. M. Adams, 1901. **R., 01**, 1907.

Capt. C. S. Bromwell, 1903-04. **R., 03**, 1314; **04**, 1944, 1953.

Capt. J. F. McIndoe, 1905-07. **R., 05**, 1469; **06**, 1319; **07**, 1443.

Capt. W. P. Wooten, 1908. **R., 08**, 1546.

Capt. A. E. Waldron, 1909-10. **R., 09**, 1526; **10**, 1669.

Capt. T. H. Jackson, 1911-. **R., 11**, 1815; (Maj.) **12**, 2032.

Assistants:

A. H. Weber. **R., 04**, 1933.

LEGAL PROCEEDINGS.

Land owners offer to donate right of way for inland route, **06**, 1320.

OPERATIONS.

1899-00. 85,064 c. y. dr., **00**, 2272.

1905-06. 750,169 c. y. dr., and 2,412' timber revet. built at mouth of Taylors Bayou, **06**, 1320.

1906-07. 2,440,634 c. y. dr. and chan. marked with 21 pile clusters, **07**, 1443.

1907-08. 1,114,085 c. y. dr.; canal connecting mouths of Rs. with Taylors Bayou completed, **08**, 1546.

1908-09. Office building constr. and other minor work done, **09**, 1526.

1909-10. Obstr. removed from chan., **10**, 1669.

1910-12. Sunken obstr. removed, **11**, 1815; **12**, 2033.

PHYSICAL CHARACTERISTICS.

Description of Sabine Lake. The lake, 18 m. l., and with d. in 1892 ranging from 4' to 7', part of the water route from the d. w. of Sabine and Neches Rs. to Sabine Pass on the Gulf of Mexico, **93**, 1851; **95**, 1790; **97**, 1789.

Shoaling, outer end of Sabine R. Chan., **00**, 378.

Description of, **04**, 1934.

PROJECTS.

In 1897 Maj. Quinn est. \$20,000 to \$4,117,800 to obtain chans. of various dimensions, **97**, 1789.

Act. Mar. 3, 1899, app. \$10,000 to imp. mouths of Sabine and Neches Rs., a portion of the money to

pay for a reex. for chan. through Sabine Lake, **00**, 378.

Proj., 1899-1900, provided for dr. chan. 60' x 8' d. w. in the Neches R. to d. w. in Sabine Lake, **00**, 2272.

BE., 1899, est. \$300,000 to imp. mouths of the Sabine and Neches Rs., with an. app. for mainten., **00**, 2305.

Lt. Col. Adams est., 1902, it would require \$4,000 an. mainten., **02**, 1347.

Act June 13, 1902, au. proj. based on est. of Maj. Quinn, 1897, for chan. 8' d. through Sabine Lake, or d. if funds should be furnished by private interests for additional d.; est., \$150,000, **02**, 328.

By Capt. Bromwell, 1903, est. varying from \$382,000 to \$530,000 for 9' chans., varying in w., location, and means of protection. Chan. 100' w. to Sabine Pass, with rock revet., at est. cost of \$464,000 recom., or if connection can be made with Port Arthur Canal through Taylors Bayou without assuming obligations to maintain said canal, then that route at est. cost of \$415,000 recom., **04**, 1946; **05**, 1469; also est. for various routes varying from \$400,000 to \$747,000, and \$30,000 an. mainten., **04**, 1953.

Act Mar. 3, 1905, au. proj. for connecting mouths of Sabine and Neches Rs. with Taylors Bayou, or a point in Sabine Lake, near mouth of bayou, a chan. 9' d. at or near w. shore of lake. In discretion of Sec. of War chan. may be constr. through land near lake and provided that right of way be furnished free, **05**, 375.

Act Mar. 2, 1907, au. extension of chan. at s. end with d. of 9' to junction with Port Arthur Canal, and w. canal in front of Port Arthur, in discretion of Sec. of War, **07**, 423.

SURVEYS.

Ex. au. act July 13, 1892; made, 1892, by Maj. Quinn (**R. fav. to partial imp.**), **93**, 1850. Another au. act Aug. 17, 1894; made by the same officer, 1895 (**R. fav.**), **95**, 1790.

Sur. au. act June 3, 1896; made by Maj. Quinn, 1897 (see Projects), **97**, 1789, **02**, 328.

Sur. of mouths of Sabine and Neches Rs., and a reex., with **R.** thereon, of the proposed chan. through Sabine Lake, au. act Mar. 3, 1899; made, 1899, by **BE.** (see Projects), **00**, 2304.

Pre. ex. and sur. au. act June 13, 1902, for ship chan. from Beaumont, on the Neches R., and Orange, on the Sabine R., to Sabine Lake, thence along w. shore of said lake to Sabine Pass, Tex., incl. connection between said chan. and the Port Arthur Canal, with view to excavating chan. of ds. of 9', 12', 18', and 25'. **R., Lt. Col. Adams**, on pre. ex., Oct. 21, 1902, and on sur. by Capt. Bromwell, Dec. 12, 1903, and Feb. 13, 1904; ests. from \$382,000 to \$747,000; the one at \$536,500 and \$30,000 an. mainten. preferred **04**, 365-66, 1927.

Of proposed route, **05**, 1469.

Pre. ex. and sur. au. act Mar. 3, 1909, from mouths of Sabine and Neches Rs. to mouth of Taylors Bayou, and incl. Sabine R. from Orange to said canal and Neches R. from Beaumont to said canal. **R.** by Capt. Waldron, Sept. 18, 1909, and Mar. 5, 1910³ (unfav.), **10**, 577.

Of Sabine Pass and Port Arthur Ship Canal, incl. Taylors Bayou, and turning basin at Port Arthur, au. act Mar. 3, 1909. **R.** by Capt. Waldron; est., \$2,000,000, provided right of way to turning basin be furnished free to U. S.,⁴ **10**, 577.

R. by **BERH.**, Jan. 18, 1909; requested by Commerce Com. to further examine Sabine and Neches Canal, Tex. Board is of opinion that work already provided above Port Arthur is sufficient for present and prospective C.⁵

Reex. of chan. from Orange and Beaumont, on Sabine and Neches Rs., to Port Arthur Ship Chan., Tex., au. act June 25, 1910. **R.** by special board, Sept. 25, 1910; est., \$1,143,000, of which amount local interests propose to contribute one-half (\$571,500), with \$50,000 an. mainten.,⁶ **11**, 621.

Cong. docs., etc., relating to ex., surs., plans, etc., **12**, 729.

 Description of, between Sudduths Bluff, Tex., and Logansport, La., **93**, 1848.
 Tendency of obstr. to re-form, **96**, 1516.
 Waterway made up of a series of pools and crossings, or shoals, impossible to navigate at l. w. Loose and stranded logs form serious obstr., **04**, 1960.

PLANS. (See Estimates and Projects.)

By Capt. Howell, purchase of a dr. to operate both at Trinity and Sabine Rs., **71**, 541.

By G. Dyes, (1) converging js. to concentrate discharge of water; (2) shell embankment and piling to close the cut-off and the West Pass, **71**, 543.

Capt. Fisk reports, 1888, that further imp. are inadvisable, as the existing chan. meets the requirements of C., **88**, 1260.

By Maj. Quinn, 1891, removal of snags and similar obstr. between Sabine Lake and Sudduths Bluff; est., \$10,000, **92**, 1514.

PRIVATE (STATE AND CORPORATE) WORK.

1853. Company formed for imp. of the navigation of the R., **73**, 683.
 (See Legislation.)

PROJECTS. (See Estimates and Plans.)

By Capt. Howell, 1873, dr. chan. across bar at mouth of R. to 5', and removing snags and obstr. from R. above; est., \$56,000; est., orig., \$31,033, **73**, 681; **79**, 904, 905; **80**, 1195.

By Maj. Mansfield, 1880, excavation of cut-off from the main R. into the Narrows, 5' x 40' x 320'; formation of 2 other cut-offs of 100' each; removal of snags, logs, and similar obstr., and constr. of pile and brush obstr. across old chan.; est., \$17,500, **80**, 1199. R. not considered susceptible of permanent imp., **86**, 222; **92**, 1510.

By Maj. Quinn, 1892, removing snags and other obstr. between Sabine Lake and Sudduths Bluff; est., \$10,000. In 1893, est. \$2,000 an. mainten., **93**, 1836.

By Maj. Quinn, 1895, to dr. chan. across bar at R. mouth. (See Sabine Pass, Tex.)

Subproj., 1897, to clear R. of obstr. from Morgans Bluff to head of the Narrows, **99**, 1857.

Subproj., 1899, to remove most dangerous obstr. between Morgans Bluff and Sudduths Bluff, **99**, 1857; **00**, 2274.

SURVEYS.

By G. Dyes, 1871. **R.**, **71**, 542.
 By F. P. Leavenworth, 1872-73. **R.**, **73**, 681.
 Resur. au. act Mar. 3, 1879; made, 1880, by Maj. Mansfield, **80**, 1195.
 Of Narrows of Sabine R., **80**, 1199.
 Ex. au. act Sept. 19, 1890; made, 1891, by Maj. Quinn, **92**, 1513.
 Ex. of the R. from Sudduths Bluff, Tex., to Logansport, La., au. act July 13, 1892; made, 1892, by Maj. Quinn (R. unfav.), **93**, 1848.
 General ex. of the work, **97**, 1773.
 Ex., mouth to Logansport, La., au. act June 13, 1902. **R.** by Lt. Col. Adams' (unfav.), **04**, 1956.
 Ex., mouth to Logansport, La., and Belzora, Tex., au. act Mar. 2, 1907. **R.** by Capt. Wooten, Dec. 11, 1907? (unfav.), **08**, 486.
 Pre. ex. and sur. au. act June 25, 1910, as far as practicable above Orange, **12**, 752.

Maj. J. B. Quinn, 1891-97. R., 91, 1836; 92, 1511; 93, 1837, 1853; 94, 1381; 95, 1781; 96, 1518; 97, 1775.

Capt. W. P. Wooten, 98, 474.

Assistants:

Lt. H. M. Adams, 1873. R., 74, 743.

A. De Man, 1873. R., 74, 745.

J. S. Polhemus. R., 80, 1202.

P. H. Thomson. R., 93, 1854.

OPERATIONS.

1881-82. R. imp. between Yellow Bluff and Bevilport, by removal of snags, logs, and similar obstr., 82, 1425.

1888-89. 55,842 c. y. dr. by hired labor, 89, 1495.

1895-96. 74,885 c. y. dr., 96, 1518.

PHYSICAL CHARACTERISTICS.

General, 74, 747, 748, 751, et seq., 80, 1203.

Bar at mouth, 74, 743, 753.

Description of, from mouth to Shooks Bluff, 93, 1853.

PLANS.

By Lt. Adams, dr. chan. to a w. of 80' and d. of 5', 74, 743.

By A. De Man, removing snags and overhanging willows which obstr. the navigation of the Angelina R., 74, 748. Dr. the chan. through middle ground, and constr. of js. 9,300' and 2,200' l. at the mouth of the Neches R., 74, 754.

PRIVATE (STATE AND CORPORATE) WORK.

Imp. of the Angelina R. (trib. to Neches) has been attempted by Texas, but the attempts resulted in a failure, owing to the incompetency of the contractors, 74, 749.

PROJECTS.

By Capt. Howell, 1878, dr. chan. 5' x 40' at m. l. w. across the bar at the mouth of the Neches R.; est. \$26,318, 78, 84; 79, 909; 80, 1202.

By Maj. Mansfield, 1880, removing snags, trees, and similar obstr. from Yellow Bluff to Bevilport, 7 m.; est., \$15,000, 80, 1204.

Total est. for projts. of 1878-80, \$41,318, 87, 1384.

By Maj. Quinn, 1895, expend. available funds in dr. chan. about 100' w. and 6' d. from d. w. in Neches R. to d. w. in Sabine Lake, 95, 1781.

SURVEYS.

By A. De Man, 1872-73. R., 74, 745.

Ex. by Capt. Howell, 1878, 79, 905.

Resur. from mouth to Bevilport au. act Mar. 3, 1879; made, 1880, by Maj. Mansfield, 80, 1202.

Ex. from its mouth to Shooks Bluff au. act July 13, 1892; made, 1892, by Maj. Quinn, 93, 1853 (R. fav.).

Pre. ex. with plan and est. of cost of imp. au. act Mar. 2, 1907. R., Capt. Wooten, 1907 and 1908; est., \$15,000, 98, 486.

T-8 PORT ARTHUR CANAL, TEX. (Operating and care.)

APPROPRIATIONS.²

1911,	6,200.00

Total, ³309,069.53

COMMERCE.

In 1911, 1,880,017 t., mostly corn, paint, iron, steel, tin plate, lard, etc., 12, 2040.

CONTRACTS.

1907. Spence & Parrish, wooden revet., \$15.11 l. f., 97, 1446.

1909. John Jacobson, dr., 10½¢ c. y., 99, 1529.

1911. Bowers Southern Dredging Co., dr. 175,000 c. y., in turning basin at head of ship canal, 10.4¢ c. y.; Ellicott Machine Co., constr. and delivering one complete wooden hull, 15' pipe-line dr., \$84,520, 12, 2039.

¹ H. D. 870, 60th, 1st.

² Allotments from permanent indefinite app. for operation and care of canals and other works of navigation, as per sec. 4, act July 5, 1884, amended and reenacted by sec. 6, act Mar. 3, 1909.

³ Furnished by T. District office.

1912. J. B. Griffith, lease of tug *Captain Nelson*, fully equipped and services of crew of 2 men, \$375 per month, 12, 2039.

ENGINEERS.

Chief of Engineers. R., 07, 424; 08, 476; 09, 500; 10, 563; 11, 604; 12, 734.

In charge:

Capt. J. F. McIndoe, 1907. R., 07, 1445.
Capt. W. P. Wooten, 1908. R., 08, 1548.
Capt. A. E. Waldron, 1909-10. R., 09, 1529; 10, 1671.
Capt. T. H. Jackson, 1911-. R., 11, 1818; 12, 2037.

LEGAL PROCEEDINGS.

Port Arthur Canal and appurtenances trans. to U. S. by owners, 1906, and jurisdiction ceded by State of Texas, 1907, 07, 424.

OPERATIONS.

1906-07. Dr. of canal company bought by U. S., 07, 1446.

1907-08. 100,567 c. y. dr. by contract, and 38,605 by U. S. plant, 08, 1548.

1908-09. 13,900 l. f. shoals dr., 09, 1529.

1909-10. 11,500 l. f. chan. dr., and 293,596 c. y. dr. from turning and lumber basins, 10, 1671.

1910-11. Dr. shoal places in canal to 26' or 27' for 9,200', and redr. entire length of lumber basin at Port Arthur docks, 2,500', 11, 1818.

1911-12. U. S. dr. shoal places in canal to d. of 26' and 27', removing 113,115 c. y. silt; 89,135 c. y. in turning basin at head of Port Arthur Ship Canal dr. by contract, 12, 2039. 24,000 c. y. dr. from turning basin by contract; wooden hull, 15' pipe line dr. named *Orange*, delivered, 12, 2038.

PHYSICAL CHARACTERISTICS.

Condition of canal upon acceptance by U. S., 07, 425.

Considerable shoaling in turning basin at Port Arthur docks, 11, 605.

PROJECTS.

Subproj. approv. Aug. 8, 1910, au. dr. about 175,000 c. y. from turning basin at head of Port Arthur Canal to secure 26'; also provides for constr. of a 15" hydraulic pipe-line dr. at a cost of about \$75,000, 11, 1818.

SURVEYS.

Of break between canal and Sabine Lake, 07, 1445.

Of canal, 07, 1446.

Convened, New York, Mar. 11, 1882, to report upon proj. by Maj. Heuer for imp. of Sabine Pass. R., 82, 1438. (Cols. Tower and Newton and Lt. Col. Abbot.)

Convened, New York, Dec. 1, 1884, to report on proj. by Capt. Turtle for imp. of Sabine Pass. R., 85, 1420. (Col. Duane and Lt. Cols. Abbot and Comstock.)

Convened, New Orleans, La., Feb. 11, 1891, by S. O. No. 89, to report upon imp. of Sabine Pass. R., 91, 1834. (Col. Comstock, Maj. Quinn, and Capt. Black.)

In charge:

Lt. Henry L. Smith, 1853. R., 75, 945.
Capt. C. W. Howell, 1872-81; 73, 66. R., 73, 676, 684; 75, 944; 76, 589; 77, 468; 78, 609; 79, 902; (Maj.) 80, 1162.

Capt. C. E. L. B. Davis, 1881-82. R., 81, 1317.
Capt. W. H. Heuer, 1882-84, 1885-87. R., 82,

1422, 1426, 1427, 1428; 83, 1048; (Maj.) 85, 1415; 86, 1278, 1284; 87, 1385.

Capt. T. Turtle, 1884-85. R., 84, 1250.

Capt. W. L. Fisk, 1888-91. R., 88, 1261; 89, 1496; 90, 1753.

Maj. J. B. Quinn, 1891-99. R., 91, 1831; 92, 1506; 93, 1832; 94, 1376; 95, 1774; 96, 1512; 97, 1771; 98, 1482; 99, 1858.

Maj. H. M. Adams, 1900-02 and 1904. R., 00, 2276; 01, 1916, 1918-19; (Lt. Col.) 02, 1349; 04, 1916.

Lt. E. M. Adams, 1901. R., 01, 1910.

Capt. C. S. Bromwell, 1903. R., 03, 1317.

Capt. J. F. McIndoe, 1905-07. R., 05, 1472; 06, 1322; 07, 1447.

Capt. W. P. Wooten, 1908. R., 08, 1549.

Capt. A. E. Waldron, 1909-10. R., 09, 1530; 10, 1672.

Capt. T. H. Jackson, 1911-. R., 11, 1820; (Maj.) 12, 2040.

Assistants:

Lt. H. M. Adams. R., 73, 676, 684.

T. L. Raymond. R., 83, 1051; 84, 1251; 85, 1416, 1423; 86, 1282, 1286; 87, 1388.

A. C. Bell. R., 89, 1499; 90, 1757.

Lt. P. S. Bond. R., 02, 1352.

F. F. Axtell. R., 04, 1919; 05, 1475.

OPERATIONS.

1875-76. 23,294 c. y. dr., 76, 77, 591.

1876-77. 10,450 c. y. dr., 77, 468.

1877-78. Dr. by U. S. dr. *Essayons*, 78, 609.

1878-79. Dr. by U. S. dr. *Essayons*; also repairs, 79, 903.

1880-81. 12' chan. dr. through Blue Buck Bar, 81, 1318.

1882-83. 10,600 l. f. of brush and st. j. built, 83, 1048.

1883-84. 5,474 l. f. brush and st. j. added to that already built, 84, 1250.

1884-85. Work on e. j. commenced under 1884 contract, 85, 1421.

1885-86. E. j. foundation extended 990' and top work 350'; w. j. raised above high tide for 5,710', 86, 1279.

1886-87. Foundation course of e. j. extended to 14,000' from shore line, 87, 1386-1388.

1887-88. 6,993 c. y. brush mattress and 5,767 t. st. placed in e. j., 88, 1262.

1888-89. E. j. foundation extended 2,300', 89, 1497.

1889-90. 7,458 c. y. of brush, 18,876 c. y. sandst. and granite riprap, and 9,378 t. of sandst. placed in j., 90, 1755.

1890-92. J. constr. in progress under contract, 91, 1832; 92, 1508.

1892-93. About 6,000 t. capping st., 32,000 t. riprap, and 42,000 s. y. brush mattresses placed in js.; 159,376 c. y. dr., 93, 1833.

1893-94. 198,401 c. y. dr. from chan.; 39,000 t. riprap st., and 23,333 s. y. mattresses placed in w. j., 94, 1377.

1894-95. 155,669 c. y. dr.; 6,433 t. riprap st., and 13,294 s. y. brush mattresses placed in e. j., 95, 1775.

1895-96. Dr. and e. j. extension in progress, 96, 1513; 73,334 c. y. dr. from R. mouth, 96, 1514.

1897-98. 299,799 c. y. dr.; e. j. extended 4,100', and w. j. completed for 3,000', 98, 1482, 1483.

1898-99. 404,063 c. y. dr., 99, 1859.

1899-00. E. j. extended 300', w. j. extended 3,425'; 1,414 c. y. dr. from main ship chan., and constr. of dr. in progress, 00, 2276, 2277.

1900-01. 19,925 c. y. riprap and 2,470 c. y. capping st. placed in js.; 211,885 c. y. dr. opposite Sabine from between js., 01, 1910. New dr. *Sabine* received, 01, 1911.

1901-02. 603,563 c. y. dr. under contract; 317,695 c. y. dr. by U. S. plant, partly paid for from funds advanced by Kansas City Southern R.R. Co., 02, 1350.

1902-03. 138,274 c. y. dr. under contract, and 357,670 c. y. by U. S. plant, 03, 1317.

1903-04. 254,280 c. y. dr., 04, 1916. 28,143 t. st. placed in e. j., 04, 1917.

1904-05. 422,175 c. y. dr. by U. S. plant, and 7,926 t. st. placed in js., 05, 1472.

1905-06. 452,205 c. y. dr. by U. S. plant, **06**, 1322. 39,506 t. st. placed in e. j., raising 6,033 l. f. to 4' above l. t., **06**, 1323.

1906-07. 490,293 c. y. dr. by U. S. plant, **07**, 1447. Performance of dr. *Sabine* from completion up to date, **07**, 426.

1907-08. 496,665 c. y. dr., **08**, 1549. 62,901 t. st. placed in e. j., **08**, 1550.

1908-09. 381,225 c. y. dr. by U. S. plant, **09**, 1530. 55,991 c. y. riprap st. placed along j., **09**, 1531.

1909-10. 437,132 c. y. dr., 455 granite blocks trans. from w. to e. js., and 9,150 t. st. and 710 c. y. concrete placed in w. j., **10**, 1672-73.

1910-11. 507,487 c. y. dr. by U. S. plant for maintain.; repair work on js. completed, **11**, 1821.

1911-12. 137,475 c. y. dr.; 6,979 t. st. placed on w. j. and 18,121 t. on e. j., **12**, 2041.

PHYSICAL CHARACTERISTICS.

General, **73**, 684; **75**, 945-947.

Tides, **86**, 1280.

Perforation of rock used in js. by marine animal, **87**, 1387.

Settlement of js., **94**, 1377.

85,000 acres of pasture lands reclaimed by work of imp., **96**, 1514.

D. of chan. through js., **97**, 1771.

Great storm destroyed, 1899, 2 brush mats on the w. j., **99**, 1859.

Triangulation system of Sabine Pass, **04**, 1920, and description and elevations of bench marks, **04**, 1923.

PLANS.

By Lt. Smith, 1853, dr. 9' chan., etc., **70**, 945.

By Capt. Heuer, 1882, d.-w. chan. from Sabine Pass to Orange and Beaumont by dr. chan. considered useless with the present demands of C., **82**, 1426.

By Maj. Stickney, water route connecting Calcasieu R. with Sabine Pass considered unworthy of imp., **84**, 1285.

PROJECTS.

By Capt. Howell, dr. chan. about 2½ m. l., 12' x 150'; est., \$105,026, **75**, 947. For dr. chan. 4½ m., 20' x 150'; est., \$390,317, **75**, 947; **77**, 75; **78**, 609. Dr. operations in force, 1875 to 1881, during which interval about \$160,000 expended, **81**, 198.

In 1882 Capt. Heuer proposed 2 high brush and st. js., curving from either bank at mouth of Sabine Pass, parallel with each other and at a distance of 2,000' apart; the w. j. to be 18,120' l. and e. j. 19,800' l.; also for possible excavation of chan. between js. 20' x 100' at bottom; this chan. to extend from j. entrance to 18' chan. inside the bar; est., \$3,177,606, **82**, 1436, 1437; **83**, 1054.

The B.E. of 1882 favored high js. without the shore openings proposed by Capt. Heuer, **82**, 1439; **91**, 1831.

In 1891 the board (Col. Comstock, Maj. Quinn, and Capt. Black) proposed elevation of the e. j. to 2' above m. h. w. for the first 16,600', and the w. j. to m. h. w. level for the first 4,000', thence to the end of the j. 2' above m. h. w., **91**, 1335.

By Maj. Quinn, 1895, dr. bar at mouth of the R. with U. S. dr.; est., about \$4,000, **96**, 1514.

By Maj. Quinn, 1896, constr. 5,300 l. f. e. j. and 6,600 l. f. w. j.; est., \$985,000; and enlarging and maintaining dr. chan. with U. S. plant; est., \$65,000. Act 1896 limited the cost of completing the proj. to \$1,050,000, **98**, 1482.

By Maj. Quinn, 1897, expend. \$100,000 to purchase a dr. and \$30,000 to operate same during

fiscal year 1898; modified, 1898, making available for immediate use \$15,000 of the \$30,000 app. for dr., **98**, 1482; **00**, 2277.

By Maj. Quinn, 1897, subproj. for expend. \$350,000, as follows: Dr. chan., \$30,000; extending e. j., \$282,000; and capping w. j., \$38,000, **00**, 2276.

By Maj. Quinn, 1898, subproj. for expend. \$400,000, as follows: Completing e. j., \$171,040.28, and extending w. j., \$228,951.72; modified, 1898, to permit \$30,000 to be used for dr., **99**, 1859; **00**, 2276.

Subproj., 1898-99, expend. \$264,000 to extend w. j.; modified, 1899, reducing allotment for w. j. by 34,000' of riprap st. and adding this amount to the e. j.; again modified, 1900, to permit sufficient st. being used to complete e. j., the remainder to be placed on w. j., **99**, 1859; **00**, 2276.

By Maj. Quinn, 1899, straightening, w., and otherwise imp. main chan. by removing such parts of the oyster flats as funds available (\$150,000) would permit between a point 1,000' n. of the U. S. life-saving station and a point opposite the U. S. lighthouse, **99**, 1859; **00**, 2277.

Maj. Quinn est., 1899, \$150,000 for enlarging the main ship chan. at Sabine Pass, Tex., **99**, 1862.

By Maj. Adams, 1900, expend. \$36,000 to complete imp. at Sabine Pass under existing continuing contract, **00**, 2277.

By Maj. Adams, 1900, plan for w. and d. chan. from about 1,000' n. of life-saving station to entrance of Port Arthur Canal; est., \$25,000,¹ **01**, 1918; **02**, 330.

By Lt. Adams, 1901, est. for completing js., incl. repairing damage by storm, \$1,116,573, **01**, 1911; **02**, 1350.

Maj. Adams est., 1901, \$100,000 to repair damage done by storm of Sept.,² 1900, **01**, 1919; **02**, 331.

Est., 1907, \$1,016,573 to complete proj., incl. building up of low portions of js. to 4' above l. w., additional contract dr. and maintain., **07**, 426.

Act July 25, 1912, au. proj. for repair and building up of js. to provide chan. of 25' d. dr. Port Arthur Canal 26' x 150', dr. new turning basin 26' x 600' x 1,700'; est., \$2,000,000, with \$290,000 first year maintain., and \$190,000 an. for maintain. thereafter, subject to right of way being furnished free to U. S.,³ **12**, 737.

SURVEYS.

By Lt. Smith, 1853. **R.**, **75**, 945.

By Lt. Adams, 1872. **R.**, **73**, 684. Of Bline (Bl.) Buck Point Pass. **R.**, **73**, 676.

By Capt. Howell, 1875. **R.**, **75**, 945.

For a d.-w. connection from Sabine Pass to Orange and Beaumont au. act Mar. 3, 1881; made, 1882, by Capt. Heuer, **82**, 1426.

To connect Calcasieu R. with Sabine Pass au. act Aug. 2, 1882; made, 1882, by Maj. Stickney; **R.** as unworthy of imp., **84**, 1285.

Sur. and ex. of work, **85**, 1416; **86**, 1286.

Sur. of the pass made, 1888 and 1889, by Capt. Fisk, **89**, 1499; **90**, 1756, 1759.

Ex. au. act June 6, 1900. **R.** by Maj. Adams,¹ **01**, 1915.

From Gulf of Mexico to Sabine Lake; also for h. lines, **04**, 1917.

Of j. chan. and h., **06**, 1323; **07**, 1448.

Pre. ex. and sur. au. act Mar. 3, 1909, of Sabine Pass and Port Arthur Ship Canal, Tex., to and incl. Taylors Bayou and turning basin at Port Arthur, etc. **R.** by Capt. Waldron, 1909 and 1910; est., \$2,000,000, provided right of way for turning basin, \$10,000, be furnished free to U. S.,² **10**, 577.

Cong. docs., etc., relating to ex., surs., plans, etc., **12**, 738.

OBSTRUCTIONS.

14 hrs., 1895, more or less obstructive, **96**, 1551, 1554; **00**, 2360.

OPERATIONS.

1879-80. 22,000 c. y. dr. from bar at mouth, **80**, 1239.
 1880-81. 25,000 c. y. dr. from bar at mouth, **81**, 1341.
 1881-82. 2,900 c. y. sand dr.; 58 snags and trees and 1 wreck removed, **82**, 1458.
 1884-85. 2,775 l. f. of revet. built and 23,275 c. y. dr., **85**, 1456.
 1889-90. 3,269 l. f. of j. built under contract, **90**, 1803.
 1890-91. 1,360 l. f. of revet. built, and repairs made to existing works, **91**, 1919.
 1891-92. Repairs to existing works completed, **92**, 1542.
 1893-94. W. j. extended about 1,200 l. f., completing it, 6,626 c. y. dr., **94**, 1402.
 1897-98. Log jam at R. mouth removed, **98**, 1508.
 1899-00. Log jams removed from the Middle Pass, and Brown Pass of the R., **00**, 2329.
 1902-03. Snag boat and quarterboat constr.; preliminary design of Lock No. 1 submitted; dr. Gen. H. M. Robert removed all snags, 700' of bulkhead, and dr. 3,100' to 8' x 75', **03**, 1338, 1339.

* Allotment.

† See U-12 on p. 735.

¹ Sur.—**R.**, Jan. 30, 1853. Est., \$31,808. (H. R. D. 482, 55th, 2d.)² Specific app.³ Allotment from app. for sur. and ex.⁴ \$341.97 trans. to Clear Creek, Tex., **08**, 461.⁵ \$1,000 trans. to Dickinson Bayou, **11**, 580.

1903-04. Snags and overhanging trees removed over 49.7 m. of sec. 1; profiles, data, and lock and dam plans prepared for consideration of BE. in accordance with provisions of act June 13, 1902; drifts, snags, and leaning trees removed over 28 m. between mouth and sec. 1, and plans made for constr. of lock, **04**, 1993-98, 2001.

1904-05. Contour maps and borings made for sites of Locks 1, 4, and 6, and plans completed for Lock and Dam No. 1, sec. 1; snagging continued until Mar., 1905, mouth to sec. 1, when work was stopped owing to act Mar. 3, 1905, diverting funds from this sec. to sec. 1; dr. Gen. H. M. Robert removed 58,077 c. y. from mouth; snag boat Gen. S. M. Mansfield removed log jam of 1,477 logs and snags from Middle Pass, **05**, 1500, 1504.

1905-06. 163 snags removed, **06**, 1339.

1907-08. 23,989 c. y. removed from Browns Pass by dr. Gen. H. M. Robert, **08**, 1524.

1909-10. Derrick barge removed 2,759 c. y., and dr. Capt. C. W. Howell removed 8,400 c. y.; snag boat *Guadaloupe* removed log jam at Browns Pass, **10**, 1643.

1910-11. Log boom to keep drift out of pass constr. at cost of \$500, **11**, 1788.

PHYSICAL CHARACTERISTICS.

Described, **71**, 538, 539; **73**, 686, 687, 688; **87**, 1421; **89**, 1557; **90**, 1802.

Description of, between Magnolia and Dallas. 206½ m. l., forming the boundary line of several counties. Obstr. in 1895 by snags, etc., **96**, 1552.

Slight shoaling of imp. part, **96**, 1546.

Description of, Dallas to mouth, **00**, 2350.

Hurricane, Sept. 8, 1900, a benefit to the mouth of this R., in that it swept away the accumulation of logs and drift which in recent years caused the mouth to be blockaded after every rise, **01**, 1938.

A chan. 6' x 80' dr. a distance of 1,800', **12**, 702

PLANS. (See Projects.)

By G. Dyes, 1871, imp. of mouth; recom. for Pass A a chan. 4½' x 150' through inner and outer bars, protected by a pile break'r; est., \$15,942, **71**, 539. Modified by Capt. Howell, **71**, 537.

Imp. by locks and dams disapproved, 1873, by Capt. Howell and Lt. Adams, recom. only imp. below Liberty, the removal of snags and excavating a chan. 6' x 80' x 12,500'; est., \$22,581, **73**, 687.

PRIVATE WORK.

Under arrangements between interested parties, dr. *Thos. H. Ball*, owned by city of Houston, Tex., worked for one week redr. chan. into Browns Pass, **12**, 2008.

PROJECTS. (See Plans.)

By Capt. Howell, 1871 and 1873, imp. of Trinity R., securing a 5' chan. from mouth up to Liberty, by constr. of pile break'r at the mouth, removal of snags, and dr.; est., \$46,000, **71**, 537; **73**, 685; **80**, 1238. Increased, 1887, to \$59,500, **87**, 1422. Work not considered permanent, **79**, 919.

In 1889 Maj. Ernst proposed constr. of 2 parallel sheet-pile js., each 7,600' l. and 27½' apart, to con-

centrate R. flow across the bar; also low, submerged dams across the 2 principal passes, to prevent their enlargement; est., \$55,000, making orig. est. of proj., as revised, \$89,500, **89**, 1553; **92**, 1541.

By Maj. Miller, 1893-94, expend. app. of 1892 to obtain immediate benefit by extending the w. j. about 1,200 l. f. to meet the 5' contour of the B., and to connect the inner and outer 5' contours by chan. 5' x 100', **94**, 1402.

In 1895 Maj. Miller est. \$125,000 to remove obstr., etc., and \$1,600,000 to constr. locks and dams, **96**, 1552, 1553, 1554.

Capt. Riché est., 1899-1900, \$4,000,000 and \$4,550,000 for a 4' and 6' chan., and \$280,000 an. mainten., **00**, 2353.

In future, work on the mouth of this stream to be conducted by dr. and snagging, in connection with proj. of 1899 for imp. of "Brazos River, Velasco to Richmond; West Galveston Bay Channel, Double Bayou, and the mouths of adjacent streams," of which Trinity R. is a part, **01**, 1939.

Of June 13, 1902, for open R. work, and lock and dam constr. in sec. 1 (provisional), **02**, 336.

Of June 13, 1902, after consideration by BE., was pronounced unfeasible and inadvisable; act Apr. 28, 1904 (Public. No. 216), amending act June 13, 1902, provides that Sec. of War be au. to expend so much as may be necessary of the funds app. under first act, in the constr. of one lock and dam on the R. between the mouth and sec. 1, **04**, 373.

Application of available funds further directed by act Mar. 3, 1905, which provided for their diversion from lock and dam constr. below sec. 1, to constr. of Locks and Dams Nos. 1, 4, and 6 in sec. 1; this act also au. Sec. of War, in his discretion, to constr. Locks and Dams Nos. 2, 3, and 5 instead of No. 4, provided that no funds be expended unless \$66,000 be donated by citizens of Dallas for constr. of dams at Old R. and Parsons Slough, **05**, 388.

SURVEYS.

At mouth of R. au., 1870, **70**, 32, 62; **71**, 538; made by G. Dyes, 1871, **71**, 67, 537.

From mouth to Magnolia au., 1872, **72**, 62; made by J. S. Bird, 1873, **73**, 687.

Resur. au. act Mar. 3, 1879, from its mouth to the br. of the Great Northern R.R., **79**, 112; made, 1880, by Maj. Mansfield, **80**, 1239.

Ex. au. act Sept. 19, 1890; made, 1891, by Maj. Allen (R. unav.), **91**, 1936.

Sur. from Magnolia to Dallas au. act Aug. 17, 1894; made, 1895, by Maj. Miller (R. unav.; see Projects), **96**, 1551.

Sur. of Trinity R., Tex., mouth to Dallas, with view to procuring navigable d. at l. w. of 4', 5', and 6', resp. au. act Mar. 3, 1899; made, 1899, by Capt. Riché (R. fav.; see Projects), **00**, 2350, 2356.

Au. act June 6, 1900; made, 1900, by Capt. Riché, ex. of Trinity R. between Dallas and Fort Worth (R. unav.), **01**, 411.

As au. act June 13, 1902, for consideration of BE.; borings for locks, water supply, and topography developed in sec. 1, **04**, 1993-99.

Part (b), T-10 Trinity River, Tex. (Above mouth.)^a

¹ H. D. 409, 56th, 1st.

² H. D. 83, 56th, 2d.

³ Up to Aug. 4, 1905, the work of imp. of the mouth and above the mouth of Trinity R. is indexed under one head. After 1905, the imp. of the mouth (which has been app. for and imp. under allotments for imp. "Brazos River, Velasco to Richmond and the mouths of adjacent streams") has been separated from the imp. above the mouth, and is included in another district.

⁴ Sur., Dallas to Fort Worth.

⁵ Does not include \$66,000 received from citizens of Dallas, Tex.

COMMERCE.

Prevailing freight rates high; in one instance Texas R.R. Com. made a reduction of 17¢ 100 lbs., 10, 1682.

No effect on rates produced. No C. expected until R. is canalized, 12, 740, 2046.

"The expenditures made in cleaning the river have resulted in no increased depth, but the removal of snags and drifts has made the stream safer to navigate at medium and high stages. There is no navigation above Liberty other than the rafting of logs.

"Owing to the fact that the river is not yet navigable to Dallas, the only place at which it can come into active competition with the railroads, no effect on freight rates has been produced." 12, 740.

CONTRACTS.

1906. D. C. McCord, constr. Lock and Dam No. 1 and dam at Parsons Slough, \$135,792.18, 06, 1355.

1908. Hubbard Building & Realty Co., constr. Lock and Dam No. 6, \$144,113.95; Ball-Carden Co., constr. Lock and Dam No. 2, \$125,482.36; Lock and Dam No. 4, \$126,338.91, 08, 1558, 1559.

1910. J. G. White & Co. (Inc.), completion of Lock No. 6, \$85,000, 10, 1684.

1911. C. W. Fisher, lease of warehouse, 50¢ per mo.; J. J. Patterson, lease of strip of land, \$100 in one payment, 11, 1834. L. M. Graham, lease of strip of land, \$50 in one payment, 11, 1835. Southwestern States Portland Cement Co., Portland cement, \$2.12 bbl.; Risley Bros. & Co., st., unit prices given, 12, 2051. National Iron & Steel Co., steel (unit prices given), 12, 2051-52. Penn Bridge Co., iron and steel (unit prices given); Vinson & Graham, st. (unit prices given), 12, 2052.

1912. List of leases for strips of land for narrow-gauge ry., 12, 2048.

ENGINEERS.

Chief of Engineers. R., 06, 430; 07, 454; 08, 481; 09, 506; 10, 569; 11, 611; 12, 739.

Boards. BE. convened by S. O. No. 25, reported May 27, 1911, on lock and dam at Hurricane Shoal, 11, 612, 1829.

In charge:

Capt. W. P. Wooten, 1906-08. R., 06, 1353; 07, 1486; 08, 1555.

Capt. A. E. Waldron, 1909-10. R., 09, 1536; 10, 1679.

Capt. T. H. Jackson, 1911-. R., 11, 1827; (Maj.) 12, 2043.

LEGAL PROCEEDINGS.

Deeds for the necessary land at sites for lock and dam at White Rock Shoals, and Lock and Dam No. 7, furnished by Dallas Chamber of Commerce and approved by Atty. Gen., 12, 2045.

OPERATIONS.

1905-06. Snagging continued by U. S. SS. *Holland*, 06, 1353, 1354.

1906-07. Lock and Dam No. 1: Cofferdam, excavation for land wall, foundation piles, and lock tender's dwelling completed; concrete work being placed. Locks and Dams Nos. 2 and 4: Plans and specifications prepared. Lock and Dam No. 6: Excavation for land wall partly completed, land cleared, and cofferdam constr.; snagging and obstr. removal continued, 07, 1486.

1907-08. Lock and Dam No. 1: Lock completed except lower gates and excavation for permanent dam and abutment. Locks and Dams Nos. 2 and 4: Land for sites secured and contract let for constr., but commencement of work re-

tarded by prolonged h. w. Lock and Dam No. 6: Excavation for land wall and cofferdam constr. continued; sur. of site made, and plans prepared for lock and dam at Hurricane Shoals; snagging and obstr. removal continued over 180 m. of R., 08, 1555.

1908-09. Lock and Dam No. 1 completed, and plant removed to site of dam at Parsons Slough; work continued on excavation and cofferdam at Lock and Dam No. 2; work on Lock and Dam No. 4 held up pending contractor obtaining right of way for tramway; at Lock and Dam No. 6, land wall completed, and R. wall and excavation for abutment about 70% completed; title to land for lock and dam at Hurricane Shoals not obtained; will be procured by condemnation proceedings; snagging and obstr. removal continued, 09, 1536-38.

1909-10. Dam at Parsons Slough completed; little progress made on Locks and Dams Nos. 2 and 4; contractor suspended operations on Lock and Dam No. 6 and contract annulled Oct. 22, 1909, title to site obtained for lock and dam at Hurricane Shoals; snagging and obstr. removal continued, 10, 1679.

1910-11. U. S. commenced completion of Locks and Dams Nos. 2, 4, and 6, the contracts having been abandoned by the contractors. Work accomplished by U. S. given. Lock and Dam No. 6 completed, 11, 1827-30. Snagging work prosecuted, 11, 1830.

1911-12. Work on completion of Locks and Dams Nos. 2 and 4 continued. Work accomplished given, 12, 2043-44. Plant assembled for constr. of lock and dam at Hurricane Shoals, 3 houses built and derrick erected, 12, 2044. Plant being shipped from Lock and Dam No. 2 to White Rock Shoal for constr. of lock and dam, 12, 2045. Plant being shipped from Lock and Dam No. 4 to site of proposed Lock and Dam No. 7, 12, 2045. Snagging operations continued; quantities given, 12, 2046.

PHYSICAL CHARACTERISTICS.

Flow of water small; discussion as to best method of furthering imp., whether by continuous imp. from tide water or at isolated sections, 10, 1681.

Problem in future should be caring for flood waters, and protection of large area of rich bottom lands subject to overflow during floods, 12, 2047.

PRIVATE WORK.

Citizens of Dallas contributed \$66,000 for building dams at Old R. and Parsons Slough, 06, 430.

PROJECTS.

The \$340,000 app. for constr. of Locks and Dams No. 4, in sec. 1, and at Hurricane Shoals, insufficient, and Capt. Waldron recom. that \$170,000 add'l be app., 09, 506, 1537.

Capt. Jackson recom. revision of proj. based on complete sur. of R., and that snagging "for the present" be limited to below Liberty, 11, 1830-31.

BE. recom. mixed type for dam for Hurricane Shoals, 12, 2045.

Completion of proj. to exceed est. by 100%, 12, 2046.

SURVEYS.

Sur. and borings made for Locks and Dams Nos. 1, 2, and 6, 06, 1353.

Ex. at site of lock and dam at White Rock Shoals; sur. of proposed site for Lock and Dam No. 7, 11, 1829.

For R.R. connecting Beaumont and Great Northern R.R. with site of lock and dam at White Rock Shoals, 12, 2045.

Cong. docs., etc., relating to ex., sur., plans, etc., 12, 740.

Part (c), T-10 Trinity River, Tex., Locks and Dams on. (Operating and care.)

APPROPRIATIONS.¹

1909, \$3,518.71, 09, 1542.
1910, 7,423.22, 10, 1687.
1911, 5,671.65, 11, 1836.
1912, 3,951.98, 12, 2053.

Total, 20,565.56

CONTRACTS.

1910. The Southwestern Telegraph & Telephone Co., leasing telephone equipment, \$7 per mo., 11, 1836.

1911. The Southwestern Telegraph & Telephone Co., leasing telephone lines (prices given), 12, 2054.

ENGINEERS.

Chief of Engineers. R., 09, 507; 10, 572; 11, 616; 12, 745.

In charge:

Capt. A. E. Waldron, 1909-10. R., 09, 1541; 10, 1687.

Capt. T. H. Jackson, 1911-. R., 11, 1835; (Maj.) 12, 2053.

OPERATIONS.

1909. Lock and Dam No. 1 placed under the app. for operating and care, on Mar. 1, 1909; after first few operations a defect developed at lower gates which allowed considerable leakage; repair of defect commenced; telephone line constr., 09, 1541.

1909-10. Small maneuvering boat constr.; 2 U. S. boats locked through, 10, 1687.

1910-11. Lock and Dam No. 1, mainten.; no lockages, 11, 1835. Dam at Parsons Slough placed under proj. Jan. 16, 1911, and structures repainted. Lock and Dam No. 6 placed under proj. Apr. 8, 1911, and operations confined to mainten.; no lockages. Telephone line constr. from Lock and Dam No. 1 to Nos. 2, 4, and 6, 11, 1836.

1911-12. Mainten. work at Lock and Dam No. 1, dam at Parsons Slough, and Lock and Dam No. 6; no lockages, 12, 2053.

1907-12. Quarterboat constr., and snags and other obstr. removed, 08, 1562; 09, 1545; 10, 1692; 11, 1840; 12, 2059.

PHYSICAL CHARACTERISTICS.

Description of; enters Red R. about 107½ m. above Shreveport, La., 93, 2083.

PROJECTS.

Act Mar. 2, 1907, au. imp. of 150 m. of R. above Red R. by dr. and operations of snag boat; est., \$36,000, 07, 457.

SURVEYS.

Ex. au. act Aug. 2, 1882; made by Capt. Miller (R. unfav.), 84, 1345.

Ex. of R., mouth to Sulphur Station, au. act July 13, 1892; made, 1893, by Capt. Willard (R. fav. to removal of snags), 93, 2083.

Pre. ex., from mouth to Sulphur Station, au. act June 13, 1902. R. by Capt. Potter, July 18, 1902² (unfav.), 04, 398, 2084.

Pre. ex. au. act Mar. 3, 1905. R. by Capt. Wooten, Dec. 5, 1905, and May 11, 1906. Plan of imp. in connection with Red R. by extension of snagging to include Sulphur R., presented,³ 06, 434.

Pre. ex. of chan. connecting Red and Sulphur Rs., by way of Texarkana, au. act June 25, 1910. R. by Capt. Waldron, Nov. 22, 1910,⁴ 11, 622.

T-18(a) JEFFERSON, TEX., AND SHREVEPORT, LA. (Waterway.)

APPROPRIATIONS.

1910, \$100,000, 10, 1690.

COMMERCE. (See Physical data.)

1911, 14,250 t.; a large percentage due to development of Caddo oil fields, 12, 2056.

CONTRACTS.

1912. H. B. Thompson Co., dam, \$81,005.52; unit prices given, 12, 2056.

ENGINEERS.

Chief of Engineers. R., 08, 486; 10, 573, 577; 11, 618; 12, 747, 752.

In charge:

Capt. W. P. Wooten, 08, 474.
Capt. A. E. Waldron, 1910-11. R., 10, 1690.
Capt. T. H. Jackson, 1911-. R., 11, 1837; 12, 2055.

PHYSICAL CHARACTERISTICS.

Description of, 10, 574.

Waterway from Jefferson, at head of navigation of Cypress Bayou, to foot of Caddo Lake; after leaving Caddo L. waterway passes through Big and Little Willow Passes, and spreads out into Soda L. From thence the stream passes over falls into Twelvemile Bayou, and thence into Red R. Falls eating their way upstream; would finally destroy navigation Jefferson to Mooringsport, 12, 747.

Construction of dam will cut off navigation to Shreveport, La., but it would preserve w. level and hence navigable chan. in Cypress Bayou and Caddo Lake between Jefferson, Tex., and Mooringsport, La., 11, 1838.

PROJECTS. (See Cypress Bayou, La.)

1905, it was proposed to dr. chan. Red R. to foot of Caddo L., giving 6' 8 months an., and to put l. and dam at foot of lake, the l. and d. to preserve part existing, preventing its drainage by the dr. chan. below, 12, 747.

Act June 25, 1910, au. constr. dam at foot of Caddo L. 3,116' long, giving upper pool surface elevation of 187', so as to admit of a lock when necessary; est., \$100,000,⁵ 10, 1690.

SURVEYS.

(See Cypress Bayou for sur. of 1905.)

Act Mar. 2, 1907, au. ex. for dam. R., Capt. Wooten, July 27 and Nov. 2, 1907; est., \$100,000,⁶ 08, 486.

Act Mar. 3, 1909, au. ex. for lock in proposed dam. R., Capt. Waldron, Nov. 3, 1909, concurring in Capt. Wooten's recom. of 1907 for dam without lock,⁶ 10, 577.

Act Feb. 27, 1911, au. ex. and sur. for lock in proposed dam at Caddo Lake, and chan. from said dam to Red R. by way of Big Pass, Little Pass, Soda Lake, Twelvemile Bayou, and Cross Bayou (R. unfav.), 12, 752.

Assistants:

F. S. Burrowes. R., 85, 1553.
H. M. Marshall. R., 93, 2074.
R. Eiflein. R., 98, 1590.

OPERATIONS.

1879-80. 2,102 stumps and snags removed from chan., 326 trees cut down, 80, 1280.
1884-86. 335 trees cut, 60 snags removed, 315' sand bars washed out, 85, 1493.
1886-87. Rebuilding dr. boat, 87, 1453.

1887-88. 102,704 c. y. earth, etc., and 2,150 logs and snags removed from chan., 825 l. f. brush dams built, and 560 trees removed from banks, 88, 1344.

1889-90. 26,359 c. y. dr. from chan., 4,200 trees cut, 210 stumps and trees removed from chan., 90, 1827.

1898-99. About 8,800 snags and other obstr. removed from bayou, and 50,000 s. y. willows and brush cut, 99, 1993.

1906-07. Obstr. removed between Jefferson and Mooringsport, 07, 1489.

1907-12. Obstr. removed, 08, 1559; 09, 1543; 10, 1688; 11, 1837; 12, 2054.

PHYSICAL CHARACTERISTICS.

Description of, 90, 1917; 93, 2066; 98, 1590.
Elevation of water surfaces, 93, 2075, 2076.
Sediment, 93, 2081.
High-water marks, 93, 2082.
Discharge observations, 93, 2082.
Low stage in Red R. prevented entrance therefrom of plant for imp. the bayou in 1897-98, 98, 1590.

PLANS. (See Projects.)

By Maj. Howell, 1874, dam across the lake at Albany Pt. and excavation of cut through to Red R.; est., \$372,580, 80, 1281; 87, 1454, 1494.

PROJECTS. (See Plans.)

History of proj. and plans for imp., 90, 1914.
By Capt. Howell, 1872, removal of obstr. and clearance of a chan., est., \$50,000, 73, 622. Completed in 1880, 80, 1280; 86, 229.

By Capt. Bergland, 1885, straightening and marking chan., cutting stumps, and reopening cuts by dr.; est., \$18,000, 85, 1494; 87, 194.

Capt. Willard, 1893, est. \$375,000 to imp. the lakes and bayou by lock and dam system, 93, 2068.

Congress app., 1894, for dr. and removing obstr. and straightening chan. between Jefferson, Tex., and Shreveport, La., on recom. of Capt. Willard in his R. of 1893, 95, 1886; 97, 1897.

SURVEYS.

Act July 5, 1884, au. sur. of Cypress Bayou and lakes between Jefferson, Tex., and Shreveport, La.; made, 1885, by Capt. Bergland, 85, 1552.

Ex. au. act Aug. 5, 1886; made by Capt. Willard, 87, 1494.

Sur. to ascertain whether the navigation of the bayou and connecting lakes could be materially and permanently imp. by a system of locks and dams, and if fav. the cost thereof, au. act Sept. 19, 1890; made by Capt. Willard. Final R. (unfav.) submitted in 1893, 93, 2065. Tabulated results of tertiary triangulation, 93, 2077; precise levels, 93, 2078; bench marks, 93, 2079.

Pre. ex. to ascertain navigability of dam and ditch into Red R., au. act June 13, 1902. R. by Capt. Potter, July 18, 1902² (not worthy of further imp.), 04, 398, 2075.

Sur. of Cypress Bayou and chans. connecting Shreveport, La., with Jefferson, Tex., incl. ex. of falls near Little Pass, au. act Mar. 3, 1905, 05, 1527. R. by Capt. Wooten, Dec. 23, 1905³ (unfav.), 06, 434.

Pre. ex. for constr. of dam at Caddo Lake, au. act Mar. 2, 1907. R. by Capt. Wooten, July 27, and Nov. 2, 1907; est., \$100,000, 08, 486.

Sur. for constr. of lock in proposed dam at Caddo Lake, au. act Mar. 3, 1909. R. by Capt. Waldron, Nov. 3, 1909⁵ concurs in Capt. Wooten's recom. of 1907 for dam without lock, 10, 577.

U-5 GALVESTON BAY TRIBUTARIES—(West Galveston Bay Channel, Turtle Bayou, Trinity River, Anahuac Channel, Oyster Creek, Cedar, Chocolate, and Bastrop Bayous), Tex. (Including mouths of adjacent streams.)

The following information is taken bodily from **R.** Chief of Engineers, 1912, p. 699:

"This project has embraced the improvement of the following localities: West Galveston Bay, the Galveston and Brazos Canal, Hanna Reef (East Bay Bayou), Double Bayou, Anahuac Channel, mouth of Trinity River, Turtle Bayou, Cedar Bayou, Clear Creek, Dickinson Bayou, Chocolate Bayou, Bastrop Bayou, Oyster Creek (q. v.). (Annual Report Chief of Engineers, 1900, p. 2438 et seq.)

"Prior to March 3, 1899, the improvement of West Galveston Bay and the Galveston and Brazos Canal, Double Bayou, mouth of Trinity River, and Cedar Bayou was independent. The river and harbor act of that date made an appropriation for the improvement of the Brazos River between Velasco and Richmond, West Galveston Bay Channel, Double Bayou, and the mouths of adjacent streams. The mouth of Trinity River and Cedar Bayou were transferred to this work, and Anahuac Channel was added by the act of March

¹ H. D. 719, 59th, 1st.

² H. D. 328, 61st, 2d (map).

3, 1905. Chocolate and Bastrop Bayous were added by the act of March 2, 1907, and Turtle Bayou and Oyster Creek by the act of June 25, 1910. As adjacent streams Hanna Reef (East Bay Bayou), Clear Creek, and Dickinson Bayou have been improved. Double Bayou has not been specially named in the act since 1905 and is now under improvement as an adjacent stream.

"The Brazos River between Velasco and Richmond, which was included in the improvement for a time, is now covered by a separate appropriation.

"As the West Galveston Bay Channel and Galveston and Brazos River Canal have been included in the 'Inland waterway on the coast of Texas,' and appropriated for under that heading, allotments for these works under this appropriation have ceased.

"The object of this improvement, in part, is to obtain and maintain a navigable channel depth of from 4 to 6 feet across the bars at the mouths of the streams and bayous from deep water in the bay to deep water in the bayous.

"The improvement is intended to develop a light-draft inland navigation which will afford cheap transportation by light-draft steamers and barges to the coast country of Texas.

"The estimated cost of the modified project has been given in previous reports as \$248,646.34, but, as works originally embraced in this project have been transferred to other appropriations and new works have been added for which no estimate of cost have been made, there is no estimated cost for the entire project. All the channels called for have been completed, but maintenance is regularly required.

"The amount expended on these improvements under present project to June 30, 1912, has been as follows (for appropriations, etc., see each work named below):

Channel across Hanna Reef (E. Bastrop Bayou) (q. v.)	\$3,299.67
Double Bayou (q. v.)	19,261.09
Anahuac Channel (q. v.)	15,556.10
Mouth of Trinity River (see Trinity R., Tex. dist.)	12,726.57
Turtle Bayou (q. v.)	8,899.97
Cedar Bayou (q. v.)	17,707.10
Clear Creek	27,480.16
Dickinson Bayou	20,724.35
Bastrop Bayou	17,730.29
Chocolate Bayou	12,143.89
Oyster Creek	6,942.24
Dredge Gen. H. M. Robert	67,992.51
Dredge Capt. C. W. Howell	15,000.00

Total..... 245,463.94

"Of this amount \$83,646.23 was applied to maintenance of improvement, and \$116.43 has been derived from miscellaneous sources, such as sales, etc.

"By authority of river and harbor act of March 3, 1859, a pipe-line hydraulic dredge was constructed for the improvement of these streams at a cost of \$67,992.51. This dredge (*Gen. H. M. Robert*) was burned April 18, 1909, and the dredging has since been carried on by the dredge *Capt. C. W. Howell*. The latter, however, was lost at sea September 14, 1911, and there is now no plant available for light-draft work.

"More and larger boats, especially power boats with schooner hulls, have been built to utilize the improvement. Most of the points reached are settlements not on railroads, and the improvements are of great importance to their commercial life.

"The effect of these improvements has been generally to decrease freight rates to all points reached by the channels improved." 12,699.

U-7 GALVESTON BAY TO SABINE LAKE, TEX.

APPROPRIATION.

1872, \$3,000 (all'd), 73, 680.

COMMERCE.

Future, would not be unimportant, 73, 677.

ENGINEERS.

Chief of Engineers. R., 72, 62; 73, 66.

In charge. Maj. C. W. Howell, 1872. R., 73, 677.

Assistants:

Lt. H. M. Adams, 1873. R., 73, 677.

J. S. Polhemus, 1873. R., 73, 678.

LEGISLATION.

Subsidy of \$7,500 per m. granted by county of Galveston to the Texas & Mississippi Canal &

Navigation Co. to aid them in the constr. of the canal, 73, 677.

PHYSICAL CHARACTERISTICS.

Character of country along the line of proposed canal, 73, 679.

PLANS.

By J. S. Polhemus, canal, Galveston B. to Sabine Lake, 6' x 50'; est., \$645,236, 73, 680.

SURVEYS.

Sur. ship canal, under direction of Lt. Adams, by J. S. Polhemus. R., 73, 677, 678.

OPERATIONS.

1891-92. 10,350 c. y. dr.; 833 cords of brush
 mattress and 2,278 c. y. st. in place, **92**, 1545.

1892-93. S. j. extended 517 l. f. and n. j. 325
 l. f., **93**, 1884.

1893-94. 21,000 c. y. dr., **94**, 1406.

1904-05. Dr. Gen. H. M. Robert removed
 119,851 c. y. in excavating chan. 8' x 80' between
 js. and across Cloppers Bar; js. were repaired by
 depositing 308 t. riprap, **05**, 1505.

1907-08. Dr. Gen. H. M. Robert dr. 7' chan.
 from d. w. in San Jacinto B. through Cloppers Bar
 to and inside js., removing 98,974 c. y.; snag boat
 C. W. Howell, equipped with clam-shell bucket,
 removed 1,734 c. y. from Cedar Bayou Gap, **08**,
 1525.

1908-09. Dr. Capt. C. W. Howell removed
 9,375 c. y., **09**, 1504.

1910-11. 8,922 c. y. dr. from chan 7' x 80' x 2,650'
 by dr. Capt. C. W. Howell, **11**, 1790.

PHYSICAL CHARACTERISTICS.

Description of, **75**, 942; bayou discharges into
 nw. cor. Galveston Upper B., 3½ m. below mouth
 San Jacinto R., and 28½ m. from Galveston, Tex.,
12, 703.

Deterioration of chan. from natural causes, **87**,
 1436.

Ruling d., June, 1911, 4.5', **11**, 581, 1790; June,
 1912, 4.3', **12**, 2010.

PLANS. (See Projects.)

By Capt. Howell, 1874, chan. 5' x 100' across the
 bar; est., \$5,750, **75**, 942.

Maj. Ernst, 1887, est. \$48,875 cost of chan. excava-
 tion, **87**, 1436.

PROJECTS. (See Plans.)

By Maj. Allen, 1889, chan. through the bar at
 the mouth of the bayou, dr. andrevet.; 5' chan.,
 \$18,150 to \$20,735; 6' chan., \$24,035 to \$51,700, **90**,
 1817, 1818.

By Maj. Allen, 1889, dr. chan. 5' x 100' m. l. w.;
 protection of the chan. thus formed with brush
 and st. walls orrevet., with occasional dr. to main-
 tain the chan. d.; est., \$32,500, **91**, 1923; **92**, 1544.

In 1892-93 Maj. Miller est. cost of the existing
 proj. should be increased by \$6,500, **93**, 1883.

Act June 2, 1902, au. mainten. of imp., provided
 that the dr. built for use in this locality should be
 available for this work, **02**, 338.

SURVEYS.

By R. B. Talfor, of bar in Galveston B. near
 mouth of the San Jacinto R., 1874, **75**, 80.

Ex. au. act Aug. 5, 1886; made, 1887, by Maj.
 Ernst, **87**, 1435.

Sur. for removal of bar at mouth au. act Aug. 11,
 1888; made, 1889, by Maj. Allen, **90**, 1816.

1892.	40,000.00,	92, 1539.
1894.	50,000.00,	95, 1808.
1896.	50,000.00,	96, 1544.

Total, 859,016.85

COMMERCE.

Important, 71, 535; 73, 65, 635; 75, 873-875; 76, 587, 588.

Tolls for passing ship chan. at Morgans Pt., 77, 461.

Necessity of chan. less than formerly and not called for by interests of C. 83, 202, 1082.

Description of. Probable benefits of imp. to, apparently to be greater than expend., 96, 1543.

CONTRACTS.

1875. E. W. Cave, dr., 17 to 25¢ c. y., 75, 872; 76, 585, 586.

1875. G. C. Fobes & Co., dr., 15½¢ c. y., 79, 110, 915, 918.

1881. J. E. Slaughter, dr., 13.7¢ c. y., 81, 1333.

1888. G. C. Fobes, dr., 11.3¢ c. y., 88, 1282.

G. C. Fobes, dr., 12½¢ c. y., 89, 1551.

1893. R. Moore Dredging Co., dr., 24½¢ c. y. (\$56,350), 93, 1875.

1894. C. & R. P. Clarke, dr., 12½¢ c. y. (\$18,750), 95, 1808.

ENGINEERS.

Chief of Engineers. R., 71, 66; 73, 65; 74, 73; 75, 79; 76, 76; 77, 74, 456; 78, 83; 79, 110; 80, 147; 81, 200, 1334; 82, 196; 83, 202, 1080; 84, 217; 85, 226; 86, 224; 87, 189; 88, 173; 89, 203; 90, 183; 91, 232; 92, 225; 93, 253; 94, 234; 95, 262; 96, 227; 97, 294; 98, 283; 99, 340; 00, 386.

Boards:

Convened, Sept. 1, 1877, New York City, to consider location of proposed ship chan. through Galveston B. Reconn. a line from Red-Fish Bar to the head of Bolivar Chan. as the most advantageous, 77, 467; 78, 608 (Col. Tower, Lt. Cols. Wright and Newton, and Capt. Howell).

Convened, S. O. No. 9, C. of E., 1883. R., 83, 1078. B. reported it improbable that a chan. of the proposed d. would be permanent through the Morgan Cut, 83, 1081, 1082. (Maj. Mansfield; Capt. Dammell and Heuer.)

Convened, Galveston, Tex., Dec. 4, 1890, by S. O. No. 66, to R. upon value of chan. constr. by the Buffalo Bayou Ship Channel Co. in Galveston B. R., 91, 1910. (Col. Comstock, Maj. Allen, and Lt. Langfitt.)

In charge:

Capt. C. W. Howell, 1871-80. R., 71, 533; 73, 634; 74, 740; 75, 870, 872, 874; 76, 585; 77, 455, 458, 459; 78, 607; 79, 912; (Maj.) 80, 146.

Maj. S. M. Mansfield, 1880-86. R., 80, 1236; 81, 1332; 82, 1456; 83, 1075; 84, 1303; 85, 1454; 86, 1322.

Maj. O. H. Ernst, 1886-90. R., 87, 1417; 88, 1279; 89, 1548.

Maj. C. J. Allen, 1890-92. R., 90, 1797; 91, 1906; 92, 1536.

Maj. A. M. Miller, 1893-97. R., 93, 1872; 94, 1396; 95, 1806; 96, 1542; 97, 1803.

Maj. J. B. Quinn, 1898. R., 98, 1505.

Capt. C. S. Riché, 1899-. R., 99, 1961; 00, 2325.

Assistants:

Lt. H. M. Adams, 71, 66. R., 71, 534.

W. D. Duke, 71, 535.

Capt. C. E. L. B. Davis, 79, 106. R., 79, 916; 80, 1236.

Lt. J. B. Quinn, 75, 78. R., 75, 875.

J. C. Forsby, 76, 586.

A. Cross, 76, 586.

A. G. Blanchard, 76, 586.

J. A. Hayward. R., 77, 459.

H. C. Ripley. R., 77, 462.

E. M. Hartrick. R., 88, 1282; 89, 1551; 90, 1800.

G. Bagnall. R., 91, 1909; 92, 1539.

D. Allen. R., 93, 1875; 94, 1398; 95, 1808.

ESTIMATES. (See Plans and Projects.)

By Lt. Adams, 1870, Galveston B.: 1st, \$3,443,113; 2d, \$940,315; 3d, \$382,017, 71, 536.

By Capt. Howell, 1875, completion of a 9' chan. through Red Fish Bar. \$10,200; 10', 12', or 15' chan., Bolivar Chan. to Morgans Pt., \$283,479, \$651,562, or \$1,260,062, 75, 873; 76, 77.

By Lt. Quinn, 1875, removal of obstr. in San Jacinto R., \$6,000, 75, 875.

By J. A. Hayward, 1877, 12' ship chan., 100', 200' base, 3 routes: 1st, \$402,620, \$744,779; 2d, \$342,014, \$660,653; 3d, \$160,994, \$434,879, 77, 460, 463.

By H. C. Ripley, 1877, 12' chan., Red Fish Bar to Bolivar Chan., 100' w., \$146,856; 150' w., \$216,096; 200' w., \$285,331, 77, 463.

LEGISLATION.

Proviso attached to act of Mar. 3, 1879, relating to Bayou Ship Channel Co., 79, 214.

Subsequent action relating thereto, 81, 1334; 82, 1457; 84, 394.

OPERATIONS.⁷

1872-73. Completion of chan., 7' x 70' x 1.500', through Red Fish Bar, by U. S. dr., 73, 65, 635.

1874-75. Chan., 7.5'-10' x 60' x 2.982', 75, 79, 870.

1875-76. Removal of total of 104,920 c. y.; chan., 14½' x 61,000' on Red Fish Bar. Work on chan. between mouth of San Jacinto R. and Bolivar Chan. in progress, 76, 76, 585, 586.

1878-79. Dr. in chan. between Red Fish Bar and Bolivar Chan., 79, 917; 510,379 c. y. dr. from chan. in Lower Galveston B., 80, 1236.

1881-82. 160,440 c. y. dr. from chan., 82, 1456.

1882-83. 801,789 c. y. dr. from chan., 83, 202, 1075. Work done not permanent, 83, 1078, 1080.

1886-87. Sur. of chan.; preparations for re-

sumption of dr., 87, 1419, 1421.

1887-88. 200,000 c. y. dr. from ship chan., 88, 1284.

1888-89. 1,618,220 c. y. dr. from ship chan., 89, 1549.

1889-90. 19,829 c. y. dr. 90, 1798.

1891-92. Mainten. and repair of beacons and triangulation stations, 92, 1539.

¹ Total app., 1824 to 1875, \$45,000. (H. D. 120, 44th, 1st.)² Red-Fish Bar Chan.³ Chan. between San Jacinto R. and Bolivar Chan.⁴ Chan. between Red-Fish Bar and Bolivar Chan.⁵ See proviso, 79, 214.⁶ Paying Buffalo Bayou Ship Chan. Co. for Morgan Cut and Canal.⁷ History of operations since 1873, 79, 912.

1892-93. W. bank of canal revet. for 1,959 l. f., 93, 1873.

1893-94. Beacons repaired, fence erected about U. S. reservation, 153,376 c. y. dr., 94, 1396, 1397.

1894-95. 299,332 c. y. dr., 95, 1867.

1895-96. 122,513 c. y. dr. and 10' beacons rebuilt, 96, 1543.

PHYSICAL CHARACTERISTICS.

Description, 71, 534, 536; 76, 586; 77, 459, 461; 93, 1872.

Obstr. in San Jacinto R., 75, 874, 875.

Current observations, 77, 464, 465.

Table of tides, 75, 874, 875.

Shoaling, 93, 1875; 95, 1807; 96, 1543; 97, 1803.

PLANS. (See Estimates and Projects.)

By Lt. Adams, 1870, 3 routes: (1) chan, 12' x 150', through Galveston B. and Buffalo Bayou to Houston; (2) chan., 6' x 150' m. l. w. across the Red Fish and Cloppers Bars; (3) chan., 6' x 100', across Red Fish and Cloppers Bars. Each of the plans to include the removal of obstr., shore protection by sheet piling between Harrisburg and Houston. Third plan recom. by Lt. Adams, 71, 536.

By J. A. Hayward, ship chan. through Galveston B.: (1) 12' chan. from San Jacinto R. to Bolivar Chan.; (2) San Jacinto R. to Red Fish Bar and Bolivar Chan.; (3) Morgans Pt. to Bolivar Chan., with retaining wall, 77, 459, 461, 463.

By Lt. Quinn, 1875, removal of Southern obstr., consisting of flats and scows in the San Jacinto R., 75, 875.

PRIVATE (PRIVATE AND CORPORATE) WORK.

Valuable imp. made below Harrisburg by the Houston Direct Navigation Co. Expend. should be reimbursed and chan. tolls estab., 71, 533, 535, 536; 71, 461.

Contractor and private parties continued work on chan., 1875, after the expend. of app.; removed 4,832 c. y., 76, 586.

Proviso attached to act of Mar. 3, 1879, requiring the Bayou Ship Channel Co. to surrender their rights before application of app. of 1880, 79, 214.

Action relating thereto and subsequent compliance of the co., 81, 1334, 1338; 82, 1457.

PROJECTS.¹ (See Estimates and Plans.)

By Lt. Adams, chan., 6' x 100', across Red Fish and Cloppers Bars, \$62,805. Approv. by Capt. Howell, increasing est. to \$125,000, 71, 533, 535, 536. Revised by Capt. Howell to chan. 150' x 10'; and, again, to chan. 9' d. through Red Fish Bar alone, 74, 740; 75, 79, 870, 872.

By J. A. Hayward, chan., 12' d., mouth of San Jacinto R. to Bolivar Chan., 75, 79. Recom. by Capt. Howell, changing the upper terminus to Morgans Pt., 75, 873. Concurred in by the Chief of Engineers, 76, 76; 77, 456, 459, 588.

By Capt. Howell, 12' chan. from Red Fish Bar to Bolivar Chan., 77, 466. Approv. by BE., 77, 467.

By Capt. Howell, 1878, chan., 12' x 100', from Red Fish Bar to Morgans Pt., 78, 83, 607; 79, 110.

In 1883 the BE. reported that the chan. could not be made permanent at any reasonable cost, 83, 1081.

Recom. by Chief of Engineers that available funds be reserved pending action of Cong., 83, 1082; 84, 217.

U. S. bought Morgan Cut and Canal, 5.43 m. l., for \$92,316.85, 12, 697.

By Maj. Miller, 1892, after acquisition by U. S. of the Morgan Cut and Canal; formerly owned by the Buffalo Bayou Ship Channel Co., for maintaining a chan. at least 12' x 100' from Bolivar Chan. to outer end of Morgan Cut and Canal, the chan. to be suitably marked by beacons, 93, 1872.

By Maj. Miller, 1893, for expending available funds to dr. at Red Fish Bar and in Morgan Cut chan. having a d. of 9½' below m. l. t., and f. at bottom of about 100'; to revet. about 1,900 l. w. of w. bank of the Morgan Canal, and to slope both banks to prevent erosion, 93, 1873.

SURVEYS.

By Lt. H. M. Adams, 71, 66, 533, 534.

By Lt. H. M. Adams, to Dollar Pt., 71, 66.

By Lt. Quinn, ex. of San Jacinto R., 75, 874.

By J. A. Hayward and H. C. Ripley, 77, 75, 458, 459, 462.

Resur. of chan. made, 1889, by Maj. Ernst, 89, 1549.

Sur. along the line of the ship chan. made, 1897. (See Galveston, Tex., Channel from, to Houston.) Maps. 90, 1800; 91, 1911.

Part (b), U-26

Buffalo Bayou, Tex.

APPROPRIATIONS.

1881, \$25,000, 81, 1343.

1882, 50,000, 82, 1459.

1884, 25,000, 84, 1306.

1886, 18,750, 86, 1326.

1894, 15,000, 95, 1818.

1896, 20,000, 96, 1549.

Total, 228,750

COMMERCE.

Important, 81, 1346; 84, 1307; 93, 1886; 96, 1549.

Cotton shipments, 90, 1808.

CONTRACTS.

1891. G. L. Long, dr., 21¢ c. y.; removal of trees, \$190 per m., 82, 1459.

1892. J. J. Atkinson, dr., 26¢ c. y.; removal of trees and stumps, and revet. of banks, 83, 1084.

1894. R. Moore, dr., 23¢ c. y.; removal of snags, \$2.70 each, 85, 1458.

1897. J. J. Atkinson, dr. and removal of obstr., 87, 1424.

1888. J. J. Atkinson, dr. and r. removal \$24,192, 89, 1561.

1891. J. J. Atkinson, dr. and removal of trees and logs, \$21,110, 91, 1927.

1893. L. Meggett, dr., 31¢ c. y.; removal of obstr., 6½ and 7½ c. f., and \$14.85 per hour (\$25,000), 93, 1888.

1894. R. Moore Dredging Co., dr., 30¢ c. y.; removal of obstr., 5 and 6 c. f., and \$13.50 per hour (\$9,840), 95, 1818.

ENGINEERS.

Chief of Engineers. R., 80, 150; 81, 201, 204; 82, 198; 83, 203; 84, 218; 85, 227; 86, 225; 87, 190; 88, 174; 89, 205; 90, 185; 91, 234; 92, 227; 93, 256; 94, 237; 95, 265; 96, 229; 97, 296; 98, 286; 99, 340; 00, 386.

In charge:

Maj. S. M. Mansfield, 1880-86. R., 81, 1342, 1344; 82, 1458; 83, 1083; 84, 1305; 85, 1457; 86, 1325.

Maj. O. H. Ernst, 1886-90. R., 87, 1423; 88, 1286; 89, 1559.

Maj. C. J. Allen, 1890-92. R., 90, 1807; 91, 1924; 92, 1548.

Maj. A. M. Miller, 1893-97. R., 93, 1886; 94, 1409; 95, 1816; 96, 1547; 97, 1806.

¹ Proj. of 1871-77 proposed formation of a dr. chan. 12' x 100' m. l. w., head of Bolivar to the U. S. cut through Red Fish Bar, thence to the cut through Morgans Pt. Est., \$446,326.42. 78, 608; 79, 918; 80, 1237; 87, 1418. Imp. not considered permanent, 79, 918; 83, 1074.

Maj. J. B. Quinn, 1898. **R.**, 98, 1510.
Capt. C. S. Riché, 1899-. **R.**, 99, 1977; 00, 2330.

Assistants:

B. F. Taylor. **R.**, 81, 1344; 84, 1306.
R. B. Talfor. **R.**, 88, 1288; 89, 1561; 91, 1928;
92, 1551; 93, 1889; 94, 1411; 96, 1549.

OPERATIONS.

1881-82. 24,895 c. y. dr. and trees removed
from 1 1/4 m. of R. bank, 82, 1459.

1882-83. 162,780 c. y. dr., 971 trees removed,
and 1,247,810 sq. f. of bank cleared, 83, 1084.

1883-84. 64,943 c. y. dr. and 379 trees removed,
84, 1305.

1884-85. 78,600 c. y. dr. and 277 snags removed,
85, 1457.

1885-86. 13,500 c. y. dr. and 26 stumps re-
moved, 86, 1326.

1887-88. 56,677 c. y. dr. and 2,852 c. f. logs
removed from the bayou, 88, 1287.

1888-89. 48,104 c. y. dr. and 1,795 c. f. sunken
logs removed, 89, 1560.

1889-90. 6,651 c. y. dr. and 1,062 c. f. logs and
stumps removed, 90, 1808.

1890-91. 26,200 c. y. dr.; 2,900 c. y. material
dug from the banks; 2,900 c. f. logs removed from
the chan. and 13,348 c. f. trees from the banks, 91,
1925.

1891-92. Removing stumps and logs and ex-
cavating from projecting points, 92, 1551.

1892-93. 23,358 c. y. dr. and about 1,200 obstr.
removed, 93, 1887.

1893-94. 27,980 c. y. dr. and over 100 obstr.
removed, 94, 1410.

1895-96. 36,474 c. y. dr., about 750 obstr. re-
moved, and 20,500 c. f. trees felled, 96, 1548.

PHYSICAL CHARACTERISTICS.

Description of bayou, 81, 1345; 87, 1423; 90,
1807.

Shoaling, 96, 1549.

PLANS.

By Maj. Mansfield, 1880, chan. between Simms
and White Oak Bayous, 12' x 150'; est., \$1,125,341,
81, 1344, 1346.

PRIVATE (CORPORATE) WORK.

Charter of the Buffalo Bayou Ship Canal Co.
87, 1425.

PROJECTS.

By Maj. Mansfield, 1880, chan. 12' x 100' between
Simms Bayou and mouth of White Oak Bayou at
Houston; revet. of bank, removal of trees, and dr;
est., \$385,299, 81, 1343, 1344, 1346; 91, 1925; 92,
1550.

Permanent imp. not expected, 87, 190.

By Maj. Miller, 1892, expend. app. of that year
in dr. bars to 10' m. l. w., in easing sharpness of
points, and in removal of obstr., 93, 1887.

In 1896 Maj. Miller recom. combining this work
with that on Galveston B. Ship Chan., 96, 1548.

SURVEYS.

An. act June 14, 1880, 80, 150; made by Maj.
Mansfield, 1880, 81, 1344.

Part (c), U-26 Houston Ship Channel¹(Galveston Ship Chan- nel and Buffalo Bayou), Tex.

APPROPRIATIONS.

1899.	\$300,000,	99, 1964.
1902.	300,000,	02, 1375.
1903.	500,000,	03, 1335.
1904.	200,000,	04, 1987.
1905.	200,000,	05, 1493.
1906.	200,000,	06, 1337.
1907.	200,000,	07, 1463.
1908.	145,000,	08, 1519.
1909.	155,000,	09, 1499.
1910.	300,000,	10, 1640.

Total, 2,500,000 (incl. sales, \$2,500,352.69, 12
2004).

COMMERCE.

Description of, 98, 1519.

Large and important. Board of 1897 **R.** prob-
ably \$600,000 an. would be saved in rates by an
imp. chan., 98, 1519.

Marked fav. influence of imp. on rates, 06, 416.

Effect on rates unknown, and difficult to deter-
mine, because of R.R. rate differential in favor of
Houston au. by the R.R. Com. of Texas, 07, 435;
12, 698.

1900-1, 155,000 t. $\pm$; 1902-3, 109,700 t. $\pm$; 1906,
132,000 t.; 1909, 1,215,000 t.; 1911, 1,400,000 t.; bulk.
cotton, 12, 698, 2005.

"The total length of the improved channel is 57
miles, 60 miles to the turning basin and 7 miles
farther to Houston.

"The amount and value of the commerce trans-
ported is as follows:

Year.	Short tons.	Value.
Calendar year—		
1911.....	1,354,897	\$34,721,530
1910.....	1,371,650	39,155,357
1909.....	1,214,904	36,097,560
1908.....	602,734	28,318,621
1907.....	452,463	24,466,730

Year.	Short tons.	Value.
Calendar year—		
1906.....	132,108	No value.
1905.....	104,907	\$12,544,323
Fiscal year—		
1904-5.....	106,135	17,225,993
1903-4.....	111,840	18,350,133
1902-3.....	109,704	15,812,632
1901-2.....	141,130	21,038,677
1900-1901.....	154,459	19,630,640

"The bulk of the tonnage is cotton, amounting
last calendar year to 97,247 short tons, valued at
\$23,338,280, which is carried on barges to Galveston
and there loaded on vessels.

"The effect of this project on freight rates is un-
known and is indeterminate because of a railroad
rate differential in favor of Houston, authorized by
the railroad commission of the State of Texas,"
12, 698.

CONTRACTS.

1900. C. Clarke & Co., dr., 6.98¢ c. y.; dike
constr., 11¢ l. f. (\$342,330), 00, 2328.

1903. Bowers Southern Dredging Co., dr.,
Div. 1, 8.8¢ c. y., and Div. 2, 14¢ c. y., 03, 1336.

1906. August Nelson, dr., 19.9¢ c. y., 06, 1337.

1908. Kingsford Foundry & Machine Works,
furnishing 4 boilers, \$3,600, 08, 1520. John Jacob-
son, dr. 650,000 c. y., 13.45¢ c. y., 09, 1500.

1909. American Creosote Works (Inc.), cre-
osoted piles and lumber, prices listed, 10, 1641.

1912. L. T. Gaylord, dr., prices given, 12,
2002.

ENGINEERS.

Chief of Engineers. **R.**, 98, 284, 286; 99, 340;

11, 574; 12, 690.

¹ Name changed to "Houston Ship Channel, Tex." by act June 25, 1910, 10, 536.

Boards:

Convened, S. O. No. 7, Feb. 12, 1897, at Houston, Tex., July 26, 1897, to make ex. and R. called for by act Feb. 1, 1897. **R.**, 98, 1515. (Col. H. M. Robert, Maj. A. M. Miller, and Capt. McC. Derby.)
BERH. submits R., Dec. 15, 1904, recom. modification of projs. (see Projects), **05**, 386, 1495.

In charge:

Maj. J. B. Quinn, 1897-98. **R.**, 98, 1515.
Capt. C. S. Riché, 1899-1903. **R.**, 99, 1964; **00**, 2327; **01**, 1933; **02**, 1374; **03**, 1334.
Capt. Edgar Jadwin, 1903-07. **R.**, 04, 1985; **05**, 1492; **06**, 1335.
Capt. John C. Oakes, 1907-10. **R.**, 07, 1461; **08**, 1516; **09**, 1496.
Maj. G. P. Howell, 1910-11. **R.**, 10, 1638; **11**, 1784.
Maj. E. I. Brown, 1912-. **R.**, 12, 2002.

Assistants:

Lt. M. L. Walker, **01**, 402; **02**, 332.
R. B. Talfor. **R.**, **01**, 1935; **04**, 1988.
E. M. Hartrick. **R.**, **04**, 1990.
Capt. G. M. Hoffman, **04**, 366.
F. C. Stanton. **R.**, **05**, 1494.

LEGAL PROCEEDINGS.

Deeds secured for rights of way, **06**, 1336, 1337; **07**, 1462; **08**, 1517; **12**, 2004.

LEGISLATION.

Act June 13, 1902, provides that amounts app. and au. shall be expended in developing chan. in Divs. 1 and 2 to uniform d., and that not more than $\frac{1}{2}$ shall be expended upon Div. 2, **02**, 335.

OPERATIONS.

1899-1900. Old beacons renovated, new ones constr., and location of same in progress, **00**, 2327.

1900-01. Div. No. 1: 324,687 c. y. dr.; work commenced on temporary pile and brush dikes, **01**, 1933-35.

1901-02. Div. No. 1: 2,772,741 c. y. dr.; dike work completed, **02**, 1374.

1902-03. Div. No. 1: 1,220,583 c. y. dr. Div. No. 2: 73,455 c. y. dr., **03**, 1334.

1903-04. Div. No. 1: 3,991,581 c. y. dr. Div. No. 2: 1,153,178 c. y. dr., **04**, 1986, 89, 91.

1904-05. Div. No. 1: 1,566,042 c. y. dr. Div. No. 2: 1,150,721 c. y. dr., 703 snags removed and surs. made. Div. No. 3: 857 snags removed and surs. made, **05**, 1492, 94.

1905-06. Div. No. 2: 865,485 c. y. dr. Div. No. 3: 166,800 c. y. dr. by U. S. drs.; 13,683 c. y. rehandled due to break in sluiceway. Dr. Gen. H. M. Robert repaired and imp. used for snagging and also dr. 7,270 c. y. from Div. 2 and 14,673 c. y. from Div. 3, **06**, 1336.

1906-07. 1,503,226 c. y. dr. from Divs. 2 and 3, **07**, 1461, 62. Operation of drs., **07**, 1480.

1907-08. 1,950,241 c. y. dr., derrick barge constr. for snagging and 101 trees and 107 snags removed from bayou, **08**, 1516-18. Details of dr. and snagging operations, **08**, 1538.

1908-09. 3,987,209 c. y. dr., 1,342 trees and 1,157 snags removed, **09**, 1496. Consolidated report of dr. and snagging operations, **09**, 1522.

1909-10. 119,669 c. y. dr.; repairs to dike; 1,602' sheet-pile bulkhead completed and 8,926' partly completed; snagging in Div. 3; dump scows repaired, **10**, 1638.

1910-11. Repairs to dike, 11,448 l. f. completed. Portion of dike carried away by storm recovered and used to build 3 spur dikes, **11**, 1784.

1911-12. Dr. from Div. 2 (bayou), Morgan Pt. to Harrisburg, 38,648 c. y., **12**, 2003.

PHYSICAL CHARACTERISTICS.

Description of route: 584 m. l., naturally divided into 2 parts; the first through the open waters of Galveston B. and Morgan Canal, and the second

through San Jacinto B. and R. of same name to Lynchburg, and thence up Buffalo Bayou to Houston, **98**, 1517; chan. begins at d. w. in Bolivar Roads, G. H., extends across G. B. and through San Jacinto B. and R. and Buffalo Bayou to Houston—50 m. is of ship chan. proper to turning-basin, last 7 m. is a light-draft chan. to Houston. Entire chan. is tidal, **12**, 696.

Changes in dr. chan. due to shoaling and scouring, **04**, 1986; **05**, 1492, 98; **06**, 1335, 36; **07**, 1461, 62; **08**, 1517, 18; **09**, 1496, 97; **10**, 1638-40; **11**, 1784.

Variation of water surface, **06**, 416.

Severe flood in 1907, **07**, 1462; flood rises equal 12' or more, **12**, 698.

Unrecoated timber in dike damaged by storm in 1909, **10**, 1639.

Dike damaged by storm in 1911, **11**, 1784.

Silting in various sections, **12**, 2003.

PRIVATE WORK.

In 1909 city of Houston d. and w. turning-basin at foot of Main St. and built 500' of bulkhead on s. side of bayou, **09**, 1498.

Harris County Houston Ship Channel Navigation District, a local organization, undertakes to bear $\frac{1}{2}$ of est. cost of \$2,500,000 for completing imp., **10**, 537; bonds issued and \$300,000 deposited to order of Sec. of War.

City of Houston dr. (1910) 2 slips n. side turning-basin, **10**, 1639.

Shoals near Houston removed by city (1911), **11**, 1785.

PROJECTS.

By BE., 1897, 17 $\frac{1}{2}$ ' chan., 80' w., with side slopes about 1 on 2, from d. w. in Galveston H., Galveston B., and Morgans Cut (Div. 1); for constr. pile and brush dike from Morgans Cut to Red Fish Bar, and for surs., superintendence, and contingencies that might be necessary, \$25,000 being reserved for administration, surs., and mainten. above Div. 1 (through San Jacinto B. to Houston, Tex.); est., \$4,000,000, and \$100,000 an. mainten., **98**, 1518; **00**, 2327.

Act Feb. 20, 1900, repealed items app. in act Mar. 3, 1899, relating to imp. of Galveston Ship Chan. and Buffalo Bayou, Tex. The following amendment was substituted: *Provided*, That all sums heretofore app. and available for the work on Galveston Ship Chan. and Buffalo Bayou are hereby made available for said [that of 1897] proj.: *Provided further*, That all of said sums of money not necessary for administration, surs., and mainten. be used in imp. Div. No. 1 of said sur., **00**, 387.

BERH. recom., 1904, modification of proj. as follows: Terminate imp. at point near head of Long Reach, provide cut-offs at 3 points with least radius of 2,500', ease all other bends to same minimum radius, provide turning-basin near head of Long Reach with w. of 600'; 26,000' revet.; one hydraulic dr.; est. cost of completing proj., in addition to funds available, \$3,550,000; **05**, 1495; 50% done, 1912. **12**, 698.

Act June 25, 1910, an. constr., to limit of \$2,500,000, and requiring Harris County Houston Ship Canal Navigation District to furnish \$1,250,000 (see PRIVATE WORK) in portion, the U. S. app. not to be expended otherwise; also, proj. to be completed with the foregoing sum, **12**, 698.

Change of route of chan. from Morgan Pt. to Texas City Chan. recom. by Maj. Howell, **11**, 1785.

SURVEYS.

Act Feb. 1, 1897, called for ex. and sur., with est. for chan. not less than 25' x 100' from j. mouths at Galveston, through existing ship chan., and up Buffalo Bayou to Houston; and for H. at the latter place of same d., but 500' w. Made by board in 1897 (see Projects), **98**, 1515.

1912, resur. begun preparatory to dr. under new proj., **12**, 698.

Part (d), U-26 Morgan Canal, Tex. (Operating and Care.)

1910,	11, 390. 97, 10, 1645; 11, 582, 1791; 12, 2011.

Total, 27,480. 16, 12, 2011.

COMMERCE.

Farm products shipped to Galveston, with return shipments of groceries and general merchandise, 00, 2387.

1911, 11,257 t., 11, 704.

ENGINEERS.

Chief of Engineers. R., 00, 395; 06, 417; 07, 439; 08, 461; 09, 482; 10, 544; 11, 582; 12, 703.

In charge:

Capt. C. S. Riché, 1899-1900. R., 00, 2385, 2388.
Capt. Edgar Jadwin, 1906. R., 06, 1341.
Capt. John C. Oakes, 1907-09. R., 07, 1467; 08, 1525; 09, 1504.
Maj. G. P. Howell, 1910-11. R., 10, 1645; 11, 1790.
Maj. E. I. Brown, 1912-. R., 12, 2011.

Assistant. S. M. Wilcox. R., 00, 2389.

OBSTRUCTIONS.

Creek crossed by the Columbia Tap; Gulf, Colorado & Santa Fe; Galveston, Houston & Henderson; and the Galveston, La Porte & Houston R.R.; the latter, near the mouth, is the only road having a drawspan in its br., 00, 2390.

Stream navigable to Friendswood, 20 m., except that same is obstr. at 10 and 14 m. from mouth by brs.; brs. modified to provide 24' openings, 09, 483.

OPERATIONS.

1907-08. 80,083 c. y. removed by dr. Capt. C. W. Howell, 08, 1525.

1908-09. 3 permanent beacons erected to mark chan., 09, 1504.

1909-10. Derrick barge No. 2 removed 1,275 snags between Davis Br. and Friendswood Br., 10, 1645.

1910-11. 127,231 c. y. dr. by U. S. dr. Capt. C. W. Howell, 11, 1791.

PHYSICAL CHARACTERISTICS.

Clear Creek empties into Galveston Upper B., and is one of the adjacent streams referred to in the app. Mar. 3, 1899, for imp. "Brazos River between Velasco and Richmond, West Galveston Bay Channel, Double Bayou, and the mouths of adjacent streams," 00, 2386.

Description of, 00, 2386.

Ruling d., June 25, 1912, 5.3' across Clear Lake and 4.1' entrance chan. in Galveston B., 12, 2011.

PRIVATE WORK.

41,000 c. y. removed by Suderman & Dolson under contract with private parties, in excavation of 6' chan. from 6' contour in Galveston B. to d. w. in the creek, 08, 1526; 12, 703.

PROJECTS.

Capt. Riché est., 1900, \$10,000 to make the imp. as a part of an inland light-draft navigation system, 00, 2388.

Proposed excavation of a chan. 5' x 17,000' across bar and through the lake; est., \$8,000, 07, 440.

SURVEYS.

Ex. and sur. au. act Mar. 3, 1899; made, 1899-1900, by Capt. Riché (R. fav.; see Projects), 00, 2386, 2388.

At mouth of creek; bench marks estab.; cost, \$139.39, 10, 1645.

* Allotment.

¹ Expend. under permanent indefinite app. acts of July 5, 1884, and Mar. 3, 1909, operating and keeping in repair canals and other public works.

Maj. E. I. Brown, 1912-. R., 12, 2012.

Assistant. S. M. Wilcox. R., 00, 2400.

OBSTRUCTIONS.

Bayou crossed by 2 Galveston County bns., the Galveston, Houston & Henderson R.R., and the Galveston, Houston & Northern Ry., the latter being the only one with a drawspan, 00, 2400.

OPERATIONS.

1907-08. 47,811 c. y. dr. from bar in chan., 08, 1526.

1908-09. 127,247 c. y. dr., completing chan. from 6' to 6½' x 80'; 5 permanent beacons erected as chan. marks, 09, 1505.

1910-11. 85,067 c. y. dr. over 19,500', making chan. 6' x 50', by U. S. dr., 11, 1791.

PHYSICAL CHARACTERISTICS.

Dickinson Bayou or R. empties into Galveston Lower B. about 20 m. nw. from Galveston, Tex., and is one of the adjacent streams referred to in the app. Mar. 3, 1899, for imp. "Brazos R. between Velasco and Richmond, W. Galveston B. Chan., Double Bayou, and the mouths of adjacent streams," 00, 2397.

Description of, 00, 2397.

Stream navigable 10 m. from mouth for tugs and schooners; upon removal of county and railway bns. same class of vessels could navigate to a point 25 m. from mouth, 10, 545.

Ruling d., 1912, 4.2', 12, 2012.

PROJECTS.

Capt. Riché est., 1900, \$7,500 to make the imp. as a part of an inland light-draft navigation system, 00, 2399.

To excavate a chan. across the bar from 5' in B. to 5' in bayou; est., \$7,000, 07, 440.

SURVEYS.

Ex. and sur. au. act Mar. 3, 1899; made, 1899-1900, by Capt. Riché (R. fav.; see Projects), 00, 2397, 2399.

Cong. docs., etc., relating to exs., sur., plans, etc., 12, 704.

Texas City is on mainland, 8 m. n.w. of Galveston.

PRIVATE (CORPORATE) WORK.

Texas City Terminal Co., 1895-96, dr. a chan. 16' d., **O9**, 339.

Texas City Transport Co., 1906, dr. 698,222 c. y., restoring chan. to full w. of 23'-25' x 100' d., **O6**, 1334.

Texas City Co., up to 1912, expend. over \$300,000 in maintain. chan., **O12**, 694.

PROJECTS.

By Capt. Riché, 1899, chan. 25' x 100' n. of Pelican Isld. from Galveston H. to Texas City, Tex.; est., \$500,000, **O9**, 1962; to extent of \$250,000 au., **O12**, 693.

Act June 25, 1910, enlarged proj. by app. \$100,000 for mainten. and dr. as recom. in **R.**¹ (see Galveston H. surs.), which contemplates extending chan. to connect with new slip of Texas City Terminal Co., making chan. dimensions 30' x 200'; est., \$410,000, **O10**, 534; modification of st. dike (part of proj.)—H. R. and H. Com. Doc. 1, 66th Cong., 1st sess.

Act July 25, 1912, au. continuing imp. and mainten. by dr. within limits recom., i. e., 30' x 200', **O12**, 694.

SURVEYS.

Ex. with plan and est. of cost, for chan. 26' x 200', au. act Mar. 2, 1907; made by Maj. Jadwin and Capt. Oakes. **Rs.**, June 8 and Sept. 7, 1907; est., \$40,000,² **O8**, 474.

Maps,^{1 2} **O6**, 1334.

U-30**GALVESTON, TEX.**

NOTE.—Galveston, Tex., is on an island on the Texas coast, facing the Gulf of Mexico. Behind this island lies Galveston Bay. A channel leads from a pass between Galveston and Port Bolivar back through Galveston Bay to Houston, Tex., called the Houston Ship Channel. Improvements have been made at various points around this bay—at Double Bayou, Anahuac, Turtle Bayou, Trinity R. (mouth), San Jacinto R., Cedar Bayou, Clear Creek, Dickinson Bayou, Texas City. (See all of these for data.)

There is a project for connecting Galveston Bay with Sabine Lake on the ne., following the coast line.

There is also a project to connect Galveston Bay in the other or w. direction with Brazos R.

There are also channels connecting Galveston with Port Bolivar and with Texas City (q. v.).

COMMERCE.

Value of imp. as obtained in 1885, 85, 1451.

Draft of vessels passing outer bar, 85, 1451.

Of great value, and rapidly increasing, because of works of imp., 96, 1527.

Not interrupted by damage to imp. caused by hurricane of Sept. 8, 1900, 01, 1923.

Est. in 1909 that value of imp. to the country is more than double the amount of \$10,000,000 per an. est. in 1902, 09, 471.

For 1911, 3,700,000 t., 12, 690.

Rates reduced materially, 12, 690.

"It is difficult to state what the effect of the project has been upon freight rates. The rates on foreign shipments are much less than they were 10 years ago. Cotton, the chief article of export, of which 2,979,063 bales were exported in the past year, now has an average rate to Liverpool and Hamburg of 40 cents per 100 pounds and to Bremen 42 cents. Ten years ago the rate was 45 to 55 cents.

"The deep water to the wharves and consequent elimination of lighterage charges, the increased size of the vessels employed, the presence of the tramp steamer that prevents the regular lines from keeping up the rates, and the increased production in the Southwest have all had their effect. For the effect upon coastwise rates, attention is invited to the remarks under that head on the 'Improvement of the Texas City Channel.'

"All the commerce for Galveston Channel, Texas City Channel, and Port Bolivar Channel comes in through this channel. In addition, the commerce for the Houston Ship Channel, bound in and out from the Gulf, uses this channel. The total volume of this commerce is approximately 3,793,273 short tons, valued at \$427,016,385. For details of this tonnage and of the effect of the improvement on freight rates, attention is invited to the reports on the above channels." 12, 690.

CONTRACTS.*

1871-77. Morris & Cumings, constr. and delivery (within 100 working days) of a dr., \$25,000, 71, 517, 523. J. H. Lynch, delivery of 2 dump scows, \$5,600, 71, 517. Sufficient data obtained, 1875, to offer work by contract, 75, 867. Recom., 1876, that work be not done by contract, 76, 580; renewed, 1877, 77, 448.

1881. T. K. Thompson, cordage; Shannon & Hyatt, brush; Gulf, Colorado & Santa Fe R.R., st., 81, 1327.

Instructions of, concerning sur., 1867, 68, 498.

Boards:

1864. To consider the practicability and probable cost of increasing d. in Galveston B. and entrance, by plan submitted by Capt. Howell. (See Projects.) B. considered that 2 prs. from Fort and Bolivar Pts. would imp. the outer and, incidentally, the inner bar, 74, 737. Future extension of prs., aided by harrowing, probably necessary. In view of the novelty of the plan proposed, the B. recom. a trial of the plan at inner end of Fort Pt.; if successful, then a trial in most exposed position. Gabions should have covers and bottoms, 74, 738. The auxiliary works within the B. to be delayed until practicability of plan has been demonstrated; revised est. of cost., 74, 739.

(Lt. Cols. Wright, Tower, and Newton and Capt. Howell.)

Capt. Howell, not fully concurring, submitted that he was more confident than the other members of the B. in the adequacy of constr., and considered his est. adequate, 74, 739.

Reconvened Jan. 7, 1875, to consider Capt. Howell's report in relation to progress and continuation of work. B. considered that the results obtained by experience of 1874 not decisive, but that the full tests recom. in 1874 be carried out. A trial to be made with a single row of gabions (in connection with the method of 2 rows) in each tier, 75, 809.

Reconvened Dec. 28, 1875, to reconsider the question of imp. and modification, if any, of plan adopted, 76, 581. Review of the conclusions of 1874, 76, 582. B. concluded that the 2 js. recom., 1874, would produce an important increase in the d. over outer bar, and recom. that the first part constr. be from Fort Pt. toward the main chan.; that gabions be not definitely adopted for main works until more extended test, 76, 583; that the

* Allotted.

1 For dr. bar.

2 Tables showing kind and amount of st. used in js., and other items of expense, 93, 1866; 94, 1393; 95, 1803; 96, 1537; 97, 1799, 1800; 98, 1495-96.

chan. caused by the storm of Sept., 1874, across isld. should be closed; that the gabions be placed on mats, previously sunk, 76, 584.

Convened Aug. 9, 1879, to consider the imp. of the entrance to Galveston H. R., 80, 1266. B. recom. no more gabions be made, but that the 600 on hand be strengthened and used as a further trial of their value. They also suggested a trial of the Dutch system of j. constr. by use of alternate layers of mattress and st., 80, 1270, 1271.

Reconvened June, 1880. R., 80, 1221. The B. recom. use of broad foundation mattress covered with brush and st. or concrete blocks, 80, 1227, 1230. Observations by B. on mattress constr., 82, 1452.

(Cols. Tower and Newton and Lt. Col. Gillmore.) Convened Jan., 1886. R., 86, 1297. B. recom. building up and completing the s. j. to crest of outer bar; building a n. j. to crest of outer bar; extending both js. to the 30' curve in the Gulf; such dr. from time to time, in aid of tidal scour, as the rate of app. given might afford, 86, 1292.

(Col. Duane and Lt. Cols. Abbot and Comstock.) Convened, Philadelphia, Dec. 11, 1889, by S. O. No. 29, to ex. and R. upon the most eligible location for a d.-w. H. on the n.w. coast of the Gulf of Mexico. R., 90, 1781.

(Lt. Cols. Robert, Gillespie, and Smith.) Appointed to make ex. of effect of storm of Sept. 8, 1900, on js. and main ship chan. and to R. upon their condition and cost of necessary repair. B. submitted R. Nov. 23, 1900, with est. of \$1,500,000 for repairs (Col. H. M. Robert, Maj. H. M. Adams, Capt. C. S. Riché, Capt. Edgar Jadwin), 01, 412, 2018.

Capt. G. M. Hoffman, 04, 366.

ESTIMATES. (See also Plans and Projects.)

By Maj. McAlester, 1868, plan of closing San Luis Pass, \$330,000, 68, 501, 517. Dr. chan. 12' x 80', \$10,952, 68, 503, 517. System of js., composed of concrete blocks, intersecting Bolivar Chan. from shoals of Pelican Isld. and Spit, \$1,300,000, 68, 515.

By Capt. Howell, 1873, impr. the H. with js. and training walls, consisting of cement-covered gabions (see Projects), \$1,259,446. Part recom. by BE., 1874, \$1,224,000, 74, 734, 740; 78, 82; 79, 912.

By BE., 1874, \$1,759,401, 74, 740; 79, 912. Comparison by Capt. Howell of est. of 1873 and of that of the BE., 1874, with results of cost as determined by experience of 1874 and 1875, 75, 865.

Revised est. by Capt. Howell, 1875, \$559,740, 75, 866; 77, 74; 78, 82. Effect of changes in method and proj. on ests., 77, 447.

Cost of completion of existing proj., \$682,446, 79, 110, 912.

LEGISLATION.

Draft of an act to facilitate execution and to protect certain public works of imp., 71, 522.

OPERATIONS.

1870. Proposals for dr. rejected; ineffectual attempts to hire or purchase a dr.; au. given to build, 71, 517. Temporary character of relief from dr., 71, 521.

1871-72. Suspended because d. on outer bar is as great as d. on inner; dr. transferred to other works, 72, 60, 554.

1873-74. Confined to care of property, 74, 724. 1874-75. Work began under proj. of Capt. Howell, Sept., 1874; fav. results obtained, 75, 79, 804. Unexpected results, 75, 847, 858. Difficulty in obtaining material for gabions, 75, 846. Method of conducting work; changes recom., 75, 849, 858. Necessity of cross js. to check abrasion, 75, 853. Cost per l. f. of j., gabions in 2 rows, \$16.04, 75, 848. Gabions in 1 row, \$5.21, 75, 863.

1875-76. General progress, 76, 564, 577. Storm, disastrous effects of (Sept. 14, 1875), 76, 75, 566, 570, 579, 583. Changes in details of gabions, 76, 574. Work already done has given 15½' over inner bar, 76, 580. Cost per l. f. of j., \$6.12, 76, 570.

1876-77. Suspended from July to Sept., 1876, by retention of apps., 77, 73, 446, 449. General progress during year, 77, 449, 453. Ds. obtained over inner bar, 15½' to 16½', 77, 452. Placing mats under gabions increases cost of single gabion, but obviates necessity of several rows, 77, 447. Cost per l. f. gabionade on scow ready for position, \$8.92, 77, 447, 451.

1877-78. Work discontinued Nov., 1877, to June 12, 1878 from lack of app.; repairs to 'break' at Port Pt.; extension of gabionade at Bolivar Pt., 78, 603, 605. D. of w. obtained by work done, 78, 604.

1878-79. Gabionade extends 7,332'; has maintained 20' over outer bar, 79, 109, 910. Résumé of past operations, 79, 910.

1879-80. 2,278 l. f. added to Bolivar Gabionade, 80, 1208. Placing of gabions discontinued and mats loaded with concrete blocks substituted, 80, 1209, 1227. Description of gabion constr., 80, 1232.

1880-81. Extension of s. j. with brush and cane mattress ballasted with concrete and st., 81, 1326, 1328, 1329; 82, 1441.

1881-82. 111,393 c. y. brush mattress and st. ballast placed in s. j., 82, 1442, 1445. Cost of j. per c. y., \$2.88, 83, 1066.

1882-83. 107,555 c. y. of brush mattress and st. ballast placed in s. j., 83, 1060, 1066, 1071. Cost of j. per c. y., \$2.83, 83, 1066.

1883-84. 38,204 c. y. of brush mattress and st. ballast placed in s. j., 84, 1296, 1299. Cost per c. y., \$3.17, 84, 1296; 85, 1450; 86, 1305.

1886-87. Preparations for resumption of work on s. j., 87, 1416.

1887-88. 4,550 l. f. of the old s. j. built up to 5' above m. l. w. under contract; 90,125 c. y. riprap st. blocks and clay used, 88, 1266, 1272.

1888-89. 464 l. f. of shore branch of j. built; j. extended seaward 900', and 200' additional partly

finished; 2,175 l. f. of trestle and R.R. built, 89, 1536.

1889-90. S. j. extended 2,800' and partly completed an additional 1,200'; r. work completed upon 8,559 l. f. of shore branch; R.R. trestle extended 428' beyond incomplete r. work, 90, 1768, 1774.

1890-91. 10,969 c. y. of riprap and 4,320 c. y. block st. placed in s. j., 91, 1891. R. work extended 350' and trestle and track 240', 91, 1872.

1891-92. 100,400 t. riprap and 50,617 t. granite blocks used in extension of s. j., 7,523', 92, 1530.

1892-93. S. j. extended to total l. of about 32,829'; n., 3,600', 93, 1863.

1893-94. N. j. extended to total l. of about 16,000', 94, 1890.

1894-95. N. j. extended to a total l. of 22,500'; 11,000' of trestle on s. j. repaired, and 12,600' in course of constr.; portion of s. j. with clay core raised; 68,071 c. y. dr., 95, 1798, 1799.

1895-96. S. j. completed to total distance of 33,100'; n. j., to 25,110'. 213,596 c. y. dr. by contract, and 419,748 c. y. dr. by U. S. dr. Coal wharf built at Fort Pt., 96, 1525, 1526.

1896-97. S. j. completed to total l. of 34,800', with an apron 803' l. at its outer end; n. j., to 24,700'. 806,646 c. y. dr. by U. S. dr., 97, 1794, 1795.

1897-98. N. j. extended to total l. of 25,907', with 307' of riprap apron; 562,976 c. y. dr. by U. S. dr., 98, 1492.

1898-99. 500,702 c. y. dr., 99, 1954.

1899-00. 661,038 c. y. dr., 00, 2308.

1900-01. 442,822 c. y. dr. by U. S. dr.; emergency dr. by hired plant after hurricane of Sept. 8, 1900, while U. S. dr. was stranded; repairs to dr. at beginning of fiscal year and emergency repairs after hurricane, 01, 1922, 1926.

1901-02. 181,485 c. y. dr.; dr. repaired and oil-burning apparatus installed, 02, 1356, 1368.

1902-03. Repairs to s. j., 27,763 t. riprap placed; 386,459 c. y. dr., 03, 1322, 1325.

1903-04. Repairs to s. j., using 34,069 t. riprap; repairs to n. j., using 45,992 t. riprap; 674,491 c. y. dr.; dr. overhauled and repaired, 04, 1974, 1976.

1904-05. Repairs to s. j., using 10,168 t. riprap; repairs to n. j., using 59,025 t. riprap; 1,091,640 c. y. dr. by U. S. drs.; dr. *Comstock* overhauled and repaired, 05, 1480, 1482, 1484.

1905-06. 40,519 t. riprap placed in s. j.; 1,303,865 c. y. dr., 06, 1327, 1328.

1906-07. 10,946 t. riprap placed in s. j.; repairs to shore branch; 1,104,407 c. y. dr.; dr. *Comstock* repaired, 07, 1454. Operation of dr., 07, 1477.

1907-08. 2,734 t. riprap and 1,553 c. y. concrete placed in repairs to s. j.; 23,398 t. riprap placed in extension of s. j.; 3,207 t. riprap placed in repairs to n. j.; 492,532 c. y. dr.; dr. repaired, 08, 1508. Constr. of new dr. commenced, 08, 1145, 1508. Operation of dr., 08, 1538.

1908-09. 3,168 t. riprap and 128 c. y. concrete placed in repairs to s. j.; 51,313 t. riprap placed in extension to s. j.; 6,739 t. riprap placed in repairs to n. j.; storehouse built at Fort Pt.; 3,210,333 c. y. dr. by U. S. drs., 09, 1488, 1489. New dr. *Galveston* completed, 09, 1154, 1488. Operation of dr., 09, 1516.

1909-10. 1,738 t. riprap placed in s. j. repairs; 1,680 t. riprap placed in n. j. repairs; 2,973,614 c. y. dr.; drs. repaired, 10, 1630, 1631. Operation of drs., 10, 1659.

1910-11. 4,480' s. j. repaired; 1,759,789 c. y. dr.; dr. repaired, 11, 1774. Operation of dr., 11, 1805.

1911-12. Repairs made to s. j., 12, 1991.

PHYSICAL CHARACTERISTICS.

Of Galveston H., 68, 507; 71, 518; 74, 723, 729; 75, 846.

Pelican Spit, 68, 504; 74, 723, 729. Movement of, since 1851, 68, 504, 508, 571. Cause of, 74, 723, 730, 731.

Harbor, 68, 501, 507.

Character of bottom, 74, 729.

Rise and fall of tides, 68, 502; 74, 732; 86, 1300.

Physical changes, 86, 1303.

Velocity of currents, 68, 570; 74, 728.

Presence of littoral currents, 71, 519, 520; 74, 723, 724, 728. Uncertainty of, 74, 736, 738.

Table of velocity and direction of wind, 1874 and 1875, 75, 862.

Elevation of water during gale of Sept., 1875, 76, 578.

Teredo navalis, action of, on piles, 68, 512; 86, 1312, 1314, 1316. Cement protects gabions against, 76, 570.

Peculiar formation at Fort Pt., 77, 449.

Description of Galveston B., 86, 1297.

Description of Galveston Bar, 86, 1298.

Area of cross sections at Bolivar Bar, 80, 1213.

Wind diagrams and observations, 80, 1220; 86, 1299.

Tidal observations, 88, 1270, 1276; 89, 1536, 1538, 1542; 90, 1770, 1773; 95, 1801; 96, 1529; 98, 1493, 1505.

Effect of storms upon ht. of tide, 88, 1274.

Description of the passes and harbors on nw. coast of the Gulf of Mexico, 90, 1783.

Discussion of the relative advantages for the location of a d.-w. H. or outer H. off Padre Isld., mouth of Brazos R., Cedar Bayou, Corpus Christi Pass, Brazos Santiago entrance, San Luis Pass, Pass Cavallo, Sabine Pass, Aransas Pass, and Galveston entrance, 90, 1783, 1788.

D. increasing as an effect of the works of imp., 93, 1863; 97, 1796.

Structure-damaging storms, 96, 1526; 97, 1796; 98, 1493.

Subsidence of js., 96, 1535; 97, 1801.

Hurricane of Sept. 8, 1900, damaged js. and caused shoaling of chan.; other property destroyed; dr. stranded, 01, 1923, 1929, 2018.

Reduction of scouring effect in chan. due to lowering of js., 01, 1924-29.

H. w. due to storms, 02, 1371.

Depositing of sand in Galveston Chan. reduced by closing gaps in js., 03, 1322.

Changes in ds. as shown by sur. of 1904, 04, 1979.

Damages to js. by storm in 1909, 10, 1630, 1631.

Chan. from d. w. in the Gulf to wharves has least d. of 33'; general increase in d. for past 34 years (1912), 7, 12, 1992.

Orig. embraced anchorage area of over 1,960 acres—1,500 a., 20' +; 1,300 a., 24' +; 460 a., 30' +. Entrance was obstructed by 2 bars, inner and outer, requiring lighterage. At 1912, area, 258,500 ± a., 20'-40', 79,000 a. ± being chan. ocean bar to anchorage. Galveston to S. W. Pass, Miss. R., 410 m. ± e.; to Aransas Pass, 188 m. w.; to Brazos R., 50 m. w., 12, 688.

No maintenance dr. required for 12 mos. up to 1912, 12, 690.

PLANS. (See Estimates and Projects.)

Of Maj. McAlester, 1868, closing San Luis Pass with a dam, thereby increasing the H. reservoir 36 sq. m. and depending on scouring effect of ebb tides, 68, 501, 516. Results not proportionate to cost, also action uncertain, hence objected to, 68, 502. For a system of js. intersecting Bolivar Chan. from the shoals of Pelican Isld. and Spit; j. formed of concrete blocks, laid without cement, 68, 512. Objections to, enormous cost, defective action of, insecurity of, danger to water front of city, 68, 500. Of pile j. commenced by city of Galveston, 1869 (see Private work.)

PRIVATE (CITY) WORK.

Pile j. commenced by city, 1869, at Fort Pt. and (intended to d. inner bar) "now about 1 m. l." 74, 723; 75, 858; 79, 910. Partially swept away by storm of Sept., 1875, 76, 566. \$100,000 app. in 1883 by city to continue work, 83, 1063, 1068; 84, 1206.

Chan. in front of wharves dr. (1901) by Galveston Wharf Co., with dr. hired from U. S., 02, 1356, 1369.

PROJECTS. (See Contracts; Estimates, and Plans.)

By Maj. McAlester, 1868, inner bar, dr. a chan. 12' x 80', 68, 503, 517; 71, 517. Unable to profitably contract; au. given to build a dr., 71, 517. Temporary character of relief given, 71, 521. Proj. for dr. not worthy of consideration, 74, 732.

By Capt. Howell, 1871, entrance to B. and H. to admit vessels drawing 18', 71, 518. Break'r along the crest of Galveston Bar, and js. to extend

the head of Galveston Isld. to "Middle Ground Breakers," 71, 520. Break'r to consist of concrete blocks on grillage foundation; js. similar to, but of lighter constr., 71, 521. Proj. abandoned on account of the absence of hitherto supposed littoral currents, 74, 736.

From 1870 to 1872, incl., \$76,000 app., expend. in building and operating a dr. on the inner bar and in strengthening the Fort Pt. j., 71, 517; 72, 554; 74, 724.

Capt. Howell, 1873-74, proposed the removal of the inner bar between Fort Pt. and Pelican Spit, and d. the chan. over the outer bar to 18'; proposed to effect the first by continuing the city dike to the edge of Bolivar Chan., and thereby secure sufficient contraction to scour the desired chan. The second was to be done by prolonging the first dike seaward and by the constr. of a parallel dike from Bolivar Pt. In place of st. it was proposed to use gabions covered with hydraulic cement and filled with sand, 74, 732, 736; 80, 1221.

Considered by BE., 1874-75; changes recom., using single row of gabions placed on mats, 75, 849, 869.

From 1874 to 1879, incl., \$577,000 app. under this proj., resulting in a 20' chan. over the inner bar, 80, 147.

In 1879 BE. recom. no more gabions be made; that those on hand be strengthened and used for further experiment; also that trial be made of the Dutch system of js. composed of alternate layers of mattress and st., 79, 910; 80, 1270.

In 1880, BE. further recom. use of broad foundation mattress covered with brush and st. or concrete blocks, 80, 1227, 1230. Sketches of js. as proposed, 80, 1228. Est., incl. app. of 1880, \$1,825,813, 81, 1328. Least d. proposed over outer bar, 84, 217; 85, 1450; 86, 1297.

The B. of 1886 recom. building up and completing s. j. to the crest of the outer bar, building a n. j. to crest of bar, and extending both js. to the 30' curve in the Gulf; dr. from time to time, in aid of tidal scour, as the rate of app. given might afford, 86, 1292.

Interval between outer ends of js. to be 7,000', 86, 1308. D. to be obtained, 86, 223, 1309, 1311. General plan of constr., 86, 1310. Est., \$7,000,000, in addition to \$1,478,000 app. previous to 1886, or an aggregate of \$8,478,000, 86, 1311; 87, 1416.

Maj. Miller est., 1896, \$250,000 additional to complete existing proj., to cover dr., not considered in orig. est., 96, 1527.

The dept., 1897, au. outer ends of the js. should be built up for 500' each, making their total l. as follows: S. j., 35,300'; n., 25,700'; the first to have an apron 300' l., and the second 307' l., 97, 1794.

Hurricane, Sept. 8, 1900, damaged js.; est. by BE. for repair, \$1,500,000, 01, 2018. Completed, 1906; cost, \$1,200,000, 12, 689.

Act June 13, 1902, au. modification of plan for s. j. to conform to protection work proposed by city of Galveston, 02, 333, 1357.

Modification, in 1907, au. by Sec. of War d. of 30' by repairing and extending js. and by dr., incl. constr. of new dr. (see Surveys), 07, 430, 451.

For mainten. by dr. and repair of js., see Galveston Chan.

Proj. called completed, 1912, 12, 689. (See Physical data.) 1912, one SS. line ceased using bar pilots, 12, 689.

SURVEYS.

By U. S. Coast Sur., began June, 1867, 67, 38, 363; 68, 498, 505. Completed Apr., 1868, 68, 55, 499. Changes determined by comparison of surs., 1843, 1853, 1868, 68, 508.

Sur. of 1870, 70, 520. Of 1872 and 1873, method of making, 74, 726. Results of, and comparison with earlier, 74, 723. Borings, method of making, by water jet, 74, 724. Specimens of bottom obtained, 74, 725.

Surs. of 1875-76, 76, 577.

Resur. of inner and outer bar; comparison of existing and past condition, 78, 606.

Of inner and outer bars, 79, 911.

Previous to 1880, 80, 1266.

Resur. of H. entrance; made, 1888, by Maj. Ernst, 88, 1267, 1277; 1889, 89, 1536, 1546; 1890, by Maj. Allen, 90, 1768, 1777.

Description of Galveston base line, 00, 2312.

Ex. and sur. au. act June 6, 1900, 02, 343; made by Capt. Richd. R., 1900 and 1901; est., \$2,250,000, the essential feature being a dike from mainland near Texas City to Pelican Spit. Opinion of Lt. Col. Adams, Div. E., concurred in by Chief of Engrs., that imp. proposed is of importance to local interests rather than to general C. and its undertaking by U. S. not warranted, 02, 343, 1392.

Resur. of Galveston B. to determine effect of hurricane of Sept. 8, 1900. Sur. of Galveston Chan. with view to imp. Sur. around Pelican Isld. and Flat, for inner H. and a dike between Texas City and Pelican Spit. Surs. of bars, 01, 1923, 1928-29. Permanent bench marks estab., 01, 1930.

Rectangular condition of sur. marks, etc., 02, 1358.

Resur. of Galveston B. in progress (1903), 03, 1323.

Sur. of H., 1904, 04, 1979.

Resur. of Galveston B.; chart completed, 06, 1329.

Ex. au. act Mar. 3, 1905, for uniform d. of 30', 06, 430; made by Capt. Jadwin; R., July 13, 1906; est., \$600,000, in addition to sum required to complete js., for dr., incl. constr. of a new dr., 07, 451.

R. by B.E.R.H., Jan. 16, 1907, requested by R. and H. Com. to ascertain whether it would not be preferable to extending js. than to use app. for a new dr. Board is of opinion it would be necessary to operate add'l dr. even if js. are extended.

Ex. and sur. of Galveston B. and H. au. act May 27, 1908, R., Dec. 30, 1908, by Capt. Oakes; est., \$5,063,204, incl. amount required for completion of Galveston Chan. under existing proj., 10, 559.

Cong. docs., etc., relating to exs., surs., plans, etc., 12, 689.

COMMERCE.

Existing chan. inadequate to accommodate rapidly increasing business of port, **01**, 1962, 1965.

Unit value of general merchandise discussed, **05**, 1487.

C. increasing, **08**, 453.

Reduction in rates, **10**, 533.

This port stands second of all ports in U. S. in value of foreign exports, **11**, 570; \$35,000,000, 1895; \$218,448,144, 1912; N. Y., 1907-8, \$700,000,000±; 1911-2, \$773,000,000±; Galveston, 1907-8, \$162,000,000±; 1911-2, \$220,000,000±; New Orleans,

1907-8, \$160,000,000±; 1911-2, \$173,000,000±. **12**, 692.

Total collected at customhouse for port, 1911, \$810,172.08, **12**, 1995.

Diagram showing tonnage, value, and app., **12**, 1995.

For C. in t., see Galveston H.

"The maximum draft that can be carried at mean low water June 30, 1912, from deep water in the Gulf, is 32½ feet as far as Forty-sixth Street.

"The commercial statistics for the port are as follows:

Calendar year.	Domestic exports.	Foreign imports.	Coastwise.	Total value.
1911.....	\$215,178,301	\$10,280,249	\$146,297,574	\$371,756,124
1910.....	206,678,617	4,741,396	166,720,049	378,140,062
1909.....	182,406,762	4,125,330	137,298,352	323,830,444
1908.....	202,152,984	5,516,822	218,388,000	426,057,806
1907.....	236,277,727	7,621,761	203,768,556	447,668,044
1906.....	170,759,269	3,772,090	349,486,007	524,017,366
1905.....	140,113,700	3,034,973	971,925,155	515,078,828

"The business has increased from a yearly foreign export business in fiscal year 1895 of about \$35,000,000 to \$218,448,144 in the fiscal year ending

June 30, 1912. This port stands second in the value of foreign exports of all the ports in the United States, as the following table shows:

Ports.	1907-8	1908-9	1909-10	1910-11
New York.....	\$701,062,913	\$607,239,481	\$651,986,356	\$772,552,449
Galveston.....	161,352,201	189,464,335	173,178,992	220,504,917
New Orleans.....	159,455,773	144,981,625	140,376,560	172,835,293
Philadelphia.....	109,261,436	84,286,440	73,266,343	69,956,380
Boston.....	96,051,068	76,157,558	70,516,789	71,534,082
Baltimore.....	89,988,505	77,550,658	77,381,507	85,120,843
Savannah, Ga.....	61,695,330	50,900,156	63,428,155	72,076,045

"It is difficult to state what the effect of the project has been upon freight rates. The rate on foreign shipments are much less now than they were 10 years ago. Cotton, the chief article of export, of which 2,735,303 bales were exported in the past year, now has an average rate to Liverpool and Hamburg of 40 cents per 100 pounds, and to Bremen 42 cents. Ten years ago the rate was 45 to 55 cents.

"The deep water to the wharves and consequent elimination of lighterage charges, the increased size of the vessels employed, the presence of the tramp steamer that prevents the regular lines from keeping up the rates, and the increased production in the Southwest have all had their effect. For the effect upon coastwise rates, attention is invited to the remarks under that head on the "Improvement of the Texas City Channel." **11**, 12, 1692.

For effect of works on coastwise traffic, see Texas City Chan.

CONTRACTS.

1902. Moore & Sieber, constr. pile and brush dike, prices listed, **03**, 1328-29.

1903. Bowers Southern Dredging Co., dr., 8.3c c. y., **03**, 1328-29.

1904. Geo. V. Cresson Co., cutter engine, etc., for dr., \$5,900, **04**, 1981.

1905. Bowers Southern Dredging Co., suction dr., \$102,500, **05**, 1486.

1911. L. T. Gaylord, dr. 4,200,000 c. y., 6.7¢ c. y., **11**, 1777.

E. M. Hartrick. **R.**, **01**, 1969; **03**, 1329; **04**, 1981; **05**, 1489.

Capt. G. M. Hoffman, **04**, 366.

OPERATIONS.

1902-03. 60,000 c. y. dr. by contract; constr. of pile and brush dike commenced; 270,608 c. y. dr. by U. S. drs., **03**, 1328-30.

1903-04. 1,993,143 c. y. dr. by contract and 243,564 c. y. by U. S. plant; cutter head and engine installed on dr. *Gen. H. M. Robert*, **04**, 1979-81.

1904-05. 343,977 c. y. dr. by contract and 565,138 c. y. by U. S. plant; pile and brush dike reinforced, **05**, 1485, 1489.

1905-06. U. S. dr. *Col. Miller* completed; 551,257 c. y. dr.; dike connected with Pelican Isld. and low places reinforced; 249,099 c. y. excavated by U. S. dr. *Gen. H. M. Robert* and deposited behind dike; cedar cuttings planted on dike, **06**, 1330.

1906-07. 1,138,318 c. y. dr., **07**, 1456. Operation of drs., **07**, 1480.

1907-08. 2,018,309 c. y. dr., **08**, 1511. Operation of drs., **08**, 1540.

1908-09. 864,947 c. y. dr., **09**, 1491. Repairs to dr. *Gen. H. M. Robert*, **09**, 1492. Operation of drs., **09**, 1517.

1909-10. 2,323,742 c. y. dr. by U. S. drs.; dr. *Miller* repaired, **10**, 1633. Operation of drs., **10**, 1660.

1910-11. 1,145,983 c. y. dr. by U. S. dr. *Miller*, incl. 5,000 c. y. fill in bulkhead for U. S. Life Saving

Station; repairs to pile and brush dike, 704 l. f. partly completed, **11**, 1776. Consolidated report of operations of dr. *Miller*, **11**, 1807.

1911-12. 7,050,971 c. y. dr. in new work and in maintain.; a basin in front of Federal quarantine station excavated and its bulkhead filled; dr. completed, **12**, 1993. Repairs to w. end of pile and brush dike completed, **12**, 1994. Chan. completed to full proj. d., **12**, 692.

PHYSICAL CHARACTERISTICS.

Description of, **01**, 1961.

Shoaling and scouring of dr. chan., **04**, 1980; **05**, 1485; **06**, 1330; **09**, 1492; **10**, 1633; **11**, 1776; **12**, 1993.

Chan. 5 m. l., draft 32½', as far as 46th St., passing along wharf front of city and connecting same with j. entrance chan., **12**, 690; **12**, 692

PRIVATE WORK.

In 1906 wharf company dr. 76,377 c. y. from along wharves, **06**, 1330.

In 1907 wharf company dr. 65,260 c. y., and Southern Pacific Co. dr. 102,379 c. y., **07**, 1456.

In 1908 wharf company dr. 24,895 c. y., **08**, 1511.

In 1909 wharf company dr. 24, 872 c. y., **09**, 1492.

PROJECTS.

By Capt. Riché, 1900, provides for 30' x 1,100' chan., 50' distant from H. line on either side; est., \$1,585,000 (see surs.), **01**, 1960.

Part (c), U-30 Galveston, Tex. (Sea wall, etc.)

APPROPRIATIONS.

1904, \$591,046.25, **04**, 2011.

1906, 158,953.75, **06**, 1351.

Total, 750,000.00 (\$750,001.50, incl. sales, **12**, 2030).

COMMERCE.

Importance of, **03**, 1353, 1355, 1358.

Protection works needed to increase confidence of investors and induce installation of additional freight-handling facilities, **03**, 1352-54.

CONTRACTS.

1904. J. M. O'Rourke & Co., sea wall, prices given, **05**, 1516.

1905. Isaac Heffron, riprap revet., prices given, **05**, 1516.

1906. North American Dredging Co., filling, soiling, and sodding, 22.99¢ c. y. in place, **06**, 1351.

1908. North American Dredging Co. (supple.), retaining wall, 9,000 t. riprap, prices given, **08**, 1538.

1909. J. C. Underwood, constr. concrete sidewalk, brick pavement and concrete curbing; amounts and prices given, **10**, 1658.

1910. J. C. Underwood, supple., for using bituminous fill in brick pavement, **10**, 1658.

ENGINEERS.

Chief of Engineers. **R.**, **03**, 349; **04**, 381; **05**, 398; **06**, 428; **07**, 450; **08**, 473; **09**, 496; **10**, 557; **11**, 597; **12**, 723.

Boards. BE. appointed under act June 13, 1902, to make ex. and prepare plans and est. for protection of port of Galveston, and U. S. property on Galveston Isl., from storms, by break'er or other means. **R.**, Dec. 19, 1902, recom. constr. sea wall and embankment along Gulf front of city, from 39th St. to 45th St., thence w. along front of Fort Crockett Reservation, and raising of grades to conform to similar imps. undertaken by local au. Cost of sec. from 39th to 45th Sts. est. at \$340,000, to be borne by local au. Cost of work

Act June 13, 1902, au. 30' chan. from outer end of inner bar to 51st St., of such w. as shall best subserve interests of C. (see Surveys, 1900), **02**, 334.

Modified by act Mar. 2, 1907, providing for extension of chan. from 51st St. to 56th St.; est., \$129,310, **07**, 432.

Act June 25, 1910, modified proj. by providing, in the discretion of the Sec. of War, for extension of chan. to 57th St., with w. of 1,000' between 51st St. and 57th St.; as recom. in **Rs.**¹ (see Galveston H. surs.), **10**, 532.

Adopted proj. (1909) contemplates chan. 30' x 1,200' from inner bar to 51st St. and 700' w. from 51st St. to 56th St., **09**, 472; to 57th St., **12**, 691.

SURVEYS.

Ex. and sur., of Galveston B., Tex., with view to w., d., and extending chan. from Gulf of Mexico to a point opposite 51st St., Galveston, au. act June 6, 1900; made by Capt. Riché. **Rs.**, Nov. 15 and Dec. 21, 1900; est., \$1,585,000, or \$1,500,000 if entire work done under one contract; \$25,000 an. maintain.,² **01**, 411, 1959-60, 1967.

Ex. au. act Mar. 3, 1905, with view to enlargement and extension farther west, **06**, 430; made by Maj. Jadwin. **R.**, Feb. 13, 1907, presents plan for extending chan. from 51st St. to 57th St., Cong. docs., etc., relating to exs., surs., plans, etc., **12**; 691, with w. of 700'; est., \$129,310,³ **07**, 451.

Capt. J. C. Oakes, 1907-09. R., **07**, 1469; **08**, 1528; **09**, 1507.

Maj. G. P. Howell, 1910-. R., **10**, 1648.

Assistants:

R. B. Talfor. R., **92**, 1565.

G. Bagnall. R., **92**, 1569.

D. Allen. R., **93**, 1879; **94**, 1400; **95**, 1811.

E. M. Hartick. R., **04**, 2003.

LEGISLATION.

This chan. forms part of the "Inland Waterway" and an app. has been made for it under that head; "hereafter" this work will be reported under "Inland Waterway on the Coast of Texas," **07**, 441.

OPERATIONS.

1892-93. 2,928 c. y. dr., **93**, 1878.

1893-94. 5,399 c. y. dr., **94**, 1399.

* Allotment.

¹ This may represent trips rather than actual vessels.

1894-95. 14 beacons erected and 10,847 c. y. dr., **95**, 1810, 1812.

1895-96. 6,333 c. y. dr., **96**, 1544.

1900-03. No work done—chan. deeper than connecting water of Galveston and Brazos Canal.¹ **01**, 1940; **02**, 1383; **03**, 1342.

1903-04. U. S. dr. *Pigmy* fitted up with snagging outfit; repairs made to dr. *Gen. H. M. Robert* and launch *Col. Riché*, **04**, 2002.

1904-05. Snag boat *Gen. S. M. Mansfield* prepared for dr.; 6 piles and 21 iron pipes removed from chan.; 7 iron tripods and 3 signal beacons erected, **05**, 1505.

1905-06. Dr. and snag boat *Gen. S. M. Mansfield* dr. 3' chan. at all places where less than 3' was found, removing 33,653 c. y.; 16 beacons erected as chan. marks, **06**, 1339.

1906-07. Dr. *Gen. S. M. Mansfield* removed 23,001 c. y.; 13 beacons erected as chan. marks, **07**, 1469.

1908-09. Dr. *Gen. H. M. Robert* removed 123,986 c. y. up to Apr. 17, 1909, at which time she was destroyed by fire; U. S. derrick barge No. 1 dr. a chan. under drawbr., removed piling obstr. and dr. *Gen. H. M. Robert*, and erected beacons as chan. marks, **09**, 1507.

1909-10. 204,964 c. y. removed under contract, and dr. *Capt. Howell* removed 180,347 c. y., **10**, 1648.

PHYSICAL CHARACTERISTICS.

Description of, **92**, 1563.

West B., extending from Galveston B. to the w. end of Oyster B., lies between Galveston Isld. and the mainland, **93**, 1877.

PRIVATE (STATE) WORK.

In 1859 Texas had dr. chan. through B. with d. of 5', which was filled up again by a storm in 1875, **93**, 1877.

1911,	\$3,500.00,	12 , 2013.

Total, 21,353.25 (less amounts trans., \$15,626.29, **12**, 2013).

COMMERCE.

About 10,000 t. produce, etc., carried an. to and from Galveston, **00**, 2405.

1911, 7,515 t., **12**, 705.

ENGINEERS.

Chief of Engineers. **R.**, **00**, 395; **06**, 417; **07**, 441; **08**, 463; **09**, 485; **10**, 546; **11**, 583; **12**, 704.

In charge:

Capt. C. S. Riché, 1899-1900. **R.**, **00**, 2403, 2406.
Capt. John C. Oakes, 1907-09. **R.**, **07**, 1468; **08**, 1528; **09**, 1506.

Maj. G. P. Howell, 1910-11. **R.**, **10**, 1646; **11**, 1792.

Maj. E. I. Brown, 1912-. **R.**, **12**, 2012.

Assistant. S. M. Wilcox. **R.**, **00**, 2407.

OPERATIONS.

1908-09. Dr. *Capt. C. W. Howell* removed 98,904 c. y. of material, completing 53' chan. from 5' contour in Galveston B. to Chocolate Bayou, **09**, 1506.

PROJECTS.

By Maj. Allen, 1891, straightening chan. and removing points bordering them, to dr. least w. of 200' and d. of 33' bet. RR. brs. to San Luis Pass in B., and 100' w. and 3' d. along Christmas Pt. in Oyster B., chan. to be marked by beacons; est., \$29,000, **92**, 1568, 1569; **93**, 1877.

By Maj. Miller, 1892, application of app. of 1892 to obtaining part of the foregoing plan, **93**, 1877.

General proj. of 1902, for Brazos R., Velasco to Richmond, etc., provided for purchase of West Galveston B. and Brazos Canal at a cost of \$30,000 (see "Inland Waterway," Dist. U.), **03**, 1342.

The West Galveston B. Chan. included in the "Inland Waterway on the Coast of Texas" and allotments for this work from app. for "Brazos R., Velasco to Richmond," etc., proj. of 1899, have ceased; about four-fifths of proj. work has been completed, **08**, 458.

Of Mar. 2, 1907, provides for a navigable inland chan. of 5' along coast of Texas, utilizing lagoons lying bet. the islds. and the mainland, of which proj. West Galveston B. and the Galveston and Brazos Canal are parts; these two items previously considered independently are now improved under a joint app.,² **08**, 465.

SURVEYS.

An. act Sept. 19, 1890; made, 1891, by Maj. Allen, **92**, 1560.

Au. act Mar. 3, 1905, from Aransas Pass to West Galveston B. Chan. at Brazos R. (as a part of the proposed inland waterway from the Rio Grande R., Tex., to a connection with the Mississippi R. at Donaldsville, La.), **06**, 430.

1910-11. 46,968 c. y. dr., **11**, 1792.

1911-12. 227 snags and 377 overhanging trees removed, **12**, 2012.

PHYSICAL CHARACTERISTICS.

Chocotale Bayou empties into Chocolate B., which latter merges with Galveston B. about 12 m. n. of San Luis Pass, one of the adjacent streams referred to in the app. of Mar. 3, 1899, for imp—"Brazos River between Velasco and Richmond, West Galveston Bay Channel, Double Bayou, and the mouths of adjacent streams," **00**, 2404.

Description of Bayou, **00**, 2407.

Max. draft June 30, 1911, 3.6', **11**, 583.

Chan. navigable for 15 m. beyond Liverpool, and navigation could be extended farther were it not for the overhanging trees along the banks and snags, **12**, 705.

PROJECTS.

Capt. Riché est., 1900, it would cost \$15,000 to make the imp. component part of a light-draft inland navigation system, **00**, 2406.

To excavate a chan. across the bar, from 5' in B. to 5' in bayou; est., \$9,000, **07**, 441; au. act Mar. 2, 1907, **07**, 436.

SURVEY.

1907-08. 16,645 c. y. dr., **08**, 1527.
1909-10. 154,196 c. y. dr., **10**, 1646.

PHYSICAL CHARACTERISTICS.

Bastrop Bayou empties into Bastrop B., part of W. Galveston B.; one of the adjacent streams referred to in the app. Mar. 3, 1899, for imp. "Brazos R. between Velasco and Richmond, W. Galveston B. Chan., Double Bayou, and the mouths of adjacent streams," **00**, 2415.

Description of, **00**, 2417; **11**, 584; **12**, 705.

Max. draft, 1912, over shoalest part, 2.6' m. l. t., **12**, 705.

PROJECTS.

Act Mar. 3, 1905, consolidated this work with West Galveston B. Chan., etc. (q. v.), **07**, 436.

PRIVATE WORK.

Chan. dr. through Shell Reef at mouth of bayou paid for by parties interested, **07**, 440.

SURVEYS.

Ex. and sur. au. by act Mar. 3, 1899; ex. made, 1899, by Capt. Riché (**R.** fav.); sur. made, 1899, by Capt. Riché (**R.** unfav.), **00**, 2415, 2416.

U-38 INLAND WATERWAY, COAST OF TEXAS.—West Galveston Bay to Rio Grande River.

Part.	Title.	Period.	Appropriations.
a	General data and dredging plant	1907-1912	\$165,000.00
b	Brazos River and Galveston Bay	1879-1897	
c	Galveston and Brazos Canal	1902-1912	67,307.66
d	Galveston and Brazos Canal—operating and care	1904-1912	4,397.67
e	Brazos River and Matagorda Bay	1910-1912	262,000.00
f	Aransas Pass to Pass Cavallo	1907-1912	105,850.00
g	Rio Grande River to Donaldsonville, La.	1906-1907	
	Total		604,555.33

Part (a), U-38 General Data and Dredging Plant.

NOTE.—The following reference to this proj. is taken bodily from An. R. Chief of Engineers, **12**, 706:

"The river and harbor act of March 2, 1907, appropriated \$133,829, and authorized the Secretary of War to enter into contract for materials and work to the extent of \$300,000, all of which has since been appropriated.

"In addition, \$192,000 has been appropriated for maintenance.

"This project embraces the improvement of the following localities: West Galveston Bay and Brazos River Canal; channel from Aransas Pass to Pass Cavallo, including the Guadalupe River to Victoria; Turtle Cove Channel from Aransas Pass to Corpus Christi, Tex.

"The river and harbor act of June 25, 1910, appropriated \$200,000 toward the construction of the section of the waterway between Brazos River and Matagorda Bay, in accordance with the report printed in Rivers and Harbors Committee Document No. 3, Sixty-first Congress, second session. The estimated cost of the entire section, 5 feet depth and 40 feet width, is \$400,000. With the completion of this section the entire waterway

between Galveston and Corpus Christi, a distance of 200 miles, will be opened up.

"The object of the improvement is to obtain and maintain a navigable channel depth of 5 feet in a canal along the coast of Texas, utilizing the lagoons lying between the islands and the mainland. The improvement will develop a light-draft inland navigation which will afford cheap transportation by light-draft steamers and barges to the coast country of Texas.

"The amount expended under this appropriation to June 30, 1912, has been as follows (see each work named below for total of appropriations):

West Galveston Bay and
 Brazos River Canal (q.
 v.) \$175,419.93
 Channel between Brazos
 River and Matagorda
 Bay (q. v.) 77,880.88
 Aransas Pass to Pass Ca-
 vallo (q. v.) 72,597.54
 Guadalupe River (q. v.) 182,495.60
 Turtle Cove Channel (q. v.) 126,723.57

Total 635,117.52

* Allotment.

† Entire allotment trans. to Chocolate Bayou in 1911.

"The projected channels have been obtained, except the river channel from Victoria to the mouth of the Guadalupe River and the channel between Brazos River and Matagorda Bay.

"More and larger boats with auxiliary gas engines have been built to utilize the improvement. Most of the points to be reached are settlements which railways can not afford to develop, and the improvements are of great importance to their commercial life.

"The effect of the project on freight rates is shown by one instance—from Galveston to the plantations on the lower end of the Guadalupe. The rate by rail to the nearest point and by boat to the river landing is 63½ cents per 100 pounds on general merchandise; the all-water route rate is 35 cents. The combined cotton rate is \$2.90 per bale and the all-water rate \$1 per bale." 12, 707.

APPROPRIATIONS.¹

1899,	\$65,000,	99, 1970.
1902,	50,000,	02, 1380.

Capt. G. M. Hoffman, 04, 366; 05, 331.
J. H. Masculine. R., 05, 1503.

LEGAL PROCEEDINGS.

Galveston and Brazos Canal purchased by U. S. and paid for, 03, 355, 1342.

OPERATIONS.

1900-01. Preparations in progress for beginning work, 01, 408.

1901-02. Dr. practically completed except for furnishing, wiring, etc., 02, 1379.

1902-03. 13,304.82 c. y. dr. from Double Bayou; chan. across Hannas Reef dr. to 7', 45' to 60' w.; snags, etc., removed from Trinity R.; dr. Gen. H. M. Robert completed and put in commission Aug. 6, 1902, 03, 1339.

1903-04. Log jam in chan. between Brazos R. and Oyster Creek removed, and a boom constr.; 2,200 c. y. dr. by U. S.; bulkhead constr. across a break in canal bank; floating plant repaired, 04, 1999.

1904-05. 80,480 c. y. dr. from Double Bayou; 131,639 c. y. dr. and 212 snags and part of old bulkhead removed from Anahuac Chan.; 3,236' Galveston and Brazos Canal cleared of grass and logs and 8,000 c. y. silt and clay removed; repairs made to floating plant, 05, 1502.

PROJECTS. (See Appropriations.)

The proj., 1899, to obtain and maintain a navigable chan. 4' to 6' d. across the bars at the mouths of most of the streams and bayous along the Texas coast, with a dr. and snagging plant owned and operated by the U. S., 99, 344.

Recom., 1906, that further app. be dependent on U. S. being relieved of mainten. of br. across Galveston and Brazos Canal, 06, 421, 424.

Act 1905 included gaining 6' chan., Trinity B. to Anahuac Chan. and thence to mouth of Browns Pass; cost, \$5,500, 05, 390.

SURVEY.

Maj. E. I. Brown, 1912-. 12, 2015.

OPERATIONS.

1902-03. Canal purchased at cost of \$30,000, 03, 1342.

1903-04. Log jam removed, and a boom constr. across mouth to prevent recurrence of jam; dr. *Pigmy* removed 2,200 c. y. of material and constr. a bulkhead across break in canal bank, 04, 1999.

1904-05. 3,236' of canal cleared of grass, logs, etc., and about 8,000 c. y. silt and clay removed, 05, 1502.

1905-06. 138,658 c. y. removed by U. S. drs., leaving the canal with a ruling d. of 3', 06, 1340.

1906-07. 20,017 c. y. removed by U. S. drs. in mainten. work, and 8,448 c. y. removed by dr. *Capt. C. W. Howell* in the excavation of a 5' chan., 07, 1470.

1907-08. Dr. *Capt. C. W. Howell* removed 165,406 c. y., 08, 1528.

1908-09. Dr. *Capt. C. W. Howell* removed 255,483 c. y.; canal practically completed in accordance with proj. of 1907, 09, 1507.

1909-10. 12 piling, 162 snags, and 226 c. y. mud removed by derrick barge No. 1, 10, 1648.

PHYSICAL CHARACTERISTICS.

Depths in canal, 12, 2015.

At 1912, chan. 36 m. l.—21 m. in W. Galveston B. and 15 m. thence to Brazos R., 12, 708.

PRIVATE WORK.

Canal orig. dr. by Galveston & Brazos Navig. Co. Orig. cut was 10 m. (1851-1853), 6' x 100'. SS. 145'-175' l. and from 28'-30' w. used canal, carrying 550-1,200 bales of cotton, 12, 708.

PROJECTS.

Act June 13, 1902, included \$30,000 for purchase of canal; badly obstr. by snags, silt, etc., 02, 337.

Of Mar. 2, 1907, for "Inland Waterway on the Coast of Texas" au. 5' inland waterway, and combines the imp. of West Galveston B. Chan. and Galveston and Brazos R. Canal; chan. to be 40' w.; est., \$151,529, and \$20,000 an. mainten., 07, 442, 443; 08, 465.

SURVEYS.

Ex. and sur. au. act Mar. 3, 1905; made, 1906, for inland waterway from the Rio Grande R., Tex., to the Mississippi R. at Donaldsonville, La., 07, 451.

Maj. E. I. Brown, 1912-. R., 12, 2014.

Assistant. S. M. Wilcox. R., 00, 2423.

OPERATIONS.

1910-11. 61,843 c. y. dr., making a new chan. from mouth of creek in the Galveston-Brazos R. Canal for 10,670', cutting off one bend and forming chan. 5' x 40', 11, 1793.

PHYSICAL CHARACTERISTICS.

Oyster Creek at one time emptied into the Gulf of Mexico, about 2 m. ne. of Brazos R. entrance; now empties into the Galveston and Brazos Canal,

the orig. entrance having been closed by a barge sunk across the creek below the canal. Creek one of the adjacent streams referred to in the app. of Mar. 3, 1899, for imp. "Brazos R. between Velasco and Richmond, West Galveston B. Chan.. Double Bayou, and the mouths of adjacent streams," 00, 2419.

Description of, 00, 2423.

June, 1911, ruling d. in dr. chan. was 4.4', and above end of said chan. 3.7', 11, 1793.

June 29, 1912, ruling d. in dr. chan. was 1.5', 12, 2014.

PROJECTS.

Capt. Riché est., 1900, \$65,000 and the purchase of the Galveston and Brazos Canal at an additional cost of \$50,000, to make the imp. as a part of an inland light-draft navigation system, 00, 2422.

Act June 25, 1910, added this work to the proj. for imp. of West Galveston B. Chan. and other works; it is proposed to secure a 5' chan. in the creek by the aid of U. S. plant, 10, 547.

SURVEYS.

LEGISLATION.

Texas, under a general law, sanctioned organization of the Brazos River Channel & Dock Co., with au. to extend its works for imp. of the R. mouth as far inland as might be necessary to obtain security from storms, etc., 93, 1893; 97, 1818.

Congress, 1888, au. company to construct, own, and operate js. and other similar works at the R. mouth, and to charge and collect tolls therefor, subject to regulation, provided work should be satisfactorily done in a defined period; right reserved to purchase works, 97, 1819.

OBSTRUCTIONS.

Bridges obstr. navigation, 75, 936.

List of R.R. and other brs. without draws between Waco and Richmond, 95, 1833.

OPERATIONS.

1880-81. Partial constr. of 742½ l. f. of n. chan. j., 81, 1348.

1881-82. Work on n. j. in progress, 82, 1461.

1882-83. Work in progress on n. and s. js., 83, 1088.

1884-85. Work in progress on n. j., 85, 1461. N. j. partly completed throughout 2,433 l. f. S. j. foundation course laid for 700', 86, 1327.

1904-05. Dr. at various places by snag boat Capt. C. W. Howell, 05, 1507.

1905-06. 25,935 c. y. dr. by snag boat, exhausting the balance available for imp. of this section under old proj. of 1896, 06, 422, 1344. [For subsequent details of imp. of Brazos R., Tex., Velasco to Richmond, see parts (b), and (c).]

PHYSICAL CHARACTERISTICS.

Description of, 75, 930, 931, 932, 933, 937, 940, 941, 943, 944; 88, 1294; 93, 1894; 95, 1833; 97, 1817.

List of obstr., 75, 930, 931, 934.

Current observations, 75, 932, 937; 79, 942; 97, 1837.

Table of distances, 75, 933.

"Littoral currents," 75, 937, 940; 97, 1839.

Table of gauge readings, 79, 941.

Slight tides in R., 81, 1349, 1353.

One of the principal Rs. of Texas, about 800 m. l., flowing through its central and agricultural portion into Gulf of Mexico without intervention of a B., having a bar at the mouth, the position of which was considered, 1897, to be as variable as the d. of the chan. through it, 97, 1817. Richmond, 102 m. from the mouth, up to which place in 1892 navigation was obstr. by snags, etc., 93, 1896. Between Waco and Richmond, 328 m., navigation obstr., 1895, by ledges, shoals, and R.R. and other brs. without draws, 95, 1833. From Velasco to Richmond, 89 m., R. tortuous, banks varying in height from 9' to 47', and obstr. by shoals, snags, and fall of 1½' at Bolivar Landing, 95, 1838.

Effect of works of imp., 97, 1821.

Tidal observations at mouth, 97, 1836, 1839.

Surface slope observations, 97, 1837.

Changes in the R. banks and in the Gulf shore line, 97, 1838.

Mouth to city of Waco obstr. by shoals; locks and dams necessary; description of, 01, 2011.

PLANS.

By Maj. Howell, 1879, for H. of refuge and naval station; w. and d. chan.; est., \$12,052 to \$1,762,575, 79, 944, 945. For a basin 30' x 500' x 1,000'; est., \$157,407, 79, 944, 945.

PRIVATE (STATE AND CORPORATE) WORK.

Texas expended, 1857-58, \$60,000 in an imp. of the R., mouth to Washington, 255 m., 75, 934. Imp. insufficient, 75, 934.

Imp. of mouth carried on from 1888-96 by the Brazos River Channel & Dock Co., during which time 2 straight and parallel js. built, placed 560' apart, center to center, the e. one being 4,708' and the w. 5,018' l.; wing dams built from these at intervals, and out from the banks for about 5 m. upstream to Velasco, 93, 1893; 97, 1820, 1821. History of the company, 97, 1818.

PROJECTS.

By Maj. Howell, 1872, imp. of chan. over the bar at mouth of R. by means of 2 converging pile js., each five-eighths m. l. and 400' apart at their outer ends; est., \$286,484, 75, 938, 941; 80, 1243.

Work not considered susceptible of permanent completion, 80, 1244.

By Maj. Mansfield, 1880, parallel js. of brush, st., and concrete; direction to be chosen so as to fix the chan. in its natural position. Approx. l. of n. j., 3,600'; of s. j., 4,350'; est., \$522,890.44, 81, 1349. Recom. by B.E., 81, 1355. Concurred in by Chief of Engineers, and approv. by Sec. of War, 81, 1352.

In 1887 the \$140,833 expend. had not resulted in any useful effect upon the bar; the plan for imp. to receive further consideration, 87, 191.

In 1887, upon consideration of Maj. Ernst's report on the results of the sur. of that year, the B.E. recom. no further works of imp. be at "present" attempted, 88, 1300.

By Maj. Miller, 1895, removing obstr. from R. bet. Velasco and Richmond; est., \$10,000, and an an. expend. of \$2,500 for mainten., 95, 1839.

History of proj. for d. entrance to R., 97, 1818.

See Commerce.

Total, ³ \$432,500

COMMERCE.

Description of, **05**, 395; **06**, 424, 1348; **11**, 593.

Very little C. during year, **08**, 469.

Only vessels using chan. are fishing schooners, **10**, 554.

Some effect on ocean freight rates on competing lines to Galveston, **12**, 714.

During 1911, 3,063 t., valued at \$759,678, **12**, 714.

CONTRACTS.

1899. C. Clarke & Co., st., \$2.69 and \$3.59 t.; logs in place, 20¢ l. f. (\$68,105), **00**, 2333.

1903. Moore & Sieber, repairing js. and constr. cribs and spurs, \$3.14 t. for small riprap, \$3.95 for large riprap, and 35¢ l. f. for logs placed in cribs and spurs covering all necessary fastenings and brush, **03**, 1345.

1905. Charles Clarke & Co., repairing js., \$3.12 t. for small riprap and \$3.73 t. for large riprap, **06**, 1348.

1907. Charles Clarke & Co., j. work, 9,000 t. riprap, at \$3.58 t. in place in js., **08**, 1535.

1911. Bowers Southern Dredging Co., dr. 600,000 c. y., 15¢ c. y., **12**, 2020.

1912. Charles Clarke & Co., repairing ne. j.; prices listed, **12**, 2020.

ENGINEERS.

Chief of Engineers. **R.**, **99**, 343, 346; **00**, 390, 396; **01**, 407; **02**, 340; **03**, 358; **04**, 377; **05**, 394; **06**, 424; **07**, 446; **08**, 469; **09**, 492, 497; **10**, 553; **11**, 592; **12**, 713, 724.

Boards:

Special, convened to ex. effect of storm of Sept. 8, 1900, on js. in Brazos R.; est. cost of completion of existing proj. increased \$175,000 (amount of damage), **01**, 412, 2022. (Col. H. M. Robert, Maj. H. M. Adams, Capt. C. S. Riché,⁴ and Capt. Edgar Jadwin.)

In charge:

Capt. C. S. Riché, 1899-1903. **R.**, **99**, 1969; **00**, 2332, 2426; **01**, 1940; **02**, 1386; **03**, 1344.

Col. H. M. Robert. **R.**, **99**, 1977.

Capt. Edgar Jadwin, 1904-06. **R.**, **04**, 2005; **05**, 1510; **06**, 1348.

Capt. J. C. Oakes, 1907-09. **R.**, **07**, 1474; **08**, 1534; **09**, 1511.

Maj. G. P. Howell, 1910-11. **R.**, **10**, 1654; **11**, 1799.

Maj. E. I. Brown, 1912-. **R.**, **12**, 2019.

Assistants:

S. W. Campbell. **R.**, **00**, 2334; **01**, 1943; **04**, 2007.

E. M. Hartrick. **R.**, **00**, 2433.

R. B. Talfor. **R.**, **00**, 2435; **01**, 1943.

Lt. M. L. Walker, **01**, 402.

LEGAL PROCEEDINGS.

The Brazos River Channel & Dock Co., Apr. 25, 1899, transferred to the U. S. js. and auxiliary works, also a release of rights and privileges conferred upon t by its charter or by act of Aug. 9, 1898, **99**, 1969.

By act of June 3, 1896, it would seem that it was unlawful for the Senate to require the ex. called for Jan. 28, 1899, **99**, 1977.

OPERATIONS.

1899-00. Constr. of ne. and sw. js. in progress, **00**, 2332.

1900-01. Work on js. continued until hurricane of Sept. 8, 1900, **01**, 1941.

1903-04. 75,107 l. f. of logs, and 2,890.85 t. of riprap placed in building and fill of 119 cribs on the east bank from station O of ne. j. up to the Galveston-Brazos Canal; 24,970 l. f. of logs, and 406.10 t. of riprap used in building 15 spurs along the right bank of the R. in the big bend above lighthouse; 2,746.51 t. riprap used in repairing shore end of ne. j. and in filling some of the worst gaps between station 12 and stations 40 and 41, **04**, 2007.

1905-06. 3,878.44 t. small riprap and 12,119.28 t. large riprap delivered and placed between stations 11 and 13, 16 and 24, and 27 and 44, ne. j., partially completing its repairs, **06**, 424, 1348.

1906-07. 3,887.03 t. of small riprap placed; 7,191.42 t. large riprap delivered and placed between stations 10 and 47, ne. j., and station 38+85 and station 50 sw. j.; repairs made to spur dikes in Big Bend above lighthouse; crib dikes on n. bank between j. and entrance to Brazos Canal repaired, **07**, 1474.

1907-08. 11,255.02 t. large and small riprap delivered and placed, 9,140.56 t. distributed over sw. j. and 2,114.46 t. over ne. j., and the crib dike running on n. bank to the entrance of Brazos Canal; repairs to js. are practically completed, **08**, 1534.

1911-12. 618,361 c. y. dr.; 2,323 t. riprap placed in repairing ne. j., **12**, 2019.

PHYSICAL CHARACTERISTICS. (See Surveys.)

Effects of storm of Sept. 8, 1900, on js., **01**, 1942. Depths over bar and below js. at different dates determined by Coast and Geodetic Sur., etc., **05**, 394.

Range of tide, 1.77', **06**, 425.

Description of, **07**, 446.

Minimum d. on bar, 17' at m. l. w., **08**, 469.

Erosion of R. at right bank with tendency to break through Jupiter Cut; action for prevention imperative, **09**, 1511.

Depth on bar beyond js. 18' at m. l. w., and outer end of js. to the wharf, 13', **11**, 593.

¹ H. D. 283 and 450, 56th, 2d.

² The unexpended balance of app., act of Aug. 5, 1886, amounting to \$16,651.57 (see Brazos River), reallocated Mar. 3, 1899, **00**, 2332.

³ This amount, with the \$163,750, under the head of Brazos R., Tex., app. for mouth of Brazos R. between 1880 and 1896, makes \$596,250 the total of app. as given in an. report for 1912.

⁴ H. D. 133, 56th, 2d.

PROJECTS.

By Col. Robert, 1899, for putting the existing js. in the mouth of the creek in a fair condition to protect a dr. while working in the chan.; also for beginning to construct spur dikes to narrow the chan. between the js., and for dr. a chan. to a d. of 18' m. l. t., and 150' w.; est., \$250,000, **99**, 1978; **00**, 2332.

Capt. Riché est., 1900, it would cost (1) \$1,265,000 to extend the js. $\frac{1}{2}$ m.; (2) \$200,000 to dr. and to build a system of spur dikes to contract the chan. to 440' between js., with \$30,000 annually for mainten.; (3) \$1,300,000 for a 20' chan., 150' w., by j. extension, spur dikes, and dr., with \$30,000 an. for mainten., or \$375,000 for dr. alone, with \$40,000 an. for mainten., **00**, 2428.

\$175,000 added to proj. est. (See Board of Engineers.)

By act June 13, 1902, for reinforcing shore end n. j. to render unlikely any flanking, and filling gaps in j., **03**, 359.

BERH. recom., 1909, existing proj. should be confined to maintaining js., **09**, 492.

SURVEYS.

Sur. and est. for imp. the mouth of Brazos R. near Velasco, Tex., with all information for continuing the work done by the Brazos River Channel & Dock Co., or otherwise, with probable cost, ordered, Jan. 28, 1899, by a resolution of the Senate of the United States; data from the report of the B.E., 1896, submitted, 1899, by Col. Robert (see Legal proceedings; Projects), **99**, 1977.

Ex. and sur. of mouth of Brazos R., Tex., with est. of cost of (1) extending the js. $\frac{1}{2}$ m.; (2) of the d. and w. of chan. to be obtained by such extension; (3) and cost of obtaining a 20' chan., 150' wide, ordered by act of Mar. 3, 1899; made, 1900, under direction of Capt. Riché (see Projects), **00**, 2426.

Descriptions of soundings, triangulations, levels, and cross sections, **00**, 2438.

Special est. of storm effect of 1900 on js. (See Boards of Engineers.)

Pre. ex. of the mouth to determine what further imp., if any, should be made thereon, ordered by act of Mar. 2, 1907; unfav. R. made by Capt. Oakes, 1908, **09**, 497.

An ex. of the js. was made to ascertain the amount of damage caused by the storm of July 21, 1909; the js. were not breached but suffered the loss of many cap blocks due to heavy seas and drift; est. to place js. in condition they were before storm, \$100,000, **10**, 1654.

A sur. of Big Bend of the Brazos R. was made, with an est. of imp. to prevent the threatened cut-off at Jupiters Cut, **10**, 1654.

R. by BERH. Feb. 4, 1910, req. by R. and H. Com. to determine if any further imp. is necessary. Board is of opinion none is required.³

Ex. with view to preventing a cut-off at Jupiters Cut, ordered by act June 25, 1910; made and R. dated Sept. 7, 1910, submitted by Maj. Howell (unfav.)³ **12**, 724.

Maps.¹ **08**, 1534; **09**, 1512.

Cong. docs., etc., relating to exs., sur., plans, etc. **02**, 340; **03**, 358; **05**, 394; **06**, 425; **07**, 447; **11**, 592.

Part (c), U-40 Brazos River, Tex. (Velasco to Old Washington.)

APPROPRIATIONS.

1905,	\$25,000, 05 , 1508.
1907,	75,000, 07 , 1485.
1909,	{*25,000, 09 , 1535.
	{15,000, 09 , 1535.
1910,	45,000, 10 , 1677.
1911,	25,000, 11 , 1826.
1912,	15,000, 12 , 2022.

Total, 225,000

COMMERCE.

No C. on this portion of the R., **05**, 394.

Leading articles are sugar, molasses, oil, wood, and provisions, **08**, 481.

Considerable increase in; R.R. rates Galveston to Brazoria 35¢ 100 lbs., water rates 20¢ 100 lbs., but agreement between Brazoria and R.R. prevents town from availing itself of lower rate, **10**, 1677.

No C. can develop until stream is canalized, **11**, 1826.

CONTRACTS.

1905. Sabine Tram Co., long leaf yellow pine lumber, 5' x 8' x 24', \$15 per M f. b. m., 3' x 12' x 16', \$15.50 per M f. b. m., **05**, 1508.

1908. Thos. Benson, lease of room, \$2.50 per month, **09**, 1535.

1909. T. L. Smith, lease of room, \$2.50 per month, **09**, 1535. M. A. Sweeney Shipyard & Foundry Co., furnishing and delivering complete snag boat, \$28,490, **10**, 1678.

ENGINEERS.

Chief of Engineers. R., **05**, 393; **06**, 422; **07**, 453; **08**, 481; **09**, 505; **10**, 568; **11**, 610; **12**, 715.

In charge:

Capt. Edgar Jadwin, 1905-06. R., **05**, 1507; **06**, 1344.

Capt. W. P. Wooten, 1907-08. R., **07**, 1485; **08**, 1554.

Capt. A. E. Waldron, 1909-10. R., **09**, 1534; **10**, 1677.

Capt. T. H. Jackson, 1911-. R., **11**, 1825.

Maj. E. I. Brown, 1912-. R., **12**, 2021.

Assistants.

Chas. Schuster. R., **05**, 1509; **06**, 1345.

Capt. G. M. Hoffman, **05**, 381.

OPERATIONS.

1904-05. Snag boat Capt. C. W. Howell fitted with dr. bucket; preliminary snagging of entire reach from Old Washington to Richmond; two-thirds of js. between Hemstead and Richmond constr.; orange-peel bucket trans. to hoister *Navasota*; l. of pile and brush dike completed, r. blasted, and clay blasted and removed, **05**, 1507-09.

1905-06. 11 pile and brush js. and 3,100' of r. js. constr.; 121,214 c. y. dr.; total cost of work from commencement given, **06**, 1344.

1906-07. 450 l. f. r. j. partly completed; 448 snags and other obstr. removed; new hull placed on snag boat *Navasota*, and plant repaired; 3 drifts removed from near the St. Louis, Brownsville & Mexico R.R., **07**, 1485.

1907-08. 1,500' of brush and pile j. completed, and 928' partly completed; 7,219 snags and other obstr. and 1 side jam removed; 80% of proj. completed, **08**, 1554.

1908-09. 6,886' brush and pile j. completed, 810' of which was new j. and 6,076' replacing portions of old js.; obstr. removed; repairs to snag boat commenced, **09**, 1534.

1909-10. Snagging operations continued over 32 m. of R. and 2,455 l. f. of shoals dr., **10**, 1677.

1910-11. Snag boat *Waco* completed, accepted and commenced snagging; operations detailed, **11**, 1825.

1911-12. Snags and obstr. removed from R.; 8,558 c. y. sand dr.; work on raising wrecked snag boat *Navasota* in progress, **12**, 2022.

* Allotment.

¹ H. D. 1087, 60th, 2d.

² R. and H. Com. 28, 61st, 2d.

³ H. D. 280, 62d, 2d.

⁴ Trans. from Galveston district on account of snag boat Capt. C. W. Howell.

PHYSICAL CHARACTERISTICS.

R. subject to big floods and caving banks, **05**, 1508.

Low water references from daily gauge readings by U. S. Geol. Sur. at Richmond, **06**, 1344.

List of shoals in Brazos R., **06**, 1345-1347.

This section of R. navigable for light draft boats for about 8 months in the year; a d. of 4' for 8 months in the year has been obtained, **07**, 453.

Tidal influence extends to m. 35; R. has small flow, not sufficient to give good navigable d., **11**, 1825, 1826.

U. S. snag boat *Navasota* sank; machinery being removed; new hull to be built, **12**, 2021.

PROJECTS.

Act Mar. 3, 1905, au. continuing imp. by open chan. work and dike constr., and increased area of proj. to cover R. between Velasco and Washington, **05**, 393.

SURVEYS.

Reconnaissance made, 1904, by Capt. Jadwin revealed existence of more shoals than given by sur. of 1901; number of shoals and l. of same given, **05**, 1509.

Of 16 js., for purpose of observing effect on chans., **09**, 1534.

Bet. mouth and Waco, **01**, 411, 1975, 2004, 2009. (See Brazos R., bet. mouth and Waco.)

Part (d), U-40 Brazos River, Tex. (Richmond to Old Washington).²

APPROPRIATIONS.

1902, \$150,000, **02**, 1385.

COMMERCE.

Letters regarding benefits of proposed imp. from interested parties, **01**, 1892.

CONTRACTS.

1904. The Charles Barnes Co., engines (\$3,350) and boilers (\$3,120) for snag boat, **04**, 2004.

ENGINEERS.

Chief of Engineers. **R.**, **01**, 411; **02**, 339; **03**, 357; **04**, 377.

In charge:

LEGAL PROCEEDINGS.

Land for 1 lock at Hidalgo Falls deeded to U. S. and jurisdiction ceded by State of Texas, **06**, 1343.

* Allotment.

¹ H. D. 283, 56th, 2d.

² After 1904 continued under Brazos R., Velasco to Old Washington.

³ H. D. 283 and 450, 56th, 2d.

OPERATIONS.

1905-06. Preparations in progress for commencing work at lock, Hidalgo Falls, **06**, 1343.

1906-07. Excavation made for land wall at Lock and Dam No. 1, Hidalgo Falls, and 90% of concrete placed; filling behind wall partly completed and upper guide crib completed except paving; constr. of locktender's dwelling at cost of \$3,038.37 completed, but building was completely destroyed by fire, **07**, 1483, 1484. Quantities and cost of material given, **07**, 1484.

1907-08. Concrete in land wall, Lock No. 1, Hidalgo Falls, filling behind wall, excavation for foundation of R. wall and floor, driving round and sheet piles for foundation of R. wall and floor, and placing concrete in lower portion of R. wall completed during year, **08**, 1552. Principal items of work given, **08**, 1553.

1908-09. Constr. of R. wall and floor of lock, filling in and paving behind land wall, constr. upper and lower cribs, placing bank protection above lock, and repairing plant completed during year, **09**, 1533. Work about 55% completed, **09**, 504. Principal items of work given, **09**, 1533.

1909-10. Abutment completed and foundation piles driven for dam at lock and dam, Hidalgo Falls; work suspended Apr. 1, 1910, pending arrival of iron and steel; principal items of work given, **10**, 1675. Work about 60% completed, **10**, 568.

1910-11. Iron and steel for lock and dam at Hidalgo Falls delivered; constr. work suspended Nov. 15, 1910; condition of work stated; work commenced on plans for Lock and Dam No. 8, **11**, 1823.

1911-12. Work continued on weir and drift chute, locktender's dwelling constr., and sur. made of lock site at Lock and Dam No. 1; work about 90% completed, **12**, 2022. Work on constr. of locktender's dwelling, ry. spur 2.8 m. l. assembling of plant, purchasing of material, cofferdam constr. and driving of foundation piles begun; about 25% completed, **12**, 2022.

PHYSICAL CHARACTERISTICS.

From Hidalgo Falls to Waco the profile of R. is an alternating series of steep and gentle slopes, rendering it susceptible of effective imp. by a combination of locks and dams with open chan. work bet., **07**, 452.

Damage by flood of May, 1908, described, **08**, 1553.

Gauge readings of 5' or more, number of periods and duration at Waco, July 1, 1905, to June 30, 1911, **11**, 1824.

PROJECTS.

Provided for conditionally by act of Mar. 3, 1905, to determine whether navigation can be secured at reasonable cost by any method other than by locks and dams, and if not the least number of locks and dams that will furnish such navigation, and to secure navigation by open chan. work or by not to exceed 9 locks and dams, **05**, 392.

Expend. of funds app. in 1905 (\$75,000) au. for constr. of land wall of 1 lock at Hidalgo Falls, **06**, 421.

Act June 25, 1910, au. constr. of Lock and Dam No. 8, about 7 m. below Waco, **10**, 567.

Reference to proj. au. by Congress, proposed work during ensuing year, and sites most fav. for future work, **11**, 1824.

Act July 25, 1912, app. \$200,000 for Lock and Dam No. 8 and 2 addl. locks, **12**, 717.

SURVEYS.

Ex. with view to determining whether 4 to 6 months navigation could be secured at reasonable cost by any method other than by locks and dams; **R.** July 11, 1905, by Capt. Jadwin; plan presented; est., \$2,915,000, with \$100,000 an. mainten. (not considered advisable to undertake imp. at "present" time), **06**, 429.

Sur. made to show exact extent of damage by excessive flood of May, 1908, **08**, 1553.

Pre. ex. and sur. au. act Mar. 3, 1909, with view to selection of sites for addl. locks and dams bet. Old Washington and Waco, made and approx. locations of 7 addl. locks and dams selected, as shown in profile on sheet printed in H. D.; **R.s.** by Capt. Waldron, June 5, 1909, and Dec. 3, 1910, **12**, 723, 724. Maps.¹

U-45

SAN BERNARD RIVER, TEX.

COMMERCE.

Farm products the principal articles of C., **00**, 2445.

ENGINEERS.

Chief of Engineers. **R.**, **00**, 396.

² H. D. 187, 58th, 2d.

1908-09. 145,983 c. y. dr. under contract and 53,065 c. y. by U. S. dr. and snag boat *Guadalupe*; 5,388 snags removed, **09**, 1509.

1909-10. 43,142 c. y. dr. under contract, completing chan. into mouth of R.; 9,300 c. y. dr. and 1,500 snags and 2,300 trees removed by U. S. dr. and snag boat *Guadalupe*; 19,000 snags and trees removed by U. S. derrick barges Nos. 1 and 2; 4,150 c. y. dr. by derrick barge No. 1; beacons erected to mark chan., **10**, 1651.

1910-11. 12,946 snags and overhanging trees removed, and 50,575 c. y. dr. by U. S. derrick barges Nos. 1 and 2, **11**, 1797.

1911-12. 29,449 snags and overhanging trees removed by U. S. snag boat *Guadalupe* and derrick barges Nos. 1 and 2; 112,883 c. y. dr. by U. S. dr. *Capt. C. W. Howell*, **12**, 2017-18.

PHYSICAL CHARACTERISTICS.

Description of, **75**, 925-928; **89**, 1579.

Elevations, **75**, 925.

Obstr., **75**, 926.

Description of, mouth to Cuero: About 62 m. l., with a fall of 8' bet. Cuero and Victoria; contains about 10 shoals with many overhanging trees and other obstr.; soft bar at mouth; crossed by 5 brs., **95**, 1826.

Bay section: Chan. connects mouth of Guadalupe R. with chan. from Aransas Pass to Pass Cavallo, **08**, 467.

Work accomplished has been very beneficial, **12**, 711.

R. enters San Antonio B. 16 m. from the inland waterway on the coast of Texas. Its w. varies from 90' at m., increasing to 140' 52 m. above mouth; d. varies from less than 3' over shoals to 20' at bends.

R. formerly navigable to Victoria (52 m.), but owing to rafts navigation in recent years abandoned, **12**, 711.

PLANS.

By Capt. Howell, 1875, removal of 3 rafts; est., \$7,194, **75**, 927, 928, 929.

PROJECTS.

Bay section: Navigable waterway 5' x 40'; est., \$30,000. River section to Victoria, Tex.: Removal of snags, rafts, etc., and dr. of shoals to 5'; est., \$62,700 (Mar. 2, 1907, for inland waterway (q. v.) coast of Texas; total app., \$133,829), **07**, 443.

SURVEYS.

Ex. by L. M. Lynch of R. below Gonzales, **75**, 79, 924.

Ex. au. act Aug. 11, 1888; made, 1889, by Maj. Ernst (R. unfav.), **89**, 1577.

Ex. mouth to Cuero, Tex., au. act Aug. 17, 1894; made, 1894, by Maj. Miller (R. unfav.), **95**, 1826.

Pre. ex., San Antonio B. to and above Victoria, au. act June 13, 1902. **R.**, Capt. Riché, May 28, 1903 (unfav.), **104**, 381, 2012.

Sur. and est. of cost of waterway, Aransas Pass to and up Guadalupe R. to Victoria, and from Victoria to Cuero, au. act Mar. 3, 1905. **R.**, Maj. Jadwin, June 14, 1906. Several plans presented, but only 1, that for imp. from Aransas Pass to Matagorda B. (est., \$73,800, with \$10,000 an. mainten.), recom., **06**, 430; **07**, 451.

Pre. ex. and sur. au. Feb. 27, 1911, for Guadalupe R., Tex., to Victoria, for imp. by locks and dams (R. to come), **12**, 724.

Maps.²

U-64

SAN ANTONIO RIVER, TEX.

APPROPRIATION.

\$1,500, Aug. 30, 1852 (sur.).

SURVEY.

R. Aug. 31, 1853; est. \$19,300. (H. D. 482, 55th, 2d.)

U-67

ARANSAS PASS, TEX.

NOTE.—Aransas Pass leads from Gulf of Mexico to B. behind the front coast into which Nueces R. flows. Corpus Christi is near the mouth of the latter stream and is on the back B. To the n. is a more or less open back coast chan., leading in the direction of Pass Cavallo. To the s. this chan. leads into Laguna Madre.

Part.	Title.	Period.	Appropriations.
a	Aransas B., H., and Pass.....	1870-1912	\$2,278,750
b	Aransas B.—Deep-water H. at Harbor Isld.....	1910-1912	375,000
	Total.....		2,653,750

Part (a), U-67 Aransas Bay, Harbor, and Pass, Tex.³

APPROPRIATIONS.

³ H. D. 336, 59th, 2d. ⁴ For Board to ascertain character and value of imp. of Aransas Pass Harbor Co.

COMMERCE.

Important, **71**, 531; **79**, 933, 936.
Trade of Corpus Christi, **89**, 1567.
Description of, **98**, 1531, 1549.
See Projects.
No permanent imp. in rates, **10**, 556.
Traffic, 1911, 8,880 t. State of Texas expected to effect rate reduction, **12**, 720.

CONTRACTS.

1881. F. Brunner, brush, \$3.35 cord; **82**, 1469; C. M. Holdin, st., **82**, 1469.
1882. A. M. Shannon & Co., brush, \$2.60; st., \$5.60 c. y., **83**, 1092.
1884. A. M. Shannon & Co., brush, \$2.60; st., \$4.40 c. y., **85**, 1466.
1887. A. M. Shannon & Co., riprap, \$2.95 c. y., **88**, 1308.
1888. Charles Clarke & Co., riprap, \$2.99 c. y., **89**, 1565.
1899. C. Clarke & Co., dr., 45¢ and 80¢ c. y. (\$33,750), **00**, 2337.
1900. Charles Clarke & Co., dr., 45¢ and 80¢ c. y.; contract terminated by suppl. articles of agreement, **01**, 1953. Charles Clarke & Co., repairing n. or curved j., about 24,500 t. st., \$3.25 t.; Judge Adv. Gen. decided contract illegal; it was not approved, **01**, 1953.
1901. Charles Clarke & Co., repairing j.: Riprap in place, \$3.30 t.; large blocks in place, \$3.95 t., **02**, 1387.
1903. H. C. Ripley, j. constr.: Small riprap, \$3.75 t.; large riprap, \$4.25 and \$4.60 t.; large blocks, \$5.10 t., **03**, 1346. Moore & Sieber, removing part of old U. S. j., \$46,000, **03**, 1346.
1905. Charles Clarke & Co., j. work: Small riprap, \$3.46; large riprap, \$3.89; large blocks, \$4.48 t., **06**, 1349.
1908. David M. Picton, j. constr.: 80,000 t. riprap, at \$3.50 t.; 23,000 t. crest st., at \$4.37 t.; 10,000 l. f. trestle and track, at \$6.35 l. f.; 12,000 l. f. trans. wharves, at \$2.10 l. f., **08**, 1536.
1909. David M. Picton & Co., j. constr.: 82,500 t. riprap, at \$3.08 t.; 18,500 t. crest st., at \$4.09 t.; 2,700 l. f. trestle, at \$7.50 l. f.; repairs to n. j., 15,000 t. riprap, at \$2.81 t.; 1,000 t. cap blocks, at \$3.93 t.; s. j. across isld., 5,700 t. riprap, at \$2.70 t.; 1,700 l. f. trestle, at \$4.30 l. f., **09**, 1514.
1910. David M. Picton & Co., st. work on n. and s. js., quantities and unit prices given, **11**, 1803.

ENGINEERS.

Chief of Engineers. **R.**, **70**, 31, 62; **71**, 66; **78**, 85; **79**, 111, 112; **80**, 149; **81**, 202; **82**, 199; **83**, 204; **84**, 219; **85**, 223; **86**, 226; **87**, 191; **88**, 175; **89**, 205; **90**, 185; **91**, 235; **92**, 289; **93**, 344, 345; **00**, 392; **01**, 409; **02**, 341; **03**, 359; **04**, 379; **05**, 395; **06**, 425; **07**, 447; **08**, 470; **09**, 493; **10**, 555; **11**, 594; **12**, 718.

Boards:

Ordered to convene, New York, July 1, 1879, **79**, 928; by S. O. No. 63, O. C. of E., 1879 (see Projects), **80**, 1254.

Convened, New York, July 19, 1879, to report upon imp. of Aransas Pass. **R.**, **88**, 1318. (Cols. Casey, Abbot, and Craighill; Lt. Cols. Houston and McFarland, and Maj. King.)

Convened, S. O. 145, dated A. G. O., June 23, 1897, at city of Aransas Pass, Tex., on July 20, 1897, and at Tarpon and Corpus Christi, Tex., on other dates, to ascertain the character and value of imp. made at the pass by the Aransas Pass Harbor Co. **R.**, **98**, 1527. (Col. H. M. Robert, Maj. Wm. T. Russell, Capt. John Biddle.)

Constituted by S. O. No. 145, dated June 23, 1897, convened, New York City, Oct. 7, 1898, by S. O. No. 24, dated Oct. 1, 1898 (see Surveys). **R.**, **99**, 1974. (Col. H. M. Robert and Maj. W. T. Russell.)

In charge:

Maj. C. W. Howell, 1871-79. **R.**, **71**, 526; **79**, 928.
Maj. S. M. Mansfield, 1880-86. **R.**, **80**, 1245; **81**, 1358; **82**, 1469; **83**, 1091; **84**, 1312; **85**, 1464; **86**, 1330.
Maj. O. H. Ernst, 1886-90. **R.**, **87**, 1431; **88**, 1307, 1312; **89**, 1564.
Maj. C. J. Allen, 1890-91. **R.**, **90**, 1810; **91**, 1942.
Maj. J. B. Quinn, 1898. **R.**, **98**, 1527.

Capt. C. S. Riché, 1899-1903. **R.**, **99**, 1972, 1973; **00**, 2336; **01**, 1952; **02**, 1386; **03**, 1345.

Capt. Edgar Jadwin, 1904-06. **R.**, **04**, 2007, **05**, 1510; **06**, 1348.

Capt. John C. Oakes, 1907-09. **R.**, **07**, 1475; **08**, 1535; **09**, 1512.

Maj. G. P. Howell, 1910-11. **R.**, **10**, 1655; **11**, 1801.

Maj. E. I. Brown, 1912-. **R.**, **12**, 2027.

Assistants:

Lt. E. A. Woodruff; **71**, 66. **R.**, **71**, 526.

H. C. Collins, **R.**, **79**, 934.

H. S. Douglas and W. H. Hoffman; **79**, 934.

T. S. Sedgwick. **R.**, **80**, 1247.

W. L. Webb. **R.**, **82**, 1472.

J. E. Savage. **R.**, **88**, 1308.

G. Bagnall. **R.**, **89**, 1566.

R. B. Talfor. **R.**, **00**, 2337; **01**, 1954.

F. Oppkofer. **R.**, **02**, 1388; **04**, 2009.

S. M. Wilcox. **R.**, **05**, 1512.

ESTIMATES. (See also Plans and Projects.)

By Lt. Woodruff, for cost of 1st plan, \$31,794.48; 2d, \$49,500; 3d, \$688,355.25; 4th, \$99,000; 5th, \$31,293.90; 71, 529, 530.

By Maj. Howell, for cost of 1st plan, \$60,405; 2d, \$126,440; 3d, \$11,748; 4th, \$2,000; 5th, \$30,555.50; 6th, \$31,123.40; 7th, \$167,222.10; 8th, \$198,888.75; **79**, 932, 933.

LEGAL PROCEEDINGS.

About 168 acres on Mustang Isld. and about 100 acres on St. Josephs Isld. deeded to the U. S. for military reservation under an. Congress, **08**, 1535.

LEGISLATION.

Charter of the Aransas Pass Harbor Co., **98**, 1553. Acts of Congress under which the company operated, **98**, 1554, 1556.

Aransas Pass Harbor Co., 1899, released and surrendered all rights and privileges granted to it in Aransas H. by Congress; also the js. in said H., **99**, 1972.

OPERATIONS.

1879-80. Preliminary work in progress, **80**, 1246.

1880-81. Work done with hired labor and open-market purchases; constructing groin js. for protecting Mustang Isld. and the s. chan. j., **81**, 202, 1361.

1881-82. Constr. js. with hired labor, **82**, 1469; successful work done, **82**, 199, 1470, 1474.

1882-83. Extending s. j., 1,200 l. f., with 15,476 c. y. brush and 3,474 t. of st., **83**, 1092.

1883-84. Extending j. to 3,900'; 10,686 c. y. brush and 2,940 c. y. st. used; chan. 10½ d. m. l. w. over bar, **84**, 219, 1314.

1884-85. Extending j. seaward, and raising height with 23,017 c. y. of brush mattress and 4,626 t. of st.; building superstr. with hired labor, over work previously completed; chan. 11' m. l. w. obtained over bar, **85**, 1466.

1885-86. With hired labor, repairs made to outer end of s. j., and trees planted on St. Josephs Isld., **86**, 1332.

1886-87. Protective work in progress, **87**, 1432.

1887-88. Protective work continued; 27,825 c. y. riprap laid protecting 1,895 l. f. of bank; 414,982 s. f. of slope covered; 480 l. f. of spur dike built, **88**, 1311.

1888-89. 15,988 c. y. riprap placed in protective work, covering 278,531 s. f. of slope; 205 l. f. of spur built, **89**, 1565.

1889-90. Repairs torevet. at head of Mustang Isld., **90**, 1811.

1901-02. 11,534.76 t. riprap and 10,737.11 t. blocks placed, completing 1,300' of j., **02**, 1387.

1903-04. 20,843.71 t. small riprap, 14,460.52 t. large riprap, and 809.31 t. large blocks placed in j.; part of old U. S. j. removed, **04**, 2009.

1904-05. 10,751.33 t. st. placed in j., **05**, 1511, 1513.

1905-06. 50,332.26 t. st. placed in n. j., **06**, 1348.

1906-07. Rock lump removed from chan., **07**, 1475.

1907-08. Trans. wharf and 3,181' trestle and track built, 08, 1535.

1908-09. Trestle and track extended 253', 55,080.16 t. riprap and 5,303.35 t. crest st. placed in n. j.; 514' trans. wharf and 3,862' trestle built, and 45,155.35 t. riprap and 4,707 t. crest st. placed in s. j., 09, 1513.

1909-10. 31,289 t. riprap placed in repairs to n. j.; trestle and track on s. j. extended 2,638', and 88,164 t. riprap and 8,969 t. crest st. placed in j.; 1,414' trestle and track built and 6,410 t. riprap placed in constr. of 1,000' spur to s. j., 10, 1655.

1910-11. 20,684.70 t. riprap placed in n. j. for 1,375', j. rebuilt to 5' above m. l. w. and crest blocks replaced; 15,997.40 t. riprap placed in s. j. for 765', j. built to 5' above m. l. w. and 2,870.85 t. crest st. placed, 11, 1801. U. S. snag boat *Guadalupe* removed 650' of outer end of Nelson Jetty, 11, 1802.

1911-12. U. S. dr. *Gen. C. B. Comstock* removed 381,302 c. y. from chan., at operating cost of 8.352¢ c. y. and total cost of 13.974¢ c. y.; U. S. snag boat *Guadalupe* dynamited 1,070 l. f. of outer end of Mansfield Jetty, sinking the rock to from 25' to 30' below water surface, and afterwards drove piling for mooring posts, 12, 2027.

PHYSICAL CHARACTERISTICS.

General, 71, 527 et seq.; 79, 929, 934 et seq.; 80, 1254; 81, 1360; 98, 1529.

Rate of movement of bar, 87, 1431.

Tidal basin and volume of tidal prism at Aransas Pass; d., surface, w., and areas of cross sections, 88, 1316.

Description of, Aransas B., 91, 1422.

Table showing variations of d., w., and cross sections of the pass, 98, 1530.

Table indicating that since the building of the j. the position of the chan. apparently more constant and the w. across bar lessened, 98, 1540.

Old U. S. js. found, 1901, not to be obstr. to scour. See acts of Congress, etc., 01, 1952.

Current measurements, 04, 2007.

Details of, 10, 555; 11, 594, 1801, 1802; 12, 718, 719, 2027.

Last sur. showed chan. 20' x 340' w. end of js. to near Station C, thence chan. 20' and 250' to 300' w. of Station C, and 20' x 250' w. for remainder of imp., 12, 720.

PLANS. (See Estimates, Private work, and Projects.)

By Lt. Woodruff: (1) For groins of pile work, normal to shore line; (2) for a system of riprap js.; (3) for canal from mouth of Turtle Cove to Corpus Christi B. 4 m. l., 10' x 150'; (4) for system of ripraping, building triangular prisms of palm, palmetto, or mangrove root Turtle Cove to Gulf coast line; (5) forrevet, or j. on n. side of entrance to the canal 10' x 1,400'; 71, 529, 530.

By Maj. Howell: (1) For deepening chan. across outer bar of Aransas Pass; (2) protection of head of Mustang Island; (3) closing Corpus Christi Pass by a dam; (4) prevention of drifting of sand off from the lower portions of the pass; (5) dr. chan. in Aransas Pass to 10' x 100'; (7) and (8) d. other chans. than the one already in use; 79, 930, 931.

PRIVATE (PRIVATE AND CORPORATE) WORK.

Work by private enterprise, 1869, for imp. of chan., by extension of js. to cut off secondary chan., and to aid in d. main chan., 71, 528; 79, 930, 937.

Chan. bet. Corpus Christi and Aransas Pass d., 79, 930.

\$10,000 subscribed by local interests in 1883 to carry on the work, 84, 1313; 87, 1432.

Projs. of the Aransas Pass Harbor Co. to secure 20', bet. Board of 1897 found about 9' only, 98, 1537, 1540, 1544.

Projs. for imp., and work done at the pass by other than the Aransas Pass Harbor Co., 98, 1534. History of the latter company, 98, 1535. Its plan of imp., 98, 1536. Work done by it, which consisted of the constr. of 2 js. (see engineers' plan, 98, 1559), and certain auxiliary work in the chan., 98,

1537; contracts, 98, 1561-67. Condition of works when examined by Board of 1897, 98, 1539; effects of, 98, 1540; cost of, 98, 1541.

PROJECTS. (See Estimates, Plans, and Private work.)

By Maj. Howell: (1) Deepening chan. over the bar at entrance to Aransas Pass with fascines to contract the current and increase its scouring effect; est. cost, \$60,405; (2) protecting end of Mustang Isl. from erosion with matting of fascines ballasted with st.; est., \$126,440, 79, 930, 931, 932.

By BE., 1879, forming and maintaining 12' chan. m. l. w. over bar by extending the n. j. from the end of St. Josephs Isl., and the s. j. from end of Mustang Isl., and the constr. of groins in conjunction with beach protection for the head of Mustang Isl. to and beyond Turtle Cove; est., js., groins, etc., \$759,185; imp. of the interior chan. from pass up to Rockport and Corpus Christi to be by dr.; est. (by Maj. Howell), \$441,537.75, 80, 1245, 1254; 81, 1363; 85, 1465; 86, 1330 (by Cols. Tower and Newton and Lt. Col. Gillmore); 80, 1271. In 1887, the work designed and partly executed having partly failed to obtain the desired result at the pass, Maj. Ernst proposed to abandon as much of the s. j. as curved n., and by an easy change in direction to the s. to lead the j. by the shortest line to d. w. the n. j. to be placed parallel to the outer end of the s. j. To protect Mustang Isl. it was proposed to riprap its slope from h. w. mark to bottom of the chan. The works proposed were expected to secure a chan. at least 20' d. Est. of revised proj., \$2,052,543.72, 87, 1432.

Congress having, in 1890, granted to the Aransas Pass Harbor Co. right to imp. navigation of the pass, further operations on the part of the U. S. suspended, 90, 1811.

1898, the Board of 1897 of opinion that the works of the Aransas Pass Harbor Co. for the imp. of the pass were of no value to U. S., 98, 1544; and showed that if the U. S. should take up and complete the works for the imp. of the pass the securities of the company would be practically as valuable as if the imp. had been effected by the company, 98, 1545.

Under provision act Mar. 3, 1899, Aransas Pass Harbor Co., Mar. 27, 1899, gave up all rights, incl. j. built at pass entrance, 01, 409.

By BE., 1897, to constr. 2 parallel js., also to remove a part of the old U. S. j. and to dr. to obtain a 20' chan. 150' w. at bottom; est., \$1,525,000, 99, 1975.

By Capt. Riché, 1900, to expend \$40,772.35, remainder of app. of 1888, to complete part of n. j., 00, 2336.

By Capt. Riché, repairing n. or curved j. from inner end of existing j. as far out as available funds, about \$75,000, would permit, 01, 1952.

Act June 13, 1902, app. \$250,000 for completion of n. j. according to plans of Aransas Pass Harbor Co., strengthening j. and removing when necessary old j. or other obstr. to scour, 02, 341. On completion of this work the chan. grew steadily worse. Finally the chan. was on n. side of j. instead of s., reverse design of Aransas Pass Harbor Co., 12, 719.

Modified, 1907, in accordance with plans of BE. to provide for s. j. parallel to the general direction of existing j., and extension shoreward of Haupt Jetty, and later the extension of both js.; est., incl. \$100,000 for dr., \$1,288,699.50, 07, 448.

Changed in accordance with plans of Maj. Howell to incl. repairs to n. j., dr. to 20', and removing obstr. from chan. at est. of \$277,500, and omitting 1,750' extension of js.; total est., revised proj., \$1,157,500, 10, 556, 558.

Approv. proj. 99% done, 12, 720.

1878-79. Wreck of bark *Rène des Mers* removed from H., 79, 920.

1881-82. Constr. of s. j. commenced and 495 l. f. partly completed, 82, 1476.

1882-83. Work in progress over 2,300 l. f. of s. j. Delay from yellow fever. 83, 1095.

1883-84. Work in progress on s. j., 84, 1317.

1884-85. Work in progress on s. j.; total l. of 3,500', 85, 1468; 86, 1334.

1886-87. Sur. of H. in progress, 87, 1433.

1904-05. 257,171 c. y. removed, producing chan. 70' x 10' inside the bar across Laguna Madre to the R.R. wharf at Isabel, Tex., 1,200', and a turning basin 10' x 300' x 400'; work completed, 05, 397, 1513.

PHYSICAL CHARACTERISTICS.

General, 71, 544, 545.
 Description of pass, 81, 1368; 82, 1489.
 Gradual filling of H., 81, 1369.
 Small rise of tides, 82, 1490.

Dimensions of H. as shown by sur. from 1867 to 1887; stability of sand bottom, 88, 1326.

Brazos Santiago, the pass or chan. of communication bet. the Gulf of Mexico and Laguna Madre; affords the only navigable approach to Pt. Isabel,

the port of the frontier town of Brownsville, on the Rio Grande, 00, 2469.

Navigable d., 7' 6" m. l. w. over bar, 01, 1958.
 Shoaling to less than 6' m. l. w., 07, 449.

PLANS. (See Projects.)

By Lt. Adams, a j., foundation to be constr. by covering bottom with a layer of gunny sacks filled with hydraulic concrete, above the foundation the j. to be built of blocks of hydraulic concrete, the j. to concentrate the whole action of outward current upon one part of the bar. Est., \$775,000. 71, 67, 545, 546.

PROJECT. (See Plan.)

By Maj. Howell, removal of wreck, 79, 919.

By Maj. Mansfield, 1881, d. chan. across the bar and the mainten. of suitable H. inside the pass, with 2 parallel js. at mouth of R. extended to the 12' curve, and a dam from Pt. Isabel to Brazos Santiago closing the lagoon, the s. j. to be 3,630' and the n. j. 2,940' l. Est., \$678,084.50. 81, 1367, 1372; 82, 1478, 1481, 1489, 1490; 86, 1334.

Approved by B.E., 1881, so far as the application of available funds to constr. of s. j. would permit, 82, 1490; 86, 1335; 87, 1433.

In 1888, the works theretofore constr. having practically disappeared, Maj. Ernst est. cost of reconstr. of both js. at \$1,130,000, 88, 1321.

Total of expend. under app. at the date of rendering the above est. \$188,590, making the revised est. from the annulment of the work \$1,318,590, 91, 1931; 92, 1554.

Proj., 1900, to hire a dr. plant to dr. chan. over bar to give temporary relief to the locality, 00, 2340.

By Capt. C. S. Riché, 1900, to use the balance, \$57,476, remaining in Treas., to dr. chan. over the bar, which had shoaled; bids for hire of plant rejected as excessive, but new sur. showed renewal of d. of 8', all that was necessary, 01, 410, 1958.

SURVEYS.

By Lt. Adams. **R.**, 71, 544.

From Brazos Santiago to Pt. Isabel, au. act Mar. 3, 1881; made by Maj. Mansfield, 1882, 82, 1477.

ENGINEERS.

Chief of Engineers. R., 77, 75; 78, 85; 80, 149; 81, 203; 82, 201; 83, 205; 84, 220; 85, 230; 86, 227; 87, 192.

In charge:

Lt. Haupt, 1869; 77, 474.
 Capt. J. F. Gregory, 1876-78; 77, 75. R., 77, 473; 78, 619.

Capt. W. R. Livermore, 1880; 80, 149.
 Maj. C. W. Howell, 1880; 80, 146.
 Maj. S. M. Mansfield, 1880-86. R., 80, 1273; 81, 1374; 82, 1491; 83, 1097; 84, 1320; 85, 1470; 86, 1336.

Maj. O. H. Ernst, 1886-87. R., 87, 1434.

Assistants:

S. W. Brooks. 78, 620.
 H. C. Ripley. R., 81, 1375.

OPERATIONS.

Previous to 1876 a costly work of sheet piling and timber was built by the Quartermaster's Dept., scarcely a trace remaining, 77, 474.

1876-77. Pile j. 200' l. constr., the tops of the piles about 5' below the level of flood water; j. ballasted with mattresses of brush covered with bricks, 77, 475; 78, 621.

1877-78. Pile j. extended 130', of which 40' was sheet piling, 78, 620.

1879-80. Completion of bank protection by use of brush mats, 80, 150, 1274.

1880-81. Repairs, 81, 1374.

PHYSICAL CHARACTERISTICS.

Erosive character of the floods of the Rio Grande, 77, 473, 474; 78, 85.

Dangers arising from floods, 77, 474; 78, 621.

PRIVATE AND CORPORATE WORK.

1871. Pile j. constr. by private parties, 77, 474.

1878. J. of live-willow piles constr. by the Levee Co., of Brownsville; expense about \$3,000, 78, 621.

PROJECTS.

By Capt. Gregory, pile j. 150' l. at an angle of 9° with the shore, to deflect the current from the bank; also for a wing at the lower end to prevent erosion behind the work, 77, 475. For expend. of the balance of the app. of 1876 in repairs, extension, etc.; approv., 78, 620. For the extension of the j. 400' for the further protection of the R. banks, est., \$14,400, 78, 621; 82, 201.

After an expend. of \$16,769 it was decided in 1882 to abandon further efforts to control the action of the R., 82, 201; 86, 227; 87, 1434.

SURVEYS.

By Lt. Haupt, 1869, 77, 474.

By Capt. Gregory, 77, 474. Comparison of the sur. of 1869 and 1876, 77, 474.

Part (b), U-74 Rio Grande River, N. Mex.**ENGINEERS.**

Chief of Engineers. R., 89, 1571.

In charge. Maj. O. H. Ernst, 1888. R., 89, 1571.

Assistant. G. Bagnall. R., 89, 1572.

PHYSICAL CHARACTERISTICS.

Description of, 89, 1571.

SURVEYS.

Ex., Embudo to El Paso, an. act Aug. 11, 1888; made, 1889, by Maj. Ernst (R. unfav., expense too great), 89, 1571.

RIVER AND HARBOR WORKS.

MISSISSIPPI RIVER SYSTEM.

United States waterways tributary to the Gulf of Mexico include, of course, the Mississippi itself, with its tributaries. This system is so extensive, however, that it is arranged under the title of this section, namely, "Mississippi River System."

Matter concerning the Mississippi itself, irrespective of its tributaries, is collected at one place, under the special designation of "HH—Mississippi River." See page 1067.

The first group of tributaries, at the mouth, are so immediately connected with contiguous waterways flowing into the Gulf of Mexico that they are embraced under the designation "S—New Orleans, La., District." See page 679.

The district of the Mississippi system immediately above District S is District V, and the districts which follow are lettered from W to Z, and from AA to KK, respectively.

The groups are arranged in sections as follows:

Lower Mississippi River System (S (see paragraph 3 above), V, W, X, Y, Z).

Ohio River System (AA, BB, CC, DD, EE, FF).

Missouri River System (GG).

Mississippi River (HH).

Upper Mississippi River System (II, JJ, KK).

MAPS. See page 1097.

**RIVER AND HARBOR WORKS—LOWER MISSISSIPPI RIVER
SYSTEM.**

V.—NEW ORLEANS, LA., DISTRICT.

(4th M. R. C.)

In charge of Mississippi River Commission,
New Orleans, La.

This district includes the shores or banks of the Mississippi River from the head of the Passes (13 miles from the Gulf), to Warrenton, Miss., $7\frac{1}{2}$ miles below Vicksburg, Miss., a total length of 452.8 miles by river.

See page 1067 for data.

**RIVER AND HARBOR WORKS—LOWER MISSISSIPPI RIVER
SYSTEM.**

W.—VICKSBURG, MISS., DISTRICT.

(3d M. R. C.)

In charge of Mississippi River Commission,
Vicksburg, Miss.

This district includes the banks of the Mississippi River from Warrenton, Miss., to
White River, Ark. (214 miles).

See page 1067 for data.

**RIVER AND HARBOR WORKS—LOWER MISSISSIPPI RIVER
SYSTEM.**

X.—VICKSBURG, MISS., DISTRICT.

War Department

Corps of Engineers, U.S.Army.

X.—VICKSBURG, MISS., DISTRICT.

In charge of U. S. Engineer Office,
Vicksburg, Miss.

NOTE.—This district includes tributaries of the Mississippi River, on the east side, from below Vicksburg, Miss., to vicinity of Memphis, Tenn., and on west side, from the 31st parallel to below Arkansas River, Ark.

 W. Porterfield. **R.**, **85**, 1525.

LEGISLATION.

Act of legislature of Miss. to remove br. obstr. navigation, **88**, 1357.

OBSTRUCTIONS.

Br. without draws obstr. navigation, **82**, 1566; **85**, 241, 1524; **86**, 236.

No further work to be done till the State should remove obstr. br., **87**, 1466.

Permanent iron swing br., erected 1892-93 in place of fixed wooden br. at Baldwins Ferry, as approved by Sec. of War, **93**, 2023.

OPERATIONS.

1884-85. Obstr. removed from mouth to 75 m. above, **85**, 1524, 1527.

1890-91. 101 snags and logs, jams, and 2 drifts cleared from the chan.; 1 brush wing dam built, and 13,403 leaning trees cleared from banks, **91**, 1994.

1894-95. Old wreck removed, some st. blasted from chan., 1,059 s. y. brush and willows cut, and nearly 100,000 obstr. destroyed, **95**, 1929.

PHYSICAL CHARACTERISTICS.

Description of, **82**, 1567; **95**, 1927; **04**, 2072.
 Height of freshets increased by drift jams cast into R. by private parties, **04**, 2073.

PROJECTS.

By Maj. Benyaud, 1881, removing logs, snags, and similar obstr. from R. bet. mouth and Cox's Ferry, 130 m.; est., \$32,000, **82**, 1566, 1570; **87**, 1466. After partial completion of the proj. under the app. of 1884, the app. of 1886 made conditional upon the removal of certain br. over the R. In 1888, in view of the fact that the mainten. of the br. regarded as of greater practical benefit and importance than imp. of R., Capt. Willard recom. that no further app. be made, **88**, 1356.

Works not permanent, **95**, 1929.

SURVEYS.

Ex. au. act June 14, 1880; made by Maj. Benyaud, 1881, **82**, 1565.

Ex. by Capt. Willard made, 1894, **95**, 1927.

Pre. ex. mouth to Illinois Central R.R. br. au. act June 13, 1902; made, 1902, by Capt. Potter (**R.**, unfav.), **04**, 2072.

Pre. ex. and sur., mouth to town of West, au. by Congress, **12**, 781.

List of Cong. docs., etc., relative to exs., sur., plans, etc., **04**, 2073.

ESTIMATES.

By Capt. Benyard, 1874, imp. of R. (covering a period of 4 years) by constr. of snag boats and removal of snags, \$120,000, 74, 365; 75, 522; 76, 596; 77, 480.

By J. Burney, 1874, constr. and operation of boats, 74, 365; 76, 596.

OBSTRUCTIONS.¹ (See Operations.)**OPERATIONS.¹**

1873-74. 9 wrecks removed by contract, 74, 62.
1875-76. Removal of obstr. by U. S. snag boat belonging to Ouachita R., 76, 78, 594.

1877-78. Removal of obstr. by U. S. snag boat belonging to Ouachita R., 78, 86, 626.

1878-79. Constr. of snag boat in progress to be used on several Rs. jointly, 79, 967.

1879-80. Wrecks of 2 SS. removed, also, logs, snags, and similar obstr., 80, 1310.

1880-81. 250 snags and 2,194 trees removed and cut, 81, 1407.

1881-82. 607 snags and wreck of SS. removed and 172 trees cut down, 82, 1547.

1882-83. 545 snags removed and destroyed and 485 trees cut down, 83, 1144.

1884-85. 894 snags and stumps and 1 SS. wreck removed from chan.; also 1,773 trees cut and 6 jams removed, 85, 1507.

1886-87. Summary of operations, 87, 1467.

1887-88. 415 snags and stumps removed from the chan.; 203 trees and shore snags removed from the banks, and 150 l. f. of wing dam built, 88, 1359.

1888-89. Extensive repairs to snag boat *Meigs*; 494 snags removed from the chan., and 1,675 trees and shore snags removed from the banks, 89, 1610.

1889-90. 730 logs and snags and 6 wrecks removed from the chan., and 94 shore snags and trees cleared from banks, 90, 1893.

1890-91. 403 snags and 10 log jams removed from the chan., and 633 leaning trees cleared from the banks, 91, 1997.

1891-92. 750 snags, 55 shore snags, and 2 wrecks removed, 92, 1626.

1892-93. 150 l. f. brush wing dam built, several wrecks removed, 920 s. y. brush and willows cut, and about 15,000 snags and other obstr. removed, 93, 2026.

1893-94. Wreck removed, 225 l. f. brush dam built, 785 s. y. brush and willows cut, and over 27,000 snags, etc., removed, 94, 1485.

1894-95. Care and repair of plant, 95, 1930.

1896-97. Portions of wrecks removed, 2,294 s. y. brush and willows cut, and about 116,700 obstr. removed, 97, 1923.

1897-98. Several wrecks removed, 4,925 s. y. brush and willows cut, and nearly 30,000 snags and other obstr. removed, 98, 1620.

1898-99. About 69,600 snags and other obstr. and 2,800 s. y. willows and brush removed from chan., 99, 2011.

1899-00. 1,100 snags and other obstr. and parts of 2 wrecks removed from chan., 00, 2520.

1900-01. 4,187 snags and logs cut and pulled, trees felled, topped, girdled, and cut; 2 wrecks removed, 01, 2048.

1901-02. 5,160 snags, etc., cut and pulled; trees girdled, felled, etc., 02, 1429.

1902-03. 2,344 snags and logs, etc., pulled, cut, and destroyed; 1,899 trees felled, cut, etc., 03, 1396.

1903-04. 3,058 snags and logs removed, and 1,719 trees felled, etc., 04, 2062.

1904-05. 1,720 snags and logs removed, 225 l. f. wing dams built, and 1,980 trees felled and cut up, 05, 1554.

1905-06. 1,486 snags, etc., pulled, destroyed, and cut, and 1,485 trees felled and cut, 06, 1376.

1906-07. 1,490 snags, etc., removed, and 6,174 trees cut and felled, 07, 1508.

1907-08. Brush wing dam built at head of Honey Isl., 3 wrecks removed, 2,937 snags and stumps pulled and cut, 10,796 trees felled and cut, 450 s. y. willows and brush cut. The new steel snag boat *Ben Humphreys* delivered at Vicksburg May 30, 1908, 08, 1579.

1908-09. 3,017 snags, etc., destroyed and removed, 2 wing dams built, 5 wrecks removed, 6,820 c. y. dr., 2,787 trees felled and cut up, and 20,950 c. y. brush and willows cut, 09, 1566.

1909-10. 7,800 c. y. dr. from chan. at McCormick Bar, 1,350 c. y. through bar below Greenwood, 1 wing dam built, jams, snags, stumps, etc., removed, and trees cut, destroyed, etc., 10, 1719.

1910-11. 888 snags, etc., removed, 4,370 trees felled and cut, and 7,747 s. y. willows and brush cut, 11, 1868.

1911-12. About 2,000 snags, etc., removed, trees cut and felled; wreck removed, cost of which was paid for by owners, 12, 2082.

PHYSICAL CHARACTERISTICS.

Description of, 93, 2025; 94, 1485; 96, 1614; 97, 1922; 98, 1619.

Description of, in the vicinity of bar at Yazoo City. Bar evidently formed by gravel brought down from adjacent hills by Town Bayou. 96, 1615.

Floods, and sliding and caving banks, render a continuance of snagging operations necessary in the interest of safe and uninterrupted navigation, 05, 411.

PROJECTS.

By Capt. Benyard, 1874, imp. of the R. by constr. of snag boat and removal of wrecks, snags, logs, and similar obstr., 74, 365.

From 1873 to 1886, \$158,000 app., 75, 522; 76, 596; 77, 480; 78, 626; 87, 1470.

Maj. Casey recom. grouping together of Yazoo R. and tributary streams, in order to prosecute work more economically, 01, 2049; consolidated by act June 13, 1902, 02, 1429.

¹ List of obstr., 73, 483; 74, 365.

1879-80. 25,381 trees cut down and girdled, **80**,
1319.

1880-81. 27 snags and logs removed and 31,538
trees cut and deadened, **81**, 1412.

1881-82. 457 snags and logs removed from
chan., **82**, 1551.

1882-83. 405 snags pulled, 6,740 s. y. brush cut
and 2,167 trees and logs cut, deadened, and removed
from R. bed, **83**, 1148.

1884-85. 887 snags and stumps pulled, 2 side
jams removed, and 557 trees cut and girdled, **85**,
1517.

1886-87. 1,107 logs, snags, and trees removed
and 2,127 leaning trees cut, **87**, 1475.

1888-89. 265 snags and logs removed from
chan., **89**, 1614.

1889-90. 424 snags and logs and 3 wrecks re-
moved from chan., and 12,920 trees and 435 s. y.
brush cleared from banks, **90**, 1899.

1890-91. 302 snags and 53 logs removed from
chan., and 417 shore snags, 2,902 trees, and 95 s. y.
of brush cleared from banks, **91**, 2004.

1891-92. 398 snags and 2 wrecks removed from
chan., **92**, 1650.

1892-93. Wreck removed; 1,440 s. y. brush
and willows cut; and over 15,000 snags and other
obstr. removed, **93**, 2044.

1893-94. Wreck removed; 150 s. y. brush and
willows cut; about 3,400 snags and other obstr. re-
moved, **94**, 1510.

1895-96. Several wrecks removed; over 1,600
s. y. brush and willows cut, and about 64,000 snags
etc., removed, **96**, 1627, 1628.

1896-97. Part of wreck removed; 2,744 s. y.
brush and willows cut; about 114,000 snags and
other obstr. removed, **97**, 1933.

1897-98. A few obstr. removed, **98**, 1637.

1899-00. About 6,300 snags and other obstr.,
1,100 s. y. willows and brush, and 2 wrecks removed
from chan., **00**, 2535.

1900-01. 3,647 snags, logs and other obstr. re-
moved from R. and 810 s. y. willows cut from banks,
01, 2068.

1901-02. 5,046 snags and other obstr. removed
from R. and 250 s. y. willows cut from banks, **02**,
1432.

1902-03. 3,894 snags and other obstr. removed
from R. and 3,275 s. y. brush cut from banks, **03**,
1396.

1903-04. 1,072 snags and other obstr. removed
from R. and 30 s. y. brush cut from banks, **04**, 2062.

PHYSICAL CHARACTERISTICS.

Described, **79**, 985; **93**, 2043; **94**, 1509; **96**, 1627,
1628; **97**, 1932; **98**, 1637.

Description of, above mouth of the Coldwater,
93, 2042.

Caving and sliding banks, and shifting and scour-
ing of chan. bring new obstr. into chan., **93**, 2044;
03, 375.

PROJECTS.

By Maj. Benyaard, 1879, imp. of l.-w. navigation
from junction with Coldwater R. to mouth, 165 m.;
by removal of snags, trees, and wreck of steamer;
est. cost, \$40,000, **79**, 116, 971, 985; **87**, 200, 1474.
Imp. not considered permanent, **88**, 1363.

By Capt. Willard, 1892, expend. no part of app.
of that year on R. above mouth of the Coldwater;
Sec. of War sanctioned applying app. to R. below
Coldwater, **93**, 2043.

Proj. of 1879 modified, 1899, by Maj. Willard,
to permit expend. \$10,000 in one working season to put
the Tallahatchie bet. the Yazoo and Coldwater Rs.
in fairly good navigable condition, and about \$2,500
yearly for maintain. for some time to come, **99**, 2021.

Act June 13, 1902, au. continuing imp. and
mainten. of work done along lines of former proj.,
03, 374.

OBSTRUCTIONS. (See Physical characteristics below.)

OPERATIONS.

1879-80. 10 wing dams built by hired labor at Oliphant Bar; removal of snags and logs, **80**, 155, 1316.
1880-81. 472 snags and logs removed and 7,000 trees cut down; wing dams built at Callao and Vick's Landing, **81**, 1408.
1881-82. 20,245 trees cut down, 186 logs removed, 775 l. f. wing dams built at Callao, Shell Ridge, and Vick's Landing, **82**, 1545.
1882-83. 20,433 trees cut down, 3,109 logs and snags and 600 brush piles removed, **83**, 1145.
1884-85. 2,524 l. f. wing dams built at Oliphant, Callao, Woodburn, Johnsonville, and Hollywood; 400 logs and snags removed, **85**, 1511, 1513.
1886-87. 46 snags, stumps, and logs removed, and 1,115 l. f. of wing dams built, **87**, 1478.
1887-88. 117 snags and 164 c. y. earth removed from chan.; 5,151 l. f. wing dams built; 319 trees and 8,260 s. y. willows cleared from banks, **88**, 1366.
1888-89. 140 logs and snags removed from chan., and 619 trees cleared from banks, **89**, 1617.
1889-90. 813 l. f. of wing dams built; 15 snags removed from chan. and 5 trees from banks; 375 l. f. of brush wing dams built, **90**, 1902.

1890-91. 645 snags and 2 wrecks removed from chan., and 320 trees cleared from banks; 375 l. f. of brush wing dams built, **91**, 2008.

1891-92. 50 snags and logs removed from chan., and 23 trees cut from banks, **92**, 1655.

1892-93. Part of wreck removed; 1,065 s. y. brush and willows cut; and about 17,800 snags and other obstr. removed, **93**, 2050.

1895-96. One old dam repaired; 23 wing dams, amounting to 1,810 l. f., built; 5,463 s. y. brush and willows cut; and nearly 25,000 snags, etc., removed, **96**, 1632.

1897-98. 32 wing dams, amounting to 2,817 l. f., built; 3,305 s. y. brush and willows cut; and 61,600 snags, etc., removed, **98**, 1640.

1898-99. At Hollywood Bar a wing dam was built to cause scour; an old dam repaired, **99**, 2022.

1899-00. 20 wing dams built and 14 old dams repaired; 10,069 snags and other obstr. and 35,700 s. y. willows and brush removed from chan., **00**, 2538, 2539.

1900-01. Snag boat *Columbia* removed 39 snags, 1 stump, and 8 shore snags, **01**, 2070.

1902-03. 2,745 l. f. wing dam built, and 431 snags, stumps, and logs removed, **03**, 1397.

1903-04. 3,665 l. f. wing dam constr.; 3 old dams repaired and strengthened, and logging and snagging continued, **04**, 2063.

1904-05. 15 wing dams built (total of 5,700'), 21 old dams repaired and strengthened, and 2,630 snags and logs removed, **05**, 1555.

1905-06. 3 wing dams built (total of 1,530 l. f.), 12 dams repaired; over 45,000 leaning trees felled and cut up; over 9,000 snags, logs, and stumps removed; about 2,000 trees girdled; 100 sq. yds. willows and brush cut, etc., **06**, 1378.

1906-07. 5 jams broken up and destroyed; over 900 snags, stumps, and logs removed; 11,924 leaning trees cut; 2,060 trees girdled, and 8,293 sq. yds. willows and brush cut, **07**, 1510.

1907-08. 80 l. f. wing dam built at Eastland Shoals; over 4,000 snags, stumps, and logs removed; 1 jam broken up and destroyed; over 24,000 leaning trees felled and cut up; over 3,000 trees girdled; 1,000 s. y. willows and brush cut, and 4 wrecks removed, **08**, 1582.

1908-09. Repairing wing dams, removing snags, logs, and trees, cutting willows and brush, and constr. 5 levees, **09**, 1568.

1909-10. Levee extension of Little Sunflower Dike completed; embankment constr.; chan. d. at Oliphant Bar by snag boat *Ben Humphreys*; wing dams built and repaired; snagging, etc., continued, **10**, 1720, 1721.

1910-11. Work of the U. S. snag boats and derrick boats in dr. cuts, building dikes and wing dams, and removing obstr., **11**, 1868, 1869, 1870.

1911-12. Snagging and constr. and repair of wing dams, 9,200 c. y., bucket measurement, dr. from 3 cuts in lower 66 m. of R., **12**, 776, 2083, 2084.

PHYSICAL CHARACTERISTICS.

Described (navigable for boats of light draft 6 months in year): **79**, 983; **85**, 1511; **93**, 2049; **96**, 1631, 1639; **98**, 1639; **12**, 775, 776.

Obstr., **79**, 983, 984.

Great beneficial changes since 1878. Gain in depth, **96**, 1641.

Water escaping through crevasses along the Mississippi front during a flood said to have brought in large quantities of drift, etc., **97**, 1935.

Operations (q. v) show something of character of stream.

PRIVATE WORK.

Dikes built by SS. men. Improperly placed, **09**, 1568.

PROJECTS.

By Maj. Benyaard, 1879, imp. R. to 3' to 34' by removal of obstr. from lower part of R., and imp. of Oliphant Bar and Mussel Shoals by wing dams; est., \$86,000, **79**, 116, 970; **86**, 234; **88**, 1365; modified, 1899, by Maj. Willard to permit expend. \$20,000 in one or two seasons of l. w. to complete imp., and \$3,000 a. maintain., **99**, 2023.

Removal of obstr. bet. mouth of Hushpuckena R. (about 30 m. below Clarksdale) and Baird; below

Baird the imp. of the R. by constr. of contraction works, to obtain navigable d. of 3'; est. for necessary closing dams below Baird, \$75,000, and about \$10,000 per year for 5 years for open R. work, and \$5,000 per year thereafter, ¹ 07, 471.

Act July 25, 1912, au. constr. of lock and dam at foot of Hollywood Bar, 74 m. above mouth of R.; est., \$300,000; open chan. work and dr. below mouth of Hushpuckena R.; est., \$50,000, ² 12, 776.

SURVEYS.

Ex. au. and in progress, 78, 88; completed by J. M. Searles, 79, 117, 982.

Olipphant Bar and Mussel Shoal, 80, 1316.

Line of precise levels run from Friars Pt., on the Mississippi, to Clarksdale, to check base lines of probable sur. for locks and dams, 95, 1951.

Ex. with view to imp. R. to Clarksdale with locks and dams au. act Aug. 17, 1894; made, 1896, by Maj. Willard (R. fav. to limited imp.), 96, 1638; 99, 362.

Pre. ex. and plan and est. of cost of imp., with view to obtaining continuous navigation from mouth to R.R. br. at Clarksdale, ¹ 06, 446.

For purpose of locating levees to close chutes in lower R., made, 1907, 08, 1582.

Pre. ex. and sur. from near Baird to mouth of Hushpuckena R. au. by R. and H. act Mar. 2, 1907 (R. unfav.), 08, 504; 09, 532; 12, 776.

Made, 1909, from mouth of Big Sunflower R. to head of Mabin Isld., showing dikes built and d. of water, 09, 1568.

Cong. docs., etc., relative to sur., exs., plans, etc., 03, 376; 04, 397; 07, 472; 08, 503; 12, 775, 776.

ESTIMATES. (See Plans and Projects.)

By Capt. Johnston, 1874, removal of raft, \$156,000, 73, 646.
By Lt. Woodruff, 1872, \$259,014, 72, 572; 74, 704; 76, 598; 77, 482. Reason for cost exceeding est., 76, 599.
By Capt. Benyaurd, 1879, completion, \$122,500, 79, 954.
By Lt. Woodruff, closing Tones Bayou, 1873, \$42,916, 73, 675; 74, 706; 75, 526. By Capt. Howell, 1874, \$20,000, 74, 73, 705.
By Capt. Benyaurd, 1878, removing snags and other obstr., \$175,000, 78, 634, 635.
By Capt. Benyaurd, 1878, mouth, \$300,000, 78, 87, 636.
By Capt. Benyaurd, 1879, R. above raft, \$67,836, 79, 989.
By Lt. Woodruff, 1872, Cypress Bayou; dam at lower end of Soda Lake, \$70,000, 73, 670.
By Capt. Howell, 1874, 3' d., Shreveport to Jefferson, \$372,580, 74, 73, 710, 715, 720; 75, 69, 529.
By Capt. Benyaurd, 1878, completion of proj., \$20,000, 78, 633.
By Capt. Howell, 1875, falls at Alexandria, l. w. canal; if locks be provided with common gates, \$82,611; if Fouracre's and Girard's gates, \$83,605, 76, 904; or dam at foot of falls, with lock and navigable sluice, \$97,653, 75, 904.
By H. C. Ripley, 1875, straight cut through upper falls, 5' x 100', \$75,256, 75, 908; or wing dams, aided by cut through lower falls, \$60,907, 75, 909.
By Capt. Howell, 1875, shore protection in front of Alexandria, \$18,400, 75, 906.
By Capt. Benyaurd, 1879, snag boat, \$60,000, 79, 961.

OPERATIONS.

History of, previous to 1866, 73, 644, 664.

1872-73. Purchase of wrecking boat, and removal of raft by hired labor, 73, 64, 613. Successful use of nitroglycerine in removal of raft, 73, 618; 74, 703. Closing Tones Bayou by l. w. dam, destruction of same by high water, 73, 628; reclosing of, by drift, 73, 630; 74, 704; 43,839 c. y. dr. from Cypress Bayou, 73, 64, 622.

1873-74. Navigable chan. through raft opened for entire l., Nov., 1873. Completion of drift dam closing Tones Bayou, 74, 72, 703, 705. Dr. continued in Cypress Bayou, chan. w. and d. by removal of 53,700 c. y., 74, 796, 708.

1874-75. Removing parts of raft and w. chan. Premature explosion of nitroglycerine, 75, 523, 526. Dr. chan. on Cypress Bayou continued, 75, 69, 528, 529.

1875-76. W. chan. through raft. Present condition of, 76, 78, 597. Continuation of dr. in Cypress Bayou, 76, 600.

1876-77. W. chan. through raft, 77, 77, 481. Closing Tones Bayou by brush dam, 77, 77, 483, 487.

1877-78. W. chan. through raft and keeping R. free from obstr., 78, 86, 629. Repairing and raising dam at Tones Bayou, 78, 86, 630. Building new dr. at Cypress Bayou, 78, 87, 633.

1878-79. Removing parts of old raft, 79, 112, 951. Changes produced by work at, 79, 113, 952, 955. Dr. at mouth of R. for temporary imp., 79, 113, 959. Removing snags and wrecks from R., 79, 114, 961, 962. Repairing and raising dam at Tones Bayou, 79, 953. W. chans. at Cypress Bayou, 79, 113, 958.

PHYSICAL CHARACTERISTICS.

Floods on Red R., 69, 343, 351; 73, 642; 75, 578, 616, 662, 663; 76, 616.

Description of raft, 72, 569; 73, 616, 640, 664, 666; 76, 598; 79, 955.

Ancient discharge of R. probably through Atchafalaya R., 73, 640.

Injurious action of cut-offs, 73, 645.

Geological notes, 73, 651.

Characteristics of Tones Bayou, 73, 672; 77, 484.

Characteristics of Cypress Bayou, 74, 706, 709; 73, 621, 650, 669.

Characteristics at falls of Alexandria, 75, 902.

Characteristics of R. above raft, 79, 986.

PLANS. (See Estimates; Mississippi River—Levees; and Projects.)

History of early plans, 72, 569; 73, 644. Discussion of plans, 73, 647.

By Capt. Johnson, 1854, R. at raft, passage around raft through Dooleys Bayou, Shift and Soda Lakes, and Twelve-mile Bayou, 72, 569.

Lt. Woodruff, 1872, reported plan inadequate, 72, 569.

By W. C. Melvin, 1875, reservoirs to restrain floods and assist l. w. discharge, 75, 616, 673.

By G. W. R. Bayley, Louisiana levee commission, 1875, levees with a gradual closure of side outlets, 75, 621.

For imp. of passage at falls of Alexandria by detour through bayous, rapids, and Jean de Jean, 75, 903. Considered impracticable, 75, 904, 907. By excavated chan. through r., 75, 903, 905. Results considered uncertain, 75, 903. By use of wing dams, to obtain uniform slope from head to foot of falls, 75, 904, 908. Considered objectionable from velocity of current produced and obstr. formed to R. floods, 75, 904.

By Capt. Howell, canal to be used at l. w. only, to give d. not less than 5' over Upper Falls, and extending from head to foot of rapids, locks to be 60' x 200'; cost, by use of common gates at locks, \$82,611; or by use of Fouracre's and Girard's shutters, \$83,605, 75, 904; or an imp. by dam at foot of falls with lock and navigable sluice; cost, \$97,653, 75, 904.

For imp. R., 1879, at the raft by a detour through Tones Bayou, Bayous Pierre and Winsey, and Lakes Bayou Pierre and Cannassanier; R. route considered preferable, 79, 991, 992, 996.

For imp. Cypress Bayou, 1879, by removal of stumps and snags, and use of dams with or without

locks, 72, 573; 73, 669. Various plans considered, 74, 710, 711, 714.

By Capt. Benyaure, 1878, imp. mouth of R. by a dam closing mouth of old R. bet. the head of Atchafalaya R. and Turbull Isld., 78, 87, 636. More careful sur. indicate plan would not probably be satisfactory, 79, 960.

PRIVATE AND CORPORATE WORK.

Imp. of Cypress Bayou by city of Jefferson, 73, 622; 79, 967. Dr. furnished the U.S. by city of Jefferson, 73, 64, 620.

Bayou Pierre R. and Bayou Winsey Navigation Co., for imp. R. in vicinity of raft, 73, 625; 79, 996.

\$3,000 contributed by New Orleans citizens and others for repair of break, Tones Bayou, 78, 630.

PROJECTS. (See Estimates and Plans.)

History of early proj., 72, 569; 73, 644. Discussion of proj., 73, 647.

By Lt. Woodruff, 1872, removing obstr. at raft by cutting a chan. through, 72, 569; 73, 613. Methods used, 73, 614.

By Capt. Howell, 1872, imp. R. by gradually closing Tones Bayou by a l. w. dam, 73, 624, 627, 628, 674, 675; 77, 483, 484; 79, 953.

Part (b), X-28 Red River, La. (Mouth.)

ENGINEERS.

Chief of Engineers. R., 80, 151; 81, 205; 82, 203.

Boards. Convened Apr., 1880, to consider plan for permanent imp. of the mouth of the R. R., 80, 1284 (Cols. Tower and Newton and Maj. Abbot.)

In charge. Maj. W. H. H. Benyaure, 1878-82. R., 80, 1282, 1288; 81, 1389; 82, 1511, 1515. Trans. to Mississippi River Commission June 30, 1882, 82, 1512.

Assistants:

E. Flood. R., 81, 1390.

M. Rees. R., 81, 1391.

F. S. Burrows. R., 82, 1522.

H. St. L. Coppee. R., 82, 1531.

OPERATIONS.

1879-80. 57,800 c. y. removed by dr. from bars at mouth, 80, 1282.

1880-81. 38,574 c. y. dr. from inner bar, 81, 1389, 1390.

1881-82. Dr. operations continued, 82, 1511. Work trans. to Mississippi River Commission, 82, 1512.

Part (c), X-28 Red River, La., and Ark. (Except at mouth but including above Fulton, Ark.)

APPROPRIATIONS.

Removing raft and closing Tones Bayou:

1880, \$25,000, 80, 1280.

1881, 10,000, 81, 1403.

Removing snags and other obstr.:

1880, 60,000, 80, 1304.

1881, 10,000, 81, 1404.

Imp. of R. above raft:

1880, 10,000, 80, 1305.

Red R., La.:

1882, 75,000, 82, 205.

1884, 75,000, 84, 1323.

1886, 75,000, 86, 1342.

1888, 65,000, 88, 1342.

1890, 100,000, 90, 1349.

1892, 145,000, 92, 1597.

Red R. above Fulton:

1886, 7,000, 87, 1502.

1888, 3,000, 88, 1376.

1890, 2,000, 90, 1327.

1892, 3,500, 92, 1601.

By Capt. Howell, 1872, Tones Bayou, dr. and removing obstr. from Jefferson to Caddo Lake and the constr. of dams at foot of Soda Lake, 72, 61; 73, 622; 74, 714; 75, 69, 529.

By Capt. Howell, 1875, to protect city front from erosion at Alexandria with st. revet., 73, 906.

By Capt. Benyaure, 1878, removal of snags and obstr. from R. by use of snag boat and hired labor, 78, 634.

SURVEYS.

History of early sur., 73, 646.

Ex. of raft, 71, 67.

Ex. of Cypress Bayou, 71, 66; 72, 568, 572; 73, 635, 668.

Raft, Cypress Bayou, and Tones Bayou, 73, 635, 638.

Falls at Alexandria, 75, 79, 902, 906.

Cypress Bayou, 74, 707, 716.

R. above raft, Tones Bayou, and falls at Alexandria, 78, 88, 89; 79, 986.

Tones Bayou, Bayous Pierre and Winsey, and Lake Pierre, 79, 114, 991.

Maps. Tones Bayou, 77, 486.

PHYSICAL CHARACTERISTICS.

Description of the junction of the Red R. with the Mississippi R., 80, 1289; 81, 1391; 82, 1524. Separation of the two Rs. in 1847, 80, 1292, 1295.

Unity of the Red and Atchafalaya Rs., 80, 1289, 1293, 1295.

Direction of currents at mouth of Red R., 81, 1391.

Discharge of Red R., 81, 1394, 1399.

Discharge of Atchafalaya R., 81, 1394, 1399.

PLANS. (See Projects.)

By Maj. Benyaure, rectification of the Red and Atchafalaya Rs. at their junction with the Mississippi R., 80, 1288-1299. Considered by B.E. of 1880, 80, 1284-1288.

PROJECTS. (See Plans.)

BE. 1880, recom. continuation of dr. at mouth of the Red R. as a temporary imp., 80, 1288.

SURVEYS.

1880, 81, 1391.

1882, 82, 1513, 1519, 1531.

Mouth of Grand Bayou, au. act Mar. 3, 1881; made under direction of Maj. Benyaure, 1881, 82, 1515.

Sur., Fulton to Atchafalaya:

1888, \$35,000, 88, 177.

1890, 28,000, 90, 1927.

Total, 728,500

COMMERCE.

Objections to closing Tones Bayou, 82, 1541.

Information relating to number of wrecks on R., 87, 1444.

Benefits to be derived from completion of imp. on the R. above Fulton, 89, 1640.

Steamers engaged in navigation, 92, 1598.

CONTRACTS.

1881. Allen & Blaisdell, iron-hull snag boat, \$44,050, 81, 1405. Gervin & Bietry, earthen dam,

closing Tones Bayou, **81**, 1403; **82**, 1539. Action relating to destruction of dam in process of constr. under this contract, **82**, 1540; **85**, 1473.

1882. E. P. Doherty, r. removal at the falls near Alexandria, \$3.45 c. y., **83**, 1136.

1891. Martin & Hunt, closing outlets, \$4,930, **92**, 1591.

ENCROACHMENTS.

Injury to R. by acts of lumbermen, **80**, 1278; **82**, 1538.

Malicious destruction of dam closing Tones Bayou, **82**, 1540; **85**, 231, 1473; **86**, 1340.

Action of State enjoining work near Alexandria, **84**, 1329.

ENGINEERS.

Chief of Engineers:

Upper Red R., **80**, 152, 153; **81**, 207; **82**, 205. Removing raft and closing Tones Bayou. **R.**, **80**, 150; **81**, 206; **82**, 203.

Removing obstr. **R.**, **80**, 152; **81**, 207; **82**, 204. Imp. Red R., La. **R.**, **83**, 213; **84**, 221; **85**, 230; **86**, 227; **87**, 193, 203; **88**, 176, 184; **89**, 207, 217; **90**, 186, 195; **91**, 236, 237; **92**, 229, 230.

In charge:

Upper Red R.:

Maj. W. H. H. Benyaurd, 1879-82. **R.**, **80**, 1304; **81**, 1406; **82**, 1545.

Maj. A. M. Miller, 1882-83. **R.**, **83**, 1143.

Removing raft and closing Tones Bayou:

Maj. W. H. H. Benyaurd, 1874-82. **R.**, **80**, 1277; **81**, 1402; **82**, 1538.

Maj. A. M. Miller, 1882-83. **R.**, **83**, 1138.

Removing obstr.:

Maj. W. H. H. Benyaurd, 1878-82. **R.**, **80**, 1302; **81**, 1404; **82**, 1543.

Maj. A. M. Miller, 1882-83. **R.**, **83**, 1142.

Imp. Red R., La.:

Maj. A. M. Miller, 1882-84. **R.**, **83**, 1143; **84**, 1321.

Capt. E. Bergland, 1884-86. **R.**, **85**, 1471; **86**, 1337.

Capt. J. H. Willard, 1886-87. **R.**, **87**, 1439 1490.

Red R. above Fulton, Ark.:

Capt. H. S. Taber, 1884-90. **R.**, **85**, 1623, 1671; **87**, 1502; **88**, 1375; **89**, 1639; **90**, 1925.

Capt. J. H. Willard, 1886-92. **R.**, **88**, 1331; **89**, 1584; **90**, 1819, 1833; **91**, 1946, 1961; **92**, 1573, 1600.

Assistants:

E. F. White. **R.**, **81**, 1405; **82**, 1544; **84**, 1324; **85**, 1480.

J. T. Dorey. **R.**, **84**, 1325; **85**, 1482.

J. W. Beamen. **R.**, **84**, 1327; **85**, 1483.

M. A. Orlopp. **R.**, **85**, 1618.

H. Vance. **R.**, **87**, 1447; **88**, 1339.

J. Ewens. **R.**, **91**, 1953; **92**, 1592.

H. M. Marshall. **R.**, **92**, 1595.

LEGAL PROCEEDINGS.

Action, Louisiana, enjoining work at Alexandria, **84**, 1329; **85**, 1486.

OPERATIONS.¹

1879-80. On upper Red R., 1,210 snags, 2,229 logs, and 753 trees removed, **80**, 1304. Removal of log jams in vicinity of raft, **80**, 1278. Progress on dam closing Tones Bayou, **80**, 1278. Above Alexandria, 1,380 snags, 495 trees, and 2 wrecks removed, **80**, 1302.

1880-81. On upper R., 460 snags, 1,526 logs and stumps, and 190 trees removed, **81**, 1406. Removal of log jams at the raft, **81**, 1402. Bet. mouth of Ouachita R. and 25 m. below Shreveport, 665 snags and 1,216 trees and stumps removed, **81**, 1404.

1881-82. R. cleaned at the raft, **82**, 1538. At Tones Bayou, partial completion of dam closing bayou; subsequent destruction of dam, **82**, 1339. 1,214 snags and stumps removed from R. below Alexandria, **82**, 1544.

1882-83. In the R. above Shreveport, 1,904 snags and stumps, 5,793 trees, 117 jams, and 110 logs were removed, **83**, 1130, 1137. Below Shreveport, 336 snags, 3,627 trees, and 3 jams were removed, **83**, 1136.

1883-84. On upper R., 309 snags, 95 jams, 512 trees, 5,144 stumps and shore snags removed; below Shreveport, 1,621 snags, 347 trees, 841 stumps, 2 wrecks, and 10 drift piles removed, **84**, 1322, 1325. In vicinity of Alexandria, 2,051 c. y. of r. removed, **84**, 1322, 1328.

1884-85. 40,529 snags, stumps, and trees removed; 27 jams removed at the raft, **85**, 1474, 1475, 1480, 1482. Constr. and subsequent destruction of dam, closing side outlet at Sale & Murphy's canal, **85**, 1476. Progress of r. removal near Alexandria, **85**, 1477, 1483. Partial constr. of work at Alexandria for protection of H., **85**, 1478, 1485.

1885-86. Completion of contract for r. removal at falls near Alexandria, and constr. of dam at lower falls, **86**, 1340. Progress of work at Alexandria H., **86**, 1341.

1886-87. Removal of obstr. by snag boats from Garland, Ark., to mouth of the Atchafalaya R., **87**, 1440. Constr. of snag boat for R. above Fulton, **87**, 1502.

1887-88. 798 snags and 10 drift piles removed from the R. above Fulton, **88**, 1375. 4,400 snags and stumps, 110 log jams, and 2 wrecks removed at and below Shreveport, **88**, 1333-1335.

1888-89. 2,900 logs, snags, and stumps, and 160 log jams removed from the R., and 7,000 trees cut from the banks at and below Fulton, below Shreveport, and at Cypress and Dorcheat Bayous, **89**, 1585-1587. 764 snags removed above Fulton, **89**, 1640.

1889-90. 48,959 c. y. earth and 4,400 snags removed from the chan.; 16,850 trees cut from the banks, and 231,710 s. y. brush and willows cut at Alexandria, and at Cypress and Dorcheat Bayous, **90**, 1827, 1828.

1890-91. 6,038 snags cleared from the chan., 134 jams removed, 10,022 leaning trees cut; 2 wrecks removed; 109,200 s. y. of brush cleared from the banks, **91**, 1949, 1950. 956 snags and 111 leaning trees removed above Fulton, **91**, 1961, 1962.

1891-92. 7,981 c. y. material dr.; 5 wrecks and 11,899 snags removed from the chan., and 8,846 trees and 107,325 s. y. of brush cleared from the banks, **92**, 1580, 1582. Sale & Murphy outlets closed by dam constr. under contract, **92**, 1592.

PHYSICAL CHARACTERISTICS.

Vicinity of Falls of Alexandria, **80**, 1347.

Above Fulton, Ark., **85**, 1618-1627.

River slopes, **87**, 1449.

Description; lakes and bayous, Shreveport, La., to Fulton, Ark., with their obstr. **87**, 1490.

PLANS. (See Projects.)

Résumé of plans for imp. of R. at falls near Alexandria, **80**, 1343-1345.

Plans proposed by Maj. Howell, 1875, for passage of falls, **75**, 902; **80**, 1345, 1347.

PROJECTS. (See Plans.)

1828 to 1852, incl., \$533,137.50 app. for removal of the raft.

In 1872, under a renewal of app., the "present" proj. for removal of the raft, and the closing of Tones Bayou by a dam adopted, **72**, 569; **73**, 624, 628, 674; **85**, 1472.

In 1875 proposed to protect city front at Alexandria from erosion by means of st. revet., **75**, 906.

In 1878, imp. below Fulton, Ark., by the removal of snags and other obstr. inaugurated, **78**, 634.

In 1879, imp. of the falls near Alexandria undertaken, to furnish chan. 4½ x 75', **80**, 1348.

In 1882, proposed to close certain outlets above Shreveport, **82**, 1546; **85**, 1477.

In 1884, imp. above Fulton, Ark., by removal of snags and similar obstr. undertaken, **85**, 1618, 1622. Amount app. 1872 to 1886, incl., \$809,000, **87**, 1451; **92**, 1574.

¹ History of operations prior to 1886, **85**, 1472; **86**, 1338.

SURVEYS.

Falls near Alexandria, La., au. act June 18, 1878; made by Maj. Benyard, 1879, 80, 1342.

Mouth to Fulton au. act Aug. 2, 1882, 84, 227. Progress by Capt. Willard, 87, 1446.

Fulton, Ark., by Capt. Taber, 85, 1617, 1623.

Ex. au. Aug. 5, 1886, of connections with Clear Lake, Black Bayou, Red Bayou, Black Lake, and Keely Bayou—Shreveport, La., to Fulton, Ark. Unfav. R. by Capt. Willard, 87, 1490.

Red R., Fulton, Ark., to the Atchafalaya R., au. act Aug. 5, 1886. By Capt. Willard, 88, 177, 1337; 89, 1591; 90, 1830, 1838.

Maps:

Shreveport to Natchitoches, 82, 1542; 85, 1490.

Vicinity of Tones Bayou, 82, 1542; 85, 1490.

90, 1840, 1870; 91, 1955; 92, Atlas, 82.

Part (d), X-28 Red River, its Tributaries and Outlets, La., Ark., and Indian Territory, Fulton to head of Atchafalaya.

J. J. Hoopes. R., 00, 2491.

LEGISLATION.

3 levee districts along the R. created by acts of legislature of Louisiana, 98, 1581; 99, 1983.

OPERATIONS.

1892-93. About 16,000 snags and other obstr. removed; 227 l. f. wing dams built; 8,000 s. y. brush and willows cut; several wrecks removed; 324,323 c. y. levees built, 93, 1907, 1908, 1915, 1916.

About 4,000 snags, etc., removed from Little R., and 3,875 s. y. willows, etc., cut.

10,242 c. y. r. excavated at Alexandria and used to constr. dike there and repair another, 93, 1919, 1920.

1893-94. About 25,500 snags, etc., removed; 285 l. f. wing dams built, several wrecks removed; 17,350 s. y. brush and willows cut, 94, 1424, 1425. 79,000 c. y. levees built, 94, 1425.

3,483 c. y. r. excavated at Alexandria and used to raise and strengthen dikes there, 94, 1425.

Over 10,000 snags, etc., removed from bet. Shreveport and Jefferson, and 1,300 s. y. willows, etc., cut, 94, 1430.

1894-95. About 32,000 snags, etc., removed; 200 s. y. brush and willows cut; and 2,915 l. f. wing dams built. Several wrecks removed, 95, 1854, 1855. 261,455 c. y. levees built, 95, 1856.

1895-96. About 9,000 snags, etc., removed; 205 l. f. pile dike built, 96, 1572. 354,719 c. y. levees built, 96, 1575, 1576.

Over 5,000 snags, etc., removed from Sulphur R., 96, 1582.

1896-97. About 110,000 snags, etc., removed; over 3,500 s. y. brush, etc., cut; 4,731 l. f. pile and brush dams built and several wrecks removed, 97, 1881, 1883, 1884.

4,951 c. y. r. excavated at Alexandria and part of it deposited in banks in that vicinity, 97, 1885.

About 7,000 snags, etc., removed from Sulphur R., 97, 1889.

1897-98. About 12,000 snags, etc., removed; 350 s. y. brush, etc., cut; 3,719 l. f. brush dams built and 500 s. y. brush mattresses laid, 98, 1578, 1579.

8,089 c. y. r. excavated at Alexandria and some of it deposited in banks in that vicinity, 98, 1580.

1898-99. Boats repaired and about 9,000 snags and other obstr. removed from R.; 66,445 c. y. Choctaw Bayou levee built; and 247,400 c. y. of levee built at and above Hervey Canal in Red R., 99, 1980, 1981.

1899-00. About 5,000 obstr. removed from R.; Scotts Slough levee built; Choctaw Bayou levee repaired, and in cooperation with the State of Louisiana closed the Tones Bayou outlet, Little R., at Scopini Cut-off, 00, 2480, 2483.

1905-06. Obstr. removed from R. and banks, 06, 1360.

1906-07. Obstr. removed, and 4 dikes built at Rattling Slough, La., 07, 1494.

1907-08. Obstr. removed, and repairs made to dikes at Alexandria, La., 08, 1564.

1908-09. Obstr. removed, plans prepared for constr. suction dr., closing Spirit Lake outlet, and building Chalk Level levee in Bossier Parish, La., 09, 1547.

1909-10. Obstr. removed, 10, 1697.

1910-11. Obstr. removed, 11, 1843.

1911-12. Removing obstr., 12, 2061.

¹ For allotments of app., see the end of each an. R.

² \$5,000 for imp. of Sulphur R.

PHYSICAL CHARACTERISTICS.

Description of, **93**, 1901, 1909; **94**, 1420, 1430; **95**, 1850; **96**, 1569, 1580; **97**, 1878, 1882; **98**, 1576.

Banks of R. for hundreds of m. covered with a heavy growth of timber, caving and sliding continually. Quantity of drift during high stages enormous, jams, acres in extent, forming in a few hours. **93**, 1904; **94**, 1419; **95**, 1851. In 1897 Maj. Willard remarked that the drift, the shifting and changing chan. uncovering snags, etc., and the caving and sliding banks, would necessitate snagging for many years, or until the banks had been cleared for some distance back, the banks fixed, and the floods restrained by a substantial system of levees, **97**, 1885.

Comparison of early and existing conditions, **93**, 1909; **94**, 1431.

Floods and flood discharge, **93**, 1911, 1912; **94**, 1422, 1426; **96**, 1569; **97**, 1880; **98**, 1579.

Description of, Little R. from Scopini Cut-off to Knox Point, **93**, 1911; **95**, 1855. Imp. by its own natural movement, **95**, 1855; **96**, 1574.

Descent of l. w. line, continuation of, **94**, 1431; **95**, 1878; **96**, 1574.

Discharge. At Shreveport, **93**, 1923; Scopini Cut-off, **93**, 1923. Tabulated results of discharge measurements made near Shreveport in 1891, **93**, 1976. Discharge observations, **93**, 1984; **94**, 1433; **95**, 1871.

Sediment, **93**, 1977; **94**, 1449.

High-water marks, **93**, 1978; **94**, 1426.

Elevation of zeros of water gauges, **93**, 1984.

Low-water marks, **94**, 1441; **95**, 1852, 1861; water surfaces at various points during, **95**, 1867.

Comparison of l. w. slope from upper falls to Alexandria, **94**, 1447.

Comparison of high waters of 1892-94, **94**, 1451.

Borings in bed of R., summary of, **95**, 1872.

Description of, Sulphur R., **96**, 1581.

Description of Choctaw Bayou levee and the levee districts along the Red R., **99**, 1981, 1983.

Description of Red R. physics (maps), and Scotts Slough Levee and others, **00**, 2489, 2491.

Water gauges, **06**, 436; **08**, 488; **09**, 512; **10**, 579; **11**, 623; **12**, 755.

PRIVATE WORK.

"Canals" built by private parties. Description of, **93**, 1909.

Constr. of levees jointly by U. S., riparian States, and parishes. Work performed by U. S. very small in comparison with that performed by the other agencies (see Projects), **93**, 1914, 1915; **94**, 1434; **95**, 1851, 1856, 1858, 1878; **96**, 1569, 1575, 1577; **97**, 1885; **98**, 1580, 1582.

Surs. made by State engineers for levee lines, **97**, 1887.

Levees built by State and local levee boards since 1892, **98**, 1580.

Louisiana built, 1898-99, 79,304 c. y. of the Choctaw Bayou Levee, **99**, 1981, 1985.

Louisiana in cooperation with the U. S., 1899, closed the Tones Bayou Outlet, Little R., at Scopini Cut-off, **00**, 2483.

PROJECTS.

Principles to be followed to save whatever has been done for imp. of the R., and to prevent its closure, **93**, 1905.

By Capt. Willard, 1892, snagging in Little R. and dr. of points where bottom was of resisting clay, using therefor \$20,000 of app. of 1890 as provided

thereby, **93**, 1911. In 1893 recom. that dr. be suspended or modified, app., **93**, 1912.

In 1893 Capt. Willard est. \$30,000 to constr. 2,500 l. f. revet. in front of Alexandria, **93**, 1920; \$25,000 for constr. of sills and revet. to close Tones Bayou, **93**, 1913; and that the est. of protecting Shreveport H. water front would be not less than \$50,000, **93**, 1921.

By Capt. Willard, 1893-94, removal of obstr. from Cypress Bayou and the lakes bet. Shreveport, La., and Jefferson, Tex., using therefor \$5,000 from the app. of 1892 as provided thereby, **94**, 1430.

In 1894 Capt. Willard recom. that serious imp. of navigation be commenced at an early date, **94**, 1430.

By Capt. Willard, 1895-96, removal of obstr. from Sulphur R., using therefor \$5,000 of the app. of 1894 as provided thereby, **96**, 1581.

In 1896 Capt. Willard recom. united action be taken by the U. S., the States interested, and the local levee boards to prevent cut-offs, and for proper care and protection of levees during periods of high water, **96**, 1578.

Levee system at 1896. Description of and condition, **96**, 1579.

Levee work, est. amount done and to be done, **97**, 1890. Allotments for (see Appropriations, allotments of app.).

In 1895-96 Capt. Willard est. \$300,000 or a little more, to close the gap in the Caddo levee system, **96**, 1580, 1581; **97**, 1890.

Under acts of 1892-94 a plan for the imp. of the R. au. to include constr. of a substantial system of levees to restrain the greatest floods, either alone or in partnership with the riparian States, to confine the R. to the adopted chan., thereby imp. and giving ease and safety to navigation. Begun in 1892 by an endeavor to put the levees built or enlarged up to a grade of about 3' above the highest flood of record. **98**, 1580.

Purchase of elevator dr. at reduced price, **96**, 1572.

Maj. Casey est., 1900, \$11,300 to make the imp., **00**, 2576.

Plan au. Mar. 1, 1907, for repairing and strengthening dikes at Alexandria, La., **07**, 459.

SURVEYS.

Miscellaneous surs. Shreveport Reach, **93**, 1921. For levees, **95**, 1856; **97**, 1887 (see Private work). Resur. of Alexandria Reach, **96**, 1575.

Sur. of the R. au. act 1886, **93**, 1921; **94**, 1439; **95**, 1860, 1879; **96**, 1583. Reconnoissance to test and reset gauges, make local surs., and take discharge observations, **95**, 1860. Base-measuring apparatus, details of, **93**, 1924. Triangulation, details of, **93**, 1935. Hypsometry, **93**, 1944. Description and elevations of precise bench marks, **93**, 1951; of R. section reference points, **93**, 1957; of permanent reference points, **93**, 1972. Topography, details of, **93**, 1974. Hydrography, details of, **93**, 1974.

Ex. and sur. of Alexandria H., with est. of imp., if any, au. act Mar. 3, 1899; made by Maj. Casey, 1900 (R. fav.) (see Projects), division engineer's R. unfav., **00**, 2570.

Ex. of Boyce Landing, La., au. by act Mar. 2, 1907. R. by Capt. Hoffman, Oct. 29, 1907¹ (unfav.), **08**, 504.

List of surs. from Fulton, Ark., to Atchafalaya R., La., from 1887 to 1910, incl., **11**, 625.

Ex. and sur. au. act Mar. 3, 1909 (R. to come), **12**, 781.

Maps. (Photographs, plates, etc.), **93**, 1908, 1920, 1926, 1954, 1984, 1990; **94**, 1440; **95**, 1880; **00**, 2489; **09**, 1550; **10**, 1698; **11**, 1344.

Part (e), X-28 Red River, above Fulton, Ark., including some work "above Shreveport."

APPROPRIATIONS. (See Appr., p. 795, 797.)

1894;	\$3,500, 95, 1884.
1895;	3,000, 96, 1888.
1902;	*10,000, 02, 1407.
1905;	*100,000, 05, 1522.

Total, 406,500

COMMERCE.

Limited, 93, 2001; 95, 1883; 96, 1587.
C. of upper Red R. entirely local, 00, 2569.
Reduction in rates due to proj., 05, 401.
Proj. expected to reduce rates, 07, 457.

CONTRACTS.

1903. Hunter & Fry, building 4 dikes, \$20,362, 03, 1365 (terminated Sept. 10, 1903, owing to impracticability of resuming work, 04, 2031).
1906. M. A. Sweeney Shipyard & Foundry Co., constr. 1 snag boat, \$21,840, 06, 1357.

ENGINEERS.

Chief of Engineers. R., 93, 260; 94, 240; 95, 268; 96, 234; 97, 300; 98, 291; 99, 349, 362; 00, 401; 01, 412, 425; 02, 343; 03, 361; 04, 382, 398; 05, 399; 06, 432; 07, 456; 08, 484; 09, 509, 548; 10, 574; 11, 599, 622; 12, 748, 752.

Boards. BERH. concurs in opinion of Capt. Potter that imp. bet. Fulton, Ark., and Denison, Tex., not deemed advisable. R., 1903, 04, 2083. (See Surveys), 09, 548.

In charge:

Capt. J. H. Willard, 1886-1900. R., 93, 1999; 94, 1452; 95, 1881; (Maj.) 96, 1587; 97, 1895; 98, 1588; 99, 1991; 00, 2565.
Maj. T. L. Casey, 1901. R., 01, 2025, 2074.
Capt. C. L. Potter, 1901-03. R., 02, 1405; 04, 2081.
Capt. C. S. Bromwell, 1903-04. R., 03, 1363.
Lt. Col. H. M. Adams, 1904. R., 04, 2030.
Capt. J. F. McIndoe, 04, 399.
Capt. G. M. Hoffman, 1904-05. R., 05, 1519.
Capt. W. P. Wooten, 1905-08. R., 06, 1356; 07, 1490; 08, 1560.
Capt. A. E. Waldron, 1908-11. R., 09, 1543; 10, 1690.
Capt. T. H. Jackson, 1911-. R., 11, 1839; (Maj.) 12, 2057.

Assistants:

W. H. Polk. R., 01, 2080; 05, 1526.
L. L. Griffith. R., 03, 1368.
H. M. Marshall. R., 04, 2035; 05, 1525.

OPERATIONS.

1892-93. About 1,200 snags and other obstr. removed, 93, 2001.

1894-95. About 4,000 snags, etc., removed, 95, 1885.

1897-98. Over 500 snags, etc., removed, 98, 1588.

1898-99. About 100 snags and other obstr. removed, 99, 1991.

1900-01. About 24,000 obstr. removed from R., and repairs made to snag boat *Howell*, 01, 2027.

1901-02. About 69,500 obstr. removed from R., 02, 1406.

1902-03. About 5,000 obstr. removed from R., and work on constr. of dikes for imp. of chan. at Shreveport in progress, 03, 1369.

1903-04. 12,297 obstr. removed from lower R., and 1,929 obstr. above Fulton, Ark. Shore end of 3 dikes were built at Shreveport, La., by hired labor, 04, 2030.

1904-05. 44,998 obstr. removed from lower R. and 14,920 from above Fulton, Ark. Work on dikes at Shreveport, La., completed, and repairs made to snag boat *Howell*, 05, 1521.

1905-11. Obstr. removed from R. and banks, 06, 1357; 07, 1490; 08, 1561; 09, 1544; 10, 1690; 11, 1839.

1911-12. Obstr. removed on Red R.; also on Kiamichi R., 12, 2057.

PHYSICAL CHARACTERISTICS. (See Red River, below Fulton.)

Description of, 93, 2000; 95, 1882; 01, 2074.

Scouring, 93, 2001.

Oscillations on this part of the R. so rapid that boats frequently make but one trip on a rise, and have to regulate traffic by the quantity and duration of the rainfall, 98, 1588.

Details, Kiamichi R. to Blue R., 00, 2566.

Statement of gauge readings, 02, 345; 04, 384; 05, 1525.

Floods producing high stages, 03, 1365; 04, 2032.

Formation of bar at Shreveport, La., 04, 2031.

PRIVATE WORK.

By direction of Capt. Willard, the Texarkana & Fort Smith Ry. made an effort to open a chan. through the bar at its br. n. of Texarkana, 95, 1883.

Leaves built by State and local levee boards, 01, 2027; 03, 1370.

PROJECTS.

By Maj. Willard, combination of work under this head with that for the R. below Fulton, snagging operations for the latter work not to cease at Fulton, but be carried up above until app. therefor should be exhausted, 96, 1588; 97, 1895.

Act of Mar. 3, 1899, providing for continuing operations under the general title "Improving Red River," 99, 1991.

Constr. of dike to imp. chan. at Shreveport, La., approv. by Sec. of War, Oct. 2, 1902, 03, 1365.

Act Mar. 3, 1905, au. \$15,000 for imp. of chan. at Alexandria, La., 06, 1522.

Act July 25, 1912, au. continuing existing proj. with addition of dr. on bars, and closure of certain chutes behind islds., 12, 749.

SURVEYS.

Ex., mouth of Kiamichi R. to Blue R., au. act Mar. 3, 1899; made, 1899, by Maj. Willard (R. unfav.), 00, 2565.

Ex. for imp. navigation bet. Shreveport, La., and Denison, Tex., au. act June 6, 1900. R. by Maj. Casey, Sept. 20, 1900 (not worth yof imp. by U.S.), 01, 425, 2073, etc.

Statement of sur., exs., and other documents from 1872 to 1902, incl., 03, 364.

Ex. for imp. navigation bet. Fulton, Ark., and Denison, Tex., au. by act June 13, 1902. R. by Capt. Potter, July 18, 1902 (not worthy of imp.), 04, 398, 2081.

Ex. au. act Mar. 2, 1907, bet. Fulton, Ark., and mouth of Washita R., made by a BE. R., May 27, Dec. 30, 1907, and Mar. 27, 1909. Est., \$160,000 for first 2 years, and \$50,000 an. mainten., 09, 548.

Pre. ex. of chan. connecting Red and Sulphur Rs., au. by act June 25, 1910. R. by Capt. Waldron, Nov. 22, 1910, 11, 622.

Pre. ex. and sur. au. act June 25, 1910, mouth of Washita R. to mouth of Big Washita R., Tex. and Okla. (R. to come), 12, 752.

C. of R. and list of SS. engaged, 91, 1973; 92, 1606.
Description of; in 1895 was probably such as would warrant constr. of lock and dam system, 95, 1900.

List of SS., 01, 416, 2037.

Formation of Monroe Ry. & Nav. Co. due to au. proj. for locks and dams, 03, 1376.

Effect on rates, 05, 404; 12, 759.

CONTRACTS.

1873. F. G. Gaylord, timber for locks at Buffalo Shoals, Jacks Isld., and Rock R., 73, 465, 485; abandoned, 74, 349.

1875. Material sold on account of abandonment of proj., 75, 521.

1904. Chicago Engineering & Construction Co., constr. Locks and Dams Nos. 4 and 6 (prices given), 05, 1531-32.

1905. Chicago Engineering & Construction Co., supple., 05, 1531; 06, 1367. Ed. J. Howard, constr. and delivery of steel snag boat, \$42,483, 06, 1367. (Contract with Chicago Engineering & Construction Co. terminated by agreement on Oct. 20, 1908, and their plant, materials, buildings, etc., trans. to US., 09, 1555.)

1908. Midland Bridge Co., building Lock No. 2, to cost \$296,694.50 (unit prices given), 09, 1556, 1558. Glencoe Lime & Cement Co., 5,000 bbls. Portland cement, \$2.34 bbl. in wood, or \$2 bbl. in sacks, and 10¢ for each sack not returned, 09, 1559.

1909. H. E. Talbot Co., for partial constr. of Lock No. 6 (prices given), 10, 1709. United Kansas Portland Cement Co., 14,000 bbls. Portland cement (prices given), 10, 1710.

1910. H. E. Talbot Co., supple., constr. of Lock No. 6 (prices given), 11, 1857.

1911. Penn Bridge Co., 307,000 lbs. structural metal for Locks and Dams Nos. 4 and 8 (prices given), and erecting about 232,000 lbs. structural metal in gates of Lock No. 8, at 1.74¢ per lb., 11, 1857.

1912. Zeb Ward, 5,000 t. riprap, \$2.20 t.; Blaw Steel Centering Co., 384,516 lbs. structural metal and special winches (prices given); Lawrence D. Weaning, erecting 248,000 lbs. structural metal, 1.5¢ lb., and 2,700' b. m., lumber, \$15 per M; United Kansas Portland Cement Co., 3,000 bbls. Portland cement, \$1.83 bbl., and 10¢ for each empty sack not returned, 12, 2072.

ENGINEERS.

Chief of Engineers. R., 70, 31, 66; 71, 59; 72, 53, 54; 73, 55; 74, 61; 75, 68; 76, 77; 77, 76; 78, 86; 79, 115; 80, 152; 81, 211; 82, 208; 83, 217; 84, 221, 227; 85, 235; 86, 230; 87, 195; 88, 178; 89, 209, 217; 90, 188; 91, 238, 239; 92, 231; 93, 261, 272; 94, 241; 95, 269; 96, 235; 97, 302; 98, 293, 302; 99, 350; 00, 402, 414; 01, 415, 425; 02, 346, 354; 03, 366; 04, 387; 05, 403; 06, 437; 07, 461; 08, 489; 09, 515; 10, 582, 11, 626; 12, 756.

Boards. Revision of proj. of Lt. Col. W. F. Reynolds, 1873 (no proceedings given), 74, 352.

In charge:

Lt. Col. W. F. Reynolds. R., 71, 334, 72, 345, 346, 367.

Col. J. H. Simpson. R., 73, 464.

Capt. W. H. H. Benyard, 1873-83. R., 73, 484; 74, 348, 352; 75, 521; 76, 592; 77, 477; 78, 623; 79, 965; (Maj.) 80, 1305, 1307; 81, 1416; 82, 1558.

Maj. A. M. Miller, 1883-85. R., 83, 1155; 84, 1329, 1351, 1363, 1381, 1383, 1386.

Capt. E. Bergland, 1885-86. R., 85, 1497; 86, 1351.

Capt. J. H. Willard, 1887-99. R., 87, 1455, 1487, 1495; 88, 1346; 89, 1596, 1631; 90, 1871, 1878; 91, 1964, 1975; 92, 1602; 93, 2002, 2091; 94, 1455; 95, 1887; (Maj.) 96, 1591; 97, 1904; 98, 1594; 99, 1994.

Maj. T. L. Casey, 1900-01. R., 00, 2503, 2544; 01, 2034, 2091.

Capt. C. L. Potter, 1902. R., 02, 1410, 1435.

Capt. C. S. Bromwell, 1903. R., 03, 1373.

Lt. Col. E. M. Adams, 1904. R., 04, 2039.

Capt. J. F. McIndoe, 05, 399.

Capt. G. M. Hoffman, 1905-07. R., 05, 1528; 06, 1362; 07, 1497.

Capt. C. S. Smith, 1908-10. R., 08, 1567; 09, 1554; 10, 1700.

Capt. James A. Woodruff, 1911-. R., 11, 1845; (Maj.) 12, 2065.

Assistants:

J. Straszer. **R.**, 71, 338; **74**, 350; **76**, 593; **77** 477; **78**, 624.
 C. Smith. **R.**, 72, 368.
 C. W. Durham. **R.**, 74, 357.
 W. C. Melvin. **R.**, 80, 1307; **81**, 1418.
 E. F. White. **R.**, 81, 1417; **82**, 1557; **83**, 1157; **84**, 1382.
 P. C. Montgomery. **R.**, 84, 1353.
 F. S. Burrowes. **R.**, 84, 1383.
 T. C. Thomas. **R.**, 95, 1903; **98**, 1604; **00**, 2549;
05, 1536.
 H. M. Marshall. **R.**, 00, 2547; **01**, 2040, 2091; **02**,
 1414, 1437; **03**, 1377; **04**, 2042; **05**, 1536.
 A. M. Todd. **R.**, 11, 1851.

ESTIMATES. (See Projects.)

By Lt. Col. Reynolds, 1871, temporary imp. by removal of snags and obstr., Arkadelphia to mouth, \$98,300, **71**, 335, 337, 344.

By Lt. Col. Reynolds, 1872, permanent imp., Camden to Trinity, by locks and dams, i. e., 2 timber locks and dams in Arkansas and 3 in Louisiana, \$1,163,083.75, **72**, 53, 55, 346, 348, 367, 374; **77**, 479. If of masonry, \$2,194,916.35, **72**, 348, 367, 370; **74**, 352.

By Capt. Benyaurd, 1873, revising previous est. If for 7 locks and dams of timber, \$2,644,768; of st., \$4,952,976, **74**, 354. For 8 locks and dams of timber, \$2,626,252; of st., \$5,162,319, **74**, 354. For 10 locks and dams of timber, \$2,995,566; of st., \$6,079,233, **74**, 354.

LEGAL PROCEEDINGS.

Condemnation proceedings to acquire land needed for mound at Lock and Dam No. 8, **08**, 1570.

Acquisition of land for Locks and Dams Nos. 3 and 7, **12**, 2070.

OPERATIONS.

1871-72. Removal of 16,277 trees and 393 snags, **71**, 334; **72**, 53, 55, 345, 347.

1872-73. 14,121 trees, 131 snags, 6 drift piles, and 1 stump removed, **73**, 55, 465, 491.

1873-74. 10,074 trees and 153 snags removed, **74**, 62, 349, 350.

1874-75. 87 trees, 118 snags, and 2 drift piles; also one-half of the wreck of the *Lolawanna* removed, **75**, 521.

1875-76. 835 trees and 653 snags removed, **76**, 77, 593.

1876-77. Removal of obstr. and constr. of wing dams at Spoon Camp, Buffalo Shoals, **77**, 76, 477.

1877-78. Removal of snags and obstr. and constr. of wing dams, **78**, 86, 623.

1878-79. Removal of snags and obstr., **79**, 965.

1879-80. 400 snags removed from chan. below Monroe, **80**, 1305.

1880-81. 456 snags and 4,159 trees removed from chan. and banks of upper Ouachita; dam at Catahoula Shoals rebuilt, **81**, 1416.

1881-82. 241 snags and logs removed and 6,210 trees cut down, **82**, 1556.

1882-83. 780 logs and snags destroyed; 900 trees, shore snags, and stumps removed; wreck of SS. *Little Bob B.* removed, **83**, 1155.

1884-85. 677 snags pulled; 2,652 trees, stumps, and logs removed from chan., **85**, 1499.

1886-87. 465 snags and stumps removed and 267 trees cut, **87**, 1456.

1889-90. 2,970 snags, stumps, and logs removed from chan., and 8,580 trees cut and girdled on the banks bet. Camden and mouth, **90**, 1872, 3,130 snags and 11 c. y. r. removed from chan.; 66 c. y. st. and 100 l. f. brush wing dams built; 39,800 trees girdled and cut, and 138,563 s. y. brush and willows cut from banks above Camden, **90**, 1878.

1890-91. 1,470 snags cleared from chan.; 34,548 trees and stumps removed from banks; 10,035 trees girdled; 6,767 s. y. willows and brush cut, and 250 l. f. of brush dams built bet. Camden and mouth, **91**, 1965, 1966. 1,467 snags and 29 c. y. r. removed from chan.; 783 trees and 4,304 s. y. of brush cleared from banks, and 800 l. f. of brush dams built above Camden, **91**, 1976.

1891-92. 2,562 snags cleared from chan., and 11,368 shore snags removed from banks; 77,342 trees

cut; 24,543 trees girdled, and 675 s. y. of brush and willows cut, **92**, 1604.

1892-93. About 37,000 snags and other obstr. removed; 1,325 s. y. willows and brush cut, and several wrecks removed, **93**, 2005.

1893-94. About 2,000 snags, etc., removed; 29,026 c. y. dr. at Catahoula Shoals, and about half deposited along right bank, **94**, 1459.

1894-95. About 2,000 snags, etc., removed, **95**, 1890; 53,492 c. y. dr. at Catahoula Shoals, and deposited in dike above mouth of Little Creek and along right shore, and portion of a wreck removed, **95**, 1891.

1895-96. Nearly 1,000 snags, etc., removed; several wrecks removed, **96**, 1594.

1896-97. About 13,000 snags, etc., removed; dam at Catahoula Shoals repaired; 6,697 s. y. willows, etc., cut, **97**, 1905, 1906.

1897-98. Dam at Catahoula Shoals repaired; 3 brush wing dams built; wreck removed; 31,993 s. y. brush, etc., removed, and over 28,000 snags, etc., removed, **98**, 1595.

1898-99. Boats repaired, and 45 obstr. removed, **99**, 1994.

1899-00. About 16,000 snags and other obstr., and 5 wrecks removed from chan., **00**, 2504.

1900-03. Snagging, **01**, 2034; **02**, 1410; **03**, 1373.

1903-04. Snagging; completing borings, surs., etc., at sites of locks and dams, **04**, 2039.

1904-05. Constr. of Locks and Dams Nos. 4 and 6 commenced, **05**, 1529.

1905-06. Snagging; constr. of locks and dams in progress, **06**, 1362-65.

1906-07. Snagging; constr. of Locks and Dams Nos. 4 and 6 in progress; plans and specifications prepared for Locks and Dams Nos. 2 and 8, **07**, 1497-98.

1907-08. Snagging; new snag boat completed; constr. of Locks and Dams Nos. 4 and 6 in progress; test borings and surs. made at sites of Nos. 2 and 8; constr. of Lock No. 8 by hired labor and purchase of material commenced, **08**, 1567-70.

1908-09. Snagging and dr.; completion of Lock No. 4 by hired labor commenced; work commenced under contract for constr. of Lock No. 2; constr. of Lock No. 8 by hired labor continued, **09**, 1555.

1909-10. Snagging; work continued at Locks Nos. 4 and 8 by hired labor, and at Nos. 2 and 6 under contract, **10**, 1700-08.

1910-11. Snagging; work continued at Locks and Dams Nos. 4 and 8 by hired labor and at Locks Nos. 2 and 6 under contracts; surs. and borings made with view to acquiring sites for Locks and Dams Nos. 3 and 7, **11**, 1845.

1911-12. Snagging; wreck removed; work at Locks and Dams Nos. 4 and 8 continued by hired labor, at Lock and Dam No. 6 partly by contract and partly by hired labor, and at Lock No. 2 by contract, **12**, 757-58, 2065-69.

PHYSICAL CHARACTERISTICS.

In general, **71**, 368; **74**, 358.

Slope of R., **72**, 368; **74**, 352.

Discharge of R., **72**, 370.

Description of the Ouachita; table of distances, falls, etc., **89**, 1633.

Description of, **93**, 2004; **94**, 1461; **95**, 1889, 1896; **96**, 1593, 1595; **97**, 1904, 1906; **98**, 1594; **00**, 2547.

Description of, above Camden, Ark., **93**, 2091.

Oscillations of the R. rapid, **93**, 2005, 2092.

High stages of the R., **93**, 2004.

Gauge readings, 1892-93, at Arkadelphia and Camden, **93**, 2093.

Discharge measurements, **93**, 2095; **94**, 1465; **97**, 1909; **98**, 1611; **00**, 2549.

Table of elevations in f. above Coast Survey, mean Gulf level of h. w. of 1882, and lowest water of record on the R., and also average fall per mile, **94**, 1465.

Tributaries, description of, and fall at h. and l. w. bet. them and Ouachita R., **95**, 1897.

Imp. at Catahoula Shoals, giving evidence of permanency, **96**, 1594.

Development of levees on the right bank of the Mississippi R. made it probable in 1896 that the extreme h.-w. marks of earlier years would not be

reached again in the upper R., and if system should be extended to mouth of Red R. the Ouachita would probably be able to carry the waters of its basin without danger to the people on its banks, 96, 1597.

Unhealthy conditions giving great difficulty in making surs., 96, 1598; 98, 1599.

Condition of works and d. of w., 02, 347; 12, 758.

For data on stream discharge, borings, etc., see final report on sur. au. act Aug. 17, 1894, 02, 1445-1570.

Abnormally h. w. 1905-08; interferes with work, 08, 490.

PLANS. (See Estimates and Projects.)

C. W. Durham, 1874, imp. to 4' by removal of snags, with w. and d. of by dr. and r. excavation, 74, 362.

Maj. Miller, 1883, proposed protecting banks, vicinity Monroe, La., est., \$10,000, 84, 1383.

PRIVATE WORK.

Levees, work on, performed by State engineers, 96, 1598.

PROJECTS. (See Estimates and Plans.)

Lt. Col. Reynolds, 1871, temporary imp. Arkadelphia to mouth by removal of snags and dr. on worst bars; est., \$98,300, 71, 337.

Lt. Col. Reynolds, 1872, permanent imp., Camden to Trinity, 287 m., by locks and dams, and to d. of not less than 4'. Locks of wood, dams of timber and st., 2 locks and dams in Arkansas, \$464,233, and 3 locks and dams in Louisiana, \$697,850, 72, 53, 54, 346, 348, 370, 374; 73, 484.

Revised by B.E., 1873 (no facts given), 74, 352.

Capt. Benyard, 1874, recom. abandonment of above proj. as being too costly when compared with the C. to be benefited, 74, 357.

Proj. abandoned, 1875, 75, 521; 77, 479; 79, 966.

Capt. Benyard, 1877, imp. at special points by means of wing dams, 77, 76, 477; 78, 623.

Character of imp. carried on, 1880, viz, the removal of logs, snags, and similar obstr., would not permanently imp. the R. or permit giving a definite est., 80, 1306; 84, 1386; 86, 231.

Act 1884, Black R., Ark. and La., placed under the same head as the Ouachita, 86, 1351.

Amount expend. on proj. to June 30, 1888, incl. cost of snag boat and outfit, \$193,912, 88, 1348.

By Capt. Willard, 1887, imp. Ouachita, Camden up to Arkadelphia, 76 m., by cutting leaning timber, removing snags, and building brush dams at the shoals; est., \$9,000, 89, 1598.

By Capt. Willard, 1892, applying app. of that year to repair of plant, surs. and work at Catahoula Shoals, and general imp., snagging, etc., bet. Camden, Ark., and mouth of Black R., 93, 2003.

Lock and dam navigation of R., history of projs., 94, 1460.

By Capt. Willard, 1894, application of \$30,000 of the app. of 1894 for commencement of sur. of R. au. act 1894, and for completion of sur. at a further est. of \$120,000, 95, 1892.

Discussion of form of dams applicable to needs of the R., 95, 1897. Table of approx. locations for 5 movable dams, to include tributaries, 95, 1899. Early est. of cost of lock and dam system, 95, 1901. In 1895, Capt. Willard made a pre. est. of \$2,000,000 for 5 dams, 95, 1902.

Levees, revival of interest in, 96, 1598.

Maj. Casey est., 1900, \$275,000 each for constr. of 13 locks and dams, or \$3,575,000 for entire system, 00, 2546.

Proj. au., 1902 (see Surveys), contemplates constr. of 9 locks and movable dams to provide navigable d. of 6½', mouth of Black R., La., to 10 m. above Camden, Ark. (360 m.), at est. cost of \$1,998,576; completion of maps of sur., etc., and continuance

of snagging for mainten. of past work at an. cost of about \$20,000, 03, 366. Est. of cost increased to \$2,038,888, 05, 403, and later to \$2,109,980, 07, 461. Change in location of Lock and Dam No. 2 eliminates Lock and Dam No. 1 from proj.; approx. \$270,000 saved by change, but cost elsewhere increased, 08, 490, 1569. Est. cost of Locks and Dams Nos. 4 and 6 increased \$439,000, 09, 1556.

Detailed est. cost of Lock and Dam No. 3, \$670,000, 11, 1854, and of Lock and Dam No. 7, \$634,000, 11, 1855.

SURVEYS.

Au. July, 1870, 70, 31, 66.

From Arkadelphia to mouth, 1870, 71, 334, 335.

For more definite location of locks and dams bet. Camden and Trinity, 1873, 73, 495; 74, 62, 349, 352. Special sur. of Catahoula Shoals, 1878, 79, 115.

Ex. of Catahoula Shoals and vicinity, 1879, 80, 1307.

Ex. of Ouachita R. from Camden to Arkadelphia au. act Aug. 2, 1882; made, 1883, by Maj. Miller (R. unfav.), 84, 1351.

Ex. au. for cut-offs, act Aug. 2, 1882; made 1882, by Capt. Miller (R., unfav.), 84, 1363.

Ex. of Hs. of Monroe and Tranton, La., on Ouachita R., with view to prevent caving of banks, au. act Aug. 2, 1882; made, 1883, by Maj. Miller, 84, 1381.

Plan and est. for continuing imp. of Ouachita R. from mouth to Camden, Ark., au. act Aug. 2, 1882; made, 1882, by Maj. Miller, 84, 1386.

Reex. with view to slack water, Camden to mouth, au. act Aug. 5, 1886; made by Capt. Willard (R. unfav.), 87, 1487.

Ex. above Camden au. act Aug. 5, 1886; made by Capt. Willard (R. unfav.), 87, 1495.

Ex. for permanent imp. of Ouachita R., mouth to head of navigation., au. act Aug. 11, 1888; made, 1889, by Capt. Willard (R. unfav.), 89, 1631.

Ex. above Camden, Ark., au. act July 13, 1892; made, 1893, by Capt. Willard (R. unfav.), 93, 2091.

Precise level run bet. Vidalia and Monroe, La., 94, 1459.

Surs. for lock and dam navigation. History, 94, 1460. Comparison of, with sur. au. act 1894, 98, 1598.

Act Aug. 17, 1894, au. submission of plans and est. for imp. by locks and dams, to be completed with an allotment from app. for that year. Capt. Willard R. it would be impracticable to make a thorough sur. with the whole app., and submitted proj. for a thorough sur. (see Projects), under which work commenced 1894, 95, 1891, 1892. Procurement of precise levels, reconnaissances, 95, 1892, 1895. Discrepancies in levels determined at early dates, 95, 1894. Field and office work, 96, 1595; 97, 1907; 98, 1595. Details of methods, etc.: Traverse lines, 98, 1606; hypsometry, 98, 1607; topography, hydrography, gauges, 98, 1610; discharge, 98, 1611; sediment, profiles, 98, 1612. Surs. continued, 1899, under many difficulties; 99, 1994. Pre. R. made, 1900, by Maj. Casey (see Projects), 00, 2545.

Surs. continued, 01, 2035.

Pre. ex. au. act June 6, 1900, front of Camden, Ark., on Ouachita R., with view to imp. said H. and grading and protecting R. bank in front of city. R. by Maj. Casey, Aug. 7, 1900¹ (imp. in manner indicated in act not advisable), 01, 425, 2090-94.

Final R. on sur. au. act Aug. 18, 1894, by Capt. Potter, Feb. 22, 1902. Plan of imp. contemplates locks and dams to provide navigable d. of 6½', mouth to a point above Camden, Ark. (360 m.); est., \$1,998,576² (see Projects), 02, 354, 1435, 1570.

Surs. made for Locks and Dams Nos. 3 and 7, 11, 1851-52.

OPERATIONS.

1881-82. 695 snags and 697 leaning trees removed, 82, 1557.

1884-85. 1,193 logs and snags removed from Tensas R. by contract, 85, 1504.

1886-87. Obstr. in Bayou Macon removed from Floyd's to junction with Tensas R., 87, 1464.

1887-88. 330 snags removed from the chan., and 392 shore snags and leaning trees cleared from the banks, 88, 1355.

1888-89. 1,939 snags and logs removed from the chan., and 4,480 trees from the banks, 89, 1605.

1891-92. 875 snags, 1,512 stumps, and 1,450 shore snags removed, and 2,398 trees and logs cleared from the banks, 92, 1619.

1892-93. Over 50,000 s. y. brush and willows cut; and over 159,000 snags and other obstr. destroyed, 93, 2021.

1893-94. 375 s. y. brush, etc., and about 2,000 obstr. removed, 94, 1481.

1894-95. 10,930 s. y. brush, etc., and over 10,000 obstr. destroyed. Over 10,000 obstr. destroyed in Bayou Macon, 95, 1925.

1895-96. Wreck removed and also a few obstr., 96, 1612.

1897-98. 2,242 s. y. brush and willows cut, and about 1,800 obstr. destroyed, 98, 1617.

1898-99. About 9,000 snags and other obstr. and 35,000 s. y. willows and brush removed from Bayou Macon, 99, 2007.

1901-02. 10,550 snags, stumps, etc., removed, 38,639 s. y. willows and brush cut, 8 c. y. mud lumps removed, and 1 wreck removed, 02, 1417.

1903-04. 5,120 snags, trees, logs, etc., removed or destroyed, 21,553 s. y. willows and brush cut, and 47 c. y. earth removed, 04, 2045.

1905-06. 3,483 snags, logs, and stumps cut, 10 jams broken up and destroyed, 6,109 trees cut, 876 trees girdled, and 22,670 s. y. willows and brush cut, 06, 1369.

1906-07. 2,260 snags, stumps, and logs removed or destroyed, 13,739 trees felled, 5,342 trees girdled, 9,044 s. y. willows and brush cut, 2 wrecks removed, and jam broken up, 07, 1504.

1907-08. 2,173 snags, logs, and trees removed and destroyed; quarterboat sank, 08, 1574.

1908-09. 12,207 snags and logs removed or destroyed, 8 jams broken up, 10 mud lumps destroyed, and 1,520 trees cut, 09, 1520.

1909-10. 1,845 snags, 1,122 logs, and 789 trees removed or destroyed, and 7,900 s. y. willows and brush cut, 10, 1712.

1910-11. 7,647 snags, 1,148 logs, 10 trees removed, 3,070 trees felled, cut, and topped, 13 jams broken up and destroyed, 4,895 s. y. willows and brush cut, and wreck of old br. removed, 11, 1862.

PHYSICAL CHARACTERISTICS.

Description of, 81, 1458; 93, 2019; 94, 1480; 95, 1925; 96, 1612; 97, 1920; 98, 1617.

Drift brought down by floods, caving and sliding banks, and rapid growth of timber, etc., adding obstr. each year, 97, 1921.

Description of, above Floyd. This place about 98 m. from the mouth, 95, 1974. Part ex., 1895, narrow and shallow, and so filled with snags and other obstr. as to be unnavigable at any stage, 95, 1978.

PROJECTS.

By Maj. Benyard, 1880, removal of snags, logs, and similar obstr. from the mouth to Dallas, 180 m.; est., \$23,000, 81, 1457, 1461. Also removal of the same class of obstr. in Bayou Macon, Floyd to its mouth, about 130 m.; est., \$17,000, 88, 1355; 92, 1617.

By act July 5, 1884, imp. Bayou Macon was united with that of Tensas R., 84, 400; 85, 1504.

Movement to reclaim abandoned plantations along R. causes demand for imp. (as orig.) up to Dallas, 01, 2046.

Capt. Bromwell, 1903, est. \$2,500 an. to maintain chan., 03, 1379.

*Allotment.

1895-96. 13,414 s. y. brush, etc., cut; over 20,000 snags, etc., removed. Proj. for h.-w. navigation completed, **96**, 1607.

1896-97. A few obstr. removed, **97**, 1919.

1898-99. About 4,600 snags and other obstr. and 21,996 s. y. willows and brush removed from chan. and banks of the R., **99**, 2003.

1900-01. Mainten. work commenced by removal of logs, snags, etc., on May 6, 1901, at Pt. Jefferson and carried downstream for a distance of 65 m., **01**, 2044.

1901-02. Mainten. work continued by removal of logs, snags, etc., **02**, 1417.

1902-03. 36 logs and other obstr. removed; new hull built for quarterboat, **03**, 1384.

1903-04. Mainten. work continued at a cost of \$3,383.11, **04**, 2044.

1904-05. Mainten. work continued over 9 m. of R., **05**, 1539.

1905-06. Quarterboat No. 7 completed; mainten. work continued from Pt. Jefferson to mouth, **06**, 1369.

1907-08. Six m. of R. worked over and obstr. removed, **08**, 1574.

1908-09. Mainten. work continued by removal of obstr. over entire R., **09**, 1560.

1909-10. Mainten. work continued over 139 m. of R., **10**, 1712.

1911-12. Snags and other obstr. removed, **12**, 2077.

PHYSICAL CHARACTERISTICS.

R. described, **81**, 1425; **93**, 2016; **94**, 1477; **95**, 1922, 1969; **96**, 1608.

R. rises in s. Arkansas and enters the Ouachita in Louisiana. Part ex., 1895, consists of a succession of pools and shoals, dry or nearly so at the lowest stages, and almost impassable because of snags and other obstr., **95**, 1973.

Chan. d. increasing below mouths of outlets near Pt. Jefferson, **96**, 1607; cross sections at, **96**, 1610. Table showing l.-w. d. over the upper shoals and bars, **96**, 1608.

Discharge operation, etc., in technical detail, **02** 1445.

Navigations more difficult each year, **07**, 465.

Details of, **12**, 765.

PRIVATE WORK.

By Louisiana before 1840, **02**, 348.

PROJECTS.

By Maj. Benyaurd, 1880, imp. Wallace to the mouth, 280 m., by removal of obstr.; est., \$20,020, **81**, 1424, 1428.

By Capt. Bergland, 1884, closing 3 outlets of Bœuf R. near Pt. Jefferson; est., \$8,500, **85**, 235, 1503, 1546.

In 1892, \$26,000 est. complete closure of the 3 outlets, for continuing the removal of obstr., and sur. of Bœuf R., **92**, 1616.

In 1893, Capt. Willard est. \$30,000 to close the 3 outlets near Pt. Jefferson destroyed by levee breaks of 1890, **93**, 2017; **96**, 1607.

In 1896, Maj. Willard est. \$2,500 yearly to maintain imp. made by completed proj. of that year, **96**, 1607.

By Maj. Willard, 1896, to defer expend. app. of 1896 until sufficient money should be on hand to close outlets near Pt. Jefferson, **97**, 1917.

Maj. Willard est., 1899, \$30,000 to close the outlets, and \$2,500 for mainten., **99**, 2004.

This work considered as separate proj. up to 1902. Act June 13, 1902, consolidated this R. with tributaries of the Ouachita R., incl. Bayou Bartholomew, Bœuf R., Tensas R., Bayou Macon, and Bayous D'Arbonne and Corney, La. and Ark. Mainten. proj. continued, **03**, 368.

By Capt. Hoffman, 1907, recom. outlet of Bœuf R. at Pt. Jefferson be closed (a revival of proj. of 1893), aiding in draining Bayou Lafourche basin, to permit development of 220,800 acres adjacent, **07**, 1503; **10**, 1712.

The existing proj. (1912) mainten. from the mouth to Wallace Landing; an. cost, about \$5,000, **12**, 764.

SURVEYS.

Au. act June 14, 1880, **80**, 158; made by Maj. Benyaurd, 1880, **81**, 1423.

Of outlets of Bœuf R., au. act July 5, 1884; made by Capt. Bergland, 1884, **85**, 1545.

The 3 outlets near Pt. Jefferson and the old connecting levees bet. them. ex., 1893, by Capt. Willard, **93**, 2016.

Ex. of the R. in Arkansas above Wallace Landing au. act Aug. 17, 1894; R., 1895, by Capt. Willard (R. unfav.), **95**, 1969.

Reconnaissance made, 1896, by Maj. Willard, **96**, 1607.

Au. act Aug. 18, 1894. Final R. Feb. 22, 1902, by Capt. Potter on sur. of Ouachita and Black Rs. (and tributaries incl. Bœuf R.). Plans of imp. contemplate a system of locks and movable dams; est., \$1,998,576, **02**, 354. Bench marks, reference lines, etc., in detail, **02**, 1445.

Cong. docs., etc., relating to exs., sur., plans, etc., **02**, 1436; **03**, 370; **04**, 391; **07**, 1502; **10**, 529; **12**, 764.

H. M. Marshall. **R.**, **03**, 1383; **04**, 2049; **05**, 1542.

LEGAL PROCEEDINGS.

App. by State for imp. declared unconstitutional, **72**, 385; **79**, 1002.

OPERATIONS.

1881-82. Removal by hired labor of 9,954 trees and logs, 5 drift piles, and 1 wreck, **82**, 1558.
1882-83. Removal by hired labor of 4,341 trees, logs, and stumps, **83**, 1159.
1884-85. Removal by contract of 5,837 stumps, logs, and snags, 2 wrecks, 128 brush piles, and 697 leaning trees; clearing 66½ m. of the bayou, **85**, 1502.
1886-87. 5,289 trees, logs, and snags removed, **87**, 1460.
1887-88. 3,460 logs and snags removed from chan., 3,126 trees, and 8,653 s. y. brush cut from banks, **88**, 1351.
1889-90. 10,500 snags and 3 wrecks removed from chan.; 49,650 trees, 6,500 shore snags, and 9,325 s. y. brush cut from the banks, **90**, 1883.
1890-91. 1,670 snags removed from chan., 10,852 stumps and logs removed from chan. and

banks, and 44,600 trees girdled and removed, **91**, 1884.

1891-92. 3,470 snags and stumps removed; 10,105 shore snags and logs and 41,054 trees cleared from the banks, **92**, 1612.

1893-94. About 10,000 obstr. removed, over 8,000 s. y. brush and willows cut, and several wrecks removed, **94**, 1474.

1894-95. About 1,500 obstr. removed, **95**, 1919.

1895-96. About 12,700 snags and other obstr., and 18,809 s. y. brush and willows removed, **97**, 1915.

1897-98. Over 1,500 snags and other obstr., 1,094 s. y. brush and willows, and 450 cords drift removed, **98**, 1613.

1898-99. Boat repaired and a few obstr. removed from chan., **99**, 2000.

1899-00. About 13,700 snags and other obstr. removed from chan. and 56,000 s. y. willows and brush cut from banks, **00**, 2514.

1902-09. Snags, stumps, and logs removed, and leaning trees cut, **03**, 1380; **04**, 2044; **05**, 1539; **06**, 1370; **07**, 1502; **08**, 1573; **09**, 1560.

1910-12. Snags and other obstr. removed, summary given, **11**, 1861; **12**, 2076.

PHYSICAL CHARACTERISTICS.

Described, **72**, 384; **79**, 998, 999; **94**, 1473; **95**, 1919; **96**, 1603; **97**, 1914.
Considerable imp. in d. of bars below Lind Grove, La., noted, **94**, 1474.

Drift, caving, and sliding banks, and rapid growth of vegetation constantly adding new obstr., becoming greater in quantity and more difficult to move each year, **98**, 1613.

PLANS.

By A. H. Blaisdell, removal of obstr., \$34,716, **72**, 383, 385, 386.

By M. L. Lum, removal of obstr., \$23,005, **79**, 1003.

Capt. Bergland, 1885, est. \$20,000 as cost of removal of obstr. for navigation 7 months in the year, **85**, 1549.

PRIVATE (STATE) WORK. (See Legal proceedings.)

Imp. of R. by Louisiana in cutting trees and removing snags, **72**, 385; **79**, 1002.

Early imp. by State, **79**, 1000.

PROJECTS.

By Maj. Benyard, 1880, imp. of bayou, Baxter Station to mouth, 213 m., by removal of trees, logs, and snags; est., \$26,862, **81**, 1455.

No permanent imp. feasible, **85**, 235.

Condensed history of work, **96**, 1601.

In 1897 Maj. Willard est. \$2,500 per year to maintain unobstr. navigation at stages when steamboats could run, **97**, 1917; **02**, 1615.

SURVEYS.

OBSTRUCTIONS.

Underwriters concerned notified and ordered to remove a wreck, 95, 1916.

OPERATIONS.

1884-85. Obstr. removed from 23 m. of chan., 85, 1506.
1886-87. Obstr. removed from 17 m., 87, 1458.
1887-88. 3,036 leaning trees and shore snags cut, 243 logs removed from the chan., and 12,880 s. y. brush and willows cut, 88, 1350.
1888-89. 1,185 snags removed from chan., 3,540 trees cut and topped, and 3,746 s. y. brush cleared from banks, 89, 1599.

1889-90. 600 logs and snags removed from the chan., 11,600 trees cut and topped on the banks, and 425 s. y. brush cut, 90, 1880.

1890-91. 53 snags cleared from the chan.; 565 shore snags and logs cut; 562 trees cleared from the banks, 91, 1931.

1891-92. 2,138 snags and stumps cleared; 4,200 shore snags and logs removed; 12,450 s. y. brush and willows cut; 7 wrecks removed, 92, 1609.

1893-94. Wrecks removed and about 10,000 snags and other obstr. removed from Bayou Corney. About 9,000 snags, etc., removed from other parts, and 3,725 s. y. brush and willows cut, 94, 1470.

1902-03. 2,267 snags, logs, etc., removed, 7 jams broken up, and 4,889 s. y. willows and brush cut, 03, 1380.

1904-05. 549 snags, logs, stumps, and trees removed or destroyed, 6,484 s. y. willows and brush cut, 05, 1539.

1906-07. 1,166 snags, stumps, and logs removed or destroyed, 640 trees felled, 85 fallen trees cut up, and 5,525 s. y. willows and brush cut, 07, 1505.

1907-08. 2,772 snags, logs, and stumps removed or destroyed, 2 jams broken up and destroyed, 677 trees felled and cut up, 8 trees girdled, 22,340 s. y. willows and brush cut, and 1 wreck removed, 08, 1575.

1910-11. 4,801 snags and other obstr. removed, and 2,200 sq. yds. willows and brush cut from head to mouth of bayou, 11, 1862.

1911-12. 1,016 snags and other obstr. removed, and 2,755 sq. yds. willows and brush cut, 12, 2077.

PHYSICAL CHARACTERISTICS.

Description of bayou, 84, 1372, 1377; 95, 1915.
Corney R., 87, 1489.

Bayou D'Arbonne is a combination of branches, flows se. and enters Ouachita R. 6 m. above Monroe, La. It is 37.7 m. long. Bayou Corney is a small creek, flows se. from Claiborne Parish, La. It is 76 m. l. Little D'Arbonne, the south branch, is about 56 m. l., 12, 767.

PROJECTS.

By Maj. Miller, 1883, removing logs, snags, and similar obstr. from the bayou mouth to Stein Bluff, 42 m.; est., \$15,000, 84, 1376; 85, 1506.

Capt. Willard, 1893, est. \$6,000 to complete the work, the act of 1892 having extended the imp. above Stein Bluff to head of navigation at Cobb Landing, 93, 2010. Act of 1894 au. \$1,000 should be spent removing obstr. from Little D'Arbonne, 12, 767.

Capt. Bromwell est., 1903, it would cost \$1,000 an. to maintain chan., 03, 1379.

App. for Bayou Bartholomew, Boeuf R., Tensas R., and Bayou Macon and Bayous D'Arbonne and Corney combined, act 1902, 03, 368.

Existing proj., 1912, for mainten. below Cobb Landing; est., \$2,000 an., 12, 767.

SURVEYS.

Au. act Aug. 2, 1882; made by Maj. Miller, 84, 1372, 1376, 1380.

Ex. (Corney R.) au. act Aug. 5, 1886; made, 1887, by Capt. Willard (R. unfav.), 87, 1489.

Ex. of the bayou and its branches made, 1895, by Capt. Willard, 95, 1915.

Of Ouachita and Black Rs. and several tributaries, incl. Bayou D'Arbonne, au. act Aug. 18, 1894; made, 1902, by Capt. Potter, 02, 1435.

Cong. docs., etc., relating to exs., surs., plans, etc., 12, 767.

* Allotment.

1 D'Arbonne Bayou.

2 \$400 of this amount trans. to Tensas R. and Bayou Macon, 1906.

3 Trans. from allotment for Bayou Bartholomew for removing obstr. in the Little D'Arbonne Branch.

4 H. D. 448, 57th, 1st.

X-42**LITTLE RIVER, LA.****APPROPRIATION.**

1888, \$2,500, 89, 1601.

COMMERCE.

Description of, not large, 95, 1987.

ENGINEERS.

Chief of Engineers. R., 87, 203; 88, 179; 89, 210; 90, 189; 95, 279.

In charge. Capt. J. H. Willard, 1887-95. R., 87, 1498; 89, 1600; 90, 1881; 95, 1984.

Assistant. W. Decker. R., 95, 1983.

OPERATIONS.

1887-89. 2,645 logs and snags removed from the chan., and 4,300 trees and stumps removed from the banks, 89, 1601.

1889-90. 120 snags removed from the chan. and 515 trees from the banks, completing the proj., 90, 1881, 1882.

PHYSICAL CHARACTERISTICS.

Description, 87, 1498; 95, 1985.

Formed by Bayous Castor and Dugdemona, and reaches Ouachita R. through Catahoula Prairie, which becomes a lake in h. w. A tributary of Black R., 95, 1985.

PROJECTS.

By Capt. Willard, 1887, clearing obstr. from Catahoula Lake to Trinity, 25± m.; est., \$2,500, 87, 1499; 89, 1600. Completed in 1890, 90, 1881.

SURVEYS.

Ex. au. act Aug. 5, 1886; made, 1887, by Capt. Willard, 87, 1498.

Ex. au. act Aug. 17, 1894; made by Capt. Willard, 1895 (R. fav. to removal of snags), 95, 1984.

f	do.	1901-1912			

Part (a), Y-2 General Data—Arkansas River, Ark., Okla., and Kans.

COMMERCE.

Traffic, 1900, 75,000± t.; 1905, 86,000± t.; 1911, 81,000 t., 12, 785.

No apparent effect by R. on traffic rates. R. not taken into consideration by railway commission of contiguous State, in fixing rail rates, which fact applies also to *all rivers in Ark.*, 12, 785.

PHYSICAL CHARACTERISTICS.

Rises in central Colorado and empties into Miss. R. at se. cor. of Arkansas. 1,460 m. l.—350 in Colo.,

400 in Kans., 340 in Okla., and 370 in Ark. Orig. condition, obstruc. by shifting sand bars and numerous snags in the lower reaches, and by gravel and rock shoals, and snags in upper reaches. Navigation during l. w. impossible, 12, 785.

PROJECT.

The general proj. covers navigable portion—from mouth to mouth of Neosho (Grand R.), 461 m., 12, 785.

Part (b), Y-2 Arkansas River—Appropriations.¹

Ft. Gibson, Okla.
Tulsa, Okla.
Wichita, Kans.
Hutchinson, Kans.
Great Bend, Kans.
Hamburg, Kans.
Dodge City, Kans.

Part (d), Y-2 Arkansas River.

APPROPRIATIONS. [See part (b).]

COMMERCE.

Important, 78, 658; 79, 126.

DEFENSE.

Forts Gibson, Ind. T., and Smith, Ark., in vicinity, 77, 501; 78, 658; 79, 1081, 1082.

ENGINEERS.

Chief of Engineers. R., 77, 80; 78, 92, 93; 79, 125, 126, 127; 80, 168; 81, 215; 82, 213; 83, 221; 84, 229, 232; 85, 245, 251; 86, 244; 87, 205, 1522.

Boards. Convened, New York, Mar., 1887, to consider imp. of Arkansas R. R., 87, 1523, 1527. (Cols. Casey and Abbot, Lt. Cols. Comstock and McFarland.)

In charge:

Maj. Charles R. Suter, 1877-78. R., 77, 501; 78, 658; 79, 1081, 1085; 80, 1466; 81, 1660.
Capt. T. H. Handbury, 1881-83. R., 81, 1508; 82, 1576; 83, 1163.
Maj. M. B. Adams, 1883-84. R., 84, 1397, 1399, 1405.
Capt. H. S. Taber, 1884-87. R., 85, 1561, 1611; 86, 1391; 87, 1510, 1519, 1520.

Assistants:

Capt. D. W. Wellman, 78, 658. R., 78, 659.
J. H. Curtis, 78, 658.
J. D. McKown, 79, 1085. R., 79, 1086.

OBSTRUCTIONS.

Brs. not provided with draws, 79, 1085.

OPERATIONS.

1877-78. 1,800' of dike constr., incl. 100' of shore protection, 78, 660.

1878-79. Dike extended 400', strengthened and repaired, 79, 1081.

1879-80. Repair of dike at Fort Smith, 80, 1467.

1880-81. Constr. snag boat, 81, 1509.

1881-82. Operating snag boat bet. mouth of Grand R. and Fort Smith, 82, 1577. Repairs to dike at Fort Smith, 82, 1578.

1882-83. 1,047 snags and trees and 20 piles of drift removed bet. mouth of Grand R. and Fort Smith, 83, 1169.

1883-84. 2,890 snags and trees and 2 drift piles removed, 84, 1399.

1884-85. 1,399 snags and trees removed, 85, 1562.

1886-87. Dike constr. at Dardanelle; commencement of operations below Little Rock under proj. of 1886, 87, 1512, 1519.

PHYSICAL CHARACTERISTICS.

General description, 79, 1086-1088.

Bar obstr. free access to city landing at Fort Smith, 77, 501.

Change in R. due to constr. of dikes, 78, 661.

Rocks and snags in chan., 79, 1085-1087.

Erosion of R. bank in front of Fort Smith and bar formation at Van Buren, 84, 1397.

PRIVATE (CORPORATE) WORK.

Constr. of 3 js. by the Oil & Compress Co. at Fort Smith, 84, 1397.

PROJECTS.

By Maj. Suter, for imp. of R. at Fort Smith, with dike of brush and st., extending 1,100' out from l. bank, and from its outer end, a longitudinal dike, 600' l., extending downstream; thus to force main chan. toward r. bank, so, by dr. the crossing over the bar, to render the city landings accessible, 78, 658. To w., raise, and strengthen dam at Fort Smith, to give a uniform h. of 8' above m. l. w., 78, 658; success of this proj., 79, 1082. Removal of rocks, snags, and other obstr. from R. generally, at est., orig., of \$900,000, subsequently reduced to \$100,000, 79, 1081, 1086, 1088; 81, 215.

By Capt. Taber, 1885, permanent imp. of R., Little Rock to its mouth, contemplating chan. at least 6' x 200' l. w., by contraction and regulation of chan.; est., \$2,538,544, 85, 1602; 87, 1525.

SURVEYS.

By Maj. Suter, 1877, 78, 659.

By J. D. McKown, 1878, ex. of Arkansas R. from Fort Smith, Ark., to mouth of Little Arkansas R. at Wichita, Kans. R., 79, 1085, 1086.

Sur. from Wichita, Kans. to Fort Gibson, Ind. T., 1884, 84, 232; 85, 1611; 86, 1391.

Maps. Plans for brush dike, 78, 658. Map of Arkansas R. at points of imp., 78, 660.

Part (e), Y-2 Arkansas River.

APPROPRIATIONS. [See part (b).]

COMMERCE.

Prospective advantages to C. to result from completed imp., 88, 1384, 1388; 90, 1937; 91, 2041.

Description of, 94, 1538; 95, 2010; 96, 1665.

Probable increase in future importance of, 93, 2107; 94, 1539.

R. has but small influence on rates, 96, 1665.
C., 1900, 75,654 t., valued at \$2,078,940, 00, 417.

CONTRACTS.

1895. H. J. George & Co., subsistence supplies, \$10,067.02. Dickinson Hardware Co., ship supplies, \$4,208. Z. Ward, jr., brush, poles, and piles, \$3,661.50; st., \$9,085, 95, 2003, 2011.

1896. H. J. George Grocer Co., subsistence supplies, \$3,696.51, 97, 1969.

1899. M. A. Sweeney Shipyard & Foundry Co., steel snag boat, \$32,899; steel hull, \$18,649. B. E. Rogers, st., \$1 c. y. (\$9,285). T. Lafferty, 9,285 c. y. st., 59¢ c. y., 00, 2583.

ENGINEERS.

Chief of Engineers. R., 88, 186; 89, 219; 90, 197; 91, 250; 92, 241; 93, 272; 94, 252; 95, 281; 96, 244; 97, 311, 316; 98, 302, 308; 99, 363; 00, 416.

Boards:

Convened, New York, Mar. 16, 1888, to R. upon imp. of R., Wichita, Kans., to mouth. R., 88, 1889. (Cols. Casey and Abbot, Lt. Cols. Comstock and Houston, and Maj. King.)

Constituted, S. O. No. 13, Mar. 11, 1899, to ex. and R. upon proj. for work on Arkansas R.; ex. in progress, 00, 2581.

In charge:

Capt. H. S. Taber, 1884-93. R., 88, 1380, 1386; 89, 1647; 90, 1932; 91, 2037; 92, 1676; 93, 2103.

Capt. C. F. Palfrey, 1894, 94, 1531.

Lt. Wm. L. Sibert, 1895-98. R., 95, 1998; (Capt.) 96, 1652; 97, 1952, 1989, 1990; 98, 1649, 1676.

Lt. Robert McGregor, 1899-. R., 99, 2033; (Capt.) 00, 2581.

Assistant:

P. R. Van Frank, jr. R., 94, 1540 (steamboating on the R. before the days of railroads), 00, 2585.

OPERATIONS.

1887-88. 2,594 l. f. of dike built bet. Little Rock and mouth, 88, 1383.

1888-89. Dike constr. and repairs to existing dike at Pine Bluff; 2,000 l. f. of dike built at Dardanelle; spur dike built at Van Buren; dike constr. at Baring Cross Br., and at and below Little Rock, 89, 1649.

1889-90. Dike constr. and repair at Pine Bluff; 1,500 l. f. of dike built above Fort Smith; 300 l. f. of dike built near Wilsons Rocks; constr. of 3 dikes begun below Pine Bluff; 2 quarterboats and 10 barges built, 90, 1932.

1890-91. 800 l. f. of dike built above Fort Smith and 2 dikes partly completed; 260 c. y. r. removed at Morris Rocks; 3,257 l. f. of dike built below Pine Bluff; 10 barges built, and repairs made to plant, 91, 2040.

1891-92. 800 l. f. st. and brush dike completed above Fort Smith; 926 c. y. r. excavated at Morris Rocks; 8,376 c. y. r. quarried at Big Rock stone quarry; 300 l. f. dike built at Pine Bluff; 1 m. of brush mattress, 125 to 150' w., laid and rippaped below Pine Bluff; repair and constr. of plant, 92, 1678.

1892-93. Over 15 old dikes solidified, and new ones built; nearly 15,000 c. y. r. quarried and used in the foregoing work; banks revetted; 20 barges built, and plant repaired, 93, 2105.

1893-94. Solidifying of permeable dikes and other such structures continued; several new dikes built; nearly 7,000 c. y. st. quarried and used in foregoing work and in revet. of banks; pile-driving barge built and plant repaired, 94, 1534.

1894-95. Small quantity of obstr. removed, and several dikes, training wall, dam, etc., built; nearly 8,000 l. f. revet. built; plant repaired, 95, 2001.

1895-96. Over 400 snags removed; several dikes, training wall, etc., built; nearly 10,000 l. f. revet. constr.; existing works repaired; additions made to plant and plant repaired, 96, 1655.

1896-97. Over 19,000 snags and other obstr. removed; work carried on for constr. of nearly 20 dikes, dams, training walls, etc.; repairs of several structures made; large amount dr. done; banks protected; plant repaired and additions made, 97, 1953.

1897-98. Obstr. removed; 8 secondary chans. closed, 3 wing dams built; revet. constr. at several points, and repairs to such work made at other

places; a few l.-w. chutes closed; plant repaired, 98, 1648.

1898-99. Boats repaired, and 217 snags removed from chan., 99, 2033.

1899-00. Boats repaired, 5 dikes, and Great-house and Reed Bends repaired, 00, 2585.

PHYSICAL CHARACTERISTICS.

Description of, 94, 1537; 95, 2009; 96, 1664; 97, 1953; 98, 1656.

The bed and banks to a great extent composed of sandy loam, eroding easily; as a result the chan. continually changing, caving banks wearing away, and opposite-point bars building out, 95, 2009.

Gauge readings (from 1872-87), 95, 2010; 96, 1664; 98, 1662.

In 1897 the filling up of H. and caving of banks at Van Buren, and caving of banks in vicinity of Little Rock and Dardanelle appeared to be caused by natural agencies and not by works of imp. (see Surveys and Projects), 97, 1989; 98, 1676.

Description of, in vicinity of Dardanelle, 98, 1677.

Discharge, 98, 1656, 1664; 00, 2587.

Chan. d. of crossings above Little Rock; comparison of, with unimpr. portions of the R., 98, 1657.

Effects of flood on Trial Reach, just above Little Rock, 98, 1658.

Flood of May, 1898, damaged constr. works, 00, 417.

PLANS.

By B.E. 1888, for imp. of R., Canadian R. to mouth, 424 m., giving navigable d. of 4' m. l. w. by contraction work, shore protection, and removal of obstr.; est., \$16,860,000, 88, 1400.

PRIVATE WORK.

In 1897, 7,110 l. f. bank protection, etc., built by the St. Louis Southwestern R.R. Co.; cost, \$30,477.19, the plant of the U. S. being loaned for work, 97, 1958; 98, 1652.

PROJECTS. (See Plans.)

In 1878 Maj. Suter proposed brush-and-st. dike at Fort Smith, 1,100' l., extending from left bank near mouth of Poteau R.; completed, 1879; cost, \$19,695, 78, 658; 79, 1082; 85, 1563.

1879 Maj. Suter proposed removal of snags, r., and other obstr. bet. Fort Smith and Wichita, Kans., est., \$100,000, 79, 1081, 1088; 81, 215.

1884 Maj. Adams proposed repairing a few small dikes built by private enterprise, 84, 1397; 85, 1563.

By Capt. Taber, 1885, for permanent imp. of R., Little Rock to mouth, contemplating chan. at least 6' x 200' l. w., by contraction and regulation; est., \$2,538,544, 85, 1603; 87, 1524.

In the general imp. of R. as proposed, 1885, special works of protection and contraction provided at Pine Bluff, Fort Smith, and Dardanelle, 88, 1380, 1381.

In 1889 amount required for completion increased from \$2,344,544 to \$3,651,479, 89, 1651; 92, 1679.

Act 1892 provided for expend. two-fifths of the app. of 1892 on the R. from mouth to Little Rock, two-fifths thence to Fort Smith, and one-fifth above the latter point; applied to solidifying permeable dikes, etc. (see Operations), 93, 2105.

From Aug. 29, 1896, est. for completing imp. not determinable, 97, 1952.

Results of works for permanent imp. apparently fav., 93, 2106, 2107; 97, 1967.

In 1897 (see Surveys) reported that dikes and bank protection at Pine Bluff did not injure the R. banks or H., but had preserved the city from destruction, 97, 1991.

Cost of works, 1894 to 1898, 98, 1656.

Approv. proj., 1888, to remove r. and gravel reefs by blasting and dr., to contract chan. by dikes or dams, permeable or solid, of such constr. as the local conditions require, and to hold the chan. so obtained by revet. where necessary; proj. to include R. from Wichita, Kans., to mouth, 771 m.; cost, indefinite, 00, 416.

SURVEYS.

Minor surs., 93, 2106; 94, 1535; 98, 1649; 99, 2033.

Surs. of R. at Little Rock, Van Buren, Fort Smith, Pine Bluff, and at Dardanelle au. act June 3, 1896, to ascertain what injuries had been caused.

by U. S. works of imp. in vicinity of the places named, and what steps should be taken to guard against or remedy such injuries. R. by Capt. Sibert in 1897, 97, 1989-1991; 98, 1676.

Maps. 90, 1934; 92, Atlas, 83, 84, 85; 95, 2012; 00, 2584.

Part (f), Y-2**Arkansas River.****APPROPRIATIONS.** [See part (b).]**COMMERCE.**

Description of, and relation and value of imp. to, 01, 2149.

SS. line extended to Little Rock, 04, 400.

No effect on f. rates; rail rates controlled by State commission, 10, 602.

Details, 11, 648; 12, 785.

CONTRACTS.

1900. Ed. J. Howard, repairing snag boat, \$17,762.92, 01, 2105.

1902. Hunter & Frey, repairs to Red Fork revet.—st., \$5.75 c. y.; brush, \$10.50 cord, 03, 1417.

1912. Dubuque Boat & Boiler works, constr. 2 steel hull pump drs., \$295,514, 12, 2092.

ENGINEERS.

Chief of Engineers. R., 01, 426, 2128; 02, 354; 03, 376; 04, 398; 05, 412; 06, 447; 07, 473; 08, 504; 09, 532, 548; 10, 599, 602, 617; 11, 645; 12, 781.

Boards:

Convened at Rock, Little Ark., by S. O. No. 13. A. G. O. (Lt. Col. Stickney, Capt. Sibert, and Lt. McGregor; later Capt. Newcomer substituted for Capt. Sibert, and Capt. Potter for Capt. Newcomer) to ex. and R. upon Arkansas R. with view to permanent imp. (see Projects and Surveys), 01, 2102, 2128.

Appointed act 1907 to consider plan for imp., 07, 474.

Const. by S. O. 12, O. C. E. Apr. 27, 1911. Met St. Louis, May 23-24, 1911, to consider details of dr. operations, 11, 1879.

In charge:

Capt. G. D. Fitch, 1901-06. R., 01, 2098; 02, 1571; 03, 1407; (Maj.) 04, 2095; 05, 1563; 06, 1384.

Capt. W. D. Connor, 1907-08. R., 07, 1515; 08, 1587.

Maj. M. L. Walker, 1909-10. R., 09, 1573; 10, 1727, 1733.

Maj. Clarke S. Smith, 1911-. R., 11, 1877; 12, 2089.

OBSTRUCTIONS.

R. bet. Wichita and Grand R. crossed by 19 fixed brs. and by 2 fixed dams, 01, 2129.

Complaints made that ry. brs. at Fort Smith, Holtz Rock, and above Frozen Rock unreasonable obstr.; investigations, public hearings, and reports, 08, 1588, 1589.

OPERATIONS.

1900-01. Red Fork revet. repaired; plant repaired, 01, 2099 (statement showing, in detail, nature, locality, cost, "present" condition, etc., of former works), 01, 2151.

1901-02. Repairs to snag boat, 02, 1571.

1902-03. Over 14,000 snags removed, trees cut, etc.; snag boats repaired; Red Fork revet. repaired; warehouse at Little Rock torn down and removed, 03, 1408, 1410.

1903-04. Repairs to Red Fork revet. completed; over 6,000 snags, trees, etc., removed, 04, 2096.

1904-05. Over 20,000 snags, trees, etc., removed; snag boats repaired; cut-off made at

Pawpaw Landing and one at Spellmans Pt., 05, 1564.

1905-06. Over 29,000 snags, trees, etc., removed, 06, 1384.

1906-07. About 8,800 snags, trees, etc., removed; dr. cuts through 5 bars, 07, 1516.

1907-08. Over 10,300 snags, trees, etc., removed; dr. cuts through 2 shoals for 3,950', 08, 1588, 1589.

1908-09. Over 25,000 snags, trees, etc., removed; dr. cuts through 3 shoals for 8,525', 09, 1574.

1909-10. 2,118 snags removed, 24,369 trees cut, and 5 drifts broken up; reconstr. of R.R. br. at Rob Roy begun, 10, 1729.

1910-11. Repairs made to snag boat C. B. Reese; 2,668 snags and 14,418 trees removed; for work of maintain. at Pine Bluff, 12,540' levee raised, 11, 1877, 1879.

1911-12. 1,500 snags and 14,459 trees removed, 12, 2089.

PHYSICAL CHARACTERISTICS.

Details. R. by BE., 01, 2132.

Flow and discharge measurements at different localities, 01, 2133-2144; 02, 1572; 10, 1729.

Flood heights compared with 1892 and 1898, 04, 2096.

5 cut-offs made in 5 years, 09, 1577.

Details of, 10, 601; 11, 6451; 12, 784.

Remarks on l. w., 11, 1879.

Floods damage revet. at Pine Bluff, 12, 2090.

Ft. Gibson on Neosho (Grand) R. (463 m. above mouth of A. R.) head of "navigation," 1912. Some seasons "navigation" impossible; sometimes possible to maintain 3' to Ft. Gibson all year, 12, 784.

PRIVATE WORK.

St. Louis Southern Ry. Co., constr. brush structures along R. bank, 08, 1589.

1,960' revet. built in Cummins Bend by combined local, State, and RR. interests; 1 m. bank at Keatts Bend protected by private interests, 10, 1730.

PROJECTS.

BE. reported, 1900—1st section, source to Grand R., 1,000 m., not worthy of immediate imp.; 2d section, Grand R. to Little Rock, 287 m., to secure open R. chan. 300' w. and d. varying from 2' to 24' at Grand R. to 4 1/2' or 5' at Little Rock and Dardanelle, \$15,280,925, or d. of 6' by locks and dams, \$26,677,200; and 3d section, Little Rock to mouth, 173 m., open R. chan., 5' to 7' d., \$9,982,475 1/2 grand total, \$25,263,400; for open river imp., mouth to Ft. Gibson, in addition, a snag boat, (est. \$75,000 with \$25,000 an. for operation); 01, 2102, 2129, 2145, 2148.

Act June 13, 1902, merged the prior general proj. into one, to embrace imp. of A. R., mouth to head of navigation, by snagging, dr., and by contraction works, holding the imp. chan. by revet. where necessary; no definite est. given, 02, 354, 1571; 12, 783.

Plan by BE. for imp., mouth to Little Rock, est., \$300,000 for plant, \$100,000 an. for maintain., 09, 548.

By Maj. Walker, 3 plans and est. for imp. Little Rock to Ozark; BERRH asserted that cost of any one of the plans would be greater than U. S. would be justified in incurring and recom. dr. with 2 U. S. dr., the work above Little Rock to be extension

¹ H. D. 150, 56th, 2d.

² H. D. 71, 61st, 1st.

of that recom. below by the BE R. in H. Doc. 71, 61st, 1st; est., plant, \$349,000; \$118,700 an. for operating;¹ au. act June 25, 1910, 10, 617; 12, 783.

Necessity of securing U. S. plant forrevet. work if such works are to be maintained; est., \$55,000, 10, 1730.

Act June 25, 1910, au. mainten. at Pine Bluff, 12, 783.

SURVEYS.

Ex. au. act Mar. 3, 1899; BE R. (q. v.), 01, 2128. Ex. up to Muskogee and at Pine Bluff by BE., au. act Mar. 2, 1907,² 07, 474; 09, 548.

Ex., Douglass, au. act Mar. 3, 1909; made, 1909; Maj. Walker's R. unfav.,³ 09, 548.

Ex., Fort Smith, Ark., to Tulsa, Okla., au. act Mar. 3, 1909; Maj. Walker's⁴ R. unfav. save to occasional snagging bet. Ft. Smith and mouth of Neosho (Grand) R. 10, 617.

Ex., Little Rock to Ozark, Ark., au. act Mar. 3, 1909, with view to imp. by locks and dams; made, 1909; Maj. Walker's¹ R. fav. to revetments supple. by 2 U. S. dr., but BE recom. trial imp. by 2 U. S. dr. alone 10, 617.

APPROPRIATIONS. [See part (b).]

COMMERCE.

Important, 84, 1391; 86, 1374, 1390; 87, 1508.

Prospective advantages from completion of imp., 88, 1379; 89, 1646; 91, 2036.

Much benefited by works of imp., 94, 1530.

CONTRACTS:

1895. J. E. Joyce & Co., subsistence supplies for snagging party, \$2,421.91; Dickinson Hardware Co., boat supplies, \$2,560, 95, 1998.

1900. Ed. J. Howard, repairs to snag boat, \$17,762.92, 01, 2098.

ENGINEERS.

Chief of Engineers. R., 80, 162; 81, 213; 82, 211; 83, 219; 84, 227; 85, 244; 86, 238; 87, 204; 88, 185; 89, 218; 90, 196; 91, 249; 92, 241; 93, 272; 94, 251; 95, 280; 96, 244; 97, 310; 98, 302; 99, 362; 00, 415; 01, 425.

In charge:

Maj. C. B. Suter, 1880-81. R., 80, 1401.
Capt. T. H. Handbury, 1881-83. R., 81, 1499; 82, 1571; 83, 1165.

Maj. M. B. Adams, 1883-84. R., 84, 1390.
Capt. H. S. Taber, 1884-93. R., 85, 1558; 86, 1371; 87, 1506; 88, 1378; 89, 1643; 90, 1928; 91, 2033; 92, 1673; 93, 2102.

Capt. C. F. Palfrey, 1894. R., 94, 1529.
Lt. Wm. L. Sibert, 1895-98. R., 95, 1995; (Capt.) 96, 1649; 97, 1949; 98, 1647.

Lt. Robert McGregor, 1899-1900. R., 99, 2031; (Capt.) 00, 2577.

Capt. G. D. Fitch, 1901-. 01, 2095.
Assistant. P. R. Van Frank, jr. R., 00, 2579.

OPERATIONS.

1879-80. 34 m. of R. bet. mouth and Trustee Bend worked over; 1,238 snags and trees and 19 drift piles removed, 80, 1403.

1880-81. 2,377 snags and trees and 44 drift piles removed bet. mouth and Webbers Falls, 81, 1500.

1881-82. 4,436 snags and trees and 18 drift piles removed bet. mouth and Fort Smith, 82, 1572.

1882-83. 1,287 snags and 12 drift piles removed bet. mouth and Fort Smith, 83, 1166.

1883-84. 654 snags and 9 drift piles removed, 84, 1390.

1884-85. 15,178 snags and trees and 19 drift piles removed bet. mouth and Fort Gibson, 85, 1559.

1885-86. Repair of snag boat *Wichita*, 86, 1372.

1886-87. 1,385 snags removed, 87, 1508.

1888-89. Reconstr. of snag boat *Wichita*, 89, 1644.

1889-90. 552 snags and 231 overhanging trees removed, 90, 1929.

1890-91. 300 snags removed from chan., 2,000 trees cut, and 13,000 trees deadened upon banks, 91, 2034.

1891-92. 787 snags removed, 544 overhanging trees cut away, and 4 drift piles destroyed, 92, 1674.

1892-93. Snag boat under constr., and about 1,500 snags and other obstr. removed, 93, 2102.

1893-94. Over 1,600 snags, etc., removed, 94, 1530.

1894-95. Over 3,500 snags, etc., removed, 95, 1997.

1895-96. Over 1,500 snags, etc., removed, 96, 1650.

1896-97. About 200 snags, etc., removed, 97, 1950.

1897-98. Nearly 15,000 snags, etc., removed, 98, 1648.

1898-99. 134 snags and other obstr. removed from chan., 99, 2031.

1899-00. About 7,400 snags and other obstr. removed from chan., 00, 2580.

1900-01. About 800 snags, etc., removed; repairs to snag boat, 01, 2096.

PHYSICAL CHARACTERISTICS.

Condition of the stream steadily imp., 94, 1530. Chan. not fixed, and erosion general; accumulation of obstr. rapid, 01, 2097.

SURVEYS.

Little Rock to mouth, 85, 1601.

Part (h), Y-2 Arkansas River, Pine Bluff.

APPROPRIATIONS. [See part (b).]

CONTRACTS.

1908. Lowrance Bros. & Leonard, constr. levee, 18.234 c. y.; clearing land, \$75 acre, 08, 1597. R. L. Leonard, constr. levee, 24 c. y., 09, 1583.

1909. C. E. Philpot, brush, \$2 cord; poles, at 6¢ each, 09, 1584.

ENGINEERS.

Chief of Engineers. R., 80, 168, 169; 81, 214; 82, 212; 83, 220; 84, 229, 1394; 85, 245; 86, 238; 87, 205; 08, 510, 519; 09, 538, 539; 10, 603, 604; 11, 650, 651; 12, 787.

Boards:

To ascertain what work should be done at Pine Bluff, 07, 474; 08, 510, 519, 1595.

¹ H. D. 510, 61st, 2d.

² H. D. 71, 61st, 1st.

³ H. D. 69, 61st, 1st.

⁴ H. D. 206, 61st, 2d.

⁵ After 1901 incl. in Part (f).

In charge:

Maj. C. R. Suter, 1879-81. **R.**, 80, 1467, 1468.
 Capt. T. H. Handbury, 1881-83. **R.**, 81, 1502; 82, 1575; 83, 1168.
 Maj. M. B. Adams, 1883-84. **R.**, 84, 1393, 1395.
 Capt. H. S. Taber, 1884. **R.**, 85, 1564, 1576; 86, 1375; 87, 1511, 1515, 1518.
 Capt. Wm. D. Connor, 1908. **R.**, 08, 1595.
 Maj. M. L. Walker, 1909-10. **R.**, 09, 1581, 1583; 10, 1734.
 Maj. C. S. Smith, 1911. **R.**, 11, 1883; 12, 2093.

Assistants:

Capt. T. H. Handbury. **R.**, 80, 1468.
 W. H. Byram. **R.**, 81, 1504.
 E. F. Officer. **R.**, 85, 1571.
 S. P. Adams. **R.**, 85, 1580.

LEGAL PROCEEDINGS.

Right of way for levee at Pine Bluff to be donated to U. S., 08, 1596.

OPERATIONS.

1880-81. 7,600 l. f. of bank revetted in front of city and at Yells Bend; 1,110 l. f. of wire curtain dike placed in chan. 24 m. above city, 81, 1502.
 1881-82. 3,000 l. f. of bank revetted at Yells Bend, 82, 1576.
 1882-83. 3,000 l. f. of bank regraded, 2,400' of l. w. and 1,000' of h. w. protection placed, 83, 1168.
 1884-85. Constr. of 2 deflecting dikes, 85, 1567. Dikes described, 85, 1571, 1581.
 1885-86. Constr. of 2 short deflecting hurdle dikes in front of Pine Bluff City, 86, 1375.
 1886-87. Extension of Dike No. 1, 87, 1516. Successful results, 87, 1517.
 1908-09. Levee at Vaugine Neck completed; emergency bank protection at Pine Bluff; 3,100 l. f. mattress placed and 1,800' bank paved, 09, 1582. 1,000 l. f. mattress built and 250 l. f. bank paved at Pine Bluff, 09, 1584.
 1909-10. 3,977 l. f. mattress built, 1,901' being reinforced with second mattress; private work reinforced with 921' mattress; 9,360' bank graded and paved above 6' stage; and repairs made, at Pine Bluff, 10, 1734.

1910-11. Mattress work of revet. along town front finished and paving completed above 6' stage, at Pine Bluff, 11, 1883. 658 c. y. st. placed in bare spots on mattresses, at Pine Bluff, 11, 1884.

1911-12. Repairs to mattresses, 12, 2093.

PHYSICAL CHARACTERISTICS.

Danger from cut-off at Pine Bluff, 80, 1469. Erosion of bank in vicinity of, 80, 1469; 84, 1395; 85, 1565. Formation of R. banks, 84, 1395. Effect of freshet in 1884, 85, 1565, 1567.

PLANS.

By Maj. Adams, 1884, after failure of previous proj., to protect Pine Bluff City by (1) formation of cut-off 3 m. from city; est., \$37,732; (2) by mattress protection, est., \$45,000; (3) by pile js. 1,500'; est., \$55,000, 84, 1396.

PRIVATE WORK.

Citizens of Pine Bluff and Jefferson Co. court built part of revet. in front of city, 09, 538, 1582-8.

PROJECTS.

By Maj. Suter, 1880, imp. of R. in vicinity of Pine Bluff, by protection of R. bank from erosion, rectification of R. just above, and prevention of cut-off across peninsula opposite Pine Bluff; est., \$100,000, 80, 1468, 1470. Failure of proj., 84, 1395; 85, 1565; 87, 1515.

By Capt. Taber, 1884, to protect threatened destruction of the city front by 2 deflecting dikes of piles, brush, and sand boxes; upper dike 1,520' and lower dike 251' l.; est., \$49,000, 85, 1567, 1571, 1581.

Submitted Aug. 14, 1907, for constr. of levee along Vaugine Neck opposite Pine Bluff; est., \$50,000, 08, 510, 1595.

SURVEYS.

Au. act Mar. 3, 1879, 79, 127; 80, 169; made by Maj. Suter, 1879, 80, 1468.

Ex. au. act Mar. 2, 1907; **R.**, BE., Aug. 14, 1907, 08, 510, 1595.

Maps. 81, 1504; 85, 1570; 09, 1584; 11, 1883; 12, 2094.

Part (i), Y-2 Arkansas River, Little Rock to Mouth.**APPROPRIATION.** [See part (b).]**ENGINEERS.**

Chief of Engineers. **R.**, 85, 251; 86, 244; 87, 206.

In charge. Capt. H. S. Taber, 1884-87. **R.**, 85, 1601; 86, 1389; 87, 1528.

Assistant. C. E. Taft. **R.**, 85, 1604.

PHYSICAL CHARACTERISTICS.

Described, 85, 1605.

Part (j), Y-2 Arkansas River, Fort Smith, Ark.**APPROPRIATIONS.** [See part (b).]**ENGINEERS.**

Chief of Engineers. **R.**, 85, 245; 87, 205.

In charge:

Maj. M. B. Adams, 1884. **R.**, 84, 1397.
 Capt. H. S. Taber, 1884-87. **R.**, 85, 1563; 87, 1511, 1518.

Assistant. F. D. Lewis, 85, 1564.

OPERATIONS.

History of previous operations, 85, 1563.

1884-85. Extension of j. previously built by private enterprise, 85, 1564.

PLANS.

By Capt. Taber, 1885, chan. 6' x 200' at l. w., Little Rock to mouth, by contraction of chan., with primary and secondary hurdles; est., \$2,533,544 (see Projects, Arkansas River, Ark.), 85, 1602.

SURVEYS.

Little Rock to mouth, 85, 1601; 86, 1389; 87, 1528.

1886-87. 1,300 l. f. of permeable dike completed, 87, 1511.

PHYSICAL CHARACTERISTICS.

Erosion of R. bank at Fort Smith, 84, 1397.

PRIVATE WORK. (See Operations; Projects.)**PROJECTS.**

In 1878 Maj. Suter, brush and st. dike at Fort Smith, 1,100' l., extending from left bank, and near mouth of Poteau R.; completed in 1879, at cost of \$19,695, 78, 658; 79, 1082; 85, 1563.

In 1884 Maj. Adams proposed repairing few small dikes built by private enterprise, 84, 1397; 85, 1563.

Part (k), Y-2 Arkansas River, Ark., Front of Crawford County Levee.

APPROPRIATIONS. [See part (b).]

ENGINEERS.

Chief of Engineers. R., 12, 786.

In charge. Maj. C. S. Smith, 1912-. R., 12, 2093.

PHYSICAL CHARACTERISTICS.

Details of, 14 m. below Van Buren, Ark., 12, 787.

PROJECTS.

Act June 25, 1912, au. protecting n. bank in front of Crawford Co. Levee; est. of minimum work needed, 2 m. of revet., at \$50,000 m., 12, 786.

Y-3 METRE BAYOU (Meto), ARK.

COMMERCE.

Unimportant, 84, 1408.

ENGINEERS.

Chief of Engineers. R., 84, 232.

In charge. Capt. T. H. Handbury. R., 84, 1408.

PHYSICAL CHARACTERISTICS.

Details, 84, 1408.

Rises in Pulaski Co., Ark., and flows into Arkansas R. about 20 m. above old Arkansas Post, 84, 1408.

SURVEYS.

Ex. au. act Aug. 2, 1882; made by Capt. Handbury (R. unfav.), 84, 1408.

Y-9 NEOSHO RIVER, KANS.

COMMERCE.

Unimportant, 97, 1985.

ENGINEERS.

Chief of Engineers. R., 97, 316.

In charge. Capt. Wm. L. Sibert, 1897. R., 97, 1984.

Assistant. J. R. Van Frank. R., 97, 1986.

OBSTRUCTIONS.

3 milldams and 19 R.R. and county bns. along this reach of R. that would obstruct navigation were it otherwise practicable, 97, 1985.

PHYSICAL CHARACTERISTICS.

Description of; l.-w. discharge, 97, 1985.

SURVEYS.

Ex. from line of Neosho Co. to the s. line of Labette Co., for straightening and otherwise imp. chan., au. act June 3, 1896; made by Capt. Sibert, 1896 (R. unfav.), 97, 1984.

Y-12 VERDIGRIS RIVER, OKLA. AND ARK.

ENGINEERS.

Chief of Engineers. R., 10, 617.

In charge. Maj. M. L. Walker, 10, 599.

SURVEY.

Pre. ex. au. act Mar. 3, 1909. R. by Maj. Walker, May 6, 1909¹ (unfav.), 10, 617.

Y-18 NORTH CANADIAN RIVER, OKLA.

ENGINEERS.

Chief of Engineers. R., 10, 617.

In charge. Maj. M. L. Walker, 10, 599.

SURVEY.

Pre. ex. au. act Mar. 3, 1909, with view to diversion of portion of waters into Cimarron R. for imp. navigation of the latter R. R. by Maj. Walker, May 4, 1909² (unfav.), 10, 617.

Y-21 PETIT JEAN RIVER, ARK.

APPROPRIATIONS.

1886, \$3,500, 87, 1530.

1888, 2,500, 88, 1401.

1892, 3,500, 92, 1683.

Total, 9,500

COMMERCE.

Important, 71, 353, 354.

Navigation dependent on backwater of the Arkansas R., 71, 354.

Prospective increase to result from imp., 88, 1401.

Probable reduction in rates consequent upon imp., 91, 2047.

Small, 94, 1546.

ENGINEERS.

Chief of Engineers. R., 70, 31, 66; 71, 59; 85, 252; 87, 206; 88, 187; 89, 220; 90, 198; 91, 252; 92, 243; 93, 275; 94, 253; 95, 282; 96, 245.

¹ H. D. 343, 61st, 2d.

² H. D. 357, 61st, 2d.

In charge:

Lt. Col. W. F. Reynolds. **R.**, 71, 350.
 Capt. H. S. Taber, 1885-93. **R.**, 85, 1627; 87, 1529; 88, 1400; 89, 1652; 90, 1939; 91, 2046; 92, 1682; 93, 2110.

Capt. C. F. Palfrey, 1894. **R.**, 94, 1546.

Lt. Wm. L. Sibert, 1895. **R.**, 95, 2015.

Assistants:

J. Straszer. **R.**, 71, 351.

M. A. Oriapp. **R.**, 85, 1628.

OBSTRUCTIONS.

Br. at Rocky Crossing an absolute bar to S. navigation, Danville to mouth, having no draw, 87, 1539; 93, 2111; 94, 1546.

OPERATIONS.

1886-87. Removal of obstr. bet. mouth and Rocky Crossing, 87, 1529.

1890-91. 599 snags and 340 c. y. r. and gravel removed from chan., and 4,079 trees cleared from banks, 91, 2046.

1893-94. Brush wing dam constr. and nearly 1,000 snags and other obstr. removed, 94, 1546.

PHYSICAL CHARACTERISTICS.

Described, 71, 350, 351, 352; 85, 1628; 94, 1546.
 List of obstr., 71, 351, 353.

PLAN.

By J. Straszer, imp. by removal of obstr., such as trees, snags, etc.; est., \$68,402; not considered practicable by Col. Reynolds, 71, 351, 353.

PROJECTS.

By Capt. Taber, 1885, imp. of h.-w. navigation as far as Danville, by removal of snags and similar obstr.; est., \$6,480, 85, 1630. Increased, 1888, to \$7,000, 88, 1401. Modified in 1889 to provide for expend. \$2,500 below Rocky Crossing in removing timber from l.-w. chan. and a small portion of the ledges at Slaty Crossing and Robinsons Ridge, increasing est. cost of imp. to \$9,500, 89, 1653, 1654; 92, 1683.

Small plant trans. to Arkansas R., 94, 1547.

SURVEYS.

By J. Straszer, 1870-71, under direction of Lt. Col. Reynolds (see Plans), 70, 31, 36; 71, 59, 351.

Ex. au. act July 5, 1884; made by Capt. Taber (see Projects), 85, 1627.

Y-22 FOURCHE LE FEVRÉ RIVER (Fourche La Faive (Fevé) RIVER, ARK.

APPROPRIATIONS.

1879, \$10,000, 79, 116, 971.

1880, 4,000, 80, 1325.

1881, 3,000, 81, 1514.

1882, 4,000, 82, 1583.

1886, 5,000, 87, 1532.

1890, 7,500, 90, 1942.

Total, 33,500

COMMERCE.

Not unimportant, 72, 389; 79, 972; unimportant, 93, 2126.

C. interests to be subserved by imp., 91, 2045.

Description of, 95, 2014.

ENGINEERS.

Chief of Engineers. **R.**, 71, 59; 72, 56; 78, 89; 79, 116, 118; 80, 155; 81, 218; 82, 215; 83, 223; 88, 188; 89, 221; 90, 199; 91, 251; 92, 243; 93, 274, 279; 94, 252; 95, 282; 96, 245.

In charge:

Lt. Col. W. F. Reynolds, 1872; 72, 386.

Capt. C. F. Palfrey, 1894. **R.**, 94, 1544.

Lt. Wm. L. Sibert, 1895. **R.**, 95, 2013.

Assistants:

A. H. Blaisdell. **R.**, 72, 387.

Z. Harrison. **R.**, 79, 972.

A. Walker, jr. **R.**, 93, 2127.

OPERATIONS.

1879-80. Removal by hired labor of 7,557 trees and snags, and a number of r. removed at shoals, 80, 1324.

1880-81. 53 snags removed, rs. taken from shoals, and small dams built, 81, 1435, 1514.

1881-82. 476 logs and snags removed, 82, 1583.

1882-83. Removal of snags and trees, 83, 1172. Operations discontinued to 1886, 87, 1531.

1886-87. Partial formation of chan. through Rock Shoal, 87, 1531.

1887-88. Chan. completed through shoal below Perryville, 88, 1402.

1890-91. Snag boat built, 91, 2044.

1891-92. 1,326 snags and stumps, 4 drift piles, and 923 c. y. r. and gravel removed from the chan., and 15,600 overhanging trees cleared from the banks, 92, 1682.

PHYSICAL CHARACTERISTICS.

Description of, 72, 387; 79, 972; 93, 2127. Floods, 72, 387. Shoals, 79, 973.

PLANS. (See Projects.)

By A. H. Blaisdell, imp. R. by removing snags and leaning trees, \$25,890, 72, 390.

PROJECTS. (See Plans.)

By Maj. Benyaud, 1879, removing snags, bowlders, and leaning trees; est., \$23,034.50, 79, 972, 81, 1435.

After expending \$26,000 on this proj., Capt. Taber proposed to excavate a chan. through certain r. shoals below Perryville; est., \$7,650, 89, 1655.

In 1892-93 plant was sold to app. for removing obstr. in Arkansas R., 93, 2109.

Works of imp. effective, 95, 2014.

ESTIMATES. (See Plans and Projects.)

White R.:

By Lt. Col. Reynolds, removal of snags, wrecks, and leaning trees, \$170,000, 71, 366.

By A. Livermore, constr. of wing dams and removal of obstr., \$60,440, 71, 370. Imp. from James Fork to Forsyth by wing dams, and removal of obstr., \$30,375; Forsyth, Mo., to foot of Buffalo Shoals, Ark., \$70,845, 72, 376.

By Maj. Suter, permanent imp. above Jacksonport by system of dikes, and removal of snags, \$710,234.37, 76, 626. Imp. at Buffalo Shoals, \$10,000, 78, 662, 663.

By Maj. Benyaard, completion of imp. at Buffalo Shoals, \$15,000, H. D. 57, 45th, 3d.

White and St. Francis Rs.:

By Maj. Benyaard, continuing imp., \$40,000, H. D. 57, 45th, 3d.

Black R.:

By Lt. Col. Reynolds, removal of snags, trees, etc., \$50,968, 71, 374. Imp. of R., and constr. of snag boat, \$110,561, 72, 378.

By A. H. Blaisdell, removal of snags, sunken logs, leaning trees, and drift piles; also building 1,200 l. f. of wing dams, \$90,561, 72, 381.

By Maj. Benyaard, imp. of R. by removing snags, leaning trees, and constr. of 3,500' of dams, \$80,800, H. D. 35, 46th, 2d.

¹ Sur.—R., Aug. 1, 1837; est., \$12,390. (H. D. 482, 55th, 2d.)

White, Black, and Little Red Rs.:

By Lt. Col. Reynolds, snag boat and running expenses for 6 months, \$135,000, 71, 377.

Little Red R.:

By Lt. Col. Reynolds, removal of obstr., \$38,065, 71, 362.

St. Francis R.:

By H. L. Koons, imp. from mouth to Wittsburgh; by means of wing dams and removal of obstr., \$53,229.76, 71, 360.

OPERATIONS.

1871-72. St. Francis R., 431 snags, 151 trees, and 2 drift piles removed; White and St. Francis Rs., 543 snags, 422 trees, and 3 drift piles removed, 72, 53, 343.

1872-73. White and St. Francis Rs., repairs to snag boat, 73, 492.

1873-74. White and St. Francis Rs., 87 snags, 1,668 trees, and 1 drift pile removed, 74, 372.

1874-75. White R., 313 snags, 1,548 trees, 5 drift piles, 2 wrecks, and 681 c. f. of st. removed, 75, 68, 516.

1875-78. White R., clearing chan. at Buffalo Shoals of bowlders, 78, 661.

1878-79. White R., removal of loose r., 79, 126, 1082.

PHYSICAL CHARACTERISTICS.

White R., described, 74, 366. High and l. w., 71, 372. Oscillations, 76, 616.

Black R., described, 72, 379. Table of shoals, 72, 382.

St. Francis R., described, 73, 477.

Little Red R., floods, 71, 363.

PLANS. (See Estimates and Projects.)**White R.:**

By A. Livermore, constr. of dams, and removal of obstr., etc., 72, 376.

By Maj. Suter, constr. of dikes, and removal of snags, 76, 725.

Black R.:

By Maj. Benyaud, removal of snags and leaning trees; also constr. of 3,500' of dams, H. D. 35, 46th, 2d.

St. Francis R.:

By H. L. Koons, imp. R. by wing dams, and removal of obstr., 71, 360.

By Lt. Col. Reynolds, dr. in place of wing dams, 71, 356.

Little Red R.:

By Lt. Col. Reynolds, removal of obstr., 71, 363.

PRIVATE (STATE) WORK.

Crib dam erected by Arkansas for imp. of White R., 71, 367. Large quantities of land donated by Missouri for imp. of Black R., 72, 380. In 1870 the State of Missouri app. \$15,000 for imp. of Black R., with proviso that Arkansas would provide for similar imp.; Arkansas failed to make any app., 72, 380.

PROJECTS. (See Estimates and Plans.)**White R.:**

By Maj. Suter, removal of snags, leaning trees, and bowlders; also constr. of dikes, 74, 63; 78, 92. Constr. of 7 spur dikes of st. at Buffalo Shoals, and removal of bowlders, 78, 661.

St. Francis R.:

By Col. Simpson, removal of obstr., 73, 476.

By Maj. Benyaud, to cut the heavy timber along the banks of the Upper St. Francis; est., \$3,000, 79, 988.

White, Black, and Little Red Rs.:

By Lt. Col. Reynolds, removal of obstr., 71, 377.

White and St. Francis R.:

By Maj. Suter, removal of snags and leaning trees, 73, 492.

Map. Of Buffalo Shoals, White R., 78, 662.

Part (b), Y-23 White and St. Francis Rivers, Ark. (Snagging operations on.)

APPROPRIATIONS.

1880, \$12,000, 80, 1311.

1881, 8,000, 81, 1511.

1882, 12,000, 82, 1575.

Total, 32,000

App. prior to 1880, 80, 1311.

ENGINEERS.

Chief of Engineers. R., 80, 153; 81, 215; 82, 211; 83, 220; 84, 228; 85, 249.

In charge:

Maj. W. H. H. Benyaud, 1879-82. R., 80, 1311; 81, 1428.

Capt. T. H. Handbury, 1881-84. R., 81, 1510; 82, 1574; 83, 1166.

Maj. M. B. Adams, 1884. R., 84, 1392.

Capt. H. S. Taber, 1885. R., 85, 1594.

OPERATIONS.

1879-80. 1,151 trees cut down, 130 snags removed, and 11 r. heaps destroyed, 80, 1311.

1880-81. 270 snags and wreck of coal barge removed; 298 trees cut down, 81, 1429.

1881-82. 279 snags removed, 2 sunken barges destroyed, and 122 trees cut down, 82, 1574.

1882-83. 864 snags removed and 2,184 trees cut down, 83, 1167.

1883-84. 93 snags removed and 95 trees cut down, 84, 1392.

After 1884 operations were carried on under separate app. for White and St. Francis Rs.

PROJECTS.

In 1873 Maj. Suter recom. imp. of both the White and St. Francis Rs. by removal of snags, logs, wrecks, and similar obstr. from their existing chans., and also of leaning trees from the banks, 73, 492. No definite amount est. for completion of this proj., and the work of imp. was carried on upon both Rs. by joint apps. until June 30, 1884, 86, 1378. Separate app. made for these Rs., 1884 and 1886.

rock at Porter Hodge Shoal; wing dams built at Wyatts and O'Neals Shoals, 85, 1587, 1590, 1593.

1885-86. Repair of dams at Buffalo Shoals, and removal of obstr. bet. Calico Rock and Batesville, 86, 1379, 1380, 1382.

1886-87. 166 snags and 6 drift piles and 2,115 trees removed bet. Newport and mouth of the R., 87, 1535, 1536.

1887-88. Snags and logs removed near Devalls Bluff and Clarendon, 88, 1404.

1888-89. 6 barges, pile driver, and quarter-boast built; snagging operations begun, 89, 1656.

1889-90. 620 l. f. of dam repaired; 2,440 l. f. of dam built; 367 c. y. of rock blasted and removed, 90, 1943.

1890-91. 1,460 l. f. of dam work built, and 11 c. y. of rock removed from chan., 91, 2048.

1891-92. 2,844 c. y. of rock and 510 cords of brush used in dam constr., 92, 1684.

1892-93. Nearly 4,000 c. y. rock quarried and some of it transferred to location of dikes, 93, 2112.

1893-94. Several dikes built; nearly 500 snags and other obstr. removed; nearly 300 bowlders and 50 c. y. rocky reef removed; wing dams repaired, and plant repaired, 94, 1551.

1894-95. Nearly 2,000 snags, etc., removed; 2,310 l. f. revet. work in progress, and plant repaired, 95, 2020, 2021.

1895-96. Wing dams constr. at about 9 places; revet. constr. continued; nearly 500 snags, etc., removed, and about 400 c. y. bowlders, loose and solid rock removed; plant repaired. Exhibit of field expend., 96, 1672.

1896-97. Small repairs made to revet., and nearly 3,800 snags, etc., removed; plant repaired, 97, 1971.

1897-98. Nearly 600 snags, etc., removed; over 40 shoals dr. through; nearly 1,500 snags, etc., removed from Cache R., 98, 1666.

1898-99. A few obstr. removed from chan., and boats repaired, 99, 2035.

1899-00. 1,142 snags and other obstr. removed from chan., 00, 2595.

1900-01. 136 snags pulled, 294 trees cut, and repairs made to snag boat, 01, 2106.

1902-03. New hull for snag boat *Beauregard* constr., and snags and other obstr. removed from R., 03, 1418.

1903-04. 754 snags removed, 9 drifts broken up, and 5,425 trees cut, 04, 2101.

1904-05. 1,031 snags removed, and 3,259 trees cut, 05, 1569.

1905-06. 860 snags removed, 2,881 trees cut, and neck at Augusta Narrows closed by st. filling, 06, 1387.

1906-07. 207 snags removed, 2 drifts broken up, and 5,352 trees cut, 07, 1521.

1907-08. 567 snags removed, 951 trees cut, and 4 drifts broken up, 08, 1593.

1908-09. 771 snags removed, 32 drifts broken up, and 2,828 trees cut, 09, 1580.

1909-10. 1,123 snags removed, 62 drifts broken up, and 5,549 trees cut, 10, 1736.

1910-11. 1,307 snags removed, 15 drifts broken up, and 1,502 trees cut, 11, 1885.

1911-12. 1,172 snags removed, 47 drifts broken up, and 4,263 trees cut, 12, 2095.

PHYSICAL CHARACTERISTICS.

Description of, 94, 1551; 95, 2021; 96, 1680; 97, 1972.

Description of, upper White R.; above where Black R. enters, the fall increases and d. decreases, 96, 1697; shoals, description of, and comparison of, at 1874 and 1895, 96, 1698.

Description of, bet. Batesville and Buffalo Shoals, 97, 1992.

PLANS. (See Projects.)

Capt. Handbury, 1883, reports that imp. of White R. at Memphis & Little Rock R.R. br. not necessary or advisable, 84, 1410.

PROJECTS. (See Plans.)

Proj. for imp. of R. bet. Jacksonport and Buffalo Shoals, made 1871-72, proposed removal of snags, logs, and rock, and imp. of shoals by the constr. of wing dams, 71, 370; 72, 376; 80, 1314; 85, 1592.

Imp. of R. at Buffalo Shoals proposed to be accomplished by removal of bowlders, and constr. of 7 spur dikes, 73, 661.

1874 to 1879, incl., \$70,000 app. for imp. of R. above Jacksonport, 74, 63; 76, 80; 79, 115.

In 1887 est. that, pending plans and estimates for permanent imp. of the R., a yearly app. of \$8,000 for removal of snags would be required for 1 or 2 years, 87, 308, 1536.

By Capt. Taber, 1888, permanent imp. of R., giving min. d. of 5' at extreme l. w. from mouth to Newport, and a d. of 2' at l. w. from Newport to Buffalo Shoals, by constr. of spur dikes to contract the flow, and by removal of obstr.; est., \$105,315, 88, 1407-1412.

\$53,815 of app. of 1892 was for completion of existing proj., and remainder to be expend. at discretion of Sec. of War, 93, 2112.

Works of imp. apparently effective, 96, 1680; 97, 1972; 98, 1666.

In 1896 Capt. Sibert est. \$1,600,000 to obtain slack-water navigation bet. Buffalo Shoals and Batesville, 97, 1992.

\$378.84 of unexpended balance of July 1, 1898, was for removal of obstruction in Cache R. being the unexpended portion of \$2,000 allotted from R. & H. act, 1896, from White R. to Cache R. 98, 1667.

SURVEYS.

Ex. of White R. from Forsythe to Buffalo Shoals, made by Maj. Benyard, 1880, 81, 1432.

Ex. and sur. of White R. at Memphis & Little Rock R.R. br., near Devalls Bluff, made, 1882-83, by Capt. Handbury, 84, 1409.

Misc. sur., 93, 2112; 94, 1551.

Ex. of upper R. au. act Aug. 17, 1894; made by Lt. Sibert, 1895 (DE. R. fav., C. of E. unfav.), 96, 1697.

Sur. of R. bet. Batesville and Buffalo Shoals, with view to imp. by slack-water navigation, au. act June 3, 1896; R., 1896, by Capt. Sibert (see Projects), 97, 1992.

Maps, 96, 1684.

Part (d), Y-23 White River (Upper), Ark.

APPROPRIATIONS.

1899,	\$160,000,	99, 2038.
1900,	150,000,	00, 2597.
1902,	270,000,	02, 1582.
1905,	160,000,	05, 1573.
1907,	73,500,	07, 1523.

Total, 813,500

COMMERCE.

Country rich in manganese and zinc ores and marble, in addition to the lumber and agricultural interests, 97, 1994.

CONTRACTS.

1900. Glencoe Lime & Cement Co., Portland cement, \$2.45 and \$3.15 bbl. (\$9,065 and \$11,655). R. S. Hanford, natural cement, \$1.20 bbl.; st., 74¢ and \$2 c. y.; sand, \$1 c. y. (\$32,108). Ward & Wise, st., 70¢ c. y. (\$2,450). W. H. Woodsmall, sand, 33¢ c. y. (\$1,848). Kansas City & Southern Lumber Co., lumber, \$15 to \$40 M. f. (\$12,550). New Jersey Foundry & Machine Co., ironwork, \$2,991.88. McCoppin, hauling material from ry. station to site of works, st., 60¢ c. y.; sand, 38¢ c. y.; and cement, 8¢ bbl. (\$5,108). 00, 2598, 2599.

1901. Alpha Portland Cement Co., 5,000 bbls. cement, \$2.20 bbl.; Glencoe Lime & Cement Co.

11,000 bbls. cement, \$1.82 bbl. Griffiths Iron Works Co., wrought iron, \$0.049 lb.; cast iron, \$0.039 lb.; steel, \$0.0675 lb., **01**, 2111.

1903. Robt. W. Earnheart, st., prices given. Bryant Lumber Co., lumber, prices given. W. B. Ferguson, timber, \$15 1,000' b. m. Urania Lumber Co. (Ltd.), \$9 1,000' b. m. Edwin S. Healy, 2,600 bbls. cement, \$2.70 bbl., **03**, 1430.

1904. Urania Lumber Co. (Ltd.), lumber, \$15 1,000' b. m. Albright & Ferrill, st. riprap, 9,000 c. y., at 78¢ c. y. Jas. G. Clarke, pine lumber (prices given), **04**, 2108.

1905. R. W. Earnheart, st. and timber (prices given). Jas. G. Clarke, pine lumber (prices given), **05**, 1573.

1906. Edwin S. Healy, Portland cement, \$1.84 bbl. Thomas-Fordyce Mfg. Co., iron and steel (prices given). J. E. Bell, riprap st. (prices given). Bryant Lumber Co., white oak lumber, rough (prices given), **06**, 1390.

1907. C. J. Carter Lumber Co., rough oak, gum, pine or ash lumber (prices given). Albright & Ramsey, riprap st., 83¢ c. y., **07**, 1524.

ENGINEERS.

Capt. W. D. Connor, 1906-08. **R.**, **07**, 1523; **08**, 1597.

Capt. G. R. Lukesh, **09**, 532.
Maj. M. L. Walker, 1908-10. **R.**, **09**, 1584; **10**, 1738.

Maj. C. S. Smith, 1910-. **R.**, **11**, 1886; **12**, 2097.

Assistant. Wm. Parkin. **R.**, **00**, 2600; **01**, 2112; **02**, 1580; **03**, 1421; **04**, 2103; **05**, 1571.

LEGAL PROCEEDINGS.

Complete title to land at Batesville site obtained in Mar., 1900, **00**, 2596.

OPERATIONS.

1899-00. Constr. of Lock and Dam No. 1 in progress, **00**, 2596.

1900-01. Work at Lock and Dam No. 1 in progress. At Lock and Dam No. 2, lock house completed, abutment nearly completed; cofferdam work under way, **01**, 2109.

1901-02. At Lock and Dam No. 2 lock walls, back filling, and abutment completed. Summary of concrete in Lock No. 2 given, **02**, 1580.

1902-03. At Lock and Dam No. 1, land and guide cribs, lock house, warehouse, and dam built. At Lock and Dam No. 2, upper guide and land cribs nearly completed, lower land crib built to pool level, etc.; all floating plant repaired, **03**, 1420.

1903-04. History of constr. of l. and d., with technical details, **04**, 3750. At Lock and Dam No. 1, new abutment and bank protection built; this l. and d. trans. to app. "Operation and care of canals" on Jan. 16, 1904. Work on Lock and Dam No. 2 in progress, **04**, 2102.

1904-05. Work of rebacking dam at Lock and Dam No. 1. Lock and Dam No. 2 nearly completed. Trans. to "Operation and care" on Feb. 16, 1905. Work on Lock and Dam No. 3 begun Apr. 13, 1905, **05**, 1570.

1905-06. Lock and Dam No. 2, lower R. crib rebuilt. This l. and d. now completed. At Lock and Dam No. 3 the lock walls and upper guide cribs built, and excavation for abutment commenced, **06**, 1389.

1906-07. Abutment for Dam No. 3 completed; floating plant overhauled and repaired, **07**, 1523.

1907-08. Lock and Dam No. 3 completed and placed under "Operation and care" Feb. 1, 1908. History of constr. of Lock and Dam No. 3, **08**, 1597.

1908-09. At Lock No. 3, lower crib extended 75' downstream, **09**, 1584.

1911-12. 407 c. y. st. placed in bank protection at Dam No. 3, **12**, 2097.

PHYSICAL CHARACTERISTICS.

Description of, **97**, 1992.

Discharge observations, **01**, 2115; **02**, 1581; **03**, 1425.

Abutment of Dam No. 1 totally destroyed by freshet on Nov. 25, 1902, **03**, 1422.

Chan. d., **08**, 511.

PROJECTS.

By Capt. Sibert, 1897, slack-water navigation, Batesville to Buffalo Shoals, by means of 10 fixed dams with masonry locks; est., \$1,600,000, **97**, 1993.

By Capt. McGregor, 1900, expend. \$150,000 to constr. Dam No. 2; est. of the dam, \$221,171.50, **00**, 2596.

Capt. Fitch recom. discontinuance of imp. this portion of White R. after completion of Locks and Dams Nos. 1 and 2, **03**, 1426.

SURVEYS.

Sur., Batesville to Buffalo Shoals, with view to imp. by slack-water navigation, au. act June 3, 1896; **R.** by Capt. Sibert, based on sur. made, 1887, by Capt. Taber (see Projects), **97**, 1992.

Sur. for location of Dams Nos. 1 and 2, made, 1899-1900, **99**, 2038; **00**, 2596.

For sites for Locks Nos. 2 and 3, **01**, 2109.

Ex. to determine desirability of constr. further l. and d., au. act Mar. 3, 1905; made by B.E., **R.** July 16, 1905. Not considered desirable,¹ **06**, 460.

Part (e), Y-23 Buffalo Fork, White River, Ark.

APPROPRIATION.

1899, \$3,500, **99**, 2038.

COMMERCE.

Description of, **97**, 1995.

Very little steamboating ever attempted on this stream, **99**, 2037.

Natural chan. is "now" available to fullest extent for flatboats and rafts, **00**, 420.

For year ending May 31, 1900, 998 t.; value, \$8,436, **00**, 420.

ENGINEERS.

Chief of Engineers. **R.**, **97**, 317; **99**, 365; **00**, 420; **01**, 429; **02**, 359; **03**, 382.

In charge:

Capt. Wm. L. Sibert, 1897. **R.**, **97**, 1994.
Lt. Robert McGregor, 1899-1900. **R.**, **99**, 2037; (Capt.) **00**, 2601.

Capt. G. D. Fitch, 1901-02. **R.**, **01**, 2119; **02**, 1583.

Assistant. Wm. Parkin. **R.**, **97**, 1998.

¹ H. D. 150, 59th, 1st.

OPERATIONS.

3,350 trees, 430 cords of brush, and 2,000 c. y. loose rock removed, completing the work, **00**, 2601.

PHYSICAL CHARACTERISTICS.

Description of Table showing extent and nature of shoals, **97**, 1995, 1998.

PROJECTS.

Capt. Sibert est., 1897, \$750,000 to obtain slack-water navigation, **97**, 1995.

By Capt. Sibert, 1897, removal of overhanging timber, and loose and solid rock from shoals, mouth to the mouth of Rush Creek; est., \$3,500, **97**, 1995.

SURVEYS.

Sur., mouth of Buffalo Fork to mouth of Rush Creek, to determine character and extent of imp. required, au. act June 3, 1896; made, 1897, by Capt. Sibert (see Projects), **97**, 1995.

Part (f), Y-23 White River (Upper), Ark., Locks and Dams. (Operating and care.)

Lt. R. McGregor, 1899-1900. **R.**, **99**, 2039; (Capt.) **00**, 2602.

Capt. G. D. Fitch, 1901-06. **R.**, **01**, 2120; **02**, 1584; **03**, 1431; (Maj.) **04**, 2110; **05**, 1575; **06**, 1394.

Capt. Wm. D. Connor, 1907-08. **R.**, **07**, 1527; **08**, 1602.

Maj. M. L. Walker, 1909-10. **R.**, **09**, 1587; **10**, 1741.

Maj. Clarke S. Smith, 1911-. **R.**, **11**, 1890; **12**, 2099.

Assistants:

D. Fitzgerald. **R.**, **71**, 354.

Z. Harrison. **R.**, **80**, 1478.

P. R. Van Frank, jr. **R.**, **95**, 2038; **00**, 2603.

OBSTRUCTIONS.

Little Rock & Memphis R.R. br. at Old Boyds Landing an obstr. to through steamboat navigation, and said to be the cause of steamboats leaving **R.**, **95**, 2024.

OPERATIONS.

1888-89. Snag boat *Riverside* built; 67 snags, 14 drift piles, and 69 overhanging trees removed, **89**, 1659.

1889-90. 341 snags, 158 trees, and 20 drift piles removed, **90**, 1947.

1892-93. Nearly 1,600 snags and other obstr. removed, **93**, 2114.

1893-94. Over 500 snags, etc., removed, **94**, 1554.

1899-00. About 3,700 snags and other obstr. removed from chan., **00**, 2603.

1902-03. 2,604 snags and other obstr. removed; limbs cut from 504 trees and sunken SS. broken up, **03**, 1431.

1905-06. 1,175 snags and other obstr. removed, 2,347 trees girdled, and 58 drifts broken up, **06**, 1394.

1908-09. 8,802 snags and other obstr. removed and 123 drifts broken up, **09**, 1587.

1909-10. 2,582 snags and other obstr. removed and 8 drifts broken up, **10**, 1741.

1910-11. 927 snags removed, 63 drifts broken up, 2,244 trees cut, 771 trees girdled, and overhanging limbs trimmed from 640 trees, **11**, 1890.

1911-12. 2,231 snags removed from chan., 33 drifts broken up, 705 trees cut, and 480 trees girdled, **12**, 2099.

PHYSICAL CHARACTERISTICS.

Description of, **81**, 1479; **95**, 2024; **12**, 793.

Severe storm, 1893, blocked R. with fallen timber, **94**, 1554.

Description of, to *Riverside*, **95**, 2037.

Not navigable at lowest stages, **05**, 418.

Range bet. h. and l. w., from 15' above to 32' at mouth, **07**, 481.

300 m. l.; existing proj. covers 86 m.

PLANS.

By D. Fitzgerald, removing overhanging trees and snags; est., \$4,000, **71**, 354, 355.

By Maj. Benyaard, 1880, imp. R., mouth to Grays Ferry, 160 m., by removing snags, logs, and overhanging trees; est., \$30,316, **81**, 1478.

PROJECTS.

By Capt. Taber, 1887, removing snags, mouth to *Riverside*; est., \$7,000, **87**, 1548; increased to \$10,000 in 1891, **91**, 2053.

Small plant consolidated with that of White R., **94**, 1554.

The existing proj., 1901, that au. 1896, covering removal of obstr., mouth to Grays Ferry, 79 m., **01**, 430.

SURVEYS.

Au. act July 11, 1870, assigned to Lt. Col. W. F. Reynolds, made by D. Fitzgerald. **R.**, **71**, 354.

Ex. to *Riverside* with view to slack-water navigation, au. act Aug. 17, 1894; made by Lt. Sibert, 1895, **95**, 2037 (**R.** fav. to snagging).

Pra. ex. upper R., au. act Mar. 3, 1905. **R.** of D.O. reviewed by **BERH** (unfav.), **07**, 486.

Cong. docs., etc., relating to exs., surs., plans, etc., **12**, 793.

* Allotment.

¹ Allotted from White R.² H. D. 176, 59th, 2d.

Y-28 BLACK RIVER, ARK. AND MO.¹

Lt. R. McGregor, 1899-1900. R., 99, 2040; (Capt.) 00, 2604.
Capt. G. D. Fitch, 1901-06. R., 01, 2121; 02, 1585; 03, 1432; (Maj.) 04, 2111; 05, 1576; 06, 1394.
Capt. Wm. D. Connor, 1907-08. R., 07, 1528; 08, 1603.
Maj. M. L. Walker, 1909-10. R., 09, 1588; 10, 1742.
Maj. C. S. Smith, 1911-. R., 11, 1891; 12, 2101.
Assistant. P. R. Van Frank, jr. R., 00, 2606.

OBSTRUCTIONS.

Obstr. of the R. by sunken rafts, 91, 3868.

OPERATIONS.

1880-81. All operations carried on by hired labor; 1,350 l. f. of brush dam built at Devils Tooth and Eagles Nest Shoals; 556 snags and 586 tree removed, 81, 1436.
1881-82. 971 snags and 3,100 trees removed. Closure of the "Chute" by brush dam, 82, 1584.
1882-83. 1,175 snags and 5,386 trees removed, 83, 1173.
1883-84. 1,429 snags and 2,480 trees removed, 84, 1403.
1884-85. 120 snags and 9,291 trees removed, 85, 1585.
1886-87. 540 snags, 10,130 overhanging trees, and 4 drift piles removed; 16,004 trees deadened, 87, 1538.
1888-89. 293 snags and 12 drift masses removed from chan., and 19,200 trees cleared from banks, 89, 1663.
1889-90. 433 snags and 27 drift piles removed from chan., and 22,014 trees cleared from banks, 90, 1948, 1951.
1890-91. 406 snags, 23 drift piles, and 10,450 overhanging trees removed from R., 91, 2059.
1891-92. 1,755 snags and 166 drift piles cleared from chan., and 24,622 trees cut from banks, 92, 1690.
1892-93. Nearly 11,000 snags and other obstr. removed, 93, 2116.
1893-94. Small amount of snagging done, 94, 1555.
1895-96. Nearly 1,700 snags, etc., removed, 96, 1686.
1896-97. About 2,500 snags, etc., removed, 97, 1976.
1897-98. Nearly 700 snags, etc., removed; dr. done and dam built, 98, 1669.
1898-99. About 60 obstr. removed from chan., 99, 2040.
1899-00. About 2,500 obstr. removed from chan., 00, 2606.
1900-01. 521 snags, 129 trees cut and removed, and 4 drifts broken up, 01, 2121.
1902-03. 762 snags removed, 34 drifts broken up, 4,094 trees cut, 03, 1432.
1903-04. 1,278 snags removed, 27 drifts broken up, and 2,545 trees cut, 04, 2112.
1904-05. 1,409 snags removed, 10 drifts broken up, 1,832 trees cut, 05, 1577.
1905-06. 1,163 snags removed, 4,332 trees cut, and 37 drifts broken up, 06, 1395.
1906-07. 1,070 snags removed, 4,450 trees cut, and 9 drifts broken up, 07, 1529.
1907-08. 1,596 snags removed, 2,870 trees cut, and 29 drifts broken up, 08, 1604.
1908-09. 1,344 snags removed, 1,816 trees cut, and 15 drifts broken up, 09, 1588.
1909-10. 1,344 snags removed, 2,979 trees cut, and 16 drifts broken up, 10, 1743.
1910-11. Removing obstr. by snag boats, 11, 1892.
1911-12. 2,408 snags removed, 1,862 trees cut, and 18 drifts broken up, 12, 2101.

PHYSICAL CHARACTERISTICS.

Description of, 94, 1556; 95, 2026; 96, 1687; 97, 1976; 98, 1669; 00, 2606; 11, 657.
Range bet. h. and low water, 08, 514.

PROJECTS.

By Maj. Benyaud, 1879, imp. of R. bet. Poplar Bluff and White R. by removal of logs, snags, and trees, and constr. of wing dams; est., \$80,800, 80, 1329.

In 1885 Capt. Taber considered that an. app. of from \$8,000 to \$10,000 required to keep R. available for navigation, 85, 247, 1585; 88, 1403; 92, 1690.

* Allotment.

¹ Sur.-R., Aug. 1, 1837. (H. D. 482, 55th, 2d.)

² \$319.50 returned to Treas.

Cache R. plant trans. to this work by sale, and snagging boat of this work sold to White R. app., 93, 2116. The whole plant for this work consolidated with that of White R., 94, 1555.

Works of imp. apparently effective, 97, 1976.
Orig. proj. of 1880 contemplated removal of logs, shoals, and constr. of wing dams; est., \$80,800; the

only modification of proj. has been that of changing the est. to \$8,000 a year for mainten.; Capt. Fitch recom. this be increased to \$15,000 yearly, 02, 361.

SURVEYS.

Au. act Mar. 3, 1879, 79, 11; 80, 158; made by Maj. Benyard, 1879, 80, 1326.

OBSTRUCTIONS.

The Current River Railway br. the only permanent obstr., 00, 2617.

OPERATIONS.

1871-72. 123 snags and 592 leaning trees removed, and 1,040 l. f. of brush and wing dams built, 73, 55, 461.

1881-82. 180 snags removed, 3,000 overhanging trees cut, 82, 1586.

1882-83. 85 snags removed, 83, 1175.

1894-95. About 1,800 snags and other obstr. removed, 95, 2030.

1895-96. About 2,600 snags, etc., removed, 96, 1690.

1896-97. About 300 snags, etc., removed, 97, 1978.

1897-98. About 1,200 snags, etc., removed, 98, 1671.

1898-99. About 50 obstr. removed from chan., 99, 2042.

1899-00. About 7,500 obstr. removed from chan., 00, 2609.

1900-01. 120 snags removed and 7 trees cut, 01, 2124.

1902-03. 160 snags removed, 749 trees cut, and 1 drift broken up, 03, 1435.

1903-04. 566 snags removed, 862 trees cut, and 5 drifts broken up, 04, 2114.

1904-05. 455 snags removed, 451 trees cut, and 5 drifts broken up, 05, 1576.

1905-06. 759 snags removed, 2,395 trees cut, and 6 drifts broken up, 06, 1395.

1906-07. 30 snags removed and 77 trees cut, 07, 1529.

1907-08. 619 snags removed, 939 trees cut, and 10 drifts broken up, 08, 1604.

1908-09. 666 snags removed and 1,463 trees cut, 09, 1588.

1909-10. 948 snags removed, 2,637 trees cut, 16 drifts broken up, and 24 bowlders removed, 10, 1743.

1910-11. 865 snags and 3 bowlders removed, 910 trees cut, and 23 drifts broken up, 11, 1892.

1911-12. 971 snags and 3 bowlders removed, 585 trees cut, and 12 drifts broken up, 12, 2102.

PHYSICAL CHARACTERISTICS.

Description of, 72, 396; 91, 2065; 93, 2128; 00, 2615.

About 200 m. l., lower 94 m. (mouth to Van Buren) under proj. Empties into Black R., 12, 795.

PRIVATE (STATE) WORK.

In 1855 Missouri app. \$10,000; expend., 1857, removing snags and leaning trees, 72, 397. In 1871 \$20,000 app. by the State, 72, 397; 73, 460.

PROJECTS.

By Lt. Col. Reynolds, proposed removing snags, leaning trees, and constr. of dams of brush and st.; est., \$25,722.62, 72, 398.

By Maj. Benyard, 1880, proposed concentration of water over shoal places with brush and st. wing dams, and removal of snags, logs, and trees from chan.; est., \$17,365, 81, 1517.

By Capt. Taber, 1890, to remove logs, etc., from chan., and also to contract the water w. at worst places by wing dams; est., \$10,000, 91, 2066; 93, 2129; apparently adopted, 1896, 96, 1689; 12, 796.

In 1897 Capt. Sibert est. \$2,000 an. mainten., 97, 1978.

SURVEYS.

Au. act Mar. 3, 1871, 71, 59. Assigned to Lt. Col. Reynolds, and made by A. H. Blaisdell. R., 72, 395.

Au. act June 14, 1880; made by Maj. Benyaurd, **81**, 1467.

Ex. made, 1890, by Capt. Taber, **91**, 2065.

Ex. au. act July 13, 1892; made, 1893, by Capt. Taber (**R.** fav. to snagging), **93**, 2128.

Ex., junction with Crooked Creek to the s. line of Carter Co., Mo., au. act Mar. 3, 1899; made by Lt. McGregor (**R.** unfav.), **00**, 2614.

Cong. docs., etc., relating to exs., surs., plans, etc., **12**, 796.

Y-30 LITTLE BLACK RIVER, ARK. AND MO.

ENGINEERS.

Chief of Engineers. **R.**, **09**, 548.

In charge. Maj. M. L. Walker, **09**, 532.

SURVEY.

Pre. ex. au. act Mar. 3, 1909. **R.**, Maj. Walker, Apr. 20, 1909 (unfav.),¹ **09**, 548.

Y-45 LITTLE RED RIVER, ARK.

(See also "White, Black, Little Red, and St. Francis Rivers," on p. 827.)

APPROPRIATIONS.

1886, \$3,000.00, **87**, 1505.

1888, 5,400.00, **88**, 1378.

1894, 5.14, act Aug. 23.

Total, 8,405.14

COMMERCE.

Important, **85**, 1612.

Prospective advantages to C. to arise from imp.,

91, 2054; **92**, 1688.

Not very large; about 5,000 t. logs, etc., an., **04**, 2120.

ENGINEERS.

Chief of Engineers. **R.**, **81**, 219; **82**, 217; **85**, 252; **87**, 204; **83**, 185; **89**, 217; **90**, 196; **91**, 254; **92**, 245; **93**, 276; **04**, 411.

Boards. BERH. recom. approval of work as stated in **R.** of D.O., **04**, 2122.

In charge:

Capt. T. H. Handbury. **R.**, **82**, 1587.

Capt. H. S. Taber, 1885-93. **R.**, **85**, 1587; **87**, 1503; **88**, 1377; **89**, 1641; **90**, 1927; **91**, 2053; **92**, 1687; **93**, 2115.

Maj. G. D. Fitch, 1904. **R.**, **04**, 2119.

Assistants:

F. W. Tuttle. **R.**, **82**, 1588.

M. A. Orlopp. **R.**, **85**, 1613.

OPERATIONS.²

1886-87. Removal of snags from below Judsonia, and of bowlders from shoal 3 m. below Judsonia, **87**, 1504.

1888-89. Dr. and 2 material barges built, **89**, 1642.

1889-90. 495 t. of r. removed from Bess Shoals below Judsonia, **90**, 1927.

1890-91. 3,331 trees and 100 cords of brush cleared from chan. and banks, **91**, 2054.

1891-92. 11,794 overhanging trees and 146 cords of brush cleared from banks, and 100 t. of r. removed from Bess Shoals, **92**, 1688.

PHYSICAL CHARACTERISTICS.

Description of **R.**, **82**, 1588; **85**, 1613.

PLANS. (See Projects.)

By Capt. Handbury, 1881, removal of snags and similar obstr. below Judsonia, and removal of bowlders and loose r. from Utleys Shoal and Knights Bar; est., \$16,100, **82**, 1587, 1589.

PROJECTS. (See Plans.)

By Capt. Taber, 1884, imp. of 3 shoals above Judsonia, by removal of obstr. bowlders, and cutting chan. 2' d. through shoals below Judsonia; est., \$8,400, **85**, 1612, 1616; **87**, 1504. Increased in 1890 to \$11,400, **90**, 1927.

SURVEYS.

Ex. au. act Mar. 3, 1881; made by Capt. Handbury (see Plans), **82**, 1587.

Ex. au. act July 5, 1884; made by Capt. Taber (see Projects), **85**, 1612.

Pre. ex. and sur. au. act June 13, 1902, from mouth of **R.** to and incl. the U. S. quarries at Bee Rock. **R.** by Maj. Fitch, Jan. 13 and May 16, 1903; est., \$3,000,³ **04**, 411, 2119.

Assistant. J. B. Rohrer. **R., 81, 1482.**

OPERATIONS.

1880-81. 2,949 logs, snags, and trees removed, **81, 1434.**

1884-85. Constr. of snag boat, and removal of 849 snags and trees, **85, 1596.**

1885-86. Snagging operations continued, **86, 1383.**

1886-87. 189 snags removed, **87, 1540.**

1887-88. Snagging operations continued, **88, 415.**

1888-89. Snagging operations continued bet. Kenneth, Mo., and St. Francis, Ark.; 216 snags and drift piles removed from chan., and 50 trees cleared from banks bet. Greenville and Poplin, Mo., **89, 1664, 1666.**

1889-90. Snagging continued bet. Kennett and St. Francis; 309 snags and 4 drift piles cleared from chan., and 175 overhanging trees from banks bet. Wappapello and Poplin, Mo., **90, 1952, 1955.**

1890-91. Snagging operations continued on upper and lower R., **91, 2060, 2063.**

1891-92. 1,628 snags removed from upper and lower R., and 5,405 trees cleared from banks, **92, 1693, 1695.**

PLANS. (See Projects.)

By Maj. Benyaure, 1880, to secure l.-w. navigation in St. Francis from Greenville to Cairo, Arkansas & Texas RR., by removal of snags, etc., and constr. of l.-w. dams; est., \$24,426. Col. Simpson R. that C. would not justify the above expend., in which opinion Maj. Benyaure concurs, **81, 1482, 1484.**

In 1887 Capt. Taber considered reach, Greenville to Arkansas State line, worthy of imp., by removal of snags and similar obstr.; est., \$7,300, **87, 1550.**

PROJECTS. (See Plans.)

By Maj. Benyaure, 1880, imp. bet. Wittsburg and Lester Landing, by cutting and marking a chan. through the lake region, removing snags and similar obstr. from the bed and banks of the stream. No est. made for completion of this proj., and only an app. of \$5,000 made, **1880, 80, 1315; 81, 1434.**

In 1887 Capt. Taber proposed imp., Greenville to the Arkansas State line, by removal of snags and similar obstr.; est., \$7,300, **87, 1550.**

SURVEYS.

Greenville, Mo., to Cairo, Arkansas & Texas RR., au. act June 14, 1880; made, 1881, by Maj. Benyaure (see Projects), **81, 1481.**

Greenville to State line, au. act Aug. 5, 1886; made by Capt. Taber (see Projects), **87, 1549.**

Part (b), Y-47 St. Francis River, Ark.

Lt. R. McGregor, 1899-1900. **R., 99, 2043; (Capt.) 00, 2610.**

Capt. G. D. Fitch, 1901. **R., 01, 2126.**

Assistant. P. R. Van Frank, jr. **R., 98, 1683; 00, 2612.**

OPERATIONS.

1892-93. About 1,500 snags and other obstr. removed, **93, 2118.**

1893-94. Nearly 6,000 snags, etc., removed, and plant repaired, **94, 1558.**

1894-95. About 3,200 snags, etc., removed, **95, 2032.**

1895-96. Wreck removed, and about 1,200 snags, etc., also removed, **96, 1692.**

1896-97. Portion of plant rebuilt (field expend. of the same, **97, 1981**); and nearly 3,000 snags, etc., removed, **97, 1980.**

1897-98. About 900 snags, etc., removed, **98, 1673.**

¹ Between Wittsburg and Lester Landing.

² St. Francis R.

³ St. Francis R., Ark.

⁴ St. Francis R., Mo.

⁵ Act Sept. 19, 1890, app. \$10,500 for R. between Greenville, Mo., and Arkansas line.

⁶ \$75,000 of this to be expend. by Mississippi R. Commission for levees.

⁷ See p. 827.

1899-00. About 7,000 obstr. removed from chan. **00**, 2612.

1900-01. Hand-propelled snag boat *A. B. Johnson* removed 1,658 snags and other obstr., **01**, 2126.

PHYSICAL CHARACTERISTICS.

Description of, **94**, 1556; **95**, 2032; **98**, 1673; **01**, 432.

Description of, bet. mouth and Wittsburg, etc., **98**, 1679. Movement of sand in the stream, **98**, 1680. Discharge observations, **98**, 1685.

A large portion of St. Francis Valley liable to overflow of Mississippi, which retards C. development, **98**, 1683.

PROJECTS.

Works of imp. apparently effective, **96**, 1693; **97**, 1981; navigation season lengthened about 2 months by snagging operations, **98**, 1673.

After sur., 1897, Capt. Sibert est. \$659,770 to \$980,720 to obtain slack-water navigation, **98**, 1682.

SURVEYS.

Sur. with view to slack-water navigation up to Wittsburg, and to Marianna on L'Anguille R., its tributary, au. act June 3, 1896; made, 1897, by Capt. Sibert (**R.** unfav.), **98**, 1678.

Part (c), Y-47

St. Francis River, Mo.

APPROPRIATIONS.

1894, \$5,000, **95**, 2036.
1902, 10,000, **02**, 1591.

Total, 15,000

COMMERCE.

Description of. Solely in lumber and staves, centering at Poplin and St. Francis, **94**, 1565; **95**, 2035; **96**, 1695.

After ex., 1895, removal of obstr. from Sunk Lands to Chalk Bluff and confinement of R. to one chan. recom., as was also removal of snags from Chalk Bluff to Poplin, **95**, 2041. After sur. of 1896, imp. bet. Sunk Lands and Poplin recom., **97**, 2000.

No permanent increase of C. to be expected from imp. bet. Greenville and mouth of the Mingo, **00**, 2619.

1901, 6,420 t., **02**, 365.

1903, rafted saw logs and piling only, **03**, 389.

CONTRACTS.

1895. H. J. George & Co., subsistence supplies, \$863.37; Dickinson Hardware Co., ship supplies, \$1,608.71, **95**, 2036.

ENGINEERS.

Chief of Engineers. **R.**, **93**, 278; **94**, 255; **95**, 286; **96**, 248; **97**, 315, 317; **98**, 308; **99**, 369; **00**, 424; **02**, 365; **03**, 388; **04**, 410; **05**, 422.

In charge:

Capt. H. S. Taber, 1884-93. **R.**, **93**, 2119.

Capt. C. F. Palfrey, 1894. **R.**, **94**, 1564.

Lt. Wm. L. Sibert, 1895-98. **R.**, **95**, 2035, 2040; **96**, 1695; **97**, 1982, 1999; **98**, 1675.

OPERATIONS.

1892-93. Nearly 1,500 snags and other obstr. removed, **93**, 2120.

1895-96. Nearly 1,600 snags, etc.; removed, **96**, 1695.

1896-97. Nearly 700 snags, etc., removed, **97**, 1983.

1902-03. 5,861 snags and other obstr. removed, **03**, 1439.

1903-04. 835 snags and other obstr. removed, and chan. 30' w. opened through 9 drift jams, by removal of 1,158 snags and logs; movable property shipped to Batesville, Ark., and barge and scows sold at public auction, **04**, 2118.

PHYSICAL CHARACTERISTICS.

Description of, **95**, 2035; **96**, 1695.

Description of, from Sunk Lands to Greenville, about 128 m., **95**, 2040.

In its orig. condition, this R. not navigable at low stages, on account of shoals, snags, and other obstr., **02**, 365.

PROJECTS.

Snagging apparently effective, **97**, 1983.

In 1896 Capt. Sibert est. \$11,200 to imp. R., Sunk Lands to Poplin, and \$2,000 an. mainten., **97**, 1999. Act June 13, 1902, au. proj. to clear R. of snags, drifts, and overhanging trees, head of Sunk Lands to Chalk Bluff, and to confine R. to one chan.; to remove snags, drifts, and overhanging trees that interfered with navigation at medium and high stages of water, from Chalk Bluff to Poplin, Mo.; est., \$11,200, and \$2,000 an. mainten. (see above), **03**, 388.

Act Mar. 3, 1905, repealed provisions of previous acts providing for prosecution of imp., and no further work contemplated, **05**, 423.

SURVEYS.

Ex., Sunk Lands to Greenville, Mo., au. act Aug. 17, 1894; made by Lt. Sibert, 1895 (**R.** fav. for snag removal), **95**, 2040.

Sur. and est. of cost of imp., Sunk Lands to Poplin, Mo., called for by act June 3, 1896; **R.** by Capt. Sibert, 1896 (see Projects), **97**, 1999.

Ex. of St. Francis R., Mo., Greenville to mouth of the Mingo, au. act Mar. 3, 1899; made, 1899, by Lt. McGregor (**R.** unfav.), **00**, 2618.

Part (d), Y-47 St. Francis and L'Anguille Rivers and Blackfish Bayou, Ark.

APPROPRIATIONS.

1902, \$9,000.00, **02**, 1591.
1904, 4,237.19, **04**, 2116.

Maj. C. S. Smith, 1911-. **R.**, 11, 1895; 12, 2104.

OPERATIONS.

1902-03. Snag boat overhauled; 546 snags removed, 1,297 trees cut, and 1 drift broken up on St. Francis R.; 530 saw logs and snags removed from L'Angeuille R., 03, 1436-37.

1903-04. 464 snags removed and 1,013 trees cut bet. Madison and Davis Bend, 04, 2115.

1904-05. Constr. of new hull for snag boat *A. B. Johnson* begun Aug. 20, 1904, and rebuilding of boat completed Oct. 28, 1904; 343 snags removed and 661 trees cut from 46 m. of R. worked over, 05, 1579.

1905-06. Minor repairs to snag boat, and 424 snags removed, 5,650 trees cut, and 4 drifts broken up, 06, 1397.

1907-08. 776 snags removed, 4,103 trees cut, and 31 drifts broken up, 08, 1606-07.

1908-09. 999 snags removed, 5,055 trees cut, and 10 drifts broken up, 09, 1590.

1909-10. 956 snags removed, 1,740 trees cut, and 10 drifts broken up on St. Francis R., and 177 snags removed and 100 trees cut from L'Angeuille R. Extensive repairs made to snag boat, 10, 1746.

1910-11. 654 snags removed, 709 trees cut, 53 drifts broken up, and 845 trees girdled on St. Francis R.; 189 snags removed, 412 trees cut, and 55 trees trimmed on Blackfish Bayou; 103 snags removed, 107 trees cut, and 137 trees girdled on L'Angeuille R., 11, 1895.

1911-12. 656 snags removed, 166 trees cut, and 5 drifts broken up on St. Francis R.; 62 snags removed, 37 trees cut, and 1 drift broken up on L'Angeuille R.; 102 snags removed and 82 trees cut on Blackfish Bayou, 12, 800, 2104.

PHYSICAL CHARACTERISTICS.

In its orig. condition, St. Francis R. not navigable above Lesters Landing at any stage; bet. that landing and Marked Tree, navigation possible at high stages only; and below Marked Tree, difficult at medium and lower stages, and impossible at extreme l. w., 07, 484.

During period of l. w., neither stream is navigable, 08, 518.

Marianna, at head of navigation on L'Angeuille R., 08, 518.

Blackfish Bayou, one of the principal drainage chans. for lower portion of St. Francis Basin, 12, 798, 799.

PROJECTS.

Sec. of War au. expend. of allotment of \$4,300, act June 13, 1902, for new hull for snag boat *A. B. Johnson*, 04, 2116.

Act June 25, 1910, au. removal of snags and overhanging timber obstr. chan., from Blackfish Bayou, Ark., in connection with similar work "now being done" on St. Francis R.; est. an. cost, \$500; and that of the consolidated app. made, an amount not exceeding that sum may be expended in the discretion of the Sec. of War for purpose stated, 10, 615.

SURVEYS.

Pre. ex. of St. Francis R., with view to open chan. imp., au. act Mar. 3, 1905. **R.** by Maj. Fitch, Oct. 12, 1905² (unfav.). B.E.H. reviewed Maj. Fitch's **R.**, and concurred in his views, 06, 400.

Pre. ex. and sur. au. act June 25, 1910, of St. Francis R., from mouth, to mouth of L'Angeuille R., and of the L'Angeuille R. from mouth to Marianna (**R.** to come), 12, 802.

Cong. docs., etc., relating to ex., surs., plans, etc., 12, 800.

Y-52 LITTLE RIVER, ARK. AND MO. (From Homersville to its junction with the St. Francis.)

APPROPRIATIONS.

1888,	\$5,000.00, 88, 191.
1890,	3,000.00, 90, 1957.
1893,	.80, act Mar. 3.
1894,	.13, act Aug. 23.

Total, 8,000.93

ENGINEERS.

Chief of Engineers. **R.**, 87, 210; 88, 191; 89, 225; 90, 202; 91, 256; 92, 247; 93, 279.

In charge. Capt. H. S. Taber, 1887-93. **R.**, 87, 1548; 89, 1668; 90, 1956; 91, 2064; 92, 1696; 93, 2121.

OPERATIONS.

1889-90. Snagging operations begun, 90, 1956.

1890-91. 109 snags removed from chan., 25 c. y. earth excavated, 161 trees cleared from banks, and a dam 300' l. built across chute, 91, 2064.

1891-92. 96 snags and 8 drift piles removed from chan., and 1,087 overhanging trees cleared from banks, 92, 1697.

PROJECTS.

By Capt. Taber, 1887, 8 months' navigation, mouth to Homersville, by dam constr. closing cut-off, and removal of snags and similar obstr.; est., \$8,000, 87, 1549; 88, 191. Increased in 1892 to \$11,000, 92, 1697.

SURVEY.

Ex. au. act Aug. 5, 1886; made by Capt. Taber, 87, 1548.

Y-54 BAY RIVER, (St. Francis Bay) ARK.

ENGINEERS.

Chief of Engineers. **R.**, 80, 158; 81, 213.

In charge. Maj. W. H. H. Benyaurd, 1880. **R.**, 81, 1497.

Assistant. J. B. Rohrer. **R.**, 81, 1497.

SURVEYS.

Au. act June 18, 1878, 80, 158; made by Maj. Benyaurd, 1880 (**R.** unfav.), 81, 1497.

¹ H. D. 73, 61st, 1st.

² H. D. 163, 59th, 1st.

Y-55**L'ANGUILLE RIVER, ARK.**

(See Part (d) Y-47, p. 836.)

APPROPRIATIONS.

1878, \$10,000, **79**, 115.
 1879, 5,000, **79**, 115.
 1880, 2,000, **80**, 1315.

Total, 17,000

COMMERCE.

Important, H. Doc. 57, 45th Cong., 3d sess., **79**, 969.

Demands of C. do not require further app., **82**, 215; **86**, 1389.

ENGINEERS.

Chief of Engineers. **R.**, **79**, 115; **80**, 154; **81**, 217; **82**, 215; **83**, 222; **84**, 231; **85**, 251; **86**, 243; **87**, 209.

In charge:

Maj. W. H. H. Benyaurd, 1878-81. **R.**, H. D. 57, 45th, 3d, **79**, 969; **80**, 1315; **81**, 1434.

Maj. T. H. Handbury, 1881-83. **R.**, **81**, 1514; **82**, 1582; **83**, 1171.

Maj. M. B. Adams, 1883-84. **R.**, **84**, 1403.

Capt. H. S. Taber, 1884-87. **R.**, **85**, 1600; **86**, 1388; **87**, 1543.

OPERATIONS.

App. of 1878 applied to the purchase of a snag boat to be used upon L'Anguille, White, and St. Francis Rs., H. D. 57, 45th, 3d, **79**, 969.

1880-81. Removing snags and overhanging trees, **81**, 1434.

1881-82. Removing snags and overhanging trees, **82**, 1582.

1885-86. Removing snags and trees, **86**, 1389.

1886-87. Removing snags and trees continued, **87**, 1544.

PHYSICAL CHARACTERISTICS.

Snags, logs, etc., obstr. navigation, H. D. 57, 45th, 3d, **79**, 969.

PROJECT.

By Maj. Benyaurd, removing snags, logs, and other obstr. with snag boat *John R. Meigs*; est., \$10,000, H. D. 57, 45th, 3d, **79**, 969.

Accomplished in 1882 by the expend. of \$14,000±, and subsequent funds held for future contingencies, **85**, 1600.

SURVEY.

Ex. by Maj. Benyaurd, 1878. **R.**, H. D. 57, 45th, 3d.

**RIVER AND HARBOR WORKS—LOWER MISSISSIPPI RIVER
SYSTEM.**

Z.—MEMPHIS, TENN., DISTRICT.

(1st and 2d Miss. R. Comm.)

The 1st Miss. R. district extends from Cape Girardeau, Mo., to the foot of Island No. 40 (270 m.).

The 2d Miss. R. district extends from foot of Island No. 40 to White R. (173 m.).
See p. 1067 for data.

RIVER AND HARBOR WORKS.

MISSISSIPPI RIVER SYSTEM—OHIO RIVER BRANCH.

The waterway groups of the Ohio R. system begin with the waterways of AA District, in the vicinity of Cairo, Ill. The list proceeds eastward toward and into Pennsylvania. The limits of the groups of waterways are outlined at the beginning of each district.

OHIO RIVER SYSTEM.

AA.—CHATTANOOGA AND NASHVILLE, TENN., DISTRICT.

War Department.

Corps of Engineers, U. S. Army.

Corps of Engineers, U. S. Army.

War Department, Corps of Engineers, U. S. Army.

Corps of Engineers, U. S. Army.

AA.—CHATTANOOGA AND NASHVILLE, TENN., DISTRICT.

In charge of the U. S. Engineer Offices at Nashville
and Chattanooga, Tenn.

- Begins below Memphis, Tenn., proceeds along Mississippi River, east bank, into the Ohio River, ending at Tradewater River.

WOLF RIVER, TENN.

APPROPRIATION.¹

1896, \$35,000, H. D. 482, 55th, 2d.

COMMERCE.

Description of. Large and important, 93, 2136, 2137; 96, 1703, 1704.

ENGINEERS.

Chief of Engineers. R., 93, 280; 96, 249.

In charge:

Capt. S. W. Roessler, 1893. R., 93, 2136.

Capt. G. D. Fitch, 1896. R., 96, 1703.

OPERATIONS.

1894-95. About \$8,000 expend. removing obstr. and in dr. 18,000 c. y. from the mouth, 96, 1704.

PHYSICAL CHARACTERISTICS.

Description of. Small stream in w. Tennessee emptying into Mississippi R. just n. of Memphis. The "present" and future navigation would be confined to the lower 2 m. of course, 93, 2136.

PRIVATE WORK.

Dr. to remove heavy deposits on sand bar at mouth, by the Memphis & Little Rock R.R. Transfer Co., 93, 2137.

SURVEYS.

Ex. au. act July 13, 1892; made, 1893, by Capt. Roessler (R. fav.), 93, 2136.

Ex., mouth to point 5 m. above, au. act Aug. 17, 1894. R. made by Capt. Fitch, 1896 (R. fav.), 95, 1703.

AA-4

HATCHEE (Big Hatchie) RIVER, TENN.

APPROPRIATIONS.

1880, \$10,000, 80, 1330.

1881, 3,500, 81, 1415.

1882, 3,000, 82, 1555.

1884, 2,500, 85, 1528.

1886, 3,000, 86, 1366.

1888, 5,000, 88, 1368.

1890, 5,000, 90, 1906.

1892, 3,500, 92, 1659.

Total, 35,500

COMMERCE.

C. obstr. by brs. without draws, 80, 1331.

Advantages arising from imp., 80, 1330, 1331; 85, 1527.

ENGINEERS.

Chief of Engineers. R., 80, 156; 81, 210; 82, 207; 83, 216; 84, 225; 85, 242; 86, 236; 87, 201; 88, 183; 89, 215; 90, 193; 91, 246; 92, 238; 93, 269; 94, 249; 95, 278; 04, 443; 08, 571.

Boards. BERH. reviews Lt. Col. Adams, R.; confirms his opinion as to undesirability of imp., 04, 2350.

In charge:

Maj. W. H. H. Benyaard, 1880-82. R., 80, 1330; 81, 1415; 82, 1555.

Maj. A. M. Miller, 1882-84. R., 83, 1153; 84, 1337.

Capt. E. Bergland, 1884-86. R., 85, 1527; 86, 1366.

Capt. J. H. Willard, 1886-95. R., 87, 1479; 88, 1367; 89, 1618; 90, 1904; 91, 2010; 92, 1657; 93, 2052; 94, 1516; 95, 1952.

Lt. Col. M. B. Adams, 1904. R., 04, 2349.

Maj. W. W. Harts, 08, 560.

Assistants:

J. Burney. R., 80, 1331.

J. J. Barry. R., 85, 1528.

J. S. Walker. R., 04, 2350.

LEGISLATION.

Act of Tenn. declaring the R. a navigable one, 80, 1331.

OBSTRUCTIONS.

Obstr. of R. by brs. without draws, 80, 1331, 1332.

OPERATIONS.

1880-81. By hired labor, 376 snags and 2,409 logs removed, and 16,243 trees cut down; R. worked over, Bolivar to mouth, 81, 1415.

1881-82. 3,204 snags and logs removed, 636 trees cut down, and 1 wreck removed; R. worked over, Bolivar to mouth, 82, 1555.

1882-83. 1,431 snags and logs removed and 679 trees cut down; 185 m. of R. worked over, 83, 1154.

1884-85. 969 logs and snags removed and 1,094 trees cut down; 50 m. of R. worked over, 85, 1528.

1886-87. 2,067 snags, stumps, and logs removed, 3,813 trees cut, and 3 cut-offs cleaned, 87, 1480.

1888-89. 1,410 logs and snags removed from chan., and 4,300 trees and shore snags and 4,684 s. y. brush cleared from banks, 89, 1619.

1889-90. 870 snags and 143 side jams removed from chan., and 2,860 trees and shore snags and 375 s. y. brush cleared from banks, 90, 1905.

1891-92. 650 snags and logs removed from chan.; 14 side jams removed; 6,700 trees cut and 6,518 trees girdled on banks, 92, 1659.

1893-94. 28,420 s. y. brush and willows cut, and about 4,500 snags and other obstr. removed, 94, 1518.

1894-95. Several wrecks removed; 8,867 s. y. brush, etc., cut, and over 25,000 snags, etc., removed, 95, 1954.

PHYSICAL CHARACTERISTICS.

Description of, 94, 1517; 95, 1953.

PROJECTS.

By Maj. Benyaard, 1879, removing snags, leaning trees, and logs, Bolivar to mouth, 240 m.; est., \$30,000, 80, 1331, 1342; 87, 1479. Imp. not permanent, 90, 1904.

SURVEYS.

Made by Maj. Benyaard, 1879, 80, 1330.

Pre. ex., mouth to Rialto, au. act June 13, 1902. R., Lt. Col. Adams, July 7, 1902 (unfav.),¹ 04, 443, 2349.

Pre. ex. to Brownsville au. act Mar. 2, 1907. R., Maj. Harts, Dec. 23, 1907 (unfav.),² 08, 571.

OBSTRUCTIONS.

At Obion R. crossed by a drawless br. of Newport News & Mississippi Valley R.R., obstr. navigation above that town, **93, 2328.**

OPERATIONS.

1892-93. About 20,000 snags and other obstr., and large quantity of drift removed, **93, 2329.**
1893-94. About 3,000 snags, etc., and about 1,000 cords drift removed, **94, 1786.**
1894-95. About 9,000 snags, etc., and about 1,000 cords drift removed, **95, 2246.**
1895-96. About 3,500 snags, etc., and some drift removed, **96, 1899.**

1896-97. About 3,600 snags, etc., and some drift removed, **97, 2216.**

1897-98. Over 7,000 snags, etc., removed, **98, 1874.**

1898-99. Derrick and quarter boats built, minor repairs made to floating plant, and about 9,000 snags and other obstr. removed, **99, 2234.**

1899-00. About 1,100 snags and other obstr. removed, **00, 2287.**

1900-01. 16,662 snags and other obstr. removed, **01, 2404.**

1901-02. 9,663 snags and other obstr. removed from Obion and Forked Deer Rs. combined, **02, 1693.**

1903-04. 7,957 snags and other obstr. removed, clearing 69 m., **04, 2337-38.**

1905-06. 2,389 snags and other obstr. removed, clearing 69 m., **06, 1501, 1502.**

1907-08. 2,925 snags and other obstr. removed, clearing 69 m., **08, 1681.**

1910-11. Plant cared for, **11, 2023.**

1911-12. Plant belonging to imp. condemned and destroyed, **12, 2229.**

PHYSICAL CHARACTERISTICS.

Condition of R., 1880, nature of obstr., and character of surrounding country, **81, 1487, 1488.**

Description of, **91, 2296; 12, 857.**

Discharge, **95, 2271, 2275.**

Current increased by obstr. removal, **97, 2216.**

Sec. of War notified local interests no objection would be made to diversion of stream in interest of dr. unless such diversion should later interfere with navigation, **10, 658.**

Navigation depends on stage of water in Mississippi R., **12, 858.**

PLANS.

By Maj. Benyaurd, 1880, imp. Obion R. for 115 m. from mouth by removing snags, logs, leaning timber, and similar obstr., securing least chan. d. of 4'; est. (incl. constr. of flatboat and purchase of outfit), \$28,809, **81, 1487, 1489.**

PROJECTS.

By Lt. Col. Barlow, 1891, snagging and wing-dam constr., mouth to crossing of the Louisville & Memphis R.R. in Obion Co. by giving chan. of not less than 3' d. at the lowest stages; est., \$50,000, **91, 2297.**

In 1897 proj. modified to provide simply for removing obstr. and for yearly chan. mainten. as imp. made (Capt. Biddle did not consider it possible to obtain 3' by the orig. proj., and thought the est. inadequate), **97, 2216.**

Lt. Col. Adams recom., 1899, that Obion and Forked Deer Rs. be treated as a single stream under the heading "Obion and Forked Deer Rivers," making provision for them in a sum equal to what "now" separately allowed for mainten. of each, as a single app. for the mainten. of both as one item, **99, 2234; 00, 2288.**

Act June 13, 1902, au. conjunctive imp. of Obion and Forked Deer Rs., **03, 411.**

By Maj. Harts, 1908, further app. under proj. not warranted, **08, 1682.**

SURVEYS.

Au. act June 14, 1880; made, 1880, by Maj. Benyaurd, **81, 1486.**

Sur. au. act Sept. 19, 1890; made, 1891, by Lt. Col. Barlow, **91, 2297.**

Ex. au. act June 13, 1902. **R.** by Lt. Col. Adams, July 7, 1902, **04, 443, 2352.**

Cong. docs., etc., relating to ex., surs., plans, etc., **12, 857.**

ESTIMATES. (See Plans and Projects.)

By O. Leibrecht, 1874, removing obstr. and building dams, \$53,190.

Amended by Maj. Suter to \$71,250, 74, 374, 379.

LEGISLATION.

Tennessee declared the South Fork navigable from Yellow Bluff Levee and Bridge to its mouth, and repealed act making R. navigable above that point, 95, 2249.

OBSTRUCTIONS.

Obstr. of South Fork by brs. without draws, 89, 1623.

By direction of the Sec. of War, br. of the Louisville & Nashville R.R. at Bells, Tenn., changed to secure a navigable opening of 50', 1896, 96, 1903.

OPERATIONS.

1888-89. 550 snags, 1 wreck, and 92 log jams removed from chan.; 1,635 trees and snags and 2,180 sq. y. brush cleared from banks, and 100 l. f. brush dam built on South Fork; 1,452 snags and 1 wreck removed from chan.; 1,605 trees and shore snags and 926 sq. y. brush cleared from banks on North Fork below Dyersburg; 79 shore snags and side jams removed; 528 trees and 500 sq. y. brush cleared from banks on main R., 89, 1622, 1623.

1889-90. 274 snags and logs removed from chan.; 2,675 trees and 475 sq. y. brush cleared from banks on the main R.; 362 snags and 285 shore snags and trees cleared from North Fork, completing proj. imp.; no operations on South Fork, 90, 1907.

1891-92. Operations confined to North Fork and main R.; 660 stumps and snags and 6 log jams removed; 1,300 trees cut and topped on banks, 92, 1662.

1893-94. Some brush and willows cut and over 23,000 snags and other obstr. removed, 94, 1522.

1894-95. A few obstr. removed, 95, 2249.

1896-97. Over 3,000 snags, etc., and 391 cords drift removed, 97, 2218. Over 1,000 obstr. removed from Middle Fork, 97, 2219.

1897-98. Nearly 4,000 obstr. removed from Middle Fork, 98, 1873.

1898-99. About 4,400 snags and other obstr. removed, 99, 2237.

1899-00. About 1,800 snags and other obstr. removed, 00, 2890.

1900-01. 9,577 snags and other obstr. removed, 01, 2406.

*Allotment.
1 South Fork.

2 North Fork below Dyersburg.
3 Main R.

4 North Fork and Main R.

1901-02. 9,663 snags and other obstr. removed from Obion and Forked Deer Rs., 02, 1693.

1903-04. 4,967 snags and other obstr. removed, 04, 2338.

1905-06. 1,140 snags and other obstr. removed, 06, 1502.

1907-08. 1,472 snags and other obstr. removed, 08, 1683.

1911-12. Plant belonging to imp. condemned and destroyed, 12, 2230.

PHYSICAL CHARACTERISTICS.

Description of, 74, 372, 375, 376; 90, 1906; 95, 2266; 97, 2218, 2219. High-water marks, 74, 376. Obstr. in R., 74, 378.

Yellow Bluff (see Legislation) about 4 m. from the junction of the North Fork, 95, 2249. Dyersburg lies on the North or Middle Fork, about 8½ m. above its junction with the South Fork; thence to Obion R. is 21 m., and thence to Mississippi R. 3½ m.; 33 m. in all. The slopes on this portion of the stream affected by Mississippi stages, 95, 2266.

Elevation of extreme l. w. and h. w. plane, and distances from Chesapeake, Ohio & Southwestern R.R. br., 95, 2274.

Discharge measurements, 95, 2271, 2275.

Navigability depends largely on stage of Mississippi R.; navigation not practicable at low stages, 12, 859.

R. formed by junct. of its n. and s. forks about 8 m. sw. of Dyersburg, flows thence sw. about 21 m., entering Obion R. 3½ m. from Miss. R. Dyersburg head of navig. on N. Fork; Jackson, Tenn., 95½ m. above mouth; head of navig. on S. Fork, but of recent years navig. limited to lower part of stream, 12, 858.

PLANS. (See Estimates and Projects.)

By O. Leibrecht, 1874, removal of obstr. to 3' at all seasons and constr. of dams at the lost and old chans., 74, 378. Discussed by Maj. Suter, 74, 373.

PRIVATE (PRIVATE AND STATE) WORK.

Cut-off to the Mississippi, made by private parties about 35 years ago, doing more harm than good, 74, 378.

Tenn. app. \$43,000 for imp. within past 20 years; no benefit derived, 74, 379.

PROJECTS. (See Estimates and Plans.)

By Maj. Benyaud, 1880, removing snags and similar obstr., and clearing banks of South Fork, Sharon to mouth, 114 m.; est., \$19,250, 81, 1491; 87, 202. Operations subsequently extended to Jackson, head of navigation, 81 m. above Sharon. Imp. not considered permanent, 88, 133, 1369; 90, 1906.

By Capt. Willard, 1887, main R., mouth to junction of the North and South Forks, 29 m., removing logs, snags, and similar obstr.; est., \$7,000; also North Fork up to Dyersburg, 9 m.; est., \$4,500, 87, 1484, 1495; 89, 1621; 90, 1906.

In 1894 Capt. Biddle est. \$300,000 for a system of canals and locks, cost of mainten. indefinite, for North or Middle Fork, 95, 2269.

Congress app. \$5,000, 1896, for imp. Middle Fork, from Dyersburg to Mississippi R., by removing bars and shoals, etc., to make the stream navigable for small craft at 3' stage, 96, 1904.

Lt. Col. Adams advised, 1899, treating the Obion and the Forked Deer Rs. as one item in app. for them, 99, 2236; 00, 2890.

Act 1902 combines Obion and Forked Deer Rs. and app. \$4,500 for them, 02, 386, 1695.

Maj. Harts of opinion that further app. are unwarranted, 09, 584, 1676.

SURVEYS.

O. Leibrecht, R. below Dyersburg, Tenn., 73, 57; 74, 63, 375.

Sur. from Dyersburg, Tenn., to junction with Obion R., thence to Mississippi R., for making it navigable for that part, au. act Aug. 17, 1894; made, 1894, by Capt. J. Biddle (R. unfav.), 95, 2265. Elevation of bench marks, 95, 2274. Resur. made in 1897, Dyersburg to Obion R., 97, 2219.

Ex. of the South Fork made, 1896, to ascertain what was necessary for mainten., by Capt. Biddle, 97, 2218.

Ex. of Obion and Forked Deer Rs., au. act June 13, 1902. Rs., Lt. Col. Adams, July 7, 1902, and Feb. 16, 1903; est., \$2,250 an.¹ 04, 443, 2352, 2354.

Sur. of South Fork, au. act Mar. 2, 1907. R., Maj. Harts, Jan. 22, 1908 (unfav.),² 08, 560.

Cong. docs., etc., relating to exs., surs., plans, etc., 12, 859.

Maps.²

Part (b), AA-6 Forked Deer River, South Fork, Tenn.

APPROPRIATIONS.

1882, \$3,000, 83, 1155.

1884, 2,000, 84, 1338.

1886, 5,000, 86, 1368.

Total, 10,000

ENCROACHMENTS.

Obstr. to navigation from brs. and dams, 87, 1483.

ENGINEERS.

Chief of Engineers. R., 80, 158; 81, 213; 83, 216; 84, 226; 85, 242; 86, 237; 87, 202.

In charge:

Maj. W. H. H. Benyaud, 1880-83. R., 81, 1489.

Maj. A. M. Miller, 1883-85. R., 83, 1154; 84, 1338.

Capt. E. Bergland, 1885-86. R., 85, 1529; 86, 1367.

Capt. J. H. Willard, 1886. R., 87, 1482.

Assistants:

Z. Harrison. R., 81, 1490.

J. J. Barry. R., 84, 1339; 85, 1531.

OPERATIONS.

1883-84. 17,915 logs, snags, stumps, and trees removed from R. chan., 84, 1338.

1884-85. 6,408 trees, logs, snags, etc., removed, 85, 1530.

1886-87. 12,250 trees, logs, snags, and jams removed, 87, 1482.

PHYSICAL CHARACTERISTICS.

Description of, 84, 1339.

Discharge, 95, 2271, 2275.

PROJECTS.

By Maj. Benyaud, 1880, removing snags and similar obstr., Sharon to mouth, 114 m.; est., \$19,250, 81, 1491; 87, 202.

SURVEYS.

Au. act June 14, 1880; made by Maj. Benyaud, 81, 1489.

Total.....		10,114,506.28

Part (a), AA-18 Tennessee River, above and below Chattanooga.^{1 2}

APPROPRIATION.

1852, \$50,000.00 66, iii, 37; 72, 488.
1860, \$1,406.94 (claims), act June 12.
Total, 51,406.94 (See summary also).

Statements of app., 77, 579, 585; 78, 756, 758.
Injurious effect of partial app., 74, 69, 574; 77, 579.

COMMERCE.

Importance of imp., 68, 558, 584, 586; 71, 496, 507; 72, 480, 488, 518; 75, ii, 658; 77, 88.
Distance and duration of "present" possible navigation of R. and its tributaries, 68, 584; 78, 755.
Possible connection bet. Tennessee R. and Rs. of the Gulf slope, 68, 558, 585; 75, ii, 658.
Knoxville, head of navigation, 72, 488.
Necessity of imp. Muscle Shoals before C. is benefited, 68, 588; 71, 496.
List of SS. with tonnage, 77, 578.

CONTRACTS.

1869. J. H. Dennis, removing obstr. in upper and lower R., 69, 280, 283; 71, 502; extended, 70, 389; reextended, 71, 495; further contract assigned from C. De Graw; contracts abandoned and annulled Apr., 1872, 72, 59, 476, 478; subsequent efforts to obtain reserved percentages successful, 74, 576.

1871. A. Blaisdell, removing obstr. in upper R., 71, 498; began operations in July, absconded in August, swindling creditors generally, 72, 478, 81; 73, 544.

1875. F. Ford & Co., Foster, Wehl & Co., M. G. Kennedy, Rice & Reid, and G. Williams, repair and enlargement of old canal at Muscle Shoals, 76, 712; 77, 580; contract extended to Oct., 1877, 77, 580; completed, 78, 757; 79, 138; relief for, 79, 138, 1253.

1877. S. N. Kimball, constr. of locks at Muscle Shoals, 78, 757; modified to relieve contractor from building Locks Nos. 6 and 7; delay of work from lack of energy and a desire to do only the most profitable parts of his work; purchase of contractor's plant, 79, 138, 1250.

1879. S. N. Kimball (annulled), 80, 184, 1672.

1887. M. A. Sweeney & Bros., constr. of snag and towboat, 87, 1745. A. R. Perry, constr. of hull for dr. boat, 87, 1745.

1891. W. Kirk, pile and st. dike constr., \$14,555, 92, 1917. Neely & Smith, r. removal, \$175 t., 92, 1947.

ENGINEERS.

Chief of Engineers. R., 67, 39; 68, 57; 69, 49; 70, 64; 71, 63; 72, 59; 73, 61; 74, 68, 69; 75, 74, 78; 76, 86; 77, 87, 88; 78, 102; 79, 137, 1259; 80, 183; 81, 247; 82, 242; 83, 250; 84, 250; 85, 273; 86, 264; 87, 230; 88, 207; 89, 241; 90, 216; 91, 278, 279, 286, 287; 92, 266, 267, 273, 275.

Boards:

Board of internal imp., 1828-32, proj. plan for passage of Muscle and Little and Elk R. Shoals by dams with connecting canals, 68, 57, 557, 573, 588; 72, 498; 73, 545.

Convened, 1879, to consider claims of G. Williams (contractor), 79, 138, 1253, 1254. Reconvicted; payment of claim to the amount of \$101,536.72, 79,

1252, 1256, 1263; approv. by Sec. of War, 79, 1264. (Col. Macomb, Maj. Poe, and Capt. Overman.)

Convened, Nashville, Tenn., Oct. 22, 1890, S. O. No. 83, to report upon proj. for removal of obstr. in the Tennessee R., known as the "Suck." R., 91, 2313. (Lt. Col. Barlow and Majs. Mackenzie and Adams.)

Convened, Nashville, Tenn., Oct. 23, 1890, S. O. No. 83, to report as to what changes and additions required in the Muscle Shoals Canal system. R., 91, 2314. (Lt. Col. Barlow and Majs. Mackenzie and Adams.)

Convened, Nashville, Tenn., Oct. 28, 1890, S. O. No. 83, to report upon imp. of Colbert and Bee Tree Shoals. R., 91, 2317. (Lt. Col. Barlow and Majs. Mackenzie and Adams.)

In charge:

Maj. G. Weitzel, 1868-70. R., 68, 555, 558; 69, 279; 70, 389.

Maj. W. McFarland, 1871-76; 71, 63, 494; 76, 86. R., 71, 494; 72, 476, 488, 501; 73, 543; 74, 569; 75, 786, 788, 803, 813, ii, 658.

Capt. W. R. King, 1876-86. R., 76, 710, 712; 77, 577, 579; 78, 755; 79, 1247; (Maj.) 80, 1669; 81, 1839; 82, 1837; 83, 1477; 84, 1639; 85, 1751.

Lt. Col. J. W. Barlow, 1886-92. R., 86, 1509; 87, 1737, 1739; 88, 1591; 89, 1819; 90, 2111; 91, 2252, 2255.

Capt. G. W. Goethals, 1891-92. R., 91, 2303, 2311, 2322; 92, 1945, 1956.

Lt. Col. H. M. Robert, 1892-. R., 92, 1911.

Assistants:

W. B. Gaw. R., 68, 559; 69, 285.

F. S. Wallace, 68, 560.

A. T. Phelps, 68, 560.

W. P. Homan, 68, 560, 589.

E. McDermott, 68, 560.

F. C. Long, 68, 560, 589; 77, 581; 79, 1251.

F. T. Hampton, 68, 560, 589; 73, 544; 74, 571; 77, 577.

Lt. M. B. Adams, 71, 491.

Capt. L. C. Overman, 75, 75; 76, 85; 77, 87. R., 71, 502; 72, 488.

Lt. J. F. Gregory, 72, 59, 496.

Lt. B. D. Greene, 72, 59, 496.

Lt. W. L. Marshall, 77, 87, 581.

W. M. Gordon, 77, 581; 79, 1251.

P. Le Hardy. R., 77, 589.

S. Whinery, 78, 756; 79, 1249.

J. E. Willard, 78, 758; 79, 1252. R., 81, 1845; 82, 1840; 83, 1481.

J. S. Crary, 79, 1248.

J. L. Cary. R., 81, 1840; 82, 1838; 83, 1478.

C. A. Locke. R., 82, 1841.

H. J. Gielow. R., 82, 1841; 83, 1482.

R. Hooke. R., 82, 1841; 83, 1482; 85, 1755; 86, 1511.

W. A. Toms. R., 83, 1481; 84, 1643; 85, 1755;

86, 1512.

W. A. McFarland. R., 91, 2307; 92, 1954.

D. L. Sublett. R., 92, 1951.

W. G. Williamson. R., 92, 1953.

O. W. Ferguson. R. (precise levels), 96, 1949.

G. T. Nelles. R. (discharge), 96, 2014; 99, 2277.

LEGISLATION.

Act of Congress, Jan. 13, 1879, relief of legal representatives of G. Williams (contractor), 79, 1259.

Act of Apr. 6, 1889, legislature of Tennessee, fixing source and extent of the Tennessee R., 89, 1820.

¹ Colbert Shoals: Ex.—R. (fav.), May 14, 1828. (H. D. 482, 55th, 2d.)

Bee Tree Shoals: Sur.—R., Feb. 12, 1830. (H. D. 482, 55th, 2d.)

Knoxville to Alabama State line: Sur.—R., July 15, 1832; est. (including Holston R.), \$58,161.27. (H. D. 482, 55th, 2d.)

Muscle Shoals: Ex.—R. (fav.), May 14, 1828. Sur.—R., Apr. 14, 1836; est. (amount necessary to complete the work in progress), \$1,216,859. (H. D. 482, 55th, 2d.)

² Knoxville to Kelleys Ferry.

³ Advantages of hired labor over contract, 72, 479; 73, 545; 74, 69, 569, 575; 77, 575.

OBSTRUCTIONS. [See Physical characteristics.]

List of brs. over Tennessee R., 89, 1828; 90, 2125; existing and prospective brs. over the R., more or less obstr.; 95, 2280; 96, 1924.

OPERATIONS.¹

1869. Operations confined to contracts on "Pot" and "Suck" below Chattanooga, 69, 49, 280; necessity of concentrating work at "Suck," 69, 284.

1869-70. Operations confined to contracts on work below Chattanooga; progress on, 70, 64, 389; 71, 63, 495.

1870-71. Operations confined to contracts on work below Chattanooga; progress on, 71, 63, 495, 497.

1871-72. From failure of contractors to complete work on R., both above and below Chattanooga, contract annulled Apr., 1871, and work prosecuted entirely by hired labor, 72, 59, 478, 479; 73, 544; advantages of hired labor, 72, 479; 73, 545.

1872-73. Operations both above and below Chattanooga carried on by hired labor; progress of work, 73, 61, 544.

1873-74. Operations both above and below Chattanooga carried on by hired labor; progress of work, 74, 68, 570, 579; superior quality of work done by hired labor, and advantages of, 74, 69, 569, 575.

1874-75. Operations both above and below Chattanooga carried on by hired labor; progress of work, 75, 74, 75, 786, 789; R. open for 160 m. above Chattanooga, 75, 75; successful character of work done, 75, 787; repair of old canal at Muscle Shoals began, 75, 75, 789.

1875-76. Operations above Chattanooga carried on by hired labor; progress of work, 76, 86, 710, 713. Operations below Chattanooga carried on by hired labor, except repair and enlargement of Muscle Shoals Canal; progress of work, 76, 86, 712, 713.

1876-77. Operations above Chattanooga carried on by hired labor; progress of work, 77, 87, 577; desirability of early completion, 77, 87. Operations below Chattanooga confined to work at Colbert Shoals by hired labor, and repair and enlargement of Muscle Shoals Canal by contract; progress of work, 77, 88, 580, 584.

1878-79. Above Chattanooga, work at Chota Shoals resumed by hired labor; repairs to dam at Counters Shoals, 79, 137, 1247. Below Chattanooga: Progress by hired labor and contract at Locks Nos. 6, 7, 8, 9, and 10; enlarging prism of canal at Elk R. and Big Muscle Shoals; removal of rock from Little Muscle Shoals; repair of dams at Colbert and Duck R. Shoals; removal of bowlders from Bee Tree Shoals, 79, 137, 138, 1248. Purchase of plant from contractors, 79, 138, 1250. "Present" condition of work, 79, 1251.

PHYSICAL CHARACTERISTICS.

General, 68, 561, 578, 579, 584; 71, 502; 72, 488, 495, 497; 75, 814, 818, ii, 660; 76, 710, 711; 77, 577, 579, 583; 88, 1591, 1592.

Similarity bet. Tennessee and Cumberland Rs., 68, 578.

Regimen of R. nearly fixed, 72, 497; 76, 710; 77, 576.

High water at Chattanooga, 68, 579; 72, 495; 75, ii, 660; 77, 579; 78, 756. At various points, 72, 497; 77, 583.

Fall of R. surface and distances, 68, 584; 72, 495; 76, 711; 77, 577.

Where does Tennessee R. begin? 75, 813.

Obstr., list and description of, 68, 561, 578; 71, 502; 72, 488.

Peculiar bed of gravel in rock forming lock foundation, 79, 1250.

Stages of R., 1874 to 1880, 80, 1670.

Surface velocity of current at different readings of gauge at head of Tumbling Shoals, Tennessee R., 92, 1953.

Statement showing difference in feet bet. h. and l. w. at important points bet. Chattanooga and Bridgeport, 92, 1953.

Description of the system. R. one of the largest of the 43 tributaries of the Mississippi. Receives waters from 7 States, and drains an area nearly equal to that of England, discharging in flood not less than 700,000 c. f. per second and 10,000 c. f. at low stages. In 1893 navigable from source to mouth, 673 m., during several months in the year; not considered impossible to make it navigable during the whole year for moderate-draft boats, 93, 2330; 97, 2247.

List of tributaries, and points thereon to which navigation extends, 97, 2248.

Gauging of the R. and its tributaries. (See Mississippi River, gauging of.) Discharge records, 92, 1952; 95, 2279; 96, 1921, 2014; 97, 1936; 99, 2277 (diagrams).

Velocity relations, 96, 2021. Observed velocities, 1899, 99, 2282.

Results of discharge observations, Riverton, 1899, 99, 2285.

PLANS. (See Projects.)

By W. B. Gaw, 1868, imp. of R. below Chattanooga to extreme l.-w. d. of 3', as follows: Between mouth and Florence, removal of obstr.; unification and deflection of currents by wing dams; est., \$27,072, 68, 558, 559, 574, 578. From Decatur to Chattanooga, by methods similar to those proposed bet. mouth and Florence; est., \$58,901, 68, 558, 561, 569, 578. Between Florence and Decatur, by imp. of Muscle Shoals, as follows: Passage of Little Muscle Shoals by canal, 4 1/2 m. l., on n. side of R.; canal 6' x 100' x 118'; locks 6' x 70' x 300'; est., \$500,000, 68, 558, 574, 578. Passage of Big Muscle Shoals, by repair and enlargement of existing canal to above dimensions; est., \$1,001,877, 68, 558, 573, 574. Passage of Elk R. Shoals by canal 11 m. l. and of preceding dimensions, in bed of R., protected on sides by slope walls; est., \$2,463,090, 68, 558, 559, 573, 578. Aggregate of entire imp. below Chattanooga, \$1,050,941, 68, 578. Revised by Maj. Weitzel, 68, 555, 558. Modification of lock gates proposed by Lt. Marshall, 77, 581.

By Lt. Col. Barlow, 1887, for imp. of Colbert and Bee Tree Shoals by locks and dams; est., \$973,175, 87, 1748, 1751.

PRIVATE (STATE) WORK.

1831. Alabama began constr. of canal to secure passage of Muscle Shoals, a proj. for which had been previously reported on by board of internal imp. Congress modified proj., and work done accordingly, an error, as subsequently demonstrated; canal prism 6' x 60' x 42'; locks 6' x 32' x 120'; canal completed around Big Muscle Shoals and opened, 1836; work carried on by proceeds from sale of public lands; from lack of funds no further work done; canal at "present" (1868) in decayed condition, for years unused; repair and enlargement a part of "present" proj., 68, 57, 557, 573, 588; 72, 498; 73, 545.

1832. Tennessee undertook imp. of certain points above Chattanooga to an extreme l.-w. d. of 2' by removal of rock, and constr. of wing dams, 71, 502; 72, 488. Defects of work, 71, 502; 72, 489.

Old canal at Bluewater and Shoal Creek, built by Alabama, 80, 1672. Obstr. arising from R.R. br. at Johnsonville, 81, 1846.

PROJECTS. [See Estimates, Plans, and Private work.]**Below and above Chattanooga:**

By Maj. McFarland, 1872 (being a part of Southern Route of Transportation Routes to Seaboard), imp. mouth to Short Creek, 368 m., to 3' during extreme l. w., and to 5' at all other stages, incl. passage of Muscle Shoals according to his proj. previously described; est., 368 m., \$4,251,000, 72, 509, 512, 518; 75, ii, 658.

¹ Previous to 1869 (from 1832) consisted in removal of obstr. and constr. of wing dams, 71, 502; 72, 488, 497.

SURVEYS.

In progress 1867, **67**, 39; completed in Dec. from Chattanooga to mouth, **68**, 555, 560. Special, required at Muscle Shoals, **68**, 555, 558; made in 1871-73, **72**, 59, 478, 480, 495; **73**, 544. History of previous surs. at, **68**, 588; **71**, 502.

From Chattanooga to Knoxville, 1871, **71**, 502; **72**, 59, 478, 483, 509. Loss by fire in 1874 of large part of maps and field notes, **74**, 570. Surs. and maps repeated, **75**, 75, 789.

General ex. of R. from Knoxville to mouth, 1874-75, being part of Southern Route of Transportation Routes to Seaboard, **75**, 78, ii, 658.

Ex. from Guntersville to head of Muscle Shoals, 1877, **77**, 589.

Of Colbert and Big Tree Shoals; made, 1888, by Lt. Col. Barlow, **87**, 1747.

Sur. of Browns Isld. Chute; made, 1888, by Lt. Col. Barlow, **88**, 1598.

Precise levels, **95**, 2278; **96**, 1920; instruments used, **96**, 1950; method of work, **96**, 1951; bench marks, **96**, 1952; connection with mean Gulf level, **96**, 1956. Index of precise-level work, field seasons, **96**, 1959.

Description and elevation of precise-level bench marks bet. Corinth and Decatur, **96**, 1960; bet. Riverton Junction and 4 m. below Pittsburg Landing, **96**, 1967.

Tabulation of results of precise-level work from Corinth, Miss., to Decatur, Ala., and from Riverton Junction to 4 m. below Pittsburg Landing, Tenn., **96**, 1971.

Surs. and observation for discharge. Organization, methods, and all details, incl. discussion (see Physical characteristics), **99**, 2277.

Maps. (See Physical characteristics.)

Of parts of R., **76**, 710, 712; **77**, 584; **82**, 1840; **90**, 2126; **92**, 2321.

Part (b), AA-18 Tennessee River. (Below Chattanooga.)

APPROPRIATIONS.

Open channel work and Muscle Shoals Canal, Chattanooga to Riverton:

1827,	\$200 (sur.), act Mar. 2.
1860,	1,350 (claim), act June 9; 03 , 1557.
1868,	*85,000, 68 , 555; 69 , 49; 72 , 479; 77 , 584.
1869,	*5,095, 69 , 23, 49; 72 , 479; 77 , 584; 83 , 1594, 1597.
1871,	45,000, 70 , 65; 71 , 502; 72 , 479; 77 , 585.
1872,	50,000, 72 , 479; 77 , 585.
1873,	100,000, 73 , 62, 546; 77 , 585.
1874,	100,000, 74 , 69, 575; 77 , 585.
1875,	360,000, 75 , 76, 790; 77 , 585.
1876,	255,000, 76 , 86, 713; 77 , 585.
1878,	300,000, 78 , 102, 758.
1879,	210,000, 79 , 138, 1253.
1880,	300,000, 80 , 1674.
1881,	250,000, 81 , 1848.
1882,	250,000, 82 , 1842.
1884,	350,000, 84 , 1643.
1886,	262,500, 86 , 1513.
1888,	250,000, 88 , 1600.
1890,	300,000, 91 , 2256, 2311.
1892,	175,000, 93 , 2419.
1894,	30,000, 05 , 1742.
1896,	50,000, 05 , 1742.
1899,	35,000, 05 , 1742.

Total, 3,764, 145

Below Riverton:

1890,	\$25,000, 91 , 2256.
1892,	25,000, 93 , 2377.
1894,	125,000, 95 , 2299, 2300.
1899,	100,000, 01 , 2430.

Total, 275,000

Colbert Shoals Canal:

1890,	\$150,000, 91 , 2311.
1892,	300,000, 93 , 2419.
1894,	245,000, 05 , 1739.
1899,	100,000, 05 , 1739.

Total, 795,000

COMMERCE.

Important, **81**, 1846; **82**, 1842; **86**, 1514. Obstr. arising from R.R. br. at Johnsonville, **81**, 1846.

Below Riverton: Three-fifths of entire C. of R. done on this part, navigated for several months in the year by largest boats of the Ohio and Mississippi Rs., **97**, 2262.

CONTRACTS.

1892. W. A. Kirk, rock removal, \$3.75 c. y. (\$26,250); gravel, \$1 (\$3,500); dam removal, \$5 l. f. (\$2,000); **93**, 2423. H. T. Morrison, 38 iron valves for locks, Muscle Shoals Canal, \$11,810.20, **93**, 2426.

1895. T. E. Clark, constr. of masonry of lock, Bee Tree and Colbert Shoals Canal (rock and earth excavation, grading, etc.), \$305,766, **93**, 2430. Annulled, **95**, 2294.

1896. E. J. Howard, constr. of towboat, \$9,000, **96**, 1949.

1897. Huse & Loomis Ice and Transportation Co., hire of dr., \$125 per day for first 30 days and \$100 for each day thereafter, **98**, 1905. J. B. Neely, excavation of lift-lock entrance, **98**, 1899.

1898. Bucyrus Co., constr. of dipper dr., \$14,425, **98**, 1906.

1899. Bucyrus Co., dipper dr., \$13,450, \$34,000. J. M. Keller, quarry privileges; dimension st., 10¢ c. y.; riprap st., 5¢ c. y. A. R. Perry, 3 dump scows, \$5,778, **99**, 2263.

ENGINEERS.

Chief of Engineers. R., **93**, 300, 308, 310; **94**, 274, 275, 282; **95**, 311, 312, 313; **96**, 269; **97**, 349, 350, 354; **98**, 341, 347; **99**, 403; **00**, 460, 468, 469, 477.

Boards. BE. convened, Chattanooga, June 7, 1897, to consider and report on proj. by Capt. Kingman for constr. of entrance to lift lock at Riverton. R., **97**, 2292. (Capt. D. C. Kingman, Capt. G. W. Goethals, and Capt. J. G. Warren.)

In charge:

Capt. J. Biddle, 1893-94. R., **93**, 2375; **94**, 1790, 1792.

Capt. G. W. Goethals, 1891-94. R., **93**, 2419, 2430, 2431; **94**, 1821.

Capt. T. A. Bingham, 1895. R., **95**, 2284, 2287, 2291, 2292, 2297, 2299.

Capt. D. C. Kingman, 1896-1900. R., **96**, 1929, 1933, 1935, 1944; **97**, 2254, 2256, 2258, 2262, 2267, 2314; (Maj.) **98**, 1895, 1897, 1898, 1901; **99**, 2256; **00**, 2912, 2956, 3005, 3008.

Maj. W. H. Bixby, 1899-1900. R., **00**, 3219.

Assistants:

W. A. McFarland. R., **96**, 2023.
S. B. Williamson. R., **96**, 2024; **97**, 2274; **98**, 1913; **99**, 2268; **00**, 2924.

F. B. Williams. R., **96**, 2035; **97**, 2288.

D. W. Church. R., **96**, 2037.

W. S. Winn. R., **97**, 2272; **98**, 1910; **99**, 2268; **00**, 2924.

G. T. Nelles. R. (details of constr. of lift lock at Bee Tree and Colbert Shoals Canal), **97**, 2275;

(details of cost, etc., of gates and lift lock) 97, 2294;
98, 1914; 99, 2277; 00, 2962.
J. E. Hall. R., 98, 1924.
C. A. Turrell. R., 99, 2287; 00, 2932.
W. H. Chadbourn, jr. R., 00, 3223.

ESTIMATES. (See Projects.)

By board of internal imp., 1828-32, passage of Little and Big Muscle and Elk R. Shoals by dams, locks, and canal. (See Board of Engineers, Projects, and Private and corporate work.) For canal 60' w., \$1,388,102; for canal 70' w., \$1,424,453, 68, 588.

By Maj. Weitzel, 1868, imp. to extreme l.-w. d. of 3' by removal of obstr. and constr. of wing dams, as follows: Mouth to Florence, \$40,000; Decatur to Chattanooga, \$90,000; passage of Big Muscle Shoals by enlargement and repair of existing canal, \$1,500,000; passage of Little Muscle and Elk R. Shoals by canal, but requiring further surs. before est. can be made, 68, 555, 558; 69, 280; 70, 389; 77, 584. Est. of W. B. Gaw for foregoing work: Mouth to Florence, \$27,072; Decatur to Chattanooga, \$58,901; passage of Muscle and Elk R. Shoals, \$3,964,968; aggregate, \$4,050,941, 68, 558, 579. Revised by Maj. Weitzel, 68, 555, 588.

By Maj. McFarland, 1872, modifying as much of Maj. Weitzel's est. and proj. as applied to passage of Muscle and Elk R. Shoals by formation of 3 basins, with connecting canals 6' x 100', locks 60' x 300'; cost, \$3,676,000, 72, 478, 480, 500, 514, 518. More careful sur. developed unexpected quantities of rock, increasing est. to \$4,003,000, 73, 61, 544; 74, 575; 77, 584.

For existing proj. for R. below Chattanooga, 1877, as follows: Mouth to Florence (Maj. Weitzel), \$40,000; passage of Muscle Shoals (Maj. McFarland), \$4,003,000; from Decatur to Chattanooga (Maj. Weitzel), \$90,000; aggregate, \$4,133,000, 77, 584; 78, 758.

By Capt. King, 1877, substitution of wing dams and removal of obstr. in place of hitherto proposed canal on Little Muscle Shoals, cost of imp. can be reduced to about one-tenth, 77, 89, 583. Passage of Elk R. Shoals by means of wing dams and dr. and rock excavation, together with section of canal on s. shore of R., the previous (1872) est. cost can be reduced to \$736,249 in place of \$1,115,000, 77, 88, 580, 590.

LEGAL PROCEEDINGS.

Acquirement of land required for locks and canal at Bee Tree and Colbert Shoals, 93, 2427; 94, 1827; 95, 2293.

LEGISLATION.

Cession of jurisdiction over land required for lock and canal at Bee Tree and Colbert Shoals by Alabama, 94, 1827; 95, 2293.

OBSTRUCTIONS.

Removal of obstr. piers of Newport News & Mississippi Valley Co. at Gilbertsville, Ky., completed in 1893, 93, 2378.

Plans for alteration of Nashville, Chattanooga & St. Louis Ry. Co. br. at Johnsonville, Tenn., approv. by Sec. of War, 93, 2378. Work completed, 94, 1793.

OPERATIONS.

1879-80. Excavation of rock and constr. of wing dams by hired labor, on Elk R. division, 80, 1671. Canal constr. at Muscle Shoals, 80, 1672. Chan. imp. and canal constr. on Little Muscle Shoals division, 80, 1673.

1880-81. Chan. imp. and lock constr. on Elk R. division, 81, 1842. Canal constr. at Muscle Shoals, 81, 1843. Chan. imp. on Little Muscle Shoals division, 81, 1845.

1881-82. Chan. imp. and lock constr. on Elk R. division, 82, 1840. Canal constr. at Muscle Shoals, 82, 1841. Removal of snags from R. below Florence, 82, 1841.

1882-83. Chan. imp. and canal constr. on Elk R. division, 83, 1481. Canal constr. at Muscle

Shoals, 83, 1482. Removal of snags from R. below Florence, 83, 1482.

1883-84. Canal constr. on Elk R. division, 84, 1642.

1884-85. Canal constr. on Elk R. and Muscle Shoals divisions, 85, 1755.

1885-86. Canal constr. on Elk R. and Muscle Shoals divisions, 86, 1511.

1886-87. Iron gates of Locks 4 to 9, incl., placed in position, Shoal Creek Aqueduct built, and permanent dams of rubble masonry built at Second, Bluewater, Fourmile Creeks, and at Helltown, 87, 1740, 1743.

1887-88. 3,315 c. y. solid rock, 750 c. y. loose rock, sand, and gravel, and 48,706 c. y. earth excavated; 246 c. y. st. quarried; 2,546 c. y. masonry laid, and 2,465 c. y. of riprap and cofferdam built; misc. work upon maneuvering gear at Big Muscle and Elk R. Shoals, 88, 1595, 1597.

1888-89. 37,000 c. y. excavated and placed in embankments; 2,313 c. y. dimension st. and riprap quarried; 4,573 c. y. rubble masonry laid at Big Muscle Shoals; 7,373 c. y. dr.; 425 c. y. riprap st. quarried, and 489 c. y. masonry laid; 8,000 c. y. material placed in dams at Elk R. Shoals, 89, 1825, 1826.

1889-90. 24,000 c. y. earth and rock excavated, 12,000 c. y. embankment built, 2,900 c. y. dimension and riprap st. quarried, and 2,400 c. y. rubble masonry laid at Big Muscle Shoals Canal; 17,820 c. y. earth excavated, 1,284 c. y. riprap quarried, and 5,600 c. y. cut st. and rubble masonry placed at Elk R. Shoals Canal, 90, 2117, 2118.

1890-91. 934 c. y. of st. and 210 cords of brush used in bank protection at Livingstone Pt.; 358 piles, 1,124 c. y. st., and 303 cords of brush used in dike constr., 91, 2256, 2257. Drift sluice built in Browns Isld. Dam, Elk R. division, 91, 2305. Dam across Second Creek, on the Muscle Shoals division, extended 30'; new abutment built; 9,000 c. y. dr. from levels of Lock 7; remains of cofferdam below Lock 9 removed; lock houses at Locks 1, 6, and 7 completed, and in progress at Locks 3 and 4, 91, 2305, 2306. Operations and care of Muscle Shoals Canal, 91, 2322.

1891-92. Pile and st. dike shore protection completed at Livingstone Pt. under contract, 92, 1917. 8,083 c. y. of rock and 3,793 trees removed from Tumbling Shoals and Suck Pt., 92, 1947. Drift sluice above Lock A completed; lock houses completed at Lock A; 20,500 c. y. excavated from chan. below Lock B, 92, 1948. Gap at inner end of wing dam at head of canal closed; 5 m. of ry. built along towpath, 92, 1949. Operation and care of Muscle Shoals Canal, 92, 1956.

1892-93. Livingstone Pt.: 2,000 c. y. st. placed for shore protection, 93, 2378.

Chattanooga to Decatur: About 13,000 c. y. dr., large part of it blasted material; 2 temporary dams built, 93, 2422.

Decatur to Florence: Over 32,000 c. y. earth and st. excavated and used to strengthen dams and embankments; 6,800 c. y. dr., removing old tow-head; nearly 6,000 c. y. earth filling placed at locks; 11,452 c. y. dr.; wooden snubbing posts replaced with iron posts; plant repaired and enlarged; banks graded; overflow ditch 1,100' l., cross-section area of 75' excavated, and a large quantity of misc. work done, 93, 2424-2426.

Florence to Bee Tree Shoals: A few obstr. rocks removed; dam repaired; borings made, and misc. work done, 93, 2427.

1893-94. Livingstone Pt.: Nearly 12,000 c. y. st. used to protect Ohio and Tennessee banks, 94, 1792-1793.

Chattanooga to Decatur: Nearly 35,000 c. y. rock and other material dr., some of it blasted material; 400 l. f. old dam removed; riprap dam built in connection with preceding year, 94, 1823-1824.

Decatur to Florence: 38 iron valves replaced those of wood at locks; plant repaired, and misc. work done, 94, 1825.

Florence to Bee Tree Shoals: Nearly 47,000 c. y. excavated for lock; 685 piles driven, and 1,063 l. f. lock inclosed by sheeting; large amount of misc. work done, 94, 1826-1827.

1894-95. Chattanooga to Decatur: Table showing amount of work done on parts of this division since 1891, **95**, 2287. Chan. at Ross Towhead diverted from wide to narrow bounds. Nearly 10,500 c. y. rock, bowlders, and other material, some of it blasted, dr. from Bridgeport, Guntersville, and Beards Reefs, **95**, 2287-2291.

Decatur to Florence: 1,305 c. y. st. quarried, **95**, 2292.

Florence to Bee Tree Shoals (by contract): Test pits dug for lock at Bee Tree and Colbert Shoals Canal; 26,000 c. y. excavated, and some material for lock delivered; 287 piles and 402 l. f. sheet piling driven, and other misc. work done before flooding of lock pit and abandoning of contract by contractor, **95**, 2293-2295. (By U. S.): 1,245 c. y. rock and earth removed for contractor and some misc. work done. Cements tested; constr. of plant under way; levees protected; 8,257 c. y. excavated; 2,489 c. y. embankments constr.; 683 c. y. rock excavated; large quantities of misc. work done, **95**, 2295-2299.

Below Riverton: 3 wrecks removed, and nearly 200 snags, etc., removed, **95**, 2299.

1895-96. Chattanooga to Decatur: Table showing amount of work done on parts of this division since 1891, **96**, 1929. Nearly 9,000 c. y. bowlders and other material dr., some of it blasted, at the Suck, Bridgeport, Gunters Reef, and at other points, **96**, 1931-1933.

Decatur to Florence: 3 dangerous places marked; dam 2' x 350' above l. w. under constr. at Colbert Shoals, **96**, 1934.

Florence to Bee Tree Shoals: Much excavating done, masonry laid, and in connection with preceding years lock at Bee Tree and Colbert Shoals Canal two-thirds completed; cements tested, st. quarried, and other work done, **96**, 1936-1943.

Below Riverton: Part of snagging plant procured, **96**, 1946.

1896-97. Chattanooga to Decatur: Over 11,000 c. y. rock and other material (some of it blasted) dr. at Bridgeport, Widows Bar, and at other points, **97**, 2255-2256.

Decatur to Florence: Small dike revet.; nearly 15,000 c. y. rock and other material (some of it blasted) dr. at Wagon Factory Bar and at other points; dam 500' l. built, and also short wing dam, **97**, 2257-2258.

Florence to Bee Tree Shoals: Lift lock at Bee Tree and Colbert Shoals Canal completed so far as masonry is concerned. During the year 8,519 c. y. st. quarried and shipped to it, 31,661 c. y. earth and rock excavated, and 12,715 c. y. masonry laid. Unit prices for all work at this locality, **97**, 2260.

Below Riverton: Over 9,000 leaning trees, etc., removed, **97**, 2267.

Livingstone Pt.: Revet. repaired by addition of about 6,000 t. of riprap, and short levees built across low places, **97**, 2269.

1897-98. Over 20,000 c. y. rock and other material (some of it blasted) dr. from Skillet, Pot and Pan, Williams Isld., and other points, **98**, 1896-1897.

Florence to Bee Tree Shoals: Over 60,000 c. y. excavated from entrance to lift lock and placed on banks; banks sodded, and 4,700 c. y. rock used to constr. wall to protect temporary earth slopes at site of cut; new quarry opened at Cherokee, and some st. quarried, **98**, 1899, 1900.

Below Riverton: Nearly 29,000 c. y. dr. in test to determine rate of dr. and probable amount required in this section, **98**, 1902. Over 1,200 snags, etc., and 8 wrecks removed, **98**, 1903.

Livingstone: Revet. repairs in progress, **98**, 1904.

1898-99. Florence to Bee Tree Shoals: Work continued on lift lock at Riverton (description of, **99**, 2271); preparations made for building uard lock.

Below Riverton: 48,344 c. y. dr. (maps), and some obstr. removed.

Livingstone Isld.: Revet. on Ohio side extended and repaired.

Tennessee Isld.: Bank at head graded and sloped, **99**, 2257-.

1899-00. Decatur to Florence: Training wall, vicinity of Nances Reef, extended and strengthened; plant cared for.

Florence to Bee Tree Shoals: Minor work done at Riverton lock (photographs), (details of cost, etc., **00**, 2924), about 11,100 c. y. st. quarried (photographs).

Below Riverton: 31,900 c. y. dr., and about 500 snags, etc., removed.

Livingstone Isld.: Revet. repaired.

Tennessee Isld.: Revet. repaired, **00**, 2914-.

PHYSICAL CHARACTERISTICS.

Chattanooga to Decatur: Description of, **93**, 2420.

Livingstone Pt.: Description of; danger of point being eroded away by Ohio and Tennessee, and consequent destruction of importance of Paducah H., **95**, 2300-2301; **96**, 1948; **98**, 1904; **99**, 2261 (incl. Tennessee Isld.).

Ice and high water damaging works, **94**, 1793-1824; **98**, 1904.

Below Riverton: Description of; list of obstr., their nature and distance apart (prepared by pilot of U. S. boat), **97**, 2263.

Colbert and Bee Tree Shoals Canal: Description of; material from test pits for guard lock, character of, **95**, 2293.

Gauge records, **96**, 2034. Lowest stage of water at Riverton, **98**, 1900. Floods of 1897 severe, height exceeding by 2' preceding high stages, **97**, 2261-2293; **98**, 1901-1921.

Description of watershed, **97**, 2261-2262. Rain-fall, **98**, 1923.

Discharge, **92**, 1952; **95**, 2279; **99**, 2274-86.

Gauging (methods, etc.), **99**, 2274.

Below Chattanooga (Suck or mountain region): Description of; navigation suspended about 3 months each year because of the mountainous torrent character of the stream, **00**, 2957, 2962. Velocity of the current, **00**, 2962-2963. Discharge, **00**, 2963. Probable effect proposed works would have on flood heights, **00**, 2985. List of early reports on the R. bet. Chattanooga and Kellers Ferry, **00**, 2986.

Chattanooga: Number of times and days R. has been above given stages, 1875-1899, **00**, 2966.

Moccasin Bend: Description of. First great bend below Chattanooga. Distance by R. around it, 5½ m.; across neck, about three-fourths m., **00**, 3005.

Bridgeport to Decatur: Description of; 25 obstr. reefs and bars in this part, **00**, 3009.

Paducah, Ky. (see Livingstone Point, above): Description of. City on Tennessee R., near mouth of the Ohio R., **00**, 3220.

PRIVATE WORK.

Bank at Burkettes Isld., Decatur to Florence division, built by owner of land but revetted by U.S., 1896-97. Crevasse had been caused orig. by temporary dam of the U. S. near this point, **97**, 2257.

PROJECTS. (See Estimates and Private and corporate work.)

By board of internal imp., 1828-32, passage of Little Muscle, Big Muscle, and Elk R. Shoals by formation of 3 basins, by means of dams across R., below Campbells (Bainbridge) Ferry, below Elk R. Shoals, and below Browns Ferry, and their connection with each other and the d. w. at Florence by canals along n. shore; execution of work confided to Alabama and carried on by the proceeds from sale of public lands; work began 1831, but not executed in conformity to proj. of board; est. for canal 60' w., \$1,388,102; for canal 70' w., \$1,424,453, **68**, 57, 557, 573, 588; **72**, 498; **73**, 545.

By Maj. Weitzel, 1868, imp. of R. to l. w. d. of 3' by removal of obstr. and constr. of wing dams bet. mouth and Florence and bet. Decatur and Chattanooga; est., \$130,000; and passage of Big Muscle Shoals by enlargement and repair of existing canal, est. \$1,500,000, and passage of Little Muscle and Elk R. Shoals by constr. of new canals, est. for which require further sur.; enlarged and new canals to be of the following dimensions: Canal, 6' x 100'; locks, 6' x 70' x 300'; **68**, 555, 558; **69**, 280; **70**, 389; **77**, 584.

By Maj. McFarland, 1872, modifying as much of the foregoing proj. as applies to passage of Little and Big Muscle Shoals, and Elk R. Shoals, as fol-

lows: Reviving proj. of board of internal imp. (q. v.) for constr. of 3 basins, with connecting canals, but increasing dimensions of canal to 6' x 60' x 100'; locks, 6' x 60' x 300'; enlarging existing canal to above dimensions; est. cost of passing shoals, \$3,676,000, 72, 500, 501, 514, 518; increased by further sur. to \$4,003,000, 73, 61, 544; 74, 575; 77, 584.

By Capt. King, 1877, modifying previous proj. for passage of Little Muscle Shoals and Elk R. Shoals, as follows: Imp. Little Muscle Shoals, to give as great d. as obtainable at points above the shoals, by removal of rock, boulders, etc., and constr. of riprap and wing dams, all in place of hitherto proposed dams and canal, and reducing est. cost to about one-tenth; this imp. to be suppl., if necessary, by use of wire rope or other methods of towage, 77, 89, 583; also modifying previous proj. for passage of Elk R. Shoals by short section of canal along s. side of R., together with rock excavation, dr., and use of wing and riprap dams, whereby the previously est. cost of this section, \$1,115,000, can be reduced to \$736,249, 77, 88, 580, 590.

By Maj. King, 1879, use of locomotive at Muscle Shoals Canal for moving vessels through locks and canal, 79, 1251.

(Projs. of 1872-77 proposed imp. of about 456 m. of R. by constr. of canal 6' x 70'-120' x 14½ m. around Muscle Shoals; canal 1½ m. around Elk R. Shoals; blasting chan. through the bed rock, and constr. wing dams at Little Muscle Shoals, and removing obstr. above Decatur and below Florence; est., \$4,133,000, 70, 389; 73, 544; 77, 584; 86, 1510, 1513; 87, 1740.)

By B.E., 1890, imp. of Little Muscle Shoals by const. of canal around the shoals, and continuation of the same to the Florence Br.; est., \$3,037,000, 91, 2316.

By B.E., 1890, imp. of Colbert and Bee Tree Shoals by constr. of canal around the shoals on the s. bank of the R.; est., \$2,500,000, 91, 2321.

Livingstone Pt., Ky.: Lt. Col. Merrill, 1890, proposed revet. of banks with st. and brush, and constr. of pile and st. dike along the crest of the weakest point where the Ohio cuts through at high stages. Total est., \$180,000. Acts 1890 and 1892 allotted total of \$50,000, 93, 2377. Act 1894, \$25,000, 95, 2300.

Chattanooga, Tenn., to Decatur, Ala. (145 m.): Proj. of 1893 for this section was for removal of obstr. to secure least d. of 3'. Act 1890 allotted \$50,000. Act 1892, \$75,000, 93, 2420. Sur. for proj., 99, 2256.

Decatur, Ala., to Florence, Ala. (50 m.): Under act of 1892, \$100,000 allotted for this section, 93, 2419.

By Capt. Bingham, 1894-95, constr. riprap wing dam outside of Lock No. 9, est., \$8,322, 95, 2292.

Florence, Ala., to foot of Bee Tree Shoals (30 m.): After ex. of 1892, recom. that proj. for substituting 2 locks for combined lock, approved after completion of sur. of 1891, be superseded by one providing for a single lock with a lift of 25'. Allotment of \$300,000 made, act of 1892, 93, 2419-2427.

On Feb. 1, 1895, after annulment of contract in force, U.S. assumed charge of the work undone by the contractor. Description of condition of work. Detailed description of material used, 96, 1935.

Cherokee Quarry, from which st. for locks of Bee Tree and Colbert Shoals was procured, 96, 1942; 97, 2259.

B.E., 1897, provided plans for constr. of entrance to guard lock, 97, 2292; 98, 1899.

By Maj. Kingman, 1898, carrying 5 creeks, draining about 6,500 acres, under canal bet. the guard and lift locks, and permitting drainage of about 3,000 acres to flow into the canal by other creeks, 98, 1901.

Straight mitring gates, with vertical framing, adopted for guard locks, 98, 1901.

Changes of design for guard lock and canal embankment necessitated by h. w. of 1897. Profile of canal, 98, 1900, 1901.

Substitution of slack-water system suggested by Maj. Kingman for lateral canal system not approv. by B.E., 99, 2259; 00, 2916.

Keller Quarry, description of, 00, 2928.

Below Riverton, Ala.: Act 1894 app. \$100,000 for this part; as much of \$90,000 as might be necessary for removal of obstr., and as much of the remainder as might be necessary for a sur. and submission of plans for imp., 95, 2299. Chief of Engineers, 1895-96, au. completion of sur. with funds from the general app. for this part, 96, 1946.

Sur. showed that a large imp. could be effected by dr. Constr. of dr. with dump scows au. (description of, 00, 2932), 99, 2259.

Chattanooga to Riverton: Act 1899 app. \$35,000 for imp. of this part, 00, 2956. Maj. Kingman est., 1900, \$88,624 to imp. the "Suck" by slack-water system, 00, 2961. Details of design, etc., 00, 2972.

Paducah, Ky.: Act 1899 app. \$1,000 for sur., 00, 3219. Maj. Bixby est., 1899-1900, \$166,000 would be required for imp., 00, 3222.

SURVEYS. (See Clinch River and French Broad River, 99, 2256.)

New bench marks estab. in 1893-94, Bee Tree and Colbert Shoals Canal, 94, 1827.

Act 1894 called for sur., etc. (see Projects, below Riverton), section below Bee Tree Shoals. Begun in 1894 by Capt. Kingman, 96, 1945. Completed, 1896, 97, 2263.

Sur. to determine best method of securing Livingstone Pt. against erosion au. by Chief of Engineers, 1895, and made by Capt. Kingman, 95, 2300, 2301. Another sur. made of this locality under act June 3, 1896; R. by Capt. Kingman in 1897, 97, 2314. (See Physical characteristics.)

Surs. and borings, details of, 99, 2274.

Sur. at the "Suck" or mountain region, for slack-water navigation, au. act Mar. 3, 1899; made, 1899, by Maj. Kingman (R. apparently fav.; see Projects), 00, 2957.

Sur. from Chattanooga to Riverton, 00, 467.

Ex. of Moccasin Bend for canal across it au. act Mar. 3, 1899; made, 1899, by Maj. Kingman (R. unfav.), 00, 3005.

Sur. bet. Bridgeport and Decatur, Ala., au. act Mar. 3, 1899. Pre. R., 1900, by Maj. Kingman (R. fav.), 00, 3008.

Sur. of R., vicinity of Paducah, Ky., to protect city front against injury by h. w., au. act Mar. 3, 1899; made by Maj. Bixby, 1900 (R. fav. only to specific app.), 00, 3219.

Maps, 95, 2304; 96, 2042; 97, 2260; 98, 1900. (See Operations, 1899.)

Photographs. (See Operations.)

OPERATIONS.

1900-01. 203,216 c. y. dr., 249 snags pulled, 665 trees cut, and 760 saplings cut, **01**, 2429. Details of work at various localities, **01**, 2436.

1901-02. 185,695 c. y. dr. from various places, **02**, 1715, 1719.

1902-03. 211 snags pulled, 19,100 c. y. dr., resulting in chan. 6' x 200', **03**, 1598.

1903-04. About 300 c. y. rock removed from Big Bend Shoals, and 109,700 c. y. dr. from Beech Creek Isld., **04**, 2364, 2372.

1904-05. 17,800 c. y. dr. from Cedar Creek Bar, **05**, 1757.

1905-06. About 27,600 c. y. dr. from Cedar Creek Bar, 26,500 c. y. from Perryville Bar, and 12,900 c. y. from Densons Isld.; 39 trees and snags removed; 26,200 c. y. dr. from Rockport Bar; from Johnsonville left chan. 18,500 c. y. dr., and 12 trees

and 13 submerged piles removed, and from right chan. 50,400 c. y. dr., and 8 snags and trees removed; 15,500 c. y. dr. at Danville; 19,500 c. y. dr. at Leatherwood Shoal, **06**, 1522. Repairs to floating plant, **06**, 1524.

1906-07. 7,100 c. y. dr. at head of Tennessee Isld., w. chan. 120'; 4,300 c. y. dr. at mouth of Guess Creek, w. chan. to 220'; 5,900 c. y. dr. from Little Chain Bar, adding about 120' to w.; 39,700 c. y. dr. from foot of Threemile Isld., 15,300 c. y. from Leatherwood Shoals, 18,300 c. y. from Panther Creek Isld., 4,400 c. y. at Danville, and 5,200 c. y. from Petticoat Ripple, **07**, 1634.

1907-08. Chan. 6' x 120' completed at Petticoat Ripple, sunken barge removed at Clifton; repairs to sliding banks at Double Isld., 37,700 c. y. dr. from Rockport Bar, 9,200 c. y. at Johnsonville from below R.R. br. and 13,000 c. y. from foot of bar, 15,200 c. y. gravel and mud at Danville incline, 35,900 c. y. cemented gravel and 63,800 c. y. loose gravel from head of Threemile Isld., and 3 piles removed from under draw span of R.R. br. at Gilbertsville; sliding banks repaired, obstr. removed, etc., **08**, 1712, 1714.

1908-09. Repairs to floating plant, **09**, 1703.

1909-10. 151,000 c. y. dr. from McCulloch Bar, 107,560 c. y. at Pentecost Towhead, and 4,824 c. y. material placed in revet. at Livingstone Pt., **10**, 1869.

1910-11. 42,000 c. y. dr. at McCulloch Bar, 130,500 c. y. at Reynolds Bar, and 102,600 c. y. from Lime Works Shoals, **11**, 2052, 2053.

1911-12. New dr. *Watauga* completed; repairs to other floating plant, **12**, 2250.

PHYSICAL CHARACTERISTICS.

Discharge, **02**, 1762-64.

Max. draft over shoalest place at m. l. w., 3'. Extreme flood oscillations range from about 48' at Johnsonville to about 55' at Paducah, **12**, 876.

PROJECTS.

Shoaling, and recom. for imp., **09**, 1703.

Act July 25, 1912, au. modification of "present" proj. as follows: Open chan. work to secure 6' at ordinary l. w.; est., \$600,000,¹ **12**, 875.

1903. Sheridan-Kirk Contract Co., bldg. section of Colbert Shoals Canal (unit prices given), **03**, 1597.

1905. Shippey & Outzen, excavation of Colbert Shoals Canal trunk; earth, 17.49¢ c. y.; hardpan, 50¢ c. y.; rock, \$1 c. y. McGee & Co., constr. of concrete R. wall with foundations for bear-trap sluice; earth, 50¢ c. y.; rock, \$3 c. y.; and concrete, \$8 c. y., **06**, 1522.

1907. Baltimore Bridge Co., furn. and erecting 2 leaves of Hales Bar upper lock gate, \$14,400; Atlantic Machine Works, metal work, \$10,358, **07**, 1632.

1908. W. A. Shippey and The North Alabama Constr. Co., excavation of canal trunk (Colbert Shoals), 24.90¢ c. y., **08**, 1711; Penn Bridge Co., furn. sill castings and furn. and erecting lower gates at Hales Bar, \$37,428, **09**, 1700. Sheridan-Kirk Contract Co., completing Colbert Shoals concrete R. wall, \$1 for earth, \$4 for rock, and \$10.65 for concrete; Evans Bros. Construction Co., lockmen's houses (prices given); Independent Bridge Co., furn. and erecting upper and lower lock gates at Colbert Shoals, \$32,665, **09**, 1701.

1910. Chas. Hegewald Co., Riverton Lock, gate-operating machinery, \$2,999; Penn Bridge Co., 4 Riverton Lock sluice valves, \$11,490, **10**, 1867. Chas. Hegewald Co., 4 sets Riverton Lock sluice-gate operating machinery, \$4,159, **10**, 1868. Vulcan Steam Shovel Co., machinery, etc., for dr. *Tuscomb*, \$20,000; Penn Bridge Co., steel Riverton Lock gates in place, \$19,649, **11**, 2050.

ENGINEERS.

Chief of Engineers. R., **01**, 465; **02**, 393, 398; **03**, 418; **04**, 445; **05**, 455; **06**, 499; **07**, 528; **08**, 552; **09**, 595; **10**, 669; **11**, 720; **12**, 870.

Boards. Special BE. constituted, S. O. No. 11, to consider and report upon modification for imp. R. at Colbert and Bee Tree Shoals, as recom. by Capt. Barden and Maj. Newcomer (see Projects). (Lt. Col. W. H. Bixby, Maj. G. A. Zinn, Capt. H. Burgess), **05**, 1751.

In charge:

Maj. J. G. D. Knight, 1901-03. R., **01**, 2423; **02**, 1712.

Maj. D. C. Kingman, 1902. R., **02**, 1744.

Capt. W. J. Barden, 1903-04. R., **03**, 1594; **05**, 1742.

Maj. H. C. Newcomer, 1904-07. R., **04**, 2360; **05**, 1737, 1747; **06**, 1517.

1st Lt. W. G. Caples, **07**, 525.

Maj. W. W. Harts, 1907-11. R., **07**, 1626; **08**, 1702; **09**, 1693; **10**, 1862; **11**, 2042.

Maj. C. A. F. Flagler, **11**, 717; **12**, 867.

Maj. E. Jadwin, **12**, 867.

Maj. H. Burgess, 1912-. R., **12**, 2243.

Assistants:

S. B. Williamson. R., **01**, 2434.

W. S. Winn. R., **01**, 2434.

G. T. Nelles. R., **02**, 1754.

J. M. G. Watt. R., **05**, 1743.

LEGAL PROCEEDINGS.

Lands deemed to U. S. for constr. and operation of lock and dam, **06**, 1519.

LEGISLATION.

Act Apr. 26, 1904, au. Sec. of War to contract with city of Chattanooga or other individuals for constr. of lock and dam at Scott Pt. (Hales Bar), granting parties undertaking work water-power privileges, **04**, 445.

Sec. of War grants permission to C. E. James and J. C. Guild to build lock and dam at Hales Bar, **05**, 1739.

OPERATIONS.

1900-01. Chattanooga to Decatur, 1,222 c. y. rock excavated at Widows Bar and other places,

170 snags removed, and 1,585 trees and 1,835 saplings cut, **01**, 2424. Decatur to Florence: Training dam at Nances Reef repaired, at Little Muscle Shoals trees overhanging chan. cut off and a longitudinal dam 75' l. built; at Raccoon Bar, washed-off st. replaced on dam and st. quarried; at Sweetwater Bar, 1,950 c. y. dr.; repairs made to floating plant, **01**, 2425. Florence to foot of Bee Tree Shoals: Two months' quarry work done, about 3,067 c. y.; 3,341 c. y. cut and scabbled, **01**, 2427.

1901-02. Decatur to Florence: Repairs to plant, **02**, 1713. Florence to Bee Tree Shoals: Mainten., **02**, 1714.

1902-03. Chattanooga to Florence: 7,630 c. y. dr. from bar at Florence Br. and placed so as to form a dam about 3' h.; 15,500 c. y. dr. from Sweetwater Bar, **03**, 1595. Florence to Riverton: Preliminary work by contractor for work on canal section above guard lock, **03**, 1596.

1903-04. Colbert Shoals Canal: Excavation work for canal began (27,313 c. y. soft material and 21,908 c. y. rock removed), and 2,900 l. f. cofferdam completed, **04**, 2362.

1904-05. Colbert Shoals Canal: 35,093 c. y. earth and 42,588 c. y. rock excavated, and 1,230 c. y. concrete R. wall built, **05**, 1737. Hales Bar Lock and Dam: Preliminary work of examining foundations and preparing plans for work at this place in progress, **05**, 1739. 10,600 c. y. dr. from chan. at Sweetwater Bar, **05**, 1741.

1905-06. 13,160 c. y. dr. from Guntersville Landing, 22,815 c. y. from Browns Bar, 22,330 c. y. from Allens (or Paint Rock) Bar, **06**, 1517. At Hales Bar Lock and Dam, general plans completed, work of clearing grounds for actual operations begun, and necessary buildings and machinery for use in building this lock and dam constr., **06**, 1519. At Colbert Shoals Canal, work in progress on excavating canal and building concrete R. wall, **06**, 1520.

1906-07. 12,660 c. y. dr. from Browns Bar, 14,100 c. y. from Allens Bar, and 853 trees cut and 1 snag removed from Little Muscle Shoals, **07**, 1626-27. At Hales Bar Lock and Dam, 109,162 c. y. earth, and 1,883 c. y. rock excavated, and 5,886 c. y. concrete work done to date, and necessary structures for carrying on operations erected, **07**, 1628-29. At Colbert Shoals Canal, work on excavation of canal and building of concrete R. wall prosecuted; details of work and quantities excavated given, **07**, 1630-31.

1907-08. At Hales Bar Lock and Dam, 46,942 c. y. earth and 6,807 c. y. rock excavated, and 4,136 c. y. concrete placed; other work of cofferdam, R.R. and crib constr. done, **08**, 1702-03. Dr. *Kwasind* rebuilt and removed 23,390 c. y.; 14 snags removed from Guntersville Slough; 1,828 c. y. dr. from Allens Bar; constr. of 2 reinforced concrete piers above Twin Towheads, with dams connecting them with towheads, completed, **08**, 1705. At Colbert Shoals Canal, upper section, 2,645 c. y. rock and 1,271 c. y. earth excavated, and 10,587 c. y. concrete R. wall built; for lower section wall, 652 c. y. earth excavated and 3,826 c. y. concrete placed; in lower section canal, stations 10-290, 286,461 c. y. earth and 167,281 c. y. hardpan excavated. By hired labor, work on raising lock walls 4'-10" begun, **08**, 1710.

1908-09. At Hales Bar Lock and Dam, earth and rock excavated from lock pit and lower approach, for power house, tailrace, and dam foundation, amount 42,165 c. y.; 24,650 c. y. concrete placed in core wall, power house, lock walls and dam, **09**, 1693. At Allens Bar, 28,009 c. y. soft material, 55,600 c. y. cemented gravel, bowlders, etc., and 24,700 c. y. solid rock removed, **09**, 1695. Quarry at Coffee Bluff reopened and constr. of dam commenced at Chunn Bar; barges and dump scows built, and extensive repairs made to existing floating plant, **09**, 1696. At Colbert Shoals Canal, contract for upper portion completed Nov. 27, 1908, **09**, 1697. Downstream portion of R. wall completed; 635,707 c. y. excavated from lower section of canal, **09**, 1698. Dwellings, etc., erected, and raising height of lock walls by hired labor practically finished, **09**, 1699.

1909-10. At Hales Bar Lock and Dam, 44,268 c. y. concrete placed, 15,820 c. y. earth and 8,755 c. y. rock excavated, and 1,400 c. y. embankment

built, 10, 1862. At Burdine Bar, 5 dikes constr., using 14,100 c. y. st., 10, 1863. At Flint R. Towhead, 10,700 c. y. dr., and extensive repairs made to floating plant, 10, 1864. At Colbert Shoals Canal, excavation of lower section completed, 198,316 c. y. dr. Work done at gate anchorages, lock chamber unwatered, and other minor operations by hired labor, 10, 1866.

1910-11. At Hales Bar Lock and Dam, 60,750 c. y. concrete placed, 75,277 c. y. earth and 40,536 c. y. rock excavated, 20,566 c. y. embankment built, transformer house constr.; 663 l. f. cofferdam constr. remains to be done, 11, 2042. A chan. 5' x 150' completed at Flint R. Bar, 11, 2043. At Allens Bar, chan. excavated to full proj. d. and w.; at Guntersville Landing, 3,500 c. y. dr.; at Florence Br. Bar, 6,800 c. y. dr.; at Tusculumbia Bar, 44,200 c. y. dr. The total dr. bet. Chattanooga and Riverton during 1911, 176,800 c. y. rock and gravel, 11, 2044, 2045. At Colbert Shoals Canal, preparation made for erecting guard gates for lock, 11, 2046. Installation of machinery, dr. deposits from canal, building road, and other necessary work done at Colbert Shoals Canal by hired labor, 11, 2047.

1911-12. At Hales Bar Lock and Dam, 21,360 c. y. concrete placed, 23,446 c. y. earth and 22,015 c. y. rock excavated, 14,274 c. y. embankment built, and 4972 s. y. riprap placed; erection of both lower and upper lock gates completed; installation of electrical machinery; 898 l. f. of cofferdam added to orig. estimate, 12, 2243, 2244. At Tusculumbia Bar, 36,410 c. y. excavated, repairs made to floating plant. At Buck Isld. Shoals, 71,620 c. y. removed; 18,700 c. y. dr. from Colbert Shoals Canal, 12, 2245. At Colbert Shoals Canal, 14,010 c. y. removed from lock chamber, cofferdam removed and other work necessary to completion done, 12, 2247.

First commercial boat locked through Dec. 4, 1911.

PHYSICAL CHARACTERISTICS.

Gauge data, 02, 1759, 1760.

Discharge data, 02, 1762.

Precipitation, 02, 1758.

Chattanooga gauge readings, 01, 2424; 02, 1713, 1805; mean stages, 1879-1900, 02, 1761; no. of days above given stages, 1875-1900, 02, 1762.

Riverton gauge readings, 01, 2426.

Canals have not made navigation possible at all stages, 01, 2425.

Sur. bet. Scott Pt. and Lock A. Detailed history of this section given, together with reports of assistants, containing information as to character and physical formation of R., 02, 1743; area and distribution of drainage basin, 02, 1757; list and character of obstructions, 02, 1767.

Hydrographs, 02, 1713.

Results of dam constr. at Little Muscle Shoals have been not only to stop cross current, but, also, to decrease velocity to a considerable extent; boats "now" make passage without use of a line, 08, 1705.

PRIVATE WORK.

About 3,270 c. y. dr. by Nashville, Chattanooga & St. Louis Ry. Co. in the slough chan. leading from R. to its incline at Guntersville, 04, 2361.

Constr. Hales Bar Lock and Dam given under Operations; work under supervision of U. S. (See Projects also, 11, 2043.)

PROJECTS.

Sept. 5, 1901, recom. that Colbert Shoals Canal be constr., to be in part submerged when there was a 7' stage over shoals. Further modification submitted Sept. 17, 1902, and entire subject referred to B.E., Dec. 10, 1902; plans submitted to Sec. of War and approved Feb. 17, 1903. Main differences from earlier plans, location of upper section of canal in R. bed instead of in bank, resulting in constr. of R. wall, and location of guard lock at lower end instead of upper end; cost to complete, \$2,200,000, 03, 1596.

Capt. Barden proposed, 1905, at Colbert Shoals: (1) to eliminate guard lock; (2) to raise walls and gates of lift lock 4.5', to elevation 42 (8.5' above l. w.) at head of canal; (3) to raise weir crest 7' to elevation 41; (4) to shift canal trunk toward land side of canal right of way; and (5) to raise R. embankment to at least elevation 43, wasting the surplus excavated material on R. side of canal, where land already purchased for latter purpose; concurred in by Maj. Newcomer, B.E., and au. by Sec. of War; saving, \$150,000 in total cost, 05, 1738, 1742.

Act Mar. 2, 1907, au. proj., extended in scope by act June 25, 1910, to provide for open chan. work to secure chan. 5' l. w. bet. Chattanooga and Riverton; est., \$1,481,500, 10, 670.

Proj. for constr. Hales Bar Lock and Dam, as follows: Lock and dam and power house; l. of pool, 40 m.; lift of lock, 37.5'; size of lock, 60' x 312'; clear l. 300'; d. on miter sills, 6.5'; to be paid for by private corporation, except gates, valves, metal work, and superintendence. Cost to U. S., about \$229,700, 12, 2043, 2044.

Act June 25, 1912, modified proj. in accordance with recom., as follows: (a) Bet. Chattanooga and Browns Isld., lock and dam at Crow Creek Isld., and open chan. work to secure 6' at ordinary l. w.; est., \$3,000,000; (b) bet. Florence and Riverton, open chan. work to secure 6' l. w.; est., \$500,000,¹ 12, 871.

SURVEYS.

Sur. au. act Mar. 3, 1899, Scott Pt. to Lock A, Muscle Shoals Canal, embracing reach bet. Bridgeport and Decatur. R. by Maj. Kingman, Mar. 25, 1901; est., \$770,640,⁴ 02, 398.

Ex. au. act Mar. 2, 1907, Elk R. Shoals to Florence Ry. br., for development of water power. R. by B.E., Nov. 7, 1907,² 08, 572.

R. by B.E.H., Feb. 1, 1909, req. by R. and H. Com. Recom. expend. of \$250,000 to securing chan. 5' x 150' bet. Florence Br. and Colbert Shoals Canal.³

Sur. au. act Mar. 3, 1909, from confluence of Holston and French Broad Rs. to mouth. R. by Maj. Harts, Mar. 21, 1910, and Lt. Col. Warren, May 19, 1910; est., \$6,700,000, with \$100,000 an. mainten.,¹ 12, 883.

Cong. docs., etc., relating to exs., surs., plans, etc., 12, 872.

Maps.^{2 1} 02, 1712; 11, 2043, 2046; 12, 2243.

Part (e), AA-18 Tennessee River. (Above Chattanooga.)

ESTIMATES.

By Maj. McFarland, 1871, removal of obstr., dr., and constr. of wing dams to give l.-w. d. of 3', chan. 140' w., as follows: Chattanooga to Kingston; \$47,156, 71, 502, 507; 74, 572; Kingston to Knoxville, \$125,000, 72, 488, 494; 74, 573; aggregate assumed at \$175,000; necessity of increase, 74, 573; 77, 579; 78, 756.

By Maj. McFarland, 1872, imp. from mouth to Short Creek (being part of Southern Route of Transportation Routes to Seaboard) to 3 and 5', incl. imp. of Muscle Shoals, \$4,251,000, 72, 509, 512, 518; 75, ii, 658.

OPERATIONS.¹

1879-80. Rock excavation and constr. of wing dams on Chota and Coulters Shoals, 80, 1669. Completion of dams, 81, 1840.

1880-81. Constr. of wing dams at Little R. Shoals and repairing of dams at Half Moon Isld., 81, 1840.

1881-82. Constr. of wing dams at Little R. Shoals, 82, 1838.

1882-83. Constr. of wing dams at Little R. and William Isld. Shoals, 83, 1478.

1884-85. Rock removal and constr. of wing dams at Chota, William Isld., Lyons, Knoxville, and Bakers Shoals, 85, 1762.

1886-87. 466 c. y. st. quarried and 390 c. y. of same placed in dams at upper Half Moon Isld.; flat scows built and snag boat in progress, 87, 1738.

1887-88. 140 l. f. of riprap dam built; 788 c. y. riprap quarried, and 30 c. y. loose rock removed; 127 snags removed, and 103 trees cut from banks, 88, 1593.

1888-89. 577 c. y. riprap quarried and placed in dams at White Creek Shoals; 42 snags removed, and 1,872 trees cut from banks, 89, 1821.

1889-90. 3,900 c. y. st. quarried and built into dams, and 510 snags removed from chan., 90, 2113.

1890-91. White Creek Isld. Dam extended 690', and 345 l. f. of spur dam built; 40 c. y. rock and 24 snags removed from chan., and 258 overhanging trees cleared from banks, 91, 2254.

1891-92. Lower dam repaired and raised throughout 1,600'; upper dam at towhead, and spur dam on reef repaired; repairs to plant, 92, 1914.

1892-93. Light-draft SS. built; 650 c. y. rock and about 500 snags and other obstr. removed; 4,052 c. y. dams built, and 1,496 c. y. old dam calked, 93, 2332.

1893-94. St. quarried for dams, 94, 1789.

1894-95. Caney Creek Shoals: Nearly 1,000 obstr. removed; about 500 c. y. rock excavated; 1,463 c. y. riprap dams built; banks retted; buoys placed; 2 beacons set; 1,364 c. y. st. quarried, and plant repaired, 95, 2286.

1895-96. Caney Creek Shoals: Nearly 8,000 c. y. st. quarried; 1,362 c. y. rock excavated from chan.; 4,211 c. y. st. used in constr. of dams and bank protection; crib 300' l. built; plant enlarged, 96, 1927, 1928.

1896-97. Caney Creek Shoals: About 2,800 c. y. rock blasted and removed; a low dam 877' l. built; Dam No. 3 l. about 420' and a check dam 80' l. constr.; some dr. done; plant repaired, 97, 2253, 2254.

1897-98. Knoxville: 12 old military br. piers removed, and st. used in repair of dams and training walls in vicinity; training wall 350' l. built and 3 spur dams with average l. of 130' each added. Caney Creek Shoals: 2,100 c. y. dr., and training wall l. 214'; nearly 10,000 snags and other obstr. removed, 98, 1894.

1898-99. St. for Knoxville Shoals and Bakers Shoals quarried; some dr. at Dickinson Isld.; plant repaired; training wall at Maryville Br. extended (photograph); increase of plant in progress, 99, 2254.

1899-00. Training wall at Bakers Shoals building, and bank rippedraped; st. excavated from reefs at McNutt Shoals and used for protection of banks there; dams at Knoxville Shoals repaired and strengthened, and some dr. done; plant increased; cofferdam and other material removed from false work of br. of a private company, 00, 2910.

1900-01. Care and repair of plant, 01, 2422.

1902-03. Quarterboat, derrick boat, tender for same, tool boat, and 3 barges built; at Rockwood Landing, 2,000 c. y. dr. and 60 trees cut; at Kings Bar, 300 c. y. dr., 345 trees cut, 1,715 c. y. rock blasted, and 375 c. y. st. and 575 logs removed; at Bracketts Bar, 19,935 c. y. dr., 490 c. y. st. and 700 c. y. rock removed; at head of Half Moon Isld., 1,383 c. y. quarried from rock reef and 2,405 c. y. placed on dams; at Soddy Shoals, break in dam repaired, 03, 1593.

1903-04. At Bracketts Bar, chan. completed to 3' x 130' x 2,100', removing 21,775 c. y. sand, etc., and 925 c. y. rock; at Kings Bar, 2 wing dams built, quarry opened, 3,834 c. y. earth stripped, and 4,659 c. y. rock quarried and used in constr. dams 500' and 950' l.; at Richland Creek, 1,645 c. y. mud and gravel dr., 2 sunken barges removed and part of another, rock reef blasted away, and 3 trees

¹ All operations by hired labor, 80, 1670.

cut; at Knoxville, 600 c. y. riprap put in small dam below county br.; bet. Kingston and Chattanooga, 199 snags pulled, 3 barges broken up and raised, 37 c. y. st. blasted and removed, and 154 trees cut; at Chattanooga, 8 c. y. drift and debris cleared; at mouth of Chickamauga Cr., 6 snags pulled, **04**, 2359.

1904-05. 22,000 c. y. dr. in Long Isld. Chute, and repairs made to dr. and other floating plant, **05**, 1736.

1905-06. At Long Isld., 783 c. y. solid rock, 1,177 c. y. bowlders and loose rock and 10,010 c. y. sand and gravel removed, **06**, 1513. At Shields Dam, 2,150 c. y. rock quarried, 1,004 c. y. rock placed in dams, 2,400 c. y. loose rock dr., 2,390 c. y. gravel and sand dr., **06**, 1514. At Half Moon Isld., dams repaired, overhanging trees cut, and drift removed from dams, **06**, 1514-15. At White Creek Shoals, 1,115 c. y. rock quarried and placed in dams; at mouth of Richland Creek, 1,840 c. y. dr. from bar, and repairs made to floating plant, **06**, 1515. SS. *Lookout* struck elbow of dam and sank; raised, and is now being repaired, **06**, 1515.

1906-07. At Shields Dam, 9,135 c. y. sand and gravel, 3,032 c. y. cemented sand and gravel and 4,308 c. y. cemented rock, sand, and gravel dr., about 2,925 c. y. st. quarried and 2,318 c. y. placed in dams; at Caney Creek Shoals, 2,215 c. y. loose material and 775 c. y. rock removed, **07**, 1622.

1907-08. 435 c. y. gravel and 370 c. y. loose rock dr. from head of Caney Creek Shoals and 3,048 c. y. gravel and 50 c. y. loose rock from Kings Bar, 50 c. y. rock removed by derrick boat; building of regulating dams bet. Turner Bar and Pickels Bar and at head of Caney Creek Shoals continued; repairs to floating plant, **08**, 1698, 1699.

1908-09. At Little R. Shoals, dike built to 1,450', and 750' of the cross dam erected; at Caney Creek Shoals, 7,280 c. y. dr., dike work commenced, dam being 1. about 1,050 l. f., and repairs made to floating plant, **09**, 1690.

1909-10. At Little R. Shoals, rock reefs excavated by drilling and blasting, broken rock removed by dr., and about 4,839 c. y. rock used in constr. of 2,276 l. f. contraction works for chan. regulation, **10**, 1859. 37,325 c. y. dr., repairs to floating plant, and work at Soddy Shoals, **10**, 1860.

1910-11. At Little R. Shoals, 20,657 c. y. blasted rock, 6,095 c. y. loose rock and hardpan, and 250 c. y. soft material dr., 3 tie dams built, completing work at this place; at Kelly Shoals, 12,613 c. y. gravel, shale, and soft material removed, drilling and blasting of rock commenced, and repairs made to floating plant, **11**, 2040.

1911-12. New dr. *Tellico* completed and put in commission, and other plant built and repaired; at Kelly Shoals, 25,000 c. y. gravel and 1,800 c. y. rock removed, and 2,180 c. y. rock placed in longitudinal dike and 2,380 c. y. in cross dikes; about 85% of imp. completed, **12**, 2240. At Watts Bar, 17,600 c. y. gravel and about 1,700 c. y. rock dr. from chan., **12**, 2241.

PHYSICAL CHARACTERISTICS.

Description of; sur. of 1891-93, **93**, 2334, 2339. Details, 2341.

Table of shoals and depths, **93**, 2361.

Table of distances from junction of French Broad, and Holston Rs., along l.-w. chan., **93**, 2362.

Table of elevations, **93**, 2364.

Table of h. w., **93**, 2365.

Discharge, **93**, 2365; **96**, 2014-20; **02**, 1762-64.

Velocities, **93**, 2366.

At Little R. Shoals, chan. 3' d. accomplished, **11**, 2040.

PRIVATE WORK. (See State work.)

Br. company obtained permission of Sec. of War to have U. S. remove false work of br. constr. near Knoxville, **00**, 2911.

U. S. plant employed in removal of several obstr. at Knoxville, expenses being assumed by city of Knoxville and private parties, **05**, 1736.

Special work paid for by Dayton Coal & Iron Co., near White Creek Shoals, 65 c. y. gravel, 25 t. iron ore, 1,475 c. y. gravel, sand, etc., removed, **07**, 1622.

PROJECTS. (See Estimates, Plans, and Private work.)

Early proj., 1832-56, seem confined to obtaining l.-w. d. of 2' by means of wing dams and dr., and removal of obstr., **71**, 502; **72**, 488, 497. (See Operations and Private and corporate work.)

By Maj. McFarland, 1871, imp. chan. to 3' l. w. bet. Chattanooga and Knoxville, 189 m., and requiring the removal of 29 obstr. reefs and shoals; est., \$175,000, **71**, 502, 507; **77**, 579. Increased, 1887, to \$225,000, **79**, 1248; **80**, 1669; **81**, 1841; **87**, 1738.

In 1890, after an expend. of \$271,000, \$29,000 est. as required for completion of the proj. imp., **90**, 2113, 2114.

Extent to which stream could be made navigable, **93**, 2354.

In 1893 Lt. Col. Robert est., after sur. of 1891-93, \$650,000 to obtain a 3' chan., **93**, 2335.

By Maj. Kingman, 1899, applying 1899 app. to constr. of dr. plant, part of the expense to be paid from other app. for other works, **99**, 2255.

Act Mar. 3, 1905, au. exp. of \$5,000 for Little Tennessee R. in clearing obstr. from chan., **06**, 498.

Act Mar. 2, 1907, au. constr. of floating plant; est., \$30,000, **07**, 1622.

Question whether Tennessee R. can ever be satisfactorily imp. by regulation to provide for a C. of national importance, **07**, 1623.

Act July 25, 1912, au. (a) constr. of lock and dam at foot of Caney Creek Shoals (incl. cost of flowage rights) suitable for 6' navigation; est., \$1,600,000; (b) open chan. work to secure 3' extreme l. w., and 4' at ordinary l. w.; est., \$1,000,000, **12**, 869.

STATE WORK.

In 1832 Tennessee undertook rock removal and constr. of wing dams. Amount done unknown, but of no lasting value, **93**, 2331.

SURVEYS.

Act Sept. 19, 1890, app. \$15,000 for sur. of R. from Chattanooga to junction of Holston and French Broad Rs. to ascertain how much navigation might be benefited, and probable cost of imp. Surs. made by Lt. Cols. Barlow and Robert, and R. by Capt. Biddle in 1893, **93**, 2333. Field and office work, **93**, 2336. Description of bench marks, **93**, 2366. List of maps, **93**, 2374.

Sur. of part of the front of the town of Chattanooga made for the town, 1897, **97**, 2270.

Sur. au. act Mar. 3, 1909, from confluence of the Holston and French Broad R. to mouth. R. by Maj. Harts, Mar. 21, and by Lt. Col. Warren, May 19, 1910; est., \$6,700,000, with \$100,000 an. mainten., **12**, 883.

Cong. docs., etc., relating to exs., surs., plans, etc., **12**, 869.

Maps, **196**, 2042; **97**, 2270; **99**, 2288 (photographs, **99**, 2280; **11**, 2040).

Hydrographic charts, **02**, 1713.

¹ H. D. 360, 62d, 2d.

Part (f), AA-18 Tennessee River, Colbert Shoals Canal. (Operating and care.)

APPROPRIATIONS.¹

1912, \$7,991.96, 12, 883.

COMMERCE.

Since opening, 14,245 t. transported through canal, 12, 883.

ENGINEERS.

Chief of Engineers. R., 12, 883.

In charge. Maj. H. Burgess, 1912-. R., 12, 2261.

OPERATIONS.

1911-12. After deposit was removed from lower lock approach, canal opened to navigation and on Dec. 4, 1911, first commercial boat locked through; canal operated and lock, canal trunk, embankments, buildings, grounds, floating plant, and other appurtenances cared for, 12, 2261.

Part (g), AA-18 Tennessee River, Tenn.—Muscle Shoals Canal. (Operating and care.)

LEGAL PROCEEDINGS.

Settlement of O'Neal suit by purchase of land, 03, 1606.

Protest of owners against the discharge of dr. material on their land. In accordance with decision of Judge Adv. Gen., steps taken to purchase land, 06, 1533.

LEGISLATION.

Senate resol. for information concerning lands and water power at Muscle Shoals Canal; R. by Maj. Newcomer, 05, 1780.²

OPERATIONS.

1892-93. 38,964 c. y. dr.; about 1,500 drift logs removed, and broken bank repaired, 93, 2432, 2433.

1893-94. 42,800 c. y. dr.; 1,275 drift logs removed, and misc. work done, 94, 1829, 1830.

1894-95. 26,295 c. y. dr. and a part of the canal w. where difficult for boats to pass; large number of drift logs removed; repairs made, and misc. work performed, 95, 2306-2309.

1895-96. 7,880 c. y. dr.; dry dock under constr. and work similar to that of preceding years performed, 96, 2044-2047.

1896-97. 61,550 c. y. dr.; dry dock completed, and misc. work done, 97, 2299.

1897-98. Gates at 11 locks painted after being scraped by sand blast; broken dam repaired; about 11,000 c. y. dr., and much misc. work done, 98, 1926, 1927.

1898-99. All of the lock gates cleaned and repainted; about 40,000 c. y. dr., and other work done, 99, 2295.

¹ Expended under the permanent indefinite app. provided by act of July 5, 1884, for operating and keeping in repair canals and other public works.

² S. D. 173, 58th, 3d.

³ H. D. 421, 57th, 2d.

1899-00. About 59,200 c. y. dr., and various repairs made to plant, **00**, 2935.

1900-01. Aqueduct cleaned and painted; embankments reinforced, straightened, and sodded, at Locks 5, 7, 8, and 9, and 4,400' along sections 20 and 21, **01**, 2446, 2447. 500' rubble wall built at Lock A; 18,093 c. y. dr.; extensive repair work commenced on dam bet. Miltons Bluff and Brown Isld.; work at yard, shops, and mill, **01**, 2448-51.

1901-02. Parker gate above Lock A rebuilt; minor repairs on locks; repair of dam bet. Miltons Bluff and Browns Isld. completed; 55,764 c. y. dr., **02**, 1730-32. Work done at shops, mill, and yard, **01**, 1733-35. Description of damage done by flood and consequent repairs, **02**, 1736.

1902-03. Gates at Locks A and B cleaned and painted; minor repairs made; 38,123 c. y. dr.; **03**, 1608-10. Repair of floating plant, **03**, 1614. Work at shops, mill, and yard, **03**, 1612-14. Repair of damage done by flood completed, **03**, 1615.

1903-04. Minor repairs made; guide and retaining wall, 300' l., built below Lock 7, and similar wall at Lock 6 rebuilt; timber revet. built along canal banks at Lock A; 100,012 c. y. dr., **04**, 2381, 2383, 2384. Work at shops, mill, and yard, **04**, 2386, 2387. Derrick boat rebuilt and dr. *Alabama* (formerly *Bucyrus*) reconstr.; other work on floating plant; levee built at weir above Lock 6, **04**, 2387, 2388.

1904-05. Hydraulic plant at Lock A replaced with hand-power appliances; trouble with drop gates at Locks 5 to 9; minor repairs; stopping leaks above Lock B and bet. Locks 2 and 4 continued, **05**, 1766-68. 105,490 c. y. dr., **05**, 1769. Work at shops and mill, **05**, 1770, 1771. Repair of floating plant, **05**, 1772. Road built on new right of way at Lock 6, **05**, 1772.

1905-06. Gates at Locks 3 to 9, incl., cleaned and painted, and various other repairs and imp. made, **06**, 1529. 146,968 c. y. dr., **06**, 1531. Repairs and imp. to floating plant, **06**, 1532. Work at shops, **06**, 1533.

1906-07. Minor repairs and imp., **07**, 1639. 111,337 c. y. dr.; timber revet. built along bank above Lock A, and wall at Lock 3 rebuilt, **07**, 1641. Repairs to floating plant; work at shops; 4 tracts (26.5 acres) along s. side of canal bought, **07**, 1642, 1643.

1907-08. Minor repairs to locks, canal, etc.; 59,372 c. y. dr.; imp. made and work done at yard and shops; repairs and additions to floating plant, **08**, 1716, 1717, 1719.

1908-09. Minor repairs and imp. made, **09**, 1705. 117,777 c. y. dr., **09**, 1706. Electric plant installed at Lock 6, other imp. made, and work

done at yard and shops, **09**, 1707. Extensive repairs and additions to floating plant, **09**, 1708.

1909-10. Minor repairs and imp. made; 185,982 c. y. dr., **10**, 1872. Two dr. hulls, 3 dump scows, towing scow and derrick boat built and various other work done at yard and shops, **10**, 1873.

1910-11. Minor repairs to locks, canal, ry., and rolling stock; 137,088 c. y. dr.; shops operated as usual, **11**, 2055-56. Extensive repairs and additions to floating plant, **11**, 2056.

1911-12. Minor repairs to locks, canal, ry., and rolling stock; embankment 1,000' l. built behind Sixmile Weir, 2,000 c. y. material used; shops operated as usual, **12**, 2257-58. Floating plant repaired; 2 dr., 1 barge, and 1 dump scow completed; building of 3 new barges, a dump scow, and derrick boat in progress, **12**, 2259.

PHYSICAL CHARACTERISTICS.

General description of, **98**, 1930.

Rainfall and floods damaging works, **93**, 2432, 2433; **97**, 2297; **98**, 1926.

15 streams of varying size flow into the canal and bring large quantities of sediment, **97**, 2298.

Description of canal, **01**, 2440-2441.

Description of extraordinary flood of Mar., 1902, **02**, 1736.

Dimensions and other data of locks, **01**, 2445; **02**, 1729.

Seepage from canal during freshets, **12**, 2257.

PROJECTS.

This work includes care and operation of 11 locks, 1 steel aqueduct, 16 m. canal trunk and embankment, 30 m. telephone line, 15 m. of R.R. and R.R. plant, a large plant incl. dry dock, sawmill, machine shop, and 19 other buildings, and dr. plant, **97**, 2297.

Am. given, 1895, to constr. dry dock bet. Locks Nos. 6 and 7, at a cost not to exceed \$3,000, to furnish a place for repairing U. S. plant, **96**, 2047.

Special allotment of \$2,000 made in 1897-98 for repair of partly destroyed dam bet. Browns Isld. and Lock A, **98**, 1926, 1927.

Unit cost of operating and caring for locks, etc.; for dr. and mainten. of canal trunk and embankment, **98**, 1932.

By Maj. Harts, to change location of shipyard at Lock No. 6 to some point on R. where supplies might be delivered by rail, **11**, 727, 2057.

SURVEYS.

Maps, **11**, 2056.

AA-18(h) TENNESSEE AND COOSA RIVERS. (Canal to connect.)

COMMERCE.

Requirements discussed, **72**, 518.

ENGINEERS.

Chief of Engineers. **R.**, 71, 64; **72**, 60.

In charge. Maj. W. McFarland, 1871. **R.**, **72**, 510, 514, 516, 518.

Assistant. J. C. Long. **R.**, **72**, 520.

ESTIMATES. (See Plans.)

By J. C. Long, 1872, incl. canal, slack-water navigation, and feeders, \$9,518,415; storage reservoirs, \$552,192; total, \$10,070,607, **72**, 516, 522, 525. Increased by Maj. McFarland, 1872, to \$11,570,607, **72**, 516, 518.

PHYSICAL CHARACTERISTICS.

General description, **72**, 514, 520.

PLAN. (See Estimates.)

By J. C. Long, 1872, canal 33 m. l. and slack-water navigation 17½ m.; proposed dimensions of canal 70' w. at water surface and 5' d., **72**, 511, 521.

SURVEY.

From near Guntersville to near Gadsden, Ala., being part of proposed line of water communication from the Mississippi R. to the Atlantic; made by J. C. Long, 1871-72, under direction of Maj. W. McFarland. **R.**, **72**, 520.

APPROPRIATION.*

1874, \$46,000, **75**, ii, 658.

DOCUMENTS. (Not printed in reports.)

Maj. McFarland's final **R.** on sur. of Tennessee R., **75**, ii, 669. **R.** of Maj. McFarland, J. E. Thomes, and J. C. Anderson on sur. of the Coosa, Ocmulgee, and Altamaha Rs., **75**, ii, 673-675.

ENGINEERS.

Chief of Engineers. **R.**, **75**, 37.

In charge. Maj. W. McFarland, 1872-75. **R.**, **72**, 509; **75**, ii, 658.

Assistants:

B. W. Frobels. **R.**, **75**, ii, 662, 668, 670.

W. B. Gwynn, **75**, ii, 663.

H. M. Smith, **75**, ii, 663.

J. E. Thomes, **75**, ii, 663, 674.

J. C. Anderson, **75**, ii, 674, 675.

ESTIMATES. (See Plans.)

By Maj. McFarland, 1875, completion of sur. of Tennessee R. from Knoxville to Paducah, \$30,000, **75**, ii, 661.

By B. W. Frobels, 1875, chan. in Coosa R., from Rome, Ga., to mouth of Great Wills Creek, 4' x 80' at extreme l. w., 120 m., \$81,679, **75**, ii, 668. Revised by Maj. McFarland, 1875, by increase of cost to \$180,000, **75**, ii, 662.

By B. W. Frobels, 1875, chan. 4' x 80' extreme l. w. in Ocmulgee and Altamaha Rs., bet. Macon and Darien, Ga., \$72,901, **75**, ii, 670.

By Maj. McFarland, 1875, increased to \$162,000, **75**, ii, 670.

PHYSICAL CHARACTERISTICS.

Of Tennessee R.; heavy floods, **75**, ii, 660; shoals sur., **75**, ii, 660.

Coosa R.; height above mean l. t. in Mobile B., **75**, ii, 662; average fall per m., **75**, ii, 662, forma-

tion of bed, **75**, ii, 663; list of shoals; h. w. and l. w. at Rome and Gadsden, **75**, ii, 664, 667.

Ocmulgee and Altamaha Rs.; height of Macon above mean l. t.; list and description of bars and shoals, **75**, ii, 669, 670-673.

Railway, Guntersville route; max. grade, 52.8' per m.; table of grades; max. curve, 4°, **75**, ii, 673, 674, 675.

Hiwassee route; table of grades; max. curve, 6°, **75**, ii, 675.

PLANS. (See Estimates.)

By Senate Com., 1874: (1) 3' chan. in Tennessee R., mouth to Knoxville, at lowest stage of water; (2) communication by canal or freight ry. from Tennessee R. to the Atlantic, **75**, ii, 658.

By B. W. Frobels, 1875: (1) Chan. 4' x 80' in Coosa R. from Rome, Ga., to Great Wills Creek, Ala., by l. and d. at Horse Leg Shoal; excavation and removal of loose r. from various bars and shoals, **75**, ii, 664-668; (2) chan. 4' x 80', Macon to Darien, Ga., in the Ocmulgee and Altamaha Rs., by removal of snags, logs, etc., **75**, ii, 668-673.

By Maj. McFarland, 1875, freight ry. from Tennessee R. to the Atlantic, Guntersville route and Hiwassee route, **75**, ii, 673-676.

SURVEYS.

Under direction of Maj. McFarland by B. W. Frobels, 1874-75, of Tennessee R. from Knoxville to Paducah, and of Coosa R. from Rome, Ga., to mouth of Wills Creek, Ala. **R.**, **75**, ii, 659, 661, 662 (see also **72**, 509).

By B. W. Frobels, 1874-75, of Ocmulgee and Altamaha Rs. from Macon to Darien. **R.**, **75**, ii, 668.

By J. E. Thomes, 1875-76, freight ry. from Tennessee R. to the Atlantic, Guntersville route, **75**, ii, 673.

By J. C. Anderson, 1874-75, of Hiwassee route. **R.**, **75**, ii, 674.

Capt. Alfred B. Putnam, 08, 560; 09, 592.

OBSTRUCTION.

Obstr. to navigation from R.R. br. without draw, 87, 1754.

OPERATIONS.

1876-77. Rock quarried for dams, 600 c. y., 77, 91, 599.

1877-78. Removal of 403 c. y.; 879 c. y. st. quarried; 2,784 c. y. st. placed in dams; logs and boulders removed; completion of 270' of s. dam, 78, 104, 761.

1878-79. Removal of 648 c. y. r. and gravel from chan.; 2,292 c. y. r. quarried and 2,104 c. y. placed in dams; constr. of 174 c. y. riprap and retaining walls, 79, 140, 1268.

1879-80. 581 c. y. r. quarried; 98 c. y. r. blasted; 656 c. y. placed in dams, 80, 1679.

1880-81. 157 c. y. r. blasted; 280 c. y. r. quarried; 500 c. y. put into dams, 81, 1860.

1881-82. 788 c. y. boulders removed from R. and placed in dams, 82, 1847.

1882-83. 65 c. y. r., 219 c. y. boulders, and 82 snags removed from chan.; 104 c. y. riprap dam built, 83, 1493.

1885-86. 64 c. y. removed from chan.; 55 snags and trees removed; 432 c. y. st. quarried; 287 c. y. riprap dam built, 86, 1520.

1886-87. Removal of snags, gravel, and r., and constr. of dams at Mathews Shoal, Canefield Reefs, Bunker Hill Shoal, and Magills Isld., 87, 1754.

1889-90. 476 logs and snags removed from chan., and 955 trees cut from banks, 90, 2130.

1891-92. 65 overhanging trees cleared from banks, and repairs made to plant, 92, 1921.

1892-93. Portion of an old dam removed, and 167 l. f. new spur dam built at Mathews Shoal; dams strengthened and other work done on them

where necessary; banks protected, and some obstr. removed, **93**, 2332.

1902-03. Constr. quarterboat; removed obstr., viz. trees, logs, snags, etc., **03**, 1622.

1903-04. Imp. chan. by dam constr.; placed, leveled, and graded 3,664 c. y. r.; 43 c. y. r. removed, **04**, 2394.

1906-07. Work on dams and removing obstr. at Mathews and Blackbird Shoals, **07**, 1649.

1907-08. 9,780 c. y. dr.; new quarterboat built, **08**, 1725.

1908-09. Dr.; removing obstr.; dam building, **09**, 1712.

1909-10. Dr.; work on dikes; clearing chans., **10**, 1878.

1910-11. Chan. excavation; constr. of 3 wing dams at Blackbird, Graves, and Mathews Shoals; removal of snags, **11**, 2063.

1911-12. 150 c. y. gravel and 565 c. y. r. excavated; 330 l. f. dams repaired; 2 snags removed, **12**, 2256.

PHYSICAL CHARACTERISTICS.

Description, **75**, 810; **93**, 2412; **00**, 3011; **01**, 2461; 2466; shoals, **01**, 2467, 2471; drainage area and rainfall, **01**, 2467; discharge, **93**, 2366; **01**, 2468.

Mineral resources, **75**, 810, 811.

List of obstr., **75**, 811, 812; **79**, 1268.

H. R. rises mountains of w. N. C. and n. Georgia, flows nw. and enters Tenn. R. 35± m. above Chattanooga; many shoals, **12**, 880, 881.

AA-90 LITTLE TENNESSEE RIVER, TENN.

APPROPRIATIONS.

Cong. docs., etc., relating to exs., sur., plans, etc., **12**, 881.

bankment built; 110 snags and trees removed, **83**, 1507.

1883-84. 1,409 c. y. r., bowlders, and gravel, 182 snags, and 421 trees removed, and 1,380 c. y. r. placed in wing dams, **84**, 1660.

1905-06. Inspection of stream made, **06**, 1516.

1906-07. Dam at Stratton Shoals repaired by placing 45 c. y. st. therein, trees cut, trimmed, removed, and girdled, and snags removed, **07**, 1624.

PHYSICAL CHARACTERISTICS.

General, **75**, 814; **76**, 715-717; **88**, 1604.

Products of the country adjacent, **75**, 815; **76**, 717.

List of obstr., **75**, 816; **76**, 716.

Description of, **01**, 2492; 2502.

Shoals, **01**, 2503, 2506; discharge, drainage area, and rainfall, **01**, 2504.

PLAN.

By M. Kingsley, imp. wing dams, excavation of r. and gravel, and clearing off of brush, snags, and trees; est., orig., \$45,000; subsequently increased by Maj. McFarland to \$55,000, **75**, 814, 817.

PROJECTS.

By Maj. King, 1882, imp., mouth to the mouth of the Tellico R., about 13 m., by removal of snags, logs, bowlders, and similar obstr., and constr. of st. wing dams, securing a chan. 2' x 40'; est., \$23,724, **82**, 1868, 1869.

Considered inadvisable to further imp. this stream, and further allotments not recom., **09**, 1691.

SURVEYS.

By M. Kingsley, 1874-75. **R.**, **75**, 814; **76**, 716.

Ex. au. act Mar. 3, 1881; made, 1882, by Maj. King, **82**, 1868.

Pre. ex. and sur. au. act Mar. 3, 1899, mouth to slate quarries on Abrams Creek. **R.**, Maj. Kingman, 1899 and 1900; est., \$208,505,⁴ **01**, 469, 2491.

¹ H. D. 77, 56th, 2d.

² H. D. 183, 58th, 2d.

³ Allotted from app. for Tenn. R. above Chattanooga.

⁴ H. D. 66, 56th, 2d.

AA-112 FRENCH BROAD¹ AND LITTLE PIGEON RIVERS, N. C. AND TENN.

PHYSICAL CHARACTERISTICS.

Description, **71**, 491; **75**, 819; **76**, 721; **78**, 528.

PLANS. (See Projects.)

By Lt. Adams, 1870, rendering the R. navigable, Dandridge to mouth, with dams at various shoals; est., \$150,000, **71**, 493, 494.

By R. C. McCalla, 1875, 2½' chan., Brevard to Buncombe Co., by removal of loose r., bowlders, etc.; est., \$29,687.50; revised by Maj. McFarland to \$41,610, **75**, 818, 820.

By Maj. McFarland, 1876, 2½' chan., Henderson Co. line to Holston R., by wing dams on upper and lower sections and ls. and ds. on middle section; est., upper section, \$125,000; lower section, \$150,000, **76**, 719.

By S. T. Abert, 1878, chan., Brevard to Asheville: 1st, with French movable dams, \$82,816.20; 2d, American system of ls. and ds., \$78,290; 3d, wing dams and excavations, \$45,530, **78**, 534, 538.

PROJECTS. (See Plans.)

By S. T. Abert, 1878, 2½', by removing snags and constr. groins and wing dams; est., \$45,500, **78**, 74, 527, 538; **79**, 648.

SURVEYS.

By Lt. M. B. Adams, 1870, under direction of Maj. Weitzel. **R.**, **71**, 491.

By R. C. McCalla, 1874-75, under direction of Maj. McFarland. **R.**, **75**, 817, 818. In 1875. **R.**, **76**, 718, 720.

By S. T. Abert, 1877. **R.**, **78**, 522, 525.

pleted; banks protected by brush and st.; 2 scows built, **80**, 792.

1880-81. 575 c. y. r. blasted; 657 c. y. r. removed; 2,215 c. y. sand and gravel dr.; 170 logs, snags, and trees removed, **81**, 980.

1881-82. Dr. and removal of obstr. continued; wing dams built and repaired, **82**, 1058.

PROJECTS.

By S. T. Abert, 1878, chan. 2½' x 35', Brevard to Big Buck Shoals, with wing dams, dr., and r. removal; est., \$45,500, **78**, 74, 537, 538; **79**, 648; **80**, 791; **87**, 958; **88**, 884.

By S. T. Abert, 1883, continuing imp., Smiths Br. to foot of Long Shoal, by r. removal and dr.; est., \$76,000, **83**, 835; **85**, 998; **87**, 958; **88**, 844.

1912,	15,000, 12, 2254.

Total, 142,000 (incl. receipts from other sources,
\$142,503.01, 12, 2254).

COMMERCE.

In 1893 C. was increasing, and the stream was of vital importance, especially as a means of communication, to the adjacent country, 93, 2386. Country adjacent rich in minerals, etc., 97, 2310.

Total value of freight, French Broad R., during 1899, \$779,705.10, more than 10 times amount expend. on R. since imp. begun by the U.S., 1880, 00, 464.

Description of, 00, 3031.

Traffic above marble quarry district, extending only a few miles above mouth of R., not considered sufficiently important to justify expensive imp., 03, 1617.

Streams do not parallel RR., therefore effect of imp. on rates indeterminate, though doubtless important, 08, 567.

Considerable traffic bet. Dandridge and mouth of French Broad R., 12, 2253.

In 1911, 30,224 t., French Broad R., 12, 878.

OPERATIONS.

1880-81. 520 c. y. gravel dr., 957 c. y. r. quarried, 300 c. y. earth embankment and 575 l. f. crib dams built, and 1,250 l. f. old (State) dams repaired, 81, 1861.

1881-82. 5,282 c. y. r. put into 25 dams; bowlders and gravel removed from chan., 82, 1849.

1882-83. 1,386 c. y. st. quarried; 3,871 c. y. riprap dams built; bowlders, snags, and trees removed from chan., 83, 1494.

1883-84. No operations for lack of funds, 84, 1650.

1884-85. 164 c. y. r. blasted; 569 c. y. gravel and 374 bowlders excavated; 795 c. y. r. quarried and 468 c. y. r. placed in dams, 85, 1765.

1885-86. Riprap dam at Sewee Shoals completed, 86, 1521.

1886-87. Repair to dams at Fains Isld., 87, 1751.

1887-88. 37 snags, 112 c. y. solid and loose r., and 650 c. y. earth removed from chan.; 1,728 c. y. riprap quarried, and 1,072 c. y. riprap placed in spur dams; work done by hired labor, 88, 1602.

1888-89. 40 snags and 1,977 c. y. r. and gravel removed from chan.; 1,734 c. y. riprap placed in dams, 89, 1832.

1889-90. 1,433 c. y. r. and gravel excavated, 240 trees cut from banks, 104 l. f. of cofferdam built, 240 c. y. riprap quarried, and 1,523 c. y. of same built into dams, 90, 2129.

1890-91. 195 c. y. loose r. removed from chan. at Bryants Shoals, 495 c. y. st. quarried, and 195 c. y. of riprap dam built, 91, 2263.

1891-92. 6,000 c. y. st. used in constr. of 3,492 l. f. of wing dams, 92, 1924.

1892-93. Bank revetted with st., spur dam raised, some obstr. removed, dams strengthened, and small, light-draft SS. built, 93, 2385.

1893-94. 1,803 c. y. old dams repaired and extended, 1,390 c. y. riprap dams built, and some obstr. removed at Hanging Rock Shoals and other points, 94, 1799.

Little Pigeon R.: Some obstr. removed, and nearly 1,000 c. y. dams built and extended, 94, 1800.

1894-95. Work at Hanging Rock Shoals continued, and begun at Zimmermans Ford; fleet repaired, 95, 2315.

1895-96. 2,642 c. y. riprap dam built in repairs, etc., r. and other material excavated, some obstr. removed, banks rippapped, and crib constr. at Hanging Rock and Fains Isld. Shoals, 96, 2053.

Little Pigeon R.: 363 c. y. st. placed in dams, and 360 c. y. excavated from chan., 96, 2055.

1897-98. About 5,000 c. y. dr. and placed in repairs to dams, training walls, etc., at Hanging Rock Shoals and other points, 98, 1939.

Little Pigeon R.: Nearly 500 c. y. dr. at the mouth, and some of it used for rippapping, etc., 98, 1940.

1902-03. Quarterboat and 4 r. barges built by hired labor; dams constr. at Pennyroyal and Red Bank (Seven Isld.) Shoals with riprap from quarries opened near each; gauges established and timber cut for repairing cribs; surs. made of chan. at Tuckahoe and Red Bank, 03, 1616-17.

1903-04. At Red Bank Shoals, 3,778 l. f. riprap dams built, old crib bank protection repaired and 290 l. f. new crib built; at Hanging Rock Shoals, dams restored and chan. dr.; at Campbells Shoals Dam, 800 l. constr., 04, 2389-90.

1904-05. Minor repairs to plant, 05, 1774.

1906-07. Minor repairs to works at Fains Shoals, Red Bank Shoals, and Wesley Chute, 07, 1646.

1907-08. Snags, bowlders, and other obstr. removed from chan. at various places; dike at Zimmermans Ford repaired, 08, 1721.

1908-09. Preparation of floating plant for work in coming season, 09, 1710.

1909-10. Chan. excavation and repair of dikes at 6 localities below Dandridge, 10, 1875.

1910-11. Chan. excavation and repair of dikes bet. head of Hanging Rock Shoals and foot of Wild Bull Shoals, and at Old Mill Shoals; gasoline towboat *Niota* built, **11**, 2059.

1911-12. 22,400 c. y. dr. and dikes and spur dams built at Seven Isld. Shoals, **12**, 2252.

PHYSICAL CHARACTERISTICS.

Description of, Little Pigeon R., **91**, 2287; **94**, 1800; **99**, 2301; **00**, 2947.

Description of, French Broad R., **99**, 2300; **00**, 3019.

Ice, etc., damaging works, **95**, 2316.

At Fains Isld., sur. made, 1895-96, disclosed 24' where 14' existed before, **96**, 2053.

The great slope of the Little Pigeon R. subjects it to sudden and violent freshets that bring down coarse gravel and boulders, tending to re-form the 2 obstr. bars, **00**, 465.

The area drained by the French Broad R. about 5,600 sq. m., **00**, 3022.

Description of; shoals, soundings, and discharge observations, **00**, 3027, 3038, 3052, 3053.

Description of, **12**, 877-78.

French Broad R. one of the largest tributaries of the Tennessee. Rises in N. C., flows nw., to unite with Holston R. in Tenn. about 4.5 m. above Knoxville, to form Tenn. R. Leadvale head of navigation in Tenn. Little Pigeon R. composed of 2 forks (e. and s.) at Sevierville, Tenn.; flows n. for 5 m., to empty into French Broad R. 29 m. above its mouth; is navigable only about 2 m. above mouth, **12**, 877.

SS. rarely go above Dandridge, 46.5 m. above mouth of F. B. R., **12**, 878.

PROJECTS.

By Lt. Adams, 1870, chan. 24' d. at ordinary l. w. from Leadvale to mouth, 90 m., with wing dams, and by removing snags and obstr.; est., \$150,000, **71**, 493, 494; **80**, 187, 1680; **86**, 1520; **91**, 2263.

Act 1892 allotted \$1,000 for removal of bar in Little Pigeon R. near the mouth, **93**, 2385; **94**, 1800. Act 1894 allotted \$1,000, **95**, 2317.

Act Mar. 3, 1899, made provision, from app. for Tennessee R. bet. Chattanooga and Riverton, for a sur. of French Broad R., Leadvale to its mouth; \$3,600 allotted, **99**, 2301.

Of the \$5,000 app. act Mar. 3, 1899, for French Broad R., \$2,000 allotted, to be used in connection with allotments from the app. for Clinch R., and Tennessee R. above Chattanooga, for the purchase of a dr. with dump scows, **99**, 2301.

Maj. Kingman est., 1900, \$278,052.50 to imp. French Broad and Little Pigeon Rs., **00**, 3019.

Maj. Harts recom., 1908, biennial app. of \$10,000 for mainten. of navigable waterway, **08**, 1721.

Maj. W. W. Harts, 1907-10. **R.**, **07**, 1651; **08**, 1726; **09**, 1714; **10**, 1880.

Assistants:

W. G. Sanborn. **R.**, **81**, 1880.

C. A. Locke. **R.**, **87**, 1773.

G. T. Nelles. **R.**, **01**, 2524.

H. S. Bosler. **R.**, **01**, 2530.

1st Lt. W. G. Caples, **06**, 496; **07**, 525; **08**, 560.

Capt. A. B. Putnam, **08**, 560; **09**, 593.

OBSTRUCTIONS.

Fishtrap dams, **01**, 2538.

Bridges, **01**, 2541.

OPERATIONS.

1902-03. Removing snags, etc., and 3 flat-boats and 2 batteaux built, **03**, 1624.

1906-07. Dam repaired at Cloud Shoals; 226 c. y. quarried st. and st. taken from R. bed placed on dams; trees cut and trimmed, **07**, 1651.

1907-08. 352 snags, trees, and other obstr. removed; 162 c. y. r. blasted and removed, **08**, 1727.

PHYSICAL CHARACTERISTICS.

Description of, **81**, 1880; **87**, 1774; **00**, 3060; **01**, 2526, 2535.

Rainfall and discharge, **00**, 3062, 3064; **01**, 2526, 2534.

R. formed by junction of its n. and s. forks at Kingsport, Tenn.; flows thence 142 m. in sw. direction and unites with French Broad R. 4.5 m. above Knoxville to form Tennessee R., **07**, 535.

PLANS.

By Maj. King, 1881, chan. 14' x 60'-80' extreme l. w., for 171 m., Saltville to North Fork Junction, by r. excavation, wing-dam constr., and removal of trees and snags; est., \$242,913, **81**, 1879, 1883, 1885.

By Lt. Col. Barlow, chan. 20' x 100' d. at l. w. Forks to Knoxville, distance of 154 m., by removal of obstr. and contraction of chan. by wing dams; est., \$347,000, **87**, 1773.

PROJECTS.

Act 1902 au. removal of obstr. and overhanging trees, etc., **02**, 397.

SURVEYS.

Sur. about 1832. (H. D. 482, 55th, 2d.)

Au. act June 14, 1880; made, 1880, by Maj. King, **81**, 1878.

Sur. about 1881 (est., \$322,913). (H. D. 482, 55th, 2d.)

Ex. au. act Aug. 5, 1886; made by Lt. Col. Barlow, **87**, 1772.

Ex. and sur. Holston R., mouth to Kingsport, Tenn., au. act Mar. 3, 1899. Pre. **R.**, 1899, by Maj. Kingman, **00**, 3059. Final **R.** by Maj. Kingman, Nov. 30, 1900; est., \$5,000 for imp. by removal of obstr.; also plan and est. for extensive imp.; cost, \$778,250; of opinion that R. not worthy of such large expend., **01**, 469, 2518.

¹ Sur.—**R.** July 15, 1832; est. (incl. Tennessee R.), \$58,161.27. (H. D. 482, 55th, 3d.)

LEGISLATION.

State of Tennessee in reference to "fish traps" in the Clinch R., 88, 1608.

OBSTRUCTIONS.

Fish traps, dams, complaints of, 04, 2392.

OPERATIONS.

1880-81. 549 c. y. r. excavated; 140 c. y. r. placed in wing dams, and 248 snags and trees removed, 81, 1863.

1881-82. 2,556 c. y. r. removed; 1,686 c. y. dam built, and 586 snags removed, 82, 1850.

1882-83. 1,816 c. y. r. removed; 1,624 c. y. gravel excavated; 1,528 c. y. earth embankment, and 4,666 c. y. of riprap dam built, 83, 1496.

1883-84. 95 c. y. r. and 700 c. y. gravel removed; 106 c. y. st. put in dams, 84, 1651.

1884-85. 11,476 c. y. r. sand, and gravel excavated; 398 l. f. timber cribs and 3,812 c. y. st. dams constr.; 233 trees and snags removed, 85, 1767.

1887-88. 540 c. y. r. and gravel excavated; 715 c. y. riprap quarried; 1,309 c. y. of dam and 30 l. f. of cribwork built, 88, 1607.

1888-89. 324 c. y. r. excavated; 1,160 c. y. riprap quarried; 889 c. y. riprap dam built, 89, 1836.

1889-90. 80 l. f. of crib dam built; 528 c. y. st. placed in dams, and 28 overhanging trees cut, 90, 2132.

1890-91. Removal of obstr. and dam constr. continued, 91, 2265.

1891-92. 544 c. y. r. excavated, and 875 c. y. r. used in constr. of wing dams at Llewellyn and Youngs Isld. Shoals, 92, 1926.

1893-94. About 60 c. y. loose r. removed from chan. and placed on riprap dam, 94, 1803.

1897-98. 6,547 c. y. r. blasted; 4,602 c. y. gravel and other material removed; nearly 1,000 obstr. removed, 98, 1945.

1898-99. About 1,500 obstr. removed from R., 99, 409.

1899-00. About 4,000 c. y. of bowlders and ledges excavated; 1,600 c. y. dams built; 392 c. y. bank riprapped, and 1,220 snags and other obstr. removed from R., 00, 2951.

1902-03. Chan. cleared of snags, logs, bowlders, and other obstr. from mouth of Guests R. to mouth of Clinch R., and riprap and crib dams built at 12 localities, 03, 1619-20.

1905-06. 50 c. y. r. removed from chan. and 183 c. y. r. used in repairing dams, 06, 1537.

1907-08. 618 snags and trees and 105 c. y. loose material removed; 56 c. y. r. blasted and 138 c. y. r. placed in dikes, 08, 1723.

1910-11. Flatboat, supply house, magazine, and blacksmith shop constr., and progress made in constr. of a tripod dam, 11, 2062.

1911-12. Work on dike constr. and r. excavation in progress, and about 80% completed; details given, 12, 2255.

* Allotment.

¹ Ex., R. (unfav.), July 15, 1832 (H. D. 482, 55th, 2d).

² H. D. 223, 60th, 1st.

PHYSICAL CHARACTERISTICS.

Description of, **76**, 741, 742, 743; **88**, 1606; **00**, 3066; **01**, 2552; drainage area and rainfall; **93**, 2366; **00**, 3066; **01**, 2554; **11**, 729, 2061, 2062.

Obstr., **76**, 743.

Detailed description of the location and nature of the obstr. removed in 1897-98, **98**, 1947.

Table showing discharge observations, **00**, 3066; **01**, 2554.

R. rises in Va., flows sw. and into Tenn. R. 104 m. above Chattanooga. Aver. slope below Clinton, 1.3 per m. 193 m. of R. in Tenn.; **12**, 879.

PLANS. (See Projects.)

By Maj. McFarland, 1876, h.-w. chan. from 3' to 4' d. with wing dams, and by removing obstr.; est., \$44,025, **76**, 742, 744. Slack-water navigation possible, but the interests of C. would not justify expense, **76**, 747.

By Maj. King, 1881, Nashs Ford to Haynes, with wing dams and by removing obstr.; est., \$24,610, **81**, 1867.

PRIVATE (STATE AND CORPORATE) WORK.

Tennessee expend., 1845, \$10,000 removing obstr. bet. State line and mouth of R.; work unsatisfactory, **76**, 743.

Clinch River Improvement Co. expend. \$1,000, 1872, with good results, **76**, 743.

PROJECTS. (See Plans.)

By Maj. McFarland, 1876, h.-w. chan. 1½' to 2', mouth to Haynes (or Walkers) Ferry, 145 m., with wing dams, and by removing obstr. for 230 m.; est., \$26,400, **76**, 741; **80**, 1680.

After expend. of \$21,000, est. increased by Maj. King, 1885, to \$50,000, **85**, 1767; **87**, 1755, 1757; **91**, 2265.

By Capt. Kingman, 1896-97, expend. available funds to remove obstr., Osborne, head of navigation, to mouth, **97**, 2313.

AA-169 POWELLS RIVER, TENN. AND VA.**COMMERCE.**

Important, **76**, 737, 740, 741.

Losses occasioned by insufficient chan. ways, **81**, 1887.

Description of, **00**, 3068.

ENGINEERS.

Chief of Engineers. **R.**, **76**, 87; **80**, 190; **81**, 258; **99**, 410; **00**, 469.

In charge:

Maj. W. McFarland, 1876. **R.**, **76**, 736.

Maj. W. R. King. **R.**, **81**, 1886.

Maj. D. C. Kingman, 1899-1900. **R.**, **00**, 3067.

Assistants:

W. M. Gordon. **R.**, **76**, 737.

W. G. Sanborn. **R.**, **81**, 1887.

G. T. Nelles. **R.**, **00**, 3071.

PHYSICAL CHARACTERISTICS.

Description of, **76**, 736, 737, 738; **00**, 3069.

Scarcity of water, **76**, 737.

List of obstr., **76**, 738, 739; **81**, 1887.

Difference of level more than 500' in 130 m. bet. mouth and Shavers Ford, **00**, 3071.

Discharge, **00**, 3069, 3072.

PLANS. (See Projects.)

By Maj. McFarland, 1876, removing obstr., building wing dams, and procuring h.-w. chan.

AA-173 EMORY RIVER, TENN. AND VA.**COMMERCE.**

Important, **76**, 745, 746.

Description of. Small, but U. S. imp. would probably open up the adjacent rich country, **93**, 2414; **97**, 2317.

Act Mar. 3, 1899, provided that as much of the app. for imp. Tennessee R. bet. Chattanooga and Riverton as might be necessary could be used for sur., Clinch R.; \$4,800 allotted for sur. Clinch R. from Haynes (Walkers) Ferry to mouth, **99**, 2304. \$3,000 allotted from app. 1899 to remove obstr. to lengthen navigation season, **99**, 2305; \$3,000 applied, together with other allotments from certain app., to constr. light-draft dipper dr., for use on the upper Tennessee R., the Clinch, and certain other tributaries, **00**, 2950.

Maj. Harts recom., 1908, that app. be suspended until radical form of imp., other than maintain., be adopted, **08**, 1724.

Act June 25, 1910, au. expend. not exceeding \$2,000, in Va., **10**, 676.

Maj. Harts proposed that \$2,000 apportioned to Va. section be available for expend. in Tenn.; no further app. desirable, **11**, 2062.

SURVEYS.

Ex., mouth of Indian to junction of Clinch and Powells Rs., **76**, 87, 745.

By W. M. Gordon, below Emory R., **76**, 87, 745. Au. act June 14, 1880; made, 1881, by Maj. King, **81**, 1864.

Sur. au. act Mar. 3, 1899; made, 1899, by Maj. Kingman (pre. R. fav.), **00**, 3066.

Au. act Mar. 3, 1899; made by Maj. Kingman, 1900; est., \$1,460,000, **01**, 469, 2542-2596.

R. by B.E.H., Nov. 16, 1908, req. by R. and H. Com. reviewing Maj. Kingman's R. of 1901. It would cost over \$1,500,000 to secure a 4' navigation by slack water, and in the opinion of the board it would be inadvisable to undertake this large expend.²

Ex., 1910, to see where funds could be applied to advantage, **11**, 2061.

Minor sur., Clinton Isld. Shoals, **11**, 2062.

Cong. docs., etc., relating to exs., sur., plans, etc., **12**, 879.

3½' to 4'; est., \$25,000, **76**, 737, 739, 740. Slack-water navigation impossible, **76**, 746.

By Maj. King, 1881, imp. Powell R. by dr., r. removal, and removal of snags and drift, and constr. of 4,000 c. y. of wing dams; est., \$35,580, **81**, 1887.

PRIVATE (STATE AND COUNTY) WORK.

1845. Tenn. expend. \$7,000 removing obstr. and building wing dams, **76**, 738. Tenn. expend. \$7,000 and Union Co. Zinc Co. about \$2,000 for imp., **00**, 3069.

PROJECTS. (See Plans.)

Maj. Kingman est., 1899, imp. could be made at the cost of a sur., **00**, 3070.

SURVEYS.

Ex. by W. M. Gordon, 1876, from Three Forks to mouth of Clinch R., **76**, 87, 736.

Au. act June 14, 1880; made, 1881, by Maj. King, **81**, 1886.

Ex. and sur., mouth to Kyles Ford, au. act Mar. 3, 1899. As there is no such place as Kyles Ford on Powells R., ex. (sur. could serve no useful purpose) made, 1899, by Maj. Kingman, from Shavers Ford, Va., to junction of Powells R. with Clinch R., Tenn. (R. fav. only to snag removal; see Projects), **00**, 3067.

ENGINEERS.

Chief of Engineers. **R.**, **76**, 87; **93**, 308; **97**, 354.

In charge:

Maj. W. McFarland, **76**, 87. **R.**, **76**, 745.

J. E. Hall. **R.**, 00, 3081.

OBSTRUCTIONS.

Ten wagon brs., 2 R.R. brs., 6 milldams, and 20 fish-trap dams the principal obstr. to navigation, 99, 2307.

OPERATIONS.

1899-00. About 7,000 snags and other obstr., and 6,700 c. y. r. removed, and a training wall built with the excavated material, 00, 2955.

PHYSICAL CHARACTERISTICS.

Description of; part of R. has fall that would require 14 locks and dams to make it navigable, 93, 2410.

SURVEY.

Ex. au. act July 13, 1892; made, 1892, by Lt. Col. Robert (**R.** unfav.), 93, 2408.

PHYSICAL CHARACTERISTICS.

Until completion of Muscle Shoals Canal, Tennessee R., mouth of R. would be inaccessible, 85, 1771.

Description of, 99, 2306, 2308; 00, 3078; 01, 2457.

Situation of obstr. removed, 00, 2955.

Description of, discharge observations, and soundings, 00, 3081.

PROJECTS.

By Maj. Kingman, removal of fish-trap dams from the chan., last milldam near the crossing of the Louisville & Nashville R.R. to the mouth, together with bar at the mouth; est., \$4,000, 99, 2307.

Maj. Kingman est., 1899, \$882,854.61 to secure a 4' navigation, Tennessee R. to Fayetteville, 00, 3080.

SURVEYS.

Ex. au. act July 5, 1884; made by Maj. King (**R.** unfav.), 85, 1771.

Sur. au. act May 4, 1898; pre. **R.**, 1899, by Maj. Kingman, 99, 2308; final **R.**, 1899 (see Projects), 00, 3077.

Ex. au. act June 13, 1902; made, 1902, by Maj. Knight (**R.** unfav.),¹ 04, 451, 2398.

Ex. au. act Mar. 2, 1907; made, 1907, by Maj. Harts (**R.** unfav.),² 08, 572.

AA-227

DUCK RIVER, TENN.

APPROPRIATIONS.

1880, \$7,000, 80, 1681.

1881, 3,000, 81, 1868.

1882, 3,000, 82, 1852.

Total, 13,000

COMMERCE.

Requirements of, fairly provided for by imp. made, 86, 1523.

Description of; small, but R. runs through a rich country, which imp. of chan. might develop, 93, 2407.

ENGINEERS.

Chief of Engineers. **R.**, 80, 187, 190; 81, 253; 82, 247; 83, 255; 84, 255; 85, 277; 86, 269; 87, 233; 88, 210; 93, 307; 96, 424; 08, 571.

In charge:

Maj. W. R. King, 1879-86. **R.**, 80, 1681; 81, 1867; 82, 1851; 83, 1497; 84, 1651; 85, 1768.

 Lt. Col. H. M. Robert, 1893. **R.**, 93, 2406.
 Capt. J. Biddle, 1893. **R.**, 93, 2406.
 Maj. W. W. Harts, **08**, 560.

Assistants:

D. L. Sublett. **R.**, 80, 1682.
 Lt. J. Biddle. **R.**, 93, 2407.
 1st Lt. W. G. Caples, **08**, 560.
 Capt. A. B. Putnam, **08**, 560.

OPERATIONS.

1880-81. Boats built, and 55 snags and 1,281 trees removed by hired labor, **81**, 1868.

1881-82. 1,005 snags and trees cut out, 659 c. y. excavated from chan., and 537 c. y. r. quarried and placed in dams, **82**, 1852.

1882-83. 53 c. y. r., 567 of gravel, and 1,637 of earth excavated from chan., 755 c. y. st. quarried and placed in dams, and 1,174 trees and snags removed, **83**, 1498.

PHYSICAL CHARACTERISTICS.

Condition of R., character of obstr., etc., **80**, 1683.
 Description of: Flows into the Tennessee; navigable for about 68½ m., **93**, 2406.

PROJECTS.

By Maj. King, 1879, imp. R., mouth to Centerville, 68 m., by r. and gravel excavation, constr. of wing dams, and removal of snags and overhanging trees, to give 3' navigation during 6 months of the year; est., \$35,118, **80**, 1684.

SURVEYS.

Au. act Mar. 3, 1879; made, 1880, by Maj. King, **79**, 142; **80**, 1681.

Ex. au. act July 13, 1892; made, 1892, by Lt. Col. Robert (R. fav.), **93**, 2406.

Pre. ex. mouth to Centerville au. act Mar. 2, 1907. **R.**, Maj. Harts, Aug. 20, 1907 (unfav.),¹ **08**, 571.

AA-239 CUMBERLAND RIVER, KY. AND TENN.

NOTE.—The C. R. rises in e. Ky., on w. slope of Cumberland Mtns., flows tortuously for 688 m. through e. Ky., middle Tenn., and w. Ky., to discharge into Ohio R. near Smithland, Ky. Head of navigation is Burnside, Ky.; to Smithland, Ky., is 518 m. (203 m. in Ky. and 315 m. in Tenn.). Part above Nashville is 325 m.; below, 193 m., **12**, 860.

R. C. McCalla. R., ⁷⁵, 796.

F. R. Leavitt, ⁷⁵, 799.

S. Whinery. R., ⁷⁹, 1280.

ESTIMATES. (See Plans and Projects.)

Pre., of S. T. Abert, 1871. Upper R.: Laurel to Pt. Burnside, 35 m., \$40,116, ⁷¹, 479; Pt. Burnside to Nashville, 358 m., \$163,724, ⁷¹, 479. Lower R.: Nashville to mouth, 192 m., \$248,821, ⁷¹, 480; ⁷², 462; ⁷⁸, 759.

Final, of S. T. Abert, 1872. Laurel to Pt. Burnside, \$41,000, ⁷², 471; ⁷⁷, 596. Pt. Burnside to Nashville, \$194,331, ⁷², 471; ⁷⁷, 596. Aggregate increased by Maj. Weitzel to \$258,864, ⁷², 472; ⁷⁴, 578.

Assistant McCalla, 1875, Smiths Shoals, upper R., wing dams, \$52,044, ⁷⁵, 798. Increased by Maj. McFarland to \$70,000, ⁷⁵, 796; ⁷⁷, 596. Increased by Capt. King to \$100,000, ⁷⁹, 139, 1265.

Maj. Weitzel, 1872, upper R. l. and d., \$4,000,000, ⁷², 472; ⁷⁵, 795.

Capt. King, 1877, Smiths Shoals l. and d., to cost, in all probability, more than \$1,000,000, ⁷⁷, 595.

S. Whinery, 1879, passage of Cumberland Falls by locks and canal; cost, \$368,500, ⁷⁹, 1281.

OBSTRUCTIONS. (See Commerce; Private work.)

OPERATIONS.

1871-72. Removal of obstr. at Nashville, Nashville Isld., and Gowers Isld.; 1,100 c. y. dr., and 7,580 c. y. of wing dam built at Flax Patch; 300 c. y. of r. removed from Harpeth Shoals, ⁷², 58, 462.

1872-73. At Sycamore Creek, 789 c. y. of wing dam built; 141 c. y. r. and 346 c. y. gravel removed from chans. bet. Sycamore Creek and Harpeth R., ⁷³, 547.

1873-74. Delay of contractor at Harpeth Shoals followed by use of hired labor independent of contract; 12,000 c. y. st. for wing dams at, quarried, ⁷⁴, 577.

1874-75. 500 c. y. r. removed from chan. at Harpeth Shoals and Reeds Reef; 10,265 c. y. st. placed in wing dams at, ⁷⁵, 76, 790. All operations after Aug., 1874, carried on by hired labor, ⁷⁷, 90, 592.

1875-76. At Harpeth Shoals, 4,740 c. y. wing dam built, and 175 c. y. r. removed from chan. At Davis Ripple, 525 c. y. wing dam built, ⁷⁶, 714.

1876-77. At Harpeth Shoals, 1,500 c. y. wing dam built, and 335 c. y. r. removed. At Davis Ripple, 1,625 c. y. wing dam built, ⁷⁷, 90, 593. At points above Nashville, i. e., Cub Creek, Sand, Smiths, Wild Goose, Hollimans Isld. Shoals, and Bartlett's Bar, aggregate of 16,440 c. y. st. quarried for wing dams; 530 c. y. r., 1,790 c. y. gravel, and 36 logs and overhanging trees removed from chans.; 3,060 c. y. st. placed in wing dams, ⁷⁷, 90, 593, 594, 595.

1877-78. No work below Nashville, ⁷⁸, 103, 759. Above Nashville, 9,466 c. y. chan. excavation of earth and r.; 441 trees and snags removed; 12,197 c. y. r. placed in wing dams; 2,147 c. y. r. quarried and ready for wing dams, ⁷⁸, 103, 759.

1878-79. 27,983 c. y. earth and r. removed from chans.; 2,299 snags, logs, and overhanging trees removed; 33,625 c. y. r. placed in dams; 22,717 c. y. r. quarried for dams, ⁷⁹, 138, 1264.

PHYSICAL CHARACTERISTICS. (See under main title.)

Description of R., ⁷¹, 469, 483.

Canyon-like character of upper, ⁷¹, 471.

Elevation of divide bet. Cumberland and Tennessee Rs., ⁷¹, 469.

Distances bet., and elevation of points on R., ⁷¹, 469; ⁷², 465; ⁷⁵, 790.

Slope of w. surface, ⁷¹, 469, 473; ⁷², 465.

Range of w. surface, ⁷¹, 470; ⁷⁵, 798; ⁷⁶, 714.

Discharge below Nashville; ⁷¹, 475.

¹ Below Nashville.

² Nashville to Kentucky State line.

³ At Smiths Shoals.

⁴ Smiths Shoals to Falls of Cumberland.

⁵ State line to Smiths Shoals.

⁶ \$151,000 for above Nashville, and \$340,000 for below Nashville.

⁷ Previous to Feb., 1877, confined to R. below Nashville.

Character of R. deposits, **71**, 489.
Description of coal fields, **71**, 484; **75**, 799.
Description of, Cumberland Falls, **79**, 1280.

PLANS. (See Estimates and Projects.)

Maj. Weitzel, 1871, considers l. and d. the only feasible plan for imp. of l. w. above Nashville, **71**, 478, but its cost (\$4,000,000) precludes adoption, **71**, 478; **72**, 472; **75**, 795; **77**, 595.

Capt. King, 1877, suggests use of wire rope on upper Cumberland to permit ascending boats to pass rapids during h. w., **77**, 595.

S. Whinery, 1879, passage of Cumberland Falls by canals and locks; canal 3,700' l.; locks, 35' x 100'; total lift, 80'; est., \$368,500, **79**, 1281. Capt. King did not consider that requirements of C. justified this imp., **79**, 1279.

PRIVATE (STATE AND CORPORATE) WORK.

1830-40. Tenn. and Ky. made app. for imp.; little benefit. Cumberland Navigation Co. incorporated by Tenn., 1846, for imp. navigation below Nashville with l. and d.; nothing effective done, **12**, 860.

Wing dams built by coal interest, **71**, 471, 475; by Ky., **71**, 472.

Brs. bet. Nashville and mouth, **71**, 474.

PROJECTS. (See Estimates and Plans.)

R. divided into—upper, Falls of the Cumberland to Nashville, 372 m., and lower, Nashville to mouth, 192 m., **71**, 469, 470; **72**, 465.

Maj. Weitzel, 1872, upper Cumberland, excavation of ledges, sand and gravel bars, concentration of water by wing dams, removal of snags and bowlders, restriction of tributaries to determined chans. On upper R. the proj. to l. the duration of existing h.-w. navigation. On lower R. to give l.-w. d. about 3', **71**, 470, 478; **72**, 471; **77**, 594. Est., upper R. imp., \$258,864, **72**, 472; **74**, 578; lower R. imp., \$248,821, **71**, 480; **72**, 462.

R. C. McCalla, 1875, Smiths Shoals wing dams, of timber cribs filled with st., the dams to give descending coal boats a d. of 4' during medium h. w. Est., \$52,044, **75**, 795, 798. Revised by Maj. McFarland, **75**, 796. (See Estimates.)

SURVEYS.

Reconnaissance, 1870, Falls of the Cumberland to Nashville, 403 m., **71**, 469.

Sur. from Nashville to mouth, 1870, 192 m., **71**, 469.

Sur. from Pt. Burnside to Nashville, 1871, 326.7 m., **72**, 461, 465.

Special sur. of Smiths Shoals, 1874, **75**, 795.

Of Falls of Cumberland R., **79**, 142, 1279.

Part (c), AA-239 Cumberland River. Below Nashville.

APPROPRIATIONS.¹

1880,	\$20,000	80 , 1675.
1881,	15,000	81 , 1850.
1882,	15,000	82 , 1844.
1884,	7,500	84 , 1647.
1886,	12,500	86 , 1517.
1888,	10,000	88 , 1614.
1890,	40,000	90 , 2136.
1892,	40,000	92 , 1931.
1894,	30,000	94 , 2254.
1896,	80,000	96 , 1909.
1899,	100,000	99 , 2241.

1911,	250,000	11 , 2026.
1912,	5,000	
	300,000	12 , 2231.

Total, \$1,348,000 (incl. receipts from other sources, and \$340,000 under AA-239(b), app. for this section, \$1,689,002.80, **12**, 2231).

COMMERCE.

Extension of season of navigation, **84**, 1645.

Valued at \$1,500,000, **97**, 2223; at nearly \$8,000,000, **98**, 1877; 1899, at nearly \$4,771,049, **00**, 2893.

If large boats could navigate all year, there would probably be a reduction of 40 to 50% in rates, **00**, 2894.

Expected imp. to lower rates 30 or 40%, **01**, 2409.

Discussion of the value of C. statistics, **02**, 1697.

Freight rates of from 18 to 26¢ per 100 lbs. reduced to 6 to 12¢ since completion of Lock and Dam A, **05**, 450.

Increase in grain shipments, **07**, 521.

Favorable effect of imp. on rates, **09**, 587.

Season of navigation prolonged 45 to 90 days, **10**, 661.

Description and diagram, **11**, 2026, 2027.

In 1911, 223,278 t., **12**, 862.

"Little doubt" that R., "even in present condition," the cause of lay. rates into Nashville, **12**, 862.

CONTRACTS.

1902. Featherstone Foundry & Machine Co., dr., \$18,650, **03**, 1584.

1903. Ed. J. Howard, 2 steam tenders, \$4,535 each; 2 dump scows, \$3,650 each; 6 decked barges, \$1,503 each; and 2 derrick-boat hulls, \$1,440 each, **03**, 1584. Penn Br. Co., 2 pair steel lock gates, filling valves, etc., at Lock A, \$17,550, **04**, 2342.

1904. W. C. Rodgers, yellow pine timber, for Dam A, \$23 per M, **04**, 2342.

1912. Mansfield Engineering Co., building concrete Locks B and C (separate contract for each lock), prices listed, **12**, 2232.

ENGINEERS.

LEGAL PROCEEDINGS.

Site for land at dam, about 2½ m. below mouth of Harpeth R., condemned. Title vested in U. S. by court, 94, 1806-07; 95, 2253; 98, 1877.

Right of way through U. S. reservation sold to Tennessee Central R.R. Co. for \$800, 03, 1582; 04, 2341.

Abstracts of titles to the necessary lands required for lock and abutment sites B and C, prepared and in hands of U. S. dist. atty. for middle Tennessee, for ex., 1, 2026.

Titles to lock and abutment sites B, C, D, E, and F, acquired with exception of a parcel forming part of site of Lock E, to be acquired by condemnation; table showing acreage acquired and prices paid, 12, 2231.

OPERATIONS.

1879-80. 571 c. y. r., 5,535 c. y. gravel, and 52 snags removed from the chan.; also 19,510 c. y. of r. quarried, and 23,453 c. y. of dam built; work done at Palmyra Isld. and Harpeth, Dover, Ingram, Race Track, and Little R. Shoals, 80, 1675.

1880-81. 676 snags, roots, and overhanging trees removed, and 11,367 c. y. r. quarried, and 23,206 c. y. dam built, 81, 1850.

1881-82. 583 snags and roots, 305 c. y. gravel, and 67 c. y. r. removed from chan.; also 6,390 c. y. r. quarried and built into dams, 82, 1844.

1882-83. 938 snags, 1,628 c. y. r. and gravel, and 2 wrecks removed; 3,397 c. y. r. placed in dams, and 740 l. f. brush dam built, 83, 1489.

1883-84. 200 c. y. material dr., 1,778 c. y. r. quarried, and 1,240 c. y. r. put in dams, 84, 1646.

1884-85. 1,100 c. y. r. quarried and placed in dams, 128 snags and 2,595 c. y. gravel removed, 85, 1761.

1885-86. 171 c. y. st. quarried, and 230 c. y. riprap dam built; 12 snags, 276 c. y. sand and gravel, and 361 c. y. of looser r. removed, 86, 1515.

1886-87. 26 snags and 15 trees removed bet. Nashville and Robinsons Isld., 87, 1758.

1887-88. 5,780 c. y. riprap dam built; 4,800 c. y. riprap st. quarried; 517 snags removed from chan., and 1,065 from banks, 88, 1612.

1889-90. 116 snags and stumps and 10 c. y. solid r. removed from chan.; 330 c. y. st. quarried, and repairs to dams, 90, 2134.

1890-91. 40 c. y. sand and gravel removed at Lower Gatlin Shoal; 748 c. y. r. removed from longitudinal dam, and 923 c. y. of new spur riprap dam built; 22 snags and 550 overhanging trees cleared from chan. and banks, 91, 2268.

1891-92. 1,210 snags, 61 c. y. r., 1,050 c. y. gravel, and 15 t. of wreckage removed from chan., and 1,139 trees cleared from banks; reconstr. of spur dams at Cumberland Isld., 92, 1929.

1892-93. 1,047 piles driven, 6,577 c. y. st., and some brush placed in dike at R. mouth; over 1,000 obstr. removed; dam repaired; old dams removed, comprising about 800 c. y. loose r., etc.; 1,092 piles, 6,041 c. y. st., and 545 cords brush used in protecting 3,150 l. f. bank at foot of Cumberland Isld., 93, 2391, 2392.

1893-94. 2,000 c. y. st. and 255 cords brush placed in dike at mouth, 94, 1806.

1894-95. Preparations made for constr. of l. and d. at Harpeth Shoals; nearly 12,000 leaning trees cut and over 2,000 other obstr. removed; about 500 c. y. r. and earth removed; willows planted for bank protection; and riprap dam repaired, 95, 2253.

1895-96. Lock site and surrounding land at Harpeth Shoals cleared, temporary buildings erected, cofferdam built, some r. and 3,892 c. y. sand and other material excavated for foundation.

Old dam at upper end of Cumberland Isld. partly torn out; boundary of U. S. land marked; some obstr. material removed; hull for snag boat built, 96, 1908.

1896-97. Some obstr. removed; small chan. cut, riprap dam built; preparations made for continuance of work at Harpeth Shoals, 97, 2222, 2223.

1897-98. St. quarried and cut, and a large amount of misc. work performed at Lock and Dam A, 98, 1877.

New hull built for *Weitzel*, old machinery repaired, and new added; boat renamed *Cumberland*, 98, 1877.

1898-99. Work at Lock A continued, 99, 2240.

1899-00. Work of preceding year continued (st. quarried, lock pit excavated, filling, st. cutting, masonry work, etc.); obstr. removed, 00, 2892.

1900-01. Work continued on Lock A until stopped by lack of funds, 01, 2408.

1902-03. Work continued on lock and abutment of dam at Lock A; repairs and additions made to floating plant; changes made to buildings and tracks on account of Tennessee Central R.R. Co., 03, 1582. 380 snags removed, 2,024 snags, trees, and logs cut, and 13 trees deadened, 03, 1583.

1903-04. Quarrying and boating st., dr., grading and riprapping bank, and other work carried on at Lock A, 04, 2340.

1904-05. Gates erected and dam completed, road built (st. quarried), bank protection repaired, lower approach dr., needle dam built, plant repaired, and other work at Lock A, 05, 1724. Roof of Dam A damaged by drift; lock placed in operation Nov., 1904, 05, 1724, 1725.

1905-06. Bank graded and riprapped 500' below U.S. property line; damage to dam repaired, lockmaster's house built, and minor repairs made at Lock A; 331 snags removed, 867 snags, trees, and logs cut, and 48 trees deadened, 06, 1504.

1907-08. 244 snags removed, 1,925 snags, trees, and logs cut, and 24 trees deadened, 08, 1684.

1910-11. 553 obstr. removed from R. bed, and left clear for a distance of 191 m., 11, 2025.

1911-12. 780 snags and other obstr. removed, and 32 c. y. taken from r. reefs; sites of Locks B and C cleared and inspector's quarters constr., 12, 2231.

PHYSICAL CHARACTERISTICS.

Description of, lower Cumberland, 90, 2154.

Current velocities, lower Cumberland, 90, 2161.

Harpeth Shoals looked on as the most formidable obstr. of the lower Cumberland, 95, 2253.

Description of, at mouth. Conditions improving, 97, 2243.

H. w. of 1896 especially disastrous to banks, 96, 1908.

Table showing stages at certain points on R., 1898-1902, 02, 390.

Discharge, 02 (suppl.), 73; 04 (suppl.), 76; H. D. 1481, 60th, 2d.

Description of, R., 03, 412.

R. below Nashville usually navigable for all SS. 6 mos. an.; for boats not drawing over 3', 6 to 8 months; and for boats drawing 16' or less, the whole year (see table of stages above), 12, 862.

PROJECTS.

From 1832 to 1871, incl., \$185,000 app. for this part of the R., 74, 578.

By Maj. Weitzel, 1872, Cumberland R. below Nashville, to give a l.-w. d. of 3', excavation of ledges, sand and gravel bars, removal of snags and boulders, concentration of water by wing-dam constr., and restriction of tributaries to determined chans.; est., \$248,821, 71, 480; 72, 462. Total est. increased in 1884 to \$348,000, 84, 1646; 87, 1759.

In 1888 the B.E. provided for the imp. of the Cumberland at its mouth, closing the left chan. around the towhead by a pile and brush dam 20' w. and rising to l.-w. level, capped by cribwork built up to the 8' stage of the R.; est., \$129,600. (Lt. Cols. Merrill and Barlow, Maj. Mackenzie, and Lt. Waterman.) This, together with \$20,000 proposed by Lt. Col. Barlow, 1888, for snagging at Gatlin Shoals, increases the total est. for the imp. of the lower Cumberland to \$497,600, 88, 1613, 1614, 1630, 1631; 90, 2158.

By Lt. Col. Barlow, 1889, Cumberland R., Nashville to Big Eddy, 144 m., 7 l. and d.; est., \$1,783,350, 90, 2157.

Proj. in force 1893-94 consisted of (1) extension of l. and d. system of upper to lower R., 7 l. and d., from near the mouth of Harpeth R. (A) to Big Eddy Shoals (G), to be constr. to be 52' x 280', the lifts of the locks varying from 8½-11½, aggregating about 70'; (2) imp. of Kentucky Chute at mouth of R.; (3) chan. work below Lock G; (4) snagging and removal of surface obstr. below Nashville. Total est., \$1,964,500, 94, 1806. Cost of mainten. at 1894 was est. at about \$5,000 per an., with a probable increase of from \$4,000 to \$6,000 per lock. When the whole system of locks completed, \$50,000 would be required for an. mainten., 96, 1909; 09, 586.

After sur. of 1897 Capt. Biddle believed that \$20,000 should be app. for mainten. of works at the mouth, to be used when necessary, 97, 2245.

Immediate constr. of Lock B urged, 1900, 99, 2241.

Immediate completion of lower R. scheme of imp. and of the lower part of the upper R. scheme urged, 00, 2894.

Completion of lower R. proj. urged by Lt. Col. Adams, 01, 2409.

BERH R., in favor of continuing imp. 07, 1610.

By Maj. Harts, 1908-09, au. 1910, constr. of 5 locks (B, C, D, E, and F), 52' x 280', lifts varying from 10'-13.1'; also dr. remainder of R. to G; est., \$3,164,882.40, 10, 661.

SURVEYS.

Sur. of the lower Cumberland, for slack-water navigation, au. act Aug. 11, 1888; made, 1889, by Lt. Col. Barlow, 90, 2152.

Sur. for site of Lock and Dam A, near mouth of Harpeth R., as provided for by act July 13, 1892; made, 1892-93, by Capt. Biddle, 93, 2392.

Sur. for Lock and Dam B, made 1896-97, 97, 2222.

Resur. of the mouth au. act June 3, 1896; made, 1896, by Capt. Biddle (see Projects), 97, 2242.

Au. act Mar. 2, 1907; made, 1908-09, by Maj. Harts, 08, 560; 09, 592.

Ex., Lock No. 7, below Carthage, Tenn., to Lock No. 21, below Burnside, Ky., au. act Mar. 3, 1909; made, 1909, by Maj. Harts (R. unlav.), 10, 667.

Cong. docs., etc., relating to exs., sur., plans, etc., 12, 861.

Maps, 88, 1631; 90, 2156; 12, 2230.

Part (d), AA-239 Cumberland River, Above Nashville.⁴

Total, 12 3, 161, 500 (incl. receipts from other sources, and \$151,000 under AA-239(b), app. fort his section, \$3,313,079, 12, 2234).

COMMERCE.

C. and agricultural resources of country bordering on the Cumberland R., 81, 1854.

Resources of upper Cumberland, 84, 1670.

Existing and prospective benefits to C., 90, 2138.

In 1897, 54,994 t. below Burnside and 27,681 t. above Burnside, 97, 2228.

Bowman transportation line established, 01, 463.

Discussion of value of C. statistics, 02, 1703.

Doubtful extent of, and value of coal fields above Carthage, 02, 1704.

Diagram and statistics, 11, 2033.

In 1911, 181,029 t., 12, 866.

At 1912, canalization above Nashville practically completed, and material reduction of rates looked for. Lock 21 has reduced rates 50% within pool area. New barges and boats going into use, 12, 865.

CONTRACTS.¹³

1888. Holmes & Wilk, l. and d. constr., \$57,080, 89, 1844. P. L. Hedrick, lockkeeper's house, \$2,937.80, 89, 1844.

1891. F. Hartney, timber and st. dike constr., \$16,979, 91, 2275. H. F. Holmes, completion of masonry at Lock No. 1, \$35,490, 91, 2276. Rich & Holmes, cofferdam, excavation of lock pit, and completion of masonry of Lock No. 2, \$163,550, 91, 2277.

Contract of 1891 with Rich & Holmes terminated by supple. agreement, Aug., 1892, 93, 2397.

Open-market purchases of st., 94, 1811.

1894. Pettitdidier & Allen, st. for Lock No. 2, \$57,864.50. J. H. Connor, st. for Lock No. 5, \$57,724, 95, 2262, 2263.

1897. McArthur Bros., constr. of lock and abutment of Dam No. 6, \$164,871.75; No. 7, \$181,689.50, 97, 2231, 2232.

1899. J. E. Sloan & Co., constr. of lock approaches, abutments, Lock No. 1, about \$78,000, 00, 2905.

1903. Penn. Bridge Co., 3 prs. steel lock gates, filling valves, etc., for Lock 1, \$15,400, 04, 2382.

1904. W. C. Rodgers, yellow pine timber for Dam 1, \$22.50 per M., 04, 2342.

1905. Lawrence D. Weaning, lock gates, etc., \$15,715, 05, 1726. Continental Engineering & Contracting Co., building concrete Lock and Dam No. 21; unit prices given, 06, 1509. W. C. Rodgers, furnishing yellow pine timber, Dam No. 2, \$29 per M., 06, 1510. Estate Temple O. Harris, rent of

* Allotment.

LEGAL PROCEEDINGS.

Purchase and condemnation of land for l. and d. sites, 93, 2398; 94, 1812, 1813; 95, 2257, 2258; 96, 1913; 97, 2226; 98, 1881, 1882; 99, 2244; 00, 2900.

\$450.17 collected on bond of J. H. Connor, a failing contractor, 02, 1701.

Claims arising on account of overflowed lands, due to raising of w. l. by constr. of Dams 6 and 7; actual damages investigated, and **R.** in detail submitted, 11, 2031.

OBSTRUCTIONS.

Complaint made of effect of imp. on ford across Spencers Creek; Maj. Harris recom. that U. S. bear only small part of expense of proposed br., 10, 1853.

OPERATIONS.

1879-80. Nashville to Kentucky line: 985 c. y. r., 6,982 c. y. gravel, and 100 snags removed; 4,323 c. y. r. quarried and 5,604 c. y. dam built; also 596 snags, logs, and trees removed.

Kentucky line to Smiths Shoals: 1,196 snags, logs, and trees, and 50 c. y. bowlders removed.

Smiths Shoals: 15,652 c. y. loose and solid r. and gravel excavated from chan., 4,403 c. y. r. quarried, and 11,993 c. y. dam built.

Smiths Shoals to Falls of Cumberland: 218 c. y. r. removed, 80, 1676, 1677, 1678.

1880-81. Nashville to Kentucky line: 10,269 c. y. r. and gravel excavated, 1,847 c. y. r. quarried, and 4,884 c. y. r. placed in dams and bank riprap.

Kentucky line to Smiths Shoals: 5,139 c. y. r. and gravel excavated, 1,094 c. y. r. quarried, and 3,970 c. y. placed in dams and riprap.

Smiths Shoals: 4,710 c. y. loose and solid r. excavated from chan., 2,038 c. y. masonry and concrete laid, 4,676 c. y. st. quarried, and 12,217 c. y. placed in dams, 81, 1850, 1851, 1852.

1881-82. Nashville to Kentucky line: 10,808 c. y. r. quarried and 12,215 c. y. placed in dams; 8,585 c. y. gravel, 830 c. y. r., and 376 snags removed.

Kentucky line to Smiths Shoals: 3,789 c. y. r. quarried and 7,048 c. y. of same placed in dams; 13,518 c. y. r. and gravel and 516 snags removed.

Smiths Shoals: 3,264 c. y. r. quarried, 6,700 c. y. placed in dams, and 210 c. y. excavated from chan.

Above mouth of Jellico: 2,414 c. y. r. excavated and 769 snags and trees removed, 82, 1844, 1845, 1846.

1882-83. Nashville to foot of Smiths Shoals: 4,700 c. y. r. quarried, and 16,184 c. y. placed in dams; 5,090 c. y. r., 410 snags, and 2 wrecks removed.

Smiths Shoals: 655 c. y. r. excavated from chan., 3,424 c. y. r. quarried, and 4,129 placed in dams, 83, 1489, 1490.

1883-84. Nashville to foot of Smiths Shoals: 360 c. y. dr., 550 snags and trees removed, and 1,475 c. y. r. placed in dams, 84, 1647.

1884-85. Nashville to head of Smiths Shoals: 370 l. f. of dam built, containing 1,007 c. y. of r.; 480 c. y. r., 341 snags, and 69 trees removed; 8,812 c. y. r. quarried, and 1,955 l. f. riprap dam built; 6,010 c. y. r. and gravel removed at upper Nashville Isld.; 809 c. y. r. and gravel excavated and 1,543 c. y. riprap dam built at Waitsboro Shoals, 85, 1762, 1763.

1885-86. Nashville to head of Smiths Shoals: 1,249 c. y. solid r., 200 c. y. sand and gravel, and 463 c. y. riprap dam removed; 2,710 c. y. st. quarried and 1,904 c. y. riprap dam built, 86, 1516.

1886-87. Nashville to head of Smiths Shoals: At Smiths, Forbush, and Priestly's Shoals, 133 c. y. solid r. and 1,545 c. y. loose r. removed; 1,385 c. y. embankment built and 1,072 c. y. of st. placed in dams, 87, 1761.

1887-88. 150 c. y. r. and gravel removed; 215 c. y. riprap st. quarried; 721 c. y. riprap dam built; 602 snags removed from chan., and 926 trees from banks, 88, 1615.

1888-89. 500 c. y. riprap dams built; 81 c. y. brush and st. bank protection placed; 193 snags removed from chan., and 753 trees from banks; 100 l. f. of cofferdam built, and 865 c. y. r. excavated from lock pit, 89, 1841, 1842.

1889-90. Constr. of Lock No. 1 continued; cofferdam completed; 5,204 c. y. r. excavated from lock pit; 1,840 c. y. st. quarried, 90, 2137.

1890-91. 1,700 c. y. of earth and 10,855 c. y. r. excavated from lock pit at Lock and Dam No. 1; 842 c. y. of masonry quarried, 91, 2271. 3,000 c. y. of earth excavated for lock site at Lock and Dam No. 2, and constr. of cofferdam begun, 91, 2272. 1,011 snags and 1,708 bowlders removed from chan., and 7,795 trees cleared from banks, 91, 2273.

1891-92. 300 snags removed from chan., and 1,643 overhanging trees cleared from banks, 92, 1935. Constr. of Lock and Dam Nos. 1 and 2 continued, 92, 1936.

1892-93. Old dr. purchased and machinery from it transferred to new hull; constr. of Lock No. 1 in progress, and work begun on No. 3 and No. 4; nearly 12,000 snags and other obstr. removed; some r. excavated and placed in dams; dam that was at left bank of Holleman Isld. transferred to right bank, **93, 2399.**

1893-94. Constr. of Locks Nos. 1, 3, and 4 continued, and work on Nos. 2 and 5 begun, **94, 1812.** Small SS. built, and additions made to plant, **94, 1814.** At Wild Goose Shoals, old main dam was cut down to l. w. for about 450'; check dam built and chan. cleared. At Kettle Creek Shoals, dam 116' l. built with r. from chan., some r. and nearly 1,200 obstr. removed; dams repaired, **94, 1815.**

1894-95. Work continued on Locks Nos. 2, 3, 4, and 5, **95, 2257.** Small SS. built. Dams repaired and extended at Fishing Creek and at Forbush Shoals, **95, 2259.** Nearly 19,000 leaning trees and 4,000 snags, etc., removed, **95, 2259, 2260.**

1895-96. Locks Nos. 2, 3, 4, and 5, in course of constr., **96, 1912, 1913.** Nearly 600 snags and other obstr. removed, **96, 1914.**

1896-97. Work on Locks Nos. 2 and 5 continued, **97, 2225.** About 1,700 obstr. of various kinds removed, **97, 2226.**

1897-98. Work continued on Locks Nos. 3 and 5 and begun on Nos. 6 and 7, **98, 1880.** New hull built for *Weitzel*. Snag boat repaired and refitted, **98, 1881, 1882.**

1898-99. Work at Lock No. 5 carried on by hired labor, and at Nos. 6 and 7 by contract; work of clearing obstr. from chan. above Nashville begun; about 2,000 obstr. removed, **99, 2243.**

1899-00. Work of last year continued; work begun at Lock No. 1; over 2,000 obstr. removed, **00, 2897.**

1900-01. Work carried on at Lock No. 1 under contract, and at Lock No. 5 by hired labor, **01, 2412, 2413.**

1901-02. Work on constr. of lock approaches and abutment protections under contract at Lock No. 1 completed; work carried on by hired labor at Lock No. 5, **02, 1700, 1701.**

1902-03. Work in progress on Locks Nos. 1, 2, 3, 4, and 5, **03, 1585.** 506 snags removed, 848 snags, trees, and logs cut, and 13 trees deadened, **03, 1586.**

1903-04. Work in progress on Locks Nos. 1, 3, and 4, **04, 2344.** 778 snags removed, 2,404 snags, trees, and logs cut, and 22 trees deadened, **04, 2345.**

1904-05. Lock gates erected, dam completed, and Lock No. 1 placed in operation Nov., 1904, **05, 1729.** 70 snags removed, 350 snags, trees, and logs cut, and 39 trees deadened, **05, 1730.**

1905-06. Work continued at Lock No. 2, and begun at Lock No. 21; 637 snags removed, 1,641 snags, trees, and logs cut, and 657 trees deadened, **06, 1506, 1507.**

1906-07. Work in progress at Lock No. 2, by hired labor, **07, 1613.** Work in progress at Lock No. 4, by hired labor, and at Lock No. 21, under contract; 330 snags removed, 559 snags, trees, and logs cut, and 41 trees deadened, **07, 1614.**

1907-08. Work on Lock and Dam No. 2 continued, dam completed, 17,540 c. y. dr. from lower approach, and lock placed in operation, Oct., 1907; gates and filling valves for Locks Nos. 3, 4, and 5, and filling valves for Locks Nos. 6 and 7 delivered, **08, 1687.** Work in progress on Locks and Dams Nos. 3, 4, and 5; 9,140 c. y. dr. from lower approach and dam foundation, Lock No. 3, **08, 1688.** Work on Lock and Dam No. 21 carried on under contract until Dec., 1907, when contractor failed, and U. S. took possession of plant and carried on work with hired labor, **08, 1689.** 643 snags removed, 1,418 snags, trees, and logs cut, and 85 trees deadened, **08, 1690.**

1908-09. Dam at Lock No. 3 completed, lock placed in operation Oct., 1908, and 6,643 c. y. dr. from lower approach; work in progress at Locks and Dams Nos. 4, 5, 6, and 7, **09, 1680, 1681.** Work in progress at Lock and Dam No. 21, **09, 1682.**

1909-10. Work in progress on Locks and Dams Nos. 4, 5, 6, and 7, and Locks Nos. 4 and 5 placed in operation Nov. 17 and Oct. 18, 1909, resp., **10, 664, 1850, 1851.** Work in progress on Lock and Dam No. 21, **10, 1851.**

1910-11. Two lock houses at Lock No. 5 completed and banks rippedraped; building dam and

bank rippedraped at Lock No. 6; building dam, bank protection and putting lock in operation at Lock No. 7; work on Lock No. 21 in progress and about 80% completed; snagging operations continued, trees cut, trimmed, and deadened, and sunken barge removed, **11, 2027.**

1911-12. Work in progress for completion and putting in operation Lock No. 21; rippedraping banks at Locks Nos. 6 and 7; excavating chans. at shoal places bet. Locks Nos. 4 and 7; snagging operations continued; boat yard near Nashville purchased; general work continued; Lock No. 21 put in operation in Oct., 1911, **12, 865, 2233.**

PHYSICAL CHARACTERISTICS.

Discharge, **84, 1666; 12, 3854.**

Table of distances, with fall of water on shoals, and average d. in pools on the lower Cumberland R. from Lock No. 1; upper R. imp. to the Ohio R., **90, 2140.**

Description of, after ex. made 1893-94, at Wild Goose, Kettle Creek, and Smiths Shoals, **94, 1815.**

Bank slides, **96, 1914.**

Navigation hampered by l. w. during 1904, **05, 1730.**

Complaint made by citizens of effect produced at Spencers Creek Ford by backwater from Dam No. 3; petition urges constr. of br. by U. S., **11, 2031.**

Completion of locks resulted in good H. at Nashville; affords 6' navigation, Nashville to West Pt., Tenn., **11, 715.**

Completion of Lock and Dam No. 21 affords SS. navigation the year round for 30 m. below Burnside, Ky.; creates fairly good H. at that locality, **12, 865.**

Proj. section, 1912, from Nashville to mouth of Rock Castle R. (357 m.) is about 160 m.; the lower end of proj. 190 m. from R. mouth, **12, 865.**

At 1912, R. had been made navigable—Nashville to West Pt. (125 m.) for 6' dr. boats all year; thence to Burnside (325 m. above Nashville) for SS. of 2½' draft for 6 to 8 mos.; for boats of greater draft, 2 to 3 mos. R. above Burnside, for 35 m., navigable for rafting and logging, **12, 865, 866.**

PLANS. (See Projects.)

By Maj. King, 1881, Smiths Shoals, l. and d., using the R. itself as a canal, by the constr. of a dam at head of Mill Shoal in connection with 4 locks of 16' lift and 55' x 140' in chambers. Est., \$560,000, or for a more complete imp. an additional dam, with 3 locks near Shadowen Shoal; est., \$965,000, **82, 1863, 1864.**

Recom. that existing system of dams be tried 1 year longer before attempting a more radical imp., **82, 1865.**

PRIVATE WORK.

Value and description of the private dams above the mouth of the Jellico, **83, 1491, 1492; 87, 1762, 1763.**

Act Mar. 3, 1905, au. Cumberland River Improvement Co. to improve R. and tributaries, incl. the South Fork above Burnside, by l. and d. and to use resulting water power, with certain provisions, and under U. S. supervision; also to collect toll for 40 years at rates to be fixed by Sec. of War, **05, 451.**

PROJECTS. (See Plans.)

By Maj. Weitzel, 1872, Falls of the Cumberland to Nashville, 372 m., excavation of ledges, sand and gravel bars, concentration of water by wing dams, removal of snags and bowlders, and the restriction of tributaries to determined chans.; est., \$258,804, **71, 470, 478; 72, 471; 77, 594.**

By Maj. McFarland, 1875, Smiths Shoals wing dams to give descending coal boats 4' during m. h. w., **75, 795, 796.**

Above mouth of Jellico: By Maj. King, 1881, Jellico to Cumberland Ford, 110 m., removal of snags, trees, and similar obstr.; est., \$55,000, **81, 1853; 87, 1763.**

By Maj. King, 1884, Nashville to the head of Smiths Shoals; slack-water navigation, with 23 locks bet. Nashville and Pt. Burnside, and 7 locks

at Smiths Shoals, giving 5' on the lower miter sills; est., \$4,077,922, 84, 1663, 1665; 87, 1761.

Dimensions of locks, as fixed by B.E., 52' x 280', 87, 1760.

In 1891 locks of larger dimensions than those contemplated in the orig. proj. and est. having been recom. by the B.E., the est. was revised, making the cost of the 23 l. and d. bet. Nashville and Pt. Burnside \$5,750,000; and to continue the imp. to the head of Smiths Shoals, with 7 additional l. and d., was est. to cost \$1,750,000, making the total est., revised proj., \$7,500,000, 91, 2270; 92, 1938.

Proj. for canalization of C. R. given, 1912 R., as follows: Based on ex. and sur., 1882 and 1883, 84, 1661. Calls for 22 l. and d. below Burnside, Ky., and 6 l. and d. at Smiths Shoals, above Burnside, the intention being to provide a complete system of lockage, Nashville to Rockcastle R., to gain 6' chan.; l. to be 52' x 280', with lifts varying from 10' to 12'; est., \$8,500,000, 12, 864.

List of lands acquired for l. and d. sites, distances from Nashville, acreage and cost—Nos. 1, 2, 3, 4, 5, 6 (new site of No. 2 incl.), 94, 1814; Nos. 1 to 8, and Nos. 21 and 22, 95, 2259; 96, 1914.

Constr. by hired labor and open-market purchases au., 93, 2399.

Act of 1892 app. \$20,000 to be applied to l. and d. Nos. 21 and 22, and provided for completing the whole or any parts of Nos. 5, 6, and 7, at a cost not to exceed \$600,000, 96, 1914; 99, 2243.

By Capt. Biddle, 1896, for increasing, because of the small app., the est. cost of the imp. to \$9,000,000. Est. cost of an. mainten., \$5,000, to be increased from \$4,000 to \$6,000 as each lock would be completed. Est. cost of an. mainten. of the whole system of 30 locks when completed, \$150,000, 96, 1916.

Smiths Shoals: Act 1892 allotted \$5,000, 93, 2399; 94, 1816. Act 1894 allotted \$5,000, 95, 2261. Sites of Locks and Dams Nos. 1 to 6 approved, 96, 1915. Proj. revised by Capt. Biddle, 1896, to provide for increasing height of 6 locks to save the constr. of a seventh, 96, 1915.

Lt. Col. Adams, 1899, est. \$898,740.15, and 2 years to make Locks 1 to 7 operative, and to give 6' navigation, 99, 2245.

Lt. Col. Adams recom., 1902, proj. below Nashville be completed first, bet. Nashville and Carthage next, and that above Carthage be abandoned, 02, 1704.

Lt. Col. Sears recom., 1904, that balances for work on special locks be made available for general imp., 04, 2346.

Act 1905 au. Lock and Dam No. 21 at cost of \$200,000, and made applicable for such work any balances remaining to credit of any proj. above said dam, and also au. application of balances on hand or general imp. above Nashville and for Locks

Nos. 5, 6, and 7, to constr. of Lock and Dam No. 2, 05, 1730.

Maj. Newcomer est., 1905, \$550,000 to make Locks and Dams Nos. 3 to 7 available for navigation, 05, 1730.

BERH., 1906, reported the constr. of 6 l. and d. below Nashville, and completion of Locks and Dams Nos. 3, 4, 5, 6, and 7 bet. Nashville and Carthage, at est. of \$2,950,000, in addition to work already provided for, as worthy of being continued; but proposed imp. bet. Carthage and Burnside, except Lock and Dam No. 21, not justified by C. involved, 106, 495; 07, 522. Act Mar. 2, 1907, au. modified proj. for completing the imp. in accordance with this R., by providing for completion of Locks and Dams Nos. 3, 4, 5, 6, and 7; additional expend. \$550,000, 07, 522.

Maj. Harts increased est. for Dam No. 21 to \$77,000 for dam, and \$44,000 for protection work, 08, 1689; making est. as modified by act Mar. 2, 1907, \$2,854,000, 08, 556.

Maj. Harts recom., 1909, that further app. for Lock No. 21 be coupled with requirement that a suitable public landing place be provided at Burnside, without expense to U. S., to prevent a monopoly of the freight resulting from the imp., 09, 1663.

Act July 25, 1912, app. \$5,000 for mainten. by open-chan. work, and \$2,500 for purchase of flowage rights over lands submerged from constr. of Dams 6 and 7, 12, 864.

SURVEYS.

For canal around Smiths Shoals au. act Mar. 3, 1881; made by Maj. King, 82, 1862.

Ex. of Cumberland R. and principal tributaries above Pineville; made, 1882, by Maj. King, 84, 1661.

Ex. and sur. for location of l. and d., from Nashville to Cincinnati Southern R.R.; made, 1882, 1884, by Maj. King, 84, 1662, 1663.

Surs. and exs. made almost every year from 1893-1900 for l. and d. sites. (See references, Engineers in charge.)

Au. act Mar. 3, 1909, Lock No. 7 to Lock No. 21; made, 1909, by Maj. Harts (R. unfav.), 10, 667.

R. by BERH., Dec. 5, 1910, req. by R. and H. Com. to report whether Dam 20 would be worthy as a separate proposition from the R. as a whole. Maj. Flagler, R., Oct. 3, 1910, gives existing physical and commercial conditions, and states it is not advisable to undertake constr. of Lock and Dam No. 20, at an est. of approx. \$385,000 at this time. Board concurs.³

Cong. docs., etc., relating to exs., surs., plans, etc., 12, 865.

CONTRACTS.

1912. Lee Vecchione, delivering cut st. for raising walls of Locks Nos. 2 and 3; quantities and

prices listed, 12, 2237. J. & J. B. Milholland Co., filling valves, anchorages, etc., for Lock No. 2, \$2,661.57; Independent Bridge Co., delivering and erecting, at Lock No. 2, entire steel work for raising leaves of lock gates, adjusting and rehanging gates, etc., \$3,793, 12, 2238.

ENGINEERS.

Chief of Engineers. R., 06, 496; 07, 524; 08, 558; 09, 591; 10, 666; 11, 717; 12, 866.

In charge:

Maj. H. C. Newcomer, 1906-07. R., 06, 1511.

1st Lt. W. G. Caples, 07, 516.

Maj. W. W. Harts, 1907-11. R., 07, 1618; 08, 1694; 09, 1686; 10, 1856; 11, 2033.

¹ H. D. 699, 59th, 1st.

² H. D. 632, 61st, 2d.

³ R. and H. Com. 3, 62d, 2d.

⁴ Expend. under the permanent indefinite app. act July 5, 1884, for operating and keeping in repair canals and other public works.

Maj. C. A. F. Flagler, 11, 706; 12, 857.
 Maj. E. Jadwin, 12, 857.
 Maj. H. Burgess, 1912-*R.*, 12, 2235.

LEGAL PROCEEDINGS.

20 claims, aggregating \$33,825 during 1912, on account of overflowed lands, due to raising of w. l. by dams; no funds available for payment of claims; congressional legislation required, 12, 2236.

Negotiations to acquire, by purchase, flowage rights, pending, 12, 867.

OPERATIONS.

1905-06. Minor repairs made and 1,470 c. y. dr. at Locks Nos. 1 and A, 06, 1511.

1906-07. Repairs and imp. made to buildings, bank protected, dam repaired, and other minor work done at Lock A, 07, 1618.

1907-08. Preparations made for repair of dam at Lock A; minor repairs at Locks Nos. 1 and 2, 08, 1694.

1908-09. Lock and upper approach dr. at Lock No. 1; lock and upper approach dr. and dam backed with sand and gravel at Lock No. 2; extensive repairs made to dam, and lower approach excavated at Lock A, 09, 1686.

1909-10. Dr. at Locks A, Nos. 1, 2, and 5; extensive repairs to dam at Lock No. 3; banks; protected at Locks Nos. 3 and 5; new suction dr. built at Muscle Shoals Canal, 10, 1856.

1910-11. Dr. done at all locks; riprapping for bank protection at Lock A and Lock No. 4; constr. of 3 barges for Lock A begun, 11, 2033-35.

1911-12. Bank protection, riprapping banks, removing sediment from lock pits, dr. lock approaches, constr. of 4 barges and 2 derrick boats, and general mainten. work carried on, 12, 2235.

PHYSICAL CHARACTERISTICS.

Description of, 11, 717, 2034, 2035.

Vessels unable to pass over dam or use locks during certain periods of year (see Projects), 11, 2034.

PRIVATE WORK.

City of Nashville purchased 330' ground for wharf purposes, 12, 867.

PROJECTS.

Maj. Harts recom. raising lock walls from 3' to 6', so that boats can pass over dam, and use locks during certain seasons of year; est. submitted; plan app. by Chief of Engineers, and au. given to carry on work, 11, 2034-37.

AA-263

CANEY FORK RIVER, TENN.

APPROPRIATIONS.

Assistants:

C. A. Turrill. *R.*, 79, 1275.

C. A. Locke. *R.*, 87, 1769.

OBSTRUCTIONS. (See Physical characteristics.)

OPERATIONS.

1880-81. 91 c. y. r., 2,368 c. y. gravel, and 3,956 logs, snags, etc., removed from chan.; 555 c. y. st. placed in dams, and 260 l. f. of wing dam built, 81, 1870.

1881-82. 2,598 c. y. log and st. dams built, 200 c. y. gravel and loose r. excavated, and 2,196 trees and snags removed, 82, 1854.

1882-83. 365 trees, snags, and stumps cut down and removed, 775 c. y. gravel put in dams, and 250 c. y. st. quarried for dam, 83, 1500.

1883-84. 347 c. y. st. quarried, 1,735 c. y. riprap dam built, and 2,595 c. y. r. and gravel excavated from chan.; 928 trees, stumps, and snags removed, 84, 1653.

1884-85. 600 c. y. r. quarried and placed in riprap dams, 310 l. f. riprap dam built, 2,595 c. y. gravel and loose r. excavated, and 1,609 trees stumps, and snags removed, 85, 1769.

1887-88. 1,550 c. y. r., sand, and gravel excavated; 593 c. y. riprap st. quarried; 568 l. f. spur-riprap dams built; 219 snags removed from chan. and 4,151 trees from banks, 88, 1635.

1888-89. 15 c. y. r. and 28 snags removed from chan.; 1,316 c. y. riprap st. quarried, 89, 1848.

1889-90. 4 snags removed, 65 boulders and 388 c. y. st. quarried, and 1,223 c. y. riprap dam built, 90, 2150.

1890-91. 4,787 trees cut, and 49 snags and 440 c. y. r. removed from chan., 91, 2285.

1891-92. 30 c. y. r., 227 snags, and 5,969 overhanging trees removed from chan. and banks, 92, 1941.

1906-07. Material ordered for constr. of 2 flat-boats, 07, 1619.

1907-08. Snags, logs, trees, and boulders removed over 15 m. of *R.*, 08, 1695.

1908-09. Snags, logs, trees, and boulders removed over 76 m. of *R.*, completing clearing up *R.*, Franks Ferry to mouth, 09, 1687. Until further action is taken by U. S., work will be dropped, 10, 666.

PHYSICAL CHARACTERISTICS.

Description of, 79, 1276, 1277.

List of obstr., 79, 1276.

PLANS. (See Projects.)

By C. A. Turrill, 1879, imp. Caney's Fork (\$30,228) by dr., excavating r., and building riprap dams, 79, 1246, 1277.

PROJECTS. (See Plans.)

By Capt. Overman, 1878, formation of navigable chan. during 5 months of the year, mouth to Sligo, by removal of obstr., dr., and r. removal, and

constr. of riprap dams; est., \$30,228, **79**, 1275, 1277; **83**, 1500; **87**, 1767.

By Lt. Col. Barlow, 1886, extending navigation, Sligo to Franks Ferry; est., \$15,000; entire est., \$45,000, **87**, 1767, 1769; **92**, 1941.

SURVEYS.

Ex. au., **78**, 105; completed by C. A. Turrill, **79**, 142, 1275, 1277.

1881-82. 435 c. y. r. blasted, 633 snags removed and 3,033 trees cut and deadened, 82, 1963.

1883-84. 2,446 stumps, logs, and snags removed and 18,711 trees cut and deadened, 84, 1749.

1884-85. 1,222 logs and snags removed and 42,703 trees cut and girdled, 85, 1884.

1886-87. Removal of obstr. to Fish Trap Ford, 87, 1895.

1887-88. Removal of obstr. over 19 m. of R., 88, 1747.

1889-90. 415 snags removed from chan., and 12,000 trees and logs cleared from banks, 90, 2254.

1890-91. 669 snags and 511 logs removed from chan., and 2,551 stumps and 279 trees cleared from banks, 91, 2438.

1892-00. Snagging and removal of other obstr. done at intervals. (See references attached to Engineers in Charge.)

PHYSICAL CHARACTERISTICS.

Description of, **81**, 1991; **96**, 2265; **97**, 2477.

A tributary, small and very crooked, of the Ohio emptying into it 79 m. below Evansville, Ind., **93**, 2806; **94**, 1967; **95**, 2470; **96**, 2265. To imp. it properly would require a l. and d. at the mouth, which would be of doubtful value on account of the uncertain supply of water, **97**, 2478.

PROJECTS.

By Capt. Cuyler, 1880, imp. of descending navigation on the Tradewater R. by removal of snags, logs, and similar obstr., and excavation of a chan. through the natural r. barrier at the mouth of the

R., to give chan. 40' w. with a min. d. of 2½' during 8 months of the year, for 41 m.; est., \$10,000, **81**, 1992; **88**, 1747.

SURVEYS.

Au. act June 14, 1880; made, 1881, by Capt. Cuyler, **81**, 1991.

Ex. au. act June 3, 1896; made by Maj. Gregory, 1897 (R. fav. only to snag removal), **97**, 2476.

Pre. ex. au. act June 13, 1902. R. by Maj. Ruffner, July 25, 1912¹ (unfav.), **04**, 502, 2722. Maj. Ruffner's views concurred in by BERH., **04**, 2725.

Pre. ex. au. act Mar. 3, 1909. R. by Lt. Col. Warren, June 12, 1909² (unfav.), **10**, 730.

LEGISLATION.

Green & Barren River Navigation Co., chartered by Ky., **80**, 1799.

Effort and failure to repeal act, **80**, 1801.

Acts of incorporation, **80**, 1822; **85**, 1907.

OPERATIONS.

1888-89. Repairs to buildings, etc., at Locks 1 and 2 on Green R.; 12,000 c. y. dr. from lock approaches; plant built at Lock 3, Green R.; work of removing fallen lock walls begun; constr. of plant, **89**, 1969.

1889-90. 8 lock houses built; dr. at lock approaches; constr. of new walls at Lock No. 3 begun; removal of old walls at Lock No. 1, Barren R., **90**, 2256.

¹ H. D. 179, 58th, 2d.

² H. D. 346, 61st, 2d.

1890-91. Repairs to lock, dam, guide cribs, and abutment at Lock and Dam No. 4, and Dam No. 1; 10,000 c. y. dr. from upper and lower lock entrances at Lock No. 2; repairs to Lock and Dam No. 3; 1,035 snags cleared from R. chan., **91**, 2444, 2445.

1891-92. Repairs to Locks and Dams 1, 2, 3, and 4, Green, and 1, Barren; 28,716 c. y. dr. at lock entrances; 1,043 snags, 6,000 l. f. of old crib timber, and old cofferdam removed; 472 trees cut or deadened, **92**, 2078, 2079.

PHYSICAL CHARACTERISTICS.

Description of ores and coals on Green R., **80**, 1808, 1810, 1812.

Distances and elevations, **80**, 1817.

Details, vicinity of mouth of Green R., **97**, 2509.

PLANS. (See Projects.)

By Maj. Merrill, 1880. Slack-water navigation, Green and Big Barren Rs., with l. and d.; est., \$334,805 to \$393,184, **80**, 1801, 1818. State, by virtually closing the R. by its charter to the navigation co., not considered entitled to aid from U. S., **80**, 1801.

See Private work.

PRIVATE (CORPORATE) WORK.

Orig. system of l. and d. (4 in Green R. and 1 in Barren R.) completed by Ky., 1841. Total l. of pools, 200 m.± 1868, Ky. leased to Green & Barren R. Navigation Co. for 30 yrs. Ky., 1886, ceded system to U. S., but lease above to be bought by U. S., **80**, 1799; **12**, 950.

Existing dams, **80**, 1816.

Rates of toll, **80**, 1800.

In accordance with the requirements act July 5, 1885, Capt. Post R. on the condition of Green and

Barren Rs., with est. cost of relieving the same from incumbrance, so as to render them free to C., **85**, 1904, 1914.

R. of BE., 1886, on the C. value and importance of the works of the navigation co., **87**, 1903; when taken possession of by the U. S. (see Projects), the locks, dams, and appurtenant works were badly in need of repair, **12**, 940.

PROJECTS. (See Plans.)

U. S. took possession of imps. on the Green and Barren Rs., Dec., 1888, and repair of l. and d. begun. In 1888 \$46,557 was expended, and Maj. Lockwood est. \$256,221 as required for works of repair during 1890, **89**, 263, 1965.

At 1912, system included 7 l. and d.—Nos. 5 and 6, Green R., having been added—giving slack-water navigation from Lock 1, Green R., to Bowling Green, Ky., on Barren R. and to Mammoth Cave, Ky., on Green R. Total l. of pool, 219 m., **12**, 941.

SURVEYS.

Sur. au. act Mar. 3, 1879, **79**, 147; made, 1879, by R. H. Fitzhugh, **80**, 1802.

By Maj. Gregory, for new l. and d. at or near mouth of Green R. au. act June 3, 1896. R., 1897, not fav. to immediate imp., **97**, 2504.

Pre. ex. and sur. au. act Feb. 27, 1911, for extension of existing system of l. and d., **12**, 943.

Pre. ex. and sur. au. act Feb. 27, 1911, of Green R., Ky., at and near Lock and Dam No. 3, near Rochester, for diversion of the waters of Mud R. from its mouth above said l. and d. to a suitable point below, **12**, 943.

Cong. docs., etc., relating to exs., surs., plans, etc., **12**, 942.

Part (b), BB-7 Green River, Above Mouth of Big Barren River, Ky.

APPROPRIATIONS.

LEGAL PROCEEDINGS.

Procuring of title to land, **95**, 2474; condemnation proceedings for some land, **96**, 2271; title procured, **98**, 1986.

Negotiations in progress to purchase additional land, **00**, 3502.

Complaint of Capt. Burgess on slowness of Dept. of Justice in ex. of land titles, **07**, 1809.

Condemnation proceedings instituted Apr. 10, 1908, to acquire land needed for bank protection and for a roadway, **08**, 1877.

Land acquired for roadway from Dam No. 6 to nearest public highway, by condemnation proceedings, **10**, 2031.

OBSTRUCTIONS.

Any imp. of the R. would require reconstr. of the br. below Cammer, **00**, 3545.

OPERATIONS.

1894-95. Site of l. and d. selected, **95**, 2474.

1895-96. Preparations made for beginning work, **96**, 2271.

1896-97. Constr. of lock begun, **97**, 2459.

1897-98. Lock constr. continued (table showing details of work and giving unit cost, etc.), **98**, 1990.

1898-99. Banks protected and minor work done, **99**, 2583.

1899-00. Lock completed and opened to navigation Jan. 17, 1900; all obstr. cleared from pool above lock, **00**, 3502.

1900-01. Cribwork and bank protection at Lock No. 5 completed; cottage built for lock tender, **01**, 2805.

1901-02. Completing cottage, walks, etc., **02**, 1988.

1902-03. Preparing plans for second lock (No. 6, Green R.), **03**, 1775.

1903-04. Constr., by contract, of Lock and Dam No. 6 in progress; 8,421 trees cleared from banks by U. S. plant; lock tender's cottage under constr. by hired labor, **04**, 2678.

1904-05. Constr. of Lock and Dam No. 6 continued; snagging in Pool No. 6, 4,981 trees cut and 1,152 deadened; lock tender's cottage completed; fencing U. S. grounds, etc., **05**, 1949.

1905-06. Work on Lock and Dam No. 6 continued, incl. guide cribs and protection works, **06**, 1676-78. Snagging and clearing banks of Nolin R., **06**, 1678-79.

1906-07. Lock opened to traffic Jan. 1, 1906, though not quite completed; work on guide walls and bank protection in progress, **07**, 1809.

1909-10. Land for roadway acquired by condemnation, **10**, 2031.

1910-11. Balance of app. returned to Treas., the proj. having been completed, **11**, 784.

PHYSICAL CHARACTERISTICS.

Description of, Pool No. 4 to Mammoth Cave, **91**, 2480.

R. within limits of proposed slack-water chan. wholly obstr. by snags, rs., overhanging trees, etc., **97**, 2459.

Description of country and R., Greensburg to Mammoth Cave, **00**, 3544.

PROJECTS.

In 1891 Maj. Lockwood proposed 2 l. and d. to extend slack-water navigation from the upper limit of Pool No. 4 to Mammoth Cave; est., \$361,346.40, each lock to be 36' x 161'; combined lift, 27', **91**, 2479.

Act 1892 au. Lock and Dam No. 5, **93**, 2608. Site below mouth of Bear Creek approved by B.E., **95**, 2474.

By Capt. Warren, 1897, lock and abutment of concrete instead of st.; est. cost of l. and d., \$180,173.18, **98**, 1986, 1988.

Capt. Zinn est., 1899, \$27,000 for snagging operations bet. Mammoth Cave and Munfordville, and about \$2,500 an. for mainten., **00**, 3546.

Est. by Capt. Burgess, 1904, of \$5,000 for clearing banks of lower Nolin R. of timber and snags, **04**, 497.

In opinion of D.O., R. unworthy of further imp., **10**, 2031.

SURVEYS.

Ex. up to Mammoth Cave au. act Sept. 19, 1890; made, 1891, by Maj. Lockwood, **91**, 2481.

Ex. for location of works, **93**, 2608; **94**, 1971; **95**, 2474.

Est. of Green R., Ky., Mammoth Cave to Greensburg, au. act Mar. 3, 1899; made, 1899, by Capt. Zinn (**R.** fav. to removing snags; see Projects), **00**, 3543.

Pre. ex. au. act Mar. 3, 1905, Green R., Lock No. 6 to Munfordville, Ky. **R.**, Capt. Burgess, fav., but **Es.** of D.E. and B.E.H. unfav., **06**, 558.

Part (c), BB-7 Green River, Rumsey, Ky., Lock No. 2.

APPROPRIATIONS.

1893, \$65,000, **93**, 2607.

1894, 105,000, **95**, 2471.

Total, 170,000

COMMERCE.

Nearly all the C. of Green R., Barren R., and Rough R. consists of through shipments which pass through this lock, **96**, 2267.

CONTRACTS.

1893. Eigenmann & Hollerbach, st. (special, \$18 c. y.; cut, \$11 and \$13 c. y.; backing st., \$7 c. y. (\$25,068.78), **93**, 2607). Not completed, **94**, 1968. J. B. Speed & Co., cement, \$1.34½ bbl. (\$2,017.50), **93**, 2607.

1895. Evansville, Ohio & Green River Transportation Co., st. (special and coping, \$11.75 c. y.; cut, \$7 and \$10 c. y.; and backing, \$5 c. y.), \$42,-324.80), **95**, 2472.

ENGINEERS.

Chief of Engineers. **R.**, **93**, 329; **94**, 302; **95**, 337; **96**, 293; **97**, 369; **98**, 352; **99**, 445; **00**, 509; **01**, 502.

In charge:

Maj. D. W. Lockwood, 1888-95. **R.**, **93**, 2606; **94**, 1968; **95**, 2470.

Maj. J. F. Gregory, 1895. **R.**, **96**, 2266.

G. F. Stickney. **R.**, **96**, 2268; **97**, 2457.

D. A. Watt. **R.**, **99**, 2581.

OPERATIONS.

1892-93. Preparations made for constr. new lock, **93**, 2607.

1893-94. Lock constr., **94**, 1969.

1894-95. Lock constr., **95**, 2471.

1895-96. New lock opened in Dec., 1895, but constr. continued, **96**, 2267.

1896-97. Lock constr. continued, **97**, 2457.

1897-98. Lock constr. to be continued, **98**, 1985.

1898-99. One lower shore crib, 4 upper cribs, 1 shore dike built, and grading completed, **99**, 2581.

1900-01. Laying walkways, and d. and straightening chan. approaches to locks, **01**, 2805.

PHYSICAL CHARACTERISTICS.

Material excavated from the lock site tough, fibrous, slaty r. that blasted poorly, **95**, 2471; **96**, 2267.

Lock No. 2, the second in the slack-water system of the R., **96**, 2267.

PROJECTS.

By Maj. Lockwood, 1893, for new lock alongside the old one, which had become dangerous; est. \$170,000, **93**, 2606; **96**, 2266.

Part (d), BB-7 Green and Barren Rivers, Ky. (Locks and dams, care and operating.)

APPROPRIATIONS.

LEGAL PROCEEDINGS. (See Water power.)

LEGISLATION.

State and U. S. laws pertaining to Green, Barren, and Rough Rs., Ky., 04, 2686.

OPERATIONS.

1892-93. L. and d. repaired; over 25,000 c. y. dr.; over 1,000 snags removed; a large quantity of other obstr. removed, and a large amount of general work done, 93, 2613.

1893-94. L. and d. repaired, and portions renewed and strengthened; about 30,000 c. y. dr.; over 1,200 snags removed; large quantities of various kinds of obstr. removed; snag boat repaired, and a great amount of general work performed, 94, 1976.

1894-95. About 45,000 c. y. dr. from lock entrances and portions of Barren R. where w. and d.; l. and d. repaired; over 2,000 snags removed; large quantities of obstr. of various kinds removed, and a great amount of general work performed, 95, 2478.

1895-96. L. and d. repaired; Lock No. 2 was closed and navigation through it abandoned on account of its dangerous condition, Aug., 1895, and navigation resumed through new lock, Dec., 1895; over 16,000 c. y. dr.; constr. of new hull for dr. boat in progress; over 2,300 snags removed, and other obstr. removed, and much general work performed, 96, 2273, 2276.

1896-97. Extensive repairs made at Lock No. 1, Green R.; warehouse constr. and ground graded; new hull of dr. completed and U. S. plant repaired; 2 barges and 4 derrick boats built; about 1,000 snags and other like obstr. removed; over 30,000 c. y. dr., and a large amount of misc. work done, 97, 2467-2471.

1897-98. Reinforcement of Lock No. 4, Green R., completed; portion of dam at Lock No. 2 reconstructed; l. and d. repaired; U. S. plant repaired; over 1,300 snags and other obstr. removed, and over 6,000 trees deadened; over 30,000 c. y. dr., and much general work done, 98, 2000-2005.

1898-99. Dr. 35,373 c. y.; rebuilding dams at Lock No. 2; backing dams at Lock No. 1, Barren R., and Lock No. 1, Green R., and minor repairs 99, 2584.

1899-00. Upper and lower guide cribs built at Lock No. 1, Green R.; placing a comb stick on Dam No. 2; replacing the wooden lower gates at Lock No. 3 with steel ones, and rebuilding upper gates above water; repairing and extending the crib abutment and the lock-wall paving at Lock No. 4, and 14,541 snags and other obstr. removed, 00, 3516.

1901-12. General mainten. work done each year, such as cleaning mud deposit and drift from lock walls, cribs, and approaches; removing snags and other obstr. from pools; lock gates, gauges, flagpoles, rowboats, and metal roofs repainted; fences and outbuildings whitewashed; grass, weeds, and other refuse removed from reservation as needed; buildings and fences repaired, and minor repairs as necessary to maintain system in good navigable condition. (For details of expend. and work done, see each an. R.)

PHYSICAL CHARACTERISTICS.

Prolonged h. w. in the Rs. a cause for landslides and damages to completed structures, 93, 2610; 94, 1972; 95, 2475; 96, 2273.

LEGAL PROCEEDINGS.

Title to land for l. and d. obtained, 93, 2616; 94,
1979.

LEGISLATION.

Act of Ky. ceding State's works to U. S., 85, 1902.

OPERATIONS.

1890-91. 1,969 trees deadened from banks and
290 logs removed from chan., 91, 2448.

1891-92. 29,499 trees deadened, 8,807 trees cut
upon banks and in R., and 5,637 snags and 8 c. y.
of st. removed from chan., 91, 2082.

1894-95. Preparations made to constr. l. and
d., 95, 2482.

1895-96. Constr. l. and d. in progress; small
amount of dr. and snagging done, 96, 2281.

1896-97. L. and d. completed and opened to
navigation on Dec. 12, 1896. Snags and other
obstr. removed from R., 97, 2471, 2472.

1897-98. Some snagging done and lock grounds
inclosed by a fence, 98, 2009.

1898-99. 279 snags and other obstr. removed;
constr. lock tender's house in progress, 99, 2602.

1899-00. 246 obstr. removed and lock tender's
house completed; new comb stick placed on dam,
grounds graded, and minor repairs made, 00, 3539.

1900-01. Obstr. removed, protection crib
built, grading and riprapping banks below abut-
ment and lock, 01, 2814.

1902-03. Obstr. removed, 03, 1788.

PHYSICAL CHARACTERISTICS.

Description of, 93, 2616; 96, 2280.

PLANS. (See Projects.)

By Capt. Post, 1885, to extend navigation to
Greens Mill; 5 l. and d., and clearing banks of R.;
est., \$270,000 to \$421,000, 85, 1896.

PRIVATE (CORPORATE) WORK.

L. and d. built by Rough Creek Navigation &
Mfg. Co., 80, 1814; 85, 1894.

Description of work performed before the U. S.
undertook imp., 93, 2616; 94, 1978; 95, 2481; 96,
2280.

PROJECTS. (See Plans.)

By Maj. Lockwood, 1890, l. and d.; cost, \$96,556;
and removal of snags and similar obstr. bet. Hart-
ford, Ky., and the mouth; cost, \$9,000; total,
\$105,556, 91, 2448.

By Maj. Lockwood, 1895, substituting concrete
for masonry work in the constr. of l. and d., 95,
2482.

Plan of concrete lock, 96, 2284.

SURVEYS.

Boards. Convened, 1877, to consider proj. for imp. of R. by dam closing Harmony Cut-off, essentially approv. the recom. of officer in charge, 77, 669; 79, 1441. (Majs. Weitzel, Merrill, and Smith.)

In charge:

Maj. Weitzel, 1871-72. R., 71, 485, 489; 72, 463. Maj. W. E. Merrill, 1873-77. R., 73, 510; 74, 485; 75, 738; 76, ii, 57.

Maj. J. A. Smith, 1877-84. R., 77, 667; 78, 831; 79, 1439; 80, 1837; 81, 1995; 82, 1969; 83, 1577; 84, 1757.

Capt. J. C. Post, 1884; 85, 1638.

Maj. A. M. Miller, 1884-86. R., 85, 1638, 1649.

Maj. A. Stickney, 1886-90. R., 86, 1582; 87, 1864; 88, 1738; 89, 1928.

Capt. E. Maguire, 1890-91. R., 90, 2223; 91, 2411.

Maj. G. J. Lydecker, 1891-92. R., 91, 2402; 92, 2031.

Assistants:

F. Stien, 72, 463; 73, 510; 74, 485; 75, 738; 76, ii, 57; 77, 667. R., 71, 487; 72, 514.

Capt. M. B. Adams, 73, 514.

C. B. Bateman, R., 78, 833.

E. J. Carpenter, R., 78, 835.

A. L. Duvall, R., 85, 1650.

O. L. Pettitdier, R., 87, 1865, 1869; 88, 1740, 1744; 89, 1931, 1935; 90, 2229, 2233; 91, 2408, 92, 2032, 2036.

ESTIMATES. (See Plans and Projects.)

By F. Stien, 1871, imp. Wabash to mouth, by l. and d., removal of rs. at rapids, snagging, and dr., \$1,163,253, 71, 489.

By Maj. Weitzel, 1872, imp. Lafayette to mouth (175 m.), by l. and d. at Grand Rapids, removal of r. at rapids, snagging, and dr. to give chan. 4' x 100', \$312,673, 72, 475. L. at Grand Rapids, \$110,000; repairing dam, \$25,000, 72, 474; 73, 514.

By F. Stien, 1873, lock, \$110,000, 73, 517; 74, 487.

By Maj. Merrill, 1875, lock, \$130,000, 75, 740; 76, ii, 58.

LEGISLATION.

Joint act of Illinois and Indiana (1846-47) chartering Wabash Navigation Co. (see Private and corporate work), 73, 512. Provision in app. act of Congress, 1874, to extinguish rights of Wabash Navigation Co., 74, 486; 79, 1451.

Act of Indiana giving U. S. au. to acquire lands, for imp. of Wabash R., by purchase or condemnation, 77, 673; 79, 1451.

OPERATIONS.

1872-73. 6,450 c. y. r. taken from Coffee Isld. Chute; snagging and dr. open chan., mouth to Little Chain (31 m.), 73, 59, 510; 74, 486.

1873-74. Snagging and dr. completed for 31 m. above mouth; also r. excavation at Coffee Isld. Chute; 10,809 c. y. r. taken from Grand Chain, 74, 66, 485.

1874-75. Excavation of r. at Grand Chain completed (Dec., 1874) by removal of 26,630 c. y., 75, 72, 738.

1875-76. Cleaning out Little Chain Cut-off completed; progress on New Harmony Cut-off Dam, 76, 90, ii, 57.

1876-77. Failure of contractor on New Harmony Dam to prosecute work; contract annulled and work completed by hired labor, 77, 95, 667; 79, 1440. Breach formed in, by ice (Jan., 1877), 77, 95, 668; 79, 1440. H. w. delays work at Warwicks Ripple, 77, 669. Removal of 14,125 c. y. r. from Little Chain, 77, 670.

1877-78. Repairs by hired labor to dams at Grand Chain and New Harmony Cut-off, 78, 109, 833, 836. Dr. by hired labor and use of U. S. dr. from Ohio R., removing 2,731 c. y. earth, 143 snags, and part of cofferdam at Warwicks Ripple, 78, 109, 834.

1878-79. Repairs by hired labor to dams at Grand Chain and New Harmony, 79, 147, 1459. Comparison of cost by hired labor and contract, 79, 1440. Protection of shore near Grayville, Ill., 79, 147, 1443. Constr. of dams at Kingdom Bar and Turkey Isld., 79, 148, 1445. History of previous operations, 79, 1451.

1879-80. Snag boat built under contract; 136 snags removed from R. chan.; dam completed across New Harmony Cut-off; pile, brush, and st. bank protections at Grayville completed, 250' of dike at Grand Chain raised to grade; bank protection at New Harmony; dam across cut-off at Little Chain and at Winklers Bar built; removal of cofferdam at Warwicks Ripple commenced, 80, 1838.

1880-81. 202 snags and 103 trees removed; 987 c. y. r. removed at Warwicks Ripple; 830 l. f. dike built and 160 c. y. r. removed at Grand Chain; 750 l. f. pile and brush wing dams built at Winklers Bar; 550 l. f. bank protection built at McIntyres Bar; repairs to New Harmony Dam and st. protection at same, 81, 1996.

1881-82. Below Vincennes: 825 l. f. cribwork completed at Little Chain; wing dam at McIntyres Bar completed, and that at Winklers Bar extended 900'; shore protection at New Harmony Dam extended; 267 snags and 70 piles removed from R.; repairs to plant. Above Vincennes: 210 snags and 51 trees removed from chan., 82, 1970.

1882-83. Below Vincennes: 764 c. y. st. removed from chan. through reef at Little Chain, extensive repairs to brush and st. dam at same; timber dike at Grand Chain repaired; repairs to Turkey Isld. and New Harmony Dams; 134 snags removed bet. Little Chain and mouth. Above Vincennes: 262 snags removed from chan. bet. Vincennes and Terre Haute; crib, brush, and st. dam constr. at Eightmile Isld., 83, 1578-1583.

1883-84. Below Vincennes: 8,690 c. y. st. removed from cut and placed in dike at Little Chain; 504 c. y. st. quarried and 369 l. f. cribwork built in same; 400 l. f. of wing dam built; repairs to New Harmony Dam. Above Vincennes: 610 snags and 39 piles removed; work continued on dam at Horseshoe Isld., 84, 1758-1762.

1884-85. Above Vincennes: 377 snags removed from R.; dam at Horseshoe Isld. completed, 85, 1641.

1886-87. Below Vincennes: Delivery of st. for l. and d. at Grand Rapids; removing old lock walls and preparing site for new work; constr. of levee at Grayville, 87, 1864, 1867. Above Vincennes: Clearing out old dam cut-off at Horseshoe Bend, 87, 1869.

1887-88. Below Vincennes: 2,583 c. y. earth placed in levee across Grayville Bend Cut-off, extending same 250'; excavation of old lock walls completed, and foundation for new l. and d. at Grand Rapids begun, 88, 1741-1743.

1888-89. Below Vincennes: 1,743 c. y. masonry laid, partly completing land and R. walls and lower miter sill of Grand Rapids Lock and Dam; 990 l. f. st. dike built in continuation of e. end of "present" levee; 151 snags removed bet. Mt. Carmel and mouth of R. Above Vincennes: 448 snags removed from chan. bet. Wolfs Cut-off and Terre Haute, 89, 1931-1936.

1889-90. Below Vincennes: 3,078 c. y. masonry laid, completing lower and upper miter sills and left wall, R. and land walls, 90, 2230-2235.

1890-91. Below Vincennes: 3 timber and st. spur dikes completed, and levee at Grayville Bend extended 1,750', **91**, 2404. Constr. of l. and d. at Grand Rapids in progress, **91**, 2405. Snag removal bet. Mt. Carmel and Coffee Chute, **91**, 2406.

1891-92. Below Vincennes: West abutment of dam completed; lock constr. in progress; crib dike at Little Chain repaired and filled with st.; 430 snags removed, **92**, 2031.

PHYSICAL CHARACTERISTICS.

Description of R., **71**, 486, 487.

Distances from mouth to points on R., **72**, 472.

Height of h. w., **76**, ii, 57.

Cut-off at New Harmony, **79**, 1440.

PLANS. (See Estimates and Projects.)

After ex., 1890, Capt. Maguire did not consider portion of R. bet. Terre Haute and Lafayette worthy of imp., **91**, 2412.

PRIVATE, CORPORATE, AND STATE WORK.

Wabash Navigation Co. chartered by Indiana and Illinois (1846-47), with right to enter on and imp. R. by locks, dams, or other devices, for 250 m. above mouth, provided that the first work be a l. and d. at Grand Rapids; State reserved right to make navigation free under certain conditions, **73**, 512. L. and d. at Grand Rapids built, but no other work done; dam 10' x 57' x 1,030'; lock 10' x 50' x 210'; l. and d. of cribwork filled with st., **71**, 488; **73**, 513. Cost of l. and d., \$105,000, **73**, 514; "present" (1873) decayed condition of, **73**, 59, 514. Offer of company to transfer to U. S.; recom. (Maj. Merrill) that U. S. obtain transfer, **73**, 515. Provision in act of Congress (1874) to extinguish title of company, **74**, 486. Effected (1875) at cost of \$7,000, **75**, 72, 738; **79**, 1451. Erie and Wabash Canal, from Toledo (Lake Erie) to Evansville (mouth of Wabash R.), generally following valley of R., **77**, 672.

PROJECTS. (See Estimates and Plans.)

By Maj. Weitzel, 1872, imp. of R., mouth to Lafayette (175 m.) by reconstr. of l. and repair of d. (formerly built by Wabash Navigation Co.) at Grand Rapids; removal of r. at rapids, closing of cut-offs, removal of sand and gravel bars, constr. of wing dams and dikes, and removal of snags and

logs, **72**, 463, 472; **73**, 59, 511. Approval of proj., **72**, 463; est., \$312,673, **72**, 475.

Maj. Merrill, 1873, believed imp. of R. useless until l. and d. at Grand Rapids would be rebuilt, **73**, 516; **74**, 66; **75**, 739. Recom. reconstr. of dam on old site, **74**, 66, 486.

Maj. Smith, 1878, did not believe C. demanded l. and d. at Grand Rapids, **78**, 838.

Proj. of 1872 proposed imp. of R. to give navigable chan. of 3½' at extreme l. w.; also, to imp. R., Vincennes to Terre Haute, by closing cut-offs, concentration of current by training walls and wing dams, and removal of snags and r. obstr., **72**, 463, 472; **73**, 59, 511; **74**, 66, 486; **80**, 1841.

From 1871 to 1886, incl., \$573,000 app.

In 1887 est. \$250,000 would be required to complete proj. for that part of R. below Vincennes, and \$20,000 for R. above Vincennes, **87**, 1864, 1869.

In 1888, est. for completion of imp. below Vincennes increased to \$276,000, **88**, 1739.

In 1889 the est. for completion of the imp. above Vincennes increased to \$20,000, **89**, 1935.

SURVEYS.

Au. act 1870, **71**, 62, 485. Reconnoissance made in 1871, **71**, 487.

Sur., 1872, mouth to Lafayette (175 m.), **72**, 472. Special sur. in 1874-75, **75**, 739; in 1875-76, **76**, ii, 58; in 1877-78, **78**, 837; in 1878-79, **79**, 1447.

Detailed sur. of R. from Bone Bank to its mouth, 9 m., made, 1880, **80**, 1840.

Sur. extended from head of Grand Chain to Little Chain, **81**, 1998.

Above Vincennes, **82**, 1973; **83**, 1583; **84**, 1759.

Ex. from Logansport to Delhi, **85**, 1649.

Ex. bet. Terre Haute and Lafayette au. act Sept. 19, 1890; made, 1890, by Capt. Maguire (see Plans), **91**, 2411.

Maps:

Drawings of dam across New Harmony Cut-off, **79**, 1440.

Of Grand Chain, showing location of locks and chutes; sketch of details of work, **79**, 1442.

Sketch of Grayville Bend, showing location of Kingdom Bar, wing dam, and bank protection; sketch of Turkey Isld. Dam; map showing location of dams at New Harmony and Turkey Isld., and map of Warwicks Ripple, showing location of proposed cut, **79**, 1444.

Of Little Chain and cut-off, showing proposed imp., **79**, 1448.

Part (b), BB-23 Wabash River, Ill. and Ind., Below Vincennes.

APPROPRIATIONS.

1872-92, \$665,000 [see BB-23(a)].

1894.	15,000,	95 , 2444.
1896.	15,000,	96 , 2242.
1899.	15,000,	99 , 2577.
1902.	5,000,	02 , 1984.

Total, 50,000

COMMERCE.

Diminution, 1893, partly due, probably, to R.R. facilities, **93**, 2562.

Would probably be largely increased if the R. were properly imp., **98**, 1881.

Wabash Valley essentially an agricultural district. Marked increase in manuf. has taken place due to presence of coal veins in Indiana counties, **04**, 2732.

CONTRACTS.

1892. H. C. Jones, lumber, \$22,407.84, **93**, 2561.

1896. E. J. Howard, towboat, \$6,760,¹ **97**, 2453.

ENGINEERS.

Chief of Engineers. **R.**, **93**, 322; **94**, 296; **95**, 331; **96**, 287; **97**, 367; **98**, 350; **99**, 443; **00**, 507;

01, 500; **02**, 425; **03**, 457; **04**, 493, 503; **05**, 501; **06**, 551; **07**, 577; **08**, 619; **09**, 651; **10**, 730; **12**, 943.

Boards. BERH. reviews Capt. Burgess's R. on sur., and concurs in his opinion as to inadvisability of imp. at "present" time, **04**, 2738.

In charge:

Lt. Col. G. J. Lydecker, 1891-93. **R.**, **93**, 2560.

Capt. J. G. Warren, 1894-99. **R.**, **94**, 1943; **95**, 2443; **96**, 2240; **97**, 2452; **98**, 1970, 1981.

Capt. G. A. Zinn, 1899-1900. **R.**, **99**, 2577; **00**, 3497.

Capt. W. L. Sibert, 1900-01. **R.**, **01**, 2800.

Maj. E. H. Ruffner, 1901-02. **R.**, **02**, 1984.

Maj. Geo. McC. Derby, 1902-03. **R.**, **03**, 1772.

Capt. Harry Burgess, 1903-08. **R.**, **04**, 2672, 2729

05, 1945; **06**, 1673; **07**, 1805; **08**, 1873.

Capt. Lytle Brown, **09**, 644.

Lt. Col. J. G. Warren, 1908-09. **R.**, **09**, 1879.

Assistants:

O. L. Petitdidier. **R.**, **93**, 2563.

W. W. Duffield. **R.**, **94**, 1945.

T. P. Shanks. **R.**, **97**, 2454; **98**, 1974.

¹ Part of this cost is shared by app. for the R. above Vincennes and part by White R.

OPERATIONS.

1892-93. 9,095 c. y. st. quarried and most of it conveyed to dam site; 7,050 c. y. dr. from foundation bed of dam; reconstr. of snag boat completed, **93, 2561.**

1893-94. 1,100' l. dam in course of constr., **94, 1943.**

1894-95. Dam almost completed, and lock in use, **95, 2443.**

1895-96. 6,094 c. y. gravel filling placed in dam; 2 fishways constr. (drawings showing details), **96, 2240.**

1896-97. Guide dikes above Grand Rapids Lock built; snag boat changed to scow, **97, 2452.**

1897-98. 2 cribs constr. below Grand Rapids Lock and misc. work done, **98, 1981.**

1903-04. 238 snags and stumps removed, **04, 2673.**

1904-05. Removal of snags and other obstr., **05, 1945.**

1905-06. Removal of snags, etc., **06, 1673.**

PHYSICAL CHARACTERISTICS.

Elevation. (See Projects.)

Since suspension of general work previous to 1893, the chan. unnavigable, dikes and dams destroyed, shoals in continual formation from material coming from caving banks, **93, 2561; 94, 1944; 98, 1973.**

Description of parts ex. in 1898, **98, 1974.**

Lower Wabash w. and shallow, obstr. by sand and gravel bars, and r. reefs. Near New Harmony the R. has formed a cut-off, which takes very nearly the whole l.-w. discharge, **04, 2733.**

PROJECTS.

Elevation of the works above sea level, **98, 1973.**

By Capt. Warren, 1898, closing New Harmony Cut-off by dam; est., \$50,000, and for no expend. of funds at other places until a sur., est. to cost \$20,000 or less, had been made below Mt. Carmel, and proj. prepared for entire imp. (map showing location of old dam and proposed dam near Harmony Cut-off), **98, 1978.**

SURVEYS.

Ex. and sur. made in 1897-98 by Capt. Warren to determine what work would be necessary to reestab. navigable chan., **98, 1973.**

Au. act June 13, 1902, Vincennes to mouth. **R.** by Capt. Burgess, Dec. 16, 1903. Plan presented at cost of \$3,405,000, but not deemed advisable to undertake imp. at "present" time, **04, 503, 2729.**

Pre. ex. au. act Mar. 3, 1909, from mouth to Mt. Carmel. **R.** by Lt. Col. J. G. Warren, June 12, 1909² (unfav.), **10, 730.**

Act June 25, 1910, au. ex. and sur. from mouth to Terre Haute (**R.** to come), **12, 943.**

Maps. (See Operations and Projects.)

Part (c), BB-23 Wabash River, Ind. and Ill., Above Vincennes.**APPROPRIATIONS.**

1881-92, \$80,500 (see BB-23(a)).

1894, 5,000, **95, 2444.**

1896, 6,000, **96, 2243.**

1899, 4,000, **99, 2577.**

Total, 15,000

COMMERCE.

Small, **95, 2444.**

Valley of Wabash is a country rich in agricultural resources; below Perrysville there is also mineral wealth in the shape of coal and fire clay, **04, 2727.**

ENGINEERS.

Chief of Engineers. **R., 93, 323; 94, 296; 95, 331; 96, 287; 97, 367; 98, 351; 99, 444; 00, 508; 01, 501; 02, 426; 03, 459; 04, 495, 502; 05, 502; 06, 552; 07, 578; 08, 620; 09, 652.**

Boards. BERH. reviews Maj. Derby's **R.** on pre. ex. and concurs in his opinion that locality is not worthy of imp., **04, 2728.**

In charge:

Lt. Col. G. J. Lydecker, 1891-93. **R., 93, 2562.**

Capt. J. G. Warren, 1894-98. **R., 94, 1946; 95, 2444; 96, 2242; 97, 2453; 98, 1970, 1982.**

Capt. G. A. Zinn, 1899-1900. **R., 99, 2577; 00, 3497.**

Capt. W. L. Sibert, 1900-01. **R., 01, 2801.**

Maj. E. H. Ruffner, 1901-02. **R., 02, 1985.**

Maj. Geo. McC. Derby, 1902-03. **R., 03, 1773; 04, 2727.**

Capt. H. Burgess, 1903-08. **R., 04, 2673; 05, 1946; 06, 1674; 07, 1806; 08, 1874.**

Capt. Lytle Brown, **09, 644.**

Lt. Col. J. G. Warren, 1908-09. **R., 09, 1879.**

Assistants:

O. L. Petitdidier. **R., 93, 2565.**

W. W. Duffield. **R., 94, 1947.**

T. P. Shanks. **R., 97, 2454; 98, 1974.**

OPERATIONS.

1892-93. 3,870 t. snags removed, **93, 2562.**

1893-94. Some snagging done, **94, 1946.**

1895-96. Some snagging done, **96, 2242.**

1897-98. Some snagging done, **98, 1982.**

1899-00. 250 obstr. removed, **00, 3497.**

1900-01. 375 snags, trees, and other obstr. removed, **01, 2801.**

PHYSICAL CHARACTERISTICS.

The bed of the chan. is full of dangerous snags, so that the traffic on the R. is only nominal, **04, 2727.**

SURVEYS.

Pre. ex. au. act June 13, 1902, from Vincennes to Perrysville, Ind. **R.** by Maj. Derby, Sept. 19, 1903³ (unfav.), **04, 502, 2726.**

 W. W. Duffield. **R.**, 94, 1949.
 T. P. Shanks. **R.**, 97, 2487.

OPERATIONS.

1879-80. 277 snags removed, **80**, 1843.
 1880-81. 218 snags removed from chan.; barges built; 1,500 l. f. of logs framed into cribwork; quarry opened and material obtained for wing dam, **81**, 2005, 2006.
 1881-82. 454 snags and 176 trees removed; 1,500 l. f. of round timber cribwork built; 2,491 c. y. st. removed from cut at Kellys Ripple; 375 l. f. of pile, brush, and st. wing dams built at Thornes Eddy, **82**, 1976.
 1882-83. 420 l. f. of cribwork extension at Kellys Ripple; dr. built; 273 snags and 177 trees removed from chan., **83**, 1588.
 1883-84. 2,675 c. y. st. removed from Kellys Ripple, **84**, 1765.
 1884-85. 17,701 c. y. r. removed from cut at Kellys Ripple, **85**, 1642.

¹ Amount expend. under the permanent-indefinite app. provided by acts of July 5, 1884, and Mar. 3, 1909, for operating and keeping in repair canals and other public works.

1886-87. 2,625 c. y. r. removed from Kellys
Ripple, 87, 1871.
1887-88. 5,190 c. y. r. removed, 88, 1745.
1888-89. 7,835 c. y. r. removed, 89, 1938.
1891-92. 350 l. f. of guiding dike built at Kellys
Ripple, 92, 2038.
1892-93. 915 t. snags, etc., and 86 piles re-
moved, 93, 2567.
1893-94. 2,229 t. snags, etc., removed, 94,
1948.
1894-95. 726 t. snags, etc., removed, 95, 2445.

PHYSICAL CHARACTERISTICS.

Description of, 97, 2484. Consists of main R.,
48 m. l.; of East Fork, 20½ m. l.; and of West Fork,
14 m. l. L-w. navigation of the forks is imprac-
ticable for even small boats, 95, 2445.
H-w. marks, 97, 2491.

PROJECTS.

By Maj. Smith, 1879, chan. with clear d. of 2',
mouth to Portersville on the East Fork and Falls
on the West Fork, by removal of snags and d. chan.
by wing dams and dikes, 79, 148, 1454; 81, 2007.

Modified in 1880 to obtain chan. 3½' d. from mouth
to Hazelton by r. removal at Kellys Ripple, dike
constr., and removal of snags, 80, 1843; 86, 279.
1879 to 1886, incl., \$102,500 app.; amount est. to
complete proj., \$17,500, 87, 247.
Capt. Warren, 1896, est. \$465,946 or \$549,977 to
imp. R., and an. expend. of \$6,000 for mainten.,
97, 2484.

Work under old proj. completed "several years
ago," and as there is no proj. in force at "present,"
no further report will be made until additional app.
becomes available, 09, 655.

SURVEYS.

Ex. au., 1878, incl. East Fork to new br., near
Bedford, and West Fork to town of Gosport, 78,
109; 79, 149.

Resur. au. act Aug. 17, 1894. R. by Capt. War-
ren, 1896 (unfav.; see Projects), 96, 2245; 97, 2483.
Bench marks, East and West Forks and R.
proper, 97, 2489, 2490.

White R. proper and a portion each of East Fork
and West Fork, resur., 02, 1987.

Maps. Of Kellys Ripple, 80, 1842.

BB-35

EMBARRAS RIVER, ILL.

COMMERCE.

None, 1892. Outlook for future not fav., 93,
2574.

ENGINEERS.

Chief of Engineers. R., 93, 324.
In charge. Lt. Col. J. G. Lydecker, 1892. R.,
93, 2573.

Assistant. O. L. Pettitdidier. R., 93, 2574.

PHYSICAL CHARACTERISTICS.

Description of. About 180 m. l., shallow, and
obstr. by numerous snags, etc., 93, 2573.

SURVEY.

Ex. au. act July 13, 1892; made, 1892, by Lt. Col.
Lydecker (R. unfav.), 93, 2573.

BB-36

LITTLE WABASH RIVER, ILL.

COMMERCE.

Description of; chiefly grain. Value of the
stream to C. dependent on Wabash R., a but
partly imp. stream, 93, 2570.
Description of, 04, 2700.

ENGINEERS.

Chief of Engineers. R., 93, 324; 04, 502.

Boards. BERH. reviews Maj. Derby's R. and
uncerts in his opinion that it is not desirable to
undertake imp., 04, 2700.

In charge:

Lt. Col. J. G. Lydecker, 1892-93. R., 93, 2569.
Maj. G. McC. Derby, 1904. R., 04, 2699.

Assistants:

O. L. Pettitdidier. R., 93, 2571.
G. W. Shaw. R., 04, 2701.

OBSTRUCTIONS.

Navigation obstr. by a milldam at Carmi, and
bet. this point and the mouth there is a drawless
wagon br., 93, 2570.

PHYSICAL CHARACTERISTICS.

Description of. About 250 m. l., emptying into
the Wabash about 15 m. from the latter's con-
fluence with the Ohio, 93, 2570.

Description of, 04, 2700.

PRIVATE (STATE) WORK.

L. and d. was completed, 1868, by State of Illi-
nois, but after being operated for a year it was
destroyed by fire, 93, 2570.

SURVEYS.

Ex. au. act July 13, 1892; made by Lt. Col.
Lydecker, 1892 (R. unfav.), 93, 2569.

Pre. ex. au. act June 13, 1902, mouth to Carmi.
R., Maj. Derby, Sept. 3, 1903 (unfav.),¹ 04, 502,
2698.
